Release 1	This version first released with FNS Financial Services Training Package Version 6.0.

Application

This unit describes the skills and knowledge required to select techniques and provide appropriate advice and services when loss adjusting business interruption claims. It includes determining liability and extent of loss, and loss mitigation and recovery options for business interruption types of insurance loss or damage.

The unit applies to individuals working in the loss adjusting sector who use specialised knowledge, analytical skills and techniques to complete their work within organisations of various sizes and across a range of customer bases.

Work functions in the occupational areas where this unit may be used are subject to regulatory requirements. Users are advised to check with the relevant state and territory regulatory authorities to confirm those requirements.
