# Assessment Requirements for FNSILD502 Resource a distribution plan

## Modification History

Release	Comments
Release 1	This version first released with FNS Financial Services Training Package Version 1.0.

## Performance Evidence

Evidence of the ability to:

- organise and document human resource requirements for the distribution plan
- determine and organise suitable technology and infrastructure requirements for the organisation relating to the distribution plan
- determine and organise other infrastructure requirements for the distribution plan.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

## Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify and describe key features of facilities and infrastructure required for servicing a distribution plan
- identify and explain human resource procedures and requirements, considering the relevant legislation
- identify key features and requirements of IT to service the distribution plan
- explain the role of logistics, and discuss procurement techniques and tools relating to distribution plans
- outline technology resources relating to distribution plans.

## Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in the insurance life distribution field of work and include access to:

- common office equipment, technology, software and consumables
- organisational records

- organisational policy and procedures.

Assessors must satisfy NVR/AQTF assessor requirements.
