FSKNUM006 Use simple and highly familiar spatial information for work

Release: 1

FSKNUM006 Use simple and highly familiar spatial information for work

Modification History

Release	Comments
Release 1	This version first released with FSK Foundation Skills Training Package Version 2.0.

Application

This unit describes the skills and knowledge required to use simple and familiar spatial information in highly familiar workplace maps, diagrams and oral directions. It includes locating and recognising direction and location information, performing simple spatial processes and communicating simple spatial information.

An individual performing this work operates alongside an expert or mentor where prompting advice can be provided.

This unit applies to individuals who use, or are preparing to use, numeracy skills to complete workplace activities. This includes existing workers and individuals preparing for employment through vocational education and training. The unit can be integrated and contextualised with vocational training to support achievement of vocational competency.

This unit is aligned to, but does not fully address, the Australian Core Skills Framework (ACSF) numeracy core skill indicators .09, .10 and .11 at level 1 in the workplace and employment domain of communication.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Numeracy
