# **Assessment Requirements for FWPCOR2203 Follow environmental care procedures**

**Release: 1**

# Assessment Requirements for FWPCOR2203 Follow environmental care procedures

## Modification History

Release	Comment
1	<p>Replaces equivalent unit FPICOR2203B Follow environmental care procedures, which was first released with FPI11 Forest and Forest Products Training Package Version 1. This is the first release of this unit in the new standards format.</p> <p>Assessment requirements now specify the performance and knowledge evidence, as well as assessment conditions for this unit of competency. These sections simplify and replace components used in the previous unit format, including 'Required Skills and Knowledge, Evidence Guide and Range Statement'.</p>

## Performance Evidence

A person demonstrating competency in this unit must satisfy all of the elements, performance criteria and foundation skills of this unit. If a specific volume or frequency is not stated below, then evidence must be provided that the following requirements have been performed on at least one occasion:

- follow site, legal and organisational requirements and protocols relevant to environmental care
- identify environmental hazards and risks that could occur in their own work setting
- calculate the probability and consequences of those risks
- respond to environmental risks safely and according to site procedures and scope of responsibility within the workplace.

## Knowledge Evidence

A person competent in this unit must be able to demonstrate knowledge of:

- legal and organisational requirements and codes of practice relevant to environmental care
- environmental protection requirements related to the work setting and work role
- organisational and site standards relevant to environmental care procedures
- environmental care policies and practices
- risk management, hazards and hazard identification
- established workplace and site specific communication channels and protocols
- types of tools and equipment and procedures used in response to environmental hazards and risk, and the safe use and maintenance of these tools
- procedures for recording and reporting workplace and site specific information.

## Assessment Conditions

The following resources must be made available:

- resources that would be used for environmental care
- organisational and site policies and procedures for environmental care.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessor requirements

Assessors must:

- hold the appropriate assessor competency standards as outlined in regulations; and
- be able to demonstrate vocational competencies at least to the level being assessed; and
- be able to demonstrate how they are continuing to develop their VET knowledge and skills as well as maintaining their industry currency and assessor competence.
