Assessment Requirements for FWPCOR3201 Implement safety, health and environment policies and procedures

Assessment Requirements for FWPCOR3201 Implement safety, health and environment policies and procedures

Modification History

Release	Comment
1	Replaces equivalent unit FPICOR3201B Implement safety, health and environmental policies and procedures, which was first released with FPI11 Forest and Forest Products Training Package Version 2.2. This is the first release of this unit in the new standards format. Assessment requirements now specify the performance and knowledge evidence, as well as assessment conditions for this unit of competency. These sections simplify and replace components used in the previous unit format, including Required Skills and Knowledge, Evidence Guide and Range Statement

Performance Evidence

A person demonstrating competency in this unit must satisfy all of the elements, performance criteria and foundation skills of this unit. If a specific volume or frequency is not stated below, then evidence must be provided that the following requirements have been performed on at least one occasion:

- follow applicable legal and regulatory requirements, and codes of practice related to safety, health and the environment
- interpret and implement SHE policies
- identify environmental hazards and equipment faults and demonstrate appropriate response procedures manage environmental hazards
- follow emergency procedures
- record and report SHE incidents.

Knowledge Evidence

A person competent in this unit must be able to demonstrate knowledge of:

- organisational and site standards, requirements, policies and procedures for the implementation of SHE policies and procedures
- environmental risks and hazard identification
- processes for the assessment and control of risks
- emergency procedures
- environmental protection requirements
- principles of environmental sustainability:
  - waste management

- recycling and reuse
- emissions control
- energy efficiency
- procedures for recording and reporting :
  - hazards
  - incidents
  - equipment malfunctions
- controls for :
  - air emissions
  - solid and hazardous wastes
  - contamination of land
  - noise
  - odour
  - dust
  - traffic
  - water discharges
  - energy use
  - raw material and resource use
  - hazardous material storage and handling.

Assessment Conditions

The following resources must be made available:

- policies and procedures relevant to implementing safety, health and environmental policies and procedures
- personal protective equipment
- recording tool for incidents and hazards

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessor requirements

Assessors must:

- hold the appropriate assessor competency standards as outlined in regulations; and
- be able to demonstrate vocational competencies at least to the level being assessed; and
- be able to demonstrate how they are continuing to develop their VET knowledge and skills as well as maintaining their industry currency and assessor competence.
