**Release: 3**

# Assessment Requirements for FWPCOR3204 Visually assess materials

## Modification History

Release	Comments
Release 3	This version released with FWP Forest and Wood Products Training Package Version 4.0.
Release 2	This version released with FWP Forest and Wood Products Training Package Version 3.0.
Release 1	This version released with FWP Forest and Wood Products Training Package Version 2.0.

## Performance Evidence

A person demonstrating competency in this unit must satisfy all of the elements, performance criteria and foundation skills of this unit. If a specific volume or frequency is not stated below, then evidence must be provided that the following requirements have been performed on at least one occasion:

- follow organisational policies and procedures relevant to the visual assessment of material
- visually assess the quality of materials for characteristics, defects and imperfections, to meet industry standards
- recognise and mark defects and sub-standard materials
- distribution of materials using designated equipment.

## Knowledge Evidence

A person competent in this unit must be able to demonstrate knowledge of:

- industry standards and codes of practice related to processes for visually assessing materials
- environmental protection requirements, including the safe disposal of waste material
- organisational and site standards, policies and procedures relevant to visually assessing materials
- methods of visual estimation and assessment, colour identification and tagging
- typical material defects and characteristics
- treatment of materials to eradicate insect attack or other defects
- distribution processes for assessed materials
- storage systems and labelling

- types of tools and equipment used for visually assessing materials and procedures for their safe use and maintenance
- procedures for recording and reporting workplace information.

## Assessment Conditions

The following resources must be made available:

- materials for visual assessment
- equipment for measuring moisture in logs
- site policies and procedures for visually assessing materials
- recording or reporting tools for recording outcomes of assessment and
- personal protective equipment relevant to visually assessing materials

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessor requirements

Assessors must:

- hold the appropriate assessor competency standards as outlined in regulations; and
- be able to demonstrate vocational competencies at least to the level being assessed; and
- be able to demonstrate how they are continuing to develop their VET knowledge and skills as well as maintaining their industry currency and assessor competence.
