Assessment Requirements for FWPCOT2255 Store materials

Release: 1

Assessment Requirements for FWPCOT2255 Store materials

Modification History

Release	Comments
Release 1	This version released with FWP Forest and Wood Products Training Package Version 6.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has received, prepared and stored a minimum of three packs containing different products into an allocated storage area, and:

- visually checked product for alignment with quality and grade
- applied manual or mechanical handling techniques according to workplace safety procedures.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- workplace policies and procedures relevant to receiving and storing timber products
- methods of visual estimation, grading, colour identification and tagging
- industry standard lengths, cross sections, appearance grades of timber products
- processes, procedures and techniques for storing timber and timber products
- workplace safety requirements relevant to storing timber materials:
 - personal protective equipment (PPE)
 - hazardous manual handling
 - exposure to dust
- requirements for disposing of waste according to workplace safety and environmental procedures
- purpose, features and operation of lifting equipment:
 - fork lifts
 - slings
 - trolley jacks
 - gantry cranes
 - loaders
- procedures for recording and reporting receipt of stock.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a timber manufacturing or processing facility or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - packs of timber products
 - mechanical lifting equipment
 - PPE
- specifications:
 - access to workplace environmental policies and procedures relating to disposal of waste applicable to storing timber materials
 - access to work orders and workplace safety procedures relating to handling and storing timber materials
 - access to workplace procedures and forms for storing and recording storage outcomes
- relationships:
 - team members/supervisor to confirm work orders and report work-related issues.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
