Assessment Requirements for FWPCOT2260 Tally material

Release: 1

Assessment Requirements for FWPCOT2260 Tally material

Modification History

Release	Comments
Release 1	This version released with FWP Forest and Wood Products Training Package Version 6.0.

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has:

- completed tallying of at least two different work orders including both timber and hardware items and fittings, and has also completed a tallying task for either:
 - a pack of random timber cross-sections, lengths or panel sizes or
 - a pack of set timber cross-sections, lengths or panel sizes
- completed tally sheets or electronic records for each tallying job
- completed records for non-conformances and damaged material identified during each tallying job.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- manual and electronic methods used to tally material in a forest product processing setting
- format, content and use of industry and workplace specific procedures to record and report tallies
- industry standard sizing and names for timber, timber profiles and boards
- industry and workplace standards and specifications for packaging timber products
- features of non-conformant packs
- purpose, features and use of tools for tallying in a forest products processing setting, including:
 - cyclic or periodic stocktaking
 - electronic bar coding equipment
 - manual tally sheets
- workplace procedures relevant to tallying material:
 - communication reporting lines
 - recording and reporting non-conformances and damaged material

- recording and reporting tallying results
- workplace safety requirements relevant to tallying materials:
 - hazard identification and controls
 - personal protective equipment (PPE)
 - manual handling.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated in a timber manufacturing or processing facility or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - timber packs, timber and hardware items and fittings for tallying
 - PPE
 - tallying and recording tools and equipment
- specifications:
 - access to work orders or instructions detailing the tallying activity to be conducted
 - access to workplace safety and environmental policies and procedures applicable to tallying materials
 - access to workplace procedures and forms for recording tallies
- relationships:
 - person to confirm work orders and report production and quality issues.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
