# **FWPCOT3260 Recover four wheel drive vehicles**

**Release: 1**

## FWPCOT3260 Recover four wheel drive vehicles

### Modification History

| Release | Comment  |
|---------|--|
| 1       | Replaces equivalent unit FPICOT3260 Recover four wheel drive vehicles, which was first released with FPI11 Forest and Forest Products Training Package Version 2.<br><br>This is the first release of this unit in the new standards format. |

### Application

This unit of competency describes the outcomes required to use recovery equipment and advanced skills to recover four-wheel drive (4x4) vehicles in difficult terrain conditions.

The unit applies to those who recover 4x4 vehicles in a variety of work settings.

No licensing, legislative, regulatory, or certification requirements apply to this unit at the time of publication.

### Pre-requisite Unit

Nil

### Unit Sector

Forest Growing and Management

Harvesting and Haulage

Sawmilling and Processing

### Elements and Performance Criteria

| ELEMENTS   | PERFORMANCE CRITERIA   |
|--|--|
| <i>Elements describe the essential outcomes.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions.</i> |
| 1. Plan 4x4 recovery                             | 1.1 Survey site to identify hazards, assess risks and select suitable strategy.<br><br>1.2 Select personal protective equipment appropriate to type of   |

| <b>ELEMENTS</b>                          | <b>PERFORMANCE CRITERIA</b>   |
|--|---|
|  | recovery operation.<br>1.3 Inform appropriate personnel of location.<br>1.4 Determine potential environmental impact of recovery.   |
| 2. Apply safe recovery method            | 2.1 Establish and maintain communications with appropriate personnel during recovery operations.<br>2.2 Determine recovery method based on the terrain conditions and circumstances.<br>2.3 Consider operating variables, define danger zone and apply strategies to reduce risk and environmental impact during recovery.<br>2.4 Determine the recovery equipment required and its availability.<br>2.5 Set up an exclusion zone.<br>2.6 Repair environmental damage where possible. |
| 3. Use vehicle recovery equipment safely | 3.1 Identify hazards and position recovery equipment safely.<br>3.2 Use safe operating procedures while using recovery equipment.<br>3.3 Use rated recovery equipment within limitations and capabilities.  |
| 4. Maintain vehicle recovery equipment   | 4.1 Carry out maintenance on recovery equipment.<br>4.2 Document equipment maintenance according to organisational procedures.  |

## Foundation Skills

This section describes those core and employment skills that are essential to performance and are not explicit in the performance criteria.

|                            |  |
|----------------------------|--|
| Problem solving skills to: | <ul style="list-style-type: none"> <li>consider and determine recovery options.</li> </ul> |
|----------------------------|--|

## Range of Conditions

Not Applicable
