FWPCOT3327 Contribute to energy efficiency in the forest and wood products industry

Release: 1

FWPCOT3327 Contribute to energy efficiency in the forest and wood products industry

Modification History

Release	Comments
Release 1	This version released with FWP Forest and Wood Products Training Package Version 7.0.

Application

This unit of competency describes the skills and knowledge required to apply energy efficient work practices and contribute to improved energy use in the forest and wood products industry.

The unit applies to individuals working in a broad range of roles and operations in all sectors of the forest and wood industry.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety regulations, legislation and standards that apply to the workplace.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Common Technical (COT)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify the importance of energy efficiency in forest or wood products	1.1 Access workplace energy efficiency policies and procedures 1.2 Identify benefits of energy efficiency to the forest and wood products industry

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
operations	1.3 Apply life-cycle analysis to compare benefits of using wood products to other materials and promote outcomes to internal and external clients
2. Apply energy efficient work practices in forest or wood products operations	2.1 Follow workplace energy efficiency policy and procedures, including those related to recycling and waste management 2.2 Monitor own work practices to optimise energy efficiency
3. Identify opportunities to reduce energy use in forest or wood products operations	3.1 Participate in workplace reviews of energy use 3.2 Identify ways of improving energy efficiency in the workplace and report to appropriate personnel

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	Read industry literature on innovative energy efficiency policies, procedures and work practices
Writing	Complete forms and surveys related to energy use in the workplace
Oral communication	Apply effective oral communication skills to inform colleagues and respond to questions about energy efficiency
Numeracy	Interpret basic graphical information to monitor energy use in the workplace
