Application

This unit of competency describes the skills and knowledge required to provide advice and solutions to customers, clients and other sales staff using specialised wood and timber product knowledge. The unit includes advice on product selection, quality and quantity, price, services and warranties with respect to wood and timber products.

The unit applies to individuals who work as account sales staff, customer service/salespeople (retail or wholesale), customer service officers, sales team leaders, sales team leaders (timber products), timber advisers, and yard operators, and they are responsible for providing specialised advice on timber product solutions to customers and colleagues.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit
