FWPFOM5003 Contribute to and implement a forest harvesting plan

Release: 1

FWPFOM5003 Contribute to and implement a forest harvesting plan

Modification History

Release	Comments
Release 1	This version released with FWP Forest and Wood Products Training Package Version 7.0.

Application

This unit of competency describes the skills and knowledge required to contribute to the development and implementation of a forest harvesting plan for established coupes with the aim of maximising output and cost efficiencies.

The unit applies to individuals who are involved in developing and implementing forest harvesting plans.

All work must be carried out to comply with workplace procedures, according to state/territory health and safety regulations, legislation and standards that apply to the workplace.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Forest Operations Management (FOM)

Elements and Performance Criteria

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare for developing forest harvesting plan	1.1 Assess workplace health and safety, environmental and regulatory requirements for harvest activities 1.2 Determine coupe locations using map and grid references, and

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	<p>establish boundaries</p> <p>1.3 Identify local authority coverage and approved land use zonings, and apply for approvals</p> <p>1.4 Obtain land ownings according to workplace procedures</p> <p>1.5 Assess ramifications of environmental issues documented in previous harvesting plans</p> <p>1.6 Report outcomes of initial findings to appropriate personnel, and confirm further actions</p>
2. Support development of forest harvesting plan	<p>2.1 Assess and record topography, forest types and available species</p> <p>2.2 Calculate gross area of each coupe and determine net area to be harvested</p> <p>2.3 Calculate and record volume estimates for each coupe</p> <p>2.4 Determine harvesting and cartage requirements</p> <p>2.5 Assess environmental conditions and plan site preparation, access and operational activities</p> <p>2.6 Liaise and seek support from senior personnel during preparation of draft harvesting plan, as required</p> <p>2.7 Produce draft harvesting plan according to workplace procedures</p> <p>2.8 Forward draft harvesting plan to appropriate personnel and confirm further actions</p>
3. Coordinate implementation of harvesting plan	<p>3.1 Confirm contractual arrangements with contractors for implementation of harvesting plan</p> <p>3.2 Monitor ongoing implementation of harvesting operations against harvesting plan</p> <p>3.3 Monitor contractor compliance with production, environment protection and other contractual requirements</p> <p>3.4 Identify and resolve contractor non-compliances within scope of responsibility and workplace procedures</p> <p>3.5 Report on implementation of harvesting plan to appropriate personnel</p>
4. Review implementation of harvesting plan	<p>4.1 Gather and assess information on implementation of harvesting plan according to workplace procedures</p> <p>4.2 Consult with contractors, senior personnel and other stakeholders</p>

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
	<p>on potential improvements to harvesting plan</p> <p>4.3 Forward report on review of harvesting plan, including suggestions for future improvements to planning and implementation of harvesting operations, to appropriate personnel</p>

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Reading	<ul style="list-style-type: none"> Interpret complex written regulatory and environmental information affecting harvesting plans
Writing	<ul style="list-style-type: none"> Prepare complex written documents, including detailed approval applications for harvesting plans
Oral communication	<ul style="list-style-type: none"> Use verbal and non-verbal communication and active listening skills to communicate with contractors and resolve issues associated with implementation of harvesting plans
Numeracy	<ul style="list-style-type: none"> Perform calculations involving gross and nett spatial areas, volumes of extraction and weight for cartage
