Release 1

FWPSS00045 Stacking and Storing Timber Frames and Trusses Skill Set

Modification History

Release	Comments
Release 1	This version released with FWP Training Package Version 6.0.

Description

This skill set is designed to cover the knowledge and skills required to stack and store assembled timber wall frames and/or roof or floor trusses. It also includes applying knowledge and skills to work and handle materials safely in a manufacturing environment.

Pathways Information

These units of competency provide credit towards FWP30920 Certificate III in Timber Frame or Truss Manufacture from the FWP Forest and Wood Products Training Package.

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

Skill Set Requirements

- FWPCOR2205 Follow WHS policies and procedures
- FWPCOT2206 Stack and bind material
- FWPCOT2255 Store materials
- TLID1001 Shift materials safely using manual handling methods

Target Group

This skill set is for fabricators working in the timber frame and truss manufacturing industry who stack and store assembled frames and trusses for dispatch.

Suggested words for Statement of Attainment

These competencies from the *FWP Forest and Wood Products Training Package and TLI Transport and Logistics Training Package* meet the industry requirements for stacking and storing timber frames and trusses.
