**Release: 1**

# FWPSS00053 Soil and Water Protection (Roading) Skill Set

## Modification History

Release	Comments
Release 2	This version released with FWP Forest and Wood Products Training Package Version 7.0. This skill set supersedes and is equivalent to FWPSS00024 Skill set for soil and water protection (roading).

## Description

This skill set provides the skills and knowledge required to implement soil and water protection procedures in a forest roading operation while applying workplace health and safety procedures.

## Pathways Information

These units of competency provide credit towards *FWP30121 Certificate III in Forest Operations* from the FWP Forest and Wood Products Training Package.

## Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this skill set at the time of publication.

## Skill Set Requirements

- AHCSAW304 Implement erosion and sediment control measures
- FWPCOR2210 Follow workplace health and safety policies and procedures in forest and wood products operations
- FWPCOT3314 Comply with soil and water protection

## Target Group

This skill set is for forestry workers and people wishing to work in a forest soil and water protection role within a forestry environment.

## Suggested words for Statement of Attainment

These competencies from the AHC Agriculture, Horticulture and Conservation and Land Management and FWP Forest and Wood Products Training Packages meet the industry requirements for soil and water protection in a forest roading operation.
