Assessment Requirements for FWPWPP2208 Cut veneer

Release: 1

Assessment Requirements for FWPWPP2208 Cut veneer

Modification History

Release	Comment
1	<p>Replaces equivalent FPIWPP2208B Cut veneer, which was first released with FPI11 Forest and Forest Products Training Package Version 2.2. This is the first release of this unit in the new standards format.</p> <p>Assessment requirements now specify the performance and knowledge evidence, as well as assessment conditions for this unit of competency. These sections simplify and replace components used in the previous unit format, including Required Skills and Knowledge, Evidence Guide and Range Statement</p>

Performance Evidence

A person demonstrating competency in this unit must satisfy all of the elements, performance criteria and foundation skills of this unit. If a specific volume or frequency is not stated below, then evidence must be provided that the following requirements have been performed on at least one occasion:

- cut veneer line with individual work orders that prescribe different lengths, width, tolerances and quantities for each job.
-

Knowledge Evidence

A person competent in this unit must be able to demonstrate knowledge of:

- environmental protection practices for forest products factory settings:
 - reducing water and energy use
 - cleaning plant, tools and equipment
 - disposing of, recycling and reusing veneer
- typical flow of material supply in and out of the veneer cutting area
- typical work flow processes and veneer cutting techniques for optimising sheet sizes
- methods used to visually assess condition of veneer for strength, gaps and typical defects:
 - incorrect moisture content
 - warp
 - wane
 - shakes
 - insect defects
 - splits

- knots
- resin pockets
- purpose, features and operation of equipment used to cut veneer:
 - electronic guillotines
 - conveyor belt systems
 - different types of lifting equipment:
 - fork lifts
 - slings
 - trolley jacks
 - gantry cranes
 - loaders
- organisational procedures specific to cutting veneer:
 - workplace health and safety with particular emphasis on equipment lock out and use of personal protective equipment
 - communication reporting lines
 - recording and reporting production outcomes and equipment faults.
 -

Assessment Conditions

The following resources must be made available:

- electronic guillotines
- lifting equipment
- personal protective equipment suitable for cutting veneer
- commercial veneer
- manufacturers' instructions for use of equipment
- work order with specific instructions for cutting veneer
- template documents for recording production outcomes and equipment faults
- relevant personnel for the purposes of communicating information
- organisational procedures for cutting veneer.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting.

Assessor requirements

Assessors must:

- hold the appropriate assessor competency standards as outlined in regulations; and
- be able to demonstrate vocational competencies at least to the level being assessed; and
- be able to demonstrate how they are continuing to develop their VET knowledge and skills as well as maintaining their industry currency and assessor competence.
-
