FWPWPP2208 Cut veneer

Release: 1

FWPWPP2208 Cut veneer

Modification History

Release	Comment
1	Replaces equivalent FPIWPP2208B Cut veneer, which was first released with FPI11 Forest and Forest Products Training Package Version 2.2. This is the first release of this unit in the new standards format.

Application

This unit of competency describes the outcomes required to cut veneer to width and length in readiness for bonding to panel products.

The unit applies to production workers who cut veneer in a forest and wood products factory setting.

No licensing, legislative, regulatory, or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Unit Sector

Wood Panel Products

Elements and Performance Criteria

<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the range of conditions.</i>
1. Prepare for cutting	<p>1.1 Review work order and where required check with appropriate personnel.</p> <p>1.2 Select appropriate personal protective equipment and check for operational effectiveness.</p> <p>1.3 Obtain type and quantity of veneer to be cut from veneer production process.</p> <p>1.4 Select cutting process and plan in line with work order.</p>

2. Operate equipment to cut veneer	<p>2.1 Use equipment in line with organisational safety procedures, manufacturer's instructions and environmental protection practices.</p> <p>2.2 Complete pre start up equipment checks to ensure operational effectiveness.</p> <p>2.3 Coordinate conveyor and guillotine operation with veneer production.</p> <p>2.4 Select optimal cutting positions to minimise defects and maximise full width sheets.</p> <p>2.5 Complete cutting and monitor conveyor feed rate regularly for material flow problems.</p> <p>2.6 Cut veneer to specification and assess veneer visually throughout cutting process for strength, gaps and defects.</p>
3. Redistribute material	<p>3.1 Direct material to storage or processing operations in line with organisational procedures.</p> <p>3.2 Dispose of incorrect cuts, off cuts and defective material in line with environmental protection practices.</p> <p>3.3 Clean work area in line with organisational safety procedures.</p> <p>3.4 Record and report production outcomes and equipment faults to appropriate personnel.</p>

Foundation Skills

This section describes those core and employment skills that are essential to performance and are not explicit in the performance criteria.

Numeracy skills to:	<ul style="list-style-type: none"> • identify quantities of required material within work orders and count amounts of veneer to be processed • complete basic calculations of required length and width to determine equipment set up.
Oral communication skills to:	<ul style="list-style-type: none"> • ask questions and actively listen to clarify contents of work orders.
Reading skills to:	<ul style="list-style-type: none"> • interpret: <ul style="list-style-type: none"> • workplace health and safety and other organisational procedures • work orders • manufacturers' instructions.
Writing skills to:	<ul style="list-style-type: none"> • complete accurate basic records for production outcomes and equipment faults.

Planning and organising skills to:	<ul style="list-style-type: none">efficiently and logically sequence the stages of preparation and production using work order to guide activities.
