## Qualification Description

This qualification reflects pre-hospital and out-of-hospital workers employed to provide patient assessment, healthcare and transport services. These workers possess clinical skills and theoretical knowledge and provide clinical assessment and pre-hospital and out-of-hospital interventions to patients in an emergency, including providing advanced skills in life support. This qualification applies to a variety of roles within the health care and patient transport system.

To achieve this qualification, the candidate must have completed at least 160 hours of work as detailed in the Assessment Requirements of Units of Competency.

*No occupational licensing, certification or specific legislative requirements apply to this qualification at the time of publication.*

## Packaging Rules

17 units must be completed:

- 9 core units
- 8 elective units, consisting of:
  - at least 4 units from the electives listed below,

- up to 4 units from the electives listed below or from any other current endorsed Training Package or accredited course.

The selection of electives must be relevant to the job outcome sought, local industry requirements and the complexity of skills appropriate to the AQF level of this qualification.

### **Core units**
