HLTAAP003 Analyse and respond to client health information

Release: 1

HLTAAP003 Analyse and respond to client health information

Modification History

Release	Comments
Release 1	<p>This version was released in <i>HLT Health Training Package release 2.0</i> and meets the requirements of the 2012 Standards for Training Packages.</p> <p>Significant changes to the elements and performance criteria. New evidence requirements for assessment, including volume and frequency. Removed prerequisite. Significant change to knowledge evidence.</p>

Application

This unit of competency describes the skills and knowledge required to analyse client health information and then to plan appropriate health services within scope of own role. It requires an in-depth knowledge of anatomy and physiology.

This unit applies to individuals who plan and provide services with some level of autonomy. Some disciplines will require a state/territory regulatory determination regarding delegation and supervision.

The skills in this unit must be applied in accordance with Commonwealth and State/Territory legislation, Australian/New Zealand standards and industry codes of practice

Elements and Performance Criteria

ELEMENT

PERFORMANCE CRITERIA

Elements define the essential outcomes

Performance criteria describe the performance needed to demonstrate achievement of the element

1. Assess client health status

1.1 Analyse client health information in relation to planning services and in line with organisation requirements

1.2 Recognise normal readings on the findings of available tests, observations and physical assessments that assist in determining health status

1.3 Identify pathophysiologies, or changing pathologies, through observation, physical assessment and analysis of other available information

ELEMENT**PERFORMANCE CRITERIA**

Elements define the essential outcomes

Performance criteria describe the performance needed to demonstrate achievement of the element

1.4 Identify the likely impact of specific interventions

2. Plan action to address identified health status

2.1 Apply detailed understanding of anatomy, physiology and pathophysiology of disease to a problem solving approach to service planning.

2.2 Consider and note implications of any contra-indications in relation to health assessment findings.

2.3 Document action plan in accordance with organisation policies and procedures.

Foundation Skills

The Foundation Skills describe those required skills (language, literacy, numeracy and employment skills) that are essential to performance.

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

No equivalent unit.
