Assessment Requirements for HLTAHA009 Assist in the rehabilitation of clients

Release: 1

Assessment Requirements for HLTAHA009 Assist in the rehabilitation of clients

Modification History

Release	Comments
Release 1	<p>This version was released in <i>HLT Health Training Package release 2.0</i> and meets the requirements of the 2012 Standards for Training Packages.</p> <p>Significant changes to the elements and performance criteria. New evidence requirements for assessment including volume and frequency requirements. Minimum work hours added. Significant change to knowledge evidence.</p>

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be evidence that the candidate has:

- worked collaboratively with 3 clients, 1 in a simulated environment and 2 in the workplace, in the pursuit of rehabilitation outcomes in line with established rehabilitation principles and practices
- performed the activities outlined in the performance criteria of this unit during a period of at least 120 hours of work

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- the principles and practices of rehabilitation
- the impact of illness on the client's functional performance
- where to access resources, aids and information for rehabilitation programs
- strategies to support, motivate and encourage clients in a rehabilitation program
- concepts and procedures for stepping down treatment or intervention when client becomes distressed, in pain or wishes to stop
- organisation policy and procedures in relation to:
 - infection control as it relates to the allied health assistant's role in assisting with client rehabilitation
 - record keeping in relation to rehabilitation programs

- quality assurance, best practice and accreditation standards
- other specific organisation policies or procedures, including supervisory and reporting protocols
- legal and ethical considerations relevant to allied health:
 - codes of practice for work in occupational therapy or other relevant allied health areas
 - privacy, confidentiality and disclosure
 - duty of care
 - work role boundaries – responsibilities and limitations including when and how to provide feedback about client
 - work health and safety (WHS):
 - manual handling including identification and control of manual task risk factors

Assessment Conditions

All aspects of the performance evidence must have been demonstrated using simulation prior to being demonstrated in a therapeutic workplace under the direction and supervision (direct, indirect, remote) as determined by the allied health professional.

The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including individualised plans and any relevant equipment outlined in the plan
- modelling of industry operating conditions and contingencies, including provision of services to real people

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.
