New evidence requirements for assessment including volume and frequency requirements. Minimum work hours added.</p> <p>Removal of pre-requisite.</p>

Application

This unit describes the skills and knowledge required to support individuals and groups participating in hydrotherapy programs designed to restore optimum movement and functional independence.

This unit applies to allied health assistants and should be performed under the direction and supervision (direct, indirect or remote) of an allied health professional.

The skills in this unit must be applied in accordance with Commonwealth and State/Territory legislation, Australian/New Zealand standards and industry codes of practice.

Elements and Performance Criteria

ELEMENT

PERFORMANCE CRITERIA

Elements define the essential outcomes

Performance criteria describe the performance needed to demonstrate achievement of the element.

1. Prepare for hydrotherapy program

1.1 Confirm program requirements against the prescribed information provided by the allied health professional

1.2 Confer with allied health professional if requirements outlined in the program are not clear, do not take into account client needs and abilities or are beyond scope of role and responsibilities as defined by the organisation

1.3 Determine the clients' availability, according to the organisation's protocols

1.4 Gather necessary equipment for the program

1.5 Prepare the setting for the program

ELEMENT**PERFORMANCE CRITERIA**

Elements define the essential outcomes

Performance criteria describe the performance needed to demonstrate achievement of the element.

- 1.6 Ensure adequate staff are present to meet organisation's staff: client ratio requirements
- 1.7 Obtain consent from the clients before commencing the program
2. Conduct the hydrotherapy program
