Assessment Requirements for HLT AHW011 Assist with basic health screening, promotion and education services

Modification History

Release	Comments
Release 2	Updated: <ul style="list-style-type: none">• assessor requirements statement• foundation skills lead in statement• licensing statement• modification history to reflect 2012 standards Equivalent outcome.
Release 1	This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the 2012 Standards for Training Packages. Significant changes to elements and performance criteria. New evidence requirements for assessment, including volume and environment requirements.

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- assisted with basic health screening of at least three Aboriginal and/or Torres Strait Islander clients by:
 - using culturally appropriate and safe communication skills to help clients to understand procedures
 - assisting primary health care team members with preparing for and carrying out screening procedures
- assisted in developing and delivering at least one health promotion and education service by:
 - using basic research skills to obtain, summarise and provide feedback on community information
 - helping to prepare written, spoken or digital health information to address needs of community
 - communicating effectively with clients to identify needs

- communicating effectively to deliver health information and education services, using visual and other aids as required.

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisation policies and procedures and legislation or regulations relating to:
 - client confidentiality
 - referral, including various levels of urgency, and follow-up of client
 - mandatory reporting
 - notifiable communicable diseases
 - limits of own ability and authority
 - reporting procedures
 - documentation
 - basic screening procedures.

Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of, and under the supervision of, a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

an Aboriginal and/or Torres Strait Islander Health Worker or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.
