## Assessment Requirements for HLTAHW050 Develop a healing framework for social and emotional wellbeing work

### Modification History

Release	Comments
Release 1	<p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment, including volume and environment requirements</p>

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- participated in facilitated healing processes and developed healing frameworks for at least three client and/or groups of Aboriginal and/or Torres Strait Islander people by:
  - using appropriate verbal and non-verbal communication to understand and support at least three groups within the context of a healing process
  - applying self-reflection practices and disclosure to facilitate healing processes
  - acknowledging and clarifying the contribution of traditional roles, structures and processes to the healing process
  - using appropriate techniques to support the healing process through self-expression
  - completing a healing journal to document the healing process.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- storytelling therapies
- male and female perspectives
- transgenerational trauma
- story maps
- alternative therapies – art, music
- professional boundaries
- referral processes
- joint counselling techniques
- local language, culture and practices
- self-healing journey processes
- 

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care
