Application

This unit describes the skills and knowledge required to conduct health care programs to address impacts of food production, manufacturing and distribution on health in Aboriginal and/or Torres Strait Islander communities

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Community Services and Health Industry Skills Council

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
Elements define the essential outcomes.	*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*
1. Examine food security issues in Aboriginal and/or Torres Strait Islander community	1.1 Research food security issues in the local context
	1.2 Describe the characteristics of food security and coping strategies employed in the local context
