Assessment Requirements for HLTAHW062 Supervise health care team

Release: 1

Assessment Requirements for HLTAHW062 Supervise health care team

Modification History

Release	Comments
Release 1	<p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment, including volume and environment requirements</p>

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- supervised at least one health care team on an ongoing basis by:
 - identifying current networks and establishing new networks for at least three workers
 - encouraging the use of networks
 - setting unit objectives in line with priorities, action plans and organisation requirements
 - developing individual objectives for at least three workers, in line with organisation requirements
 - identifying and responding to staff gaps in consultation with others
 - creating and monitoring team rosters and schedules, adjusting as needed
 - consulting management as required when specific issues arise.

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- relevant requirements of legislation, awards and conditions of service
- relevant organisation human resource management policies
- strategies to meet staff training needs
- networking and information exchange processes
- existing program policy
- organisation guidelines, policies and procedures.

Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care
