Assessment Requirements for HLTAHW075 Manage community health projects

Release: 1

Assessment Requirements for HLT AHW075 Manage community health projects

Modification History

Release	Comments
Release 1	<p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment, including volume and environment requirements</p>

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- planned, implemented and evaluated at least one community health project to support the provision of health services for Aboriginal and/or Torres Strait Islander individuals and communities by:
 - consulting appropriately with community, stakeholders, staff and research team about the purpose, methodology and aims of the research
 - ensuring confidentiality of community information relevant to the project
 - performing a project risk assessment
 - coordinating flow of information with community and research team
 - facilitating groups for research, discussion and feedback purposes
 - documenting the progress and outcomes of the project
 - referring to relevant legislative and organisational requirements as appropriate.

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- relevant Commonwealth, state/territory and local government policies
- community/sector networks associated with community health
- funding guidelines related to community health projects
- local Community Health Plans
- organisation policies and guidelines.

Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as a senior member of and/or supervising a primary health care team
- with Aboriginal and/or Torres Strait Islander clients.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care
