HLTAID015 Provide advanced resuscitation and oxygen therapy

Release: 2

HLTAID015 Provide advanced resuscitation and oxygen therapy

Modification History

Release	Comments
Release 2	Minor grammatical changes to ensure clarity. Equivalent outcome. Updated mapping details.
Release 1	HLTAID015 Provide advanced resuscitation and oxygen therapy supersedes and is not equivalent to HLTAID007 Provide advanced resuscitation.

Application

This unit describes the skills and knowledge required to use specialised equipment in the provision of resuscitation and oxygen therapy in line with the Australian Resuscitation Council (ARC) guidelines.

This unit applies to persons who may be required to use specialised equipment to provide resuscitation or oxygen therapy in a range of complex situations, including community and workplace settings.

Specific licensing/regulatory requirements relating to this competency, including requirements for refresher training should be obtained from the relevant national/state/territory Work Health and Safety Regulatory Authorities.

Pre-requisite Unit

HLTAID011 Provide First Aid

Elements and Performance Criteria

ELEMENT

Elements define the essential outcomes.

1. Respond to an emergency situation.

PERFORMANCE CRITERIA

Performance criteria specify the level of performance needed to demonstrate achievement of the element.

- 1.1. Recognise and assess an emergency situation.
- 1.2. Ensure safety for self, bystanders and casualty.
- 1.3 Assess the casualty and recognise the need for CPR, advanced resuscitation response or oxygen therapy.

ELEMENT**PERFORMANCE CRITERIA**

Elements define the essential outcomes.

Performance criteria specify the level of performance needed to demonstrate achievement of the element.

2. Perform resuscitation procedures.	<p>1.4. Manage life-threatening bleeding.</p> <p>1.5. Seek assistance from emergency services.</p> <p>1.6. Ensure environment is safe for delivery of oxygen.</p> <p>2.1. Perform single-rescuer cardiopulmonary resuscitation (CPR) or two-rescuer resuscitation procedures, including use of oxygen, in accordance with the ARC guidelines and availability of rescuers.</p> <p>2.2. Display respectful behaviour towards casualty.</p> <p>2.3. Use available resources and equipment according to manufacturers' instructions.</p>
3. Deliver oxygen therapy.	<p>3.1. Identify need for oxygen therapy, including by using a pulse oximeter.</p> <p>3.2. Use appropriate delivery device to provide oxygen.</p> <p>3.3. Monitor casualty condition and rectify issues preventing adequate treatment.</p>
4. Communicate details of the incident.	<p>4.1. Accurately convey incident details to emergency services.</p> <p>4.2. Report details of incident in line with appropriate workplace or site procedures.</p> <p>4.3. Complete applicable documentation, including incident report form.</p> <p>4.4. Maintain privacy and confidentiality of information in line with statutory or organisational policies.</p>
5. Review the incident.	<p>5.1. Recognise the possible psychological impacts on self and other rescuers and seek help when required.</p> <p>5.2. Contribute to a review of the first aid response as required.</p> <p>5.3. Check, maintain and clean equipment ready for future use.</p>

Foundation Skills

The Foundation Skills describe those required skills (language, literacy, numeracy and employment skills) that are essential to performance.

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

HLTAID015 Provide advanced resuscitation and oxygen therapy supersedes and is not equivalent to HLTAID007 Provide advanced resuscitation.
