Assessment Requirements for HLTAIN002 Provide non-client contact support in an acute care environment

Release: 1

Assessment Requirements for HLTAIN002 Provide non-client contact support in an acute care environment

Modification History

Release	Comments
Release 1	This version was released in *HLT Health Training Package release 2.0* and meets the requirements of the 2012 Standards for Training Packages. Significant changes to the elements and performance criteria. New evidence requirements for assessment including volume and frequency requirements. Significant change to knowledge evidence.

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be evidence that the candidate has:

- provided non-client contact support to at least 1 nursing team in an acute setting:
  - accurately completing workplace forms, client health records and other documents required by the nursing team on at least 6 occasions
  - selecting, cleaning and storing at least 3 different types of equipment relevant to the needs of the nursing team

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- record keeping, filing systems and security procedures for the acute care environment
- the organisation's business and structure
- organisation policies and procedures related to:
  - collecting and processing information
  - infection control
- Legal and ethical considerations for working in an acute environment, including:
  - privacy, confidentiality and disclosure
  - work role boundaries – responsibilities and limitations
  - work health and safety (WHS)

- equipment requirements of an acute care environment, including:
  - positioning aids and patient movement equipment
  - medical gases/cylinders (fixed and portable) and their accessories
  - suction units and their accessories
  - vital signs equipment
  - emergency equipment

Assessment Conditions

Skills must be demonstrated in the workplace or in a simulated environment that reflects workplace conditions.

The following conditions must be met for this unit:

- client care plan/pathways
- equipment requirements outlined in the care plan
- infection control procedures
- business equipment and technology for obtaining and processing workplace documentation
- workplace forms and storing equipment
