Application

This unit describes the skills and knowledge required to determine the broad scope of client needs, make a detailed investigation of symptoms and collect other data that informs client diagnosis within an Ayurvedic framework.

This unit applies to Ayurvedic practitioners.

The skills in this unit must be applied in accordance with Commonwealth and State/Territory legislation, Australian/New Zealand standards and industry codes of practice

Elements and Performance Criteria

ELEMENT

PERFORMANCE CRITERIA

Elements define the essential outcomes

Performance criteria describe the performance needed to demonstrate achievement of the element.

1. Determine scope of client needs

- 1.1 Explore and clarify client objectives and expectations
- 1.2 Provide clear information about scope and limits of services to be provided
- 1.3 Recognise needs that are beyond scope of own practice and make appropriate referrals to other health care professionals
- 1.4 Identify and respond to any barriers to information gathering and assessment

ELEMENT**PERFORMANCE CRITERIA**

Elements define the essential outcomes

Performance criteria describe the performance needed to demonstrate achievement of the element.

2. Investigate client symptoms

2.1 Use Ayurvedic counselling techniques to seek client information in a respectful and sensitive manner

2.2 Tailor questioning to meet the needs of the individual client

2.3 Make observations and elicit specific details about physical and psychological symptoms through trividha pariksha (three fold examination)

2.4 Conduct physical examination of client using ashtvidha pariksha (eight fold examination and dasavidha pariksha (ten fold examinations)

3. Collect and integrate other data

3.1 Review reports from other health professionals and distil information for consideration in the case

3.2 Correctly interpret results of medical tests and integrate information into the case within scope of own practice

3.3 Assess the reliability of data obtained and where possible, establish appropriate clinical correlation with the client's complaints

4. Manage case information

4.1 Collect and record accurate, relevant and well organised information according to Ayurvedic protocols

4.2 Manage information and records in a confidential and secure way

Foundation Skills

The Foundation Skills describe those required skills (language, literacy, numeracy and employment skills) that are essential to performance.

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency

Unit Mapping Information

No equivalent unit.
