HLTHSS012 Handle medical gases safely

Release: 1

HLTHSS012 Handle medical gases safely

Modification History

Not applicable.

Application

This unit describes the skills and knowledge to handle medical gas equipment in a safe manner to workplace requirements within the health care environment.

This unit applies to a variety of health or community service roles involving handling medical gases. At this level workers perform under supervision and generally within a team environment within predetermined guidelines.

The skills in this unit must be applied in accordance with workplace requirements, Commonwealth and State or Territory legislation, Australian standards and industry codes of practice.

No occupational licensing, certification or specific legislative requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil

Competency Field

Health Support Services

Unit Sector

Health

Elements and Performance Criteria
