Assessment Requirements for HLTMSG005

Provide remedial massage treatments

Release: 1

Assessment Requirements for HLTMSG005 Provide remedial massage treatments

Modification History

Release	Comments
Release 1	<p>This version was released in <i>HLT Health Training Package release 2.0</i> and meets the requirements of the 2012 Standards for Training Packages.</p> <p>Significant changes to the elements and performance criteria. New evidence requirements for assessment, including volume and frequency requirements. Significant change to knowledge evidence. Minimum clinic hours added. Additional assessor requirements.</p>

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be evidence that the candidate has:

- performed the activities outlined in the performance criteria of this unit during a period of at least 200 hours of massage client consultation work
- prepared for and managed at least 60 remedial massage treatment sessions - clients must include males and females from different stages of life with varied presentations, that cumulatively must include at least 3 presentations of each of the following:
 - sciatica
 - arthritis
 - headache
 - plantar fasciiti
 - shoulder impingement
 - TMJ dysfunction
 - repetitive strain injuries
 - medial and lateral epicondylitis
 - carpal tunnel syndrome
 - postural imbalances
- applied techniques in each of the following positions during client consultation sessions according to client needs:
 - prone
 - supine
 - seated
 - side-lying recumbent
- used all of the following techniques appropriately:
 - frictions
 - passive joint movement
 - passive soft tissue movement
 - deep tissue massage
 - muscle energy
 - neuromuscular
 - press and release
 - myofascial (without skin penetration)
 - trigger point therapy (without skin penetration)
 - lymphatic drainage
 - temperature therapy
 - proprioceptive neuromuscular facilitation (PNF)
 - stretching
 - mobilisation and movement at major joints (without adjustments or high velocity manipulations)

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- legal and ethical considerations (national and state/territory) for client assessment:
 - codes of conduct
 - duty of care
 - informed consent
 - mandatory reporting
 - practitioner/client boundaries
 - privacy, confidentiality and disclosure
 - records management
 - work role boundaries:
 - working within scope of practice
 - presenting symptoms that require referral to a medical practitioner
 - work health and safety
- remedial massage techniques and how to apply them:
 - friction techniques
 - compressive techniques
 - passive joint movement techniques
 - passive soft tissue movement
 - deep tissue massage
 - muscle energy techniques
 - myofascial techniques (without skin penetration)
 - trigger point therapy (without skin penetration)
 - lymphatic drainage
 - temperature therapy
 - topical applications
 - PNF
 - stretching techniques
 - mobilisation and movement at major joints (without adjustments or high velocity manipulations)
- endangerment sites - where they are and how to use palpatory skills in these areas according to scope of practice, including:
 - anterior triangle of the neck
 - posterior triangle of the neck
 - femoral triangle
 - cubital fossa
 - axillary area
 - medial epicondyle
 - lateral epicondyle
 - sternal notch and anterior throat
 - umbilicus
 - twelfth rib dorsal body
 - sciatic notch

- inguinal triangle
- popliteal fossa
- potential reactions during treatment and how to respond:
 - discomfort
 - emotional reactions
 - feedback - verbal, tactile, visual
 - muscle spasms
 - body temperature discomfort
 - deep relaxation
- potential reactions following treatment and appropriate client advice to provide
- types of advice and resources that can be provided to clients for their use outside the clinical environment
- documentation requirements for recording treatment details

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated clinical environment that reflects workplace conditions. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
 - client information – case history, treatment plan
 - private consultation area
 - adjustable height massage table
 - towels/sheets for draping
 - oils/balms
 - hot/cold packs
 - bolsters
- modelling of industry operating conditions, including provision of services to the general public
- clinic supervision by a person who meets the assessor requirements outlined below for at least 150 of the 200 hours of client consultation work

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.

In addition, assessors must:

- have current clinical experience working as a remedial massage therapist providing services to the general public
- hold practising membership of an Australian professional body that represents remedial massage therapists
- fulfil the continuing professional development requirements of the professional body to which they belong
