# Assessment Requirements for HLTPOP004 Monitor and maintain rubbish collection and disposal systems

## Modification History

Release	Comments
Release 1	<p>This version was released in <i>HLT Health Training Package release 3.0</i> and meets the requirements of the 2012 Standards for Training Packages.</p> <p>Minor changes to the elements and performance criteria. New evidence requirements for assessment, including volume and frequency requirements. Minor changes to knowledge evidence.</p> <p>Supersedes HLTPOP220C</p>

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in the elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be evidence that the candidate has:

- identified at least 2 potential health risks or problems associated with rubbish collection and disposal systems and developed and implemented a work plan that includes strategies to deal with each issue.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in the elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- legal and organisation requirements relating to rubbish collection and disposal work, including:
  - organisation standards, policies and procedures, including:
    - infection control
    - manual handling
    - personal protective equipment
    - immunisation requirements and/or recommendations
  - scope of own role and responsibilities

- approvals required and process of obtaining approvals
- referral agencies and procedures
- diseases transmitted through rubbish collection and disposal and strategies to prevent transmission
- community processes in relation to rubbish collection and disposal
- definitions and sources of rubbish
- rubbish tip designs and environmental health considerations in terms of appropriate location of tip sites
- tip disposal methods and organisation of tip site
- bin designs and sizes
- recycling and re-using options.

## Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
  - workplace health and safety (WHS) procedures
  - personal protective equipment
  - organisation guidelines and procedures
  - suitable work area, equipment and materials
- modelling of industry operating conditions.

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.
