**Assessment Requirements for HLTPOP011
Facilitate provision of functional, durable
health hardware items in home and
community**

Release: 1

Assessment Requirements for HLTPOP011 Facilitate provision of functional, durable health hardware items in home and community

Modification History

Release	Comments
Release 1	<p>This version was released in <i>HLT Health Training Package release 3.0</i> and meets the requirements of the 2012 Standards for Training Packages.</p> <p>Title change. Minor changes to the elements and performance criteria. New evidence requirements for assessment, including volume and frequency requirements. Minor changes to knowledge evidence.</p> <p>Supersedes HLTPOP315C</p>

Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in the elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be evidence that the candidate has

- obtained information on at least 2 separate households to identify gaps that may exist in relation to the provision of ongoing, functional and durable health hardware in the community
- developed and implemented work plans to address the identified risks to health hardware.

Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in the elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- legal and organisation considerations relating to provision of functional, durable health hardware items in home and community, including:
 - national, State/Territory and local health policies, goals, targets and priorities relevant to identifying health needs
 - community reporting processes for repairs and maintenance requirements
 - community processes for funding repairs and maintenance

- scope of own role and responsibilities
- roles and responsibilities of key people or agency responsibilities
- points of contact to assist with the implementation of strategies which are outside own area of responsibility
- durable health hardware items appropriate to the region
- health hardware within a house that may require repair or replacement
- philosophies and principles in relation to housing for health

Assessment Conditions

Skills must have been demonstrated in the workplace or in a simulated environment that reflects workplace conditions. Where simulation is used, it must reflect real working conditions by modelling industry operating conditions and contingencies as well as using suitable facilities, equipment and resources.

Assessors must satisfy the Standards for Registered Training Organisations (RTOs) 2015/AQTF mandatory competency requirements for assessors.
