HLTSS00069 Indigenous Environmental Health Support Work

Release 1

HLTSS00069 Indigenous Environmental Health Support Work

Modification History

Not applicable.

Description

This skill set reflects the skill requirements for supporting the environmental health needs of indigenous communities in regard to water supply. Work involves working directly with clients and providing support to families.

Units

HLTPOP025 Provide basic repairs and maintenance to health hardware and fixtures

HLTPOP026 Monitor and maintain sewage or effluent systems

HLTPOP027 Monitor and maintain water supply

Pathways Information

Achievement of these units provides credit towards a range of qualifications in the HLT Health Training Package.

Licensing/Regulatory Information

Plumbing work must only be performed by a person authorised by an exemption, registration or licence granted by the relevant State or Territory regulatory authority under legislation.

Skill Set Requirements

Not applicable

Target Group

This skill set is for indigenous environmental health workers seeking to broaden their skills to work with indigenous communities.

Suggested words for Statement of Attainment

These competencies from the HLT Health Training Package meet industry requirements for indigenous environmental health workers to support the environmental health needs of indigenous communities in regard to water supply.
