### Qualification Description

This qualification reflects the role of workers who undertake a range of tasks under direct supervision to support the provision of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities. Such work will be performed as part of a health clinic, centre or service. This qualification is suited to Australian Apprenticeship pathways and is appropriate for delivery within VET in Schools programs.

*No licensing, legislative or certification requirements apply to this qualification at the time of publication*

### Packaging Rules

Total number of units = 10, including:

- ▶ 7 core units
- ▶ 3 elective units from the list below or from any endorsed Training Packages or accredited courses relevant to the work outcome.

All electives chosen must support the overall integrity of the AQF level of this qualification and contribute to a valid, industry-supported vocational outcome.

## Core units

HLTAHW001 Work with Aboriginal and/or Torres Strait Islander clients and communities

HLTAHW002 Support clients to obtain access to health services

HLTAHW003 Provide basic health information to clients

HLTAHW004 Perform work role in Aboriginal and/or Torres Strait Islander primary health care context

HLTAID003 Provide first aid

HLTIN301C Comply with infection control policies and procedures

HLTWHS001 Participate in workplace health and safety

## Elective units

BSBADM101A Use business equipment and resources

BSBCMM201A Communicate in the workplace

BSBINM201A Process and maintain workplace information

BSBITU101A Operate a personal computer

BSBMED305B Apply the principles of confidentiality, privacy and security within a medical environment

BSBWOR202A Organise and complete daily work activities

CHCAOD201D Prepare for alcohol and other drugs work

CHCCS403C Provide brief intervention

HLTAHW007 Undertake basic health assessments

HLTAHW009 Provide information about social and/or emotional support

HLTAHW021 Provide nutrition guidance for specific health care

HLTAHW034 Provide healthy lifestyle programs and advice

HLTCSD208D Transport clients

HLTAID005 Provide first aid remote situations

HLTHIR403C Work effectively with culturally diverse clients and co-workers

HLTPOP402C Assess readiness for and effect behaviour change

HLTPOP403C Provide information on smoking and smoking cessation

HLTPOP404C Provide interventions to clients who are nicotine dependent

HLTRAH301C Undertake visits to remote communities

SIRCDIS301 Accept prescriptions and return dispensed medicines to customers

## Qualification Mapping Information

No equivalent qualification

### Qualification Description

This qualification reflects the role of Aboriginal and/or Torres Strait Islander people working at the entry level of primary health care for Aboriginal and/or Torres Strait Islander clients. Certificate III may be regarded by many jurisdictions as the minimum level for Aboriginal and/or Torres Strait Islander health work. In some jurisdictions, however, individuals may start at Certificate II level and, when ready, progress to Certificate III. The qualification structure for Certificate III supports both these options. This qualification is suited to Australian Apprenticeship pathways.

*No licensing, legislative or certification requirements apply to this qualification at the time of publication.*

### Packaging Rules

Total number of units = 17, including:

12 core units

5 elective units, of which:

- at least 3 units must come from the elective unit list below

- up to 2 units may be selected from any endorsed Training Packages or accredited courses relevant to the work outcome.

All electives chosen must support the overall integrity of the AQF level of this qualification and contribute to a valid, industry-supported vocational outcome.

### **Core units**

CHCCS400C Work in a relevant legal and ethical framework

HLTAHW005 Work in Aboriginal and/or Torres Strait Islander primary health care context

HLTAHW006 Facilitate and advocate for the rights and needs of clients and community members

HLTAHW007 Undertake basic health assessments

HLTAHW008 Assist in planning and implementation of basic health care

HLTAHW009 Provide information about social and/or emotional support

HLTAHW010 Identify community health issues, needs and strategies

HLTAHW011 Assist with basic health screening, promotion and education services

HLTAHW015 Work under instructions to support the safe use of medication

HLTAID003 Provide first aid

HLTIN301C Comply with infection control policies and procedures

HLTWHS001 Participate in workplace health and safety

### **Elective units**

#### *General*

CHCCS403C Provide brief intervention

HLTAHW025 Provide information and strategies in health care

HLTAHW026 Provide information and strategies in sexual health for men

HLTAHW027 Provide information and strategies in sexual health for women

HLTAHW028 Provide information and strategies in chronic condition care

HLTHIR403C Work effectively with culturally diverse clients and co-workers

#### *Administration*

BSBADM101A Use business equipment and resources

BSBADM409A Co-ordinate business resources  
BSBCMM201A Communicate in the workplace  
BSBCOM406A Conduct work within a compliance framework  
BSBINM201A Process and maintain workplace information  
BSBITU101A Operate a personal computer  
BSBSUS201A Participate in environmentally sustainable work practices  
BSBWOR204A Use business technology  
BSBWOR402A Promote team effectiveness  
BSBWOR404B Develop work priorities  
BSBWORK202A Organise and complete daily work activities  
CHCPOL301B Participate in policy development  
PSPPM402B Manage simple projects  
TAEDEL301A Provide work skill instruction

#### *Aged & disability care*

CHCAC319A Provide support to people living with dementia  
CHCCS426B Provide support and care relating to loss and grief  
CHCDIS409B Provide services to people with disabilities with complex needs  
HLTAHW014 Work with Elders in Aboriginal and/or Torres Strait Islander communities  
HLTAHW051 Respond to loss, grief and trauma

#### *Alcohol and other drugs*

CHCAOD201D Prepare for alcohol and other drugs work  
CHCAOD402B Work effectively in the alcohol and other drugs sector  
CHCAOD406E Work with clients who are intoxicated  
CHCAOD407E Provide needle and syringe services  
CHCCS401C Facilitate responsible behaviour  
HLTAHW012 Assist with substance misuse care  
HLTAHW024 Work in alcohol, other drug and mental health with Aboriginal and/or Torres Strait Islander communities

#### *Cancer care*

HLTAHW035 Provide information and support around cancer  
HLTAHW036 Provide information and support to women with breast cancer

### *Client care*

CHCCD413E Work within specific communities

CHCCM401D Undertake case management

CHCCM402E Establish and monitor a case plan

CHCLLN403A Identify clients with language, literacy and numeracy needs and respond effectively

HLTAHW013 Respond to emergencies

HLTCSD208D Transport clients

HLTRAH301C Undertake visits to remote communities

SIRPDIS002A Deliver prescription medicines to customers outside the pharmacy

SIRCDIS301 Accept prescriptions and return dispensed medicines to customers

### *Family and community violence*

CHCPRT001 Identify and respond to children and young people at risk

CHCPRT002 Support the rights and safety of children and young people

CHCDFV301A Recognise and respond appropriately to domestic and family violence

CHCDFV404C Promote community awareness of domestic and family violence

CHCDFV406C Provide domestic and family violence support in Aboriginal and Torres Strait Islander communities

### *Health promotion*

CHCPROM401C Share health information

CHCPROM502B Implement health promotion and community intervention

HLTAHW029 Provide information and strategies in maternal and infant health

HLTAHW031 Promote and enhance the capacities of Aboriginal and/or Torres Strait Islander families and communities

HLTAHW033 Maintain community health profile

HLTAHW034 Provide healthy lifestyle programs and advice

HLTPOP301C Work effectively in the population health sector

HLTPOP302C Contribute to working with the community to identify health needs

HLTPOP303C Contribute to population health project plan

HLTPOP304C Contribute to evaluating a population health project plan

HLTPOP307C Provide information and support on environmental health issues

HLTPOP310C Monitor and maintain dog health in the community

HLTPOP311C Identify land care issues as they relate to health

*Medication assistant*

HLTPH301C Undertake pharmacy technician duties

HLTPH305A Maintain pharmaceutical imprest stock

HLTPH312B Procure, store and maintain pharmaceutical products

HLTPH316A Assist with dispensing of prescriptions and medication orders

*Mental health*

CHCCS514B Recognise and respond to individuals at risk

CHCMH301C Work effectively in mental health

CHCMH402B Apply understanding of mental health issues and recovery processes

CHCMH403A Establish and maintain communication and relationships to support the recovery process

CHCMH411A Work with people with mental health issues

CHCTC403B Provide telephone counselling in crisis situations

CHCTC404B Provide competent suicide intervention in a telephone counselling context

HLTCSD306D Respond effectively to behaviours of concern

*Nutrition*

HLTAHW021 Provide nutrition guidance for specific health care

HLTAHW023 Plan, develop and evaluate health promotion and community development programs

HLTAHW034 Provide healthy lifestyle programs and advice

*Oral health care*

CHCOHC303B Use basic oral health screening tools

CHCOHC401A Inform and encourage clients and groups to understand and achieve good oral health

CHCOHC402A Support clients and groups to learn practical aspects of oral health care

CHCOHC404A Recognise and respond to signs and symptoms that may indicate oral health issues

CHCOHC406B Provide or assist with oral hygiene

CHCOHC407B Apply and manage use of basic oral health products

### *Smoking cessation*

HLTPOP402C Assess readiness for and effect behaviour change

HLTPOP403C Provide information on smoking and smoking cessation

HLTPOP404C Provide interventions to clients who are nicotine dependent

### Qualification Description

This qualification reflects the role of Aboriginal and/or Torres Strait Islander people working to provide a range of non-clinical primary health care services to Aboriginal and/or Torres Strait Islander clients and communities, including specific health care programs. These workers can be expected to flexibly assume a variety of job roles and undertake a broad range of tasks either individually or as a member of a multidisciplinary team.

*No licensing, legislative or certification requirements apply to this qualification at the time of publication*

### Packaging Rules

Total number of units = 21, including:

- 14 core units
- 7 elective units, of which:

- at least 4 units must come from the elective list below
- up to 3 units may be selected from any endorsed Training Packages or accredited courses relevant to the work outcome.

All electives chosen must support the overall integrity of the AQF level of this qualification and contribute to a valid, industry-supported vocational outcome.

### **Core units**

CHCCS400C Work within a relevant legal and ethical framework

HLTAHW005 Work in an Aboriginal and/or Torres Strait Islander primary health care context

HLTAHW006 Facilitate and advocate for the rights and needs of clients and community members

HLTAHW007 Undertake basic health assessments

HLTAHW017 Assess and support client's social and emotional wellbeing

HLTAHW018 Plan, implement and monitor health care in a primary health care context

HLTAHW019 Deliver primary health care programs for Aboriginal and/or Torres Strait Islander communities

HLTAHW021 Provide nutrition guidance for specific health care

HLTAHW022 Address social determinants of Aboriginal and/or Torres Strait Islander health

HLTAHW023 Plan, develop and evaluate health promotion and community development programs

HLTAHW037 Support the safe use of medications

HLTAID003 Provide first aid

HLTIN301C Comply with infection control policies and procedures

HLTWHS001 Participate in workplace health and safety

### **Elective units**

#### **General**

CHCCS403C Provide brief intervention

HLTAHW025 Provide information and strategies in health care

HLTAHW026 Provide information and strategies in sexual health for men

HLTAHW027 Provide information and strategies in sexual health for women

HLTAHW028 Provide information and strategies in chronic condition care

HLTAHW030 Provide information and strategies in eye health

HLTAHW051 Respond to loss, grief and trauma

HLTAID007 Provide advanced resuscitation

HLTHIR403C Work effectively with culturally diverse clients and co-workers

#### Administration

BSBADM409A Co-ordinate business resources

BSBATSIW417C Select and use technology

BSBCCO301B Use multiple information systems

BSBCOM406A Conduct work within a compliance framework

BSBINM302A Utilise a knowledge management system

BSBWOR402A Promote team effectiveness

BSBWOR404B Develop work priorities

HLTAHW062 Supervise a health care team

PSPPM402B Manage simple projects

#### Aged and disability care

CHCAC319A Provide support to people living with dementia

CHCCS426B Provide support and care relating to loss and grief

CHCDIS409B Provide services to people with disabilities with complex needs

HLTAHW014 Work effectively with Elders in Aboriginal and/or Torres Strait Islander communities

#### Alcohol and other drugs

CHCAOD402B Work effectively in the alcohol and other drugs sector

CHCAOD406E Work with clients who are intoxicated

CHCAOD407E Provide needle and syringe services

CHCAOD408B Assess needs of clients with alcohol and/or other drugs issues

CHCAOD409E Provide alcohol and/or other drug withdrawal services

CHCAOD510B Work effectively with clients with complex alcohol and/or other drugs issues

CHCCS401C Facilitate responsible behaviour

HLTAHW012 Assist with substance misuse care

## HLTAHW024 Work in alcohol, other drug and mental health care with Aboriginal and/or Torres Strait Islander communities

### Burns treatment

HLTAHW040 Promote burns prevention in homes and the community

HLTAHW041 Burn injury assessment and emergency management

HLTAHW042 Implement a burns rehabilitation care plan

### Cancer care

HLTAHW035 Provide information and support around cancer

HLTAHW036 Provide information and support to women with breast cancer

### Chronic disease care

CHCICS406B Support client self-management

CHCICS407B Support positive lifestyle

CHCICS408B Provide support to people with chronic disease

### Community development

BSBATSIC511A Plan and conduct a community meeting

BSBCCO404A Collect, analyse and record information

BSBCCO405A Survey stakeholders to gather and record information

BSBRES401A Analyse and present research information

CHCCD412B Work within a community development framework

CHCCD413E Work within specific communities

CHCCD514B Implement community development strategies

CHCCD618B Facilitate the development of community capacity to manage place

### Community services

BSBWOR402A Establish effective workplace relationships

CHCCD413E Work within specific communities

CHCCM402E Establish and monitor a case plan

CHCCOM403A Use targeted communication skills to build relationships

CHCCS419C Provide support services to clients

CHCCS422B Respond holistically to client issues and refer appropriately

CHCCS503B Develop, implement and review services and programs to meet client needs

CHCLLN403A Identify clients with language, literacy and numeracy needs and respond effectively

CHCNET404A Work with other services

CHCPOL403C Undertake research activities

HLTAHW013 Respond to emergencies

HLTAHW032 Supervise individual workers

HLTPOP322C Implement a disaster plan

Ear and hearing health

HLTAU402D Conduct screening hearing tests for industrial hearing loss

HLTAU501D Conduct screening hearing tests for children

Family and community violence

CHCDFV301A Recognise and respond appropriately to domestic and family violence

CHCDFV403C Provide crisis intervention and support to those experiencing domestic and family violence

CHCDFV404C Promote community awareness of domestic and family violence

CHCDFV406C Provide domestic and family violence support in Aboriginal and Torres Strait Islander communities

CHCDFV408C Provide support to children affected by domestic and family violence

CHCDFV509D Work with users of violence to effect change

CHCPRT001 Identify and respond to children and young people at risk

HLTAHW031 Provide information and strategies to promote and enhance the capacities of Aboriginal and/or Torres Strait Islander families and communities

Health promotion

CHCCD402B Develop and provide community education projects

CHCCD412B Work within a community development framework

CHCCD619B Establish and maintain community, government & business partnerships

CHCPROM401C Share health information

CHCPROM502B Implement health promotion and community intervention

HLTAHW010 Identify community health issues, needs and strategies

HLTAHW029 Provide information and strategies in maternal and infant health

HLTAHW033 Maintain community health profile

HLTAHW034 Provide healthy lifestyle programs and advice

HLTAHW043 Facilitate access to tertiary health services

HLTPOP307C Provide information and support on environmental health issues

HLTPOP401C Maintain a population health database

HLTPOP405C Use media to disseminate information

HLTPOP407C Develop population health competencies in other people

HLTPOP501C Apply a population health framework

HLTPOP502C Work with the community to identify health needs

HLTPOP503C Plan a population health project

HLTPOP505C Build capacity to promote health

#### Mental health

CHCCS514B Recognise and respond to individuals at risk

CHCCS521B Assess and respond to individuals at risk of suicide

CHCCS504B Provide services to clients with complex needs

CHCMH401A Work effectively in mental health settings

CHCMH402B Apply understanding of mental health issues and recovery processes

CHCMH403A Establish and maintain communication and relationships to support the recovery process

CHCMH404B Conduct assessment and planning as part of the recovery process

CHCMH408C Provide interventions to meet the needs of consumers with mental health and AOD issues

CHCMH504E Provide a range of services to people with mental health issues

CHCTC403B Provide telephone counselling in crisis situations

CHCTC404B Provide competent suicide intervention in a telephone counselling context

HLTCSD306D Respond effectively to behaviours of concern

#### Mentoring

CHCORG428A Reflect on and improve own professional practice

CHCORG627B Provide mentoring support to colleagues

## Nutrition

HLTAHW053 Address impact of food security on community health

## Oral health care

CHCOHC303B Use basic oral health screening tools

CHCOHC401A Inform and encourage clients and groups to understand and achieve good oral health

CHCOHC402A Support clients and groups to learn practical aspects of oral health care

CHCOHC404A Recognise and respond to signs and symptoms that may indicate oral health issues

CHCOHC406B Provide or assist with oral hygiene

CHCOHC407B Apply and manage use of basic oral health products

## Policy development

CHCPOL301B Participate in policy development

CHCPOL402C Contribute to policy development

CHCPOL403C Undertake research activities

## Smoking cessation

CHCCS403C Provide brief intervention

HLTPOP402C Assess readiness for and effect behaviour change

HLTPOP403C Provide information on smoking and smoking cessation

HLTPOP404C Provide interventions to clients who are nicotine dependent

## Workplace training

CHCCS427B Facilitate adult learning and development

TAEASS301B Contribute to assessment

TAEASS401B Plan assessment activities and processes

TAEASS402B Assess competence

TAEDEL301A Provide work skill instruction

TAEDEL401A Plan, organise and deliver group-based learning

TAEDEL402A Plan, organise and facilitate learning in the workplace

## Youth work

CHCPRT001 Identify and respond to children and young people at risk

CHCPRT002 Support the rights and safety of children and young people

CHCPRT003 Work collaboratively to maintain an environment safe for children and young people

CHCYTH002 Work effectively with young people in the youth work context

CHCYTH003 Support young people to create opportunities in their lives

CHCYTH004 Respond to critical situations

CHCYTH011 Work effectively with young people and their families

### Qualification Description

This qualification reflects the role of Aboriginal and/or Torres Strait Islander people working to provide a range of clinical primary health care services to Aboriginal and/or Torres Strait Islander clients and communities, including specific health care programs, advice and assistance with, and administration of, medication.

These workers can be expected to flexibly assume a variety of job roles and undertake a broad range of tasks either individually or as a member of a multidisciplinary team.

This qualification addresses the specific legislative responsibilities of Aboriginal and/or Torres Strait Islander Health Practitioners and is required for national registration with the Aboriginal and Torres Strait Islander Health Practice Board of Australia.

## Packaging Rules

Total number of units = 21, including:

- 14 core units
- 7 elective units, of which:
  - at least 4 units must come from the elective list below
  - up to 3 units may be selected from any endorsed Training Packages or accredited courses relevant to the work outcome.

All electives chosen must support the overall integrity of the AQF level of this qualification and contribute to valid, industry-supported vocational outcome.

### Core units

CHCCS400C Work within a relevant legal and ethical framework

HLTAHW005 Work in an Aboriginal and/or Torres Strait Islander primary health care context

HLTAHW006 Facilitate and advocate for the rights and needs of clients and community members

HLTAHW016 Assess client's physical wellbeing

HLTAHW017 Assess and support client's social and emotional wellbeing

HLTAHW018 Plan, implement and monitor health care in a primary health care context

HLTAHW019 Deliver primary health care programs for Aboriginal and/or Torres Strait Islander communities

HLTAHW020 Administer medications

HLTAHW021 Provide nutrition guidance for specific health care

HLTAHW022 Address social determinants of Aboriginal and/or Torres Strait Islander health

HLTAHW037 Support the safe use of medications

HLTAID003 Provide first aid

HLTIN301C Comply with infection control policies and procedures

HLTWHS001 Participate in workplace health and safety

### Elective units

General

CHCCS403C Provide brief intervention

HLTAHW025 Provide information and strategies in health care

HLTAHW026 Provide information and strategies in sexual health for men

HLTAHW027 Provide information and strategies in sexual health for women

HLTAHW030 Provide information and strategies in eye health

HLTAHW051 Respond to loss, grief and trauma

HLTHIR403C Work effectively with culturally diverse clients and co-workers

#### Administration

BSBADM409A Co-ordinate business resources

BSBCOM406A Conduct work within a compliance framework

BSBWOR402A Promote team effectiveness

BSBWOR404B Develop work priorities

CHCPOL301B Participate in policy development

HLTPOP407C Develop population health competencies in other people

HLTPOP501C Apply a population health framework

HLTPOP502C Work with the community to identify health needs

HLTPOP503C Plan a population health project

HLTPOP505C Build capacity to promote health

#### Maternal and infant care

HLTAHW038 Assess and promote physical and emotional wellbeing of children

HLTAHW039 Monitor early childhood growth and development

#### Mental health

CHCCS504B Provide services to clients with complex needs

CHCCS514B Recognise and respond to individuals at risk

CHCCS521B Assess and respond to individuals at risk of suicide

CHCMH401A Work effectively in mental health settings

CHCMH402B Apply understanding of mental health issues and recovery processes

CHCMH403A Establish and maintain communication and relationships to support the recovery process

CHCMH404B Conduct assessment and planning as part of the recovery process

CHCMH408C Provide interventions to meet the needs of consumers with mental health and AOD issues

CHCMH504E Provide a range of services to people with mental health issues

CHCTC403B Provide telephone counselling in crisis situations

CHCTC404B Provide competent suicide intervention in a telephone counselling context

HLTCSD306D Respond effectively to behaviours of concern

#### Mentoring

CHCORG428A Reflect on and improve own professional practice

CHCORG627B Provide mentoring support to colleagues

#### Nutrition

HLTAHW023 Plan, develop and evaluate health promotion and community development programs

HLTAHW053 Address impact of food security on community health

#### Oral health care

CHCOHC303B Use basic oral health screening tools

CHCOHC401A Inform and encourage clients and groups to understand and achieve good oral health

CHCOHC402A Support clients and groups to learn practical aspects of oral health care

CHCOHC404A Recognise and respond to signs and symptoms that may indicate oral health issues

CHCOHC406B Provide or assist with oral hygiene

CHCOHC407B Apply and manage use of basic oral health products

HLTOHC408B Apply fluoride varnish

#### Pathology

HLTPAT304D Collect pathology specimens other than blood

HLTPAT306D Perform blood collection

HLTPAT308D Identify and respond to clinical risks associated with pathology specimen collection

#### Policy development

CHCPOL301B Participate in policy development

CHCPOL402C Contribute to policy development

CHCPOL403C Undertake research activities

#### Smoking cessation

CHCCS403C Provide brief intervention

HLTPOP402C Assess readiness for and effect behaviour change

HLTPOP403C Provide information on smoking and smoking cessation

## HLTPOP404C Provide interventions to clients who are nicotine dependent

### Workplace training

CHCCS427B Facilitate adult learning and development

TAEASS301B Contribute to assessment

TAEASS401B Plan assessment activities and processes

TAEASS402B Assess competence

TAEDEL301A Provide work skill instruction

TAEDEL401A Plan, organise and deliver group-based learning

TAEDEL402A Plan, organise and facilitate learning in the workplace

### Youth work

CHCPRT001 Identify and respond to children and young people at risk

CHCPRT002 Support the rights and safety of children and young people

CHCPRT003 Work collaboratively to maintain an environment safe for children and young people

CHCYTH002 Work effectively with young people in the youth work context

CHCYTH003 Support young people to create opportunities in their lives

CHCYTH004 Respond to critical situations

CHCYTH011 Work effectively with young people and their families

### Qualification Description

This qualification reflects the role of Aboriginal and/or Torres Strait Islander people working to provide a range of primary health care services to Aboriginal and/or Torres Strait Islander clients.

The Diploma of Aboriginal and/or Torres Strait Islander Primary Health Care defines the knowledge and skills for workers involved in Aboriginal and/or Torres Strait Islander Primary Health Care and who work autonomously under the broad guidance of others.

The Diploma qualification covers workers who have a basis of skills and knowledge in primary health care, which they may apply in program delivery, management, and policy or education functions.

*No licensing, legislative or certification requirements apply to this qualification at the time of publication.*

## Packaging Rules

Total number of units = 30, including:

- 20 core units
- 10 elective units, of which:
  - at least 5 units must come from the elective units list below
  - up to 5 units may be selected from any endorsed Training Packages or accredited courses relevant to the work outcome
  - no more than 3 units in total may come from the Business Services Training Package.

All electives chosen must support the overall integrity of the AQF level of this qualification and contribute to valid, industry-supported vocational outcome.

### Core units

CHCCS400C Work within a relevant legal and ethical framework

HLTAHW005 Work in an Aboriginal and/or Torres Strait Islander primary health care context

HLTAHW007 Undertake basic health assessments

HLTAHW017 Assess and support client's social and emotional well being

HLTAHW018 Plan, implement and monitor health care in a primary health care context

HLTAHW019 Deliver primary health care programs for Aboriginal and/or Torres Strait Islander communities

HLTAHW021 Provide nutrition guidance for specific health care

HLTAHW022 Address social determinants of Aboriginal and/or Torres Strait Islander health

HLTAHW023 Plan, develop and evaluate health promotion and community development programs

HLTAHW037 Support safe use of medications

HLTAHW043 Facilitate access to tertiary health care

HLTAHW044 Advocate on behalf of the community

HLTAHW047 Support and promote social and emotional well being of staff and clients

HLTAHW048 Apply a strategic approach to Aboriginal and/or Torres Strait Islander health

HLTAHW061 Engage in community health research

HLTAHW062 Supervise health care team

HLTAHW065 Apply reflective practice in an Aboriginal and/or Torres Strait Islander primary health care setting

HLTAID003 Provide first aid

HLTIN403C Implement and monitor infection control policy and procedures

HLTWHS004 Manage workplace health and safety

## **Elective units**

### *General*

CHCCS403C Provide brief intervention

HLTAHW025 Provide information and strategies in health care

HLTAHW026 Provide information and strategies in sexual health for men

HLTAHW027 Provide information and strategies in sexual health for women

HLTAHW028 Provide information and strategies in chronic condition care

HLTAHW030 Provide information and strategies in eye health

HLTHIR403C Work effectively with culturally diverse clients and co-workers

### *Administration, finances, human resources*

AHCCCF402A Report on project

BSBADM409A Coordinate business resources

BSBADM502B Manage meetings

BSBATSIW515C Secure funding

BSBHRM401A Review human resources functions

BSBHRM402A Recruit, select and induct staff

BSBMGT502B Manage people performance

BSBMGT605B Provide leadership across the organisation

BSBSUS501A Develop workplace policy and procedures for sustainability

BSBWOR402A Promote team effectiveness

CHCINF403E Coordinate information systems

CHCORG428A Reflect on and improve own professional practice

HLTIN504D Manage control of infection

HLTAHW063 Implement office systems

HLTAHW064 Manage budgets

SRXGOV004B Work effectively with the Board of an organisation

*Advocacy*

CHCAD603B Provide systems advocacy services

*Alcohol and other drugs*

CHCAOD402B Work effectively in the alcohol and other drugs sector

CHCAOD406E Work with clients who are intoxicated

CHCAOD407E Provide needle and syringe services

CHCAOD408B Assess needs of clients with alcohol and/or other drugs issues

CHCAOD409E Provide alcohol and/or other drug withdrawal services

CHCAOD510B Work effectively with clients with complex alcohol and/or other drugs issues

CHCAOD511C Provide advanced interventions to meet the needs of clients with alcohol and/or other drug issues

HLTAHW012 Assist with substance misuse care

HLTPOP403C Provide information on smoking and smoking cessation

HLTPOP404C Provide interventions to clients who are nicotine dependent

*Cancer care*

HLTAHW035 Provide information and support around cancer

HLTAHW036 Provide information and support to women with breast cancer

*Case work*

CHCCW402C Implement a case work strategy

CHCCW503A Work intensively with clients

*Chronic disease care*

CHCCS504B Provide services to clients with complex needs

CHCICS406B Support client self-management

CHCICS407B Support positive lifestyle

CHCICS408B Provide support to people with chronic disease

CHCMH501A Provide advanced supports to facilitate recovery

### *Community development*

BSBATSIC511A Plan and conduct a community meeting  
BSBCCO404A Collect, analyse and record information  
BSBCCO405A Survey stakeholders to gather and record information  
BSBRES401A Analyse and present research information  
CHCCD401E Support community participation  
CHCCD412B Work within a community development framework  
CHCCD413E Work within specific communities  
CHCCD505E Develop community resources  
CHCCD508D Support community action  
CHCCD514B Implement community development strategies  
CHCCD618B Facilitate the development of community capacity to manage place  
CHCNET404A Work with other services  
CHCPOL403C Undertake research activities  
HLTAHW010 Identify community health issues, needs and strategies  
HLTAHW053 Address impact of food security on community health

### *Community services*

CHCCS401C Facilitate responsible behaviour  
CHCCS419C Provide support services to clients  
CHCCS422B Respond holistically to client issues and refer appropriately  
CHCCS503B Develop, implement and review services and programs to meet client needs  
CHCCS604B Manage the delivery of quality services to clients

### *Ear and hearing health*

HLTAU402D Conduct screening hearing tests for industrial hearing loss  
HLTAU501D Conduct screening hearing tests for children.

### *Family and community violence*

CHCCM402E Establish and monitor a case plan  
CHCCM503C Develop, facilitate and monitor all aspects of case management  
CHCCM504D Promote high quality case management  
CHCDFV402C Manage own professional development in responding to domestic

and family violence

CHCDFV403C Provide crisis intervention and support to those experiencing domestic and family violence

CHCDFV404C Promote community awareness of domestic and family violence

CHCDFV406C Provide domestic and family violence support in Aboriginal and Torres Strait Islander communities

CHCDFV408C Provide support to children affected by domestic and family violence

CHCDFV505C Counsel clients affected by domestic and family violence

CHCDFV509D Work with users of violence to effect change

CHCDFV510D Facilitate workplace debriefing and support processes

CHCPRT001 Identify and respond to children and young people at risk

### *Group work*

CHCGROUP302D Support group activities

CHCGROUP403D Plan and conduct group activities

### *Health promotion*

CHCAD603B Provide systems advocacy services

CHCCD402B Develop and provide community education projects

CHCCD619B Establish and maintain community, government and business partnerships

CHCPROM401C Share health information

CHCPROM502B Implement health promotion and community intervention

HLTAHW033 Maintain community health profile

HLTAHW034 Provide healthy lifestyle programs and advice

HLTAHW061 Engage in community health research

HLTPOP405C Use media to disseminate information

HLTPOP501C Apply a population health framework

HLTPOP502C Work with the community to identify health needs

HLTPOP503C Plan a population health project

HLTPOP504C Evaluate a population health project

HLTPOP505C Build capacity to promote health

### *Leadership and management*

BSBADM502B Manage meetings  
BSBATSIM416A Oversee organisational planning  
BSBATSIM418A Oversee financial management  
BSBATSIM419A Contribute to the development and implementation of organisational policies  
BSBATSIM420A Oversee asset management  
BSBATSIM505C Control organisational finances  
BSBATSIM506C Develop employment policies  
BSBATSIM511C Develop enterprise opportunities  
BSBATSIW515C Secure funding  
BSBFLM512A Ensure team effectiveness  
BSBHRM401A Review human resources functions  
BSBHRM402A Recruit, select and induct staff  
BSBSUS501A Develop workplace policy and procedures for sustainability  
BSBWOR402A Promote team effectiveness  
CHCINF403E Coordinate information systems  
CHCORG428A Reflect on and improve own professional practice  
HLTAHW032 Supervise individual workers  
HLTAHW062 Supervise health care team  
HLTAHW075 Manage community health projects  
HLTAHW076 Plan for community emergencies  
HLTPM501B Manage in a health care business  
HLTPOP523C Develop a disaster plan  
HLTWHS004 Manage workplace health and safety  
SRXGOV004B Work effectively with the Board of an organisation

### *Maternal and infant care*

HLTAHW029 Provide information & strategies in maternal child health  
HLTAHW031 Provide information and strategies to enhance capacities of Aboriginal and/or Torres Strait Islander families

### *Mental health*

CHCCS514B Recognise and respond to individuals at risk  
CHCCS521B Assess and respond to individuals at risk of suicide

CHCMH401A Work effectively in mental health settings

CHCMH402B Apply understanding of mental health issues and recovery processes

CHCMH403A Establish and maintain communication and relationships to support the recovery process

CHCMH404B Conduct assessment and planning as part of the recovery process

CHCMH408C Provide interventions to meet the needs of consumers with mental health and AOD issues

CHCMH504E Provide a range of services to people with mental health issues

HLTCSD306D Respond effectively to behaviours of concern

### *Mentoring*

CHCORG428A Reflect on and improve own professional practice

CHCORG627B Provide mentoring support to colleagues

### *Oral health care*

CHCOHC303B Use basic oral health screening tools

CHCOHC401A Inform and encourage clients and groups to understand and achieve good oral health

CHCOHC402A Support clients and groups to learn practical aspects of oral health care

CHCOHC404A Recognise and respond to signs and symptoms that may indicate oral health issues

CHCOHC406B Provide or assist with oral hygiene

CHCOHC407B Apply and manage use of basic oral health products

### *Primary health care delivery*

HLTAHW043 Facilitate access to tertiary care services

HLTAHW052 Deliver primary health care to Aboriginal and/or Torres Strait Islander clients in confinement

HLTAHW060 Plan for medical emergencies

### *Social and emotional wellbeing*

CHCCS521B Assess and respond to individuals at risk of suicide

CHCCSL501A Work within a structured counselling framework

CHCCSL503B Facilitate the counselling relationship

CHCCSL507B Support clients in decision-making processes  
CHCCSL509A Reflect and improve upon counselling skills  
CHCICS303A Support individual health and emotional well being  
CHCTC403B Provide telephone counselling in crisis situations  
CHCTC404B Provide competent suicide intervention in a telephone counselling context  
HLTAHW049 Work effectively in social and emotional wellbeing  
HLTAHW050 Develop a healing framework for social and emotional wellbeing work  
HLTAHW051 Respond to loss, grief and trauma  
HLTCSD306D Respond effectively to behaviours of concern

#### *Workplace training*

CHCCS427B Facilitate adult learning and development  
TAEASS301B Contribute to assessment  
TAEASS401B Plan assessment activities and processes  
TAEASS402B Assess competence  
TAEASS403B Participate in assessment validation  
TAEDEL301A Provide work skill instruction  
TAEDEL401A Plan, organise and deliver group-based learning  
TAEDEL402A Plan, organise and facilitate learning in the workplace

#### *Youth work*

CHCPRT001 Identify and respond to children and young people at risk  
CHCPRT002 Support the rights and safety of children and young people  
CHCPRT003 Work collaboratively to maintain an environment safe for children and young people  
CHCYTH002 Work effectively with young people in the youth work context  
CHCYTH003 Support young people to create opportunities in their lives  
CHCYTH004 Respond to critical situations  
CHCYTH005 Develop and implement procedures to enable young people to address their needs  
CHCYTH009 Support youth programs  
CHCYTH010 Provide services for young people appropriate to their needs and circumstances

CHCYTH011 Work effectively with young people and their families

CHCYTH012 Manage service response to young people in crisis

### Qualification Description

This qualification is specific to Aboriginal and/or Torres Strait Islander people working to provide a range of primary health care services to Aboriginal and/or Torres Strait Islander clients. The Diploma of Aboriginal and/or Torres Strait Islander Primary Health Care Practice defines the knowledge and skills for workers involved in Aboriginal and/or Torres Strait Islander Primary Health Care and who work autonomously under the broad guidance of others. The Diploma qualification covers workers who have a basis of skills and knowledge in primary health care practice, which they may apply in clinical, management or education functions.

No licensing, legislative or certification requirements apply to this qualification at the time of publication.

## Packaging Rules

31 units of competency are required to achieve this qualification, including:

- 21 core units and
- 10 elective units, of which:
  - at least 5 units must come from the general elective units list below
  - up to 5 units may be selected from any endorsed Training Packages or accredited courses relevant to the work outcome
  - no more than 3 units in total may be selected from the Business Services Training Package.

All electives chosen must support the overall integrity of the AQF level of this qualification and contribute to valid, industry-supported vocational outcome.

To achieve a specialisation in maternal and infant care – all Group A electives must be selected for award of the *Diploma of Aboriginal and/or Torres Strait Islander Primary Health Care Practice (Maternal and infant care)*.

### Core units

CHCCS400C Work within a relevant legal and ethical framework

HLTAHW005 Work in an Aboriginal and/or Torres Strait Islander primary health care context

HLTAHW016 Assess client's physical wellbeing

HLTAHW018 Plan, implement and monitor health care in a primary health care context

HLTAHW019 Deliver primary health care programs for Aboriginal and/or Torres Strait Islander communities

HLTAHW020 Administer medications

HLTAHW021 Provide nutrition guidance for specific health care

HLTAHW037 Support the safe use of medications

HLTAHW043 Facilitate access to tertiary health care

HLTAHW044 Advocate on behalf of the community

HLTAHW045 Plan, develop and evaluate primary health care programs for Aboriginal and/or Torres Strait Islander communities

HLTAHW046 Apply advanced skills in primary health care

HLTAHW047 Support and promote social and emotional wellbeing of staff and clients

HLTAHW048 Apply a strategic plan approach to Aboriginal and/or Torres Strait Islander

health

HLTAHW061 Engage in community health research

HLTAHW062 Supervise health care team

HLTAHW065 Apply reflective practice in Aboriginal and/or Torres Strait Islander primary health care context

HLTAHW071 Manage medicines in Aboriginal and/or Torres Strait Islander health care

HLTAID003 Provide first aid

HLTIN403C Implement and monitor infection control policy and procedures

HLTWHS004 Manage workplace health and safety

## **Elective units**

### *Group A elective – maternal and infant care specialisation*

CHCCM402E Establish and monitor a case plan

HLTAHW027 Provide information and strategies in sexual health for women

HLTAHW029 Provide information and strategies in maternal and infant health

HLTAHW057 Provide antenatal health care

HLTAHW058 Prepare for and support childbirth

HLTAHW059 Provide postnatal and infant health care

HLTPOP403C Provide information on smoking and smoking cessation

HLTPOP404C Provide interventions to clients who are nicotine dependant

### *General electives*

HLTAHW025 Provide information and strategies in health care

HLTAHW026 Provide information and strategies in sexual health for men

HLTAHW028 Provide information and strategies in chronic condition care

HLTAHW030 Provide information and strategies in eye health

HLTHIR403C Work effectively with culturally diverse clients and co-workers

### *Administration*

AHCCCF402A Report on project

BSBADM409A Coordinate business resources  
BSBADM502B Manage meetings

CHCAOD407E Provide needle and syringe services  
CHCAOD408B Assess needs of clients with alcohol and/or other drugs issues  
CHCAOD409E Provide alcohol and/or other drug withdrawal services  
CHCAOD510B Work effectively with clients with complex alcohol and/or other drugs issues  
CHCAOD511C Provide advanced interventions to meet the needs of clients with alcohol and/or other drug issues  
HLTAHW012 Assist with substance misuse care  
HLTPOP403C Provide information on smoking and smoking cessation  
HLTPOP404C Provide interventions to clients who are nicotine dependent

#### *Cancer care*

HLTAHW035 Provide information and support around cancer

## HLTAHW036 Provide information and support to women with breast cancer

### *Case work*

CHCCM402E Establish and monitor a case plan

CHCCW402C Implement a case work strategy

CHCCW503A Work intensively with clients

### *Chronic disease care*

CHCICS406B Support client self-management

CHCICS407B Support positive lifestyle

CHCICS408B Provide support to people with chronic disease

### *Community development*

BSBATSIC511A Plan and conduct a community meeting

BSBCCO404A Collect, analyse and record information

BSBCCO405A Survey stakeholders to gather and record information

BSBRES401A Analyse and present research information

CHCCD401E Support community participation

CHCCD412B Work within a community development framework

CHCCD413E Work within specific communities

CHCCD505E Develop community resources

CHCCD508D Support community action

CHCCD514B Implement community development strategies

CHCCD618B Facilitate the development of community capacity to manage place

CHCNET404A Work with other services

CHCPOL403C Undertake research activities

HLTAHW010 Identify community health issues, needs and strategies

HLTAHW053 Address impact of food security on community health

### *Community services*

CHCCS401C Facilitate responsible behaviour

CHCCS403C Provide brief intervention

CHCCS419C Provide support services to clients

CHCCS422B Respond holistically to client issues and refer appropriately

CHCCS503B Develop, implement and review services and programs to meet client needs

CHCCS604B Manage the delivery of quality services to clients

### *Ear and hearing health*

HLTAU402D Conduct screening hearing tests for industrial hearing loss

HLTAU501D Conduct screening hearing tests for children.

### *Family and community violence*

CHCPRT001 Identify and respond to children and young people at risk

CHCDFV402C Manage own professional development in responding to domestic and family violence

CHCDFV403C Provide crisis intervention and support to those experiencing domestic and family violence

CHCDFV404C Promote community awareness of domestic and family violence

CHCDFV406C Provide domestic and family violence support in Aboriginal and Torres Strait Islander communities

CHCDFV408C Provide support to children affected by domestic and family violence

CHCDFV505C Counsel clients affected by domestic and family violence

CHCDFV509D Work with users of violence to effect change

CHCDFV510D Facilitate workplace debriefing and support processes

CHCCM402E Establish and monitor a case plan

CHCCM503C Develop, facilitate and monitor all aspects of case management

CHCCM504D Promote high quality case management

### *Group work*

CHCGROUP302D Support group activities

CHCGROUP403D Plan and conduct group activities

### *Health promotion*

CHCAD603B Provide systems advocacy services

CHCCD402B Develop and provide community education projects

CHCCD619B Establish and maintain community, government and business partnerships

CHCPROM401C Share health information

CHCPROM502B Implement health promotion and community intervention

HLTAHW033 Maintain community health profile

HLTAHW034 Provide healthy lifestyle programs and advice

HLTAHW061 Engage in community health research

HLTPOP405C Use media to disseminate information

HLTPOP501C Apply a population health framework

HLTPOP502C Work with the community to identify health needs

HLTPOP503C Plan a population health project

HLTPOP504C Evaluate a population health project

HLTPOP505C Build capacity to promote health

### *Leadership and management*

BSBADM502B Manage meetings

BSBATSIM419A Contribute to the development and implementation of organisational policies

BSBATSIM420A Oversee asset management

BSBATSIM505C Control organisational finances

BSBATSIM506C Develop employment policies

BSBATSIM511C Develop enterprise opportunities

BSBATSIM418A Oversee financial management

BSBATSIM416A Oversee organisational planning

BSBHRM401A Review human resources functions

BSBHRM402A Recruit, select and induct staff

BSBATSIW515C Secure funding

BSBSUS501A Develop workplace policy and procedures for sustainability

BSBWOR402A Promote team effectiveness

CHCINF403E Coordinate information systems

CHCORG428A Reflect on and improve own professional practice

HLTAHW032 Supervise individual workers

HLTAHW062 Supervise health care team

HLTAHW075 Manage community health projects

HLTAHW076 Plan for community emergencies

HLTPOP523C Develop a disaster plan

HLTPM501B Manage in a health care business

HLTWHS003 Maintain workplace health and safety

SRXGOV004B Work effectively with the Board of an organisation

### *Maternal and infant care*

HLTAHW027 Provide information and strategies in sexual health for women

HLTAHW029 Provide information and strategies in maternal and infant health

HLTAHW031 Provide information and strategies to enhance capacities of Aboriginal and/or Torres Strait Islander families

HLTAHW038 Assess and promote physical and emotional wellbeing of children

HLTAHW039 Monitor early childhood growth and development

HLTAHW057 Provide antenatal health care

HLTAHW058 Prepare for and support childbirth

HLTAHW059 Provide postnatal and infant health care

### *Mental health*

CHCCS514B Recognise and respond to individuals at risk

CHCCS521B Assess and respond to individuals at risk of suicide

CHCMH401A Work effectively in mental health settings

CHCMH402B Apply understanding of mental health issues and recovery processes

CHCMH403A Establish and maintain communication and relationships to support the recovery process

CHCMH404B Conduct assessment and planning as part of the recovery process

CHCMH408C Provide interventions to meet the needs of consumers with mental health and AOD issues

CHCMH504E Provide a range of services to people with mental health issues

HLTCSD306D Respond effectively to behaviours of concern

### *Mentoring*

CHCORG428A Reflect on and improve own professional practice

CHCORG627B Provide mentoring support to colleagues

### *Nutrition*

HLTAHW023 Plan, develop and evaluate health promotion and community development programs

HLTAHW053 Address impact of food security on community health

### *Oral health care*

CHCOHC303B Use basic oral health screening tools

CHCOHC401A Inform and encourage clients and groups to understand and achieve good oral health

CHCOHC402A Support clients and groups to learn practical aspects of oral health care

CHCOHC404A Recognise and respond to signs and symptoms that may indicate oral health issues

CHCOHC406B Provide or assist with oral hygiene

CHCOHC407B Apply and manage use of basic oral health products

HLTOHC408B Apply fluoride varnish

### *Pathology*

HLTPAT304D Collect pathology specimens other than blood

HLTPAT306D Perform blood collection

HLTPAT308D Identify and respond to clinical risks associated with pathology specimen collection

### *Primary health care delivery*

CHCCS504B Provide services to clients with complex needs

CHCMH501A Provide advanced supports to facilitate recovery

HLTAHW052 Deliver primary health care to Aboriginal and/or Torres Strait Islander clients in confinement

HLTAHW054 Support renal dialysis clients in the community setting

HLTAHW055 Provide care to clients undertaking renal dialysis in the community setting

HLTAHW056 Provide sexual and reproductive health care

HLTAHW057 Provide antenatal health care

HLTAHW058 Prepare for and support childbirth

HLTAHW059 Provide postnatal and infant health care

HLTAHW060 Plan for medical emergencies

HLTAHW062 Supervise health care team

HLTAHW066 Manage the delivery of Aboriginal &/or Torres Strait Islander primary health care

HLTIN504D Manage control of infection

### *Renal care*

HLTRNL601C Support the client with chronic kidney disease

HLTRNL602C Provide support and management of the client undergoing peritoneal dialysis therapy

HLTRNL603C Provide care and support to client in renal replacement therapy in community setting

HLTRNL604C Provide support and management of the client undergoing haemodialysis therapy

### *Social and emotional wellbeing*

CHCCSL501A Work within a structured counselling framework

CHCCSL503B Facilitate the counselling relationship

CHCCSL507B Support clients in decision-making processes

CHCCSL509A Reflect and improve upon counselling skills

CHCCS521B Assess and respond to individuals at risk of suicide

CHCICS303A Support individual health and emotional well being

CHCTC403B Provide telephone counselling in crisis situations

CHCTC404B Provide competent suicide intervention in a telephone counselling context

HLTAHW049 Work effectively in social and emotional wellbeing

HLTAHW050 Develop a healing framework for social and emotional wellbeing work

HLTAHW051 Respond to loss, grief and trauma

HLTCSD306D Respond effectively to behaviours of concern

### *Workplace training*

CHCCS427B Facilitate adult learning and development

TAEASS301B Contribute to assessment

TAEASS401B Plan assessment activities and processes

TAEASS402B Assess competence

TAEASS403B Participate in assessment validation

TAEDEL301A Provide work skill instruction

TAEDEL401A Plan, organise and deliver group-based learning

TAEDEL402A Plan, organise and facilitate learning in the workplace

### *Youth work*

CHCPRT001 Identify and respond to children and young people at risk

CHCPRT002 Support the rights and safety of children and young people

CHCPRT003 Work collaboratively to maintain an environment safe for children and young people

CHCYTH002 Work effectively with young people in the youth work context

CHCYTH003 Support young people to create opportunities in their lives

CHCYTH004 Respond to critical situations

CHCYTH005 Develop and implement procedures to enable young people to address their needs

CHCYTH009 Support youth programs

CHCYTH010 Provide services for young people appropriate to their needs and circumstances

CHCYTH011 Work effectively with young people and their families

CHCYTH012 Manage service response to young people in crisis

### Qualification Description

This qualification reflects the role of senior Aboriginal and/or Torres Strait Islander health workers working in primary health care positions to provide advanced primary health care skills or management of a health clinic or service, and who have extensive experience in primary health care work and relevant qualifications.

The Advanced Diploma of Aboriginal and/or Torres Strait Islander Primary Health Care qualification covers workers who integrate knowledge of Aboriginal and/or Torres Strait Islander Primary Health Care into broader aspects of management and community development, contributing to policy-making and decision-making across the spectrum of service delivery.

Candidates who will benefit the most from undertaking this Advanced Diploma will have either the:

- the Diploma of Aboriginal and/or Torres Strait Islander Primary Health Care Practice

- the Diploma of Aboriginal and/or Torres Strait Islander Primary Health Care
- a relevant tertiary qualification

and

- at least two years full time work experience in the delivery of comprehensive primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this qualification at the time of publication.*

## Packaging Rules

Total number of units = 18, including:

- 10 core units
- 8 elective units, of which:
  - at least 5 units must come from the list below
  - up to 3 units may be selected from any endorsed Training Packages or accredited courses relevant to the work outcome
  - no more than 3 units in total may be selected from the Business Services Training Package.

All electives chosen must support the overall integrity of the AQF level of this qualification and contribute to a valid, industry-supported vocational outcome.

### Core units

BSBMGT605B Provide leadership across the organisation

BSBMGT608C Manage innovation and continuous improvement

HLTAHW061 Engage in community health research

HLTAHW066 Manage the delivery of Aboriginal and/or Torres Strait Islander primary health care

HLTAHW067 Manage health education and promotion

HLTAHW068 Develop work plans

HLTAHW069 Develop health care policy

HLTAHW070 Manage human resources

HLTIN504D Manage the control of infection

HLTWHS004 Manage workplace health and safety

## **Elective units**

### *Administration*

BSBADM409A Coordinate business resources  
BSBAUD503B Lead a quality audit  
BSBMGT604A Manage business operations  
BSBSUS501A Develop workplace policy and procedures for sustainability  
CHCINF403E Coordinate information systems  
HLTWHS003 Maintain workplace WHS processes

### *Health promotion*

AHCCCF402A Report on project  
CHCAD603B Provide systems advocacy services  
CHCCD402B Develop and provide community education projects  
CHCCD615B Develop and implement community development strategies  
CHCCD619B Establish and maintain community, government and business partnerships  
CHCPROM401C Share health information  
CHCPROM502B Implement health promotion and community intervention  
HLTAHW025 Provide information and strategies in health care  
HLTAHW033 Maintain community health profile  
HLTAHW034 Provide healthy lifestyle programs and advice  
HLTAHW061 Engage in community health research  
HLTPOP405C Use media to disseminate information  
HLTPOP501C Apply a population health framework  
HLTPOP502C Work with the community to identify health needs  
HLTPOP503C Plan a population health project  
HLTPOP504C Evaluate a population health project  
HLTPOP505C Build capacity to promote health

### *Leadership*

BSBATSIM421A Support a positive and culturally appropriate workplace culture  
BSBWOR402A Promote team effectiveness

BSBMGT605B Provide leadership across the organisation  
HLTAHW032 Supervise individual workers  
HLTAHW062 Supervise health care team  
HLTAHW076 Plan for community emergencies  
HLTHIR403C Work effectively with culturally diverse clients and co-workers  
HLTPOP523C Develop a disaster plan

### *Management*

BSBADM502B Manage meetings  
BSBATSIM414 Oversee the organisation's annual budget  
BSBATSIM416A Oversee organisational planning  
BSBATSIM418A Oversee financial management  
BSBATSIM419A Contribute to the development and implementation of organisational policies  
BSBATSIM420A Oversee asset management  
BSBATSIM505C Control organisational finances  
BSBATSIM506C Develop employment policies  
BSBATSIM511C Develop enterprise opportunities  
BSBATSIW515C Secure funding  
BSBFLM513A Manage budgets and financial plans within the work team  
BSBFLM514A Manage people  
BSBHRM405A Recruit, select and induct staff  
BSBINN601A Manage organisational change  
BSBMGT502B Manage people performance  
BSBMGT603A Review and develop business plans  
BSBRISK501B Manage risk  
BSBMGT616A Develop and implement strategic plans  
HLTAHW063 Implement office systems  
HLTAHW064 Manage budgets  
HLTAHW075 Manage community health projects  
HLTPM501B Manage in a health care business  
BSBHRM404A Review human resources functions  
SRXGOV004B Work effectively with the Board of an organisation

### *Mentoring*

CHCORG428A Reflect on and improve own professional practice

CHCORG627B Provide mentoring support to colleagues

TAEDEL404A Mentor in the workplace

### *Primary health care*

HLTAHW043 Facilitate access to tertiary health services

HLTAHW050 Develop a healing framework for social and emotional wellbeing work

HLTAHW051 Respond to loss, grief and trauma

HLTAHW072 Provide guidance in social and emotional wellbeing

HLTAHW073 Practice social and emotional wellbeing in a clinical setting

HLTAHW074 Provide closure on healing processes

HLTAHW077 Provide supervision for social and emotional wellbeing workers

HLTAHW078 Work within a narrative approach

### *Workplace training*

TAEASS301B Contribute to assessment

TAEASS401B Plan assessment activities and processes

TAEASS402B Assess competence

TAEASS403B Participate in assessment validation

TAEDEL301A Provide work skill instruction

TAEDEL401A Plan, organise and deliver group-based learning

TAEDEL402A Plan, organise and facilitate learning in the workplace

## HLTADM001 Administer and coordinate Telehealth services

### Modification History

| Release   | Comments                                                                                                                                            |
|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | This new unit was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages. |

### Application

This unit describes the skills and knowledge required to administer, support and monitor Telehealth services in a healthcare organisation in collaboration with health professionals and other service providers. The unit covers only additional administration skills that are specific to Telehealth.

It applies to individuals in small to medium sized organisations who play a role in coordinating Telehealth activities in line with policies, procedures and protocols and legal and ethical requirements surrounding clinical risk management and governance.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements describe the essential outcomes*

*Performance criteria describe the performance needed to demonstrate achievement of the element.*

1. Develop and maintain Telehealth networks

1.1 Establish and maintain Telehealth networks using communication skills to develop trust and confidence with diverse people and groups

1.2 Use, update and share Telehealth service provider information with health professionals and other colleagues

1.3 Develop and refine approaches to Telehealth service

provision by pro-actively identifying and using opportunities to update and expand own knowledge

2. Maintain compliance with ethical and legal requirements

2.1 Determine risks associated with the sharing of information on Telehealth platforms

2.2 Ensure collection, use and disclosure of patient information is consistent with information privacy principles and fulfilling duty of confidentiality in line with workplace policy

2.3 Recognise and respect patient rights, care and safety in line with organisation policy and duty of care regarding all aspects of the Telehealth service

2.4 Perform all work within the boundaries of responsibility and refer problems to supervisor and/or other appropriate health professional

3. Support Telehealth service provision

3.1 Ensure referral or request is received and reason for referral and/or clinical requirements are clear and are correctly identified

3.2 Contact service providers and organise care according to doctor's request in line with organisation protocol

3.3 Coordinate information and information flow to meet consultation requirements

3.4 Identify and respond promptly to routine administrative Telehealth service problems

3.5 Pro-actively support colleagues with Telehealth services, share information and provide accurate information in response to queries

4. Complete Telehealth administration

4.1 Manage appointments, recall and reminder systems for Telehealth as per doctor's instructions

4.2 Complete Telehealth financial administration tasks according to billing systems and specific Telehealth requirements

4.3 Maintain client documentation according to organisational and compliance requirements

- 5. Contribute to evaluation of Telehealth services
  - 5.1 Measure and benchmark performance using agreed methods and tools
  - 5.2 Monitor and evaluate systems and promote risk reduction strategies in line with legal and ethical standards
  - 5.3 Promote compliance with accreditation requirements related to Telehealth
  - 5.4 Implement and evaluate change in conjunction with colleagues to ensure goals are achieved

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit.

# Assessment Requirements for HLTADM001 Administer and coordinate Telehealth services

## Modification History

| Release   | Comments                                                                                                                                            |
|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | This new unit was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages. |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be evidence that the candidate has:

- provided administrative support for at least three Telehealth consultation sessions:
  - managed client information appropriately
  - managed the information flow between service providers
  - completed financial administration tasks
- responded appropriately to Telehealth administrative problems
- evaluated and reported on the provision of Telehealth services in at least one organisation
- identified and used Telehealth networks to inform practice

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- key considerations in the provision of Telehealth services:
  - clinical
  - technical
  - business
  - client-centred approach
- industry Telehealth standards, guidelines and accreditation requirements
- legal requirements for the provision of Telehealth services
- risk management considerations and approaches for Telehealth
  - sharing of digital information – who can share what with whom and how
  - ownership of digital information
  - confidentiality

- consent
- role of different individuals in provision of Telehealth services and scope and limitations of own role
- Telehealth networks and ways to use them
- context for current provision of Telehealth services, including government incentives
- key aspects of practice administration systems and how they may be used or adapted to support Telehealth services:
  - sources of information about MBS items
  - funding and support mechanisms for different client groups

## Assessment Conditions

Skills must be demonstrated in the workplace or in a simulated environment that reflects workplace conditions. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
  - operational administration system capable of supporting provision of Telehealth services
  - organisation policies and procedures for Telehealth
  - industry Telehealth standards
- modelling of industry operating conditions, including:
  - interactions with clients and colleagues
  - integration of typical operational problems to which the candidate responds

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors

## HLTADM002 Manage Telehealth technology

### Modification History

| Release     | Comments                                                                                                                                            |
|-------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1.1 | Minor changes to formatting to improve readability.                                                                                                 |
| Release 1.0 | This new unit was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages. |

### Application

This unit describes the skills and knowledge required to select, use and maintain Telehealth technology according to organisation needs. It requires the ability to protect the security of data, particularly in relation to client confidentiality and privacy.

It applies to individuals in small to medium sized organisations who play a role in coordinating Telehealth activities in line with policies, procedures and protocols and legal and ethical requirements surrounding clinical risk management and governance.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements describe the essential outcomes*

*Performance criteria describe the performance needed to demonstrate achievement of the element.*

1. Determine technology requirements

1.1 Seek information on organisation technology requirements based on consultation with appropriate colleagues and client population needs

1.2 Investigate and document options for Telehealth platforms and select hardware and software options that best meet organisation needs

- 1.3 Make recommendations to relevant colleagues within scope of own job role
  - 1.4 Obtain and evaluate costings for chosen hardware and software options
  - 1.5 Liaise with Telehealth and video consultation vendors to organise purchase and set up in line with scope of own job role, standards and organisation requirements
2. Set up consultation sessions
- 2.1 Prepare Telehealth video conferencing equipment for consultations according to organisation policy, procedures and protocols
  - 2.2 Verify all equipment meets requirements of organisation guidelines for Telehealth video conferencing
  - 2.3 Ensure the Telehealth consultation environment and facilities are conducive to patient care ensuring confidentiality and privacy
  - 2.4 Support and coach colleagues with use of Telehealth technology
3. Maintain telehealth equipment
- 3.1 Complete routine maintenance of Telehealth technologies, supporting equipment and facilities according to manufacturer instructions
  - 3.2 Make regular checks to confirm that technologies meet health, safety, industry and task specific legislation and requirements
  - 3.3 Use troubleshooting techniques to resolve minor technology problems
  - 3.4 Identify situations where expert assistance is required and organise technical support
  - 3.5 Provide information about privacy and confidentiality obligations technical support personnel
  - 3.6 Complete accurate maintenance documentation
4. Protect security of Telehealth information system
- 4.1 Determine information security risks associated with provision of Telehealth services

4.2 Obtain Telehealth access and equity requirements and clearance levels in accordance with organisational requirements

4.3 Test security of information system with daily data back-up, periodic testing and restoration of back-ups

4.4 Ensure accurate records of user account and security access details are provided to Telehealth clients in line with system integrity, privacy and risk management

4.5 Communicate privacy, confidentiality and security obligations to all Telehealth personnel

4.6 Complete data security documentation according to organisation and legal requirements

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

- Numeracy skills to work with technology costings, numerical features of computer software programs and client data

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

| Release 1.0 | This new unit was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages. |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be evidence that the candidate has:

- managed the selection, set up and maintenance of at least one Telehealth system:
  - evaluated organisation technology needs through consultation and research
  - selected and costed options and made appropriate recommendations
  - organised technology set up
  - followed procedures to protect security of the information system and client data
  - completed routine technical maintenance and troubleshooting:
    - performed and tested back-ups
    - performed data cleaning
    - interpreted technical manuals
    - used techniques to solve minor technical problems
- completed the technical set up for at least 3 Telehealth consultation sessions

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- different contexts for Telehealth service provision, and the impacts on services provision and technology requirements:
  - physical environment limitations
  - location of technology within the organisation
  - need for privacy

- risk management considerations and approaches for Telehealth
  - sharing of digital information – who can share what with whom and how
  - ownership of digital information
  - confidentiality
  - consent
- features of computer hardware and software:
  - general differences between different computer platforms and their respective operating systems
  - requirements to support Telehealth services
- features of medical software and operating systems used by the organisation to support Telehealth services, including software copyright responsibilities
- key features of industry standards for:
  - provision of Telehealth services
  - computer and Information security
  - encryption of video data
- data security procedures:
  - back ups
  - data labelling and storage
  - password policy
  - system security settings
  - documentation requirements
- routine technology maintenance procedures:
  - functions and features of diagnostic tools
  - documentation requirements
- legislation and industry standards related to the confidentiality, privacy and security of client information
- work health and safety requirements in relation to set up and use of computer systems

## Assessment Conditions

Skills must be demonstrated in the workplace or in a simulated environment that reflects workplace conditions. The following conditions must be met for this unit:

- use of suitable facilities, equipment and resources, including:
  - computerised system (both hardware and software) capable of supporting provision of Telehealth services
  - a populated database
  - organisation policies and procedures
  - Industry Telehealth standards
- modelling of industry operating conditions, including:
  - integration of typical technical problems to which the candidate responds

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the knowledge and skills required by a worker new to primary health care to work effectively with Aboriginal or Torres Strait Islander clients and their communities.

It enables the individual worker to understand the cultural and historical context surrounding issues facing Aboriginal and/or Torres Strait Islander clients and communities in order to support the delivery of primary health care.

This unit applies to all staff providing support to the delivery of primary health care. All work tasks are to be performed under supervision.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Work in the context of Aboriginal and/or Torres Strait Islander history

1.1 Consider and respect local and national historical factors when working with Aboriginal and/or Torres Strait Islander people and their communities

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1.2 Consider the impact of social, political, economic and environmental factors on Aboriginal and/or Torres Strait Islander people and their health

2. Work in a culturally safe manner

2.1 Deliver services as directed in a culturally sensitive and safe manner and in line with organisation policies, regulatory requirements and community protocols

2.2 Maintain confidentiality of client information regardless of personal, family and community pressures or status

2.3 Consider and respect local community values, beliefs and gender roles when providing health care to Aboriginal and/or Torres Strait Islander people

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

- |                            |                                                                                                                                                                                                                                                                |

# Assessment Requirements for HLTAHW001 Work with Aboriginal and/or Torres Strait Islander clients and communities

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- worked effectively with at least three Aboriginal and/or Torres Strait Islander clients by:
  - using culturally safe and appropriate communication, including verbal and body language and gestures, with clients
  - treating information obtained about a client with respect and confidentiality
  - performing own work role in providing services with respect and consideration for Aboriginal and/or Torres Strait Islander people, their histories, cultures and current issues.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task, under supervision, outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Aboriginal and/or Torres Strait Islander health issues and community beliefs, values, protocols and views on health needs
- Aboriginal and/or Torres Strait Islander history, including:
  - history, social structures, beliefs and values of traditional and contemporary Aboriginal and/or Torres Strait Islander communities in Australia
  - effects of colonisation as experienced by Aboriginal and/or Torres Strait Islander people
  - historical dilemmas faced by Aboriginal and/or Torres Strait Islander people
- history of primary health care and community-controlled health
- basic principles of primary health care
- impacts of government policies and legislation on Aboriginal and/or Torres Strait Islander communities
- rights and responsibilities of clients and workers including code of conduct and duty of care
- issues and challenges for local Aboriginal and/or Torres Strait Islander communities which may impact on work role and delivery of services.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- under supervision, as part of a primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or impractical.

Simulated assessment environments must simulate a real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

| Release 1.0 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the knowledge and skills required by a new worker in primary health care to provide basic support to assist Aboriginal and/or Torres Strait Islander clients and community to gain access to available health services. The unit involves the communication of basic health information about health services. It does not involve the worker performing a health check or specific details of health issues.

This unit applies to all staff providing support to the delivery of primary health care. All work tasks are to be performed under supervision.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Support clients to communicate with service providers

- 1.1 Explain services offered by specific health service providers to clients and/or significant others
- 1.2 Support clients to use their preferred language

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

when communicating with service providers

1.3 Use appropriate visual aids and other resources to support client's understanding

1.4 Show respectful and culturally appropriate behaviour and communication to the client and/or significant others

2. Assist service providers to understand client and community needs

2.1 Communicate client needs and concerns to service providers to support access to services

2.2 Communicate local community values, beliefs and gender roles to service providers as required

2.3 Explain the role of traditional healers in the community to service providers as required

3. Give practical support to clients when accessing health services

3.1 Book client appointments as required

3.2 Inform client and/or significant other person of appointments

3.3 Organise and/or provide transport to enable clients and significant other person/s to travel to and from health service provider

3.4 Contact clients as required to ensure appointments are kept

3.5 Follow-up with client and/or significant other person after appointments as required

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

*Numeracy*

- in order to interpret and communicate temporal data, including minutes, hours, days and weeks

- in order to schedule client appointments

### *Writing*

- in order to record client details when making bookings

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- under supervision, supported at least three individual Aboriginal and/or Torres Strait Islander clients to access health services by:
  - encouraging each client to use their preferred language, visual aids and other resources to support understanding
  - explaining and clarifying basic health information and services to the client
  - ensuring the client has understood the services available
  - ensuring service providers understand client and community health needs, values and beliefs
  - arranging the time, attendance and follow up for the client to attend health services and appointments, including organising travel arrangements.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- language or languages, as spoken within the community and the workplace (verbal skills essential, written not essential)
- interpreter and/or translation services available to assist clients and the service provider
- terminology relevant to specific aspects of care provided and the workplace
- the culture of the client, caregiver and health service provider
- the communication style of the client, caregiver or health service provider
- organisation policies, guidelines and procedures, including reporting procedures appropriate to the role.
- 

## Assessment Conditions

*Assessment conditions:*

Skills must be demonstrated working:

- in a health service or centre
- under supervision, as part of a primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the skills and knowledge required by a new worker in primary health care to deliver clear instructions and basic healthy lifestyle information to Aboriginal and/or Torres Strait Islander clients. The unit includes basic information on nutrition and environmental health and basic information to support implementation of a client's health care plan.

This unit applies to all staff providing support to the delivery of primary health care. All work tasks are to be performed under supervision.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Clarify client needs for health information

- 1.1 Use communication skills appropriate to individual clients and/or significant others to gain information about the client's specific basic health issues and needs
- 1.2 Consider cultural practices and beliefs when clarifying information needs of the client

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

- 1.3 Use principles of confidentiality to communicate findings about client information needs to appropriate staff
- 1.4 Gain information from health service providers to pass on to the client and/or significant other and clarify as required
- 1.5 Accurately record all information about the client as required by organisational standards

2. Provide basic health information to client

- 2.1 Use effective communication skills to deliver relevant health information to the client in line with client, community, organisation and legislative requirements
- 2.2 Provide basic information about healthy lifestyle, including nutrition and environmental health factors
- 2.3 Provide basic information to support individual health care plan
- 2.4 Provide information to support a self-care approach

3. Assist in the evaluation of health information provision

- 3.1 Consult client and/or community about effectiveness of health information
- 3.2 Seek feedback to determine how well health information has been understood
- 3.3 Provide feedback to supervisor and appropriate personnel

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

*Reading*

- in order to interpret key information in health documentation

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- provided basic health information to at least three Aboriginal and/or Torres Strait Islander clients by:
  - gaining and clarifying each client's health information requirements in a culturally sensitive manner
  - providing basic health information specific to the needs of each client, including information on:
    - o nutrition and environmental health
    - o individual health care planning
    - o self-care and management approaches
  - getting feedback from each client on the services received
  - providing feedback to relevant personnel regarding the effectiveness of health information.

### Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role under supervision.

This includes basic knowledge of:

- major body systems, organs and their functions, including:
  - cardiovascular system (including heart, arteries and veins)
  - respiratory system (including lungs, nose, mouth, throat)
  - senses (including sight, hearing, smell, touch, taste and equilibrium)
  - skin and integumentary system (including skin layers, hair and nails)
  - digestive and gastrointestinal system (including stomach, intestines, bowel)
  - nervous system (including brain and nerves)
  - circulatory system (including arteries and veins)
  - genitourinary system (including male and female genital and reproductive systems)
  - endocrine system (including glands and hormones)
  - musculoskeletal system (skull, skeleton, muscles, body tissue)
- factors contributing to healthy lifestyles including:
  - nutrition
  - exercise and activity
  - alcohol consumption
  - smoking
  - use and abuse of prescribed and illicit drugs
  - healthy weight range
  - environmental factors
  - mental, social and emotional health and wellbeing
- processes to prevent infection and chronic diseases
- community health issues
- health care plans
- organisational standards, policies and procedures.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- under supervision, as part of a primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.
-

## HLTAHW004 Perform work role in Aboriginal and/or Torres Strait Islander primary health care context

### Modification History

| Release   | Comments                                                                                                                                           |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages. |

### Application

This unit describes the knowledge and skills required by a worker in primary health care to work effectively and appropriately with Aboriginal and/or Torres Strait Islander clients and community. The unit includes the worker researching, understanding and performing their role in the broader primary health care context, as well as planning to further improve their work practices.

This unit applies to all staff providing support to the delivery of primary health care and can be adapted for a range of entry-level roles within the context of primary health care for the Aboriginal and/or Torres Strait Islander community. All work tasks are to be performed under supervision.

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*The Performance Criteria specify the level of performance needed to demonstrate achievement of the Element.*

1. Inform own role

1.1 Identify individual personnel in the organisation and their role

1.2 Identify and apply work policies and procedures

1.3 Consider how own role contributes to the organisation's work to provide primary health care in the Aboriginal and/or Torres Strait Islander community

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*The Performance Criteria specify the level of performance needed to demonstrate achievement of the Element.*

### 2. Perform work tasks

- 2.1 Use time management skills to organise and perform work tasks during required hours
- 2.2 Locate and use required workplace forms, processes and systems to complete work tasks
- 2.3 Identify and wear appropriate clothing and/or personal protective equipment as required
- 2.4 Seek clarification and direction about work tasks as required
- 2.5 Complete all designated work tasks on time and to required organisational standards

### 3. Communicate effectively within work role

- 3.1 Use respectful and effective oral communication methods with staff, clients and community members
- 3.2 Respect privacy and confidentiality when handling all client information
- 3.3 Complete all relevant documents accurately and on time and seek guidance as required

### 4. Identify future pathways

- 4.1 Reflect on work performances including own strengths and areas for improvement
- 4.2 Seek feedback on work performance
- 4.3 Discuss options for skill and knowledge development with supervisor and/or colleagues
- 4.4 Identify opportunities for learning to improve own skills and further career opportunities in primary health care

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

|                           |                                                                                                                                                           |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Numeracy</i>           | <ul style="list-style-type: none"><li>• in order to manage time and organise work tasks</li></ul>                                                         |
| <i>Reading</i>            | <ul style="list-style-type: none"><li>• in order to interpret key information in workplace forms and procedures relevant to job role</li></ul>            |
| <i>Oral communication</i> | <ul style="list-style-type: none"><li>• in order to listen to information and/or instructions from staff, clients and community members</li></ul>         |
| <i>Learning</i>           | <ul style="list-style-type: none"><li>• in order to comprehend own role in the workplace in relation to the role of colleagues and team members</li></ul> |

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

## Unit Mapping Information

No equivalent unit.

## Assessment Requirements for HLTAHW004 Perform work role in Aboriginal and/or Torres Strait Islander primary health care context

### Modification History

| Release   | Comments                                                                                                                                           |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages. |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- effectively performed at least three different work tasks within their work role. This includes:
  - attending at the workplace at all required times
  - communicating with and seeking clarification/guidance from relevant personnel as required
  - organising own time to perform work tasks according to deadlines
  - using appropriate and/or required clothing and equipment and personal protective equipment
  - completing all documentation accurately and on time as required by work task
  - gaining feedback for each work task from relevant staff in the workplace
  - following all relevant workplace processes, and organisational procedures and policies
  - dressing to show respect to staff, clients and community
  - communicating respectfully and effectively with staff, clients and community
  - respecting the confidentiality of all client information received as part of the role
- identified development within own role in discussions with manager or senior staff on at least one occasion by:

- defining how own role contributes to Aboriginal and/or Torres Strait Islander primary health care
- identifying at least one area for skill improvement to perform work tasks and/or at least one area of own interest to pursue within the primary health care context
- seeking opportunities for further development.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the work role. This includes knowledge of:

- a basic understanding of the purpose of primary health care and in particular its role within the context of Aboriginal and Torres Strait Islander clients and communities
- services typically provided by a primary health care service, including health promotion, illness prevention, treatment of chronic diseases, care of the sick, advocacy and community development
- staff and teams typically involved in a primary health care service and their specific roles
- scope of own work role
- organisation standards, policies and procedures relevant to performance of own role
- organisation structure, staff and their roles.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- under supervision, as part of a primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## HLTAHW005 Work in an Aboriginal and/or Torres Strait Islander primary health care context

### Modification History

Not applicable.

### Application

#### Application

This unit describes the knowledge and skills required to deliver primary health care services within the context of Aboriginal and/or Torres Strait Islander health. It provides an understanding of historical, political and other significant factors impacting on the current health of Aboriginal and/or Torres Strait Islander communities.

This unit applies to Aboriginal and/or Torres Strait Islander Health Workers working as part, and under the supervision, of a multidisciplinary primary health care team to provide a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

Elements define the essential outcomes.

Performance criteria specify the level of performance needed to demonstrate achievement of the element.

1. Identify factors impacting on Aboriginal and/or Torres Strait Islander health and the delivery of primary health care services

1.1 Consider the national and local history of Aboriginal and/or Torres Strait Islander people as a factor in primary health care work

1.2 Consider the impact of social, political, spiritual, economic and environmental factors on the health of Aboriginal and/or Torres Strait Islander people

2. Apply primary health care

2.1 Ensure primary health care principles underpin

## ELEMENT

## PERFORMANCE CRITERIA

Elements define the essential outcomes.  
principles

Performance criteria specify the level of performance needed to demonstrate achievement of the element.

service provision and work practices

2.2 Deliver services that support self-determination and empowerment in Aboriginal and/or Torres Strait Islander people and communities

2.3 Demonstrate commitment to achieving access and equity in health services for Aboriginal and/or Torres Strait Islander people

2.4 Establish and maintain networks with health care agencies and associated services to support Aboriginal and/or Torres Strait Islander health care

3. Work in a culturally appropriate and safe manner

3.1 Consider and respect local community values, beliefs and gender roles when providing health care to Aboriginal and/or Torres Strait Islander people

3.2 Deliver health services safely in line with organisation policies, regulatory requirements and community protocols

3.3 Apply cultural safety protocols in the implementation of government policies, research and data collection, and the delivery of services to Aboriginal and/or Torres Strait Islander people

3.4 Identify any cultural factors that produce stress, impact personal wellbeing or have a potential to impact on own work practices, and report as appropriate

4. Apply Aboriginal and/or Torres Strait Islander health policies and resources

4.1 Identify relevant aspects of Aboriginal and/or Torres Strait Islander health strategies, policies, bodies and resources

4.2 Ensure policies and resources are applied in line with identified needs of Aboriginal and/or Torres Strait Islander people and communities

4.3 Identify barriers to access and equity in relation to Aboriginal and/or Torres Strait Islander health

4.4 Take available opportunities to advocate on behalf of Aboriginal and/or Torres Strait Islander people and/or communities

## ELEMENT

Elements define the essential outcomes.

## PERFORMANCE CRITERIA

Performance criteria specify the level of performance needed to demonstrate achievement of the element.

4.5 Reflect on work practices in Aboriginal and/or Torres Strait Islander community-controlled organisations and on current strategies, programs and models that address Aboriginal and/or Torres Strait Islander primary health care issues

4.6 Maintain confidentiality of client information

## Foundation Skills

### FOUNDATION SKILLS

This section describes those language, literacy, numeracy and employment skills that are essential to performance.

#### *Learning*

- in order to locate, access and interpret information on factors impacting on Aboriginal and/or Torres Strait Islander health and the delivery of primary health care services
- in order to apply primary health care principles in familiar and some less familiar contexts

#### *Reading*

- in order to interpret key information in organisational policies and regulations, health strategies and relevant resources

*Other foundation skills essential to performance are explicit in the performance criteria of this unit.*

## Assessment Requirements for HLTAHW005 Work in an Aboriginal and/or Torres Strait Islander primary health care context

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- worked with at least three Aboriginal and/or Torres Strait Islander clients in the primary health care context by:
  - interacting and communicating in a culturally safe manner with and on behalf of Aboriginal and/or Torres Strait Islander clients in line with identified community needs and workplace requirements-
  - working within the scope of their job role to apply the principles of primary health care in the delivery of health care services to each client, considering their individual needs
  - working with an understanding of the impact of historical, social, political, spiritual and environmental factors on the health of Aboriginal and/or Torres Strait Islander people
  - identifying and applying relevant aspects of Aboriginal and/or Torres Strait Islander policies, strategies and resources in line with the scope of their role.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Aboriginal and/or Torres Strait Islander history, including:
  - social structures, beliefs and values of traditional and contemporary Aboriginal and/or Torres Strait Islander communities in Australia
  - impact of colonisation as experienced by Aboriginal and/or Torres Strait Islander people
  - historical dilemmas faced by Aboriginal and/or Torres Strait Islander people (e.g. to acknowledge or deny Aboriginality)
  - impact of government policies and legislation on Aboriginal and/or Torres Strait Islander communities, families and individuals
- specific health concerns and issues for Aboriginal and/or Torres Strait Islander clients and community, including:
  - community perceptions of major health issues affecting them and underlying causes
  - key health statistics (national, state and/or local) for Aboriginal and/or Torres Strait Islander people compared to those of non-Aboriginal and/or Torres Strait Islander population (such as life expectancy at birth, infant mortality rate and age-standardised mortality ratios for selected health conditions)
  - chronic illnesses impacting on the Aboriginal and/or Torres Strait Islander community, including cardiovascular disease, kidney disease, respiratory disease, diabetes, cancer, obesity and asthma
- social, cultural and environmental factors impacting on Aboriginal and/or Torres Strait Islander health status, including:
  - traditional Aboriginal and/or Torres Strait Islander cultural practices and lifestyle
  - importance of land, tradition and cultural practices to Aboriginal and/or Torres Strait Islander people's health
  - socio-economic and political factors
  - perpetuation of disadvantage
  - importance of personal achievement, education and supportive family/social networks
  - strategies for Aboriginal and/or Torres Strait Islander families to maintain strong culture and supportive social networks, and maximise educational, employment and social opportunities for their children
  - environmental factors such as overcrowding and housing and infrastructure conditions
- relevant definitions of 'health' (including those of the World Health Organisation and the National Aboriginal Community Controlled Health Organisation)

- principles of primary health care, including health promotion, illness prevention, treatment of chronic diseases, care of the sick, advocacy and community development
- relevant aspects of health care system, including:
  - relevant agencies such as Medicare, Centrelink, and Aboriginal and/or Torres Strait Islander health organisations
  - access to various benefits, including Medicare, pharmaceutical and related social benefits
  - federal and state legislation and regulations impacting on delivery of primary health care
- principles and organisation procedures and policies relating to confidentiality and privacy.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of, and under the supervision of, a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

### Application

This unit describes the required knowledge and skills for primary health care workers to assist Aboriginal and/or Torres Strait Islander clients and communities to understand their rights and communicate their needs within a self-determination framework. This includes the use of interpreter and translation services to liaise with service providers to enable clients to access a range of health services. This unit does not assume the individual worker has interpretation and/or translation qualifications to provide these services themselves.

This unit applies to Aboriginal and/or Torres Strait Islander Health Workers working as part, and under the supervision, of a multidisciplinary primary health care team to provide a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

options available to the client

communication to assist the client to identify their needs in relation to health issues and services

1.2 Support client to identify needs that are not being met by existing services or supports

1.3 Provide client with information about their rights and options for meeting their needs

1.4 Assist client to identify their preferred option and negotiate other options, as required

2. Assist the client to present their own needs

2.1 Assist client to make contact with relevant persons and agencies

2.2 Provide client with information and support them to present their rights and needs

2.3 Encourage client to communicate in their preferred language, and provide support as required

2.4 Assist client to put their views to relevant persons and agencies to meet their needs as required

2.5 Follow organisational procedures to arrange for interpreting and translation services as requested or required by clients

3. Advocate for the client when self-advocacy is not possible

3.1 Identify relevant individuals or agencies and contact them about the specific issue

3.2 Clearly represent the client's point of view to those involved

3.3 Use clear, appropriate and accessible language that values and respects each individual

3.4 Discuss progress and outcomes with client

3.5 Use translation and interpretation services to ensure the client's understanding and involvement in the process, as required

3.6 Maintain client confidentiality at all times when communicating client information

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

4. Liaise with health service providers to meet client and community needs

4.1 Inform multidisciplinary health service teams of ongoing and/or changing individual and community needs and issues that may impact on service provision

4.2 Communicate local community values, beliefs and gender roles to service providers, as required

4.3 Explain to service providers, as required, the role of traditional healers in the community

4.4 Consult health service providers about the organisation and delivery of health services in the community

4.5 Undertake consultation to provide clients with reasonable and timely access to general and specialist health services required outside their own community

5. Promote the rights, needs and interests of the client

5.1 Regularly discuss rights and needs of clients with other workers and supervisor

5.2 Make suggestions to other workers and supervisor about ways to improve services to clients

5.3 Implement changes as required

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

### Reading

- in order to interpret and synthesise information and provide to client

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- supported Aboriginal and/or Torres Strait Islander clients and/or groups to identify, clarify and present their rights and needs on at least three occasions by:
  - using culturally safe and appropriate communication skills to work effectively with Aboriginal and/or Torres Strait Islander clients
  - identifying avenues for addressing each client's issues and/or concerns and/or improving services provided
  - supporting individual clients to express themselves in culturally appropriate and safe ways to service providers to access services
  - supporting individual clients to use their preferred language to communicate
  - advocating on behalf of clients and/or community groups where they were unable to express individual or collective concerns.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisational policies, guidelines and procedures and legislation or regulations relating to:
  - client confidentiality
  - referral, including various levels of urgency, and follow-up of client
  - mandatory reporting
  - notifiable communicable diseases
  - limits of own ability and authority
  - reporting procedures
  - documentation
- a basic understanding of:
  - Charter of Human Rights of the Child
  - Child Protection Legislation
  - Domestic Violence Legislation
  - Anti-discrimination Legislation
  - Centrelink and Veteran Affairs Guidelines
- referral options and resources available to community members
- existing program policy
- interpreter and/or translation services available within local and regional areas
- language or languages, written and/or spoken, as required within the community and workplace
- medical terminology relevant to the workplace
- communication style and culture of the client, caregiver and health service provider.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of, and under the supervision of, a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the knowledge and skills required to undertake a range of basic health assessments of Aboriginal and/or Torres Strait Islander clients, including infants, children and adults.

This unit applies to Aboriginal and/or Torres Strait Islander Health Workers working as part, and under the supervision, of a multidisciplinary primary health care team to provide a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Obtain client information

1.1 Establish a relationship of trust with the client by demonstrating and respecting confidentiality

1.2 Use effective, culturally appropriate and safe communication to gain information from the client and/or significant others about general health, chronic conditions

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

and specific presenting problems including any medications being taken

1.3 Access available documentation and written sources of information in relation to client's health

1.4 Consult relevant allied health professionals about client's health

1.5 Accurately record client information on client file according to organisation procedures and policies

2. Perform basic physical examination

2.1 Explain the purpose and procedures involved in the examination to the client using culturally appropriate and safe communication skills

2.2 Confirm client understanding and gain client consent to the examination

2.3 Consider and respect Aboriginal and/or Torres Strait Islander community values, beliefs and gender roles when undertaking examination

2.4 Conduct examination according to organisation procedures and policies, standard infection control and workplace health and safety requirements

2.5 Accurately record measurements and findings and identify any significant variation from normal ranges according to organisational procedures

2.6 Identify non-clinical factors potentially responsible for significant variations identified and repeat assessments as required

2.7 Use, maintain and regularly clean medical equipment according to organisational procedures, standard infection control and workplace health and safety requirements

3. Summarise and present findings

3.1 Accurately document client history and examination findings in the client's file in accordance with organisational policies and procedures

3.2 Present and discuss client history and findings of physical examination with primary health care team

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

according to organisational policies and procedures

3.3 Identify common, uncomplicated health conditions based on history, physical examination and available information about presenting problem

3.4 Recognise and assess self-management issues for clients with chronic conditions with primary health care team

3.5 Promptly inform senior health staff about serious or potentially serious health problems including chronic conditions, according to organisational procedures and policies

3.6 Identify and confirm with supervisor issues arising out of examination requiring mandatory notification

3.7 Report notifiable diseases identified to supervisor and/or an appropriate authority in line with jurisdictional requirements

4. Support client's physical wellbeing

4.1 Explain findings of physical examination to client in a culturally appropriate and safe manner according to organisation policies and procedures

4.2 Support client to improve and maintain health through a self-care approach and provide brief intervention as required

4.3 Discuss with the client and/or significant others any identified barriers and options to self care for clients with chronic conditions

4.4 Check for client understanding of information and encourage client to ask questions about health care

**Foundation Skills**

Not Applicable

# Assessment Requirements for HLTAHW007 Undertake basic health assessments

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- worked with at least five Aboriginal and/or Torres Strait Islander clients, including infants, adults and children to:
  - conduct a health assessment of each client by:
    - o using a structured approach to assessment
    - o taking and recording relevant details of client's history and current state, including body language
    - o observing and assessing client's health in line with guidance
    - o using correct procedures and protocols to examine common client presentations
    - o using medical equipment correctly
    - o taking standard precautions for infection control
    - o summarising and reporting findings in line with organisation procedures and protocols
  - interpret the outcomes of the assessment of each client by:
    - o identifying any significant variations from normal range of assessment outcomes for each client

- o identifying and acting upon situations requiring urgent action according to organisation procedures
- o recognising common uncomplicated health conditions from clinical features of each client
- used effective and culturally appropriate and safe communication and interaction with each client and/or significant others, including:
  - o eliciting relevant information from client or documents
  - o clearly explaining examination procedures and protocols to client
  - o making appropriate referrals
- recorded all findings in accordance with organisational procedures and policies with adherence to client confidentiality.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisational policies and procedures and legislation or regulations relating to:
  - client confidentiality
  - referral, including various levels of urgency
  - mandatory reporting
  - notifiable communicable diseases
  - limits of own ability and authority
- infection control and workplace health and safety procedures
- knowledge of anatomy and physiology to identify major body systems, relevant organs and their functions, including:
  - cardiovascular system (including heart, arteries and veins)
  - respiratory system (including lungs, nose, mouth, throat)
  - senses (including sight, hearing, smell, touch, taste and equilibrium)
  - skin and integumentary system (including skin layers, hair and nails)
  - digestive and gastrointestinal system (including stomach, intestines, bowel)
  - nervous system (including brain and nerves)
  - circulatory system (including arteries, veins)
  - genitourinary system (including male and female genital and reproductive systems)
  - endocrine system (including glands and hormones)
  - musculoskeletal system (skull, skeleton, muscles, body tissue)
- common conditions and presenting problems associated with major body systems and relevant organs, including chronic conditions
- acute chronic conditions impacting on Aboriginal and/or Torres Strait Islander clients and communities, including:

- cardiovascular disease
- diabetes
- cancer
- chronic respiratory disease
- chronic kidney disease
- asthma
- arthritis
- features of chronic illness, including:
  - complex causality
  - multiple risk factors
  - long latency periods
  - a prolonged course of illness
  - functional impairment or disability
- determinants of chronic conditions, including:
  - smoking
  - physical inactivity
  - nutrition
  - alcohol intake
  - use of illicit drugs
  - obesity
- purpose, procedures and equipment involved in the following examinations, including:
  - clinical hand wash
  - external physical observations
  - adult and paediatric methods for measuring:
    - o temperature
    - o pulse and respiration
    - o blood pressure
    - o blood glucose level
    - o haemoglobin
    - o weight and height
    - o length
    - o head and waist circumference
    - o visual acuity and ear examination
    - o peak expiratory flow rate (peak flow meter)
    - o INR (a test for blood clotting)
    - o glycohaemoglobin
    - o spirometry (measuring lung function)
    - o ECG (to detect cardiac abnormalities)
- 'normal' range of outcomes of physical assessments
- non-clinical reasons for significant variation from 'normal' range of outcomes

- common over-the-counter and prescribed medicines used within the community and their general purposes
- basic knowledge relating to pregnancy and birthing, including:
  - basic mechanics of pregnancy and birthing
  - impact of smoking and alcohol in pregnancy
  - impact of chronic conditions on pregnancy and birthing.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of, and under the supervision of, a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the required knowledge and skills to assist in the planning and implementation of a health care plan to address findings from clinical assessments. Actions as part of the plan may include delivering information, supporting healthy lifestyle practices, and explaining and supporting medication use and specific medical procedures.

This unit applies to Aboriginal and/or Torres Strait Islander Health Workers working as part, and under the supervision, of a multidisciplinary primary health care team to provide a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Assist in planning a care response to a health assessment

1.1 Show consideration of Aboriginal or Torres Strait Islander community values, beliefs and gender roles when assisting in developing a health care

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

|                                                |                                                                                                                                                                       |
|------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                | plan                                                                                                                                                                  |
|                                                | 1.2 Provide assistance to develop care plan, including delivering health care services with the primary health care team and other health care providers              |
|                                                | 1.3 Take immediate action in line with standard treatment protocols to address life-threatening conditions, injuries or events appropriate to own role and authority  |
|                                                | 1.4 Document care plan in line with standard protocols for health management and organisation procedures                                                              |
|                                                | 1.5 Ensure care plan supports clients in taking a self-care approach to health, in line with individual needs and organisation requirements                           |
| 2. Communicate the need for a health care plan | 2.1 Use culturally appropriate and safe communication with client and/or significant others to discuss health assessment findings and the need for a health care plan |
|                                                | 2.2 Explain the purpose and impact of a primary health care plan to the client and/or significant others                                                              |
|                                                | 2.3 Encourage the client to ask questions about the health care plan to support understanding and agreement                                                           |
|                                                | 2.4 Seek support from primary health care team members to support the client's understanding of the need and scope of the health care plan as required                |
| 3. Implement treatment under health care plan  | 3.1 Use visual aids and other resources to explain each aspect of the treatment to the client and/or significant others and check their understanding and agreement   |
|                                                | 3.2 Initiate treatment as part of health care plan following organisational procedures                                                                                |
|                                                | 3.3 Deliver health care services with reference to the primary health care team and other providers                                                                   |

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

### *Numeracy*

- in order to use and record data from medical equipment, including thermometers, blood glucose testing units and peak expiratory flow rate meters
- in order to measure vital signs, including temperature, pulse, blood pressure and ture, pulse, blood pressure, temperature, pulse, blood pressure, respiratory rate and blood sugar levellood pressure testing respiratory rate

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

## **Unit Mapping Information**

No equivalent unit.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- assisted in the planning and implementation of basic health care for at least five Aboriginal and/or Torres Strait Islander clients by:
  - communicating in culturally safe and appropriate ways with each client and/or significant others to effectively:
    - o gather information to assess health status
    - o communicate care plan options
    - o check the client and/or significant other's understanding of information provided
    - o supporting clients to implement self-management strategies
  - documenting the health care plan according to organisation procedures and policies
  - using relevant medical equipment safely and correctly to implement health care plan
  - recognising situations requiring immediate or urgent action and acting appropriately
  - making appropriate referrals, and providing accurate and relevant details to clients and referral agencies
  - assisting clients to access relevant benefits associated with the health care system, including, Medicare, pharmaceutical and other related benefits
  - recognising appropriate progress in relation to identified criteria for client care plan

- determining further actions in the context of monitoring and evaluating outcomes with colleagues
- maintaining client confidentiality according to organisational procedures and policies.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisational policies and procedures and legislation or regulations relating to:
- client confidentiality
- referral, including various levels of urgency, and follow-up of client
- mandatory reporting
- notifiable communicable diseases
- limits of own ability and authority
- reporting procedures
- documentation
- infection control and workplace health and safety procedures
- knowledge of anatomy and physiology to identify major body systems, relevant organs and their functions, including:
  - o cardiovascular system (including heart, arteries and veins)
  - o respiratory system (including lungs, nose, mouth, throat)
  - o senses (including sight, hearing, smell, touch, taste and equilibrium)
  - o skin and integumentary system (including skin layers, hair and nails)
  - o digestive and gastrointestinal system (including stomach, intestines, bowel)
  - o nervous system (including brain and nerves)
  - o circulatory system (including arteries, veins)
  - o genitourinary system (including male and female genital and reproductive systems)
  - o endocrine system (including glands and hormones)
  - o musculoskeletal system (skull, skeleton, muscles, body tissue)
- common conditions and presenting problems associated with major body systems and relevant organs, including general impact of chronic conditions
- acute chronic conditions impacting on Aboriginal and/or Torres Strait Islander clients and communities, including:
  - o cardiovascular disease
  - o diabetes
  - o cancer
  - o chronic respiratory disease
  - o chronic kidney disease

- o asthma
- o arthritis
- features of chronic illness, including:
  - o complex causality
  - o multiple risk factors
  - o long latency periods
  - o a prolonged course of illness
  - o functional impairment or disability
  - o determinants of chronic conditions, including:
    - o smoking
    - o physical inactivity
    - o nutrition
    - o alcohol intake
    - o use of illicit drugs
    - o obesity
- purpose, procedures and equipment involved in the following examinations, including:
  - o temperature
  - o pulse and respiration
  - o blood pressure
  - o blood glucose level
  - o haemoglobin
  - o weight and height
  - o length
  - o head and waist circumference
  - o visual acuity and ear examination
  - o peak expiratory flow rate
- 'normal' range of outcomes of physical assessments
- non-clinical reasons for significant variation from 'normal' range of outcomes
- common over-the-counter and prescribed medicines used within the community and their general purposes
- basic knowledge relating to pregnancy and birthing, including:
  - o basic mechanics of pregnancy and birthing
  - o impact of smoking and alcohol in pregnancy
  - o impact of chronic conditions on pregnancy and birthing
  - o basic newborn and infant care, including:
    - o promotion of breast feeding
    - o growth assessment
    - o correct use of infant formula
- principles of:
  - o aseptic technique

- o effective bandaging
- o infection control and limiting cross infection
- basic pharmacological principles relevant to specific treatments to be initiated
- criteria and methods for evaluating effectiveness of care/treatments
- strategies, methods and tools available for self-management of chronic conditions and to address barriers to self-management
- environmental factors contributing to poor health which can impact on the effectiveness of health care plans such as:
  - o lack of access to clean water
  - o faulty housing equipment including toilets, taps, drainage, pipes, washing machines and hot water
  - o poor housing or building design contributing to health problems
  - o overcrowding
  - o littering and lack of facilities to dispose of rubbish
  - o personal hygiene and community interactions
  - o unsafe food handling, preparation, storage and disposal.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of, and under the supervision of, a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the skills and knowledge required to communicate with clients requiring social and emotional support and provide information about available referral options. It provides basic skills and knowledge in social and emotional support required by those involved in face-to-face delivery of primary health care services.

This unit applies to Aboriginal and/or Torres Strait Islander Health Workers working as part, and under the supervision, of a multidisciplinary primary health care team to provide a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

This unit equips Aboriginal and/or Torres Strait Islander Health Workers to provide support related to social and emotional wellbeing and does not infer that they are qualified counsellors.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

- |                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Identify social and emotional needs of clients                            | 1.1 Use effective and culturally appropriate and safe communication skills to gain an understanding of the client's concerns<br>1.2 Maintain client confidentiality at all times according to organisation procedures<br>1.3 Record findings according to organisation procedures                                                                                                                                                                                                                    |
| 2. Provide information about available social and emotional support services | 2.1 Provide accurate information about counselling options, which are targeted to identified individual and community needs<br>2.2 Adapt delivery of information as required to facilitate understanding and address need<br>2.3 Obtain further information as required to address identified needs<br>2.4 Support clients in taking a self-care approach to health, in line with individual needs and organisation and community requirements                                                       |
| 3. Assist clients to receive support for social and emotional wellbeing      | 3.1 Consult other health professionals to clarify required care and support services, including referral to other service providers or allied health professionals<br>3.2 Provide immediate support to clients in crisis, in consultation with the health team and supervisor and in line with organisation procedures<br>3.3 Provide clients with details of social and/or emotional support service providers in line with identified needs<br>3.4 Offer immediate help to bereaved family members |
| 4. Follow up clients after accessing social and emotional supports           | 4.1 Consult individual and/or community about effectiveness of support services and associated support provided                                                                                                                                                                                                                                                                                                                                                                                      |

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

4.2 Investigate and provide additional referrals as required

5. Apply self-care strategies

5.1 Acknowledge limits of own personal ability, authority and role

5.2 Seek debriefing as required

5.3 Use ongoing self-care and stress management practices to manage work-related stress

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- provided three Aboriginal and/or Torres Strait Islander clients with information about social and emotional support by:
  - communicating effectively with client to identify specific social and emotional needs
  - providing information about available support options and referring client as appropriate in consultation with client and other health professionals
  - maintaining records as required
  - following up counselling and/or other referred support effectiveness with client
  - managing own work-related stress and applied self-care strategies, including using debriefing services
  - demonstrating culturally appropriate and safe communication skills when interacting with clients and/or significant others at all times.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisation policies and procedures and legislation or regulations relating to:
  - client confidentiality
  - referral, including various levels of urgency, and follow-up of client
  - mandatory reporting
  - notifiable communicable diseases
  - limits of own ability and authority
  - reporting procedures
  - documentation
- basic knowledge of distinctions between counselling, social and emotional, and mental health support and how each relates to Aboriginal and/or Torres Strait Islander communities
- scope of own role in providing social and emotional support
- available counselling, social and emotional support services and associated referral processes
- organisation policies on counselling
- basic information on human psychology and mental health care
- basic counselling principles
- culture and spirituality issues
- impacts of trans-generational trauma on individuals, families and communities around:
  - identity
  - loss of land
  - culture
  - language
  - ceremony
- legislative and confidentiality requirements
- community views on counselling needs
- self-care strategies for Aboriginal and/or Torres Strait Islander Health Worker, including debriefing, own counselling and employee assistance programs
- identifying and referring grief, dying and bereavement issues, such as:
  - Aboriginal and/or Torres Strait Islander views on death, dying, grief and bereavement as contrasted with views in non-Aboriginal communities
  - stages of grief
  - methods of coping with grief, dying and bereavement
  - ways in which Aboriginal and/or Torres Strait Islander families may be assisted (e.g. in making funeral arrangements).

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of, and under the supervision of, a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the skills and knowledge required to gather, interpret and act upon information about the community's health. It covers the collection of information for a specific purpose, such as developing a program or project, or for the purpose of maintaining a community health profile to identify and address issues impacting on community health.

This unit applies to Aboriginal and/or Torres Strait Islander Health Workers working as part, and under the supervision, of a multidisciplinary primary health care team to provide a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Gather information on community health

1.1 Show respect for cultural values, beliefs and gender roles when planning to gather information on community health

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

- |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

## Assessment Requirements for HLTAHW010 Identify community health issues, needs and strategies

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- contributed to identifying community health issues, needs and strategies by:
  - consulting community members to obtain information on community health issues and to establish agreement on health priorities
  - using culturally appropriate and safe communication to effectively gather information
  - recording all information received confidentially and according to organisation procedures
- assisted in preparing written reports by interpreting health information gathered to aid in planning health promotion, services and programs for the community
- helped to provide feedback to the organisation about the outcomes of the research
- assisted to provide feedback to the community about the outcomes of the research.

Each performance evidence task must be demonstrated at least once.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisation policies and procedures and legislation or regulations including:
  - o client confidentiality
  - o referral, including various levels of urgency, and follow-up of client
  - o mandatory reporting
  - o notifiable communicable diseases
  - o limits of own ability and authority
  - o reporting procedures
  - o documentation
- relevant policies, protocols and procedures of the governments and other organisations
- relevant equipment, technology and local resources for collecting community information
- sources of information and ways to access it
- formats and systems for compiling information
- community development principles
- respect for community ownership of data
- environmental factors contributing to poor health, including:
  - lack of access to clean water
  - faulty housing equipment including toilets, taps, drainage, pipes, washing machines and hot water
  - poor housing or building design contributing to health problems
  - overcrowding
  - littering and lack of facilities to dispose of rubbish
  - personal hygiene and community interactions
  - unsafe food handling, preparation, storage and disposal.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of, and under the supervision of, a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment, technology and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker
- or:
- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

### Application

This unit describes the skills and knowledge required to work with Aboriginal and/or Torres Strait Islander people to identify community health information needs and to implement and evaluate routine health promotion, education and screening programs within that community. Information, education and promotion services may include nutrition, healthy lifestyle and promotion of holistic health.

This unit applies to Aboriginal and/or Torres Strait Islander Health Workers working as part, and under the supervision, of a multidisciplinary primary health care team to provide a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Participate in the identification of community

1.1 Use culturally appropriate and safe communication and interaction when working with

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

health information needs

community representatives

1.2 Engage with community to identify current health needs and priorities, and gauge effectiveness of existing health education and promotion programs

1.3 Identify specific groups within community needing information in a particular health area

1.4 Discuss community feedback and needs with supervisor and primary health care team in the organisation or service provider

2. Plan a health promotion and education program to deliver information to community

2.1 Use feedback from community consultation as a basis for planning community health information programs

2.2 Work with the primary health care team to determine health information to address identified community needs

2.3 Consult with community representatives to plan health promotion, including identifying community members to be involved in delivery

2.4 Consider cultural practices and beliefs when determining information needs and delivery of the program

2.5 Confirm plans for the delivery of health information program with primary health care team to ensure legislative and organisation procedures are met

2.6 Document all details of the health information program according to organisation procedures

3. Participate in the delivery of health promotion and education services

3.1 Use culturally appropriate and safe communication and interaction to deliver health information and promote health

3.2 Conduct health promotion and education in partnership with the community

3.3 Ensure service delivery meets community, legislative and organisation requirements

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

3.4 Ensure health promotion and education activities support clients to take a self-care approach to health and in line with individual needs and organisation and community requirements

4. Participate in routine health screening services

4.1 Explain screening procedure and purpose to client using culturally appropriate and safe communication

4.2 Obtain feedback from client to determine whether procedure is understood and consent is given

4.3 Make client as comfortable as possible

4.4 Prepare screening equipment

4.5 Assist in routine screening in line with community, legislative and organisation requirements

5. Participate in the evaluation of health promotion and education services

5.1 Consult community about the effectiveness of health promotion and education

5.2 Ensure evaluation includes effectiveness of health promotion resources, involvement of community as a partner and community response to information provided

5.3 Consult community to identify any obstacles to application of the information

5.4 Discuss feedback and possible improvements with other members of the team and supervisor

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- assisted with basic health screening of at least three Aboriginal and/or Torres Strait Islander clients by:
  - using culturally appropriate and safe communication skills to help clients to understand procedures
  - assisting primary health care team members with preparing for and carrying out screening procedures
- assisted in developing and delivering at least one health promotion and education service by:
  - using basic research skills to obtain, summarise and provide feedback on community information
  - helping to prepare written, spoken or digital health information to address needs of community
  - communicating effectively with clients to identify needs
  - communicating effectively to deliver health information and education services, using visual and other aids as required.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisation policies and procedures and legislation or regulations relating to:
  - o client confidentiality
  - o referral, including various levels of urgency, and follow-up of client
  - o mandatory reporting
  - o notifiable communicable diseases
  - o limits of own ability and authority
  - o reporting procedures
  - o documentation
  - o basic screening procedures.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of, and under the supervision of, a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker
- or:
- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the required skills and knowledge to assess whether clients are misusing alcohol and/or other drugs and implement a care plan under direction or within established guidelines that limit discretion.

This unit applies to Aboriginal and/or Torres Strait Islander Health Workers working as part, and under the supervision, of a multidisciplinary primary health care team to provide a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Provide information to community about substance misuse

- 1.1 Ensure substance misuse information is accurate and easily accessed and understood by community
- 1.2 Obtain further information as needed

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1.3 Encourage individuals to seek advice for their own circumstances

2. Assess whether individuals are misusing substances

2.1 Obtain a client history and records according to organisation guidelines

2.2 Use culturally appropriate and safe communication skills to undertake and record assessment of individual

2.3 Maintain client confidentiality

3. Plan and implement follow-up action

3.1 Plan follow-up action in consultation with other health professionals and key community workers

3.2 Ensure follow-up action is in line with community, legislative and organisation guidelines

3.3 Refer client to appropriate services in line with individual and community needs and organisation guidelines

3.4 Monitor the follow-up plan and record outcomes

**Foundation Skills**

Not Applicable

**Unit Mapping Information**

No equivalent unit.

# Assessment Requirements for HLTAHW012 Assist with prevention and minimisation of substance misuse

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- provided accurate and accessible information about substance misuse to the community on at least three occasions by:
  - consulting with the primary health care team to determine the information to provide
  - communicating the information to members of the community in culturally appropriate and safe ways
  - using different mediums to support access to information
- worked with the primary health care team to support at least three individual clients by:
  - analysing client history and records to assess possible substance misuse for each client
  - planning follow-up action consultation with relevant community and/or health professionals
  - implementing and monitoring follow-up plans.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- physical, social and psychological effects of misuse of substances identified in this unit
- treatment options relating to specific substance misuse
- community issues and legislation relating to substance misuse
- patterns of drug and alcohol consumption relevant to the community and region
- service providers and associated referral processes
- understanding of blood-borne viruses in relation to injecting drug use, and associated high rates of HIV and hepatitis C in this Aboriginal population group
- indirect impacts of substance misuse, including:
  - foetal alcohol syndrome
  - environmental tobacco smoke
- principles of harm minimisation (as Australia's national policy), including:
  - harm reduction
  - supply reduction
  - demand reduction
- impact of substance misuse on the healthy functioning of major body organs and systems
- likely interactions between chronic illness and substance misuse
- impact of substance abuse on pregnancy, birth and unborn children.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of, and under the supervision of, a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## HLTAHW013 Respond to emergencies

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the required skills and knowledge to contribute to a response to emergencies that affect the community, in accordance with a prepared plan of action. It may involve dealing with emergencies of a medical or non-medical nature.

This unit applies to Aboriginal and/or Torres Strait Islander Health Workers working as part, and under the supervision, of a multidisciplinary primary health care team to provide a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Assess the emergency

- 1.1 Identify factors which determine the event is an emergency
- 1.2 Seek information about the emergency from key people and the community, as time permits
- 1.3 Determine needs of the community and/or

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

community members, in consultation with key people and the community, as time permits

2. Identify existing relevant emergency action plans

2.1 Locate organisational protocols, procedures and plans for responding to emergencies

2.2 Identify strategies for responding to emergencies with the primary health care team

3. Identify own and others' roles in implementing the emergency action plan

3.1 Identify own roles and responsibilities and how it supports the roles of others in the primary health care team or externally

3.2 Identify and contact the emergency action plan coordinator as required

3.3 Identify and contact other workers with responsibilities for responding to the emergency as required

4. Implement the emergency action plan

4.1 Undertake work according to the strategy for responding to the emergency in line with organisation, community and legislative requirements

4.2 Provide key people and the community with progress reports, as time and client confidentiality permits

4.3 Maintain client and community confidentiality

5. Follow-up emergency

5.1 Monitor and review the emergency, in consultation with key people

5.2 Identify follow-up services and provide in line with community needs and workers' responsibilities

6. Provide feedback on the emergency action plan

6.1 Provide feedback about the effectiveness of the emergency action plan to key people

**ELEMENT**

*Elements define the essential outcomes.*

**PERFORMANCE CRITERIA**

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

6.2 Suggest ways to improve the emergency action plan, if appropriate

6.3 Identify and use opportunities for debriefing following emergencies as required

**Foundation Skills**

Not Applicable

**Unit Mapping Information**

No equivalent unit.

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- participated in workplace practice drills for each of the following emergency situations:
  - fire
  - bomb threat
- contributed to the planning of at least one emergency response as a member of a primary health care team by:
  - identifying conditions and factors contributing to an emergency situation
  - accessing existing emergency plans, procedures and protocols relevant to different emergency situations
  - identifying scope of own role in contributing to an emergency response
  - identifying possible actions for particular emergencies
  - determining appropriate means of communication in the event of an emergency and alternatives if required
  - identifying relevant personnel and authorities to contact in the event of an emergency
  - identifying follow-up measures once emergency situation has been handled.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisation policies and procedures and legislation or regulations relating to:
- client confidentiality
- referral, including various levels of urgency, and follow-up of client
- mandatory reporting
- notifiable communicable diseases
- limits of own ability and authority
- reporting procedures
- documentation
- relevant organisation policies, protocols and procedures relating to emergencies, including definition of emergency situations
- organisational and community meeting points for emergency situations
- potential emergency situations including:
  - o violence from individuals or groups
  - o hazardous environmental incidents
  - o car and other vehicle accidents
  - o plane crashes
  - o mining accidents
  - o epidemic diseases
  - o fire, floods, extreme weather, earthquakes and other natural disasters
  - o bomb threats
  - o any other situations which require an urgent response
- local disaster planning processes
- immediate actions to deal with the emergency, including:
  - o evacuation from affected area
  - o sheltering in a safe location
  - o medical treatment
  - o raising awareness (both within and externally) of the emergency faced by the community
  - o securing a particular area within an organisation or community
  - o removal of individuals or groups from an area
- strategies to deal with ongoing impact of the emergency, including:
- counselling
- community trauma responses
- provision of resources and services
- debriefing

- community ceremonies
- implementing actions requested by the community council
- employee assistance programs
- roles and responsibilities as defined by the emergency action plan
- emergency response agencies at local, state, territory or federal level
- community views, considerations and directions on responding to emergencies
- cultural and community specific information
- locations and facilities of suitable and/or alternative venues to provide emergency responses
- communication means during emergency procedures and contingency back-ups.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of, and under the supervision of, a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## HLTAHW014 Work with Elders in Aboriginal and/or Torres Strait Islander communities

### Modification History

Not applicable.

### Application

This unit describes the required skills and knowledge required by Aboriginal and/or Torres Strait Islander Health Workers to support the health of Elders in Aboriginal and/or Torres Strait Islander communities. Support may be provided to Elders living at home, in residential aged-care facilities, or in community organisations providing health care specifically for the Aboriginal and/or Torres Strait Islander community.

This unit applies to Aboriginal and/or Torres Strait Islander Health Workers working as part, and under the supervision, of a multidisciplinary primary health care team to provide a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Promote healthy lifestyle practices for Elders

- 1.1 Identify strategies that support Elders to adopt healthy lifestyle practices
- 1.2 Promote social, cultural and spiritual wellbeing of Elders in the community
- 1.3 Respect, recognise and accommodate Elders' interests and life activities when delivering services
- 1.4 Assist Elders to maintain social, cultural and spiritual connectedness with their community

2. Provide information to Elders

- 2.1 Identify common problems associated with ageing

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

on changes associated with ageing

and in particular for people of Aboriginal and/or Torres Strait Islander background

2.2 Provide information on physical changes associated with ageing

2.3 Assist Elders to recognise impact that changes associated with ageing may have on daily activities

2.4 Communicate situations of risk or potential risk associated with ageing

3. Support the rights and interests of Elders

3.1 Encourage and support the Elder and/or their advocate(s) to be aware of their rights and responsibilities

3.2 Conduct work in a way that demonstrates a commitment to access and equity principles

3.3 Adopt strategies to empower the Elder and/or their advocate(s) in regard to their service requirements

3.4 Provide information to the Elder and/or their advocate(s) to facilitate choice in their decision-making

3.5 Recognise and report to appropriate person when an Elder's rights are not being upheld

3.6 Provide information to the Elder and/or their advocate(s) regarding mechanisms for lodging complaints

3.7 Identify indicators of Elder abuse and respond appropriately in line with organisation policies and procedures

4. Support Elders who are experiencing loss and grief

4.1 Recognise signs that the Elder is experiencing grief and report to appropriate person

4.2 Use culturally appropriate and safe communication strategies when an Elder is expressing their fears and other emotions associated with loss and grief

4.3 Provide the Elder and/or their support network with information regarding relevant support services as required

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

4.4 Provide ongoing support and follow-up for the Elder

4.5 Recognise and seek appropriate assistance when debriefing services are required

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

*Reading*

- in order to interpret relevant information in a range of health resources and policy documents

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

## Unit Mapping Information

No equivalent unit.

# Assessment Requirements for HLTAHW014 Work with Elders in Aboriginal and/or Torres Strait Islander communities

## Modification History

Not applicable.

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- worked effectively with at least three Elders in Aboriginal and/or Torres Strait Islander communities by:
  - communicating in a culturally appropriate and safe manner with Elders at all times
  - supporting healthy lifestyle practices to promote an individual Elder's social, cultural and spiritual wellbeing
  - supporting the Elder to undertake own interests and life activities
  - delivering services to each Elder with a focus on quality and commitment to promoting individual rights to maintain social, cultural and spiritual connectedness with community
  - providing information on the impact of ageing on physical and mental activity
  - advocating individual rights when receiving services
- provided appropriate information and support, and taken appropriate action for Elders who:
  - have experienced abuse and/or
  - are suffering grief and loss.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisation policies and procedures and legislation or regulations relating to:
- client confidentiality
- referral, including various levels of urgency, and follow-up of client
- mandatory reporting
- notifiable communicable diseases
- limits of own ability and authority
- reporting procedures
- documentation
- key issues facing Elders and their carer(s) in Aboriginal and/or Torres Strait Islander communities
- available supports at local, state, territory and federal level specifically for Elders in the Aboriginal and/or Torres Strait Islander community
- current philosophies of service delivery in aged care
- impact of ageing demographics on funding and service delivery models
- current legislation, policy and programs, including The Commonwealth Home and Community Care program (HACC), Department of Veterans' Affairs and Government community care directions
- regulations and legislation relevant to work in the aged care and home and community care sector, including issues such as:
  - o Elder abuse
  - o drug administration
  - o access and equity
  - o duty of care implementation in home and community settings and worker roles
  - o basic home fire safety including high-risk groups, behaviour that contributes to fire injury and fatalities, and smoke alarm placement, installation and maintenance
- principles of 'Ageing in place' and 'Positive ageing', including:
  - o managing ageist attitudes
  - o impact of changing expectations of clients, families and wider community
  - o understanding individuality of ageing
- key aspects of quality frameworks and how they link together
- quality monitoring activities, including:
  - o audits
  - o collection of data
  - o visits by external bodies
- key aspects of regulatory/ accreditation quality standards in relation to delivery of services in aged care and home and community care
- foundation aspects of common physiological, chronic and age-related conditions, including:
  - o arthritis and other musculoskeletal problems
  - o depression and neurological disorders
  - o diabetes

- o frailty and deconditioning
- o heart, lung and vascular disease
- o incontinence
- o skin disorders, including skin cancers
- o stroke
- o dementia
- o osteoporosis
- rights and responsibilities of Elders and workers in aged care and home and community care sector
- stages of loss and grief
- strategies for managing complaints
- recognising limits of own ability and authority
- organisation policies, guidelines and procedures.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of, and under the supervision of, a multidisciplinary primary health care team
- with Elders from Aboriginal and/or Torres Strait Islander communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

-

# HLTAHW015 Work under instructions to support the safe use of medication

## Modification History

Not applicable.

## Application

This unit describes the knowledge and skills required by Aboriginal and/or Torres Strait Islander Health Workers to support clients to use medication safely and under instruction.

The unit addresses the provision of physical assistance to take or receive medication. It may involve assisting or supporting the client with prescribed and/or over-the-counter medications, traditional and bush medicines, and complementary medicines.

This unit does not allow the individual worker to determine or calculate dosage of medication.

This unit applies to Aboriginal and/or Torres Strait Islander Health Workers working as part, and under the supervision, of a multidisciplinary primary health care team to provide a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Confirm scope of own role in relation to medication

1.1 Confirm own role within a primary health care team to support the safe use of medication

1.2 Identify lines of supervision and authority for reporting and clarifying issues within job role

1.3 Identify legal and ethical boundaries and responsibilities relating to own job role

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

|                                                              |                                                                                                                                      |

|                                                              | 1.5 Clarify any concerns or queries relating to scope of job role with relevant supervisor and/or member of primary health care team |
| 2. Obtain instructions about medication                      | 2.1 Gather all relevant information about client's medication requirements                                                           |
|                                                              | 2.2 Discuss gathered information with appropriate member/s of primary health care team to confirm medication requirements            |
|                                                              | 2.3 Confirm instructions for medication with primary health care team                                                                |
|                                                              | 2.4 Clarify any aspect of instructions as required                                                                                   |
| 3. Communicate with the client about medication requirements | 3.1 Communicate in a culturally appropriate and safe manner with the client and/or significant others at all times                   |
|                                                              | 3.2 Explain the purpose of medication to the client                                                                                  |
|                                                              | 3.3 Encourage the client and/or significant others to ask questions to promote understanding of the medication's purpose             |
|                                                              | 3.4 Confirm the client's understanding of the medication required to obtain informed consent                                         |
|                                                              | 3.5 Seek clarification and assistance from primary health care team as required                                                      |
|                                                              | 3.6 Document client's informed consent in client records according to organisational procedures and policies                         |
| 4. Follow instructions to support safe use of medication     | 4.1 Explain the medication dosage to the client                                                                                      |
|                                                              | 4.2 Assist client to measure out dosage required                                                                                     |

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

according to instructions

4.3 Assist the client to use medication in correct way according to instructions

4.4 Confirm the client has taken the medication

4.5 Observe the client for any immediate abnormal physical reaction and advise primary health care team as required

4.6 Document the medication taken in client records according to organisational procedures and policies

5. Support client's storage and transport of medication

5.1 Explain to client how the medication must be stored and the purpose of correct storage

5.2 Confirm the client's understanding of storage requirements

5.3 Confirm the client has an appropriate place for storing medication

5.4 Explain to the client how to transport medication if medication must be moved

5.5 Document all information given to the client about storage and transport of medication

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

*Numeracy*

- in order to explain the medication dosage to the client and record the medication taken

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

## Unit Mapping Information

No equivalent unit.

# Assessment Requirements for HLTAHW015 Work under instructions to support the safe use of medication

## Modification History

Not applicable.

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- supported at least five clients in the safe use of medication by:
  - clarifying own role in relation to supporting clients to use over-the-counter and prescribed medication safely
  - gaining instructions for each client's use of medication and clarifying any concerns with primary health care team
  - using culturally appropriate and safe communication skills to support each client's understanding of the medication's purpose and instructions for safe use
  - supporting each client to safely use medication by following instructions
  - confirming all actions with appropriately authorised practitioner
  - correctly documenting each stage of the process according to organisational procedures and policies.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the work role. These include knowledge of:

- organisational policies and procedures and legislation or regulations relating to:
- client confidentiality
- referral, including various levels of urgency, and follow-up of client
- mandatory reporting
- notifiable diseases
- limits of own ability and authority

- reporting procedures
- documentation
- organisational procedures, and legal and ethical requirements impacting on own role in supporting medication usage
- appropriate handling and storage of medications, including the importance of cold chain storage
- basic knowledge of commonly used medicines/drugs, including prescribed and over-the-counter medications
- basic knowledge of common terms and abbreviations used in relation to medication
- use of equipment to support medication administration
- required infection control procedures
- expected effects of medications being used, the consequences of incorrect use of medication and of main reasons for errors in medication administration
- understanding of duty of care in assisting clients to safely use medication within scope of own work role
- basic knowledge of how medications can impact on the anatomy and physiology of major body systems, relevant organs and their functions, including:
  - o cardio-vascular system (including heart, arteries and veins)
  - o respiratory system (including lungs, nose, mouth, throat)
  - o senses (including sight, hearing, smell, touch, taste and equilibrium)
  - o skin and integumentary system (including skin layers, hair and nails)
  - o digestive and gastro-intestinal system (including stomach, intestines, bowel)
  - o nervous system (including brain and nerves)
  - o circulatory system (including arteries, veins)
  - o genitourinary system (including male and female genital and reproductive systems)
  - o endocrine system (including glands and hormones)
  - o musculoskeletal system (skull, skeleton, muscles, body tissue)
- common conditions and presenting problems associated with major body systems and relevant organs.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of, and under the supervision of, a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment, including medication dispensing devices and support tools.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the skills and knowledge required to initiate, undertake and interpret findings from a range of clinical assessments, tests and procedures to determine the physical wellbeing of a client. Findings of these assessments will be used as the basis of a health care plan – the skills and knowledge to plan, implement and monitor a health care plan are detailed in HLTAHW018 Plan, implement and monitor health care plan in a primary health care context.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Initiate health assessment

1.1 Seek to establish trust with the client, through active promotion of and strict adherence to confidentiality

1.2 Obtain client's history using effective, culturally

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

appropriate and safe communication skills

1.3 Seek additional health-related information from the client's family and/or carer(s) and relevant community members with the client's consent

1.4 Consult relevant allied professionals and available documentation in relation to the health of the client

1.5 Document all information about the client in accordance with organisational procedures and policies

2. Assess client's physical health

2.1 Explain the process and rationale of each examination and test to the client

2.2 Perform physical and clinical assessments in line with organisational policies and procedures and with respect for community values, beliefs and gender roles

2.3 Measure vital signs and identify significant variation from normal ranges and refer to senior staff member as required

2.4 Use correct procedures and take precautions to collect and send specimens for pathology testing

2.5 Accurately record all outcomes of assessments in accordance with organisational procedures and policies

2.6 Identify non-clinical factors potentially responsible for significant variations from normal ranges and make repeat assessments

3. Interpret and confirm health assessment findings

3.1 Accurately identify a range of signs and symptoms of health conditions

3.2 Recognise signs and symptoms of potentially serious underlying conditions and refer to senior health staff for advice

3.3 Interpret the significance of health assessment findings in the context of the holistic health of the client

3.4 Identify any significant variations from normal range on the basis of health assessment data

3.5 Consult other team members to confirm

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

interpretations and clarify implications and significance of findings

3.6 Seek assistance when findings are unclear or outside limits of own authority

3.7 Report notifiable diseases identified to supervisor and/or an appropriate authority, in line with jurisdictional requirements

3.8 Initiate action in relation to any issues requiring mandatory reporting according to procedural and legislative requirements

3.9 Accurately document client history and examination findings in client's file

4. Summarise and present findings

4.1 Provide client with information about findings of physical examination

4.2 Check client understanding of information through appropriate questioning

4.3 Provide client with information relevant to promoting and maintaining their health in a way they readily understand

4.4 Support client to take a self-care approach to health in line with individual needs and organisational and community requirements

4.5 Document and refer as necessary all discussions with client and/or significant others in client file according to organisational procedures and policies

**Foundation Skills**

*This section describes the language, literacy, numeracy and employment skills that are essential to performance.*

Numeracy

- in order to use and interpret readings of medical equipment including haemoglobinometer, tape

- measure, sphygmomanometer, scales, thermometers, glucometer, peak expiratory flow rate meters
  - in order to measure vital signs, including temperature, pulse, blood pressure and respiratory rate
- Reading
- to interpret various pieces of written information regarding the client's health, including referrals, test outcomes and reports

Other foundation skills essential to performance are explicit in the performance criteria of the unit.

## Unit Mapping Information

No equivalent unit.

# Assessment Requirements for HLTAHW016 Assess client's physical wellbeing

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- assessed and monitored the physical wellbeing of at least five Aboriginal and/or Torres Strait Islander adults and children by:
  - establishing a relationship of trust with clients and significant others
  - taking a detailed history of the client
  - explaining assessment methods and procedures to client and/or significant others
  - observing and assessing client's health, using appropriate tests and medical instrumentation
  - recording observations
  - questioning, assessing and monitoring client's health status, issues and needs
  - reviewing effectiveness of health care strategies and making appropriate revisions, taking prior history into consideration
  - summarising and presenting findings in line with client needs and workplace requirements
  - maintaining client records and upholding client confidentiality
  - communicating with client's family and/or significant others as required
  - gaining informed consent to conduct assessment

- taking, considering and recording relevant details of client's history (including body language)
- complying with and enforcing infection control guidelines
- using a structured approach to assessment
- interpreting common pathology tests
- taking full responsibility for assessment findings.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisational policies and procedures and legislation or regulations relating to:
  - client confidentiality
  - referral, including various levels of urgency, and follow-up of client
  - mandatory reporting
  - notifiable communicable diseases
  - limits of own ability and authority
  - reporting procedures
  - documentation
- key elements of comprehensive and accurate physical, social/emotional and mental health assessment
- anatomy/physiology and associated microbiology, pathophysiology (disease processes) and pharmacology including:
  - respiratory system
  - circulatory system
  - integumentary system
  - digestive system
  - genitourinary system
  - endocrine system
  - musculoskeletal system
  - nervous system
  - reproductive systems
- pathophysiology associated with these systems, including:
  - acute chronic condition and conditions associated with a specific body system
  - injuries
  - wounds
  - arthritis
  - inflammation

- impact of alcohol and drugs
- pharmacology to address pathophysiology, including:
  - medications and forms of administration
  - antibiotics
  - analgesics
  - contraindications
  - complications
  - psychiatric medications
  - oral hypoglycaemics
  - insulin
- procedures for health tests and 'normal' range of test outcomes, including:
  - blood pressure (for adults and children)
  - temperature
  - pulse rate
  - respiratory and peak flow rates
  - height and weight
  - components of urine
  - near vision and pinhole visual acuity testing
- visual examination of eye and ear
- blood glucose (sugar) and haemoglobin levels
- in relation to cardiovascular diseases:
  - the concept of 'cardiovascular risk factors', the significance of an individual having multiple risk factors and the concept of 'high absolute risk'
  - the importance of reduction of saturated fats and sugar-sweetened soft drinks, increased physical activity and smoking cessation in reducing the risk of heart and kidney disease in Aboriginal and/or Torres Strait Islander populations
- in relation to diabetes mellitus:
  - basic pathophysiology of type II contrasted with type I diabetes mellitus
  - complications of diabetes (including heart disease and stroke; renal failure; retinal damage and blindness; nerve damage and infection resulting in amputation; impotence)
  - the main elements of the 'diabetes check up'
  - the procedure for taking retinal photographs
  - basic anatomical features and abnormalities on a retinal photograph
  - the content of client education for diabetes covering diet, physical activity, foot-care, and use of diabetes medicines
- in relation to chronic renal disease:
  - basic pathophysiology of chronic renal failure (causes, body systems affected, natural history)
  - factors which may worsen or accelerate renal failure (including: high blood pressure, anti-inflammatory drugs, poor diabetes control, dehydration, high protein diet)

- clinical features of advanced renal failure
- the importance of early detection of renal disease in efforts to defer or prevent end-stage renal failure
- options for treatment of end-stage renal failure (haemodialysis, chronic ambulatory peritoneal dialysis, transplant).
- familiarity with a range of other common chronic conditions in Aboriginal and/or Torres Strait Islander populations:
  - chronic liver disease – causes, clinical features and principles of management (including hepatitis B, hepatitis C, alcoholic liver disease and cirrhosis)
  - chronic obstructive lung disease, relationship to smoking and principles of management
- basic nature, management and associated risk factors for common diseases
- commonly (including complete blood tests and urine analysis) and specifically requested pathology tests and the correct methods of collection, storage and transport of specimens
- the clinical significance of abnormal findings on pathology tests with particular reference to use of medicines
- knowledge of care planning and self-management support tools
- relevant criteria for evaluation of effectiveness of care plan
- features of chronic illness, including:
  - complex causality
  - multiple risk factors
  - long latency periods
  - a prolonged course of illness
  - functional impairment or disability
- specific chronic conditions affecting Aboriginal and/or Torres Strait Islander clients and communities, including:
  - cardiovascular disease
  - diabetes
  - cancer
  - chronic respiratory disease
  - chronic kidney disease
  - asthma
  - arthritis
  - oral disease
- determinants of chronic conditions, including:
  - smoking
  - physical activity
  - nutrition
  - alcohol intake
  - use of illicit drugs
  - obesity, weight and waist circumference
  - unsafe sexual practices

- genetic factors
- linkages between conditions such as diabetes and eye health, nutrition and hearing, etc.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

This may include medical equipment including but not limited to haemoglobin meter, tape measure, sphygmomanometer, scales, thermometers, glucometer, peak expiratory flow rate meters.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Application

This unit deals with the required skills and knowledge to assess clients in relation to their social and emotional wellbeing, and provide appropriate support and referral as a member of a multidisciplinary team working with Aboriginal and/or Torres Strait Islander communities.

The unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

This unit equips Aboriginal and/or Torres Strait Islander Health Workers to provide support related to social and emotional wellbeing and does not infer that they are qualified counsellors.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

## Elements and Performance Criteria

### ELEMENT

*Elements define the essential outcomes.*

### PERFORMANCE CRITERIA

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Obtain client history and information for social and emotional wellbeing assessment

1.1 Establish a relationship of trust with the client by demonstrating and respecting confidentiality of communications

1.2 Use effective and culturally appropriate and safe communication skills to obtain a personal history from the client

1.3 Seek information about relevant critical incidents with due sensitivity and respect for the physical, emotional and cultural safety and security of those affected

1.4 Observe client closely to identify any signs of emotional disturbance

1.5 Seek additional related information through consultation with family and/or significant others as required and with consent of the client

1.6 Consult relevant allied professionals and available documentation in relation to the health of the client

1.7 Record all information obtained according to principles of confidentiality and organisational procedures and policies

2. Assess and determine client wellbeing

2.1 Analyse information obtained to recognise signs and symptoms of mental disturbance and significant underlying emotional reactions to loss, grief and trauma

2.2 Recognise issues that may relate to transgenerational trauma and grief for the individual, family and community

2.3 Identify disturbances in behaviour that may suggest a psychiatric disability

2.4 Promptly discuss with experienced staff any indicators of depression or suicide risk, and refer client to appropriate supports as required

2.5 Identify issues requiring mandatory notification and report to supervisor and/or an appropriate authority

2.6 Identify client's self-management capacity and barriers

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

2.7 Discuss findings with colleagues to determine appropriate course of action to support client's wellbeing with reference to any existing health care plan

2.8 Document all findings and determined actions according to policy, procedures confidentiality principles

3. Provide support to client

3.1 Invite client and, with their consent, their family to discuss issues of concern in a supportive and confidential context

3.2 Provide client with information to enable decision-making about their social and emotional wellbeing

3.3 Support client to identify key self-management needs and goals and to determine appropriate self-care strategies

3.4 Refer client as required and follow-up on referrals

3.5 Refer serious or potentially serious issues to senior health staff for advice

3.6 Assist and refer family to address own wellbeing and safety, as required

3.7 Maintain current, complete, accurate and relevant records from each client interaction

**Foundation Skills**

*This section describes the language, literacy, numeracy and employment skills that are essential to performance.*

*Reading*

- in order to interpret relevant policy and regulatory information

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- assessed the social and emotional wellbeing of at least five clients by:
  - observing, noting and recognising unusual physical, behavioural and body language indicators
  - communicating effectively with client (and significant others) in a culturally safe manner on all occasions
  - discussing with each client their socio-emotional health status, issues and needs
  - maintaining client records and upholding client confidentiality
  - recording accurate, sufficiently comprehensive and relevant client health history and assessment findings for each client
  - distinguishing between effects of transgenerational trauma and grief and psychiatric illnesses
  - consulting team members regarding assessment findings and as otherwise required to support client wellbeing
- supported the social and emotional wellbeing of at least five clients by:
  - initiating timely and appropriate referrals, providing accurate and relevant details to clients, their families and referral agencies
  - explaining/demonstrating/instructing client to use appropriate stress reducing techniques/activities

- Organised and participated in at least one debriefing session following critical incidents or stressful interactions.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisational policies and procedures and legislation or regulations relating to:
- client confidentiality
- referral, including various levels of urgency, and follow-up of client
  - mandatory reporting
- notifiable communicable diseases
- limits of own ability and authority
- reporting procedures
- documentation
- key elements of history-taking in the context of social and emotional health and their significance
- significant problems presented and appropriate avenues of further assessment or action
- common signs/indicators of:
  - mental or psychiatric illness
  - depression
  - alcohol and other drug misuse
  - suicide risk
  - child abuse/sexual assault
- advanced communication techniques to develop trust and elicit sensitive information
- appropriate stress-reducing techniques/activities
- availability of and, referral criteria and processes for social and emotional, alcohol and other drugs and mental health support services
- awareness of culturally secure assessment tools for Aboriginal and Torres Strait Islander peoples
- principles of crisis intervention
- limits of own ability and authority.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre

- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker
- or:
- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## HLTAHW018 Plan, implement and monitor health care in a primary health care context

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit deals with the required skills and knowledge to plan, implement and monitor a range of health care services as a member of a multidisciplinary team working with Aboriginal and/or Torres Strait Islander communities.

Care plans are developed to address findings of clinical assessments, tests and procedures. Treatments as part of care plans include making referrals and development, implementation and evaluation of plans in line with legislative requirements and organisational protocols.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

This unit does not cover the skills and knowledge to assess physical wellbeing – these are detailed in HLTAHW016 Assess client's physical wellbeing.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes of a unit of competency.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Propose care plan

- 1.1 Access health assessment outcomes according to organisational procedures and policies
- 1.2 Identify specific aspects of health assessment to address in health care plan
- 1.3 Propose treatment as part of the care plan in accordance with policies and procedures
- 1.4 Develop the plan with primary health care team, using relevant standing orders and written care protocols
- 1.5 Clearly establish responsibilities for implementing the care plan
- 1.6 Document proposed health care plan in client's file in line with organisational policies and procedures

2. Communicate proposed health care plan to client

- 2.1 Use effective and culturally appropriate and safe communication skills to discuss the proposed care plan with clients and explain how it relates to their health assessment results
- 2.2 Provide client with information about each aspect of the proposed care plan and the rationale for its inclusion
- 2.3 Encourage the client to ask questions about the proposed care plan to support understanding and cooperation, and agreement
- 2.4 Explain self-management aspects of the proposed care plan
- 2.5 Consult with the primary health care team about any client-suggested changes to the proposed plan and adjust plan as appropriate
- 2.6 Document finalised plan according to organisational procedures and policies

3. Implement care plan

- 3.1 Refer clients as required to relevant health professionals in line with community, organisational and regulatory requirements
- 3.2 Conduct treatment in accordance with the care plan
- 3.3 Support client to take a self-care approach to implementation in line with individual, organisational and

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes of a unit of competency.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

community requirements

3.4 Maintain current, complete, accurate and relevant records for each client contact

4. Provide information on healthy nutrition and lifestyle choices as part of the care plan

4.1 Provide accurate information regarding nutrition and lifestyle choices, and the impact of poor nutrition and lifestyle choices, including alcohol and smoking

4.2 Discuss risk factors relating to specific nutrition and lifestyle choices for the individual client in the context of their family, culture and local community

4.3 Provide information on early intervention and prevention practices to avoid disease caused by poor nutrition and lifestyle choices

4.4 Assist client to select an appropriate and varied diet in line with dietary guidelines and client needs

4.5 Develop strategies to assist individuals who have not exercised for some time to become more active

4.6 Offer brief interventions for smoking cessation

4.7 Establish patterns of alcohol consumption and offer brief interventions

4.8 Make appropriate referrals where required

5. Provide care and support for clients with chronic condition as part of the care plan

5.1 Provide information about the nature, incidence and potential impacts of chronic conditions in specific relation to the client's own health

5.2 Provide information on practices to manage chronic conditions to address identified individual needs

5.3 Provide practical advice relating to maintaining good health in relation to prevalent chronic conditions and in line with community needs and organisational guidelines

5.4 Explain and/or demonstrate practices for early detection of specific chronic conditions in line with organisational guidelines

5.5 Support clients to take a self-care approach to

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes of a unit of competency.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

maintaining health

5.6 Make appropriate referrals for clients with chronic conditions in line with organisational guidelines

### 6. Monitor health care

6.1 Encourage clients and family/carer to maintain health by being actively involved in the care plan

6.2 Monitor client health in line with individual schedule and criteria incorporated in care plan

6.3 Reassess and review care plan as required where client fails to progress, in accordance with expectation

6.4 Ensure standing order/written care protocols underpin health assessment and management actions

6.5 Conduct health monitoring in accordance with organisational policies and procedures and occupational health and safety requirements

6.6 Organise follow-up care for clients with chronic conditions using computer and/or paper-based registers

6.7 Identify when clients are overdue for health care checks and employ active-recall strategies

### 7. Review effectiveness of health care

7.1 Gain feedback from the client and/or family or carer/s about their level of comfort and compliance with the health management regime

7.2 Determine degree of improvement of client's condition and compare with expectations outlined in health care plan

7.3 Provide client and/or family/carers with clear information about their level of improvement in relation to the health care plan and their level of compliance

7.4 Evaluate impact of ongoing health management in relation to the client's physical, mental and emotional condition and behaviour, in consultation with the primary health care team

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance*

### Numeracy

- in order to measure and administer medication
- in order to use medical equipment, including peak flow meter, glucometer, scales and sphygmomanometer
- in order to carry out care plan treatments, including immunisations, CPR and nebuliser administration

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

## Unit Mapping Information

No equivalent unit.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- developed a care plan for at least five clients, including:
  - using standing orders/written care protocols to underpin health care plans
  - consulting clients about proposed care plan
  - proposing and negotiating treatment with client, their family and/or community
  - establishing responsibilities for care plan implementation
  - documenting health care plan in client's file
  - referring clients as required and according to organisational procedures and policies
- communicated health information in plain language to at least five clients, including:
  - nutrition, lifestyle choices and chronic condition information
  - details on prevention practices
- explained and demonstrated early detection practices for specific chronic conditions on at least five separate occasions
- developed strategies and offered brief interventions to assist at least five clients
- implemented treatment according to care plans for at least five clients, including:
  - undertaking treatments within scope of own authority
  - using and maintaining medical equipment correctly
  - maintaining current, complete and accurate client records

- supporting clients to take a self-care approach to implementing care plan
- monitored at least five clients with chronic conditions and organised follow-up care
- evaluated on at least five occasions:
  - outcomes of client's prescribed treatment/care plan
  - client's understanding of prescribed treatment/care plan
  - holistic impact of treatment on client's physical, mental and emotional condition and behaviour
  - overall effectiveness of the care plan.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- "Australian Guide to Healthy Eating" and the nutrients associated with each food group
- nutritional needs of people at different stages in the lifecycle, including pregnant and/or lactating women
- common nutrition-related diseases
- statistical incidence of diabetes, heart disease and kidney failure in Aboriginal and/or Torres Strait Islander populations compared to non-Aboriginal and/or Torres Strait Islander populations
- agencies able to provide support and assistance to Aboriginal and/or Torres Strait Islander people with chronic disabilities
- treatment and management of chronic conditions, including:
  - working in collaboration with clients, family and significant others to promote self-management as far as possible
  - medication
  - surgery
  - regular exercise
  - good nutrition
  - cessation of smoking
  - cessation or moderation of alcohol use
  - cessation of illicit drug use
- regular screenings for changes in disease presentation and detection of other diseases
- how to contact and access available health and support services in the region
- strategies that can assist Aboriginal and/or Torres Strait Islander people with disabilities to live fulfilling and productive life in the community
- methods of organising the care of clients with chronic conditions including:

- disease registers
- care plan schedules in medical files
- tagging files
- computerised client information
- recall systems
- the value of the opportunistic approach to chronic condition surveillance (comprehensive check-ups as people come to the clinic)
- organisational policies, guidelines and procedures.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

screening

1.3 Use appropriate screening protocols to target disease patterns for particular age, sex, ethnicity, regional and other societal groups

1.4 Investigate significant variations detected through screening and other health checks and interpret in line with clinical protocols

1.5 Explain outcomes of health checks to clients and/or significant others

1.6 Provide health checks and associated health information opportunistically on client presentation to a health service

1.7 Accurately and promptly record all health assessment outcomes according to organisational procedures and policies

2. Provide health care programs to address identified common problems

2.1 Take a team approach to primary health care, including appropriate referral to specialist care providers, and other agencies

2.2 Identify, treat and/or refer common health problems, as part of the program

2.3 Support clients and families in accessing health care services and associated benefits as required

2.4 Provide guidance, support and assistance to individuals and families coping with social and emotional issues according to identified needs and cultural protocols

2.5 Explain health lifestyle practices to clients and check their understanding

2.6 Ensure health care programs support clients to take a self-care approach to health in line with individual needs and organisational and community requirements

3. Manage the delivery of health programs

3.1 Provide health care programs to the community in ways consistent with community values and beliefs

3.2 Integrate promotion of health screening,

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of the unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- delivered and maintained at least one primary health care program to Aboriginal and/or Torres Strait Islander communities, including:
  - undertaking health checks relevant to the program content area
  - implementing screening procedures
  - explaining and describing procedures and illnesses/disorders to clients using clear, simple, culturally appropriate language
  - promoting healthy lifestyles
  - offering brief interventions as required to support individual client health
  - observing, obtaining and interpreting client information in relation to health issues, behaviour and health services
  - communicating and negotiating as required with colleagues, community members and other agencies and negotiating with them as required
  - reading and writing reports
  - interpreting simple statistics, charts and test results relevant to the program
  - preparing written documentation relevant to the program

- using computer-based and/or paper-based client record systems
- demonstrating client confidentiality at all times when handling client information obtained in writing or verbally
- evaluated at least one health care program by:
  - working with groups in the community to seek input and feedback on health services
  - ensuring the program addresses specific client and community needs for guidance, support and information
  - ensuring delivery is consistent with community needs, values and beliefs.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisational policies and procedures and legislation or regulations relating to:
  - client confidentiality
  - referral, including various levels of urgency, and follow-up of client
  - mandatory reporting
  - notifiable communicable diseases
  - limits of own ability and authority
  - reporting procedures
  - documentation
- health screening and surveillance methods relevant to the area/region, including:
  - use of equipment
  - testing procedures
  - interpretation and analysis of results of testing
  - 'normal' range of results
  - record-keeping for effective follow-up and management
- occupational health and safety practices and procedures relevant to the work (e.g. manual handling)
- contact details of available health and support services in the region and how to access them
- evaluation methodology

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker
- or:
- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

### Application

This unit covers the required skills and knowledge to administer medication to Aboriginal and/or Torres Strait Islander clients. It involves determining the medication requirements of an individual client, calculating dosage and performing the clinical skills necessary to administer the required medication. It also involves supporting a client to self administer medication.

This unit applies to Aboriginal and/or Torres Strait Islander health workers with the relevant authority in their state or territory to administer medication.

*Licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*The performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Interpret and clarify orders and instructions for medication

1.1 Receive, correctly interpret and clarify written and verbal orders and instructions for medications with medical practitioners and other senior health staff

1.2 Identify potential drug interactions and refer to an appropriately authorised person

*Elements define the essential outcomes.*

*The performance criteria specify the level of performance needed to demonstrate achievement of the element.*

- |                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.3                              | Check written and verbal medication instructions against published medications information resources                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 1.4                              | Recognise special precautions and contraindications with the use of particular medications and refer to an appropriate person                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| <br>                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 2. Prepare medication            | <p>2.1 Access medication according to organisational procedures and policies and within scope of own role and legislative requirements</p> <p>2.2 Use published medications resources to determine the appropriate route or method for administration of medication</p> <p>2.3 Correctly identify medication dosage in standard treatment manual or calculate mathematically</p> <p>2.4 Measure out required dose or volume of medication accurately using required and/or relevant equipment</p> <p>2.5 Confirm with relevant authorised person the calculated and measured medication dosage to be administered</p>                                                                                                                                                                                                                  |
| <br>                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 3. Administer medications safely | <p>3.1 Administer medications appropriately, observing universal precautions and aseptic handling procedures, in line with organisation, legal and regulatory requirements</p> <p>3.2 Prepare a hygienic and sanitised environment for the administration of medications</p> <p>3.3 Assist in the administration of medications by appropriate methods and routes, observing standard precautions and in line with organisation, legal and regulatory requirements</p> <p>3.4 Identify any adverse events or allergic reactions, including anaphylaxis, related to medication and take appropriate action in line with standard protocols</p> <p>3.5 Dispose of used equipment, packaging, medical waste and other products according to manufacturer's instructions, infection control and organisational procedures and policies</p> |

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*The performance criteria specify the level of performance needed to demonstrate achievement of the element.*

4. Instruct and monitor clients to self administer medication

4.1 Prepare, or assist client to prepare, medication for self administration as required

4.2 Demonstrate to client correct use of relevant equipment for self medication

4.3 Guide client through the process of self administration of medication and provide assistance as necessary

4.4 Confirm with the client the completion of self administration

4.5 Instruct and educate client to dispose of used equipment, packaging, medical waste and other products according to manufacturer's instructions, infection control and organisational procedures and policies

5. Document administration procedures

5.1 Keep client file up to date by completing all relevant records relating to the specific medication administered, including access, storage and disposal requirements

5.2 Store all relevant documentation securely according to organisation policies and procedures

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

*Numeracy*

- in order to reconstitute powdered medicine as a mixture using ratios

- in order to measure specified dosages of tablets and medicines for injection

*Reading*

- in order to interpret medicine manufacturer's specifications

- in order to access and use written information in approved product information sources relating to medications

# Assessment Requirements for HLTAHW020 Administer medications

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has

- administered medication by each of the following routes or methods at least once:
  - oral
  - sublingual/buccal
  - dry powder inhalers
  - metered dose/spacer inhalers
  - nebulisers
  - oxygen therapy
  - topical medications
  - suppositories
  - subcutaneous injection
  - intramuscular injections
  - intravenous injections
  - Z-track injections
  - intravenous infusion/cannulation fluid
- safely administered medication on at least three occasions to a range of clients across the lifespan by

- observing and applying the Six Rights of Medication, being:
  - o Right person
  - o Right dose
  - o Right route
  - o Right medication
  - o Right time
  - o Right documentation
- consulting and confirming actions with an authorised practitioner at all relevant times
- determining medication requirements, including:
  - o consulting client and other relevant support persons for medication history and allergies
  - o reviewing relevant documentation
  - o identifying options, active ingredients, indications, contraindications, precautions, side effects, interactions of medications and accurate client information
  - o maintaining records of client medication
- interpreting orders and instructions for medication, including:
  - o receiving written and verbal orders and instructions from authorised persons/practitioners
  - o documenting orders and correctly interpreting them
  - o consulting medical practitioners and senior health staff for clarification on medication instructions
- using published medication references and resources to where appropriate
- referring queries of potential drug interactions and contraindications to appropriate personnel
- where appropriate, supporting clients in their choice, access to and use of traditional and western medications including:
  - o providing information to clients on mechanisms of action, dosing and possible side effects
  - o identifying, supporting and promoting traditional/bush medications and traditional healers
  - o providing and explaining Consumer Medications Information to clients
  - o instructing clients on self-administration of medications
- documenting administration of medication according to legislative requirements and organisation procedures and policies.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- The Six Rights of Medication, being:
  - Right person
  - Right dose
  - Right route
  - Right medication
  - Right time
  - Right documentation
- differences between generic and trade names for medication
- application of standard and additional precautions in the administration of medications
- awareness and application of infection control and sterile environment policies and procedures
- understanding of medication commonly used and effects on the body
- pathophysiology associated with these systems, including acute chronic condition and conditions associated with a specific body system
- pharmacology to address pathophysiology, including:
  - antibiotics
  - analgesics
  - contra indications
  - complications
  - psychiatric medications
  - oral hypoglycaemics
  - insulin
- awareness of reaction to medication administration, including:
  - indications
  - contraindications
  - complications
  - adverse effects
  - interactions
- presenting symptoms and signs that may impact on medication administration, including:
  - bruising, swelling, cuts and abrasions
  - appearance of eyes, ears, mouth and gums
  - blood pressure, respirations and temperature
  - emotional and mental state
- correct techniques for medication preparation and administration for adults and children by the following routes or methods:
  - oral medication, including counting of tablets, preparation of syrups using graduated measure and/or syringes, Webster Packs, scored tablets, cutting devices and dosette boxes

- sublingual/buccal, including usage of unopened and dated medication
- dry powder, metered dose and spacer inhalers, including operation of accuhalers and aerolisers
- nebulisers and oxygen therapy, including selection of appropriate equipment selection (oxygen cylinder or air pump)
- topical and transdermal medications, including prevention of self absorption
- suppositories, including use of lubricant and client positioning
- subcutaneous injections, including preparation of syringe and angle degree for insertion
- intramuscular and Z-track injections, including correct sites for babies, children and adults for injection, preparation of syringe and angle degree for insertion
- intravenous injections, infusion/cannulation including required equipment, inspection and preparation of cannula site, and follow up observation
- management of cold chain medications including differences between and use of purpose built vaccine and domestic refrigerators, transport and storage
- anaphylaxis management, including checking for signs of moderate or severe anaphylaxis and possible causes
- organisational, legislative and regulatory requirements for transport, storage, use, dispensing and safe disposal of medications
- different methods of medication administration and reactions for adults and children
- requirements of the Pharmaceutical Benefits Scheme (PBS)
- Quality Use of Medicines and the Consumer Medication Information
- National Medication access and review initiatives for Aboriginal/Torres Strait Islander people
- special considerations in use of medications, including:
  - complicating factors of chronic illness
  - pregnancy and lactation
  - renal impairment
  - anti-coagulant therapy
  - potential drug interactions
  - babies, children, adults and the elderly
  - informed consent and understanding of the client
- types of locally available/used traditional bush medications and their uses, benefits, side effects and interaction with other medications
- complementary roles of traditional or bush healers

## Assessment Conditions

Unless state or territory legislation prevents practice in the workplace, skills must be demonstrated working

- in a health service or centre
- as part of a multi-disciplinary primary health care team

- with Aboriginal and/or Torres Strait Islander clients and communities.

Note: Where state or territory legislation prevents practice in the workplace, simulated assessment environments may only be used in place of workplace assessment.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- a Registered Aboriginal or Torres Strait Islander Health Practitioner
- or:
- a Registered Health Practitioner accompanied by an Aboriginal or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## HLTAHW021 Provide nutrition guidance for specific health care

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the required skills and knowledge to promote healthy nutrition to address the requirements of a range of client groups and to improve community nutrition.

The unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

*Elements define the essential outcomes.*

#### PERFORMANCE CRITERIA

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Provide information on nutritional needs at different stages of life

- 1.1 Provide information on nutritional requirements of pregnant and lactating women
- 1.2 Promote dietary guidelines for children and adolescents, including importance of breastfeeding and appropriate introduction of solid foods
- 1.3 Explain nutritional requirements for babies and toddlers to family and/or carers
- 1.4 Provide information on dietary guidelines for adults
- 1.5 Provide information for older people on nutrition requirements and food preparation issues

2. Inform clients of dietary requirements of specific conditions

- 2.1 Identify clients with specific conditions requiring counselling for healthy eating
- 2.2 Provide overweight clients with information on strategies to achieve long-term weight reduction
- 2.3 Identify common dietary restrictions for clients with specific health conditions and assist clients to obtain and follow specific dietary advice on appropriate nutrition
- 2.4 Refer clients to other health professionals and support agencies for nutritional advice as required

3. Work with community agencies to promote nutrition

- 3.1 Discuss the link between nutrition and health with communities, their agencies, stores and other representatives
- 3.2 Promote appropriate food storage, hygiene and preparation practices
- 3.3 Discuss policies that promote good health through nutrition with communities, their agencies, stores and relevant representatives

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

### Numeracy

- in order to interpret nutritional information as expressed in kj, calories, g, mg, mcg, percentages and decimals

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

## Unit Mapping Information

No equivalent unit.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- provided accurate and relevant information on:
  - healthy eating and diet
  - exercise and activity
  - nutritional requirements
  - available supports and referral services
- provided information at least once to the following types of people, either as individual clients or through community health promotion:
  - pregnant and lactating women
  - infants, toddler, children and adolescents
  - adults and the elderly
  - overweight and obese clients
- used culturally appropriate and safe communication skills to ensure all information was understood when interacting with each of these clients and/or community groups.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisational policies and procedures and legislation or regulations relating to:
  - client confidentiality
  - referral, including various levels of urgency, and follow-up of client
  - mandatory reporting
  - notifiable communicable diseases
  - limits of own ability and authority
  - reporting procedures
  - documentation
- food and dietary guidelines in line with ‘Dietary Guidelines for Australian Adults’, including:
  - Aboriginal and/or Torres Strait Islander cultural values and beliefs regarding food
  - five food groups and their function with reference to the *Australian Guide to Healthy Eating* and publications such as *A Guide to Promote Healthy Eating for Aboriginal &/or Torres Strait Islander people*
  - food values in traditional Aboriginal and/or Torres Strait Islander food
  - healthy food preparation methods
  - nutrition education models
- *Australian Guide to Healthy Eating*
- Dietary Guidelines for Australian Adults
- Dietary Guidelines for Children and Adolescents in Australia
- Dietary Guidelines for Older Australians
- nutritional requirements at different life stages, including a focus on breastfeeding and the introduction of solids
- nutritional needs of people with chronic conditions.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## HLTAHW022 Address social determinants of Aboriginal and/or Torres Strait Islander health

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit deals with the required skills and knowledge to promote and apply strategies to address social determinants that underpin and contribute to Aboriginal and Torres Strait Islander health issues, in the context of delivering primary health care services.

The unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Identify social determinants of health

1.1 Research the social determinants of Aboriginal and/or Torres Strait Islander health

1.2 Analyse social determinants of health with consideration of equity, social gradient and justice issues

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

2. Promote awareness of social determinants of health

1.3 Investigate specific impacts of social, political, economic and environmental factors on the health of Aboriginal and/or Torres Strait Islander clients

2.1 Provide information about social determinants of health as part of primary health care service delivery

2.2 Encourage Aboriginal and/or Torres Strait Islander clients and communities to be self-determining and support their empowerment

2.3 Assist Aboriginal and/or Torres Strait Islander clients and communities to achieve greater access and equity across a range of social, educational, economic and health systems and services

2.4 Promote awareness of social determinants of Aboriginal and/or Torres Strait Islander health across community service networks

2.5 Encourage community control in the delivery of health services to Aboriginal and/or Torres Strait Islander people

3. Implement strategies to address social determinants of health

3.1 Identify where organisational policies reflect ways to address the identified determinants of Aboriginal and/or Torres Strait Islander health

3.2 Deliver primary health care services in line with community requirements

3.3 Encourage and support clients to access health services and resources

3.4 Support local community values, beliefs and gender roles in the delivery of health services

3.5 Utilise existing partnering relationships to promote primary health care for Aboriginal and/or Torres Strait Islander clients

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

### *Learning*

- in order to locate, access, interpret, and translate information on social determinants into an appropriate and suitable medium for target audiences

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

## Unit Mapping Information

No equivalent unit.

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- identified and promoted an understanding of the social determinants of health when working with at least three Aboriginal and/or Torres Strait Islander clients by:
  - researching and clarifying social, political, economic and environmental factors impacting on the health of Aboriginal and/or Torres Strait Islander clients
  - applying strategies, policies and resources relevant to improving the health of Aboriginal and/or Torres Strait Islander communities through addressing the social determinants of health
  - contributing to health service delivery aspects of community development initiatives
  - establishing relationships with community groups, agencies and organisations involved in community development initiatives
- evaluated the effectiveness of at least one strategy used to address social determinants.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisational policies and procedures and legislation or regulations relating to:
  - client confidentiality
  - referral, including various levels of urgency, and follow-up of client
  - mandatory reporting
  - notifiable communicable diseases
  - limits of own ability and authority
  - reporting procedures
  - documentation
- social, cultural, political and environmental determinants of Aboriginal and/or Torres Strait Islander health. This includes:
  - importance of land, tradition and cultural practice
  - impact of socio-economic factors on health
  - social and political factors that perpetuate disadvantage
  - importance of personal achievement, education and supportive family/social networks
  - barriers to improving environmental determinants of ill health
  - impact of loss, grief and trauma
  - issues of food security/access
- means to address access and equity issues, such as:
  - strategies to maintain strong culture and supportive social networks and maximise educational, employment and social opportunities for children
  - understanding the political context of health care systems and access to benefits such as Medicare and pharmaceutical benefits
  - community development initiatives
- aspects of Aboriginal and/or Torres Strait Islander health, including:
  - community perceptions of major health issues affecting them and underlying causes
  - perceptions of non-Aboriginal and/or Torres Strait Islander people relating to major Aboriginal and/or Torres Strait Islander health issues and underlying causes
- primary health care model
- key comparative health statistics.
- 

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team

- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## Application

This unit describes the required skills and knowledge to organise, deliver and evaluate a health promotion program to address identified needs in Aboriginal and/or Torres Strait Islander communities. This unit includes designing, structuring and evaluating the effectiveness of health promotion activities for Aboriginal or Torres Strait Islander communities.

The unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Plan and research health promotion and community development programs

- 1.1 Consult community representatives and key people to identify community health needs and concerns
- 1.2 Assess information to identify key stakeholders,

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

community health trends and ethical considerations

1.3 Undertake appropriate research and identify community development opportunities

1.4 Consider and respect community values and beliefs, gender roles and taboos in researching community health needs

1.5 Identify and access relevant existing resources (human, financial and physical) for use in health promotion and community development programs

1.6 Create a process for key representatives of the community and any related agencies or organisations to be consulted in the plan development

1.7 Ensure health promotion and programs have a holistic, culturally sensitive approach and support the community in taking a self-determination approach to health

1.8 Prepare proposals (or submissions) as required to address any additional resource requirements, including funding

1.9 Identify evaluation processes and criteria to be used for critiquing health promotion programs

2. Develop a health promotion and community development program

2.1 Develop health promotion strategies in partnership with key representatives of the community and any related agencies or organisations

2.2 Develop goals, actions and key performance indicators for health promotion and community development activities

2.3 Identify appropriate delivery strategies according to the needs of the target group, location and health issues

2.4 Provide relevant information to health services, work team and community

2.5 Access, adapt or develop resources (human, financial and physical) as required to suit the needs of the health issue, audience and program delivery context

2.6 Document plans for health promotion and

## ELEMENT

## PERFORMANCE CRITERIA

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- planned and delivered at least one primary health care promotion and community development program to Aboriginal and/or Torres Strait Islander communities, including:
  - assessing community health needs
  - identifying strategies, goals, activities and key performance indicators
  - observing, obtaining and interpreting client information in relation to health issues, behaviour and health services
  - developing a health promotion plan in consultation with key stakeholders
  - preparing a proposal/submission for funding and resources
  - ensuring the program addresses specific client and community needs for guidance, support and information
  - ensuring delivery is consistent with community needs, values and beliefs
  - communicating with and seeking feedback from clients, colleagues, community members and other agencies and negotiating with them as required
- evaluated at least one health promotion and community development program against identified goals and performance criteria by:
  - collecting feedback from community and staff implementing the program
  - analysing feedback against identified goals and performance criteria
  - reporting on outcomes of evaluation to community and the organisation

- identified areas for improvement in the program.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisational policies and procedures and legislation or regulations relating to:
  - client confidentiality
  - referral, including various levels of urgency, and follow-up of clients
  - mandatory reporting
  - notifiable communicable diseases
  - limits of own ability and authority
  - reporting procedures
  - documentation
- basic understanding of community development theory
- health promotion programs relevant to the area/region/community
- social determinants that impact on health issues for the relevant community
- The Ottawa Charter for Health Promotion
- program planning cycle
- familiarity with a range of conditions, diseases and disorders
- effective strategies to monitor and manage identified health problems in line with community needs and sensitivities
- features of chronic illness, including:
  - complex causality
  - multiple risk factors
  - long latency periods
  - a prolonged course of illness
  - functional impairment or disability
- specific chronic conditions affecting Aboriginal and/or Torres Strait Islander clients and communities, including:
  - cardiovascular disease
  - diabetes
  - cancer
  - chronic respiratory disease
  - chronic kidney disease
  - asthma

- arthritis
- oral disease
- impact of chronic conditions on major body organs and systems
- groups at high risk of chronic condition
- determinants of chronic condition, including:
  - smoking
  - physical activity
  - nutrition
  - alcohol intake
  - use of illicit drugs
  - obesity, weight and waist circumference
  - unsafe sexual practices
  - genetic factors
- treatment and management of chronic conditions, including:
  - working in collaboration with clients, family and significant others to promote self management as far as possible
  - medication
  - surgery
  - regular exercise
  - good nutrition
  - cessation of smoking
  - cessation or moderation of alcohol use
  - cessation of illicit drug use
- regular screenings for changes in disease presentation and detection of other diseases
- how to contact and access health and support services available in the region
- linkages between conditions such as diabetes and eye health, nutrition and hearing, etc.
- occupational health and safety practices and procedures relevant to the work
- principles of adult education
- evaluation methodology.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the required skills and knowledge as preparation for working with Aboriginal or Torres Strait Islander communities to provide health education and support relating to alcohol and other drugs (AOD) and mental health. It addresses the rights and responsibilities of the position, the system in which this work is undertaken and the professional boundaries and cultural issues relating to this type of work.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the Element.*

1. Work within the context of alcohol and other drugs and mental health

1.1 Consider the relationship between AOD and mental health (including dual diagnosis) when working with clients

## ELEMENT

## PERFORMANCE CRITERIA

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- undertaken AOD and mental health work with clients within the legal and ethical boundaries of the work and with a commitment to the philosophy of social and emotional wellbeing
- maintained the professional boundaries of the work role and addressed accountability and responsibilities appropriately when performing work role and in interacting with each client
- addressed the needs of clients from culturally and linguistically diverse backgrounds and balanced expectations of the organisation, the community and clients
- completed all reports and documentation relevant to the client and their treatment
- advocated and supported clients when required.

All performance evidence must be performed at least once.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisational policies and procedures and legislation or regulations relating to:
  - client confidentiality
  - referral, including various levels of urgency, and follow-up of clients
  - mandatory reporting
  - notifiable communicable diseases
  - limits of own ability and authority
  - reporting procedures
  - documentation
- impact of cultural and spiritual factors on the way mental health problems develop and present
- rights as employees – industrial awards, duty of care, occupational health and safety, workers' compensation
- support systems available for employees – e.g. counselling, unions, professional associations
- the role, rights and responsibilities relating to social and emotional wellbeing work:
  - legal responsibilities to clients, organisation and self
  - reporting responsibilities
  - accountability to organisation and community
  - confidentiality requirements for social and emotional wellbeing work
  - ethical responsibilities
  - professional boundaries
- justice system and its processes relevant for the jurisdiction
- relevant mental health legislation and regulations for the jurisdiction
- conflict resolution and mediation.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## HLTAHW025 Provide information and strategies in health care

### Modification History

Not applicable.

### Application

This unit describes the skills and knowledge required to conduct health promotion as part of primary health care services for Aboriginal and/or Torres Strait Islander communities. The unit may be contextualised to apply information and strategies in specific areas of health care.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

#### 1. Promote health care

1.1 Consider identified community and individual client needs in determining priorities and potential areas to be addressed by health promotion

1.2 Provide accurate information about the nature, incidence and potential impacts of health conditions in relation to Aboriginal and/or Torres Strait Islander communities

1.3 Provide accurate information about the importance of regular health checks, compliance with treatment regimens and medications, and the need to follow-up and monitor problems

1.4 Provide health information in plain language, using visual aids where appropriate

1.5 Discuss risk factors relating to specific health problems in the context of local, cultural, community,

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

family and individual issues

1.6 Provide practical advice relating to maintaining good health in line with individual and community needs and organisational guidelines

2. Provide support to clients with health problems

2.1 Provide support for clients with common health problems in Aboriginal and/or Torres Strait Islander communities

2.2 Provide guidance about health issues in line with community needs

2.3 Use culturally appropriate educational resources for health programs

2.4 Provide information about resources available in the community and state in relation to addressing health issues

2.5 Support clients to take a self-care approach to maintaining health in line with identified individual needs

2.6 Make appropriate referrals for clients with health problems

2.7 Maintain confidentiality to reflect community and organisational guidelines

3. Follow-up clients with health problems

3.1 Organise follow-up care for clients with health problems using computer- and/or paper-based registers

3.2 Identify clients who are significantly overdue for health care checks and employ active-recall strategies

3.3 Identify social and environmental factors that impact on health problem and address them in partnership with the community and other agencies

3.4 Promptly report any notifiable health problems detected or suspected in line with organisational and regulatory requirements

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

### Numeracy

- in order to calculate results of blood pressure checks, checking medication dosages, and blood glucose readings

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

## Unit Mapping Information

No equivalent unit.

# Assessment Requirements for HLTAHW025 Provide information and strategies in health care

## Modification History

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- determined priorities and potential areas to be addressed in health promotion based on community and individual client needs
- promoted health care including:
  - providing accurate information about the nature, incidence and potential impacts of particular health conditions in relation to Aboriginal and/or Torres Strait Islander communities
  - presenting accurate information about the importance of regular checks, compliance with treatment regimes and medications, and the need to follow-up and monitor health problems
  - communicating health information in plain language, using visual aids where appropriate
  - discussing risk factors relating to specific health problems
  - providing practical advice relating to maintaining good health
- provided support to clients, including:
  - providing guidance about health issues
  - using culturally appropriate educational resources for health programs
  - providing information about resources available in community and statewide
  - offering blood pressure checks, checking medication dosages and blood glucose readings
  - supporting clients to take a self-care approach to maintaining health
  - making appropriate referrals for clients
  - identifying clients who require follow-up for health issues and initiating procedures to support their ongoing health care.

All performance evidence must be demonstrated at least once.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisational policies and procedures and legislation or regulations relating to:
  - client confidentiality
  - referral, including various levels of urgency, and follow-up of clients.
  - mandatory reporting
  - notifiable communicable diseases
  - limits of own ability and authority
  - reporting procedures
  - documentation
- anatomy and physiology and associated microbiology, including the:
  - respiratory system
  - circulatory system
  - integumentary system
  - digestive system
  - genitourinary system
  - endocrine system
  - musculoskeletal system
  - nervous system
- pathophysiology associated with these systems, including:
  - chronic conditions and conditions associated with a specific body system
  - injuries
  - wounds
  - arthritis
  - inflammation
  - impact of alcohol and other drugs
- pharmacology to address pathophysiology, including:
  - medications and forms of administration
  - antibiotics
  - analgesics
  - contraindications
  - complications
  - psychiatric medications
  - oral hypoglycaemics

- insulin
- features of chronic illness, including:
  - complex causality
  - multiple risk factors
  - long latency periods
  - a prolonged course of illness
  - functional impairment or disability
- specific chronic conditions affecting Aboriginal and/or Torres Strait Islander clients and communities, including:
  - cardiovascular disease
  - diabetes
  - cancer
  - chronic respiratory disease
  - chronic kidney disease
  - asthma
  - arthritis
  - oral disease
- specific impacts of chronic conditions on major body organs and systems
- groups at high risk of chronic conditions
- determinants of chronic conditions, including:
  - smoking
  - physical activity
  - nutrition
  - alcohol intake
  - use of illicit drugs
  - obesity, weight and waist circumference
  - unsafe sexual practices
  - genetic factors
- treatment and management of chronic conditions, including:
  - working strategically with clients, family and significant others to promote self-management as far as possible
  - medication
  - surgery
  - regular exercise
  - good nutrition
  - cessation of smoking
  - cessation or moderation of alcohol use
  - cessation of illicit drug use
  - regular screenings for changes in disease presentation and detection of other diseases
- referral services
- National Aboriginal Health Strategy

- communication strategies, including addressing specific audiences and using visual aids and body language to assist in information transaction
- health promotion strategies
- research techniques to gather health information in specific communities, including rural and remote
- organisational policies and procedures.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## HLTAHW026 Provide information and strategies in sexual health for men

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the skills and knowledge required to conduct health promotion related to the health of Aboriginal and/or Torres Strait Islander men as part of primary health care services for Aboriginal and/or Torres Strait Islander communities.

The unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Promote healthy sexual practices

1.1 Consider identified community and individual client needs in determining priorities and potential areas to be addressed by health promotion

1.2 Discuss influences that shape sexuality in current

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

and historical contexts

1.3 Provide information on sexual and reproductive health to address identified individual and community needs

1.4 Explain methods of contraception within a cultural context

1.5 Discuss sexual practices and attitudes in relation to their impact on sexual and reproductive health and emotional wellbeing

1.6 Provide advice relating to maintaining sexual and reproductive health in line with community needs and organisational guidelines

2. Identify and discuss sexual health problems

2.1 Explain risk factors and indicators of sexually transmissible infections (STIs)

2.2 Identify and explain methods of basic management for STIs

2.3 Prepare and present HIV/AIDS information within an STI context at a community level

2.4 Explain principles and procedures of HIV/AIDS testing and provide information as required

2.5 Communicate details of interventions to address issues relating to sexually transmissible infections in the community as required

2.6 Provide advice about sexual and reproductive health issues in line with community needs and organisational guidelines

2.7 Provide information about resources available in the community and state in relation to addressing sexual and reproductive health issues

2.8 Make appropriate referrals to address identified, STIs, HIV and sexual and reproductive health issues

2.9 Maintain confidentiality to reflect community and organisational guidelines and in line with notification requirements

## Foundation Skills

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- communicated effectively in a group and one-on-one environment to promote healthy practices and discussed health issues on at least three separate occasions
- provided accurate and relevant information and guidance about men's sexual health in line with identified individual and community needs on at least three separate occasions
- provided information and strategies for at least three individual male clients by:
  - taking a sexual history
  - explaining concepts related to sexuality, including:
    - o sexuality and the human sexual response
    - o sexual behaviour
    - o at-risk sexual behaviour
    - o sexual discrimination
  - explaining and demonstrating purpose and methods of contraception
  - informing clients about STIs including history, transmission, prevention, investigations, management, complications, contact tracing and confidentiality
  - exploring, reflecting on and clarifying client's personal experience and values in relation to sexuality

- making referrals at an appropriate time and to an appropriate person in relation to specific STIs.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisational policies and procedures and legislation or regulations relating to:
  - client confidentiality
  - referral, including various levels of urgency, and follow-up of clients
  - mandatory reporting
  - notifiable communicable diseases
  - limits of own ability and authority
  - reporting procedures
  - documentation
- influences on the development of sexuality, such as gender, spiritual and cultural values, kinship practices, individual ethics and socialisation.
- past and present sexual trends within Aboriginal and non-Aboriginal contexts
- sexual physiology and the human sexual response
- the influence on human sexuality and sexual response of factors such as:
  - disability
  - domestic violence
  - rape
- healthy sexual behaviours and attitudes and practices that may interfere with sexual health and emotional wellbeing including:
  - safer sex practices and barriers to same
  - influence of alcohol and other drug use on sexual behaviours
- purpose of contraception and available options
- sexually transmissible infections, including:
  - description/definition, statistics, signs and symptoms, universal precautions, common STIs, notifiable STIs
  - history of STIs in the Aboriginal community and effects of STIs on the community
  - transmission, testing and complications related to STIs
  - impact on the ability of Aboriginal and Torres Strait Islander women to have children
  - contact tracing/ partner notification
  - available ways to prevent, manage and/or treat these diseases
- risk factors for contracting STIs/HIV, including:
  - relationship between STIs and increased risk of contracting HIV

- unprotected anal, vaginal and oral sex, receptive and insertive
- partners, mother to baby, blood to blood
- unsafe drug injection
- importance of confidentiality, the limits to confidentiality and addressing this in a community.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the skills and competencies required to conduct health promotion related to sexual and reproductive health for women as part of primary health care services for Aboriginal and/or Torres Strait Islander communities.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

Elements define the essential outcomes.

Performance criteria specify the level of performance needed to demonstrate achievement of the element.

1. Develop positive relationships with women

1.1 Provide regular contact opportunities for women in the community

1.2 Provide opportunities for women to voice their

- opinions in a safe and supported environment
- 1.3 Advocate for the rights and needs of women in the community
2. Promote healthy lifestyle practices
- 2.1 Provide information on sexual, reproductive and women's health to address identified individual and community needs
  - 2.2 Discuss sexual practices and attitudes in relation to their impact on sexual and reproductive health and emotional wellbeing
  - 2.3 Explain methods of contraception within a cultural context
  - 2.4 Work within a multidisciplinary team to promote healthy sexual and lifestyle practices
3. Identify and discuss women's health and wellbeing
- 3.1 Identify and explain issues relevant to women's health and wellbeing
  - 3.2 Provide advice about individual women's health issues in line with organisational guidelines
  - 3.3 Provide emotional support to women and families as appropriate
  - 3.4 Identify and discuss risk factors for women and refer to appropriate support agencies as required
  - 3.5 Deliver, implement and monitor care for women as per health management protocol in accordance with legislative guidelines
  - 3.6 Work with a team to deliver effective health promotion and education for Aboriginal and/or Torres Strait Islander women using appropriate facilitation, problem-solving and instructional practices
4. Identify and discuss women's sexual health
- 4.1 Explain risk factors and indicators of sexually transmissible infections (STIs)
  - 4.2 Identify and explain methods of basic management for STIs
  - 4.3 Prepare and present HIV/AIDS information within an STI context at a community level
  - 4.4 Explain principles and procedures of HIV/AIDS

testing and provide information as required

4.5 Explain interventions to address issues relating to STIs in the community as required

4.6 Provide advice about sexual and reproductive health issues in line with community needs and organisational guidelines

4.7 Provide information about resources available in the community and state in relation to addressing sexual and reproductive health issues

4.8 Make appropriate referrals to address identified STIs, HIV and sexual and reproductive health issues

4.9 Maintain confidentiality to reflect community and organisation guidelines and in line with notification requirements

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- communicated effectively in a group and one-on-one environment to promote healthy practices and discuss health issues on at least three separate occasions
- provided information and strategies to support the health of at least three women. This includes:
  - taking a sexual history
  - providing accurate and relevant information and guidance about women's sexual health in line with identified individual and community needs on at least three separate occasions, including:
    - o explaining concepts related to sexuality, including:
      - sexuality and human sexual response
      - sexual behaviour
      - at-risk sexual behaviour
      - sexual discrimination
    - o explaining and demonstrating purpose and methods of contraception
  - informing clients about STIs including history, transmission, prevention, investigations, management, complications, contact tracing and confidentiality
  - exploring, reflecting on and clarifying personal experience and values in relation to sexuality

- making referrals at an appropriate time and to an appropriate person in relation to specific STIs.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- organisation policies and procedures and legislation or regulations relating to:
  - client confidentiality
  - referral, including various levels of urgency, and follow-up of clients
  - mandatory reporting
  - notifiable communicable diseases
  - limits of own ability and authority
  - reporting procedures
  - documentation
- anatomy and physiology of sexual/reproductive organs
- strategies to support women's health and wellbeing
- health prevention screening options for early identification of women's health issues
- impact and treatment of conditions affecting women's health and wellbeing, e.g. breast screening, cervical screening, domestic violence, sexual assault, menopause, vaginal prolapse and continence issues
- healthy sexual behaviours such as:
  - safe-sex practices
  - contraception
  - influence of alcohol and other drug use on sexual behaviours
- sexually transmissible infections, including:
  - description/definition, statistics, signs and symptoms, universal precautions, common STIs, notifiable STIs
  - history of STI in the Aboriginal community and effects of STIs on the community
  - transmission, testing and complications related to STIs
  - impact on the ability of Aboriginal and Torres Strait Islander women to have children
  - contact tracing/ partner notification
  - available ways to prevent, manage and/or treat these diseases
- risk factors for contracting STIs/HIV, including:
  - relationship between STIs and increased risk of contracting HIV
  - unprotected anal, vaginal and oral sex, receptive and insertive
  - partners, mother to baby, blood to blood

- unsafe drug injection.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the skills and competencies required to conduct health promotion related to chronic conditions as part of primary health care services for Aboriginal and/or Torres Strait Islander communities.

The unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Promote the prevention of chronic conditions

1.1 Consider identified community and individual client needs in determining priorities and potential areas to be addressed by chronic condition health promotion

1.2 Identify primary, secondary and tertiary prevention strategies for prevalent chronic conditions

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

across the lifespan

1.3 Provide accurate information about the nature, prevalence and potential impacts of chronic conditions in relation to Aboriginal and/or Torres Strait Islander communities

1.4 Provide health information in plain language, using culturally appropriate and safe communication skills, and visual aids where appropriate

1.5 Discuss risk factors relating to specific chronic conditions in the context of local, cultural, community, family and individual issues

1.6 Explain and/or demonstrate practices for early detection of specific chronic conditions

1.7 Provide practical advice relating to maintaining good health in relation to prevalent chronic conditions and in line with individual and community needs and organisational guidelines

2. Provide support to clients with chronic conditions

2.1 Equip clients with common chronic conditions to make decisions about their health

2.2 Assist clients with chronic conditions to actively participate in the development of multidisciplinary care plans

2.3 Use culturally appropriate educational resources for chronic condition programs

2.4 Provide information about resources available in the community and state in relation to addressing chronic condition issues

2.5 Support clients to take a self-care approach to maintaining health in line with individual needs

2.6 Make appropriate referrals for clients with chronic conditions in accordance with organisation procedures and policies

2.7 Maintain confidentiality to reflect community and organisation guidelines

2.8 Offer brief interventions for smoking cessation as

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

required, using motivational interviewing and other relevant techniques

2.9 Identify patterns of alcohol consumption and offer brief interventions as required

3. Follow-up clients with chronic conditions

3.1 Identify clients with chronic conditions who are significantly overdue for health care checks and engage follow-up and active recall strategies according to organisation procedures and policies

3.2 Identify social and environmental factors that impact on chronic conditions and address them in partnership with the Aboriginal community and other agencies

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

*Numeracy*

- in order to offer blood pressure checks, check medication dosages, and blood glucose readings

*Reading*

- in order to interpret protocols for the management of conditions, and interpret and contribute to the development of implementation of care plans

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

**Unit Mapping Information**

No equivalent unit.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- provided on at least three separate occasions access to accurate health information on chronic conditions relevant to community and individual needs
- supported and guided at least three clients with chronic conditions
- referred at least three clients with chronic conditions to relevant services
- organised and ensured follow-up care for at least three clients.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- organisation policies and procedures and legislation or regulations relating to:
  - client confidentiality

- referral, including various levels of urgency, and follow-up of clients
- mandatory reporting
- notifiable communicable diseases
- limits of own ability and authority
- reporting procedures
- documentation
- prevalence and statistical incidence of diabetes, heart disease and chronic kidney disease in Aboriginal and/or Torres Strait Islander populations compared to non-Aboriginal and/or Torres Strait Islander populations
- importance of self-management and the promotion of health-seeking behaviours
- importance of developing care plans that involve the client and the multidisciplinary care team
- health promotion strategies for all chronic conditions (primary, secondary and tertiary prevention), including:
  - maternal and infant/child health
  - smoking cessation
  - national recommendations for healthy eating (including avoiding foods high in saturated fat and salt)
  - national recommendations for physical activity
  - vaccination (hepatitis B, pneumococcal, influenza & HPV)
  - oral health
  - safe alcohol consumption
  - social and emotional wellbeing
  - annual child and adult health checks
- features of chronic illness, including:
  - complex causality
  - multiple risk factors
  - long latency periods
  - a prolonged course of illness
  - functional impairment or disability
- specific chronic conditions affecting Aboriginal and/or Torres Strait Islander clients and communities, including:
  - cardiovascular disease
  - diabetes
  - cancer
  - chronic respiratory disease
  - chronic kidney disease
  - asthma
  - arthritis
  - oral disease
- specific impact of chronic conditions on major body organs and systems

- groups at high risk of chronic conditions
- determinants of chronic conditions, including:
  - smoking
  - physical activity
  - nutrition
  - alcohol intake
  - use of illicit drugs
  - obesity, weight and waist circumference
  - unsafe sexual practices
  - genetic factors
- treatment and management of chronic conditions, including:
  - working strategically with clients, family and significant others to promote self-management as far as possible
  - medication
  - surgery
  - regular exercise
  - good nutrition
  - cessation of smoking
  - cessation or moderation of alcohol use
  - cessation of illicit drug use
  - regular screenings for changes in disease presentation and detection of other diseases
- in relation to cardiovascular diseases:
  - the concept of 'cardiovascular risk factors', the significance of an individual having multiple risk factors
  - the development of atherosclerosis and the basic pathophysiology of coronary heart disease, cerebrovascular disease and peripheral vascular disease
  - basic medical and surgical management of coronary heart disease
  - basic knowledge of the causes, prevention and management of other cardiovascular diseases including rheumatic heart disease, heart failure and cardiomyopathies
- in relation to diabetes mellitus:
  - basic pathophysiology of type II contrasted with type I diabetes mellitus and gestational diabetes
  - complications of diabetes (macrovascular: coronary heart disease, cerebrovascular disease and peripheral vascular disease; and microvascular: neuropathies, retinopathy and nephropathy)
  - main elements of the 'diabetes annual cycle of care'
  - importance of follow-up for women with gestational diabetes and their children
  - role of other members of the multidisciplinary care team (e.g. GP, endocrinologist, diabetes educator, podiatrist, dietician, ophthalmologist/optometrist, psychologist)
- in relation to chronic kidney disease:

- basic pathophysiology of chronic kidney disease (causes, body systems affected, progression/staging )
- importance of early detection of chronic kidney disease in effort to defer or prevent end-stage kidney disease
- screening and monitoring of chronic kidney disease (including blood and urine tests)
- strategies to delay progression of chronic kidney disease (including control of blood sugar, blood pressure and smoking cessation)
- complications (including hypertension, anaemia, bone demineralisation and high potassium levels) and major causes of death
- options for management of end-stage kidney disease (palliative care, haemodialysis, continuous ambulatory peritoneal dialysis, transplant).
- dilemmas and difficulties faced by Aboriginal and/or Torres Strait Islander people and their families who need to relocate to distant centres in order to access dialysis treatment
- supporting clients in self-care, including diet, physical activity, foot care, self-monitoring of blood sugar, and use of diabetes medicines in relation to chronic renal disease, :
  - basic pathophysiology of chronic renal failure (causes, body systems affected, natural history)
  - factors which may worsen or accelerate renal failure (including: high blood pressure, anti-inflammatory drugs, poor diabetes control, dehydration, high protein diet)
  - clinical features of advanced renal failure
  - the importance of early detection of renal disease in efforts to defer or prevent end-stage renal failure
  - options for treatment of end-stage renal failure (haemodialysis, chronic ambulatory peritoneal dialysis, transplant)
- the dilemmas and difficulties faced by Aboriginal people and their families who need to relocate to distant centres in order to access dialysis treatment
- familiarity with a range of other common chronic conditions in Aboriginal populations:
  - chronic liver disease – causes, clinical features and principles of management (including hepatitis B, hepatitis C, alcoholic liver disease and cirrhosis)
  - chronic obstructive lung disease, relationship to smoking and principles of management
- agencies able to provide support and assistance to Aboriginal and/or Torres Strait Islander people with chronic disabilities
- strategies to assist Aboriginal and/or Torres Strait Islander people with disabilities to live fulfilling and productive lives in the community
- methods of organising care of clients with chronic conditions (e.g. disease registers, care plan schedules in medical files, tagging files, computerised client information and recall systems)
- value of the opportunistic approach to chronic condition surveillance (comprehensive check-ups as people come to the clinic)

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment, including medical equipment used to conduct checkups, such as sphygmomanometer and glucometer to monitor blood pressure and blood sugar.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker
- or:
- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- provided information and strategies to at least three women and their infants to support maternal and infant health by:
  - communicating in an effective and culturally safe and appropriate manner to understand the mother's and infant's needs
  - providing accurate and relevant information and guidance about maternal and infant health and wellbeing
  - communicating effectively with client to obtain information and ensure understanding of information provided
  - assisting mothers presenting with antenatal problems
  - liaising between service providers, individuals, families and community groups to support maternal and infant health
  - reflecting on own level and application of skills and knowledge to achieve desirable outcomes for clients
- worked within a team on at least three occasions to deliver effective health promotion and education for Aboriginal and/or Torres Strait Islander communities and clients around maternal and infant health by:
  - using appropriate facilitation, problem-solving and instructional practices

- communicating effectively and in a culturally safe and appropriate manner
- promoting discussion of health issues around maternal and infant health.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisation policies and procedures and legislation or regulations relating to:
  - client confidentiality
  - referral, including various levels of urgency, and follow-up of clients
  - mandatory reporting
  - notifiable communicable diseases
  - limits of own ability and authority
  - reporting procedures
  - documentation
- standard treatment protocols in accordance with legislative guidelines
- role of the Aboriginal and Torres Strait Islander Health Worker in relation to maternal and infant health education and care
- culturally appropriate and safe birthing practices
- awareness of the health and wellbeing of mother and child which encompasses physical, social-emotional and nutritional aspects
- health conditions and associated risks related to pregnancy, maternal and infant health which includes:
  - alcohol and other drugs
  - smoking
  - nutrition
  - domestic violence
  - sexual assault
- relevant evaluation criteria for monitoring effectiveness of specific maternal and infant health management program.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre

- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- communicated effectively in a group and one-on-one environment to promote healthy practices and discussed eye health issues on at least three separate occasions
- provided accurate and relevant information and guidance about eye health care for at least three clients, and ensured each client's understanding of information
- performed each of the following on at least three occasions:
  - an emergency pupil assessment
  - a basic external eye examination
  - vision and visual acuity testing
  - diagnosis and treatment of conjunctivitis, corneal foreign bodies and minor ocular trauma
  - trachoma identification and grading
  - retinal photographs
  - pinhole acuity measurement
  - eye drop and ointment instillation
  - eye patch and eye shield fitting
  - spectacle adjustments and minor repairs

- facilitated referrals for patients and liaised between service providers, individuals, families and community groups
- organised a regular or visiting Optometry or Ophthalmology Clinic at least once, including:
  - scheduling provider dates and organising travel logistics
  - organising patient lists and bookings
  - completing paperwork and maintaining patient records
- evaluated eye health programs and implemented strategies to improve eye health in the community on at least one occasion.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- anatomy and physiology of the eye
- broad facts of eye diseases (manifestation, impact and treatment)
- eye-related symptoms and signs that suggest a need for urgent/emergent medical or optometric assessment
- refractive errors and spectacle correction
- children's vision issues (strabismus and amblyopia)
- diabetes
- organisation policies and procedures
- strategies to:
  - improve eye health in the community
  - address clients presenting with eye problems
  - coordinate provision of optimum level of eye health service delivery
- eye health problems requiring referral
- effective self-care practices for eye health
- relevant evaluation criteria for monitoring effectiveness of eye health care program.

## Assessment Conditions

Unless state or territory legislation prevents practice in the workplace, skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team

- with Aboriginal and/or Torres Strait Islander clients and communities.

Note: Where state or territory legislation prevents practice in the workplace, simulated assessment environments may only be used in place of workplace assessment.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment including retinal cameras, and tools and equipment used to test visual acuity, to measure pupillary distance and Bifocal and progressive height measurements and to adjust spectacles.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the skills and knowledge required to provide information and strategies related to promoting and enhancing the capacities of families and communities (including children and young people) as part of primary health care services for Aboriginal and/or Torres Strait Islander communities.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Provide strategies to promote and strengthen the capacities of families and communities

1.1 Determine the components of a 'healthy family' and strategies to strengthen the family unit

1.2 Demonstrate knowledge of and respect for the diversity of culture, skin and language groups and family structures in

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

relation to achieving healthy families and communities

1.3 Provide accurate information about the incidence, impacts and social and psychological context of family health problems in Aboriginal and/or Torres Strait Islander communities

1.4 Discuss the obstacles to healthy family and community development in relation to family and/or domestic violence, and abuse of children and young people

1.5 Provide practical advice relating to early identification, management and prevention of family health problems in accordance with community cultural needs and work role obligations

1.6 Work in collaboration with primary health care workers, multidisciplinary teams, organisations and other agencies to support 'healthy family' outcomes

2. Work in partnership with Aboriginal and/or Torres Strait Islander people and communities

2.1 Develop and implement strategies to increase participation of Aboriginal and/or Torres Strait Islander people in health service delivery

2.2 Ensure delivery of health care, services and programs reflect culturally safe and appropriate practice

2.3 Ensure health care, services and programs encourage self-determination and community control to ensure improved health outcomes

2.4 Identify and utilise resources to promote effective partnerships with Aboriginal and/or Torres Strait Islander people, organisations and communities

2.5 Support the development of effective partnerships between staff, Aboriginal and/or Torres Strait Islander people and their communities to facilitate accessibility, affordability and acceptability of appropriate health and workplace services

3. Identify immediate

3.1 Comply with federal, state or territory workplace legislation which may impact on primary health care workers'

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

risks and needs

practice and responsibilities

3.2 Use culturally appropriate interpersonal skills to promote confidence and rapport, allowing the effective exchange of accurate and relevant information

3.3 Assess, analyse and respond to any indicators of risk or threats to the safety of children, young people, family and/or community members

3.4 Use culturally appropriate methods to accurately record relevant, specific and general circumstances to ensure that all relevant information is collected and complies with organisational, legal and ethical obligations

3.5 Identify own limitations in addressing and assessing clients' needs and, where appropriate, seek assistance from appropriate community person/s or work collaboratively with relevant organisations

4. Implement strategies to empower children, young people, families and communities

4.1 Identify current community and government intervention and support policies in relation to family health issues in Aboriginal and/or Torres Strait Islander communities

4.2 Discuss the principles of community development and ways in which community development strategies promote empowerment and re-empowerment

4.3 Use culturally appropriate educational resources to assess, analyse and prevent identified children, youth and family health issues

4.4 Make appropriate referrals for clients with family health problems in line with community and organisational legislation and guidelines

## Assessment Requirements for HLTAHW031 Provide information/strategies to enhance capacities of Aboriginal/Torres Strait Islander families

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- supported at least five families (including children and/or young people) to develop their capabilities. This includes:
  - communicating effectively in a group and one-on-one environment to promote healthy practices and discussing health issues
  - providing accurate and relevant information and guidance about family issues and strategies to strengthen families, in line with identified individual and community needs
  - identifying intervention and support strategies appropriate to the client's family issues
  - making referrals to appropriate services to assist with client's family health problems and following up as required.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- definitions and forms of violence, sexual assault, physical and emotional abuse and neglect, including:
  - o indicators and common behaviours
  - o factors involved and links between them
  - o potential impact on individuals and families involved and the community
  - o likely needs of individuals and families involved
  - o knowledge of the social, political, historical, and economic context of family and domestic violence, including types and nature of violence
  - o nature and dynamics of abuse, assault and violence in Aboriginal and/or Torres Strait Islander communities
  - o impact of the risk of and actual violence and abuse on children, families, adults and community
  - o misconceptions and prevalent attitudes about violence and abuse which impede individuals and families seeking help, and hinder community development and other interventions
- strategies to support children, young people and families who:
  - o have experienced or are at risk of familial violence, sexual assault, physical and emotional abuse or neglect
  - o are in crisis situations
  - o require long-term support
- how to apply community development principles and strategies
- diversity of Aboriginal and/or Torres Strait Islander cultures
- impact of colonisation on individual and community identity through the loss of family, kin, language, social structures, traditional land ownership, law, knowledge and cultural practices
- interaction between western and traditional practices, including impact of ‘culture shock’
- historical, social, political and economic factors contributing to ill health and chronic conditions among Aboriginal and/or Torres Strait Islander peoples
- culturally safe and appropriate forms of communication and interaction with individuals and communities
- organisation procedures, state, territory and/or federal legislation and regulations informing own scope of practice, including:
  - o duty of care
  - o mandatory reporting requirements and child protection systems

- o ethical considerations
- o children's and human rights
- o codes of practice
- o discrimination on unlawful grounds, including race, sex, sexual orientation, gender, religion, culture
- current organisation procedures, practices and standards relating to:
  - o client assessment
  - o allocation of services
  - o case management
  - o interviewing
  - o code of conduct
  - o confidentiality
  - o file management
  - o use of resources
  - o programmed intervention
- additional services including:
  - o other health care practices or agencies for referral of individuals and families
  - o interpreter and translation services
- own professionalism, including:
  - o own values and attitudes and potential impact on clients
  - o ethical decision-making.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

support and networks required in their role

1.4 Provide new workers with, or facilitate access to, cross-cultural awareness programs as required

1.5 Identify and plan for any immediate training as required when joining the organisation

2. Develop individual work plan in consultation with worker

2.1 Discuss and develop individual work plan to meet work unit objectives and action plans

2.2 Identify, agree and document performance goals

2.3 Review work plan regularly in discussion with worker and adjust plan if necessary

3. Undertake performance appraisal with worker

3.1 Regularly review worker's performance against agreed criteria/expectations in line with organisation guidelines

3.2 Provide feedback to worker on performance and discuss

3.3 Discuss training and development needs or preferences with worker and document

4. Support workers in their work role

4.1 Discuss work load and other work-related issues with workers on a regular basis

4.2 Explore and implement support mechanisms to address issues in line with individual, community and organisation requirements

4.3 Support strategies to address workers' development needs

4.4 Provide mentoring support, or opportunities to receive mentoring

4.5 Provide workers with access to opportunities to discuss their own wellbeing and support appropriate assistance as required

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

5. Assist workers to plan career paths

5.1 Discuss workers' career options and preferences

5.2 Identify opportunities for career progression or development

5.3 Identify training and development needs in regards to desired career path in line with individual preferences and organisation requirements

5.4 Develop and document an individual training and development plan for worker, to reflect individual and organisation requirements

5.5 Assist workers to develop their skills and knowledge in line with individual and organisation guidelines

**Foundation Skills****FOUNDATION SKILLS**

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- inducted at least three new staff, including providing information regarding the community, organisation and rights and responsibilities of the role
- developed at least three work plans in consultation with the new staff members and in accordance with organisational needs and performance goals
- reviewed staff performance and provided feedback on at least three occasions
- supported professional development of at least three staff members by:
  - identifying training needs and opportunities
  - assisting staff in developing career plans and identifying opportunities for career progression and professional development
  - contributing to the ongoing support and development of staff involved in provision of primary health care services to Aboriginal and/or Torres Strait Islander clients.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- relevant organisation guidelines
- awards or Enterprise Bargaining Agreements (where they exist)
- organisational human resource management policies
- union documents/guidelines/policies
- performance appraisal protocols
- conditions of service
- strategies to meet staff training needs
- networking and information exchange processes
- career progression opportunities
- community support mechanisms
- industrial relations principles and current issues

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the required skills and knowledge to develop, evaluate and amend a community health profile, using information collected on the community's health. This profile can then used as a basis for further research and decision-making regarding health care service delivery.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Develop a community health profile

- 1.1 Obtain community agreement before developing the community profile
- 1.2 Check information collected on the community for accuracy
- 1.3 Consult key people to determine priorities and

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

timelines for action

1.4 Compile community health information into a community health profile document in line with organisation guidelines

1.5 Present information to organisation and community representatives, using visual and other aids to support understanding as required

2. Review the community health profile

2.1 Determine timelines for reviewing community health profile in line with organisation requirements

2.2 Regularly review and update community health profile in line with new and relevant information

2.3 Consult key organisation and community representatives to review the profile in line with changing community health needs

2.4 Identify and consider requirements of relevant agencies when reviewing the profile

3. Amend the community health profile

3.1 Incorporate new and changed community needs, issues and priorities into the community health profile, amending the profile document as required

3.2 Amend information systems and records as required

3.3 Present updated information to organisation and community representatives

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are*

*essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- used research information and community consultation as a basis for developing a community health profile for an Aboriginal and/or Torres Strait Islander community
- reviewed and amended the profile as required
- consulted key people, organisations and community representatives
- presented information to organisations and community representatives in a clear manner, using culturally appropriate and safe language and gestures.

All performance criteria must be demonstrated at least once.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- relevant policies, protocols and procedures of the organisation, governments and other organisations
- research ethics
- local resources
- project management
- sources of information and ways to access them
- formats for compiling information
- principles of community development
- community ownership of data
- research methodologies

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## HLTAHW034 Provide healthy lifestyle programs and advice

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the required skills and knowledge to plan, promote, deliver and evaluate a healthy lifestyle program. It requires application of knowledge of nutrition, cultural awareness and an understanding of the dietary, physical and emotional factors that influence healthy lifestyle choices.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Prepare for and promote the training program

- 1.1 Identify characteristics of the participants and recognise their specific learning needs
- 1.2 Plan a timetable for program delivery and confirm after consultation with all stakeholders
- 1.3 Identify, arrange and/or order resources in

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

consultation with stakeholders and/or the community

1.4 Present information about the program in a clear and concise manner that is appropriate to the target group and distribute it in a variety of ways

1.5 Select training delivery methods appropriate to the participants' needs as well as a suitable location and available resources

2. Deliver training in a context appropriate to the community

2.1 Ensure training is delivered in a safe, accessible and culturally secure environment and is based on culturally appropriate practices

2.2 Select appropriate strategies and techniques to check for understanding and facilitate the learning process

2.3 Negotiate training objectives, planned activities and assessment procedures (if applicable) with participants to meet their specific and/or changing needs

2.4 Encourage self-determination and community control to ensure improved healthy lifestyle outcomes

2.5 Ensure confidentiality for all participants

3. Discuss behaviour in relation to diet and exercise

3.1 Address factors that influence weight gain and the concept of energy balance

3.2 Explain basic eating patterns for healthy weight and the disadvantages of quick weight-loss diets

3.3 Discuss the process and stages of, and factors influencing, behaviour change

3.4 Identify barriers to behaviour change and explore realistic solutions

3.5 Explain the benefits of physical activity and discuss common myths about physical activity

3.6 Explain how to develop and set SMART (specific, measurable, attainable, realistic and timely) goals

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

4. Discuss self-esteem and how it relates to health

- 4.1 Discuss self-esteem and the factors that influence it
- 4.2 Describe the effects of low self-esteem
- 4.3 Explore realistic ways of improving self-esteem
- 4.4 Review ways of making and maintaining healthy lifestyle changes and weight loss and associated benefits
- 4.5 Discuss ways of seeking ongoing support to help achieve goals
- 4.6 Plan activities to provide ongoing support and help to achieve goals

5. Develop participants' skills in interpreting food labels and shopping to a budget

- 5.1 Explain how to identify healthy amounts of fat, salt and sugar from food labels
- 5.2 Discuss how to identify dietary terms and other terms for fat and sugar
- 5.3 Discuss benefits of budgeting and ways of shopping to get value for money
- 5.4 Explain the "10 Plan Shopping Guide" for balancing diet and budget and provide opportunities for practice
- 5.5 Discuss ways of buying food so that the money goes further and compare prices per kilo
- 5.6 Investigate range of foods available in local store(s) during a shopping tour and read food labels to ascertain nutritional value of particular foods
- 5.7 Plan healthy meals for one day

6. Provide low-fat cooking exercises

- 6.1 Discuss ways to cut down on fat and demonstrate low-fat cooking methods
- 6.2 Explain the healthy eating pyramid and the principles of healthy eating
- 6.3 Sort foods according to the *Australian Guide to Healthy Eating* and describe the elements of a healthy

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

eating plan

6.4 Prepare and cook food using low-fat methods

7. Raise awareness of diabetes

7.1 Explain risk factors for type 2 diabetes

7.2 Address factors involved in type 2 diabetes prevention

7.3 Describe the signs and symptoms of type 2 diabetes

7.4 Discuss factors that affect diabetes management and strategies for managing diabetes

7.5 Provide definitions of type 1 diabetes, type 2 diabetes and gestational diabetes mellitus

7.6 Describe long- and short-term complications associated with diabetes

8. Review and evaluate the training program

8.1 Obtain feedback about the program, resources used and outcomes achieved from participants and the community

8.2 Encourage participants to self-evaluate and set future personal goals

8.3 Negotiate changes needed in the program with all stakeholders

8.4 Document the program evaluation according to organisational requirements

8.5 Suggest improvements to the program delivery plan to supervisor, other individuals, agencies and communities

8.6 Implement changes to the program delivery plan in consultation with the community and stakeholders as required

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

### Numeracy

- in order to interpret nutritional information, including units in kJ, Cal, g, mg, mcg, percentages and decimals
- in order to calculate daily nutritional requirements and energy expenditure of clients and design meal options to meet needs (carbohydrate, fats, protein amounts per meal/ per day)

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

## Unit Mapping Information

No equivalent unit.

# Assessment Requirements for HLTAHW034 Provide healthy lifestyle programs and advice

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- planned for at least one training program to deliver healthy lifestyle information and advice by:
  - identifying a target audience for the program
  - determining the content of the program, and the timeframes for delivery
  - promoting the program through appropriate forums
  - securing the location and necessary resources for the program delivery
- delivered the training program at least twice by:
  - communicating in a culturally appropriate and safe manner at all times with participants
  - addressing the needs of individual participants, and the group as a whole
  - checking for understanding of individuals, and supporting involvement of the group in training
  - providing information about:
    - o healthy diet, including appropriate intake of specific ingredients such as salt, sugar and fat
    - o shopping for health food and meal preparation
    - o dietary guidelines

- o diet and self-esteem issues
  - o preparation of healthy meals
  - o food labels and nutritional values
  - o principles of the Australian Dietary Guidelines
  - o links between diabetes and a healthy lifestyle, and general diabetes awareness
- evaluated both healthy lifestyle training programs, customised to address participant and community needs by:
  - communicating with individuals, families and communities to identify, establish and maintain lifestyle changes to achieve improved health
  - identifying areas and suggesting specific measures for improvement.
- documented all aspects of planning, delivery and evaluation of at least one healthy lifestyle training program.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisation policies and procedures and legislation or regulations relating to:
  - client confidentiality
  - referral, including various levels of urgency, and follow-up of clients
  - mandatory reporting
  - notifiable communicable diseases
  - limits of own ability and authority
  - reporting procedures
  - documentation
- nutrition for good health
- specific nutritional issues for Aboriginal and/or Torres Strait Islander communities and individuals
- *Australian Guide to Healthy Eating* and the nutrients associated with each food group
- *Aboriginal and Torres Strait Islander Guide to Healthy Eating*
- basic eating patterns for healthy weight and factors associated with quick weight-loss diets
- benefits and common myths relating to physical activity
- processes of behaviour change, including:
  - stages of behaviour change
  - factors that influence behaviour change
  - barriers to behaviour change
- nutritional needs of people at different stages in the lifecycle

- risk factors associated with common nutrition-related diseases.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

context of local, cultural, community, family and individual issues

1.4 Provide information on ways to prevent or reduce the risk of cancer

1.5 Provide information about best-practice guidelines around early detection of specific cancers, in line with current recommendations

2. Provide support to clients with cancer

2.1 Provide support for clients with cancer and their families in Aboriginal and/or Torres Strait Islander communities in line with health service guidelines and identified protocols

2.2 Provide culturally appropriate and current educational resources about cancer and its treatment to clients and their families

2.3 Inform clients about services available in the community and statewide in relation to addressing cancer issues

2.4 Support clients to take a patient-choice lead in determining their treatment and cancer care

2.5 Facilitate appropriate referrals for clients with cancer in line with organisational guidelines and multidisciplinary clinical partnerships

2.6 Maintain confidentiality to reflect community and health service guidelines

3. Organise follow-up care for clients with cancer

3.1 Organise follow-up care for clients with cancer using recall functions on computer information systems

3.2 Provide current information about cancer survivorship and what this may mean in relation to family, community and returning to work

3.3 Explain palliation in a timely and culturally sensitive way to clients and their families

3.4 Provide feedback about the effectiveness of cancer information and support provided by local health

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- communicated effectively and in a culturally safe and appropriate manner, on at least one occasion, to Aboriginal and/or Torres Strait Islander clients to promote community awareness of and current information about cancer and its different signs and symptoms and risk factors
- provided support to at least three clients diagnosed with cancer and/or undergoing cancer treatment by:
  - providing information about diagnostic tests and investigation techniques
  - equipping clients with resources and explaining support services and their roles for the client and their families
  - providing information regarding different treatment options
  - liaising with other services to ensure appropriate exchange of client information
  - assisting in planning and implementing care needs
  - identifying and addressing barriers to receiving treatment
  - explaining palliation options, if required
  - facilitating appropriate referrals for clients.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- epidemiology and pathophysiology including:
  - common signs and symptoms that aid early detection of cancer
  - how cancer is detected and treated
  - the basic definition of cancer and how cancer multiplies and spreads (i.e. the ‘weed’ analogy)
  - the outcomes for Aboriginal and Torres Strait Islander people and why outcomes are generally worse for them than other Australians
  - the statistical incidence of the main cancers affecting Aboriginal and Torres Strait Islander people including the common cancers affecting men and women
- prevention and risk factors such as:
  - how the social determinants of health affect wellbeing in relation to family, community and culture
  - an understanding that Aboriginal and Torres Strait Islander people face a much higher burden of tobacco-related cancers than other people in the community
  - ways to prevent or reduce the risk of cancer, including lifestyle-associated risk factors, such as smoking, alcohol, physical inactivity, overweight, obesity, poor diet, overexposure to sunlight, unsafe sex, hepatitis B, hepatitis C, human papillomavirus (HPV) and the role of vaccinations
- screening and early detection, including:
  - factors that influence an individual’s decision to participate in screening programs relevant to Aboriginal and Torres Strait Islander communities
  - benefits of early diagnosis
  - national screening programs available
  - locations of where treatment options and support services are available
  - the importance of patient choices (including the engagement of traditional healers and adherence to religious belief systems)
- support during the cancer journey such as:
  - the emotional and psychosocial impact of cancer diagnosis and treatment
  - ways to access Aboriginal and/or Torres Strait Islander and other agencies and networks coordinating care for clients and their families who have experienced cancer
  - ways to access referral agencies and other resources
  - ways to communicate with clients and families during the emotional and psychosocial impact of cancer diagnosis and treatment
- follow-up care, including:

- mechanisms for ensuring clients attend local health services for regular check-ups
- support mechanisms to manage physical and psychosocial care upon client's return home
- palliation, including:
  - methods of managing the psychosocial aspects of symptoms and pain
  - pain management methods and advanced symptoms management for people with terminal cancer
  - ways to judge the appropriate time and to use culturally sensitive language to talk about the principles and philosophy of palliative care with Aboriginal and/or Torres Strait Islander people
- administration and quality control, incorporating:
  - the use of client information systems and recall functions to follow-up clients
  - ways to enable Aboriginal and/or Torres Strait Islander Health Workers to provide feedback on cancer programs in the local health services where they are employed, to management and community
- methods that are patient-choice led and individualised to cultural values of people under treatment:
  - whereby multidisciplinary team principles and practices (including supportive care needs) are identified before treatment starts
  - including common forms of treatment, such as surgery, radiotherapy, chemotherapy, non-active and traditional healing.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## HLTAHW036 Provide information and support to women with breast cancer

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the required skills and knowledge to provide information and support around breast cancer, including breast awareness and early detection, diagnosis, treatment and follow-up care, as part of primary health care services for Aboriginal and/or Torres Strait Islander communities.

The unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

*Elements define the essential outcomes*

#### PERFORMANCE CRITERIA

*Performance criteria describe the performance needed to demonstrate achievement of the element.*

1. Promote awareness and early detection of breast cancer
  - 1.1 Identify community and individual client needs in determining priorities for promotion of breast awareness and early detection of breast cancer
  - 1.2 Provide accurate clinical information about the nature of breast cancer, including the definition and signs and symptoms
  - 1.3 Give clients accurate information on incidence, survival and mortality rates of breast cancer in relation to Aboriginal and/or Torres Strait Islander communities
  - 1.4 Discuss risk factors relating to breast cancer in the context of cultural, community, family and individual issues
  - 1.5 Explain practices for early detection of breast cancer
  - 1.6 Provide information and practical advice relating to modifiable risk factors of developing breast cancer
2. Provide information and support to clients being investigated for a breast cancer symptom
  - 2.1 Equip clients with an overview of investigation methods and diagnostic tests for breast cancer
  - 2.2 Provide information about own service and role to other organisations
  - 2.3 Facilitate communication between services to optimise service delivery
3. Provide information and support to clients being treated for breast cancer
  - 3.1 Provide information and current evidence regarding breast cancer treatments
  - 3.2 Promote the exchange of information about care needs and positive multidisciplinary clinical partnerships in planning and implementing breast cancer care
  - 3.3 Collaborate with clients, their family/significant others and the multidisciplinary team in planning and implementing care to meet the multiple health and support needs of clients
  - 3.4 Provide appropriate information and resources on supportive care, and facilitate access to health services and community resources which provide such care

4. Provide information and support to clients to complete breast cancer follow-up care

4.1 Provide information to clients on follow-up care in relation to the breast cancer journey

4.2 Collaborate with clients, their family/significant others and the multidisciplinary team in planning and implementing follow-up care

4.3 Identify barriers to accessing treatment for cancer in Aboriginal and/or Torres Strait Islander women

4.4 Provide information on key psychosocial issues facing Aboriginal and/or Torres Strait Islander women with cancer

4.5 Use basic, culturally appropriate communication skills to support women being treated for breast cancer

4.6 Identify patients at higher risk of psychosocial distress who may benefit from additional assessment and appropriate referral for psychosocial care

4.7 Provide continuity of care for the patient, communicating regularly and collaboratively with the multidisciplinary health care team

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

### *Learning*

- in order to locate, evaluate and organise information to suit intended audience and purpose

### *Numeracy*

- in order to interpret, calculate and express the level of incidence of cancer using ratios and percentages

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

## Unit Mapping Information

No equivalent unit.

## Assessment Requirements for HLTAHW036 Provide information and support to women with breast cancer

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- provided support to at least three different women diagnosed with breast cancer by offering:
  - advice about available treatment
  - information about further diagnostic tests and investigation techniques
  - explanation of available services and their roles
  - support to clients undergoing breast cancer treatment, including assistance with:
    - o information regarding different treatment options
    - o liaison with other services to ensure appropriate exchange of client information
    - o care plans and their implementation
    - o identifying and addressing barriers to receiving treatment
    - o access to support services for the client and their families
  - follow-up with clients and identification of psychosocial issues, referring as required
  - a collaborative approach to working with the multidisciplinary health care team to support client needs

- communicated effectively and in a culturally safe and appropriate manner to Aboriginal and/or Torres Strait Islander women to promote community awareness of and current information about breast cancer and its signs and symptoms and risk factors. This must occur on at least one occasion in a group environment.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- early signs and symptoms of breast cancer
- risk factors of early breast cancer
- early detection breast cancer strategies such as:
  - breast awareness
  - mammography screening every two years
- statistical incidence, survival and mortality rates of breast cancer in the Aboriginal and/or Torres Strait Islander population compared to the whole Australian population
- definition of breast cancer, including:
  - Ductal Carcinoma in Situ (DCIS)
  - early breast cancer
  - secondary breast cancer
- healthy lifestyle strategies to reduce the risk of developing breast cancer
- the three diagnostic components (also known as triple test) of early breast cancer which are:
  - medical history and clinical breast examination
  - imaging-mammography and/or ultrasound
  - biopsy
- treatments for early breast cancer, including the aim of treatment, duration and side-effects, including:
  - chemotherapy
  - hormonal therapy
  - radiotherapy
  - surgery (mastectomy and breast-conserving surgery)
  - targeted therapy
- the key psychosocial issues for Aboriginal and/or Torres Strait Islander women with breast cancer, including:
  - emotional
  - psychological

- physical
- practical
- agencies able to provide support and assistance to Aboriginal and/or Torres Strait Islander women with breast cancer.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## HLTAHW037 Support the safe use of medications

### Modification History

Not applicable.

### Application

This describes the skills and knowledge required to support Aboriginal and/or Torres Strait Islander clients and communities to safely use medication through the provision of accurate information about medicines. This unit includes investigating individual client needs for information, and researching and delivering knowledge to clients to support the Quality Use of Medicines. It also involves delivering information as part of health promotion activities with communities or identified groups.

The unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

This unit does not include skills and knowledge to administer or supervise self-administration of medication, which is covered in HLTAHW020 Administer medications.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

| ELEMENT                                        | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                  |
|------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements define the essential outcomes.</i> | <i>Performance criteria specify the level of performance needed to demonstrate achievement of the element.</i>                                                                                                                                                                                                                                                                                                        |
| 1. Determine client medication requirements    | <ul style="list-style-type: none"><li>1.1 Consult client and/or significant others for medication history and allergies</li><li>1.2 Review relevant documentation</li><li>1.3 Identify options and contraindications of commonly used medications and discuss with prescriber and other relevant staff</li><li>1.4 Maintain appropriate records of client medication in line with organisation requirements</li></ul> |

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

**2. Interpret and clarify orders and instructions for medication**

- 2.1 Receive and correctly interpret written and verbal orders and instructions for medications
- 2.2 Identify potential drug interactions and refer to the authorised prescriber
- 2.3 Consult authorised practitioners and other senior health staff if required to clarify medication instructions
- 2.4 Check written and verbal medication instructions against published medicines' information resources
- 2.5 Recognise special precautions and contraindications of use of particular medicines and refer to an appropriate person

**3. Support clients in their use of traditional and western medicines**

- 3.1 Identify traditional/bush medicines commonly used in the local community
- 3.2 Support and promote the role of traditional healers and traditional/bush medicines as an adjunct to western medical treatment
- 3.3 Identify generic and brand names of medicines used commonly in Aboriginal and/or Torres Strait Islander primary health practice, using reference sources as required
- 3.4 Provide information to clients on mechanisms of action, dosing and common side-effects
- 3.5 Provide Consumer Medicines Information (CMI) and explain to clients as required
- 3.6 Support clients to question proposed medical treatments to clarify the purpose, action and any issues relating to medication
- 3.7 Obtain feedback from client to determine their understanding of information provided
- 3.8 Support clients, where appropriate, to obtain prescription medicines under the Pharmaceutical Benefits Scheme (PBS) and other federal initiatives

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

4. Deliver information to support clients in the use of medications

4.1 Deliver clear and accurate information to support the client's Quality Use of Medicines in a confidential and culturally appropriate and safe manner

4.2 Check the client's understanding of information provided and support the client to make decisions and further inquiries about medication use

4.3 Support clients to obtain access to benefit schemes and other supports as appropriate

4.4 Evaluate the impact of information on the individual client's health through follow-up contact

4.5 Document all information provided about medications according to organisation procedures

5. Provide advice about storage and transport of medication

5.1 Explain to client the importance of correct and secure storage of medication in the home or other locations, including keeping medication away from children

5.2 Advise clients of the correct way to handle medication, including cold chain transport for medication requiring refrigeration

5.3 Explain to clients the importance of only using in date and undamaged medication

5.4 Provide advice to clients to correctly transport, store and dispose of their medications

6. Provide information and support to community

6.1 Communicate in a culturally appropriate and safe manner with community members to identify community or specific group requirements for medication information

6.2 Investigate generic medication information to be provided to support community or specific group needs

6.3 Identify and make use of culturally appropriate and safe ways to effectively provide information to

**ELEMENT**

*Elements define the essential outcomes.*

**PERFORMANCE CRITERIA**

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

community and specific groups about medication

6.4 Support individual members of community or specific groups to gain individual advice about specific medication issues

6.5 Evaluate the impact of information on the community or a specific group's awareness and use of medication through follow-up contact with community members

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

*Numeracy*

- in order to interpret and explain dosage requirements to client

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

**Unit Mapping Information**

No equivalent unit.

# Assessment Requirements for HLTAHW037 Support the safe use of medications

## Modification History

Not applicable.

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- provided clear and accurate information to support the safe use of medicines to least five individual clients. This includes:
  - communicating effectively and in a culturally safe and appropriate manner to identify client information needs about medication, and providing information to meet those needs
  - undertaking research and using various medication references and resources, such as MIMS, standing orders, guidelines and CMI in line with the Quality Use of Medicines framework and organisational requirements
  - using published medication references and resources to:
    - o check written orders for medicines
    - o identify medicines by their generic and/or brand names
    - o note potential drug interactions
    - o identify special precautions and contraindications
    - o check terms and abbreviations commonly used in prescribing and administering medications
  - confirming information to be provided to the client with relevant health professionals
  - working within the scope and parameters of the work role as a member of a multidisciplinary team providing primary health care to Aboriginal and/or Torres Strait Islander clients and community
  - maintaining records and documentation in line with organisational requirements
- provided clear and accurate information to support the local Aboriginal and/or Torres Strait community, or a section of the community, in the use of medicines by on at least one occasion by:
  - using culturally appropriate and safe communication to determine needs for medication information by a community or specific group
  - researching and determining the information to be provided

- delivering information in a culturally appropriate and safe manner to a group of community members.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- application of universal precautions in the administration of medicines
- basic medications commonly used in daily role, and effects on the body
- federal and state legislation relating to the control, labelling, storage and dispensing of drugs and medication
- workplace health and safety issues
- organisational policies and procedures relating to drugs and medications
- schemes and programs to support access to medications, including the PBS and Close The Gap Initiative
- relevant services provided by Commonwealth, state and territory to support medication use
- signs of anaphylaxis and appropriate management /referral
- Quality Use of Medicines and the CMI
- National medication access and review initiatives for Aboriginal/Torres Strait Islander people
- special considerations in use of medicines, including:
  - pregnancy and lactation
  - renal failure
  - anti-coagulant therapy
  - potential drug interactions
  - differences of medication impact on children and adults
- types of locally available/used traditional bush medicines and their benefits.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

# HLTAHW038 Assess and promote physical and emotional wellbeing of children

## Modification History

Not applicable.

## Application

This unit describes the skills and knowledge required to identify, assess and implement care related to the growth and development, and to promote wellbeing for, children from birth to 5 years of age.

The unit applies to Aboriginal and Torres Strait Islander Health Workers who are working with families and children within a primary health care context.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Assess current child physical health and wellbeing

1.1 Consult family or carer regarding child, family and social history

1.2 Review documentation relevant to child's physical and emotional health

1.3 Conduct a full assessment of the child according to organisation procedures

1.4 Identify normal and abnormal findings in conducting child health assessment

1.5 Recognise and respond to indicators for potentially serious health concerns according to standard treatment in line with protocols

1.6 Record information according to organisation guidelines

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

**2. Develop a health care plan**

2.1 Identify physical and emotional health needs of infants and children

2.2 Discuss and confirm child health requirements of the health care plan with primary health care team and/or supervisors

2.3 Work collaboratively with families or carers, the multidisciplinary team, organisations and agencies to develop a health care plan

2.4 Identify appropriate health care activities to include in plan

2.5 Develop plans according to standard treatment protocols, work roles and legislative frameworks

2.6 Discuss health care plans and possible options with parents or carers and where possible, with the child to support understanding and cooperation

**3. Deliver health care to children according to health care plan**

3.1 Provide care according to the child health plan and client requirements

3.2 Refer to standard treatment protocols, own work role and scope and legislative frameworks to implement the care plan

3.3 Implement immediate and appropriate actions in response to relevant child health conditions in line with standard protocols

3.4 Provide health education to family or carers and encourage questions to support understanding

3.5 Where possible, encourage the child to ask questions about own health to support the child's own understanding and involvement in health care

**4. Monitor and review continuing care for children**

4.1 Use regular appointments and checkups to monitor the progress of the health care plan and health of the child

4.2 Discuss outcomes of health checks with primary

**ELEMENT**

*Elements define the essential outcomes.*

**PERFORMANCE CRITERIA**

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

health care team to identify required changes to health care plan

4.3 Ensure continuing health care plans are made to reflect ongoing monitoring of health and continued care

**Foundation Skills****Unit Mapping Information**

No equivalent unit.

# Assessment Requirements for HLTAHW038 Assess and promote physical and emotional wellbeing of children

## Modification History

Not applicable.

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- assessed the physical and emotional wellbeing of at least three children aged birth to 5 years by:
  - engaging and communicating with each child's family in a culturally appropriate and safe manner to gather information about the child
  - communicating in a safe and welcoming manner with each child
  - undertaking an assessment of the child's physical health
  - completing an assessment of the child's emotional health
  - interpreting assessment results and responding accordingly to results outside of normal ranges
  - identifying areas to address in each child's health care plan
- developed a health care plan for at least three children aged birth to 5 years by:
  - consulting with relevant staff and colleagues on appropriate health care for the child
  - discussing health needs of the child with the family
- provided health care according to the health care plan for at least three children aged birth to 5 years, including;
  - referring the client to appropriate health care providers according to the child's needs
  - encouraging the child and family to ask questions about the health care being delivered
- monitored health care of at least three children aged birth to 5 years and made adjustments to the health care plan according to child's progress and health.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- application of universal precautions
- workplace health and safety issues
- physical and cognitive developmental milestones
- communication with families and children
- assessment of the physical wellbeing of children
- child social and emotional wellbeing assessment
- assessment and management of the following common child health conditions:
  - anaemia
  - respiratory conditions including chest infections, viruses and asthma (acute and ongoing management)
  - oral health and dental problems
  - diarrhoea, acute and persistent
  - ear and hearing problems including examination, assessment and management
  - rashes and skin conditions
  - urinary problems
  - cardiac including rheumatic heart disease and acute rheumatic fever
- health care which includes growth monitoring
- assessment and management of failure to thrive and growth faltering
- language and communication assessment and referral procedures
- childhood immunisation schedule and requirements
- dehydration and rehydration requirements in unwell children
- assessment and management of serious conditions for children birth to five years – the unwell child and the warning signs
- management of the febrile child
- child safety and protection including child neglect, physical and emotional abuse and sexual abuse; non accidental injuries in children
- Charter on Rights of Children and Young People in Health Care Settings in Australia
- child health promotion strategies including:
  - immunisations
  - disease prevention and hygiene-
  - mental health promotion
  - early learning promotion
  - exercise and physical wellbeing
- organisation policies and procedures relating to child health and wellbeing assessment, planning and implementing health care.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of, and under the supervision of, a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment including diagnostic tools for child health assessments.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker
- or:
- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

# HLTAHW039 Monitor early childhood growth and development

## Modification History

Not applicable.

## Application

This unit describes the skills and knowledge required to identify appropriate growth and development milestones with children aged birth to 5 years.

This unit applies to Aboriginal and Torres Strait Islander health workers who are working with families and children within a primary health care context.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Initiate and undertake growth and development monitoring

1.1 Establish trust and rapport with children and their families/carers through effective communication strategies

1.2 Maintain confidentiality of client information

1.3 Use culturally appropriate and safe methods during interactions

1.4 Provide information to children and their families/carers regarding growth and development procedures

1.5 Use appropriate screening tools and equipment as per child health protocols and procedures

1.6 Conduct screening in accordance with organisational policies and procedures and workplace health and safety requirements, in line with job role

1.7 Use age-appropriate strategies when performing

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

growth and developmental screening

1.8 Accurately document growth and development screening data

2. Interpret results of growth and development screening and undertake actions

2.1 Review screening findings against tools and in accordance with organisational protocols

2.2 Recognise deviations from normal parameters regarding child growth and development

2.3 Recognise the cumulative effects of multiple risk factors and the developmental implications

2.4 Provide information to child, parent/caregiver regarding the results and the negotiated care plan required

2.5 Discuss and develop a plan in consultation with appropriate health care professionals, organisations and/or agencies

2.6 Implement appropriate actions and care according to organisational protocols, in line with work role and legislative frameworks

3. Promote optimal growth development and wellbeing in childhood

3.1 Provide information to parents and carers regarding influences that shape growth, development and wellbeing in childhood

3.2 Identify environmental conditions and experiences known to have adverse effects on prenatal and early childhood development

3.3 Identify features and qualities of communities that help or hinder families in their capacity to raise young children adequately

3.4 Identify local resources to assist in promoting growth, development and wellbeing in childhood

3.5 Promote strategies to support individuals and the community to foster optimal health and wellbeing in childhood

3.6 Provide referrals to appropriate support programs

## Foundation Skills

## Unit Mapping Information

No equivalent unit.

## Links

Companion Volume implementation guides are found in VETNet -

# Assessment Requirements for HLTAHW039 Monitor early childhood growth and development

## Modification History

Not applicable.

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- monitored the growth and development of at least three children aged birth to 5-years-old by:
  - using effective communication strategies which demonstrate cultural appropriateness and safety to engage with the families and/or carers of each child
  - explaining the purpose and promoting the benefits of screening to clients and parents/carer
  - taking a detailed history, eliciting relevant information from the child, carer or family and documentation
  - using screening tools and equipment in accordance with organisational protocols
  - making referrals for assessment based on parental concerns and any observed variations
  - initiating appropriate actions in response to growth and development screening results, in line with organisational procedures and protocols, for presenting health conditions
  - explaining concepts related to growth and development including:
    - o nutrition – including breastfeeding
    - o physical activity
    - o environment
  - informing parents/caregivers about age-appropriate milestones of growth and development including;
    - o fine and gross motor skills
    - o emotional, social and behavioural development
    - o language and communication
  - documenting outcomes of all assessment, treatment decisions and monitoring according to organisation procedures and policies and in regard to confidentiality of the clients and families.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- core principles of child development and broader knowledge of current research around child development
- the impact of contextual factors that influence and challenge a child's physical, emotional and psychological development
- broad understanding of the domains of child development
- developmental milestones within specific age groups
- indicators of abnormal or 'red flags' within the age-specific developmental domains
- differences among children in stage of development, needs, interests and strengths when providing services to children
- application of standard universal precautions
- past and present growth and development trends within Aboriginal and Torres Strait Islander population
- maternal history and issues related to pregnancy and childbirth
- differences in growth patterns for breastfed and formula-fed children, preterm infants and infants with a disability
- assessment and management of failure to thrive and growth faltering
- child health promotion strategies including:
  - immunisations
  - disease prevention and hygiene
  - mental health promotion
  - protective behaviors
  - early learning promotion
  - exercise and physical wellbeing
- organisation policies and procedures relating to child health and wellbeing assessment, planning and implementing health care.
- 

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of, and under the supervision of, a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment. This may include tools and equipment associated with child growth and development screening and monitoring.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker
- or:
- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

# HLTAHW040 Promote burns prevention in homes and the community

## Modification History

Not applicable.

## Application

This unit describes the skills and knowledge required to educate community members on burn and scald hazards and other risk factors within the home and community.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

## Elements and Performance Criteria

| ELEMENT                                        | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

| 1. Identify burn and scald risk factors        | <p>1.1 Demonstrate respect for Aboriginal and/or Torres Strait Islander community values, beliefs and gender roles when assessing burn and scald hazards</p> <p>1.2 Establish high-risk age groups, families or community members</p> <p>1.3 Identify the perceptions that high-risk groups have of risk-taking behaviour</p> <p>1.4 Undertake risk assessment of client's environment to identify potential burn and scald hazards</p> <p>1.5 Complete risk assessment of potential burn and scald hazards within the workplace and community setting</p> <p>1.6 Research national burns epidemiology for Aboriginal and Torres Strait Islander people, to raise</p> |

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

burns awareness

2. Provide prevention information and education

2.1 Communicate basic steps of burns first aid to client or community member

2.2 Demonstrate safer practices for identified burn and scald hazards

2.3 Deliver prevention information and education to clients or community members

2.4 Provide appropriate burns prevention and education literature and resources to clients and community members

2.5 Identify burn or scald prevention infrastructure legislation in housing standards and inform clients and community members

2.6 Identify and make contact with services from which mechanical prevention aids can be obtained and installed (i.e. smoke alarms)

3. Evaluate burns and scalds prevention strategies

3.1 Evaluate prevention strategies according to workplace policy and procedures

3.2 Monitor incidence and severity of burn or scald injuries in the community

3.3 Obtain feedback from clients and community members in relation to prevention and education strategies implemented

3.4 Identify burns prevention programs and other resources available to the community

3.5 Identify and share successful burns prevention strategies with other communities

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are*

*essential to performance.*

*Numeracy*

- in order to undertake risk assessments, including calculating probability and likelihood

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

## Assessment Requirements for HLTAHW040 Promote burns prevention in homes and the community

### Modification History

Not applicable.

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- explained and described burns prevention strategies using clear, simple language
- worked with community to seek input and feedback on burns prevention programs
- observed, obtained and interpreted information from at least three clients in relation to burn injuries, client behaviour and health services
- worked with clients, colleagues, community members and other agencies as required
- performed a risk assessment of potential burn hazards in the community.

All performance evidence must be performed at least once.

### Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- effective strategies to monitor and manage identified burn risks in line with community needs and sensitivities
- methods of evaluating burns prevention programs and providing feedback to health service management and the community in line with organisation and community requirements
- epidemiology of Aboriginal and Torres Strait Islander people
- the range of burn injuries:
  - o thermal burn

- o chemical burn
  - o electrical burn
  - o cold injury
- prevention information and safer practices for identified burn and scald hazards
- basic home fire safety including high-risk groups, behaviour that contributes to fire injury and fatalities, and smoke alarm placement, installation and maintenance
- appropriate burns education and prevention literature
- other burns prevention programs locally, in the region, state, territory and/or federally and resources available to health workers
- legislation around burn or scald prevention infrastructure in housing
- sources providing advice around mechanical prevention aids
- ways to contact and access available health and support services in the region
- Advanced Medical Program Video-Conferencing facilities.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

# HLTAHW041 Assess and manage emergency treatment of burns

## Modification History

## Application

This unit describes the skills and knowledge required to effectively assess the severity of a burn injury and implement appropriate emergency care and management strategies for clients in Aboriginal and Torres Strait Islander communities.

The unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

All work is to be carried out with guidance from and under supervision of a medical practitioner or other appropriate health care professional.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

## Elements and Performance Criteria

| ELEMENT                                                                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                 |

client's burn injury

management services and medical assistance personnel as appropriate

2.3 Undertake a systematic survey of the client's clinical status using standard emergency treatment principles

2.4 Use pain management strategies with the client

2.5 Refer clients with a burn injury to a Burn Unit, as appropriate

2.6 Identify and implement emergency management procedures and select correct wound dressing to treat identified type of wound

2.7 Commence intravenous resuscitation under supervision and/or as directed by a medical officer or other qualified personnel

2.8 Monitor and document fluid balance chart

2.9 Monitor and document the client's ongoing clinical status

3. Treat burn injury according to specific burn type

3.1 Undertake a risk assessment of potential hazards in the incident area

3.2 Identify need(s) for emergency services/medical assistance and undertake triage as required

3.3 Communicate with appropriate personnel, emergency management services and medical assistance as appropriate

3.4 Convey information on client's burn injury to relevant personnel to minimise the risk of complications

3.5 Use Personal Protective Equipment (PPE) when undertaking first aid

3.6 Use irrigation to minimise injury to unaffected body parts and to the health worker

3.7 Identify specific risks and implement management procedures to treat identified burn

3.8 Deliver appropriate first aid to a client, according to type of burns wound, using available resources and

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

within the context of client and environmental factors

3.9 Treat wound(s) in the immediate post-first-aid period

4. Assess psychosocial needs and risks, implementing techniques that support the client and family.

4.1 Establish effective communication with a client and family

4.2 Provide a supportive environment to a client and family in crisis

4.3 Identify presentation patterns of possible non-accidental burn injury in children and mandatory obligations when working with children

4.4 Identify presentation patterns of possible non-accidental burn injury in adults and provide appropriate support strategies

4.5 Undertake risk assessment of a client, identifying risk factors which may indicate a risk to self or the safety of others

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

*Numeracy*

- in order to measure heart rate, temperature and blood pressure in determining clinical status
- in order to calculating probability and likelihood as part of risk assessment

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

# Assessment Requirements for HLTAHW041 Assess and manage emergency treatment of burns

## Modification History

Not applicable.

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- performed emergency burn procedures for at least five different clients with burn injuries. This includes:
  - assessing percentage of Total Burn Surface Area (TBSA) using Lund and Browder
  - estimating burn depth
  - communicating with personnel from emergency management services and/or medical services
  - calculating fluid resuscitation requirements according to modified Parklands formula
  - commencing intravenous resuscitation under supervision and/or as directed by a Medical Officer or other qualified personnel
  - monitoring and documenting:
    - o fluid balance chart
    - o vital signs
  - undertaking a risk assessment of potential hazards in the incident area
  - delivering information to minimise the risks of complications
  - delivering appropriate first aid to the burn type
  - administering appropriate wound care in the immediate post-first-aid period, appropriate to the type of burn
  - performing 'to the floor' irrigation in relation to chemical burn injuries
  - communicating information to minimise the risk of burn wound complications
  - using PPE as required
  - instigating communication with clients and families
  - enabling a supportive environment for clients and families
  - providing support strategies for clients with possible non-accidental burn injuries.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- structure and function of the skin
- principles of healing
- principles of burns shock
- effects of burn injury on the immune system
- pathophysiology of inhalation injury
- estimating the percentage of TBSA using the Lund & Browder method
- determination of burn depth
- knowledge of the Jackson Burn Wound Model
- principles of moist wound healing
- predisposing factors to burn depth progression
- predisposing factors to delayed burn wound healing
- morbidity and mortality rates of burn injuries
- referral guidelines for clients with a burn injury to a Burns Unit
- regional emergency services
- expert medical assistance
- emergency burns injury management procedures:
  - o incident severity assessment
  - o systematic assessment of the person's clinical status
  - o pain management strategies
- specific risks and management of:
  - o chemical injury
  - o electrical injury
  - o circumferential injury
  - o inhalation injury
  - o children with burn injuries
- fluid input and urinary output
- monitoring and documenting the person's clinical status
- specific first aid management for thermal, chemical, and electrical burns, and cold injuries
- potential hazards associated with:
  - o flame, scald and contact burn incidents
  - o liquid and powder chemical burn incidents

- o electrical burn incidents
  - o LPG, ice and other cold injury incidents
- contact persons from emergency and medical services
- information that minimises the risk of complications
- predisposing factors to burn depth progression
- correct emergency management of spinal injury (electrical injuries)
- PPE usage
- risks and management of specific chemical burns, including:
  - o acid burn
  - o alkaline burn
  - o powder chemical burn
  - o alkali-metal burn
  - o bitumen burn
- burn wound care and management, including:
  - o principles of wound care
  - o what environment minimises risk of infection
  - o principles of wound dressing selection
  - o traditional or bush medicines and local products that may help or infect a burn injury
- initial psychosocial management, encompassing:
  - o effective communication with family and client
  - o supportive environment for family and client
  - o mandatory obligations when working with children
  - o supportive strategies in relation to non-accidental injuries when working with adults.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

# HLTAHW042 Implement a burns rehabilitation care plan

## Modification History

Not applicable.

## Application

This unit describes the skills and knowledge required to manage and promote the ongoing physical, physiological and psychological rehabilitation of a client recovering from a burn injury.

The unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing a range of primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

## Elements and Performance Criteria

*Elements define the essential outcomes.*

1. Assess the psychosocial impact of burn injuries on clients

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1.1 Respect Aboriginal or Torres Strait Islander people's community values, beliefs and gender roles when assessing psychosocial impact

1.2 Undertake risk assessment of the client, identifying factors which may indicate risk to themselves or the safety of others

1.3 Identify the social and cultural implications of a burns injury

1.4 Note possible signs of trauma and/or major mental health issues related to the burn injury

1.5 Identify pre-existing factors in the individual, family and/or community that may impede or facilitate recovery and the healing process

1.6 Involve family or significant others in the assessment process

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

2. Implement a care plan in response to psychosocial assessment

2.1 Develop a care plan in consultation with the client and/or significant others, in line with organisation, community and confidentiality requirements

2.2 Address client's rehabilitation needs and findings of routine psychosocial assessment in the care plan

2.3 Document care plan in line with organisation and community requirements

2.4 Communicate care plan to client and/or their carer(s) and negotiate as required to encourage full understanding and agreement

2.5 Take action to minimise risk of harm to self or others during implementation of care plan

2.6 Support client to take a self-care approach to health in line with individual needs and organisational requirements

3. Develop scar management strategies

3.1 Identify factors affecting scar formation

3.2 Apply pressure garments correctly and with care

3.3 Implement methods to minimise hypertrophy, increase scar pliability and protect burned skin

3.4 Implement methods to prevent or minimise contracture

3.5 Employ simple techniques to reduce itching

3.6 Instruct the client about basic massage techniques, as appropriate

3.7 Refer clients to allied health professionals, as appropriate

3.8 Discuss reconstructive options with allied health professionals and clients, if relevant

4. Incorporate nutrition and exercise in care plan

4.1 Explain to the client the importance of nutrition in burn recovery

4.2 Develop an exercise program in consultation with health professionals that encourages movement and ambulation

4.3 Instruct the client in basic exercises under the

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

supervision of a health professional

4.4 Facilitate exercise through splinting/positioning

4.5 Use adaptive equipment where relevant

4.6 Discuss the consequences of not following an exercise program with the client and/or carer(s)

5. Refer clients in line with care plan

5.1 Identify and inform clients of community and health services that provide support to burns patients and/or their families

5.2 Make referrals in line with service policy and procedures

5.3 Follow-up with clients and families once referred

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Unit Mapping Information

No equivalent unit.

## Links

# Assessment Requirements for HLTAHW042 Implement a burns rehabilitation care plan

## Modification History

Not applicable.

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- formulated care plans for at least three clients by:
  - collaborating with other members of a multi-disciplinary team to determine:
    - findings of psychosocial assessment
    - risk of harm to self and others
  - communicating care plans to each client and checking their understanding
  - using a motivational interviewing approach
  - correctly determining the appropriate rehabilitation therapies required in the specific circumstance of burns rehabilitation
- carrying out rehabilitation procedures and education safely and effectively on at least three occasions, including:
  - positioning and splinting
  - oedema management
  - movement and ambulation
  - functional activity
  - adaptive aids
  - nutrition
- supporting each client to take a self-care approach to health with provision of appropriate information and other measures
- referring clients as necessary in accordance with service policy and procedures
- following up with patients and their families once referred
- educating and informing clients about psychosocial issues and possible services to assist recovery.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- reconstructive options in relation to burns rehabilitation
- principles of scar management, working in collaboration with allied health professionals
- aims and consequences of rehabilitation exercise regimes – under the supervision of a health professional
- psychosocial factors affecting burn injury clients:
  - risk to self and others
  - social and cultural implications
  - common individual reactions to a burns injury
  - possible signs of trauma and mental health issues
  - pre-existing factors in family and wider community that may impede or facilitate recovery and the healing process
  - family involvement
  - communication skills
- community and health services which may support burns patients and/or their families with psychosocial needs
- referral process in accordance with service policy and procedures.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of a multi-disciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment, including medical equipment, splints and pressure garments used in aiding wound recovery.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker
- or:
- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## HLTAHW043 Facilitate access to tertiary health services

### Modification History

Not applicable.

### Application

#### Application

This unit describes the required skills and knowledge to develop and maintain links with tertiary referral centres for Aboriginal and/or Torres Strait Islander health. It includes developing and maintaining networks with health services, assisting clients requiring transport and accommodation, providing information, and participating in discharge planning.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and community.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Develop and maintain cooperative working relationships with tertiary health services

- 1.1 Gather information about relevant tertiary health services, organisations and key contacts
- 1.2 Establish networks to meet client needs and organisation objectives as required
- 1.3 Maintain working relationships between and within organisations to provide benefits for clients and the organisation
- 1.4 Provide and share information and resources about own and other organisations as requested

2. Support clients to access

- 2.1 Provide clients with information about

*Elements define the essential outcomes.*

tertiary health services

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

available tertiary health services and support, as appropriate

2.2 Assist clients and their families with transport and accommodation to access tertiary health services as required

2.3 Liaise with government and non-government agencies, departments and organisations as required

2.4 Provide advocacy to support relationships between clients and other organisations and agencies as required

3. Participate in discharge planning

3.1 Identify and communicate with key individuals involved in discharge planning at the tertiary health service

3.2 Discuss discharge planning with clients and their families

3.3 Liaise with the tertiary health service in relation to timing of discharge, transport needs, medication and client follow-up requirements

## Foundation Skills

### FOUNDATION SKILLS

This section describes those language, literacy, numeracy and employment skills that are essential to performance.

*Numeracy*

- in order to gather and interpret relevant health services information, including costs to clients

*Other foundation skills essential to performance are explicit in the performance criteria of this unit.*

## Unit Mapping Information

## Assessment Requirements for HLTAHW043 Facilitate access to tertiary health services

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- worked effectively across the range of health support services, in line with community needs and workplace requirements, to support at least three different clients in accessing tertiary health services by:
  - establishing and maintaining working relationships and networks with relevant tertiary health services for the benefit of clients and own organisation
  - providing accurate and relevant information and guidance to support each client's understanding of and access to tertiary health services by:
    - gathering relevant information about tertiary health services for each client's identified needs
    - providing oral and written information about the available services and processes
    - assisting clients with written documents
    - arranging and/or supporting travel and accommodation of clients accessing tertiary health services
    - interpreting and communicating costs to clients, if relevant
    - supporting discharge arrangements, including liaising between the tertiary health service and the client on each client's behalf.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- relevant tertiary health services available to Aboriginal and/or Torres Strait Islander clients needing access to specialised care, including Aboriginal Community Controlled Health Organisations
- arrangements needed to assist client to access available support services, including transport, accommodation and other needs incidental to accessing tertiary health services
- communication strategies, including cross-cultural communication
- major tertiary referral centres in the relevant metropolitan or regional centre, including:
  - locations
  - functions
  - services
  - specialities
- key individuals in tertiary referral centres and their:
  - contact details
  - roles/ position
- organisation standards, policies and procedures, including discharge procedures.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

an Aboriginal and/or Torres Strait Islander Health Worker

or:

accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- advocated for at least one Aboriginal and/or Torres Strait Islander community, or identified group within that community, by:
  - identifying and clarifying at least one area of concern relating to Aboriginal and/or Torres Strait Islander community health in consultation with the community
  - supporting the community to develop at least one strategy to address the identified issue
  - discussing identified issues within own health service, and facilitating change to address identified issues
  - communicating with relevant agencies and organisations, as identified, to address issues
  - promoting identified community interests in appropriate forums
  - lobbying relevant government and non-government agencies, departments and organisations to facilitate change
  - negotiating with stakeholders relevant to the identified issues.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- relevant policies, protocols and procedures of the organisation
- key aspects of:
  - Royal Commission into Aboriginal Deaths in Custody
  - National Aboriginal Health Strategy
  - relevant current federal, state/territory and local government policies and legislation
  - Charter of Human Rights and Rights of the Child
  - child protection legislation
  - domestic violence legislation
  - anti-discrimination legislation
  - Disability Support Services and Veterans' Affairs guidelines.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- planned and developed at least two programs as part of primary health care services across a range of contexts, including:
  - assessing and addressing community health needs
  - consulting key community representatives and related agencies/organisations
  - analysing funding requirements for programs to prepare proposal/submission
  - identifying appropriate delivery and evaluation strategies
  - accessing, adopting or developing required resources
- evaluated at least one health program as part of primary health care services by:
  - assessing program against criteria that reflects identified community health objectives
  - identifying program strengths and areas for improvement
  - seeking feedback on program effectiveness and providing feedback to community and organisations.

### Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- relevant policies, protocols and procedures of the organisation
- health programs relevant to the area/region/community
- management of common existing and potential health problems for the community
- effective strategies to monitor and manage identified health problems in line with community needs and sensitivities
- occupational health and safety practices and procedures relevant to the work (e.g. manual handling)
- available health and support services in the region.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

an Aboriginal and/or Torres Strait Islander Health Worker

or:

accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit deals with the required skills and knowledge to independently develop, implement and evaluate a care plan for individual clients.

It involves independent decision-making and problem-solving in relation to a wide range of health problems which may impact on Aboriginal and/or Torres Strait Islander clients, as well as the initiation of tests, examinations and treatments.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance Criteria specify the level of performance needed to demonstrate achievement of the Element.*

#### 1. Assess client's health

1.1 Build and maintain relationship of trust with each client, with active promotion of and strict adherence to confidentiality

1.2 Undertake detailed assessment in line with

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance Criteria specify the level of performance needed to demonstrate achievement of the Element.*

protocols for specific health condition/s

1.3 Review client records to determine priorities and potential areas of risk for each client

1.4 Evaluate impact of previous care strategies

1.5 Initiate relevant examinations and tests as required to identify and/or clarify any suspected or identified health issues and/or abnormalities

1.6 Communicate with the client in a culturally appropriate and safe manner in relation to any health issues and/or abnormalities and to inform ongoing health management

2. Interpret common pathology tests

2.1 Explain significance of common haematological, biochemical and microbiological test abnormalities to clients in plain language

2.2 Assess numerical test values against normal reference ranges

2.3 Refer abnormal pathology test results to medical practitioners as appropriate

3. Develop care plan

3.1 Formulate care plan to address identified health issues

3.2 Develop care plan with reference to the relevant health care team and other health care providers

3.3 Develop care plan in collaboration with the client

3.4 Propose treatment in accordance with organisation policies and procedures and as negotiated with the client, their family and/or the community

3.5 Include measures consistent with standing orders/written protocols, based on health assessment findings

3.6 Refer client as required to relevant health professionals in line with community, organisation and regulatory requirements

3.7 Document health care plan in the client's file in

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance Criteria specify the level of performance needed to demonstrate achievement of the Element.*

accordance with organisation policies and procedures

**4. Implement care plan**

4.1 Provide care (treatment) to address identified health issues and manage chronic health problems

4.2 Encourage client to undertake regular health reviews to address identified health issues

4.3 Encourage client to maintain identified care practices to address the health issues

4.4 Monitor client health regularly to assess impact of treatment/s and care services

4.5 Provide client with information relevant to promoting and maintaining their health in a way they understand

4.6 Support client with information about each aspect of the care plan and the rationale for its inclusion

4.7 Initiate action (including referral) as determined by effective decision-making, in line with organisation policies, based on results of clinical assessment and in accordance with accepted procedures and protocols

4.8 Conduct treatment in accordance with the care plan, organisation policies and procedures and occupational health and safety requirements

4.9 Use medical equipment correctly and maintain equipment in accordance with manufacturer's specifications and organisation policies

4.10 Maintain current, complete, accurate and relevant records for each client contact

**5. Review care plan**

5.1 Use regular client health checks as a way of monitoring and reviewing health care plan

5.2 Evaluate ongoing client health against identified criteria and make changes or referral, as determined by client's condition and organisation procedures

5.3 Communicate effectively with the client and significant others to evaluate effectiveness of health care

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

|          |                                                                                                                                    |
|----------|------------------------------------------------------------------------------------------------------------------------------------|
| Numeracy | - in order to interpret common haematological, biochemical and microbiological test abnormalities and other pathology test results |
|----------|------------------------------------------------------------------------------------------------------------------------------------|

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

## Assessment Requirements for HLTAHW046 Apply advanced skills in primary health care

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has, on at least three different occasions:

- undertaken a detailed health assessment of Aboriginal and/or Torres Strait Islander clients, including adults and children
- reviewed all relevant information for clients, including past treatment plans, to support the health assessment
- carried out, and interpreted the outcomes of, relevant tests and examinations to identify and clarify specific health issues
- developed care plans for clients, including treatment, in consultation with relevant health care team and health care professionals
- communicated all aspects of the health care plan to clients and/or family in a culturally appropriate and safe manner, encouraging understanding and questions
- implemented the health care plan by:
  - initiating treatment, including administering specific treatment procedures
  - referring clients to appropriate health services
  - using medical equipment necessary to determined treatment actions
  - monitoring the client's progress and adjusting treatment as required to support health
  - supporting the client to engage in their health care plan by providing information to the client about their specific health issues
  - using client appointments to review the progress of the client under the treatment plan
- documented all stages of the assessment, planning and implementation of health care

- communicated at all times with the client in culturally appropriate and safe ways to support their health treatment, during the assessment, and planning and implementation of treatment
- exercised decision-making and problem-solving skills in their treatment of clients
- consulted and referred to other health professionals as required to support client care.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- key aspects of anatomy/physiology, pharmacology, and microbiology, associated with a range of health conditions including chronic conditions health
- common treatments and associated care services and treatments relevant to client's overall health
- availability, effectiveness and risks associated with identified treatments and associated care services
- other conditions that may occur and require concurrent management
- commonly requested pathology tests, their indications, normal ranges and implications for client care management, including:
  - full blood examination and ESR
  - random and fasting blood sugars
  - glycated haemoglobin
  - electrolytes and creatinine
  - liver function tests
  - lipid tests
  - thyroid function tests
  - iron studies
  - cardiac enzymes
  - urinary albumin-creatinine ratio
  - tests for sexually transmissible infections
  - microscopy, culture and sensitivities
- administration of specific procedures, including:
  - nasogastric tube (NGT) insertion and the management of fluids and medications
  - intraosseous (bone marrow) insertion and cannulation
  - complex wound and burns management
  - assessment and examination of lungs and respiratory system
  - insertion of an indwelling catheter (IDC)
  - application of POP
  - intravenous therapy administration and management, and fluid balance assessment and management

- intravenous cannula insertion in adult and paediatrics
- organisational standards, policies and procedures.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

## HLTAHW047 Support and promote social and emotional wellbeing of staff and clients

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the required skills and knowledge to provide social and emotional support to clients and staff, and to promote the importance of maintaining social and emotional wellbeing in the workplace.

It covers social and emotional support required by those involved in face-to-face delivery of primary health care services.

The unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

This unit equips Aboriginal and/or Torres Strait Islander Health Workers to provide support related to social and emotional wellbeing and does not infer that they are qualified counsellors.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Assess social and emotional needs

- 1.1 Seek relevant information to determine client's current mental/emotional state and history
- 1.2 Observe behaviour and body language and note unusual behaviour
- 1.3 Communicate effectively with the client using culturally appropriate and safe language and interactions, to identify underlying social and emotional needs and issues
- 1.4 Make a risk assessment in relation to potential for suicide, self-harm and/or violence
- 1.5 Develop a social and emotional health care plan that addresses client's needs, in consultation with the client and relevant health care team
- 1.6 Maintain confidentiality in line with organisation requirements
- 1.7 Identify issues requiring mandatory notification and report to an appropriate authority

2. Support a client's social and emotional wellbeing

- 2.1 Implement and review client's social and emotional health care plan in line with their needs and organisation procedures
- 2.2 Provide relevant information to support the client to make informed decisions about addressing social and emotional wellbeing issues
- 2.3 Support individual clients to implement, maintain and review self-care strategies
- 2.4 Monitor and review application of stress reduction techniques and activities by clients, as required to maintain and/or enhance effectiveness
- 2.5 Provide referral as required, to maintain and/or enhance social and emotional wellbeing in line with individual, community and organisation requirements

3. Provide social/emotional support in the workplace

- 3.1 Encourage and support staff to address the personal impact of dealing with client social and emotional wellbeing issues
- 3.2 Make debriefing sessions readily available and

## ELEMENT

*Elements define the essential outcomes.*

## PERFORMANCE CRITERIA

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

conduct with staff in groups and/or one-on-one

3.3 Support staff to access professional assistance as appropriate, including referrals

3.4 Provide education and awareness programs as required to support staff and enhance their self-awareness and support personal development

3.5 Support staff to acknowledge the impact of the shared history of transgenerational trauma

3.6 Manage serious or potentially serious issues referred by other staff with sensitivity and professionalism

## Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance.

*Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.*

## Unit Mapping Information

No equivalent unit.

# Assessment Requirements for HLTAHW047 Support and promote social and emotional wellbeing of staff and clients

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- provided support and promoted social and emotional wellbeing for at least three clients by:
  - communicating in a culturally appropriate and safe manner at all times with each client to gain confidence, trust and client history
  - assessing social and emotional wellbeing issues, including making a risk assessment of each client
  - providing immediate and ongoing support and monitoring as required to address issues
  - referring clients appropriately as part of treatment
  - working with each client to identify and implement self-care strategies for social and emotional wellbeing
  - providing information to each client about social and emotional wellbeing
  - maintaining client confidentiality
- supported at least two staff members who provide social and emotional wellbeing to clients by:
  - communicating in a culturally appropriate and safe manner to conduct debriefing and supervision of staff
  - assisting staff with decision-making and problems with client's treatment and progress
  - encouraging staff to access services for their own social and emotional wellbeing

- interacting appropriately with staff within professional boundaries and according to organisation procedures and policies

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- effective techniques for providing social and emotional support, including self-help and stress management strategies
- effective communication skills to:
  - build rapport
  - question and probe to identify underlying social/emotional health issues
  - clarify issues
  - provide feedback
  - listen empathetically
  - provide support
- special needs of Aboriginal and/or Torres Strait Islander Health Workers and their clients, such as:
  - issues relating to dispossession, stolen generations and cultural loss
  - social issues relating to overcrowded housing, community pressures on Aboriginal and/or Torres Strait Islander Health Workers
- available and effective referral services for counselling and associated social/emotional support
- organisation policy and procedures to provide social/emotional support to staff (in-house and through referral)
- key aspects of human psychology and mental health care
- culture and spirituality issues
- legislative and confidentiality requirements.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

an Aboriginal and/or Torres Strait Islander Health Worker

or:

accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

# Assessment Requirements for HLTAHW048 Apply a strategic approach to Aboriginal and/or Torres Strait Islander health

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- supported, promoted and implemented at least one strategy to improve the health of Aboriginal and/or Torres Strait Islander people by:
  - assessing how social determinants impact health and how their impact may be reduced
  - building and maintaining relationships with community groups, agencies and organisations involved in developing and implementing strategic initiatives impacting on the health of Aboriginal and/or Torres Strait Islander clients and communities
  - communicating effectively with stakeholders and clients, including:
    - investigating and explaining strategic initiatives (including negative aspects) to individuals and groups
    - facilitating discussions
  - contributing to the evaluation of strategic initiatives undertaken

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- social, cultural and environmental determinants of Aboriginal and/or Torres Strait Islander health, including:
  - traditional cultural practices and lifestyle and their impact on Aboriginal and/or Torres Strait Islander health
  - importance of land, tradition and cultural practice
  - impact of socio-economic factors on health
  - social and political factors that perpetuate disadvantage
  - importance of personal achievement, education and supportive family /social networks
  - impact of environmental factors on health
  - barriers to improving environmental determinants of ill-health
- ways to address access and equity issues, such as:
  - strategies families may employ to maintain strong culture and supportive social networks as well as maximising educational, employment and social opportunities for their children
  - political context of the health care system and availability and access to Medicare benefits
- aspects of Aboriginal and/or Torres Strait Islander health, including:
  - Aboriginal and/or Torres Strait Islander community perceptions of major health issues affecting them, and underlying causes
  - perceptions of non-Aboriginal and/or Torres Strait Islander people relating to major Aboriginal and/or Torres Strait Islander health issues and underlying causes
- key health statistics (national, state and/or local), such as:
  - life expectancy at birth
  - infant mortality rate
  - age-standardised mortality ratios for selected health conditions
  - incidence of selected health conditions such as diabetes, rheumatic fever and dental caries
- lifestyle and behavioural determinants and strategies to address them, including:
  - food supply in communities, to support nutrition and holistic health
  - nutrition, physical activity, rest and sleep in relation to holistic health
  - known behaviours that pose significant health risk
  - lifestyle practices and effects on health
  - education and promotion of healthy lifestyle practices
  - principles of wellbeing applied to work and study practices
- primary health care model.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team

- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

an Aboriginal and/or Torres Strait Islander Health Worker

or:

accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## HLTAHW049 Work effectively in social and emotional wellbeing

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the required skills and knowledge as an introduction for an Aboriginal or Torres Strait Islander Health Worker to provide social and emotional wellbeing support.

It addresses the rights and responsibilities of the position, the system in which this work is undertaken, and the professional boundaries and cultural issues relating to this type of work.

The unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

This unit equips Aboriginal and/or Torres Strait Islander Health Workers to provide support related to social and emotional wellbeing and does not infer that they are qualified counsellors.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Work within the context of

1.1 Acknowledge differences between roles of social

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

social and emotional wellbeing

and emotional wellbeing workers and Aboriginal Primary Health Care workers as appropriate

1.2 Identify difficulties that the worker may encounter in carrying out their role in the community and take into consideration in the work

1.3 Take into account the changing role of females and males within Aboriginal and Torres Strait Islander communities, in service delivery

1.4 Work within the role and limitations of the worker's job definition and community expectations of their role

2. Work within the legal and ethical boundaries of the social and emotional wellbeing worker

2.1 Complete documentation in accordance with legal and ethical requirements

2.2 Maintain confidentiality in accordance with organisational policies and protocols

2.3 Include traditional healers in the health team as appropriate

2.4 Liaise with other organisations as appropriate

2.5 Consider the rights of the individual in all work undertaken within the social and emotional wellbeing area

2.6 Carry out duties within the Mental Health Act (or equivalent) as required for social and emotional wellbeing work

3. Maintain accountability and responsibilities

3.1 Access and work in accordance with organisation policies and procedures in regard to workers

3.2 Undertake all work within the organisation's reporting and accountability frameworks

3.3 Follow organisation occupational health and safety guidelines

3.4 Access information to clarify the employer's responsibilities to the worker

3.5 Observe organisation requirements for

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

participation in processes as appropriate (e.g. in regard to performance appraisal systems)

4. Observe professional boundaries when working

4.1 Define, understand and communicate professional boundaries to clients in a culturally appropriate manner

4.2 Maintain confidentiality when working with clients and other agencies

4.3 Observe organisational boundaries when working with clients and other agencies

4.4 Clarify organisation expectations with particular regard to the professional and personal boundaries in social and emotional wellbeing work in relation to counselling other staff, or advising management on staff counselling

5. Demonstrate commitment to the philosophy of social and emotional wellbeing

5.1 Demonstrate in all work undertaken, understanding and consideration of the underpinning values and philosophy of social and emotional wellbeing in the context of Aboriginal and/or Torres Strait Islander health work

5.2 Maintain in all work undertaken, a demonstrated commitment to the empowerment of Aboriginal and/or Torres Strait Islander people and access and equity principles

5.3 Give clients, family and community opportunities to participate in service planning and support activities

5.4 Plan and implement social and emotional wellbeing work taking into account personal values, history, experiences and family/kinship

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are*

*essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Assessment Requirements for HLTAHW049 Work effectively in social and emotional wellbeing

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- undertaken social and emotional wellbeing work with clients within the legal and ethical boundaries of the social and emotional wellbeing worker, and with a commitment to the philosophy of social and emotional wellbeing
- maintained the professional boundaries of the work role and addressed accountability and responsibilities appropriately
- addressed the needs of clients from culturally and linguistically diverse backgrounds
- balanced expectations of the organisation, the community and clients in undertaking social and emotional wellbeing work
- used high-level effective communication skills
- completed relevant documentation.

All performance evidence must be demonstrated at least once.

### Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- traditional healing
- cultural law and its consequences
- rights as employees – industrial awards, duty of care, occupational health and safety, workers' compensation
- support systems available for employees – e.g. counselling, unions, professional associations
- the role, rights and responsibilities relating to social and emotional wellbeing work:
  - legal responsibilities to clients, organisation and self
  - reporting responsibilities
  - accountability to organisation and community
  - confidentiality requirements for social and emotional wellbeing work
  - ethical responsibilities
  - professional boundaries
- justice system and its processes
- Mental Health Act and relevant regulations
- conflict resolution and mediation
- stress-management techniques
- changing roles of Aboriginal men and women in communities
- broad knowledge of:
  - government structures
  - political structures
  - adult guardianship
  - rights of clients.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

# HLTAHW050 Develop a healing framework for social and emotional wellbeing work

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Application

This unit describes the required skills and knowledge for Aboriginal and/or Torres Strait Islander health workers to facilitate a healing journey and to better understand and empathise with clients.

Aboriginal and/or Torres Strait Islander Health Workers who undertake a healing journey themselves have an increased awareness of their own issues and limitations. This self knowledge enables them to work more effectively with others in the healing process.

This unit equips Aboriginal and/or Torres Strait Islander Health Workers to provide support related to social and emotional wellbeing and does not infer that they are qualified counsellors.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Observe local cultural

1.1 Acknowledge traditional ownership of the land

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

traditions and practice

and seek permission to allow the healing process to take place on the land

1.2 Recognise the presence of traditional land owners in the healing process, including their role in the spiritual aspects of the healing process

1.3 Clarify local kinship structures, roles and obligations through discussion with Elders

1.4 Acknowledge the importance of the support processes of extended families in preparation for healing and in undergoing a healing process

2. Conduct and support a facilitated group healing process

2.1 Discuss cultural grieving processes

2.2 Develop and agree to rules for participation in a healing group as part of a group, ensuring safety, confidentiality and cultural security during and after the process

2.3 Use verbal and non-verbal communication skills to support the healing process

2.4 Support self-expression and healing through art, dancing, storytelling, singing and/or painting

2.5 Disclose self-selected past emotional influences with the group involved in the healing process and relate to the present situation and potential future

2.6 Use appropriate techniques to examine transgenerational trauma with the group

3. Reflect on healing process

3.1 Document outcomes according to organisation procedures

3.2 Discuss with appropriate staff, colleagues, peers or mentors own reaction to the process

3.3 Engage in ongoing reflective practice

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

# Assessment Requirements for HLTAHW050 Develop a healing framework for social and emotional wellbeing work

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- participated in facilitated healing processes and developed healing frameworks for at least three client and/or groups of Aboriginal and/or Torres Strait Islander people by:
  - using appropriate verbal and non-verbal communication to understand and support at least three groups within the context of a healing process
  - applying self-reflection practices and disclosure to facilitate healing processes
  - acknowledging and clarifying the contribution of traditional roles, structures and processes to the healing process
  - using appropriate techniques to support the healing process through self-expression
  - completing a healing journal to document the healing process.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- storytelling therapies
- male and female perspectives

- transgenerational trauma
- story maps
- alternative therapies – art, music
- professional boundaries
- referral processes
- joint counselling techniques
- local language, culture and practices
- self-healing journey processes
- 

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- responded to loss, grief and trauma for at least three clients by:
  - developing culturally appropriate responses to situations of loss, grief and trauma
  - communicating effectively with clients. This includes:
    - building rapport
    - clarifying impact of loss
    - explaining support options
    - referring clients to specialist services
  - dealing with cross-cultural issues
  - recognising effects of stress on individuals and communities and implementing culturally appropriate strategies to manage stress
  - monitoring own stress and using appropriate stress-management strategies, including consulting team members and professionals for own social and emotional support.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- concepts of loss and grief
- nature and effects of psychological and spiritual trauma
- effects of trans-generational trauma and grief, colonisation and institutional racism on Aboriginal people
- cultural protocols and taboos
- specialist services for loss, grief and trauma
- statutory responsibilities including duty of care requirements
- narrative therapy approaches
- indicators of stress
- awareness of own values and attitudes around loss, grief and trauma
- organisational standards, policies and practices.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

an Aboriginal and/or Torres Strait Islander Health Worker

or:

accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the required skills and knowledge for an Aboriginal or Torres Strait Islander worker to perform effectively in delivery of primary health care services to clients in the confinement of a prison or corrective services environment.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Prepare to work with clients in confinement

1.1 Clarify prison policies and procedures to identify potential for providing primary health care services to inmates

1.2 Clarify overlapping and complementary roles of

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

workers in the prison environment

1.3 Identify boundaries and constraints relating to own work role in the prison environment

1.4 Seek to identify level of awareness of own role among staff and inmates in the prison environment

1.5 Clarify potential for own role to enhance client care in the prison environment

1.6 Professionally assert scope of practice appropriate to own role and skills with prison staff

2. Advocate for clients effectively from within prison

2.1 Clarify inmate needs for health care and support as appropriate to own role

2.2 Recognise potential impacts and challenges of providing client advocacy from inside the prison

2.3 Employ strategies to effectively manage conflict or resentment arising from client advocacy activities

2.4 Clarify rights and responsibilities of inmates and assert as required

2.5 Support inmates in relation to parole and release issues as required

2.6 Contribute to post-release support as appropriate

3. Support inmates to make informed health choices

3.1 Use accurate information about the inmate's health and potential care as a basis for informing clients about available options

3.2 Explain potential consequences of available options to clients

3.3 Support clients through the continuum of care in line with own work role

4. Contribute to enhancing awareness of cultural safety issues

4.1 Raise cultural safety issues in the prison environment with staff in relation to health issues for Aboriginal and/or Torres Strait Islander clients

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

4.2 Build own tolerance and mutual respect of colleagues by seeking to understand reasons for any insensitivity or culturally unsafe practices

4.3 Reinforce colleagues' application of cultural safety practices in the workplace through public and/or personal recognition

4.4 Provide leadership in the implementation of culturally safe principles and practice

5. Promote change to enhance cultural safety in the prison environment

5.1 Participate in the development and/or refinement of prison policies on cultural safety

5.2 Identify change agents who may facilitate and/or champion needed change

5.3 Identify potential blockages to change

5.4 Mobilise available support to enhance cultural safety in the prison environment

5.5 Enlist community support to enhance cultural safety in the prison environment

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

Learning

in order to acknowledge that confusion and mistakes form part of the learning process

in order to develop and trial own approach to different tasks when manuals and guides are unavailable

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

## Unit Mapping Information

No equivalent unit.

# Assessment Requirements for HLTAHW052 Deliver primary health care to Aboriginal and/or Torres Strait Islander clients in confinement

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- worked effectively with at least three clients in a prison or corrective services environment by:
  - using appropriate strategies for protection of self and others in a culturally unsafe work environment
  - using self-protective behavioural strategies to maintain resilience in the prison environment
  - providing information and advice to assist at least three inmates to maintain a level of physical, mental and spiritual health in the prison environment
  - supporting at least three inmates with parole and release issues
  - communicating effectively with clients and stakeholders. This includes:
    - clarifying inmate needs
    - advocating for cultural safety of clients in the prison environment
    - discussing and reinforcing cultural safety practices with colleagues
    - dealing with conflict.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- cultural safety principles, practices and issues
- scope of own professional role and roles of associated health professionals
- components of culturally safe health care
- overview of Australian justice and prison systems
- techniques to empower clients to make choices relating to health care in the prison system
- assertive communication techniques

## Assessment Conditions

Skills must be demonstrated working:

- as part of a health service or centre, providing services to prisons and/or a corrective services facility
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## Application

This unit describes the skills and knowledge required to conduct health care programs to address impacts of food production, manufacturing and distribution on health in Aboriginal and/or Torres Strait Islander communities

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Examine food security issues in Aboriginal and/or Torres Strait Islander community

- 1.1 Research food security issues in the local context
- 1.2 Describe the characteristics of food security and coping strategies employed in the local context

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1.3 Examine the underlying determinants of food availability, food access and food utilisation in the local context

1.4 Investigate the factors that influence stability of food availability, food access and food utilisation in the local context

1.5 Demonstrate an understanding of the link between food security, wellbeing and livelihoods

2. Analyse food availability, food access and food use issues for the community

2.1 Establish enablers and barriers to food security in the local context

2.2 Identify individuals, groups and communities that are vulnerable to food insecurity

2.3 Analyse the local food supply and evaluate it against relevant evidence-based guidelines

2.4 Identify and prioritise the different factors and domains that affect food security in the local context

2.5 Determine how the organisation can contribute to improving food security

2.6 Review and evaluate community policies and programs relevant to food security

3. Formulate strategies to protect food security and address food insecurity in vulnerable groups

3.1 Identify key stakeholders across disciplines to contribute to improving food security in the local context

3.2 Engage the community and key stakeholders in the development, implementation and evaluation of strategies to improve food security

3.3 Determine key roles and responsibilities of all stakeholders to improve food security

3.4 Consider collaborative, multilevel approaches to addressing food security

3.5 Identify how organisation can contribute to improving food security

3.6 Develop a plan to address food security in the

**ELEMENT**

*Elements define the essential outcomes.*

**PERFORMANCE CRITERIA**

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

local context for the organisation

3.7 Monitor and evaluate food security activities in the workplace and local context

3.8 Advocate for improved food security in local context, especially for vulnerable groups

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- investigated and analysed the relationship between community health issues and food security in the local context for at least one Aboriginal and/or Torres Strait Islander community by:
  - accessing relevant resources to determine nutritional needs of specific client groups
  - identifying groups at risk of food insecurity
  - monitoring and analysing the food systems and assessing available food sources (including traditional and non-traditional food sources) against the Australian Dietary Guidelines
  - developing appropriate strategies to promote and improve food security at household and community level
  - evaluating interventions based on evidence and good practice
  - researching and accessing data to assess and understand food security issues in the local context
  - working with the community utilising a community engagement approach to promote and improve food security at community and household level
  - consulting with a range of stakeholders from different disciplines
  - advocating for increased resources and attention to food in the local community, in particular vulnerable households or groups

- investigating and analysing the relationship between community health issues and available food supply
- working with a community to propose and develop strategies and action plans to improve community health by addressing food supply practices, policies and associated issues
- communicating effectively with individuals and groups, including:
  - clarifying and discussing issues relating to food supply, systems and security
  - presenting and discussing evidence-based actions and strategies to improve food security and nutrition.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- the concept of ‘food security’ and ‘food insecurity’ and its relevance to Aboriginal and Torres Strait Islander people and the context in which people are living
- underlying determinants and consequences of food insecurity
- core food groups and their nutrients
- food needed at different stages in the lifecycle for wellbeing
- different factors (i.e. social, cultural, economic and environmental) that impact on food availability, food access and food use at the global, national, community and household level
- food insecurity-related community health issues
- preventative health and community engagement principles
- continuous quality improvement
- evidence-based practice and sustainable approaches to improving food security in the local context
- Australian Dietary Guidelines and World Health Organisation recommendations impacting on the needs of everyday basic necessities for life and living for Aboriginal and Torres Strait Islander people.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

an Aboriginal and/or Torres Strait Islander Health Worker

or:

accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

### Application

This unit describes the skills and knowledge required to help support clients considering renal replacement therapy and to provide routine care for clients undertaking dialysis in the community setting.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

*Elements define the essential outcomes.*

1. Assist clients to make informed choices on renal replacement therapy

#### PERFORMANCE CRITERIA

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1.1 Provide information on renal failure and renal replacement therapy options to clients with chronic renal failure and their families, in consultation with the health

| ELEMENT                                                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                             | <p>care team</p> <p>1.2 Identify and provide to clients appropriate health education resources on renal disease dialysis and transplantation</p> <p>1.3 Provide information and practical assistance to renal clients who need to travel to distant referral centres for assessment, treatment or training</p> <p>1.4 Support current and potential future dialysis ‘helpers’ with information and practical assistance in their role</p> <p>1.5 Ensure client access to specialist nephrology care</p> |
| 2. Measure hydration status of renal dialysis clients       | <p>2.1 Obtain history of shortness of breath or postural dizziness</p> <p>2.2 Measure ‘wet’ or ‘dry’ weight and compare with ideal body weight</p> <p>2.3 Elicit physical signs of fluid overload</p> <p>2.4 Interpret client weight, blood pressure and other clinical signs to determine hydration status</p> <p>2.5 Revise ideal body weight estimates in consultation with senior staff</p> <p>2.6 Document assessments in accordance with organisational policies and procedures</p>               |
| 3. Undertake routine pathology testing for dialysis clients | <p>3.1 Provide information on routine dialysis tests to clients in plain language</p> <p>3.2 Collect blood specimens and complete pathology request forms according to standard protocols</p> <p>3.3 Interpret routine test results and give basic client feedback</p> <p>3.4 Refer abnormal test results to medical staff for action</p>                                                                                                                                                               |
| 4. Support renal clients to access and use medicines wisely | <p>4.1 Provide clients with plain language information on mechanisms of action, dosing and common</p>                                                                                                                                                                                                                                                                                                                                                                                                   |

**ELEMENT****PERFORMANCE CRITERIA**

side-effects of medicines commonly used in dialysis care

4.2 Identify potential drug interactions, special precautions, contraindications and side-effects and refer to a medical practitioner

4.3 Administer medicine by oral and intramuscular routes in accordance with medicine orders, organisation policies and procedures and legal frameworks

4.4 Support and monitor client adherence to medicines regimen

4.5 Provide assistance with supply of medicines and use of dose administration aids according to client needs

4.6 Keep records of chronic medicines supply and administration in accordance with organisation policies and procedures

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

Numeracy

in order to interpret test results, including normal and abnormal readings and measurements

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

## Assessment Requirements for HLTAHW054 Support renal dialysis clients in the community setting

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                                                             |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite unit removed</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- provided information, guidance and support to at least three clients and their families in relation to health management options and issues for clients with chronic renal failure by:
  - recognising situations requiring immediate or urgent action
  - working with other members of multidisciplinary team to ensure actions determined in the client's care plan are carried out and documented
  - carrying out mathematical calculations for renal dialysis clients. This includes:
    - identifying differences between weight measures
    - calculating doses
    - measuring medication
  - communicating effectively with clients, care team and referral agencies. This includes:
    - interpreting test results
    - explaining test results to clients
    - documenting information on client care plans
  - making timely and appropriate referrals, and providing accurate and relevant details to clients and referral agencies
  - holistically evaluating impact of renal dialysis treatment on client's physical, mental and emotional condition and behaviour

- monitoring outcomes of renal dialysis treatment and medication regimes
- administering medicines by oral and intramuscular routes
- contributing to evaluation of client's prescribed treatment/care plan.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- basic anatomy and physiology of the renal system
- common causes of chronic renal failure
- underlying environmental and social factors contributing to high rates of renal disease in Aboriginal and/or Torres Strait Islander communities
- management principles for common co-morbidities (including diabetes, high blood pressure, hyperlipidaemia)
- factors that can slow decline of renal function
- key aspects of microbiology relevant to peritoneal, blood and skin infection in renal disease
- pathophysiology of chronic renal failure, including:
  - fluid retention and pulmonary oedema
  - electrolyte balance and hazards of high potassium
  - calcium metabolism and renal bone disease
  - anaemia
- signs and symptoms of uraemia and fluid retention
- meaning and interpretation of common pathology tests for chronic renal failure and dialysis
- haemodialysis technology – theory, machine components, terminology, infrastructure requirements, risks and benefits
- peritoneal dialysis – theory, terminology, procedures, risks and benefits
- different types of renal dialysis units and their function
- nutritional considerations for renal dialysis clients
- medicines in common use in management of chronic renal failure including basic mechanisms of action, precautions and side-effects
- organisation policies and procedures.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker
- or:
- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

### Application

This unit describes the skills and knowledge required to provide health care to clients that is specific to continuous ambulatory peritoneal dialysis or home haemodialysis being undertaken in the community setting.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Assess peritoneal catheter exit site and client dressing technique

- 1.1 Identify signs of exit site infection
- 1.2 Elicit signs of catheter tunnel infection
- 1.3 Obtain exit site swab and send for microbiological analysis

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

# Assessment Requirements for HLTAHW055 Provide care to clients undertaking renal dialysis in the community setting

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                                                              |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite units removed</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- provided care to at least three clients undertaking renal analysis in a community setting by:
  - assessing peritoneal catheter exit site. This includes:
    - identifying signs of exit site infection
    - identifying signs of catheter tunnel infection
    - swabbing exit site and sending specimen for testing
  - instructing client on appropriate dressing technique
  - documenting findings of assessment
  - assessing patency of arteriovenous fistula. This includes:
    - identifying signs suggesting fistula stenosis or infection
    - palpating fistula for thrill and auscultating for bruit
    - obtaining history of pain and haemodialysis needling problems
  - identifying common and serious dialysis problems
  - referring client to senior health staff
  - ordering and recording stock of dialysis consumables and storing correctly.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- basic anatomy and physiology of the renal system
- common causes of chronic renal failure (diabetes, glomerulonephritis, hypertension, urinary tract obstruction, inherited abnormalities)
- underlying environmental and social factors contributing to high rates of renal disease in Aboriginal and/or Torres Strait Islander communities
- management principles for common co-morbidities (including diabetes, high blood pressure, hyperlipidaemia)
- factors that can slow decline of renal function (e.g. control of high blood pressure, use of angiotensin-converting-enzyme (ACE) inhibitors, avoidance of non steroidal anti-inflammatory drugs (NSAIDS)
- microbiology relevant to peritoneal, blood and skin infection in renal disease
- pathophysiology of chronic renal failure, including:
  - fluid retention and pulmonary oedema
  - electrolyte balance and hazards of high potassium
  - calcium metabolism and renal bone disease
  - anaemia
- signs and symptoms of uraemia and fluid retention
- meaning and interpretation of common pathology tests for chronic renal failure and dialysis
- haemodialysis technology
- peritoneal dialysis – theory, terminology, procedures, risks and benefits
- different types of renal dialysis units and their function
- medicines in common use in management of chronic renal failure including basic mechanisms of action, precautions and side-effects
- organisation policies and procedures.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

an Aboriginal and/or Torres Strait Islander Health Worker

or:

accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## HLTAHW056 Provide sexual and reproductive health care

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                                                              |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite units removed</p> |

### Application

This unit describes the required skills and knowledge to provide clients with health care services in addition to general health care and specific to sexual and reproductive health.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and community.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Check sexual and reproductive health

1.1 Undertake tests, observations and other screening procedures in line with protocols and client requirements

1.2 Review client records to determine priorities and potential areas of risk for each client

1.3 Question client appropriately to identify and/or clarify any sexual and/or reproductive health issues

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

and/or significant variations from normal parameters

1.4 Use medical equipment effectively and maintain in accordance with organisation policies

1.5 Consult relevant allied professionals and available documentation in relation to the sexual and/or reproductive health of the client

1.6 Obtain informed consent for all examinations and tests and undertake appropriate pre-test discussion before testing for HIV or other blood-borne viruses

2. Provide care to clients with sexual health problems

2.1 Respect Aboriginal and/or Torres Strait Islander community values, beliefs and gender taboos in assessing and managing sexual health problems

2.2 Engage clients in holistic sexually transmissible infection (STI) risk assessment and take an appropriate sexual health history for each client presenting or identified with a sexual health problem

2.3 Assess common sexual health problems according to clinical presentation and treat/refer/support in line with standard protocols and organisation guidelines

2.4 Obtain history of sexual contacts where an STI is identified, negotiate contact tracing and follow-up contacts for testing and treatment in line with standard protocols

2.5 Develop holistic health care plan for each client with sexual health problems

2.6 Support and counsel clients with STIs to assist in treatment and prevention of infection

2.7 Ensure records of STI management and contact tracing are kept confidential and secure

2.8 Maintain current, complete, accurate and relevant records for each client interaction

3. Provide information on sexual

3.1 Promote safe sex practices or other STI risk-reduction strategies and distribute condoms as

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

and reproductive health care

appropriate

3.2 Discuss common methods of birth control with clients, explaining each method, its advantages and disadvantages

3.3 Discuss transmission of STIs and complications with the client as appropriate

3.4 Discuss symptoms of pregnancy with clients and identify as appropriate

3.5 Provide information on healthy lifestyle and risks during pregnancy

3.6 Provide clients with information which is age and culturally appropriate and aligned with their specific needs

3.7 Employ a range of interpersonal techniques to ensure own values are not imposed on clients and information is provided in a non-judgmental way

3.8 Provide referral where own personal and professional abilities do not match client needs

4. Evaluate effectiveness of sexual and reproductive health care

4.1 Monitor sexual and reproductive health in line with schedule and criteria incorporated in care plan for each client

4.2 Evaluate intervention/ongoing sexual and/or reproductive health care against standing order/written care protocols and client level of comfort and compliance with health care practices

4.3 Ascertain degree of improvement of client's holistic health and compare with expectations under the health care plan

4.4 Undertake clinical re-assessment and/or review of treatment/medication regime as required where client fails to progress in accordance with expectation

4.5 Provide client with clear information about their level of improvement in relation to the health care plan and their level of compliance

4.6 Encourage clients to maintain sexual and

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- provided information, guidance and support to at least three clients with sexual and/or reproductive health issues by:
  - monitoring the outcomes of sexual and reproductive health care services
  - conducting an accurate sexual and/or reproductive health assessment, including requesting pathology tests
  - recognising situations requiring immediate or urgent action
  - providing treatment, medicine and advice/information appropriate to sexual and/or reproductive health in a safe and effective manner and within guidelines
  - maintaining client records and care plans
  - communicating effectively with client. This includes:
    - obtaining information about sexual and reproductive health
    - counselling clients
    - ensuring clients understand treatment options
  - holistically evaluating impact of treatment on client's physical, mental and emotional condition and behaviour
  - making timely and appropriate referrals, providing accurate and relevant details to clients and referral agencies
  - reflecting on own and others' values in relation to sexual behaviour and health.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- key aspects of anatomy/physiology, pharmacology, pathology and basic microbiology relevant to sexual and/or reproductive development stages and health
- knowledge of key aspects of microbiology relevant to sexual and/or reproductive health and prevention of infection or cross infection
- health conditions and associated issues related to sexual and/or reproductive health
- nature, history, pathology and transmission of sexually transmissible infections and relevant interventions
- understanding of oppression and discrimination in relation to sexuality
- assessment methods, equipment and testing procedures associated with sexual and reproductive health and STIs
- methods of birth control and their advantages and disadvantages
- organisation policies and procedures

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker
- or:
- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

### Application

This unit describes the skills and knowledge required to provide Aboriginal and/or Torres Strait Islander women with specialist antenatal health care services.

The unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Plan and deliver health care during pregnancy

1.1 Take and document general, social and obstetric health history

1.2 Identify signs and symptoms of pregnancy and calculate expected date of delivery

1.3 Develop an antenatal care plan based on standard protocols and consultations with relevant health

**ELEMENT**

*Elements define the essential outcomes.*

**PERFORMANCE CRITERIA**

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

professionals

1.4 Provide information to women on healthy living and maternal health risks

1.5 Perform antenatal clinical assessments in line with standard protocols and client requirements in accordance with job role and legislative frameworks

1.6 Provide information on safe birthing options, signs of labour, stages of labour, pain management techniques and family attendance at delivery

1.7 Identify common conditions and potentially serious complications of pregnancy, provide advice, care and appropriate referrals

1.8 Support women to attend appointments as per their antenatal care plan

1.9 Practice within a multidisciplinary team to provide culturally appropriate support, services and care

2. Monitor and evaluate antenatal health care

2.1 Monitor continuing antenatal care according to organisation procedures

2.2 Regularly update information on obstetric history and antenatal care assessment at the planned birthing facility according to organisation procedures

2.3 Review progress and outcomes in consultation with pregnant woman

2.4 Maintain registers of women undergoing antenatal care according to organisation policies and procedures

2.5 Keep schedules of participation in antenatal care and use to organise continuing care according to woman's needs

2.6 Organise and/or provide reminders, transport and other assistance to attend care according to women's needs

2.7 Provide supervision of other staff participating in provision of antenatal care

2.8 Maintain referral and communication networks with medical staff, specialist obstetricians, midwives,

# Assessment Requirements for HLTAHW057 Provide antenatal health care

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                                                              |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite units removed</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- provided antenatal care for at least five clients by:
  - undertaking comprehensive health checks specific to antenatal care for each client
  - documenting a general, social and obstetric health history
  - recognising and acting upon situations requiring immediate or urgent action
  - providing treatment, medicine and other health care services appropriate to antenatal health in a safe and effective manner and within guidelines
  - providing information, guidance and support to clients and their families with antenatal health issues
  - monitoring the outcomes of antenatal health care services and made any required revisions to services, care plans or information provided
  - liaising between service providers, individuals, families and community groups to support antenatal health
  - holistically evaluating impact and outcome of treatment on client's physical, mental and emotional condition and behaviour
  - making timely and appropriate referrals, providing accurate and relevant details to clients and referral agencies
- provided supervision for at least one other staff member providing antenatal health care

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisation policies and procedures relating to client confidentiality
- role of the Aboriginal Health Worker in counselling and health education
- anatomy/physiology, pharmacology, pathology and basic microbiology relevant to pregnancy
- microbiology relevant to antenatal health and prevention of infection or cross infection
- nutritional needs of pregnant women
- health conditions, obstetric problems and associated issues related to pregnancy
- strategies to:
  - improve antenatal health in the community
  - address clients presenting with antenatal problems
  - coordinate provision of optimum level of maternal health service delivery
- relevant assessment methods and use of associated equipment and testing procedures
- relevant treatments, medicines and associated care services available
- risks and contraindications associated with relevant treatments and medication.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker
- or:
- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

| Release   | Comments                                                                                                                                                                                                                                                                                                                                              |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite units removed</p> |

### Application

This unit describes advanced skills and knowledge required to support Aboriginal and/or Torres Strait Islander women during childbirth and support of childbirth in a culturally safe environment.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Plan and support culturally safe birthing for women and their families

1.1 Identify local birthing practices and cultural beliefs and discuss with women in planning and advocating for culturally appropriate and safe birthing options

1.2 Discuss roles, relationships and responsibilities to support culturally safe birthing, including the role of the

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

Aboriginal and/or Torres Strait Islander Health Worker as an advocate for women and families

1.3 Discuss and identify signs of onset of labour and support women to attend the planned place of birth as required

1.4 Provide physical and emotional support to women as appropriate during childbirth and the immediate post-partum period

1.5 Support women and their families to take a self-care approach in line with individual needs to organisation and community requirements

1.6 Maintain referral and communication networks with medical staff, specialist obstetricians, midwives, allied health staff, birthing facilities and female community Elders regarding culturally safe birthing options and services

2. Prepare and deliver safe birthing

2.1 Maintain emergency delivery bundles and instructions in isolated community settings

2.2 Identify signs and symptoms of imminent unexpected childbirth

2.3 Seek urgent professional assistance and advice with birthing as necessary

2.4 Prepare to manage untimely birth in a community or home setting using the best available resources

2.5 Identify helpers and allocate tasks as appropriate based on experience and knowledge

2.6 Prepare appropriate equipment and medication

2.7 Institute basic management of second and third stages of labour, if needed

2.8 Undertake initial management of post-partum haemorrhage according to emergency care guidelines and organisational protocols, as well as other common birthing emergencies

2.9 Arrange safe evacuation in consultation with medical or midwifery staff if required and as per

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

organisation procedures

**3. Monitor and evaluate care**

3.1 Monitor care of individual women after birth according to organisation procedures

3.2 Regularly update client files with birthing and postnatal details according to organisation procedures and policies

3.3 Review progress and outcomes in consultation with pregnant woman

3.4 Maintain registers of women undergoing postnatal care according to organisation policies and procedures

3.5 Keep schedules of participation in antenatal care and use to organise continuing care according to woman's needs

3.6 Organise transport and other assistance as required to women post-birth

3.7 Supervise other staff participating in provision of birthing practices

3.8 Maintain referral and communication networks with medical staff, specialist obstetricians, midwives, allied health staff, birthing facility staff and female community Elders

3.9 Keep statistics for birthing outcomes and use to evaluate maternal health programs

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

**Numeracy**

- in order to measure and interpret vital signs during labour, including temperature, pulse and respiration (TPR), blood pressure, rate of contractions and foetal heart beat detected using foetal stethoscope and

Doppler

*Learning*

- in order to draw selectively on past experience and learning and adapt to new context

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite units removed</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- prepared for and supported at least five women during the pregnancy and birthing process, including:
  - communicating effectively with each client and family if available to obtain information and ensure understanding of information provided
  - providing treatment, medicine and other health care services appropriate to interpartum health in a safe and effective manner and within guidelines
  - liaising between service providers, individuals, families and community groups
  - holistically evaluating the impact of treatment on client's physical, mental and emotional condition and behaviour
  - performing all required assessments to determine health of the client and baby
  - interpreting assessment outcomes to determine course of action for health care, including issues requiring immediate action
  - utilising referral services as necessary
  - recognising situations requiring immediate or urgent action and taking appropriate action as required within current job role, legislative requirements and organisation procedures
  - supporting the client to attend appointments for monitoring of own and baby's health.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- birthing practices suitable for culturally safe and positive birth outcomes
- organisation policies and procedures relating to client confidentiality
- anatomy/physiology, pharmacology, pathology and basic microbiology relevant to pregnancy, maternal and/or infant health
- knowledge of microbiology relevant to maternal and/or infant health and prevention of infection or cross infection
- health conditions, obstetric problems and associated issues related to pregnancy, maternal and infant health
- medical problems occurring in pregnancy requiring referral and follow-up
- relevant assessment methods and use of associated equipment and testing procedures
- relevant treatments, medicines and associated care services available
- risks and contraindications associated with relevant treatments and medication
- realistic expectation of client condition during monitoring of progress
- obstetric problems, including:
  - antepartum haemorrhage
  - vaginal discharges
  - fluid loss from the vagina
  - ruptured membranes (including onset of labour, prolapsed cord, infection)
  - abdominal pain in pregnancy (including braxton hicks contractions and labour contractions)
  - pre-term labour
  - breech presentation
  - post-partum or intrapartum haemorrhage
  - shoulder dystocia
  - retained placenta
  - obstructed labour
  - eclampsia
- vital signs during childbirth or delivery, including:
  - TPR
  - blood pressure
  - auscultation of foetal heart rate
  - blood glucose level
  - foetal palpation
  - fundal height measurements
  - urinalysis
  - weight

- monitoring progress of labour
- bloods
- rate of contractions
- baseline observations including, but not limited to:
  - temperature, pulse, respiration
  - blood pressure
  - blood loss per vaginum
  - condition of fundus
  - rate of contractions
  - progress of labour
  - documentation of findings from a physical assessment and follow-up as per policy and procedures manual
  - pain assessment
  - blood sugar levels
  - pulse oximetry
  - recognition of significant abnormalities in cardiotocograph (CTG) reading
- immediate care required for newborns, including:
  - use of humidicribs
  - intravenous infusions
  - blood sugar levels
  - skin-to-skin contact and breastfeeding in the first hour after birth
  - weight, length and head circumference measurements
  - temperature
  - respiratory rate
  - APGAR scoring and assessment
  - resuscitation
  - oxygen administration.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures (such as unplanned or emergency births) where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite units removed</p> |

### Application

This unit describes the required skills and knowledge to provide Aboriginal and/or Torres Strait Islander women, infants and their families with specialist health care services in postnatal and infant health.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Provide health information, support and care after birth for women, infants and families

1.1 Perform maternal and infant physical assessment and record observations of mother and infant in line with standard protocols and organisational guidelines

1.2 Provide information and support for self-care and wellbeing in the postnatal period

1.3 Provide advice on routine care of the newborn to mothers and refer as appropriate and within organisational guidelines and/or procedures

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

- 1.4 Implement strategies to establish and support breastfeeding
- 1.5 Discuss with the client the importance of nutrition, exercise, rest, sleep and support with domestic tasks and care of family in the immediate postnatal period
- 1.6 Identify minor postnatal problems for mother and newborn and provide appropriate advice
- 1.7 Identify potentially serious health conditions for mother and newborn and refer to senior health staff
- 1.8 Provide information on contraceptive options
- 1.9 Deliver, implement and monitor care in the postnatal period as per standard treatment protocols and in accordance with legislative guidelines
- 1.10 Undertake immediate care in response to at-risk situations
- 1.11 Observe and support maternal-infant attachment

2. Organise and evaluate maternal health programs

- 2.1 Maintain registers of women undergoing postnatal care according to organisational policies and procedures
- 2.2 Keep schedules of participation in postnatal care and use to organise continuing care for women
- 2.3 Organise and/or provide reminders, transport and other assistance to attend care according to women's needs
- 2.4 Provide support to other staff participating in provision of postnatal care
- 2.5 Maintain referral and communication networks with medical staff, specialist obstetricians, midwives, allied health staff, birthing facility staff and female community Elders
- 2.6 Keep statistics on attendance for antenatal care and birthing outcomes and use to evaluate maternal health programs

## Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance.

|          |                                                                                                             |
|----------|-------------------------------------------------------------------------------------------------------------|
| Numeracy | in order to perform physical assessment of mother and infant, including measuring height, length and weight |
|----------|-------------------------------------------------------------------------------------------------------------|

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite units removed</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- delivered postnatal health care for at least five clients, including:
  - conducting comprehensive health checks related to postnatal and infant health
  - providing treatment, medicine and other health care services appropriate to postnatal and infant health in a safe and effective manner and within guidelines
  - providing information, guidance and support to clients and their families with postnatal and/or infant health issues
  - monitoring the outcomes of postnatal and infant health care services and making any required revisions to services, care plans or information provided
  - recognising situations requiring immediate or urgent action, and implementing appropriate procedures
  - implementing strategies to support breastfeeding
  - discussing the importance of nutrition, exercise, rest and sleep
  - identifying minor postnatal problems for mother and newborn
  - communicating effectively with client to:
    - obtain information from client
    - provide advice and information on self-care, wellbeing, routine care of newborns and contraceptive options
    - discuss postnatal and infant health care issues

- recording all observations of mother and/or newborn according to organisation procedures
- maintaining registers of mothers undergoing postnatal care, keeping schedules of participation and statistics on attendance
- supporting mothers and babies to attend follow-up appointments for health services
- supervised at least one staff member participating in postnatal care.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- key aspects of anatomy/physiology, pharmacology, pathology and basic microbiology relevant to postnatal and infant health
- knowledge of microbiology relevant to postnatal and infant health and prevention of infection or cross infection
- postnatal nutritional needs of women and infants, including support of breastfeeding and other nutritional needs of the infant
- health conditions, obstetric problems and associated issues related to postnatal and infant health
- strategies to:
  - improve maternal and neonatal health in the community
  - address clients presenting with postnatal problems
  - coordinate provision of optimum level of maternal health service delivery
- postnatal medical problems requiring referral
- effective postnatal care practices for mother and baby
- relevant assessment methods and use of associated equipment and testing procedures
- relevant treatments, medicines and associated care services available
- risks and contraindications associated with relevant treatments and medication
- relevant evaluation criteria for monitoring effectiveness of specific postnatal and infant health management program
- organisation policies and procedures, generally, and in particular relating to client confidentiality
- role of the Aboriginal Health Worker in counselling and health education
- vaccination schedules
- minor and major complications of pregnancy and required treatments
- realistic expectation of client condition during monitoring of progress.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

## HLTAHW060 Plan for medical emergencies

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the required skills and knowledge to prepare and promote a plan of action for providing a clinical response to emergencies of a medical nature in Aboriginal and/or Torres Strait Islander communities.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Liaise with relevant agencies and key people

- 1.1 Identify organisation policies and protocols for dealing with medical emergencies
- 1.2 Consult relevant agencies and key people to determine required roles in a medical emergency
- 1.3 Identify and document resource availability

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

**2. Develop an emergency plan**

- 2.1 Develop strategies for responding to medical emergencies in consultation with key people from the community and local agencies
- 2.2 Determine preferred options in consultation with key people and the community, as time and resources permit
- 2.3 Develop the plan proactively, whenever possible
- 2.4 Ensure the plan meets legislative requirements for providing clinical care

**3. Document, distribute and promote the emergency action plan**

- 3.1 Document the medical emergency action plan
- 3.2 Distribute the medical emergency action plan to all health service providers
- 3.3 Ensure health service providers are included in procedures relevant to their allocated roles and responsibilities

**4. Evaluate and modify the emergency action plan**

- 4.1 Consult key people about the effectiveness of the medical emergency action plan
- 4.2 Adapt the plan as required to address community, organisation and legislative requirements
- 4.3 Distribute the amended plan to all local health service providers

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

# Assessment Requirements for HLTAHW060 Plan for medical emergencies

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- undertaken relevant research and consultation to develop an emergency plan to respond to emergencies of a medical nature, which involved:
  - communicating effectively with a range of relevant stakeholders to:
    - investigate options for responding to medical emergencies
    - determine preferred options
    - consult about the effectiveness of the plan
  - developing strategies to address such emergencies in line with stakeholder and related legislative requirements
- documented, distributed, promoted and evaluated an emergency plan to address requirements of the community, health service providers and related organisations
- implemented aspects of the plan in line with work role and responsibilities
- written reports and documented the action plan.
- 

All performance evidence must be demonstrated at least once.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- how to operate relevant equipment and technology
- local resources
- key community networks
- client confidentiality
- local disaster planning processes
- legislation protocols and policies or guidelines
- network development
- knowledge of key issues and information relating to individual and community health, including biology and development, psychology, disease and treatment options, and culture and tradition
- organisation policies and procedures.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

# HLTAHW061 Engage in community health research

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Application

This unit describes the required skills and knowledge to undertake research projects, incorporating information that may be gathered by a researcher or by other workers in the community.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

## Elements and Performance Criteria

| ELEMENT                                        | PERFORMANCE CRITERIA                                                                                                                                                                                                                                  |
|------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements define the essential outcomes.</i> | <i>Performance criteria specify the level of performance needed to demonstrate achievement of the element.</i>                                                                                                                                        |
| 1. Determine ownership of research material    | <p>1.1 Identify and record the purpose and scope of researching community health needs</p> <p>1.2 Consult key people to clarify the purpose and outcome of the research</p> <p>1.3 Obtain permission from the community to undertake the research</p> |

| ELEMENT                                                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements define the essential outcomes.</i>              | <p><i>Performance criteria specify the level of performance needed to demonstrate achievement of the element.</i></p> <p>1.4 Review and note funding policy and/or organisational guidelines regarding ownership</p> <p>1.5 Negotiate ownership of research data and documents as required</p> <p>1.6 Acknowledge ownership on documents, as required by funding, policy and/or organisational guidelines</p>                                                                                      |
| 2. Determine research methodology using community processes | <p>2.1 Identify and discuss with community representatives any requirements relating to research outcomes</p> <p>2.2 Identify key people and processes for effective community consultation in line with participatory action research principles</p> <p>2.3 Identify and develop required information-gathering tools</p> <p>2.4 Incorporate evaluation processes throughout research/consultation processes</p> <p>2.5 Ensure methodology maintains community and individual confidentiality</p> |
| 3. ## Assessment Requirements for HLTAHW061 Engage in community health research

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- planned, conducted and coordinated all aspects of at least one research project to inform the provision of health services for Aboriginal and/or Torres Strait Islander individuals and communities, including:
  - communicating effectively with stakeholders, including community members
  - ensuring confidentiality of individual and community information as appropriate
  - applying research methodologies
  - developing information-gathering tools and action plans
  - presenting written information in research reports
  - analysing and presenting information clearly
  - evaluating research processes and findings
- conducted at least two community group consultation sessions about the purpose, methodology and outcomes of the research.

### Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- available local resources, including relevant equipment and technology
- sources of information
- research techniques and processes, including small group facilitation
- community development principles
- research ethics – community ownership of data
- relevant guidelines on research, including:
  - National Statement on Ethical Conduct in Human Research
  - Values and Ethics – Guidelines for Ethical Conduct in ATSI Health Research
- relevant policies, protocols and procedures of the organisation.
- 

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

## HLTAHW062 Supervise health care team

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the required skills and knowledge to supervise a group of workers who function as a team to provide health services to the community.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers providing supervision to other Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Set team and individual team member objectives

1.1 Access organisation, program and action plans and identify priorities/issues for the team in line with organisation requirements

1.2 Develop team objectives in consultation between workers and supervisor in line with organisation requirements

1.3 Develop individual objectives in consultation with

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

workers to address team objectives and action plans

**2. Identify staffing gaps**

2.1 Work in consultation with supervisors and/or other team members to identify staffing gaps

2.2 Determine needs for additional staff and/or training/development of existing staff in terms of skills required to achieve identified work outcomes

2.3 Communicate staffing and training needs to relevant organisation authority for action

**3. Supervise daily work schedule**

3.1 Develop duty roster and/or daily work schedule for the team to ensure all required services are met

3.2 Monitor and adjust work schedules as required to meet action plan needs

**4. Facilitate networking and information exchange between team members**

4.1 Identify existing networks for team members and support their use

4.2 Set up new networks and/or information exchange processes as required to facilitate achievement of identified outcomes

4.3 Support use of networks and information exchange processes in the work environment

**5. Work with management**

5.1 Consult managers on work issues

5.2 Keep managers informed of work and team issues

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

Numeracy in order to use temporal measurements and estimations of completion times and rates to develop work rosters

*Other foundation skills essential to performance are explicit in the performance criteria of this unit.*

# Assessment Requirements for HLTAHW062 Supervise health care team

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- supervised at least one health care team on an ongoing basis by:
  - identifying current networks and establishing new networks for at least three workers
  - encouraging the use of networks
  - setting unit objectives in line with priorities, action plans and organisation requirements
  - developing individual objectives for at least three workers, in line with organisation requirements
  - identifying and responding to staff gaps in consultation with others
  - creating and monitoring team rosters and schedules, adjusting as needed
  - consulting management as required when specific issues arise.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- relevant requirements of legislation, awards and conditions of service
- relevant organisation human resource management policies
- strategies to meet staff training needs
- networking and information exchange processes
- existing program policy
- organisation guidelines, policies and procedures.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

## HLTAHW063 Implement office systems

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the skills and knowledge required to implement and monitor systems that underpin the effective operation of the organisation's administrative processes.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Develop office systems to support organisation functions

1.1 Identify and document requirements for office system processes in accordance with organisational guidelines

1.2 Identify personnel and equipment requirements and develop systems to meet organisational needs

1.3 Establish and implement administrative processes in accordance with organisational guidelines

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

**2. Monitor office systems**

2.1 Develop a training and/or support processes to enable workers to implement office system

2.2 Evaluate implementation of office systems in consultation with workers

2.3 Identify barriers to effective office system implementation

2.4 Modify existing systems as required to meet ongoing office needs

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

**Writing**

- in order to use office systems to communicate via email, intranet and computer networking

- in order to set up record storage systems, including indexes and databases

**Numeracy**

- in order to establish accounts and petty cash systems

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

**Unit Mapping Information**

No equivalent unit.

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- implemented system support for at least one office as part of a health service or centre by:
  - identifying requirements for:
    - documents
    - personnel
    - equipment
  - developing and implementing administration processes
  - establishing support strategies for implementing the office support system
  - monitoring the office system and making modifications as required.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- implementation support strategies
- organisation policies, procedures and guidelines

- office system processes and requirements.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the competencies required to manage the day-to-day responsibilities of administering budgets for a program, work unit or cost centre. It is intended to address skills and knowledge required by those who manage a project budget or program budgets relating to delivery of health care for Aboriginal and/or Torres Strait Islander communities.

This unit applies to those Aboriginal and/or Torres Strait Islander Health Workers working independently and as part of a multidisciplinary team to deliver primary health care services to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the Element.*

#### 1. Prepare budget

- 1.1 Identify and document workplace resource needs in accordance with workplace action plans
- 1.2 Cost and record funding needs
- 1.3 Prepare budget document and present to supervisor (or other relevant authority) for endorsement

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the Element.*

**2. Monitor budget expenditure**

- 2.1 Maintain systems for monitoring finances
- 2.2 Ensure money is expended according to the endorsed budget document
- 2.3 Identify changing priorities and discuss with supervisor (or other relevant authority)
- 2.4 Amend budget document in response to changing priorities
- 2.5 Satisfy accountability requirements

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

# Assessment Requirements for HLTAHW064 Manage budgets

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- prepared, documented and presented budget information in line with organisation requirements on at least one occasion, including:
  - monitoring expenditure and reviewing budgetary provisions in line with identified priorities and accountability requirements
  - costing and recording funding needs
  - identifying changing priorities and discussing issues with supervisor
  - managing financial aspects in line with requirements of own role
  - amending budget document to reflect changes in priorities.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisation guidelines relating to funding applications, budget compilation and expenditure
- organisation procedures for cost-centre management
- accounting procedures as required by level of responsibility and workplace

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

implementing planned care

2. Participate in professional review and development

2.1 Participate in performance review according to the policies and procedures of the employing organisation

2.2 Apply professional, legal and ethical standards to primary health care

2.3 Share professional knowledge and skills with others

2.4 Positively promote own role within Aboriginal and/or Torres Strait Islander primary health care context

2.5 Undertake professional skill development and apply to work practices

2.6 Identify and participate in appropriate professional organisations

3. Work within a contemporary Aboriginal and/or Torres Strait Islander health care environment

3.1 Achieve work outcomes and demonstrate good time management within prescribed time frames

3.2 Manage resources according to health environment guidelines

3.3 Utilise contemporary health informatics systems to gather, collate and document data

3.4 Work within context of practice and within boundaries of work role

4. Effectively use critical thinking and analysis within work role

4.1 Identify ways to effectively apply the process of critical thinking and analysis within own work role

4.2 Differentiate between critical thinking, creative thinking and problem-solving

4.3 Identify and apply problem-solving processes to resolve client and workplace challenges

4.4 Locate, review and critically analyse topical issues identified in recent articles

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

5. Promote reflective practice for self and others

5.1 Recognise the process and benefits of reflective practice in relation to own work role

5.2 Model reflective practice within own role

5.3 Seek assistance from mentors or other professionals to support reflective practices

5.4 Evaluate the effectiveness of self-reflection in own role, and for others

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

*Learning*

- in order to locate, evaluate and organise information and filter out irrelevant data

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

## **Assessment Requirements for HLTAHW065 Apply reflective practice in an Aboriginal/Torres Strait Islander primary health care setting**

### **Modification History**

Not applicable.

### **Performance Evidence**

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- performed their role in Aboriginal and/or Torres Strait Islander primary health care by using each of the following on at least one occasion:
  - critical thinking and analysis
  - professional review and skills development
  - self-reflection and evaluation
  - time management and prioritisation
  - problem-solving using logic, analysis and sound argument
  - effective and culturally appropriate and safe communication skills for:
    - analysis and interpretation of evidence
    - consultation methods
    - decision-making techniques
    - team negotiation and networking
    - written and oral presentations.

### **Knowledge Evidence**

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the work role. These include knowledge of:

- critical thinking processes
- reflective practices, benefits and limitations
- organisation standards, policies and procedures
- cultural and linguistic issues for the individual Aboriginal and/or Torres Strait Islander health professional

- best practice, philosophy/vision/mission statements
- characteristics of critical thinking and analysis
- cultural and religious considerations for primary health care
- demonstrated awareness of the history and development of the role of the Aboriginal and/or Torres Strait Islander Health Worker and practitioner
- educational and career opportunities for Aboriginal and/or Torres Strait Islander Health Worker and practitioner
- ethical guidelines including confidentiality, duty of care and public liability
- patterns of primary health care (including functional, team, client assignment)
- performance appraisal processes and practices
- quality improvement programs and accreditation standards
- role of evidence-based practice
- understanding of the role and function of professional and industrial bodies relevant to Aboriginal and/or Torres Strait Islander Health Worker and practitioner
- understanding of the role of the health care team members

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- individually or as a member of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

| Release   | Comments                                                                                                                                                                                                                                                                                                                                             |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite unit removed</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- planned and managed the delivery of at least one health care service and/or program to effectively address the needs of Aboriginal and/or Torres Strait Islander communities, including:
  - consulting with the community as part of review and revision of services to identify and implement service improvements as an ongoing process
  - advocating on behalf the primary health care service to:
    - promote services and programs
    - seek resources
    - promote staff
  - conducting and reporting on research, using analytical skills applied to quantitative and qualitative data
  - formulating clear, valid and functional recommendations
  - participating in discussions and negotiations with community members regarding the provision of health services
  - participating in and monitoring quality assurance programs.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- Aboriginal and/or Torres Strait Islander community primary health needs, treatment options and any associated issues
- legislation, organisational guidelines and community requirements relating to health service provision
- up-to-date knowledge of principles and practice of primary health care and resources required to address specific community needs
- referral resources and processes
- traditional health, healing and medicines
- individual and community health including biology and development, psychology, disease and treatment options, culture and tradition
- key individuals and agencies with local, regional and broader responsibilities related to primary health care provision
- evaluation methodology to determine the effectiveness of services delivered.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as a senior member of and/or supervising a primary health care team
- with Aboriginal and/or Torres Strait Islander clients.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker
- or:
- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the required skills and knowledge to manage the provision of health education and promotion services to Aboriginal and/or Torres Strait Islander communities. This includes advocating for health education and promotion services and ensuring these services meet community needs.

It does not involve the actual delivery of health education and promotion services – this is detailed in HLTAHW023 Plan, develop and evaluate health promotion and community development programs.

This unit applies to senior Aboriginal and/or Torres Strait Islander Health Workers overseeing clinical aspects of the delivery of primary health care services and/or managing the overall delivery of primary health care services and programs to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Monitor and plan health education and health promotion

1.1 Support staff to identify existing health education and health promotion services in the community and

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

services

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

document according to organisation guidelines

1.2 Consult the community about needs for health education and health promotion services

1.3 Work with staff to evaluate health education and health promotion services in respect of community needs

1.4 Identify gaps in health education and health promotion services within the community and recommend appropriate changes to address them

1.5 Support staff to develop and document a plan to respond to identified community health education and health promotion needs

2. Ensure health education and health promotion services meet community needs

2.1 Analyse and document resource needs of the health education and health promotion service

2.2 Implement policies and procedures for health education and health promotion service delivery in the workplace, in line with legislative requirements

2.3 Investigate feedback and complaints from community and adapt health education and health promotion service delivery as required

3. Advocate on health education and health promotion service provision

3.1 Identify and contact relevant individuals/agencies about issues of concern regarding health education and health promotion

3.2 Represent community's point of view clearly to those involved

3.3 Ensure confidentiality of community and individuals is maintained

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are*

*essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## **Unit Mapping Information**

No equivalent unit.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- managed the provision of at least one health education and promotion service to effectively address the needs of Aboriginal and/or Torres Strait Islander individuals and communities, including:
  - working with other staff to identify and evaluate existing health education and promotion services
  - communicating effectively with relevant community members, agencies and other organisations to support the delivery of health education and promotion services
  - advocating on behalf of Aboriginal and/or Torres Strait Islander communities in relation to the provision of health education and promotion services
  - conducting research and preparing reports detailing effectiveness of primary health care health education and promotion programs
  - lobbying and advocating at high levels to support health education and promotion programs for Aboriginal and/or Torres Strait Islander communities
  - undertaking organisational planning to support the delivery of health education and promotion programs.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- individual and community health including broad knowledge base of biology and development, psychology, disease and treatment options, culture and tradition
- primary health care health needs and service delivery options
- legislation relating to the delivery of primary health care services
- organisational guidelines relating to health service provision
- referral resources
- traditional health, healing and medicines.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as a senior member of and/or supervising a primary health care team
- with Aboriginal and/or Torres Strait Islander clients.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the required skills and knowledge to undertake planning for an organisation or for specific program areas in line with the organisation's strategic directions.

It involves developing work plans for either a team within a health care organisation, or for the whole organisation, and then developing individual work plans for staff to implement and support the broader work plan.

This unit applies to senior Aboriginal and/or Torres Strait Islander Health Workers overseeing clinical aspects of the delivery of primary health care services and/or managing the overall delivery of primary health care services and programs to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Develop a work plan for the organisation, unit or team

1.1 Access strategic plans and identify priorities/issues for the work plan

1.2 Identify community priorities in consultation with

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

the community

1.3 Prepare a work plan to address organisational and community priorities

1.4 Identify budget implications and seek funding to implement the plan

1.5 Promote work plan to affected staff

2. Prepare individual work plans

2.1 Access the work plan and identify and record priorities/issues for individual workers

2.2 Develop individual plans in consultation with workers

2.3 Identify training needs of workers and seek resources to meet these needs

2.4 Incorporate review mechanisms to determine effectiveness of work performances under the plan

2.5 Finalise and document individual work plans according to organisation procedures and policies

3. Review work plans at individual and organisational, unit or team level

3.1 Review plans in consultation with the community and staff implementing the plans

3.2 Identify strengths and areas for improvement within each plan

3.3 Adapt plans to reflect changes to government and organisational policies and community needs

3.4 Provide progress reports to key people within community and the organisation, including management and governance bodies, according to organisational procedures and policies

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are*

*essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- prepared at least one work plan for a whole organisation or for a team within an organisation, in line with priorities of Aboriginal and/or Torres Strait Islander communities in relation to the provision of health services. The candidate should have effectively addressed strategic initiatives and business plans by:
  - accessing and analysing relevant information as a basis for planning, including budgets and previous planning documents
  - using culturally safe and appropriate communication skills to liaise with relevant staff member to determine scope, outcomes and focus of work plan
  - networking, negotiating and resolving conflict as required
  - communicating outcomes of the plan to relevant staff members to obtain feedback for review
  - adjusting the plan as appropriate
  - documenting the final work plan according to organisational procedures and policies
- prepared work plans for at least three individual staff members to effectively address strategic initiatives and business plans arising out of the developed team or organisational work plan by:
  - using culturally safe and appropriate communication skills to liaise with each staff member to determine scope, outcomes and focus of the individual work plans
  - networking, negotiating and resolving conflict as required

- identifying training opportunities as part of the work plan for each staff member
- documenting each individual work plan according to organisational procedures and policies
- reviewed the performance of at least one team/organisational work plan and at least one individual staff member plan by:
  - gaining feedback from community and staff as to the outcomes of the work plan
  - identifying successes and areas for improvement in each work plan
  - reporting outcomes of review as required by organisational procedures and policies.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- National Aboriginal Health Strategy
- relevant up-to-date national policies and reports, such as 'National Aboriginal and Torres Strait Islander Oral Health Workshop – Report and Action Plan'
- relevant organisational policy and guidelines
- Commonwealth, state /territory and local government policies
- existing strategic and work unit plans
- community networks and planning processes

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as a senior member of and/or supervising a primary health care team
- with Aboriginal and/or Torres Strait Islander clients.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- developed workplace policies in relation to the provision of health services for Aboriginal and/or Torres Strait Islander individuals and communities
- contributed to government policy development and review on behalf of Aboriginal and/or Torres Strait Islander people
- communicated clearly and effectively with the community and relevant authorities
- represented the organisation, community and/or other positions in public speaking, meetings and in writing
- written letters, submissions and reports to advocate for changes to government policy to promote Aboriginal and/or Torres Strait Islander health.

All performance evidence must be demonstrated at least once.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- National Aboriginal Health Strategy
- relevant up-to-date national policies and reports, such as 'National Aboriginal and Torres Strait Islander Oral Health Workshop – Report and Action Plan'
- organisation policies and guidelines
- Commonwealth, state/territory government policies and local government policies

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as part of, and under the supervision of, a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

#### 1. Manage workforce

1.1 Identify and document staffing resource needs

1.2 Discuss staffing resource needs with work group and supervisor/s

1.3 Advise management of resource needs

1.4 Allocate available resources according to program needs

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

- 1.5 Recruit staff as required by organisational needs
- 1.6 Develop staff performance plans
- 1.7 Review staff performance in consultation with line managers

2. Promote good employee relations

- 2.1 Inform workers of their industrial rights
- 2.2 Identify and consult industrial parties
- 2.3 Provide workers with access to grievance procedures
- 2.4 Ensure workers' conditions reflect award and organisational requirements

3. Ensure staff have access to required training and development

- 3.1 Discuss training and development needs with workers and assess against projected programs
- 3.2 Establish availability of training
- 3.3 Determine appropriateness of training in consultation with key people, the community and other workers
- 3.4 Provide training within resource constraints

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- provided human resource management to a health service or centre by:
  - recruiting staff as required by organisational needs
  - managing at least three staff members, including:
    - developing and reviewing performance management plans for individual staff members
    - identifying and supporting access to training opportunities
    - providing information to staff about industrial rights within the workplace, including grievance procedures, awards and work conditions
    - communicating in a culturally appropriate and safe manner with staff when discussing, negotiating and/or resolving issues
    - advocating on behalf of staff as required by individual circumstances .

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- organisation human resource management policies and guidelines
- relevant requirements of:
  - industrial relations legislation and regulations at federal, state and territory level
  - enterprise bargaining agreements where they exist in an organisation
  - union documents/guidelines/policies
  - work health and safety legislation and regulations
  - awards and conditions of services.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as a senior member of and/or supervising a primary health care team
- with Aboriginal and/or Torres Strait Islander clients.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. For example, recruitment of staff may not be required within the timeframe of the assessment. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## HLTAHW071 Manage medicines in Aboriginal and/or Torres Strait Islander primary health care

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                                                             |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite unit removed</p> |

### Application

This unit describes the skills and knowledge required to manage the use of medications in Aboriginal and/or Torres Strait Islander primary health care. It includes supply, transport and storage of medicines; the legal, professional and safety aspects of medicines use; and the supervision of other Aboriginal and/or Torres Strait Islander Health Workers with authority to administer medication, and management of clinic medicines stocks.

This unit applies to those senior Aboriginal and/or Torres Strait Islander Health Workers overseeing clinical aspects of the delivery of primary health care services to Aboriginal and/or Torres Strait Islander communities.

Note: The skills and knowledge specifically required to administer medications is covered by HLTAHW020 Administer medications.

*Licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the Element.*

1. Manage administration of medicines

- 1.1 Maintain accurate records of medicines' administration in client files according to organisation policies and procedures
- 1.2 Establish and maintain systems for managing medication administration within the clinic in consultation with relevant medical health professionals and appropriately authorised persons
- 1.3 Refer individual medication regimens for regular review by authorised practitioner
- 1.4 Involve pharmacists in medication management including, where appropriate, medication reviews or use of Webster-packs
- 1.5 Check doses of medicine made up by other health staff for accuracy, including dose, indication and consideration of contraindications
- 1.6 Support and instruct other health workers in the safe and efficacious use of medicines
- 1.7 Monitor the appropriate use of medicines by other health staff

2. Initiate assessment and treatment using standard treatment manuals

- 2.1 Use standard workplace treatment manuals to commence assessment and treatment
- 2.2 Consult an authorising practitioner in accordance with standard treatment manuals and organisational policies and procedures
- 2.3 Dispense medicines according to organisational policies and procedures and the appropriate *legal and regulatory framework*
- 2.4 Document clinical assessments, any advice sought and assessment and treatment initiated in client medical files

3. Manage the ordering, transportation, storage and disposal of medicines

- 3.1 Ensure medicines are securely stored in accordance with legislative requirements
- 3.2 Establish working relationships with local medical

## ELEMENT

*Elements define the essential outcomes.*

## PERFORMANCE CRITERIA

*Performance criteria specify the level of performance needed to demonstrate achievement of the Element.*

practitioners and pharmacists to support management of clinic medicines stores

3.3 Monitor patterns of medicines use and use this information to inform reorder quantities and ensure minimum stock holdings

3.4 Ensure clinic medicines stock is checked regularly and re-ordered in appropriate quantities

3.5 Source medicines supplies as locally appropriate

3.6 Add new stock and dispose of out-of-date stock according to organisational policies and procedures

3.7 Organise clinic medicines stock logically and securely, with access to clinic medicines store monitored and restricted to authorised personnel

3.8 Correctly apply cold chain principles for storage and transport of medication requiring refrigeration

## Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance.

*Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.*

## Unit Mapping Information

No equivalent unit.

# Assessment Requirements for HLTAHW071 Manage medicines in Aboriginal and/or Torres Strait Islander primary health care

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                                                             |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite unit removed</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- managed the safe administration of medicines by appropriately authorised Aboriginal and/or Torres Strait Islander Health Workers or practitioners on at least three occasions by:
  - providing clear information on medicines, through accurate interpretation of MIMS and other medication references and resources, such as standing orders, guidelines and Consumer Medicines Information
  - checking calculations and measurements of dosages undertaken by other authorised practitioners
  - documenting all outcomes of administration of medication in line with own role and medication administered
- initiated treatment involving medication on at least three occasions by:
  - using standard treatment manuals to initiate assessment and treatment, in consultation with an authorised practitioner
  - referring to the pharmacist regarding medication
  - consulting authorised practitioners' instructions and orders in regards to dispensing medication
- managed processes for the ordering, transport, storage and disposal of medication on at least one occasion by:

- managing relationships with relevant suppliers, pharmacies and hospitals
- overseeing the maintenance of medicines records
- using checking systems to regularly review out-of-date stock, understocked or other requirements for medication
- ensuring medication was kept in secured locations and accessed by authorised personnel, according to legislation and organisation procedures and policies
- applying cold chain storage principles where appropriate in the storage of medications.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- application of universal precautions in the administration of medicines
- key aspects of federal and state legislation relating to the control, storage and dispensing of drugs and medication
- legislative and regulatory requirements for labelling, storage and safe disposal of medicines
- key aspects of the requirements of the Pharmaceutical Benefits Scheme (PBS)
- signs of anaphylaxis and methods of management
- western and traditional/bush medicines and treatments
- special considerations in use of medicines, including:
  - pregnancy and lactation
  - renal failure
  - anti-coagulant therapy
- organisational policies and procedures relating to drugs and medications, including storage, ordering, management and access.
- 

## Assessment Conditions

Unless state or territory legislation prevents practice in the workplace, skills must be demonstrated working:

- in a health service or centre
- as part of a multidisciplinary primary health care team
- with Aboriginal and/or Torres Strait Islander clients and communities.

Note: Where state or territory legislation prevents practice in the workplace, simulated assessment environments may only be used in place of workplace assessment.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- a Registered Aboriginal or Torres Strait Islander Health Practitioner

or:

- a Registered Health Practitioner accompanied by an Aboriginal or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

## HLTAHW072 Provide guidance in social and emotional wellbeing

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                                                              |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite units removed</p> |

### Application

This unit describes the required skills and knowledge to provide social and emotional wellbeing guidance and support to Aboriginal and/or Torres Strait Islander clients in crisis, in need and in the context of an ongoing supportive client/worker relationship.

The unit applies to senior Aboriginal and/or Torres Strait Islander Health Workers overseeing clinical aspects of the delivery of primary health care services and/or managing the overall delivery of primary health care services and programs to Aboriginal and/or Torres Strait Islander clients and communities.

This unit equips Aboriginal and/or Torres Strait Islander Health Workers to provide support related to social and emotional wellbeing and does not infer that they are qualified counsellors.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

Elements define the essential outcomes.

#### PERFORMANCE CRITERIA

Performance criteria specify the level of performance needed to demonstrate achievement of the element.

**ELEMENT****PERFORMANCE CRITERIA**

Elements define the essential outcomes.

Performance criteria specify the level of performance needed to demonstrate achievement of the element.

1. Work within professional and personal boundaries

1.1 Define and observe professional boundaries when working with a range of clients, including women, men, children, young people, families, and couples

1.2 Explain the professional and personal boundaries of social and emotional wellbeing support and discuss with the client

1.3 Work in accordance with organisation policies on professional and personal boundaries

2. Assess the current status and needs of the client

2.1 Establish a safe, supportive and culturally secure environment for the client

2.2 Explain the process of providing guidance and support to the client

2.3 Discuss the role and limitations of the social and emotional wellbeing worker with the client

2.4 Take client history through discussion with the client and relevant family/community members

2.5 Assess client's current mental status and needs by discussion with the client and appropriate others

3. Plan treatment for the client

3.1 Discuss treatment options with client, including alternative therapies that may include traditional Aboriginal healing

3.2 Develop a treatment plan in consultation with the client

4. Provide appropriate emotional support and guidance to clients

4.1 Establish an emotionally safe and culturally secure environment to support client self-disclosure

4.2 Use a non-judgmental approach and build rapport, empathy and trust with the client

4.3 Take into account socioeconomic demographic, cultural and language needs in all counselling work

4.4 Use strategies for resolving conflict and building

**ELEMENT****PERFORMANCE CRITERIA**

Elements define the essential outcomes.

Performance criteria specify the level of performance needed to demonstrate achievement of the element.

self-esteem where appropriate

4.5 Select therapies and techniques appropriate to client's physical, cultural, spiritual, intellectual and emotional needs

4.6 Provide information to the client as appropriate and at the client's request, in accordance with organisation policy and procedures, confidentiality requirements and duty of care

4.7 Refer clients to appropriate services and follow-up as required

5. Review counselling treatment with clients

5.1 Discuss effectiveness of the treatment plan with the client

5.2 Discuss options for variation to the treatment plan and revise with the client

5.3 Consult colleagues as necessary and appropriate in accordance with confidentiality requirements

6. Review progress of counselling relationship with the client

6.1 Review effectiveness of therapeutic relationship with the client

6.2 Discuss ending the relationship with the client and others (i.e. other agencies) as appropriate

6.3 Review impact on the client of ending the counselling relationship

6.4 Put in place referral and support networks to support client when counselling relationship ends

7. Use self-protection strategies

7.1 Use conflict resolution and negotiation in a crisis as appropriate

7.2 Take appropriate action to ensure safety of client, self and others in accordance with organisation policies and protocols and available resources

7.3 Seek emergency assistance as required

**ELEMENT**

Elements define the essential outcomes.

**PERFORMANCE CRITERIA**

Performance criteria specify the level of performance needed to demonstrate achievement of the element.

7.4 Acknowledge limits of own abilities and refer appropriately in accordance with organisation policies and available resources

7.5 Seek debriefing as required

7.6 Undertake ongoing self-care and stress-management activities

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

**Unit Mapping Information**

No equivalent unit.

## Assessment Requirements for HLTAHW072 Provide guidance in social and emotional wellbeing

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                                                              |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite units removed</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- provided social and emotional wellbeing guidance to at least three clients by:
  - assessing the mental status and needs of each client
  - developing appropriate treatment and/or referral plans/options, including alternative therapies, as appropriate in consultations with colleagues and relevant professionals
  - discussing treatment options with client
  - providing appropriate emotional support and guidance as part of the treatment plan using:
    - listening skills
    - building rapport
    - negotiation
    - questioning, reframing
    - externalising
    - reflection process by worker
    - motivational interviewing
  - reviewing the progress of the relationship with the client and colleagues, including the prospect of ending the relationship
  - exercising professional boundaries with each client

- using self-protection strategies as appropriate to working with each client, including:
  - resolving conflicts and crisis negotiation
  - ensuring safety of self and others
  - seeking emergency assistance and debriefing
  - undertaking stress-management activities.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- conflict resolution strategies for individuals and families
- models and techniques to provide social and emotional support, including:
  - six-step problem-solving method
  - five stages of trauma recovery
  - antecedents, behaviour, consequences model (ABC model of behaviour)
  - cognitive behaviour therapy (CBT) model
  - brief solution-focused therapy
  - narrative therapy
  - subjective, objective, assessment, plan, implementation and evaluation (SOAPIE) notes
  - strategies for counselling survivors of sexual abuse, sexual assault, children and young people, couples, families, grieving families, friends and communities
  - motivational interviewing
  - definitions of grief and models of support
  - strategies of open communication for couples
  - what makes a good counsellor (listening, skills, empathy, trust, etc.)
- healing models, such as:
  - Atkinson's trans-generational healing model
  - traditional healing practices
  - healing through art, drawing, music
  - social genograms
  - narrative therapy
- local support networks and services
- sexual abuse, including:
  - definitions, myths and facts
  - ways survivors feel and behave
  - monitoring sexual abuse
  - patterns in relating to the world for survivors
- sexual assault, including:

- definitions, myths and facts
- effects
- legal and medical procedures
- strategies for counselling
- Stolen or Removed Generations
- suicide and self-harm, including:
  - risk factors
  - emergency procedures
  - assistance and support (agencies, community, family)
  - counselling strategies
  - referral options
- organisation policies and procedures.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as a senior member of and/or supervising a primary health care team
- with Aboriginal and/or Torres Strait Islander clients.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite units removed</p> |

### Application

This unit describes the required skills and knowledge to provide social and emotional wellbeing guidance and support to Aboriginal and/or Torres Strait Islander clients in crisis, in need and in the context of an ongoing supportive client/worker relationship.

It applies to senior Aboriginal and/or Torres Strait Islander Health Workers overseeing clinical aspects of the delivery of primary health care services and/or managing the overall delivery of primary health care services and programs to Aboriginal and/or Torres Strait Islander clients and communities.

This unit equips Aboriginal and/or Torres Strait Islander Health Workers to provide support related to social and emotional wellbeing and does not infer that they are qualified counsellors.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Differentiate between ways to conceptualise and treat mental disorders

1.1 Use mental health classification systems appropriately when diagnosing Aboriginal and/or Torres Strait Islander people

1.2 Identify situations where a traditional healer could make an effective contribution to the treatment and management of Aboriginal and/or Torres Strait Islander clients

1.3 Investigate treatment approaches to potentially reduce the stay in mental institutions for Aboriginal and/or Torres Strait Islander people and assist early return to their communities

1.4 Examine and evaluate the environment of mental health facilities/institutions in relation to potential impact on Aboriginal and/or Torres Strait Islander clients

1.5 Identify the impact of cultural and spiritual factors on the way mental health problems develop and present

2. Address the organisation's role and function in the management and treatment of mental disorders

2.1 Identify ways in which the organisation's administrative and health care staff can physically, spiritually and emotionally support Aboriginal and/or Torres Strait Islander people and their families

2.2 Identify community health organisation's role and manner of preparing and supporting Aboriginal and/or Torres Strait Islander clients to re-enter their communities

2.3 Identify organisation policies and procedures that acknowledge the importance of Aboriginal and/or Torres Strait Islander people's spiritual and emotional ties

2.4 Clarify and support links between agencies providing primary, secondary and tertiary care

2.5 Identify and access appropriately local government and non-government resources available to assist clients from remote areas

3. Develop and maintain inter-sectoral networks

3.1 Recognise the importance of cross-sector collaborations between agencies, particularly in the context of early intervention and treatment for clients with multiple diagnoses

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

3.2 Identify the roles and functions of members of multidisciplinary health care teams

3.3 Recognise different organisational cultures within a drug and alcohol service and a mental health service, and identify their impact on workers

3.4 Identify difficulties in addressing gaps in the system that impede continuity of care

3.5 Emphasise factors/attributes that contribute to a flexible, dynamic and productive health team

3.6 Recognise the importance of policies that reflect equal opportunity and ensure that staff participate in cross-cultural awareness programs

3.7 Identify ways case management can contribute to effective inter-sectoral service delivery

3.8 Identify staff development issues for inter-sectoral workers

4. Use clinical practices appropriate to social and emotional wellbeing work

4.1 Identify clinical practices relevant to social and emotional wellbeing work

4.2 Clarify the meaning of 'culturally appropriate manner' in general and specific cultural contexts

4.3 Discuss client treatment with other members of the health care team

4.4 Recognise the importance of accurate clinical baseline observations in practice

4.5 Take client history in accordance with the needs of the client and the health care setting

4.6 Undertake comprehensive reporting in line with organisation requirements

4.7 Identify instances where the social and emotional wellbeing worker might advocate for a client in accordance with the philosophy of the organisation

5. Practise social and emotional

5.1 Use a culturally appropriate manner in all interactions with the client (including active listening,

**ELEMENT****PERFORMANCE CRITERIA**

|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite units removed</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- delivered social and emotional wellbeing services within a primary health care setting to at least three Aboriginal and/or Torres Strait Islander clients including:
  - using clinical practices appropriate to social and emotional wellbeing work
  - appropriately identifying treatment and measures to specifically support Aboriginal and/Torres Strait Islander cultures, such as traditional healers
  - providing support and advice to clients
  - working in collaboration with other team members and staff as required
  - communicating with clients in culturally appropriate and safe ways to gain and provide information, and make assessments of social and emotional health
  - referring clients as required according to their specific social and emotional wellbeing needs
  - on at least one occasion, worked with other members of a multi-disciplinary team to identify:
    - ways to support social and emotional wellbeing of clients in the primary health care setting

- barriers in providing support to clients, and ways to overcome these
- specific cross-cultural issues which need to be addressed by the team
- ways of working with others outside the team in other sectors, departments or agencies to support care of clients.
- 

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- role and responsibilities of a social and emotional wellbeing worker in a multidisciplinary team
- the differences between the roles of a social and emotional wellbeing worker in a community controlled organisation and in a government organisation
- organisational philosophies, values and beliefs
- social and emotional issues associated with mental health of Aboriginal and/or Torres Strait Islander clients
- clinical aspects of mental health assessments, treatments and services
- relevant OH&S requirements for practice, including (but not limited to):
  - duty of care
  - confidentiality
  - debriefing
  - universal precautions
  - hazard/incident reporting procedures.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as a senior member of and/or supervising a primary health care team
- with Aboriginal and/or Torres Strait Islander clients.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

## HLTAHW074 Provide closure on healing processes

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                                                              |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite units removed</p> |

### Application

This unit describes the required skills and knowledge to bring to a close the healing process as part of a relationship between a client and social and emotional wellbeing worker, as well as to access local therapeutic services, recognising limitations of therapy and factors that may influence clients in contacting a therapist.

The unit applies to senior Aboriginal and/or Torres Strait Islander Health Workers overseeing clinical aspects of the delivery of primary health care services and/or managing the overall delivery of primary health care services and programs to Aboriginal and/or Torres Strait Islander clients and communities.

This unit equips Aboriginal and/or Torres Strait Islander Health Workers to provide support related to social and emotional wellbeing and does not infer that they are qualified counsellors.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

*Elements define the essential outcomes.*

#### PERFORMANCE CRITERIA

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Facilitate a group healing journey

1.1 Review and agree to rules for participation in a healing group as part of a group, ensuring safety, cultural security and confidentiality during and after the process

1.2 Practise verbal and non-verbal communication skills within the group

1.3 Practise self-reflection through review of key issues recorded relating to the healing process

1.4 Acknowledge the impact of confronting own issues by self-disclosure of past emotional influences

1.5 Undertake work to review and complete a healing journey in the group context

1.6 Reflect on the impacts of participation in healing journeys and share in the group context

2. Create a safe place to continue healing

2.1 Acknowledge the importance of healing as an ongoing process for Aboriginal and/or Torres Strait Islander people

2.2 Explore and clarify the relevance of experiencing personal healing as a basis for providing support and healing for clients

2.3 Identify principles for creating a safe and culturally secure place for healing and take action to establish and maintain personal safety

2.4 Acknowledge the importance of the support processes of extended families in preparing for and undergoing a healing process

3. Assist clients to access therapeutic services in the local area

3.1 Identify therapeutic services available in the local area

3.2 Identify obstacles that clients may face when accessing the local therapeutic services

3.3 Develop and implement strategies to help clients access local therapeutic services

3.4 Develop and implement strategies for maintaining primary contact with the client when accessing local

**ELEMENT**

# Assessment Requirements for HLTAHW074 Provide closure on healing processes

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                                                              |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite units removed</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- facilitated a healing journey for at least one group of Aboriginal and/or Torres Strait Islander clients by:
  - negotiating rules of participation
  - explaining the relevance of experiencing personal healing as a basis for providing support to clients
  - demonstrating appropriate communication skills
  - providing a safe place for participants to undertake the healing journey
  - identifying an appropriate point to complete part of healing process and provide closure for self and clients
- assisted at least one client to identify and access appropriate therapeutic services to support ongoing healing as required
- reflected on their own involvement in healing journey, including any personal areas of concern, on at least one occasion.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- alternative therapies – art, music
- key communication models
- conflict resolution strategies for individuals and families
- debriefing, including:
  - definitions and processes
  - for self
  - for colleagues
- factors that the client may consider when contacting a therapist (e.g. kinship, training, confidentiality, gender, cost, approach, personal warmth, sincere concern, whether they can talk in a candid non-defensive way, reputation, understanding)
- limitations of therapy
- procedures for working with clients in crisis (i.e. safety issues, liaising with emergency agencies, calming strategies, etc.)
- professional boundaries
- self-healing journey
- story maps and storytelling
- strategies for assisting clients to access services
- strategies for overcoming client resistance
- suicide and self-harm
- referral options.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as a senior member of and/or supervising a primary health care team
- with Aboriginal and/or Torres Strait Islander clients.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

| Release 1.0 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.</p> <p>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- planned, implemented and evaluated at least one community health project to support the provision of health services for Aboriginal and/or Torres Strait Islander individuals and communities by:
  - consulting appropriately with community, stakeholders, staff and research team about the purpose, methodology and aims of the research
  - ensuring confidentiality of community information relevant to the project
  - performing a project risk assessment
  - coordinating flow of information with community and research team
  - facilitating groups for research, discussion and feedback purposes
  - documenting the progress and outcomes of the project
  - referring to relevant legislative and organisational requirements as appropriate.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- relevant Commonwealth, state/territory and local government policies
- community/sector networks associated with community health
- funding guidelines related to community health projects
- local Community Health Plans
- organisation policies and guidelines.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as a senior member of and/or supervising a primary health care team
- with Aboriginal and/or Torres Strait Islander clients.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Application

This unit describes the required skills and knowledge to develop, prepare and promote plans of action for responding to non-medical emergencies that may affect a community. Planning is undertaken in consultation with other agencies and key people, and sets out the roles and responsibilities of workers and others in the community, for responding to an emergency.

This unit applies to senior Aboriginal and/or Torres Strait Islander Health Workers overseeing clinical aspects of the delivery of primary health care services and/or managing the overall delivery of primary health care services and programs to Aboriginal and/or Torres Strait Islander clients and communities.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Liaise with relevant government agencies

1.1 Identify and analyse existing relevant disaster plans and policies

1.2 Consult government agencies to determine and confirm different and complementary roles in the local disaster plan

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

2. Identify and liaise with appropriate community organisations

2.1 Identify community organisations and incorporate in an information database

2.2 Use effective communication strategies to establish contact with community organisations

2.3 Identify barriers to effective liaison and develop processes to facilitate communication with other agencies

3. Develop disaster plan to address local requirements

3.1 Collect information on local requirements and resources from key people and organisations

3.2 Clarify roles and responsibilities of all organisations in relation to responding to a disaster

3.3 Ensure local disaster plan is written to reflect local requirements

3.4 Establish a promotions strategy and facilitate implementation

4. Co-ordinate local support

4.1 Seek volunteers for disaster plan designated roles, via identified organisations and public processes

4.2 Clarify individual, team and organisation roles and responsibilities

4.3 Identify team leaders by discussion with organisations

4.4 Hold meetings to discuss disaster plan and personnel requirements

5. Ensure training for volunteers and staff

5.1 Identify training and resource requirements for volunteers and staff

5.2 Coordinate development and promotion of training programs

5.3 Develop, promote and support implementation of training schedule

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

5.4 Evaluate and modify training as required

6. Evaluate and modify disaster plan

6.1 Consult key people about effectiveness of the disaster plan

6.2 Adapt disaster plan as required to meet community needs

6.3 Distribute amendments to disaster plan to key people

6.4 Provide additional training as required

**Foundation Skills**

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

**Unit Mapping Information**

No equivalent unit.

# Assessment Requirements for HLTAHW076 Plan for community emergencies

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- planned for a community emergency by:
  - consulting effectively with the community to:
    - identify local issues
    - clarify roles and responsibilities of the organisation and community
    - promote community involvement
    - facilitate group discussions to develop the plan
  - consulting with relevant stakeholders, including emergency agencies, to identify responsibilities and roles
  - making and distributing amendments to disaster plan to key stakeholders
- facilitated the implementation of the emergency plan by:
  - developing and implementing a promotions strategy to inform community, staff and relevant stakeholders
  - identifying volunteers and coordinating relevant training and resources to support their implementation of the plan
  - ensuring health service personnel are trained in emergency processes under the plan.

All performance evidence must be demonstrated at least once.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- key community networks relating to emergency response, including local resources, suppliers and tradespeople
- relevant legislation, protocols and policies or guidelines
- local disaster planning processes
- local cultural and community knowledge
- networks development
- relevant equipment and technology in terms of types, sources, operation and maintenance
- client confidentiality requirements.
- 

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as a senior member of and/or supervising a primary health care team
- with Aboriginal and/or Torres Strait Islander clients.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care

# HLTAHW077 Provide supervision for social and emotional wellbeing workers

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

## Application

This unit describes the required skills and knowledge to provide professional supervision for social and emotional wellbeing workers practising in an Aboriginal and/or Torres Strait Islander community context.

The unit applies to senior Aboriginal and/or Torres Strait Islander Health Workers overseeing clinical aspects of the delivery of primary health care services and/or managing the overall delivery of primary health care services and programs to Aboriginal and/or Torres Strait Islander clients and communities.

This unit equips Aboriginal and/or Torres Strait Islander Health Workers to provide support related to social and emotional wellbeing and does not infer that they are qualified counsellors.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

## Elements and Performance Criteria

### ELEMENT

*Elements define the essential outcomes.*

### PERFORMANCE CRITERIA

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Provide debriefing and support for social and emotional wellbeing workers

1.1 Provide workers with a supportive environment to discuss social and emotional wellbeing work issues

1.2 Maintain confidentiality of clients and workers

1.3 Guide workers through a process of self-reflection and review of key issues relating to social and emotional wellbeing work

1.4 Assist workers to identify personally confronting issues and utilise them constructively in their work

1.5 Assist workers to identify and apply appropriate strategies and techniques for protection of self and clients

2. Analyse and evaluate social and emotional wellbeing processes and outcomes

2.1 Obtain information to clarify issues arising and strategies used to address these issues in social and emotional wellbeing work

2.2 Clarify client outcomes achieved through the work

2.3 Analyse strategies and practices used by workers

2.4 Evaluate the effectiveness of strategies and practices used in social and emotional wellbeing work in terms of outcomes for clients and impact on worker

3. Provide feedback and support to social and emotional wellbeing worker

3.1 Discuss strategies and practices used by worker in relation to client outcomes and impact on worker

3.2 Provide feedback to reinforce appropriate social and emotional wellbeing work and/or to support change where required

3.3 Provide professional guidance to worker as required

3.4 Support worker to change and/or enhance practices as appropriate

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Unit Mapping Information

No equivalent unit.

## Assessment Requirements for HLTAHW077 Provide supervision for social and emotional wellbeing workers

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                               |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role.

There must be evidence that the candidate has:

- supported at least two Aboriginal and/or Torres Strait Islander health workers to provide social and emotional wellbeing support by:
  - providing professional feedback, debriefing and support
  - using culturally appropriate and safe communication skills with the worker to:
    - build rapport and trust
    - obtain information for reviewing practices
    - support the worker to discuss personally confronting issues
    - discuss strategies and techniques to protect the worker and clients
    - maintain confidentiality of the worker and their clients
  - reviewing worker's strategies and practices to reflect on client progress and outcomes, and identify successes and areas for change.

### Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- a range of strategies and practices used to achieve desired client outcomes in relation to social and emotional wellbeing work
- advanced skills, knowledge and attributes required to perform the work effectively
- potential for work to impact the Aboriginal and/or Torres Strait Islander Health Worker in relation to own personal, family and community issues
- strategies and practices to assist and support the Aboriginal and/or Torres Strait Islander Health Worker to prepare for, monitor and deal effectively with the impact of social and emotional wellbeing work.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as a senior member of and/or supervising a primary health care team
- with Aboriginal and/or Torres Strait Islander clients.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

#### PERFORMANCE CRITERIA

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Apply narrative therapy approaches to own work

- 1.1 Research the narrative worldview, narrative therapy approaches, common terms and key concepts
- 1.2 Identify work of people from indigenous and/or colonised cultures using narrative therapy approaches
- 1.3 Apply concepts of narrative therapy in own work in supporting the social and emotional wellbeing of clients, and observe cultural protocols where appropriate

2. Use externalising practices

- 2.1 Identify the difference between externalising and internalising practices
- 2.2 Explain to clients and/or community how externalising practices may be used to address a range of social and emotional wellbeing issues
- 2.3 Use culturally appropriate and safe communication skills to support clients and/or community to use externalising conversations to identify their social and emotional wellbeing issues

## Foundation Skills

*This section describes those language, literacy, numeracy and employment skills that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

# Assessment Requirements for HLTAHW078 Work within a narrative approach

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                                                             |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria.<br/>New evidence requirements for assessment, including volume and environment requirements<br/>Prerequisite unit removed</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has:

- worked with at least three clients and/or community groups to utilise narrative theory and externalised conversations as part of social and emotional wellbeing support by:
  - researching concepts and terminology relating to narrative therapy and externalised conversations, and their particular application to working with Aboriginal and/or Torres Strait Islander clients and/or communities
  - using culturally appropriate and safe communication to apply these concepts to support clients and/or communities to:
    - engage in a narrative therapy approach
    - use externalising conversations to identify issues to address.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

This includes knowledge of:

- being multi-storied – problem and preferred stories

- both local and general Aboriginal and/or Torres Strait Islander history, e.g. history of colonisation, assimilation, removal, etc.
- externalising practices and conversations
- how stories shape us
- key concepts and language terms characteristic to narrative therapy approaches
- making visible the politics of community life, and the tactics of internalisation
- stories coming from a social/political/cultural/historical context
- the impact of cultural knowledge on approaches to narrative work
- unique contributions of indigenous and colonised people's work to the development of narrative therapy approaches
- what makes a story.

## Assessment Conditions

Skills must be demonstrated working:

- in a health service or centre
- as a senior member of and/or supervising a primary health care team
- with Aboriginal and/or Torres Strait Islander clients.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

Assessment must be undertaken by a workplace assessor who has expertise in this unit of competency and who is:

- an Aboriginal and/or Torres Strait Islander Health Worker

or:

- accompanied by an Aboriginal and/or Torres Strait Islander person who is a recognised member of the community with experience in primary health care.

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria</p> <p>Revised evidence requirements, including volume and frequency of assessment</p> |

### Application

This unit describes the skills and knowledge required to perform cardiopulmonary resuscitation (CPR) in line with the Australian Resuscitation Council (ARC) Guidelines.

This unit applies to all workers who may be required to provide CPR, in a range of situations, including community and workplace settings.

*Specific licensing /regulatory requirements relating to this competency, including requirements for refresher training should be obtained from the relevant national/state/territory Work Health and Safety Regulatory Authorities.*

### Elements and Performance Criteria

#### ELEMENT

*Elements define the essential outcomes.*

#### PERFORMANCE CRITERIA

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Respond to an emergency situation

- 1.1 Recognise an emergency situation
- 1.2 Identify, assess and minimise immediate hazards to health and safety of self and others
- 1.3 Assess the casualty and recognise the need for CPR
- 1.4 Seek assistance from emergency response services

2. Perform CPR procedures

- 2.1 Perform cardiopulmonary resuscitation in accordance with ARC guidelines
- 2.2 Display respectful behaviour towards casualty
- 2.3 Operate automated external defibrillator (AED) according to manufacturer's instructions

3. Communicate details of the incident

- 3.1 Accurately convey incident details to emergency response services
- 3.2 Report details of incident to workplace supervisor as appropriate
- 3.3 Maintain confidentiality of records and information in line with statutory and/or organisational policies

## Foundation Skills

*The Foundation Skills described those required skills (language, literacy, numeracy and employability skills) that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Unit Mapping Information

No equivalent unit.

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria</p> <p>Revised evidence requirements, including volume and frequency of assessment</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has completed the following tasks in line with state/territory regulations, first aid codes of practice, Australian Resuscitation Council (ARC) guidelines and workplace procedures:

- Followed DRSABCD in line with ARC guidelines, including:
  - performed at least 2 minutes of uninterrupted single rescuer cardiopulmonary resuscitation (CPR) (5 cycles of both compressions and ventilations) on an adult resuscitation manikin placed on the floor
  - performed at least 2 minutes of uninterrupted single rescuer CPR (5 cycles both compressions and ventilations) on an infant resuscitation manikin placed on a firm surface
  - responded appropriately in the event of regurgitation or vomiting
  - managed the unconscious breathing casualty

- followed single rescue procedure, including the demonstration of a rotation of operators with minimal interruptions to compressions
- followed the prompts of an automated external defibrillator (AED)
- Responded to at least one simulated first aid scenario contextualised to the candidate's workplace/community setting, including:
  - demonstrated safe manual handling techniques
  - provided an accurate verbal or written report of the incident

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- State/Territory regulations, first aid codes of practice and workplace procedures including:
  - ARC Guidelines relevant to the provision of CPR
  - safe work practices to minimise risks and potential hazards
  - infection control principles and procedures, including use of standard precautions
  - requirements for currency of skill and knowledge
- Legal, workplace and community considerations, including:
  - awareness of potential need for stress-management techniques and available support following an emergency situation
  - duty of care requirements
  - respectful behaviour towards a casualty
  - own skills and limitations
  - consent
  - privacy and confidentiality requirements
  - importance of debriefing
- Considerations when providing CPR, including:
  - airway obstruction due to body position
  - appropriate duration and cessation of CPR
  - appropriate use of an AED
  - chain of survival
  - standard precautions
- Basic anatomy and physiology relating to:
  - how to recognise a person is not breathing normally
  - chest
  - response/consciousness
  - upper airway and effect of positional change

## Assessment Conditions

Skills must be demonstrated working individually in an environment that provides realistic in-depth, industry-validated scenarios and simulations to assess candidates' skills and knowledge.

Assessment resources must include:

- adult and infant resuscitation manikins in line with ARC Guidelines for the purpose of assessment of CPR procedures
- AED training device
- workplace injury, trauma and/or illness record, or other appropriate workplace incident report form

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

## Assessor Requirements

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

In addition hold current first aid certificate HLTAID003 or higher.

### Application

This unit describes the skills and knowledge required to recognise and respond to life-threatening emergencies in line with the Australian Resuscitation Council (ARC) Guidelines.

This unit applies to all workers who may be required to provide an emergency response in a range of situations, including community and workplace settings.

*Specific licensing /regulatory requirements relating to this competency, including requirements for refresher training should be obtained from the relevant national/state/territory Work Health and Safety Regulatory Authorities.*

### Elements and Performance Criteria

#### ELEMENT

*Elements define the essential outcomes.*

1. Respond to an emergency situation

#### PERFORMANCE CRITERIA

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1.1 Recognise an emergency situation

**ELEMENT**

*Elements define the essential outcomes.*

**PERFORMANCE CRITERIA**

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

| Release 2 | Minor corrections to formatting to improve readability. Equivalent competency outcome.                                                                                                                                                                                                                                   |
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria, changes to scope of unit. Changes to evidence requirements relative to revised scope of unit.</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has completed the following tasks in line with state/territory regulations, first aid codes of practice, Australian Resuscitation Council (ARC) guidelines and workplace procedures:

- Followed DRSABCD in line with ARC guidelines, including:
  - performed at least 2 minutes of uninterrupted single rescuer cardiopulmonary resuscitation (CPR) (5 cycles of both compressions and ventilations) on an adult resuscitation manikin placed on the floor
  - performed at least 2 minutes of uninterrupted single rescuer CPR (5 cycles both compressions and ventilations) on an infant resuscitation manikin placed on a firm surface
  - responded appropriately in the event of regurgitation or vomiting
  - managed the unconscious breathing casualty
  - followed single rescue procedure, including the demonstration of a rotation of operators with minimal interruptions to compressions
  - followed the prompts of an Automated External Defibrillator (AED)

- Responded to at least one simulated first aid scenario contextualised to the candidate's workplace/community setting, including:
  - demonstrated safe manual handling techniques
  - provided an accurate verbal or written report of the incident
- Applied first aid procedures for the following:
  - allergic reaction
  - anaphylaxis
  - bleeding control
  - choking and airway obstruction
  - respiratory distress, including asthma
  - shock

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- State/Territory regulations, first aid codes of practice and workplace procedures including:
  - ARC Guidelines relevant to provision of CPR and first aid
  - safe work practices to minimise risks and potential hazards
  - Infection control principles and procedures, including use of standard precautions
  - requirements for currency of skill and knowledge
- legal, workplace and community considerations, including:
  - awareness of potential need for stress-management techniques and available support following an emergency situation
  - duty of care requirements
  - respectful behaviour towards a casualty
  - own skills and limitations
  - consent
  - privacy and confidentiality requirements
  - importance of debriefing
- considerations when providing basic emergency life support, including:
  - airway obstruction due to body position
  - appropriate duration and cessation of CPR
  - appropriate use of an AED
  - chain of survival
  - standard precautions
- principles and procedures for first aid management of the following scenarios:
  - allergic reaction
  - anaphylaxis
  - bleeding control

- cardiac conditions, including chest pain
- choking and airway obstruction
- respiratory distress, including asthma
- shock
- stroke
- basic anatomy and physiology relating to:
  - considerations in provision of first aid for specified conditions
  - chest
  - how to recognise a person is not breathing normally
  - response/consciousness
  - upper airway and effect of positional change

## Assessment Conditions

Skills must be demonstrated working individually in an environment that provides realistic in-depth, industry-validated scenarios and simulations to assess candidates' skills and knowledge.

Assessment resources must include:

- adult and infant resuscitation manikins in line with ARC Guidelines for the purpose of assessment of CPR procedures
- adrenaline auto-injector training device
- AED training device
- placebo bronchodilator and spacer device
- roller bandages
- triangular bandage
- workplace First Aid kit
- workplace injury, trauma and/or illness record, or other appropriate workplace incident report form
- wound dressing

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

## Assessor requirements

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

In addition hold current first aid certificate HLTAID003 or higher.

| Release 5 | Updated mapping information. Changes to assessment requirements. Equivalent outcome.                                                                                                                                                                                                                                        |
| Release 4 | Updated mapping information. Equivalent outcome.                                                                                                                                                                                                                                                                            |
| Release 3 | Updated mapping information.                                                                                                                                                                                                                                                                                                |
| Release 2 | Minor corrections to formatting to improve readability. Equivalent competency outcome.                                                                                                                                                                                                                                      |
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria, changes to scope of unit. New evidence requirements for assessment. Removal of prerequisite unit</p> |

### Application

This unit describes the skills and knowledge required to provide a first aid response to a casualty. The unit applies to all workers who may be required to provide a first aid response in a range of situations, including community and workplace settings.

*Specific licensing /regulatory requirements relating to this competency, including requirements for refresher training should be obtained from the relevant national/state/territory Work Health and Safety Regulatory Authorities.*

### Elements and Performance Criteria

#### ELEMENT

*Elements define the essential outcomes.*

#### PERFORMANCE CRITERIA

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Respond to an emergency situation

- 1.1 Recognise an emergency situation
- 1.2 Identify, assess and manage immediate hazards to health and safety of self and others
- 1.3 Assess the casualty and recognise the need for first aid response
- 1.4 Assess the situation and seek assistance from emergency response services

2. Apply appropriate first aid procedures

- 2.1 Perform cardiopulmonary resuscitation (CPR) in accordance with Australian Resuscitation Council (ARC) guidelines
- 2.2 Provide first aid in accordance with established first aid principles
- 2.3 Display respectful behaviour towards casualty
- 2.4 Obtain consent from casualty where possible
- 2.5 Use available resources and equipment to make the casualty as comfortable as possible
- 2.6 Operate first aid equipment according to manufacturer's instructions
- 2.7 Monitor the casualty's condition and respond in accordance with first aid principles

3. Communicate details of the incident

- 3.1 Accurately convey incident details to emergency response services
- 3.2 Report details of incident to workplace supervisor as appropriate
- 3.3 Maintain confidentiality of records and information in line with statutory and/or organisational policies

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

4. Evaluate the incident and own performance

4.1 Recognise the possible psychological impacts on self and other rescuers involved in critical incidents

4.2 Participate in debriefing to address individual needs

**Foundation Skills**

*The Foundation Skills described those required skills (such as language, literacy, numeracy and employment skills) that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

**Unit Mapping Information**

No equivalent unit.

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria, changes to scope of unit. New evidence requirements for assessment. Removal of prerequisite unit</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has completed the following tasks in line with state/territory regulations, first aid codes of practice, Australian Resuscitation Council (ARC) guidelines and workplace procedures:

- Followed DRSABCD in line with ARC guidelines, including:
  - performed at least 2 minutes of uninterrupted single rescuer cardiopulmonary resuscitation (CPR) (5 cycles of both compressions and ventilations) on an adult resuscitation manikin placed on the floor
  - performed at least 2 minutes of uninterrupted single rescuer CPR (5 cycles both compressions and ventilations) on an infant resuscitation manikin placed on a firm surface
  - responded appropriately in the event of regurgitation or vomiting
  - managed the unconscious breathing casualty

- followed single rescue procedure, including the demonstration of a rotation of operators with minimal interruptions to compressions
- followed the prompts of an Automated External Defibrillator (AED)
- Responded to at least two simulated first aid scenarios contextualised to the candidate's workplace/community setting, including:
  - conducted a visual and verbal assessment of the casualty
  - demonstrated safe manual handling techniques
  - post-incident debrief and evaluation
  - provided an accurate verbal or written report of the incident
- Applied first aid procedures for the following:
  - allergic reaction
  - anaphylaxis
  - bleeding control
  - choking and airway obstruction
  - envenomation, using pressure immobilisation
  - fractures, sprains and strains, using arm slings, roller bandages or other appropriate immobilisation techniques
  - respiratory distress, including asthma
  - shock

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- State/Territory regulations, first aid codes of practice and workplace procedures including:
  - ARC Guidelines relevant to provision of CPR and first aid
  - safe work practices to minimise risks and potential hazards
  - infection control principles and procedures, including use of standard precautions
  - requirements for currency of skill and knowledge
- legal, workplace and community considerations including:
  - awareness of potential need for stress-management techniques and available support following an emergency situation
  - duty of care requirements
  - respectful behaviour towards a casualty
  - own skills and limitations
  - consent
  - privacy and confidentiality requirements
  - importance of debriefing
- considerations when providing first aid including:
  - airway obstruction due to body position

- appropriate duration and cessation of CPR
- appropriate use of an AED
- chain of survival
- standard precautions
- how to conduct a visual and verbal assessment of the casualty
- principles and procedures for first aid management of the following scenarios:
  - abdominal injuries
  - allergic reaction
  - anaphylaxis
  - basic care of a wound
  - bleeding control
  - burns
  - cardiac conditions, including chest pain
  - choking and airway obstruction
  - crush injuries
  - diabetes
  - dislocations
  - drowning
  - envenomation
  - environmental impact, including hypothermia, hyperthermia, dehydration and heat stroke
  - eye and ear injuries
  - fractures
  - febrile convulsions
  - head, neck and spinal injuries
  - minor skin injuries
  - needle stick injuries
  - poisoning and toxic substances
  - respiratory distress, including asthma
  - seizures, including epilepsy
  - shock
  - soft tissue injuries, including strains and, sprains
  - stroke
  - unconsciousness
- basic anatomy and physiology relating to:
  - how to recognise a person is not breathing normally
  - chest
  - response/consciousness
  - upper airway and effect of positional change
  - considerations in provision of first aid for specified conditions

## Assessment Conditions

Skills must be demonstrated working individually in an environment that provides realistic in-depth, industry-validated scenarios and simulations to assess candidates' skills and knowledge.

Assessment resources must include:

- adult and infant resuscitation manikins in line with ARC Guidelines for the purpose of assessment of CPR procedures
- adrenaline auto-injector training device
- AED training device
- placebo bronchodilator and spacer device
- roller bandages
- triangular bandages
- workplace First Aid kit
- workplace injury, trauma and/or illness record, or other appropriate workplace incident report form for written reports
- wound dressings

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

## Assessor requirements

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

| Release 4 | Updated mapping information. Changes to assessment requirements. Equivalent outcome.                                                           |
| Release 3 | Minor corrections to formatting to improve readability. Equivalent outcome.                                                                    |
| Release 2 | Minor corrections to formatting to improve readability. Equivalent outcome.                                                                    |
| Release 1 | This new was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages. |

### Application

This unit describes the skills and knowledge required to provide a first aid response to infants, children and adults.

The unit applies to educators and support staff working within an education and care setting who are required to respond to a first aid emergency, including asthmatic and anaphylactic emergencies.

*This unit of competency may contribute towards approved first aid, asthma and anaphylaxis training under the Education and Care Services National Law, and the Education and Care Services National Regulations (2011).*

*Specific licensing requirements, including requirements for refresher training, should be obtained from the Australian Children's Education and Care Quality Authority (ACECQA) and/or relevant state/territory Work Health and Safety Regulatory Authority.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Respond to an emergency situation

- 1.1 Recognise an emergency situation
- 1.2 Identify, assess and minimise immediate hazards to health and safety of self and others
- 1.3 Assess the casualty and recognise the need for first aid response
- 1.4 Assess the situation and seek assistance from emergency response services

2. Apply appropriate emergency first aid procedures

- 2.1 Perform cardiopulmonary resuscitation (CPR) in accordance with Australian Resuscitation Council (ARC) guidelines
- 2.2 Provide first aid in accordance with established first aid principles
- 2.3 Ensure casualty feels safe, secure and supported
- 2.4 Obtain consent from casualty, caregiver, registered medical practitioners or medical emergency services where possible
- 2.5 Use available resources and equipment to make the casualty as comfortable as possible
- 2.6 Operate first aid equipment according to manufacturer's instructions
- 2.7 Monitor the casualty's condition and respond in accordance with first aid principles

3. Communicate details of the incident

- 3.1 Accurately convey details of the incident to emergency response services
- 3.2 Report details of incident to supervisor
- 3.3 Complete relevant workplace documentation, including incident report form
- 3.4 Report details of incidents involving babies and children to parents and/or caregivers
- 3.5 Follow workplace procedures to report serious incidents to the regulatory authority
- 3.6 Maintain confidentiality of records and information in line with statutory and/or organisational policies

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

4. Evaluate the incident and own performance

4.1 Recognise the possible psychological impacts on self, other rescuers and children

4.2 Talk with children about their emotions and responses to events

4.3 Participate in debriefing with supervisor

## Foundation Skills

*The Foundation Skills described those required skills (such as language, literacy, numeracy and employment skills) that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Unit Mapping Information

No equivalent unit.

| Release 2 | Minor corrections to formatting to improve readability. Equivalent outcome.                                                                    |
| Release 1 | This new was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages. |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has completed the following tasks in line with state/territory regulations, first aid codes of practice, Australian Resuscitation Council (ARC) guidelines and workplace procedures:

- Followed DRSABCD in line with ARC guidelines, including:
  - performed at least 2 minutes of uninterrupted single rescuer cardiopulmonary resuscitation (CPR) (5 cycles of both compressions and ventilations) on an adult resuscitation manikin placed on the floor
  - Performed at least 2 minutes of uninterrupted single rescuer CPR (5 cycles both compressions and ventilations) on a child resuscitation manikin placed on the floor
  - performed at least 2 minutes of uninterrupted single rescuer CPR (5 cycles both compressions and ventilations) on an infant resuscitation manikin placed on a firm surface
  - responded appropriately in the event of regurgitation or vomiting
  - managed the unconscious breathing casualty
  - followed single rescue procedure, including the demonstration of a rotation of operators with minimal interruptions to compressions

- followed the prompts of an Automated External Defibrillator (AED)
- Responded to at least three simulated first aid scenarios contextualised to the candidate's workplace/community setting, and involving infants and children of varying ages including:
  - conducted a visual and verbal assessment of the casualty
  - demonstrated safe manual handling techniques
  - post-incident debrief and evaluation
  - provided an accurate verbal and written report of the incident
  - conducted a hazard assessment and identified strategies to minimise risk
- Applied first aid procedures for the following:
  - allergic reaction
  - anaphylaxis
  - bleeding control
  - choking and airway obstruction
  - envenomation, using pressure immobilisation
  - fractures, sprains and strains, using arm slings, roller bandages or other appropriate immobilisation principles techniques
  - head injuries
  - poisoning
  - respiratory distress, including asthma
  - seizures & convulsions, including febrile convulsions and epilepsy
  - shock
- Located and interpreted workplace policies and procedures

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- State/Territory regulations, first aid codes of practice and workplace procedures including:
  - ARC Guidelines for provision of CPR and first aid to infants, children and adults
  - guidelines from Australian national peak clinical bodies
  - safe work practices to minimise risks and potential hazards
  - first aid requirements for services under the Education and Care Services National Law
  - infection control principles and procedures, including use of standard precautions
  - requirements for currency of skill and knowledge
- legal, workplace and community considerations, including:
  - awareness of potential need for stress-management techniques and available support following an emergency situation, including the psychological impact on children
  - duty of care requirements

- respectful behaviour towards a casualty
- own skills and limitations
- consent, including situations in which parental/caregiver consent is required
- privacy and confidentiality requirements
- importance of debriefing
- considerations when providing first aid including:
  - airway obstruction due to body position
  - appropriate duration and cessation of CPR
  - appropriate use of an AED, including placement of pads for adults and children aged older than 8 years
  - specific considerations when using an AED on children aged between 1 and 8 years, including identification of AED with paediatric capability, paediatric voltage and use of paediatric pads
  - chain of survival
  - standard precautions
  - how to conduct a visual and verbal assessment of the casualty
- principles and procedures for application of first aid management of the following scenarios:
  - abdominal injuries
  - allergic reaction
  - anaphylaxis, including signs, symptoms and triggers and using different types of adrenaline auto injectors
  - asthma, including signs, symptoms and triggers and using different types of bronchodilators
  - basic care of a wound
  - bleeding control
  - burns
  - cardiac conditions, including chest pain
  - choking and airway obstruction
  - crush injuries
  - diabetes
  - dislocations
  - drowning
  - envenomation
  - environmental impact, including hypothermia, hyperthermia, dehydration and heat stroke
  - eye and ear injuries
  - febrile convulsions
  - fractures
  - head, neck and spinal injuries
  - minor skin injuries

- needle stick injuries
- poisoning and toxic substances
- respiratory distress
- seizures, including epilepsy
- shock
- soft tissue injuries, including sprains and strains
- stroke
- unconsciousness
- basic anatomy and physiology relating to:
  - how to recognise a person is not breathing normally
  - chest
  - infant respiratory systems and implications for provision of CPR
  - basic anatomical differences between adults and children, and the implications for provision of first aid
  - normal clinical values for children
  - response/consciousness
  - upper airway and effect of positional change

## Assessment Conditions

Skills must be demonstrated working individually in an environment that provides realistic in-depth, industry-validated scenarios and simulations to assess candidates' skills and knowledge.

Assessment resources must include:

- adult, child and infant resuscitation manikins in line with ARC Guidelines for the purpose of assessment of CPR procedures
- AED training device
- different types of training adrenalin auto-injector training devices (e.g. EpiPen and AnaPen)
- different types of placebo bronchodilators and a spacer device
- roller bandages
- triangular bandages
- workplace First Aid kit
- workplace injury, trauma and/or illness record, or other appropriate workplace incident report form
- wound dressings

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

## Assessor requirements

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria, changes to scope of unit.</p> <p>New evidence requirements for assessment, including use of contextualised remote scenarios.</p> |

### Application

This unit describes the skills and knowledge required to provide first aid response and emergency life support to a casualty in a remote and/or isolated situation.

The unit applies to workers who may be required to prepare for and provide a first aid response in locations beyond the reach of timely medical assistance.

*Specific licensing /regulatory requirements relating to this competency, including requirements for refresher training should be obtained from the relevant national/state/territory Work Health and Safety Regulatory Authorities.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Respond to a remote emergency situation

- 1.1 Plan for isolated travel or work if required, accounting for expected contingencies
- 1.2 Recognise an emergency situation
- 1.3 Identify, assess and manage immediate hazards to health and safety of self and others
- 1.4 Assess the casualty and recognise the need for first aid response
- 1.5 Assess the situation and evaluate options for medical assistance
- 1.6 Evaluate options for transporting casualty or waiting for medical assistance in relation to environmental issues, risks, transport availability and casualty condition

2. Apply appropriate first aid procedures

- 2.1 Perform cardiopulmonary resuscitation (CPR) in accordance with Australian Resuscitation Council (ARC) guidelines
- 2.2 Provide first aid in accordance with established first aid principles
- 2.3 Display respectful behaviour towards casualty
- 2.4 Obtain consent from casualty where possible
- 2.5 Use available resources and equipment to make the casualty as comfortable as possible
- 2.6 Operate first aid equipment according to manufacturer's instructions
- 2.7 Monitor the casualty's condition and respond in accordance with first aid principles

3. Manage the incident

- 3.1 Seek assistance from others present to manage incident circumstances
- 3.2 Establish communication links with emergency response services and convey incident details
- 3.3 Report details of casualty condition, changes in condition, management and responses
- 3.4 Assist in the evacuation of the casualty by following directions given by emergency response services as

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

required

3.5 Maintain confidentiality of records and information in line with statutory and/or organisational policies

4. Evaluate the incident and own performance

4.1 Recognise the possible psychological impacts on self and other rescuers involved in critical incidents

4.2 Participate in debriefing to address individual needs

**Foundation Skills**

*The Foundation Skills described those required skills (such as language, literacy, numeracy and employment skills) that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

**Unit Mapping Information**

No equivalent unit

| Release 2 | Minor changes to formatting to improve readability.                                                                                                                                                                                                                                                                                                     |
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria, changes to scope of unit.</p> <p>New evidence requirements for assessment, including use of contextualised remote scenarios.</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has completed the following tasks in line with state/territory regulations, first aid codes of practice, Australian Resuscitation Council (ARC) guidelines and workplace procedures:

- Followed DRSABCD in line with ARC guidelines, including:
  - performed at least 2 minutes of uninterrupted single rescuer cardiopulmonary resuscitation (CPR) (5 cycles of both compressions and ventilations) on an adult resuscitation manikin placed on the floor
  - performed at least 2 minutes of uninterrupted single rescuer CPR (5 cycles both compressions and ventilations) on an infant resuscitation manikin placed on a firm surface
  - responded appropriately in the event of regurgitation or vomiting
  - managed the unconscious breathing casualty

- followed single rescue procedure, including the demonstration of a rotation of operators with minimal interruptions to compressions
- followed the prompts of an Automated External Defibrillator (AED)
- Responded to at least three simulated first aid scenarios contextualised to the candidate's remote and/or isolated situation:
  - demonstrated safe manual handling techniques
  - conducted a visual and verbal secondary survey assessment of the casualty
  - assessed vital signs, including respirations, pulse and temperature
  - post-incident debrief and evaluation
  - provided an accurate verbal and written report of the incident
- Applied first aid response in a remote situation for the following:
  - allergic reaction
  - anaphylaxis
  - basic care of a wound
  - bleeding control
  - choking and airway obstruction
  - envenomation, using pressure immobilisation
  - environmental impacts, including hypothermia, hyperthermia, dehydration and heat stroke
  - fractures, sprains and strains, using arm slings, roller bandages or other appropriate immobilisation techniques
  - head, neck and spinal injuries, using immobilisation principles
  - respiratory distress, including asthma
  - shock

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- State/Territory regulations, first aid codes of practice and workplace procedures including:
  - ARC guidelines relevant to provision of CPR and first aid
  - safe work practices to minimise risks and potential hazards
  - infection control principles and procedures, including use of standard precautions
  - requirements for currency of skill and knowledge
- legal, workplace and community considerations including:
  - awareness of potential need for stress-management techniques and available support following an emergency situation
  - duty of care requirements
  - respectful behaviour towards a casualty
  - own skills and limitations

- consent
- privacy and confidentiality requirements
- importance of debriefing
- considerations when providing first aid, including:
  - airway obstruction due to body position
  - appropriate duration and cessation of CPR
  - appropriate use of an AED
  - chain of survival
  - standard precautions
  - how to conduct a visual and verbal secondary survey assessment
  - assessment and interpretation of vital signs, including respirations, temperature and pulse
- principles and procedures for first aid management of the following scenarios, contextualised to the candidate's remote and/or isolated situation:
  - abdominal injuries
  - allergic reaction
  - anaphylaxis
  - basic care of a wound
  - bleeding control
  - burns
  - cardiac conditions, including chest pain
  - choking and airway obstruction
  - crush injuries
  - diabetes
  - dislocations
  - drowning
  - envenomation
  - environmental impact, including hypothermia, hyperthermia, dehydration and heat stroke
  - eye and ear injuries
  - febrile convulsions
  - fractures
  - head, neck and spinal injuries
  - minor skin injuries
  - needle stick injuries
  - poisoning and toxic substances
  - respiratory distress, including asthma
  - seizures, including epilepsy
  - shock
  - soft tissue injuries, including sprains and strains

- stroke
- unconsciousness
- remote considerations in the provision of first aid, including:
  - typical hazards and strategies for preparing supplies to address contingencies
  - management options relating to transporting casualty, including aero-medical evacuation
  - how to identify and prepare areas for safe evacuation, including aero-medical evacuation
  - how and when to access emergency response services
  - communication systems, equipment and methods available in remote situations
  - priorities of management in first aid when dealing with life-threatening conditions
  - specific considerations contextualised to alpine, desert, marine, rural/remote settings and tropical environments
- basic anatomy and physiology relating to:
  - how to recognise a person is not breathing normally
  - chest
  - response/consciousness
  - upper airway and effect of positional change
  - considerations in provision of first aid for specified conditions, including specific considerations for remote settings

## Assessment Conditions

Skills must be demonstrated working individually in an environment that provides realistic in-depth, industry-validated scenarios and simulations to assess candidates' skills and knowledge.

- Assessment resources must include:
  - adult and infant resuscitation manikins in line with ARC Guidelines for the purpose of assessment of CPR procedures
  - adrenaline auto-injector training device
  - AED training device
  - placebo bronchodilator and spacer device
  - roller bandages
  - thermometer
  - triangular bandages
  - workplace First Aid kit suitable for remote locations
  - workplace injury, trauma and/or illness record, or other appropriate workplace incident report form
  - wound dressings

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

### **Assessor requirements**

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria, changes to scope of unit.</p> <p>Removal of embedded content from HLTF412A Apply First Aid.</p> <p>New evidence requirements for assessment.</p> <p>Removal of prerequisite unit</p> |

### Application

This unit describes the skills and knowledge required to provide an advanced first aid response, including management of the incident and other first aiders, until the arrival of medical or other assistance.

The unit applies to workers who may be required to provide, coordinate and manage a first aid response across a range of complex situations, including community and workplace settings.

*Specific licensing /regulatory requirements relating to this competency, including requirements for refresher training should be obtained from the relevant national/state/territory Work Health and Safety Regulatory Authorities.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Respond to an emergency situation

- 1.1 Recognise an emergency situation
- 1.2 Identify, assess and manage immediate hazards to health and safety of self and others
- 1.3 Assess the casualty and recognise the need for first aid response
- 1.4 Assess the situation and seek assistance from emergency response services
- 1.5 Deploy resources to appropriate locations as required in line with workplace procedures

2. Apply appropriate first aid procedures

- 2.1 Perform cardiopulmonary resuscitation (CPR) in accordance with Australian Resuscitation Council (ARC) guidelines
- 2.2 Provide first aid in accordance with established first aid principles
- 2.3 Display respectful behaviour towards casualty
- 2.4 Obtain consent from casualty where possible
- 2.5 Use available resources and equipment to make the casualty as comfortable as possible
- 2.6 Operate first aid equipment according to manufacturer's instructions
- 2.7 Monitor the casualty's condition and respond in accordance with first aid principles

3. Coordinate first aid activities until arrival of medical assistance

- 3.1 Identify available resources required and establish communication links with appropriate personnel, emergency management services and medical assistance as appropriate
- 3.2 Deploy correct amount of required resources to appropriate locations in an effective manner to ensure timely arrival
- 3.3 Document the provision of resources and recommend modifications as required
- 3.4 Monitor the condition of casualties in accordance with first aid principles and workplace procedures

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

3.5 Coordinate evacuation of casualties according to relevant evacuation procedures

3.6 Arrange support services for personnel involved in the incident in accordance with relevant principles and procedures

4. Communicate details of the incident

4.1 Accurately convey incident details to emergency response services

4.2 Report details of incident in line with organisational policies

4.3 Maintain confidentiality of records and information in line with statutory and/or organisational policies

5. Evaluate the incident and own performance

5.1 Recognise the possible psychological impacts on self and other rescuers involved in critical incidents

5.2 Participate in debriefing to address individual needs

5.3 Evaluate management of the incident and develop an action plan in consultation with relevant parties

5.4 Review contingency planning to identify and select alternative management principles and procedures as required

**Foundation Skills**

*The Foundation Skills described those required skills (such as language, literacy, numeracy and employment skills) that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has completed the following tasks in line with state/territory regulations, first aid codes of practice, Australian Resuscitation Council (ARC) guidelines and workplace procedures:

- followed DRSABCD in line with ARC guidelines, including:
  - performed at least 2 minutes of uninterrupted single rescuer cardiopulmonary resuscitation (CPR) (5 cycles of both compressions and ventilations) on an adult resuscitation manikin placed on the floor
  - performed at least 2 minutes of uninterrupted single rescuer CPR (5 cycles both compressions and ventilations) on an infant resuscitation manikin placed on a firm surface

- performed at least 2 minutes of Bag-valve-mask ventilation and at least 2 minutes of compression during a two rescuer procedure on an adult resuscitation manikin placed on the floor
- responded appropriately in the event of regurgitation or vomiting
- managed the unconscious breathing casualty
- followed the prompts of a Automated External Defibrillator (AED)
- followed single rescue procedure, including the demonstration of a rotation of operators with minimal interruptions to compressions
- responded to at least three simulated first aid scenarios contextualised to the candidate's workplace/community setting, including:
  - demonstrated safe manual handling techniques
  - conducted a visual and verbal secondary survey assessment of the casualty
  - assessed vital signs (respirations, pulse and temperature)
  - communicated effectively with a first aid team providing direction and coordination of other first aiders
  - post-incident debrief and evaluation
  - provided an accurate verbal and written report of the incident
- applied first aid procedures for the following:
  - allergic reaction
  - anaphylaxis
  - bleeding control
  - choking and airway obstruction
  - conducted a basic triage for multiple casualty incident
  - envenomation (using pressure immobilisation)
  - fractures, sprains and strains (using arm slings, roller bandages or other appropriate immobilisation principles)
  - head, neck and spinal injuries (using immobilisation principles)
  - respiratory distress - including asthma
  - seizures - including epilepsy
  - shock
- located and interpreted workplace policies and procedures

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- State/Territory regulations, first aid codes of practice and workplace procedures including:
  - ARC guidelines relevant to provision of CPR and first aid
  - guidelines of Australian national peak clinical bodies
  - safe work practices to deal with risks and potential hazards including manual handling, hazardous substances, dangerous goods and chemicals

- infection control principles and procedures, including use of standard precautions
- requirements for currency of skill and knowledge
- legal, workplace and community considerations including:
  - awareness of potential need for stress-management techniques and available support following an emergency situation
  - capabilities of emergency management services
  - consent
  - duty of care requirements
  - importance of debriefing
  - own skills and limitations
  - legal requirements of administration of medication and the rights and responsibilities of the First Aider in the workplace regarding medication
  - privacy and confidentiality requirements
  - respectful behaviour towards a casualty
- considerations when providing first aid including:
  - airway obstruction due to body position
  - appropriate duration and cessation of CPR
  - appropriate use of an AED
  - assessment and interpretation of vital signs, including respirations, temperature and pulse
  - chain of survival
  - how to conduct a visual and verbal secondary survey assessment of casualty
  - priorities of management in first aid when dealing with life-threatening conditions
  - procedures for dealing with casualties who are aged or infirmed
  - procedures for dealing with major and minor accidents in the workplace
  - procedures when providing first aid to children
  - standard precautions
- principles and procedures for first aid management of the following scenarios, including complications:
  - abdominal injuries
  - allergic reaction
  - anaphylaxis
  - basic care of a wound
  - bleeding control
  - burns, including thermal, chemical, friction and electrical
  - cardiac conditions, including chest pain
  - choking and airway obstruction
  - crush injuries
  - diabetes
  - drowning

- emergency childbirth
- envenomation
- environmental impact including hypothermia, hyperthermia, dehydration and heat stroke
- eye and ear injuries
- febrile convulsions
- head, neck and spinal injuries
- levels of consciousness
- needle stick injuries
- poisoning and toxic substances
- respiratory distress, including asthma
- seizures, including epilepsy
- shock
- skin injuries
- soft tissue musculoskeletal, including injuries including sprains, strains, dislocations and fractures
- stroke
- substance misuse, including common drugs and alcohol, including illicit drugs
- basic anatomy and physiology relating to:
  - how to recognise a person is not breathing normally
  - chest, skeleton, joints and muscles
  - response/level of consciousness
  - upper airway and effect of positional change
  - considerations in provision of first aid for specified conditions

## Assessment Conditions

Skills must be demonstrated working individually in an environment that provides realistic in-depth, industry-validated scenarios and simulations to assess candidates' skills and knowledge.

Assessment resources must include:

- adult and infant resuscitation manikins in line with ARC Guidelines for the purpose of assessment of CPR procedures
- adrenaline auto-injector training device
- AED training device.
- bag-valve-mask
- eye patch
- placebo bronchodilator and spacer device
- roller bandages
- thermometer
- triangular bandages

- workplace first Aid kit
- workplace injury, trauma and/or illness record, or other appropriate workplace incident report form
- wound dressings

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

### **Assessor requirements**

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

### Application

This unit describes the skills and knowledge required to use specialised equipment in the provision of resuscitation in line with the Australian Resuscitation Council (ARC) guidelines.

This unit applies to workers who may be required to use specialised equipment to provide resuscitation in a range of complex situations, including community and workplace settings.

*Specific licensing /regulatory requirements relating to this competency, including requirements for refresher training should be obtained from the relevant national/state/territory Work Health and Safety Regulatory Authorities.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Respond to an emergency situation

- 1.1 Recognise an emergency situation
- 1.2 Identify, assess and manage immediate hazards to health and safety of self and others
- 1.3 Assess the casualty and recognise the need for advanced resuscitation response
- 1.4 Assess the situation and seek assistance from emergency response services

2. Perform advanced resuscitation

- 2.1 Perform cardiopulmonary resuscitation (CPR) in accordance with ARC guidelines
- 2.2 Provide supplemental oxygen
- 2.3 Display respectful behaviour towards casualty
- 2.4 Obtain consent from casualty where possible
- 2.5 Use available resources and equipment to make the casualty as comfortable as possible
- 2.6 Monitor casualty condition and rectify issues preventing adequate treatment

3. Communicate details of the incident

- 3.1 Accurately convey incident details to emergency response services
- 3.2 Report details of incident in line with organisational policies
- 3.3 Maintain confidentiality of records and information in line with statutory and/or organisational policies

4. Evaluate the incident and own performance

- 4.1 Recognise the possible psychological impacts on self and other rescuers involved in critical incidents
- 4.2 Participate in debriefing to address individual needs
- 4.3 Check, maintain and clean equipment ready for future use

## Foundation Skills

*The Foundation Skills described those required skills (such as language, literacy, numeracy and employment skills) that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Unit Mapping Information

No equivalent unit

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

The demonstrated evidence is performed in line within state/territory regulations, first aid codes of practice, Australian Resuscitation Council (ARC) guidelines and workplace procedures.

- Followed DRSABCD in line with ARC guidelines, including:
  - performed at least 2 minutes of uninterrupted single rescuer cardiopulmonary resuscitation (CPR) (5 cycles of both compressions and ventilations) on an adult resuscitation manikin placed on the floor

- performed at least 2 minutes of uninterrupted single rescuer CPR (5 cycles both compressions and ventilations) on an infant resuscitation manikin placed on a firm surface
- performed at least 2 minutes of bag-valve-mask ventilation and at least 2 minutes of compression on an adult resuscitation manikin placed on the floor
- responded appropriately in the event of regurgitation or vomiting
- managed the unconscious breathing casualty
- followed the prompts of an Automated External Defibrillator (AED)
- followed single rescue procedure, including the demonstration of a rotation of operators with minimal interruptions to compressions
- conducted a visual and verbal secondary survey assessment of the casualty
- assessed vital signs (respirations, pulse and temperature)
- responded to at least three simulated first aid scenarios contextualised to the candidate's workplace/community setting, including:
  - demonstrated safe manual handling techniques
  - clearing the airway using a suction device
  - post-incident debrief and evaluation
  - provided an accurate verbal and written report of the incident
- selected and inserted an oropharyngeal airway adjunct
- administered oxygen to an unconscious/conscious casualty, including:
  - selected and prepared correct oxygen equipment
  - administered oxygen safely at correct flow rate
- monitored and coordinated maintenance of resuscitation equipment
  - dismantling
  - storage
  - disposal
  - cleaning and decontamination
  - checking and diagnosis of faults
- located and interpreted workplace policies and procedures

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- State/Territory regulations, first aid codes of practice and workplace procedures including:
  - ARC guidelines relevant to provision of CPR
  - guidelines of Australian national peak clinical bodies
  - safe work practices to deal with risks and potential hazards including manual handling, hazardous substances, dangerous goods and chemicals
  - infection control principles and procedures, including use of standard precautions
  - requirements for currency of skill and knowledge

- legal, workplace or community considerations including:
  - awareness of potential need for stress-management techniques and available support following an emergency situation
  - capabilities of emergency management services
  - consent
  - duty of care requirements
  - importance of debriefing
  - legal requirements of administration of medication and the rights and responsibilities of the First Aider in the workplace regarding medication
  - own skills and limitations
  - privacy and confidentiality requirements
  - respectful behaviour towards a casualty
- considerations when performing resuscitation including:
  - airway obstruction due to body position
  - appropriate duration and cessation of CPR
  - appropriate use of an AED
  - assessment and interpretation of vital signs (respirations, temperature and pulse)
  - benefits, contraindications and complications with the use of an oropharyngeal airway
  - chain of survival
  - how to conduct a visual and verbal secondary survey assessment
  - standard precautions
- considerations when providing supplementary oxygen, including:
  - benefits, contraindications and complications of providing oxygen to a casualty and of providing suction during the application of advanced resuscitation techniques
  - complications with the use of a bag-valve-mask device and suitable strategies to minimise these
  - selection and operation of oxygen masks and other appropriate delivery devices
- basic anatomy, physiology and toxicology as it relates to the provision of advanced resuscitation, including:
  - basic electrical activity associated with normal and abnormal heart rhythm
  - how to recognise a person is not breathing normally
  - relevant organs of the cardio pulmonary system and their operation
  - response/level of consciousness
  - upper airway and effect of positional change
- methods for cleaning, replenishing, recharging and maintaining resuscitation and oxygen equipment including:
  - actions to rectify problems
  - procedures to ensure operational readiness
  - storage, cleaning, decontamination and safe disposal of consumables
  - troubleshooting to identify minor and major faults

## Assessment Conditions

Skills must be demonstrated working individually in an environment that provides realistic in-depth, industry-validated scenarios and simulations to assess candidates' skills and knowledge.

Assessment resources must include:

- adult and infant resuscitation manikins in line with ARC Guidelines for the purpose of assessment of CPR procedures
- airway model suitable for insertion of an oropharyngeal airway
- Automated External Defibrillator (AED) training device.
- bag-valve-mask
- oropharyngeal airway adjunct
- oxygen resuscitation system with oxygen cylinder
- selection of oxygen masks with tubing; nasal cannula, therapy mask, resuscitation mask with oxygen port
- thermometer
- suction device
- workplace incident, injury, trauma or illness record or other appropriate workplace incident report form.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

### Assessor requirements

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

New evidence requirements for assessment. Removal of prerequisite unit</p> |

### Application

This unit describes the skills and knowledge required to establish, maintain and facilitate the provision of appropriate first aid in the workplace.

The unit applies to workers in nominated occupational first aid or management roles.

Specific licensing requirements relating to this competency, including requirements for refresher training, should be obtained from the relevant state/territory Work Health and Safety Regulatory Authority.

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Determine workplace first aid requirements

1.1 Identify workplace hazards and assess associated risks as a basis for determining first aid resource requirements

1.2 Identify first aid equipment, resources and personnel required to address workplace requirements

1.3 Develop first aid action plans in consultation with relevant parties

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

|                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|----------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                          | 1.4 Provide information to encourage risk minimisation and enable access to first aid facilities                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 2. Establish and maintain workplace first aid facilities | <p>2.1 Monitor and maintain availability of first aid equipment, resources and personnel to support workplace first aid response</p> <p>2.2 Conduct regular inspections of stock and equipment to ensure currency and operational readiness in line with workplace requirements</p> <p>2.3 Ensure equipment is recovered and reprocessed and that waste is disposed of safely according to legislative and workplace procedures</p> <p>2.4 Ensure equipment and resources are stored and maintained in line with relevant legislation and manufacturer's/supplier's instructions</p> <p>2.5 Deploy appropriate equipment, resources and personnel to ensure timely and effective first aid response in line with workplace requirements</p> |
| 3. Maintain workplace first aid records                  | <p>3.1 Ensure documentation is completed as required according to legislation and workplace procedures</p> <p>3.2 Maintain first aid records in line with legislative requirements and workplace security practices</p> <p>3.3 Send relevant documents to appropriate bodies in line with workplace and legislative requirements</p> <p>3.4 Maintain confidentiality of records and information in line with privacy principles and statutory and/or organisational policies</p>                                                                                                                                                                                                                                                            |
| 4. Review the provision of first aid in the workplace    | <p>4.1 Participate in debriefing/evaluation to improve future operations and address individual needs</p> <p>4.2 Evaluate management of workplace first aid incidents in relation to required resources, personnel, current organisational procedures and individual first aid</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

**ELEMENT**

*Elements define the essential outcomes.*

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria, changes to scope of unit.</p> <p>Removal of all embedded material from HLTFA404C and HLTFA412A. New evidence requirements for assessment. Removal of prerequisite unit</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be evidence that the candidate has completed the following tasks at least once in line with State/Territory regulations, first aid codes of practice, Australian Resuscitation Council (ARC) guidelines and workplace procedures:

- conducted a workplace risk assessment
- developed a first aid response plan including strategies for management of incidents
- used a first aid checklist to service a workplace first aid kit for supplies' replacement and equipment maintenance
- maintained first aid equipment and resources according to manufacturer's instructions
- used and maintained documentation required by the workplace and regulatory authorities.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- state/territory regulations, first aid codes of practice and workplace procedures including:
  - workplace requirements for first aid provision in line with the relevant state/territory Work Health and Safety requirements

- duty of care in relation to first aid provision
- safe work practices to deal with risks and potential hazards including manual handling, hazardous substances, dangerous goods and chemicals
- infection control principles and procedures, including use of standard precautions based on incident
- requirements for currency of skill and knowledge
- legal, workplace or community issues relating to the provision of CPR including:
  - awareness of potential need for stress-management techniques and available support following an emergency situation
  - consent
  - capabilities of emergency management services
  - privacy and confidentiality requirements
  - importance of debriefing.

## Assessment Conditions

Skills must be demonstrated:

- in a workplace environment that provides realistic in-depth, industry-validated scenarios and simulations to assess candidates' skills and knowledge.

Assessment resources must include:

- first aid equipment such as:
- first aid kit and contents checklist
- an incident report form
- relevant state/territory Work Health and Safety First Aid Code of Practice.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment, including workplace resources required by the relevant state/territory Work Health and Safety Regulatory Authority.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors

# HLTAID014 Provide Advanced First Aid

## Modification History

Not applicable.

## Application

This unit describes the skills and knowledge required to provide an advanced first aid response to a casualty in line with first aid guidelines determined by the Australian Resuscitation Council (ARC) and other Australian national peak clinical bodies.

The unit applies to all persons who may be required to provide an advanced first aid response in a range of situations, including community and workplace settings.

*Specific licensing/regulatory requirements relating to this competency, including requirements for refresher training should be obtained from the relevant national/state/territory Work Health and Safety Regulatory Authorities.*

## Elements and Performance Criteria

### ELEMENTS

### PERFORMANCE CRITERIA

*Elements describe the essential outcomes*

*Performance criteria describe the performance needed to demonstrate achievement of the element.*

1. Respond to an emergency situation.

- 1.1. Recognise and assess an emergency situation.
- 1.2. Ensure safety for self, bystanders and casualty.
- 1.3. Assess the casualty and recognise the need for first aid response.
- 1.4. Deploy resources to appropriate locations as required in line with appropriate workplace or site procedures.
- 1.5. Seek assistance from emergency services.

2. Apply appropriate first aid procedures.

- 2.1. Perform single-rescuer or two-rescuer cardiopulmonary resuscitation (CPR) in accordance with the ARC guidelines and availability of rescuers.
- 2.2. Provide first aid in accordance with established first aid principles.
- 2.3. Display respectful behaviour towards casualty.
- 2.4. Obtain consent from casualty where possible.
- 2.5. Use available resources and equipment to make the casualty as comfortable as possible.
- 2.6. Operate first aid and ancillary equipment according to manufacturers' instructions.

- 2.7. Monitor the casualty's condition and respond in accordance with first aid principles.
- 3. Coordinate first aid activities until arrival of medical assistance.
  - 3.1. Identify available resources required and establish communication links with appropriate personnel, emergency services or medical assistance as appropriate.
  - 3.2. Deploy required resources to appropriate locations in an efficient and effective manner to ensure timely treatment of casualties.
  - 3.3. Monitor the condition of casualties in accordance with first aid principles and workplace or site procedures.
  - 3.4. Coordinate evacuation of casualties according to relevant evacuation procedures.
- 4. Communicate details of the incident.
  - 4.1. Accurately convey incident details to emergency services.
  - 4.2. Report details of incident in line with appropriate workplace or site procedures.
  - 4.3. Complete applicable workplace or site documentation, including incident report form.
  - 4.4. Maintain privacy and confidentiality of information in line with statutory or organisational policies.
- 5. Review the incident.
  - 5.1. Recognise the possible psychological impacts on self and other rescuers and seek help when required.
  - 5.2. Arrange support services for personnel involved in the incident in accordance with relevant procedures.
  - 5.3. Contribute to a review of the first aid response as required.

## Foundation Skills

The Foundation Skills describe those required skills (language, literacy, numeracy and employment skills) that are essential to performance.

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Unit Mapping Information

Supersedes and not equivalent to HLTAID006 Provide advanced first aid.

## Links

Companion Volume implementation guides are found in VETNet -

# Assessment Requirements for HLTAID014 Provide Advanced First Aid

## Modification History

Not applicable.

## Performance Evidence

Evidence of the ability to complete tasks outlined in elements and performance criteria of this unit in the context of the workplace or community setting.

There must be evidence that the candidate has completed the following tasks in line with State/Territory regulations, first aid codes of practice, first aid guidelines determined by the Australian Resuscitation Council (ARC) and other Australian national peak clinical bodies and workplace or site procedures:

- managed, in line with ARC guidelines, the unconscious, breathing casualty including appropriate positioning to reduce the risk of airway compromise
- managed in line with ARC guidelines, the unconscious, non-breathing adult including:
  - performing at least 2 minutes of uninterrupted single rescuer cardiopulmonary resuscitation (CPR) (5 cycles of both compressions and ventilations) on an adult resuscitation manikin placed on the floor
  - performing at least 2 minutes of ventilation and at least 2 minutes of compression during a two-rescuer procedure on an adult resuscitation manikin placed on the floor
  - following the prompts of an automated external defibrillator (AED) to deliver at least one shock
  - responding appropriately in the event of regurgitation or vomiting
  - demonstrating a rotation of operators with minimal interruptions to compressions
- managed, in line with ARC guidelines, the unconscious, non-breathing infant, including:
  - performing at least 2 minutes of uninterrupted single rescuer CPR (5 cycles both compressions and ventilations) on an infant resuscitation manikin placed on a firm surface
- managed casualties, with the following:
  - anaphylaxis
  - asthma
  - non-life-threatening bleeding
  - choking
  - envenomation, using pressure immobilisation
  - fractures, dislocations, sprains and strains, using appropriate immobilisation techniques
  - minor wound cleaning and dressing
  - nosebleed

- shock
- life threatening bleeding requiring use of tourniquets and haemostatic dressings
- responded to at least two simulated first aid incidents, one medical and one trauma contextualised to the candidate's workplace or community setting, where the candidate has no knowledge of the casualty's condition prior to starting treatment, including:
  - identifying the casualty's illness or injury through history, signs and symptoms
  - using personal protective equipment (PPE) as required
  - conducting a secondary survey assessment
  - assessing vital signs respirations, pulse, temperature
  - level of consciousness
  - providing appropriate first aid treatment
  - conveying incident details to emergency services or advising casualty on any required post-incident action
  - providing an accurate verbal and written report of the incident
  - reviewing the incident
- coordinated a team of people to respond to a multiple casualty incident, including:
  - conducting a basic triage
  - demonstrating effective use of resources
  - demonstrating effective planning techniques
  - moving casualties using suitable extraction method and device and safe manual handling techniques.

## Knowledge Evidence

Demonstrated knowledge required to complete the tasks outlined in elements and performance criteria of this unit:

- guidelines and procedures including:
  - ARC guidelines relevant to the provision of first aid
  - first aid guidelines from Australian national peak clinical bodies
  - potential incident hazards and risk minimisation processes when providing first aid
  - infection control procedures, including use of standard precautions and resuscitation barrier devices
  - requirements for currency of skill and knowledge
  - first aid codes of practice
  - appropriate workplace or site procedures relevant to the provision of first aid
  - contents of first aid kits
- legal, workplace and community considerations including:
  - duty of care requirements
  - own skills and limitations
  - consent and how it relates to the conscious and unconscious casualty
  - privacy and confidentiality requirements

- awareness of potential need for stress management techniques and available support for rescuers
- in relation to the administration of medication
  - legal requirements
  - the five rights
  - the responsibilities of the first aider
- considerations when providing CPR, including:
  - upper airway and effect of positional change
  - appropriate duration and cessation of CPR
  - appropriate use of an AED
  - safety and maintenance procedures for an AED
  - chain of survival
  - how to access emergency services
- techniques for providing CPR to adults, children and infants including:
  - how to recognise that a casualty is unconscious and not breathing normally
  - rate, ratio and depth of compressions and ventilations
  - correct hand positioning for compressions
  - basic anatomy, physiology and the differences between adults, children and infants relating to CPR
- considerations when providing first aid, including:
  - assessment, interpretation and documentation of vital signs, including normal clinical values for respirations, temperature, pulse and level of consciousness
  - how to conduct a secondary assessment of a casualty
  - basic triage processes
  - procedures for dealing with casualties who are aged or infirm
  - procedures for first aid management when dealing with major and minor accidents in the workplace or site
  - procedures when providing first aid to children
  - use of ancillary first aid equipment
  - co-ordination of resources
  - contents of first aid kits
- signs, symptoms and management of the following conditions or injuries:
  - abdominal injuries
  - allergic reaction
  - anaphylaxis
  - asthma
  - non-life-threatening bleeding
  - life-threatening bleeding including use of tourniquets and haemostatic dressings
  - burns
  - cardiac conditions, including chest pain

- childbirth
- choking
- crush injuries
- diabetes
- drowning
- ear injuries and bleeding from the ear
- envenomation - all current treatments
- eye injuries
- fractures, dislocations, strains and sprains
- head, neck and spinal injuries
- hypothermia
- hyperthermia
- minor wounds
- nose-bleed
- poisoning
- seizures
- shock
- sharps injuries
- stroke
- substance misuse, including prescription and illicit drugs and alcohol
- psychological impacts of first aid incidents on rescuers and how to seek help.

## Assessment Conditions

Each candidate to demonstrate skills in an environment that provides realistic in-depth, scenarios and simulations to assess candidates' skills and knowledge.

Due to the nature of this type of training, it is acceptable for the performance evidence to be collected in a simulated environment.

Compression and ventilation skills must be demonstrated on resuscitation manikins following ARC guidelines for the purpose of assessment of CPR procedures.

Assessment must ensure access to:

- adult and infant resuscitation manikins following ARC guidelines for the purpose of assessment of CPR procedures
- adrenaline auto-injector training device
- AED training devices
- haemostatic dressings
- haemostatic wound packing trainer
- placebo bronchodilator and spacer device
- thermometers
- tourniquet trainer
- tourniquets

- different types of wound dressings and bandages
- blankets and items to treat for shock
- personal protective equipment (PPE)
- workplace injury, trauma or illness record, or other applicable workplace or site incident report form, which includes space for recording vital signs of casualties
- workplace first aid kits
- immobilisation and extrication devices.

Simulated assessment environments must simulate real-life situations where these skills and knowledge would be performed, with all the relevant equipment and resources of that workplace or community environment.

Assessors must satisfy the Standards for Registered Training Organisations' requirements for assessors and must hold this unit or demonstrate equivalent skills and knowledge to that contained within this unit.

# HLTAID015 Provide advanced resuscitation and oxygen therapy

## Modification History

Not applicable.

## Application

This unit describes the skills and knowledge required to use specialised equipment in the provision of resuscitation and oxygen therapy in line with the Australian Resuscitation Council (ARC) guidelines.

This unit applies to persons who may be required to use specialised equipment to provide resuscitation or oxygen therapy in a range of complex situations, including community and workplace settings.

*Specific licensing/regulatory requirements relating to this competency, including requirements for refresher training should be obtained from the relevant national/state/territory Work Health and Safety Regulatory Authorities.*

## Pre-requisite Unit

HLTAID011 Provide First Aid

## Elements and Performance Criteria

| ELEMENT                                        | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                           |
|------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements define the essential outcomes.</i> | <i>Performance criteria specify the level of performance needed to demonstrate achievement of the element.</i>                                                                                                                                                                                                                                                                 |
| 1. Respond to an emergency situation.          | 1.1. Recognise and assess an emergency situation.<br>1.2. Ensure safety for self, bystanders and casualty.<br>1.3 Assess the casualty and recognise the need for CPR, advanced resuscitation response or oxygen therapy.<br>1.4. Manage life-threatening bleeding.<br>1.5. Seek assistance from emergency services.<br>1.6. Ensure environment is safe for delivery of oxygen. |
| 2. Perform resuscitation procedures.           | 2.1. Perform single-rescuer cardiopulmonary resuscitation (CPR) or two-rescuer resuscitation procedures, including use of oxygen, in accordance with the ARC guidelines and availability of rescuers.                                                                                                                                                                          |

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

3. Deliver oxygen therapy.

2.2. Display respectful behaviour towards casualty.  
2.3. Use available resources and equipment according to manufacturers' instructions.

3.1. Identify need for oxygen therapy, including by using a pulse oximeter.  
3.2. Use appropriate delivery device to provide oxygen.  
3.3. Monitor casualty condition and rectify issues preventing adequate treatment.

4. Communicate details of the incident.

4.1. Accurately convey incident details to emergency services.  
4.2. Report details of incident in line with appropriate workplace or site procedures.  
4.3. Complete applicable documentation, including incident report form.  
4.4. Maintain privacy and confidentiality of information in line with statutory or organisational policies.

5. Review the incident.

5.1. Recognise the possible psychological impacts on self and other rescuers and seek help when required.  
5.2. Contribute to a review of the first aid response as required.  
5.3. Check, maintain and clean equipment ready for future use.

## Foundation Skills

The Foundation Skills describe those required skills (language, literacy, numeracy and employment skills) that are essential to performance.

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Unit Mapping Information

Supersedes and not equivalent to HLTAID007 Provide advanced resuscitation.

## Links

Companion Volume implementation guides are found in VETNet -  
<https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=ced1390f-48d9-4ab0-bd50-b015e5485705>

# Assessment Requirements for HLTAID015 Provide advanced resuscitation and oxygen therapy

## Modification History

Not applicable.

## Performance Evidence

Evidence of the ability to complete tasks outlined in elements and performance criteria of this unit in the context of the workplace or community setting.

There must be evidence that the candidate has completed the following tasks in line with State/Territory regulations, first aid codes of practice, first aid guidelines determined by the Australian Resuscitation Council (ARC) and other Australian national peak clinical bodies and workplace or site procedures:

- managed, in line with ARC guidelines, the unconscious, breathing casualty including appropriate positioning to reduce the risk of airway compromise
- managed, in line with ARC guidelines, the unconscious, non-breathing adult including:
  - performing at least 2 minutes of uninterrupted single rescuer cardiopulmonary resuscitation (CPR) (5 cycles of both compressions and ventilations) on an adult resuscitation manikin placed on the floor
  - performing at least 2 minutes of bag-valve-mask (with oxygen) ventilation and at least 2 minutes of compression during a two-rescuer procedure on an adult resuscitation manikin placed on the floor
  - selecting and inserting an appropriate basic airway adjunct
  - responding appropriately using positioning and suctioning in the event of regurgitation or vomiting
  - demonstrating a rotation of operators with minimal interruptions to compressions
  - following the prompts of an Automated External Defibrillator (AED) to deliver at least one shock
  - managing oxygen equipment appropriately
  - handing over to emergency services
- managed, in line with ARC guidelines, the unconscious, non-breathing infant, including:
  - performing at least 2 minutes of uninterrupted single rescuer CPR (5 cycles both compressions and ventilations) on an infant resuscitation manikin placed on a firm surface
- managed a casualty with life-threatening bleeding requiring use of tourniquets and haemostatic dressings
- used personal protective equipment (PPE) as required
- managed a conscious casualty who requires supplemental oxygen, including:
  - assessing vital signs respirations, pulse, oxygen saturation
  - level of consciousness

- selecting and preparing correct oxygen equipment
- checking area for ventilation and sources of ignition
- administering oxygen safely at correct flow rate
- managing an equipment malfunction
- providing an accurate verbal and written report of the incident
- reviewing the incident
- monitored and coordinated maintenance of resuscitation equipment and oxygen therapy equipment, including:
  - dismantling
  - storage
  - disposal
  - cleaning and decontamination
  - checking and diagnosis of faults.

## Knowledge Evidence

Demonstrated knowledge required to complete the tasks outlined in elements and performance criteria of this unit:

- guidelines and procedures including:
  - ARC guidelines relevant to life threatening bleeding, managing the unconscious breathing and non-breathing casualty and provision of CPR and oxygen therapy
  - potential incident hazards and risk minimisation processes when providing first aid, including Oxygen Therapy and Advanced Resuscitation Techniques
  - infection control procedures, including use of standard precautions and resuscitation barrier devices
  - safe work practices to deal with oxygen cylinders and associated equipment
  - first aid codes of practice
  - appropriate workplace or site procedures relevant to the provision of first aid
  - contents of first aid kits
  - requirements for currency of skill and knowledge
- legal, workplace and community considerations, including:
  - duty of care requirements
  - own skills and limitations
  - consent and how it relates to the conscious and unconscious casualty
  - privacy and confidentiality requirements
  - awareness of potential need for stress management techniques and available support for rescuers
- in relation to the administration of oxygen:
  - legal requirements
  - the five rights
  - the responsibilities of the first aider

- considerations when providing resuscitation, including:
  - upper airway and effect of positional change
  - appropriate duration and cessation of CPR
  - appropriate use of an AED
  - safety and maintenance procedures for an AED
  - chain of survival
  - how to access emergency services
  - use of suction devices
  - benefits, contraindications and complications with the use of a basic airway adjunct
- techniques for providing CPR to adults, children and infants including:
  - how to recognise that a casualty is unconscious and not breathing normally
  - rate, ratio and depth of compressions and ventilations
  - correct hand positioning for compressions
  - basic anatomy, physiology and the differences between adults, children and infants relating to CPR
- assessment and interpretation of vital signs including normal clinical values for respirations, pulse, oxygen saturation
- level of consciousness
- how to use a suction device
- signs, symptoms and management of life-threatening bleeding including use of tourniquets and haemostatic dressings
- considerations when providing oxygen to a casualty, including:
  - circumstances and conditions where oxygen is beneficial
  - circumstances and conditions where oxygen should not be used
  - contraindications and complications associated with providing oxygen and suction while delivering advanced resuscitation techniques
  - benefits, contraindications and complications of suction during advanced resuscitation
  - complications with the use of a bag-valve-mask device and suitable strategies to minimise these
  - selection and operation of oxygen masks and other appropriate oxygen therapy devices
- methods for cleaning, replenishing, recharging and maintaining resuscitation and oxygen equipment including:
  - actions to rectify problems
  - procedures to ensure operational readiness as per manufacturers' guidelines and site procedures
  - storage, cleaning, decontamination and safe disposal of consumables
  - troubleshooting to identify minor and major faults
- psychological impacts of first aid incidents on rescuers and how to seek help.

## Assessment Conditions

Each candidate to demonstrate skills in an environment that provides realistic in-depth, scenarios and simulations to assess candidates' skills and knowledge.

Due to the nature of this type of training, it is acceptable for the performance evidence to be collected in a simulated environment. Evidence of the learner's currency as required by the first aid codes of practice must be confirmed prior to assessment.

Compression and ventilation skills must be demonstrated on resuscitation manikins following ARC guidelines for the purpose of assessment of CPR procedures.

Assessment must ensure access to:

- adult and infant resuscitation manikins following ARC guidelines for the purpose of assessment of CPR procedures
- anatomical model for use with a basic airway adjunct
- AED training devices
- bag-valve-mask
- basic airway adjunct
- oxygen resuscitation system with oxygen cylinder and regulator
- pulse oximeter
- selection of oxygen masks and tubes
- suction devices
- personal protective equipment (PPE)
- haemostatic dressings
- haemostatic wound packing trainer
- tourniquet trainer
- tourniquets
- workplace incident, injury, trauma or illness record or other appropriate workplace or site incident report form, which includes space for recording vital signs of casualties.

Simulated assessment environments must simulate real-life situations where these skills and knowledge would be performed, with all the relevant equipment and resources of that workplace or community environment.

Assessors must satisfy the Standards for Registered Training Organisations' requirements for assessors and must hold this unit or demonstrate equivalent skills and knowledge to that contained within this unit.

## HLTAID016 Manage first aid services and resources

### Modification History

Not applicable.

### Application

This unit describes the skills and knowledge required to establish, maintain and facilitate the provision of appropriate first aid in the workplace.

The unit applies to workers in nominated occupational first aid or management roles.

*Specific licensing/regulatory requirements relating to this competency, including requirements for refresher training should be obtained from the relevant national/state/territory Work Health and Safety Regulatory Authorities.*

### Elements and Performance Criteria

#### ELEMENTS

#### PERFORMANCE CRITERIA

*Elements describe the essential outcomes*

*Performance criteria describe the performance needed to demonstrate achievement of the element.*

1. Determine workplace first aid requirements.

- 1.1. Identify workplace hazards and assess associated risks as a basis for determining first aid resource requirements.
- 1.2. Identify first aid equipment, resources and personnel required to address workplace requirements.
- 1.3. Develop first aid action plans in consultation with relevant parties.
- 1.4. Provide information to minimise risk and enable access to first aid facilities.

2. Establish and maintain workplace first aid facilities.

- 2.1. Monitor and maintain availability of first aid equipment and personnel to support workplace first aid response.
- 2.2. Conduct inspections of first aid stock and equipment to ensure currency and operational readiness in line with workplace requirements.
- 2.3. Ensure equipment is recovered and reprocessed and that waste is disposed of safely according to legislative and workplace procedures.
- 2.4. Ensure equipment and resources are stored and maintained in line with relevant legislation and manufacturers' or suppliers' instructions.
- 2.5. Deploy appropriate equipment and personnel to ensure

- timely and effective first aid response in line with workplace requirements.
3. Maintain workplace first aid records.
- 3.1. Ensure documentation is completed in line with legislation and workplace procedures.
  - 3.2. Maintain first aid records in line with legislative requirements and workplace security practices.
  - 3.3. Send relevant documents to appropriate bodies in line with workplace and legislative requirements.
  - 3.4. Maintain privacy and confidentiality of records and information in line with privacy legislation and organisational policies.
4. Review the provision of first aid in the workplace.
- 4.1. Participate in incident debriefing or evaluation to improve future operations and address individual needs.
  - 4.2. Evaluate management of workplace first aid incidents in relation to required equipment, personnel, current organisational procedures and individual first aid action plans.
  - 4.3. Contribute to the review of workplace policies and procedures in accordance with risk assessment and evaluation of first aid provision.

## Foundation Skills

The Foundation Skills describe those required skills (language, literacy, numeracy and employment skills) that are essential to performance.

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Unit Mapping Information

Supersedes and is equivalent to HLTAID008 Manage first aid services and resources

## Links

Companion Volume implementation guides are found in VETNet - <https://vetnet.gov.au/Pages/TrainingDocs.aspx?q=ced1390f-48d9-4ab0-bd50-b015e5485705>

## Assessment Requirements for HLTAID016 Manage first aid services and resources

### Modification History

Not applicable.

### Performance Evidence

Evidence of the ability to complete tasks outlined in elements and performance criteria of this unit in the context of the job role.

There must be evidence that the candidate has completed the following tasks in line with State or Territory regulations, first aid codes of practice, Australian Resuscitation Council (ARC) guidelines and workplace procedures:

- conducted a workplace risk assessment and evaluation of first aid provisions
- developed a first aid action plan including strategies for management of incidents and individuals needs in accordance with workplace policies and procedures
- used a first aid checklist to service a workplace first aid kit for supplies' replacement and equipment maintenance
- maintained first aid equipment and resources according to manufacturers' instructions
- used and maintained documentation required by the workplace and regulatory authorities.

### Knowledge Evidence

Demonstrated knowledge required to complete the tasks outlined in elements and performance criteria of this unit:

- state/territory regulations, first aid codes of practice and workplace procedures including:
  - workplace requirements for first aid provision in line with the relevant state/territory Work Health and Safety requirements
  - duty of care in relation to first aid provision
  - safe work practices to deal with risks and potential hazards including manual handling, hazardous substances, dangerous goods and chemicals
  - infection control principles and procedures, including use of standard precautions based on incident
  - requirements for currency of skill and knowledge
- legal, workplace or community issues relating to the provision of first aid including:
  - awareness of potential need for stress-management techniques and available support following an emergency situation
  - consent
  - capabilities of emergency management services
  - privacy and confidentiality requirements

- importance of debriefing.

## Assessment Conditions

Skills must be demonstrated in an environment that provides realistic in-depth, scenarios and simulations to assess candidates' skills and knowledge.

Assessment must ensure access to:

- first aid kit and contents checklist
- workplace injury, trauma and/or illness record, or other applicable workplace or site incident report form
- relevant State or Territory Work Health and Safety First Aid Code of Practice.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment, including workplace resources required by the relevant state/territory Work Health and Safety Regulatory Authority.

Assessors must satisfy the Standards for Registered Training Organisations' requirements for assessors.

| Release 1.0 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Updated to incorporate content of unit HLTWHS200A. Revised scope of unit to reflect requirements of workers. New evidence requirements for assessment.</p> |

## Application

This unit describes the skills and knowledge required for workers to participate in safe work practices to ensure their own health and safety, and that of others.

The unit applies to all workers who require knowledge of workplace health and safety (WHS) to carry out their own work, either under direct supervision or with some individual responsibility.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

#### 1. Follow safe work practices

1.1 Follow workplace policies and procedures for safe work practices

1.2 Identify existing and potential hazards in the workplace, report them to designated persons, and record them according to workplace procedures

1.3 Follow workplace emergency procedures

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

2. Implement safe work practices

2.1 Identify and implement WHS procedures and work instructions

2.2 Identify and report incidents and injuries to designated persons according to workplace procedures

2.3 Take actions to maintain safe housekeeping practices in own work area

3. Contribute to safe work practices in the workplace

3.1 Raise WHS issues with designated persons according to organisational procedures

3.2 Participate in workplace safety meetings, inspections and consultative activities

3.3 Contribute to the development and implementation of safe workplace policies and procedures in own work area

4. Reflect on own safe work practices

4.1 Identify ways to maintain currency of safe work practices in regards to workplace systems, equipment and processes in own work area

4.2 Reflect on own levels of stress and fatigue, and report to designated persons according to workplace procedures

## Foundation Skills

*The Foundation Skills described those required skills (language, literacy and numeracy) that are essential to performance.*

- *Reading* – in order to accurately read and interpret workplace safety policies and procedures including safety signs, dangerous goods classifications and safety instructions

The remaining foundation skills essential to performance are explicit in the performance criteria of this unit

## Unit Mapping Information

No equivalent unit.

| Release 1.0 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Updated to incorporate content of unit HLTWHS200A. Revised scope of unit to reflect requirements of workers. New evidence requirements for assessment.</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be demonstrated evidence that the candidate has completed the following tasks at least once in line with state/territory WHS regulations, relevant codes of practice and workplace procedures:

- contributed to a WHS meeting or inspection in workplace
- conducted a workplace risk assessment and recorded the results
- consistently applied workplace safety procedures in the day-to-day work activities required by the job role
- followed workplace procedures for reporting hazards
- followed workplace procedures for a simulated emergency situation.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- state/territory legislation and how it impacts on workplace regulations, codes of practice and industry standards, including:
  - state/territory WHS authorities

- rights and responsibilities of employers and workers, including duty of care
- hazardous manual tasks
- infection control
- safety signs and their meanings, including signs for:
  - dangerous goods classifications
  - emergency equipment
  - personal protective equipment (PPE)
  - specific hazards such as sharps, radiation
- hazard identification, including:
  - definition of a hazard
  - common workplace hazards relevant to the industry setting
  - workplace procedures for hazard identification
- workplace emergency procedures
- workplace policies and procedures for WHS

## Assessment Conditions

Skills must be demonstrated:

- in the workplace

OR

- in an environment that provides realistic in-depth industry validated scenarios and simulations to assess candidates' skills and knowledge.

Assessment must ensure use of:

- current workplace policies and procedures for WHS
- PPE relevant to the workplace and job role of the worker

In addition, assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

## HLTWHS002 Follow safe work practices for direct client care

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                    |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Revised scope of unit to reflect requirements of workers in direct client care environment</p> <p>New evidence requirements for assessment</p> |

### Application

This unit describes the skills and knowledge required for a worker to participate in safe work practices to ensure their own health and safety, and that of others in work environments that involve caring directly for clients. It has a focus on maintaining safety of the worker, the people being supported and other community members.

This unit applies to all workers who require knowledge of workplace health and safety (WHS) to carry out their own work, in both centre-based and home-based service provision.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Follow safe work practices for direct client care

- 1.1 Follow workplace policies and procedures for safe work practices
- 1.2 Identify existing and potential hazards in the workplace, report them to designated persons, and record them according to workplace procedures

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

- 1.3 Identify any client-related risk factors or behaviours of concern, report them to designated persons, and record them according to workplace procedures
- 1.4 Follow workplace policies and procedures to minimise risk
- 1.5 Identify and report incidents and injuries to designated persons according to workplace procedures

2. Follow safe work practices for manual handling

- 2.1 Follow manual handling procedures and work instructions for minimising manual handling risk
- 2.2 Identify manual handling hazards and report in line with workplace procedures
- 2.3 Apply control measures for minimising manual handling risk

3. Follow safe work practices for infection control

- 3.1 Follow standard precautions as part of own work routine to prevent the spread of infection
- 3.2 Recognise situations when additional infection control procedures are required
- 3.3 Apply additional precautions when standard precautions alone may not be sufficient to prevent transmission of infection
- 3.4 Identify risks of infection and report them according to workplace procedures

4. Contribute to safe work practices in the workplace

- 4.1 Raise WHS issues with designated persons according to organisational procedures
- 4.2 Participate in workplace safety meetings, inspections and consultative activities
- 4.3 Contribute to the development and implementation of safe workplace policies and procedures in own work area

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

5. Reflect on own safe work practices

5.1 Identify ways to maintain currency of safe work practices in regards to workplace systems, equipment and processes in own work role

5.2 Reflect on own levels of stress and fatigue, and report to designated persons according to workplace procedures

5.3 Participate in workplace debriefing to address individual needs

**Foundation Skills**

*The Foundation Skills described those required skills (language, literacy and numeracy) that are essential to performance.*

- *Reading* – in order to accurately read and interpret workplace safety policies and procedures including safety signs, dangerous goods classifications and safety instructions

The remaining foundation skills essential to performance are explicit in the performance criteria of this unit

# Assessment Requirements for HLTWHS002 Follow safe work practices for direct client care

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                    |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Revised scope of unit to reflect requirements of workers in direct client care environment</p> <p>New evidence requirements for assessment</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be demonstrated evidence that the candidate has completed the following tasks at least once in line with state/territory WHS regulations, relevant codes of practice and workplace procedures:

- contributed to a workplace WHS meeting or inspection
- conducted a workplace risk assessment and recorded the results
- consistently applied workplace safety procedures in the day-to-day work activities required by the job role, including:
  - infection control
  - hazardous manual tasks
  - use of personal protective equipment
  - reporting incidents
- followed workplace procedures for at least one simulated emergency situation.

## Knowledge Evidence

The candidate must demonstrate knowledge of:

- state/territory legislation and how it impacts on workplace regulations, codes of practice and industry standards, including:
  - state/territory WHS authorities
  - rights and responsibilities of employers and workers, including duty of care

- hazardous manual tasks
- infection control
- safety symbols and their meanings, including signs for:
  - poisons
  - emergency equipment
  - personal protective equipment (PPE)
  - specific hazards such as sharps, radiation
- hazard identification, including:
  - definition of a hazard
  - common workplace hazards relevant to the industry setting including hazardous manual tasks, infection control risks and personal safety risks
  - workplace procedures for hazard identification
  - strategies minimising risk
- safety considerations when working in a home-based environment, including:
  - rights and responsibilities of workers and clients
  - basic home fire safety including high-risk groups, behaviour that contributes to fire injury and fatalities, and smoke alarm placement, installation and maintenance.
  - risks to personal safety
  - common sources of infection and means to minimise transfer of infectious diseases
  - fundamentals of the musculoskeletal system and practices to minimise injury to self and clients
- workplace emergency procedures
- workplace policies and procedures for WHS

## Assessment Conditions

Skills must be demonstrated:

- in the workplace

OR

- in an environment that provides realistic in-depth industry validated scenarios and simulations to assess candidates' skills and knowledge.

In addition, assessment must ensure use of:

- current workplace policies and procedures for WHS
- PPE relevant to the workplace and job role of the worker

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

| Release 1.0 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Updated to include relevant content from HLTWHS401A. Revised scope of unit to reflect requirements of supervisor and/or line manager.</p> |

### Application

This unit describes the skills and knowledge required to implement and monitor work health and safety (WHS) policies, procedures and work practices as part of a small work team.

This unit applies to workers who have a key role in maintaining WHS in an organisation, including duty of care for other workers.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Contribute to workplace procedures for identifying hazards and controlling risks

1.1 Identify existing and potential hazards and record them according to workplace procedures

1.2 Contribute to the development of strategies for implementing risk controls in line with workplace procedures and policies

1.3 Implement risk controls in line with the hierarchy of

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

risk control and workplace and legislative requirements

1.4 Identify and report issues with risk controls, including residual risk, in line with workplace and legislative requirements

2. Implement policies and procedures into work team processes

2.1 Regularly provide information about WHS policies and procedures to the work team

2.2 Provide information about identified hazards and the outcomes of risk assessment and risk controls to the work team

2.3 Monitor housekeeping practices to ensure that WHS policies and procedures are followed

2.4 Maintain WHS incident records in the work area according to workplace procedures and legislative requirements

3. Support consultation, cooperation and communication

3.1 Support workplace consultative procedures by encouraging work team participation in consultative activities

3.2 Report health and safety issues in line with workplace procedures and legislative requirements

3.3 Encourage and assist work team members to contribute to WHS

## Foundation Skills

*The Foundation Skills described those required skills (language, literacy and numeracy) that are essential to performance.*

- *Written communication* – in order to complete a workplace risk assessment and complete a workplace incident report in line with regulatory guidelines and organisational policies
- *Oral communication* – in order to accurately present information to a small group of at least two participants

The remaining foundation skills essential to performance are explicit in the performance criteria of this unit

| Release 1.0 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Updated to include relevant content from HLTWHS401A. Revised scope of unit to reflect requirements of supervisor and/or line manager.</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be demonstrated evidence that the candidate has completed the following tasks at least once in line with state/territory WHS regulations, relevant codes of practice and workplace procedures:

- conducted a workplace risk assessment and recorded the results, including:
  - identification of hazards and potential hazards
  - risk assessment
  - strategies for minimising risk, and
  - analysis of residual risk
- provided WHS information to at least two workers, including:
  - explanation of WHS policies and procedures
  - demonstration of safe housekeeping practices
  - correct use of personal protective equipment (PPE)
- consistently monitored safety procedures in the day-to-day work activities required by the job role
- completed a workplace incident report
- followed workplace procedures for a simulated emergency situation

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the work role. This includes knowledge of:

- State/territory legislation and how it impacts on workplace regulations, codes of practice and industry standards, including:
  - state/territory WHS authorities
  - rights and responsibilities of persons conducting a business or undertaking (PCBUs), officers and workers, including duty of care
  - legislative requirements for record-keeping and reporting
  - regulatory requirements relevant to the particular industry/type of work site
  - hazardous manual tasks
  - infection control
- Hazards common to the work environment and how they cause harm
- Principles of hazards and risk assessment, including:
  - hazard identification procedures
  - risk assessment process
  - residual risk
  - risk controls
  - hierarchy of control
- Workplace emergency procedures
- Workplace policies and procedures for WHS.

## Assessment Conditions

Skills must be demonstrated in the workplace.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessment must ensure use of:

- current workplace policies and procedures for WHS.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Updated to include relevant content from HLTWHS401A. Revised scope of unit to reflect requirements of managers and/or persons conducting a business or undertaking (PCBUs)</p> |

### Application

This unit describes the skills and knowledge required to establish, maintain and evaluate work health and safety (WHS) policies, procedures and programs in the relevant work area, according to WHS legislative requirements.

This unit applies to workers who have responsibility for WHS as part of their role, including workers with obligations under WHS legislation, persons conducting a business or undertaking (PCBUs), or their officers (as defined by relevant legislation).

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Establish work health and safety practices

1.1 Access and interpret legislation, regulations, code of conduct and workplace policies and procedures for WHS

1.2 Develop procedures for ongoing hazard identification, and assessment and control of associated risks

1.3 Ensure risk controls and hazard-specific procedures are consistent with the hierarchy of control and are monitored to support compliance

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

with legislative and regulatory requirements

1.4 Identify requirements for expert WHS advice, and request this advice as required

2. Facilitate consultation, cooperation and communication

2.1 Develop and provide consultative WHS activities to provide advice in relation to work health and safety issues

2.2 Monitor processes for ensuring that workers have an opportunity to contribute feedback on health and safety issues

2.3 Document outcomes of consultation and communicate to workers

2.4 Develop and implement processes to ensure that responsibilities and duties are documented and accountability processes are in place

2.5 Implement and monitor training programs to ensure identified WHS training requirements are addressed, including induction process

3. Monitor compliance with risk control processes

3.1 Develop WHS record-keeping policies and procedures and provide information to workers

3.2 Monitor hazard, incident and injury reporting processes to meet legislative requirements and to inform future prevention strategies

3.3 Evaluate WHS record-keeping policies and procedures for compliance with legislative requirements

4. Evaluate and maintain WHS

4.1 Determine WHS priorities in consultation with work group

4.2 Develop a WHS action plan taking account of priorities and training needs

4.3 Identify potential barriers to improvement

4.4 Establish processes to monitor achievement

**ELEMENT**

*Elements define the essential outcomes.*

**PERFORMANCE CRITERIA**

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

against the plan and update plans as required

**Foundation Skills**

*The Foundation Skills describe those required skills (language, literacy and numeracy) that are essential to performance.*

- *Written communication* – in order to complete a workplace risk assessment and develop a WHS action plan in line with regulatory guidelines and organisational policies
- *Oral communication* – in order to accurately present information to a small group of at least two participants

The remaining foundation skills essential to performance are explicit in the performance criteria of this unit

# Assessment Requirements for HLTWHS004 Manage work health and safety

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                                                                                    |
|-----------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>HLT Health Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Updated to include relevant content from HLTWHS401A. Revised scope of unit to reflect requirements of managers and/or persons conducting a business or undertaking (PCBUs)</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role.

There must be demonstrated evidence that the candidate has completed the following tasks at least once in line with state/territory WHS regulations, relevant codes of practice and workplace procedures:

- conducted a workplace risk assessment and recorded the results, including:
  - identification of hazards and potential hazards
  - risk assessment
  - evaluation of policy/procedure in line with state/territory legislation and industry guidelines
  - development of risk controls and measures
- conducted the following consultative activities with at least two workers:
  - information session about workplace policies and procedures, including demonstration of personal protective equipment (PPE) where required for the job role
  - consultative discussion regarding outcomes of a workplace risk assessment, including risk controls and measures developed as part of the risk assessment process
- monitored workplace compliance with WHS procedures
- developed a WHS action plan, including strategies for monitoring and review
- coordinated workplace procedures for a simulated emergency situation.

## Knowledge Evidence

The candidate must demonstrate knowledge of:

- state/territory legislation and how it impacts on workplace regulations, codes of practice and industry standards, including:
  - state/territory WHS authorities
  - rights and responsibilities of persons conducting a business or undertaking (PCBUs), officers and workers, including duty of care
  - legislative requirements for record-keeping and reporting
  - due diligence and general duty requirements
  - regulatory requirements relevant to the particular industry/type of work site
  - legislative requirements for consultation
  - hazardous manual tasks
  - infection control
- hazards common to the work environment and strategies for minimisation
- requirements for WHS policies, including:
  - hazard, incident and injury reporting
  - hazard identification, risk assessment and control
  - human resources policies and procedures
  - consultation and participation
  - incident investigation and record-keeping
  - quality system documentation
  - designated person/s for raising issues
  - workplace support services
  - use of personal protective equipment (PPE)
  - emergency procedures
- principles of hazard and risk management, including:
  - risk analysis
  - hazard identification procedures
  - hierarchy of control and its application
  - principles of risk assessment
  - examples of health and safety benchmarks
  - principles of safe design processes

## Assessment Conditions

Skills must be demonstrated in the workplace.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

In addition, assessment must ensure use of:

- current workplace policies and procedures for WHS

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

### Unit Descriptor

#### Descriptor

This unit describes the knowledge and skills required to liaise and facilitate linkages between community services including specialist and generalist services in the community to ensure support of people in need

### Application of the Unit

#### Application

The skills described in this unit may be applied across a range of workplace contexts, especially involving related service delivery, sharing of information and client referral

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Identify and maintain *links* with *relevant services*

- 1.1 Gather and store *information on relevant services* as appropriate
- 1.2 Identify, develop and maintain communication processes within and across services to establish and maintain inter- and intra-sector links
- 1.3 Maintain active participation in relevant networks
- 1.4 Maintain information on the organisation's range of services

2. Provide relevant information to services

- 2.1 Respond to information requests from other organisations as appropriate
- 2.2 Maintain knowledge of and access to internal means of support within own organisation
- 2.3 Provide information and resources to support community groups as appropriate
- 2.4 Ensure materials and resources provided are relevant and current
- 2.5 Seek feedback on the materials and resources and use in developing future materials and resources

3. Work with and *support* other

- 3.1 Define the type and level of support to be

**ELEMENT**

organisations to enhance service delivery

**PERFORMANCE CRITERIA**

provided and negotiate with the relevant organisation

3.2 Maintain appropriate support and contact with people referred

3.3 Provide information to services in line with organisation confidentiality, consent and privacy policies and procedures

3.4 Develop and negotiate longer term plans to assist services to operate self-sufficiently

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Existing information systems
- Referral networks - criteria and procedures for referral
- Current community services issues
- Language used in community services work
- Range of community services and how to access
- Confidentiality and privacy
- Knowledge specific to working with people from culturally and linguistically diverse backgrounds

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Facilitate effective working relationships within community services and within the general community

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of

the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - questioning
  - active listening
  - verbal and non-verbal communication
  - referral
  - participating and conducting interagency meetings
  - promotion
  - negotiation
  - liaison and networking
- Recognise own limitations and agency boundaries
- Develop and provide information about community services
- Use and coordinate the use of relevant information technology effectively in line with work health and safety (WHS) guidelines

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider the community services networking and liaison requirements within the workplace

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current

issues impacting on Aboriginal and Torres Strait Islander people

- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment of this unit include access to:
  - an appropriate workplace where assessment can be conducted or simulation of realistic workplace setting for assessment

*Method of assessment:*

- Assessment may include observations, questioning and evidence gathered from the workplace environment

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Links may be:*

- Referral to and from other services
- Telephone contact
- Worker networks
- Informal contacts
- Case conferences
- Inter agency meetings
- Community consultative committees
- Joint projects

*Relevant services may include:*

- Consumer groups
- Commercial enterprises such as real estate agents,

and financial institutions

- Community services departments
- Aboriginal and Torres Strait Islander services
- Employment services
- Community based disability support services
- Income support services
- Accommodation services
- Services specific to the person's needs
- Trans-cultural
- Religious organisations
- Judicial
- Correctional
- Police
- Emergency services

*Information on relevant services may include:*

- Pamphlets and other information sources
- List of all relevant services
- Information on own agency
- Criteria for referral to each agency
- Contacts
- Information to provide to clients

*Support may include:*

- Visits
- Consultations
- Joint initiatives
- Participation in case conferences
- Telephone advice
- Provision of staff development and training
- Exchanging of reports
- Community education

*Policies and procedures may include:*

- Referral protocols

## CHCOHC303A Use basic oral health screening tools

### Modification History

Not Applicable

### Unit Descriptor

#### Descriptor

This unit describes the skills and knowledge required by workers to carry out basic oral health screening of clients using tools that are accepted by the oral health sector

### Application of the Unit

#### Application

This unit is appropriate for workers in a range of health and community services environments whose work roles involve the type of interactions with clients that would enable the use of basic oral health screening tools

Application could be stand alone or as part of other screening processes to identify the need for referral to an oral health practitioner or for additional education or instruction in oral health care

Examples of tools that are accepted by the oral health sector for oral health screening are listed in the Range Statement of this unit

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

## REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Own role in oral health screening
- Relevant referral pathway options
- Relevant screening tools and procedures and associated rationale for use
- Relevant workplace policies, procedures and programs for screening

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Communicate effectively to provide information and ensure understanding of information provided in a range of formats
- Consult effectively with other health and community services personnel
- Reflect on and improve own level and application of skills and knowledge to achieve desirable outcomes and maintain own capabilities
- Use appropriate referral practices and pathways
- Use approved simple oral health screening tool/s appropriately and effectively in line with established oral health sector guidelines
- Use communication skills to effectively establish a relationship of trust with clients and/or family or significant others
- Use relevant technology, including information technology safely and effectively

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply basic problem solving skills to resolve problems within organisation protocols
- Apply literacy and numeracy skills required to fulfill work role in a safe manner and as specified by the organisation
- Consistently demonstrate interpersonal skills, including empathy when relating to people from a range of backgrounds and abilities

## REQUIRED SKILLS AND KNOWLEDGE

- Incorporate oral health screening processes with other organisation screening
- Work effectively with clients, colleagues and supervisors

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider the particular workplace context

*Access and equity considerations:*

- All workers in health and community services environments should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and/or Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

## EVIDENCE GUIDE

### *Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include:
  - access to appropriate workplace where assessment can take place
  - simulation of realistic workplace setting

### *Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competency will include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Consistency of performance should be demonstrated over a range of relevant workplace conditions

### *Related units:*

- This unit may be assessed independently or in conjunction with other units with associated workplace application

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

## RANGE STATEMENT

*Basic routine oral health screening services may include:*

- Routine screening by age, sex, ethnicity and regional disease prevalence
- Screening practices in line with relevant, organisation, local, state, territory and national guidelines

*Screening refers to:*

- Following a process to collect specific information and determine a prescribed course of action

*Tools to work with certain individuals may include but not be limited to:*

- Abbey pain scale - an augmentative pain screening tool for people with cognitive impairment, such as that caused by dementia
- Augmentative or alternative communication systems, such as symbols or picture cards
- Bite blocks
- Tongue depressors
- Torch

*Substitute decision maker (in relation to consent) must be:*

- The person appointed with the right to speak for the client and may include:
  - advocate
  - carers
  - guardians
  - health attorneys
  - medical power of attorney
  - members of family
  - other practitioners
  - parent of child
  - person responsible
  - public trustee

*Legislative requirements refers to:*

- Federal, state or territory legislation that may impact on workers' practices and responsibilities, noting that implementation of the unit of competency must reflect the legislative framework in which a worker operates

## RANGE STATEMENT

- Screening tools that are currently accepted by the oral health sector include:*
- Basic instruments that are appropriate for use in simple oral health screening, such as:
    - computer-assisted triaging tools, such as 'Relative Needs Index' and 'Information System for Oral Health'
    - 'Lift the Lip'
- Specific individual issues may include but not be limited to:*
- Ability to self-report
  - Age
  - Cultural and socioeconomic background
  - Current knowledge and practices
  - Developmental stage
- Document and record may include the use of:*
- Photographs
  - Verbal reports
  - Written reports
- Organisation guidelines may include but are not limited to:*
- Clinical protocols
  - Position descriptions
  - Workplace policies and procedures, including:
    - infection control
    - occupational health and safety (OHS)
- Other health personnel may include but are not limited to:*
- Aboriginal and/or Torres Strait Islander health workers
  - Allied health professionals, such as:
    - dietitians
    - health promotion officers
    - nutritionists
    - occupational therapists
    - physiotherapists
    - speech therapists
  - General practitioners
  - Members of the community who provide health care
  - Nurses

**RANGE STATEMENT**

- Oral health practitioners
- Specialists

*Feedback may be provided:*

- As a recording using sound or visual media
- In writing
- Using symbols or drawings
- Verbally

|                                        | <p>and style to suit their requirements</p> <p>3.2. Provide feedback to the person being mentored on progress towards achieving the expectations and goals of the mentoring process</p> <p>3.3. Recognise and discuss changes in the <b>mentoring relationship</b> with appropriate <b>stakeholders</b></p> <p>3.4. Negotiate and manage closure of the mentoring arrangement once objectives have been met</p> |
| 4. Evaluate effectiveness of mentoring | <p>4.1. Establish and discuss <b>benefits</b> gained from the mentoring process</p> <p>4.2. Reflect on and articulate the personal benefits gained from providing mentoring</p> <p>4.3. Identify and report the outcomes of the mentoring arrangement and the <b>benefits to the organisation</b> according to organisational policy and procedures to improve the mentoring system or program</p>              |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- planning and time-management skills to mentor in a workplace
- oral communication and language skills to motivate learners
- organisational skills to provide guidance and feedback to individuals
- interpersonal skills to:
  - engage in relationship building, including building trust and maintaining confidentiality
  - respond to diversity, including gender and disability
- communication skills to use a range of communication strategies, including listening, questioning, and giving and receiving feedback
- initiative and enterprise skills to apply procedures relating to OHS and environmental legislation in the context of workplace mentoring

#### Required knowledge

- relevant policy, legislation, codes of practice and national standards likely to impact on the provision of workplace mentoring
- training contracts and responsibilities of employer, registered training organisation

**REQUIRED SKILLS AND KNOWLEDGE**

- (RTO) and funding body
- training plans and responsibilities
  - training products and strategies for learning
  - mentoring methodologies and strategies
  - acceptable behaviour in the mentoring relationship
  - equal employment opportunity, equity and diversity principles
  - OHS relating to the work role, including:
    - hazards relating to the industry and specific workplace
    - reporting requirements for hazards and incidents
    - specific procedures for work tasks
    - safe use and maintenance of relevant equipment
    - emergency procedures
    - sources of OHS information

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

|                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|-----------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Overview of assessment</b>                                                                       | Assessment must address the scope of this unit and reflect all components of the unit. Arrange of appropriate assessment methods and evidence-gathering techniques must be used to determine competency. A judgement of competency should only be made when the assessor is confident that the required outcomes of the unit have been achieved and that consistent performance has been demonstrated.                                                   |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the ability to:</p> <ul style="list-style-type: none"> <li>• prepare a mentoring plan between the mentor and learner that reflects the scope and substance expected within a plan prepared for a learner undertaking a contracted apprenticeship or traineeship</li> <li>• facilitate at least three mentoring sessions</li> <li>• provide information on sessions, including comments and notes from both mentor and learner.</li> </ul> |
| <b>Context of and specific resources for assessment</b>                                             | Evidence must be gathered in the workplace wherever possible. Where no workplace is available, a simulated workplace must be                                                                                                                                                                                                                                                                                                                             |

| EVIDENCE GUIDE                             |                                                                                                                                                                                                         |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | provided.                                                                                                                                                                                               |
| <b>Method of assessment</b>                |                                                                                                                                                                                                         |
| <b>Guidance information for assessment</b> | For further information about assessment of this and other TAE units, refer to relevant implementation guidance published on the IBSA website ( <a href="http://www.ibsa.org.au">www.ibsa.org.au</a> ). |

## Range Statement

| RANGE STATEMENT                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                              |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b><i>Mentoring</i></b> may include:                                                                                                                                                                                                                                                                                                                                                                                                                                                 | <ul style="list-style-type: none"> <li>• long-term focus on personal growth and learning</li> <li>• wide range of learning oriented to: <ul style="list-style-type: none"> <li>• support</li> <li>• guidance in personal or career growth</li> </ul> </li> <li>• relationship, not just a procedure or activity</li> <li>• one person professionally assisting the career development of another.</li> </ul> |

## BSBHRM404A Review human resources functions

### Modification History

| Release   | Comments                                                                                                                                                          |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version first released with <i>BSB07 Business Services Training Package Version 8.0</i>.</p> <p>Replaces BSBHRM401A Review human resources functions.</p> |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to undertake research that supports work across a range of human resources functional areas.

This is a foundation unit for any person wishing to pursue competency in human resources and provides a sound basis for working across various human resources functional areas.

The unit involves broad knowledge of human resources functions, associated policy frameworks, and the administrative requirements to support these functions and policies.

### Application of the Unit

This unit applies to those requiring a broad knowledge of human resources functions. Individuals at this level would not necessarily have responsibility for supervising the work of others, although this may be the case. As human resources practitioners, their work will support effective work practices across the organisation.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

Not applicable.

## Employability Skills Information

This unit contains employability skills.

### Elements and Performance Criteria Pre-Content

| Element                                                                  | Performance Criteria                                                                                                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements describe the essential outcomes of a unit of competency.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</i> |

### Elements and Performance Criteria

|                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Research human resources functions      | 1.1 Review business strategy and human resources strategy, clarify <b>human resources issues</b> for review, and document scope of review<br>1.2 Identify local, state or territory, national and international human resources networks for human resources professionals<br>1.3 Identify information sources for human resources data and information<br>1.4 Select a <b>research strategy</b> suitable to the topic and consult with <b>relevant personnel</b><br>1.5 Undertake research and review research findings |
| 2. Review policy and procedures frameworks | 2.1 Locate policies and procedures relevant to the organisation<br>2.2 Analyse strengths and weaknesses of policies and procedures<br>2.3 Consider legislation, regulations and standards that apply to the policies and procedures and the organisation<br>2.4 Identify sustainability issues that relate to human resources functions                                                                                                                                                                                  |
| 3. Apply ethical framework                 | 3.1 Review <b>ethical requirements</b> associated with the human resources function under review<br>3.2 Consider ethical obligations and confidentiality requirements of human resources personnel working in the area under review<br>3.3 Document behaviours associated with working ethically in the area under review                                                                                                                                                                                                |
| 4. Analyse HR metrics                      | 4.1 Select appropriate technology to gather <b>workforce data</b> and                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

|                                |                                                                                                                                                                                                                                                          |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                | information to review human resources functions<br>4.2 Identify <b><i>sources of workforce data</i></b><br>4.3 Collate and analyse data and establish key trends and critical information                                                                |
| 5. Report on research outcomes | 5.1 Identify options for change suited to organisational culture, and any possible change barriers<br>5.2 Collate, analyse and document key findings of the review<br>5.3 Write report on outcomes of research<br>5.4 Develop recommendations for change |

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- judgement and decision-making skills to review ethical and policy frameworks and recommend suggested improvements
- literacy skills to:
  - research an issue
  - write a clear and legible report that documents key issues coherently
- technology skills to:
  - gather and analyse workforce data
  - manage data in human resources information systems according to legislation and policies.

### Required knowledge

- human resources functions and policy frameworks
- legal and compliance requirements for working in human resources
- roles and responsibilities of human resources practitioners.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• assessment of reports on outcomes of research</li> <li>• direct questioning combined with review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate</li> <li>• observation of presentations on human resources functions being reviewed</li> <li>• oral or written questioning to assess knowledge of human resources functions being reviewed and policy frameworks</li> <li>• evaluation of research undertaken</li> <li>• review of documentation analysing the strengths and weaknesses of policies and procedures</li> <li>• review of documentation of behaviours associated with working ethically in the area under review.</li> </ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• other units from the Certificate IV in Human Resources.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                          | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                               |
|--------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Confirm organisational vision and mission     | 1.1. Check with <b><i>stakeholders</i></b> that organisational vision and mission are still held to be current and are supported<br>1.2. Make any changes or refinements to vision or mission statement as required<br>1.3. Review or develop organisational values to support the vision and mission statement<br>1.4. Gain support for strategic planning process from all relevant stakeholders |
| 2. Analyse the internal and external environment | 2.1. Determine information requirements and undertake or commission <b><i>research</i></b> to deliver relevant information<br>2.2. Analyse political, economic, social, and technological developments in a <b><i>global context</i></b><br>2.3. Seek advice from appropriate experts wherever necessary<br>2.4. Identify and consider strengths and weaknesses of                                 |

| ELEMENT                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                             | <p>existing and potential competitors and allies</p> <p>2.5. Analyse organisation's strengths, weaknesses, opportunities and threats</p> <p>2.6. Consider co-operative ventures that are supported by risk and cost-benefit analyses, are consistent with the organisational vision, mission and values, and provide for <i>due diligence</i></p> <p>2.7. Check that analysis of internal and external environment is consistent with the perspectives of other informed people</p> |
| 3. Write strategic plan     | <p>3.1. Document relevant research and background for inclusion in the strategic plan</p> <p>3.2. Formulate strategic objectives and strategies needed for the future</p> <p>3.3. Detail each strategy with an assigned priority, a timeframe, responsible parties and measurable performance indicators</p> <p>3.4. Circulate strategic plan for comment, support and endorsement</p>                                                                                              |
| 4. Implement strategic plan | <p>4.1. Communicate strategic plan to all relevant parties</p> <p>4.2. Brief people with a specific role in relation to strategies</p> <p>4.3. Use performance indicators to monitor progress in implementing plan</p> <p>4.4. Make necessary refinements to plan</p> <p>4.5. Evaluate achievement of objectives at agreed milestones</p> <p>4.6. Review effectiveness of plan and consider methods for improving strategic planning processes</p>                                  |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- analytical skills to undertake value chain analysis, to review strengths and weaknesses, and to collate and interpret statistical data including trend analysis

**REQUIRED SKILLS AND KNOWLEDGE**

- financial skills to consider resource implications of proposed strategies
- research skills to ensure accurate, up-to-date information is available for the environmental analysis
- risk management skills to plan and undertake appropriate due diligence.

**Required knowledge**

- relevant legislation from all levels of government that affects business operation, especially in regard to occupational health and safety and environmental issues, equal opportunity, industrial relations and anti-discrimination
- strategic planning methodologies including political, economic, social and technological (PEST) analysis and strengths, weaknesses, opportunities and threats analysis (SWOT)
- competitor knowledge
- codes and by-laws relevant to the organisation's operations.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- thorough analysis of the organisation's own capabilities, those of their existing potential competitors and allies, and the external environment
- strategic plan which includes objectives, strategies, timeframes, performance indicators and methods for monitoring the implementation of the plan
- knowledge of relevant legislation.

**Context of and specific resources for assessment**

Assessment must ensure:

- access to appropriate documentation and resources normally used in the workplace.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct questioning combined with review of

**EVIDENCE GUIDE**

| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• other units from the Advanced Diploma of Management.</li> </ul>                                                                                                                                                                                                                                                                                                 |

**Range Statement****RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Stakeholders*** may include:

- Board
- customers
- employees
- government agencies
- owners
- shareholders
- technical advisers

***Research*** may include:

- commissioned research
- demographics
- economics
- internal research
- market segmentation

| RANGE STATEMENT              |                                                                                                                                                                                            |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to manage risks in a range of contexts across the organisation or for a specific business unit or area.

### Application of the Unit

This unit addresses the management of the risk across the organisation or within a business unit or area. It does not assume any given industry setting.

This unit applies to individuals who are working in positions of authority and are approved to implement change across the organisation, business unit, program or project area. They may or may not have responsibility for directly supervising others.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

Not applicable.

### Employability Skills Information

This unit contains employability skills.

|  | 4.5 Implement and monitor action plan<br>4.6 Evaluate risk management process |
|--|-------------------------------------------------------------------------------|

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- communication and literacy skills to consult and negotiate, to prepare communications about risk management, and to encourage stakeholder involvement
- organisational and management skills to plan and implement risk management processes
- problem-solving and innovation skills to find practical ways to manage identified risks.

### Required knowledge

- AS/NZS ISO 31000:2009 Risk Management - Principles and Guidelines
- legislation, codes of practice and national standards, for example:
  - duty of care
  - company law
  - contract law
  - environmental law
  - freedom of information
  - industrial relations law
  - privacy and confidentiality
  - legislation relevant to organisation's operations
  - legislation relevant to operation as a business entity
- organisational policies and procedures, including:
  - risk management strategy
  - policies and procedures for risk management
- overall operations of organisation
- reasonable adjustment in the workplace for people with a disability
- types of available insurance and insurance providers.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-----------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>• risk management plan which includes a detailed stakeholder analysis, explanation of the risk context, critical success factors, identified and analysed risks, and treatments for prioritised risks</li> <li>• details of monitoring arrangements for risk management plan and an evaluation of the risk management plan's efficacy in treating risks</li> <li>• knowledge of relevant legislation, codes of practice and national standards.</li> </ul>                                                                                                                                                                                                                                                                              |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to workplace documentation.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• observation of presentations</li> <li>• oral or written questioning to assess knowledge of risk management policies and procedures</li> <li>• review of documented critical success factors, and goals or objectives for area</li> <li>• review of risks prioritised for treatment</li> <li>• evaluation of action plan for implementing risk treatment</li> <li>• evaluation of documentation communicating risk management processes to relevant parties.</li> </ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• financial management units, governance units, human resource management units, or technology units.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                             |                                                                                                                                                                                                                                                                                                                                                                   |
|---------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Risks</b> may include those relating to: | <ul style="list-style-type: none"> <li>• commercial relationships</li> <li>• economic circumstances and scenarios</li> <li>• human behaviour</li> <li>• individual activities</li> <li>• legislation</li> <li>• management activities and controls</li> <li>• natural events</li> <li>• political circumstances</li> <li>• technology.</li> </ul>                 |
| <b>Scope</b> may apply to:                  | <ul style="list-style-type: none"> <li>• given project</li> <li>• specific business unit or area</li> <li>• specific functional such as: <ul style="list-style-type: none"> <li>• financial management</li> <li>• OHS</li> <li>• governance</li> </ul> </li> <li>• external environment</li> <li>• internal environment</li> <li>• whole organisation.</li> </ul> |
| <b>Relevant parties</b> may include:        | <ul style="list-style-type: none"> <li>• all staff</li> <li>• internal and external stakeholders</li> <li>• senior management</li> <li>• specific teams or business units</li> <li>• technical experts.</li> </ul>                                                                                                                                                |
| <b>Research</b> may include:                | <ul style="list-style-type: none"> <li>• data or statistical information</li> <li>• information from other business areas</li> <li>• lessons learned from other projects or activities</li> <li>• market research</li> <li>• previous experience</li> <li>• public consultation</li> <li>• review of literature and other information sources.</li> </ul>         |
| <b>Tools and techniques</b> may include:    | <ul style="list-style-type: none"> <li>• brainstorm</li> <li>• checklists</li> <li>• fishbone diagrams</li> </ul>                                                                                                                                                                                                                                                 |

|                                            |                                                                                                                                                                                                                                                    |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

| 1 Develop tactical and operational plans | <p>1.1 Pre-existing tactical and operational plans have been reviewed and evaluated</p> <p>1.2 Strategic objectives are analysed, interpreted and relevant operational objectives are developed</p> <p>1.3 Project management protocols for the organisation are developed</p> <p>1.4 Consultation with appropriate groups and individuals is built into plans</p> <p>1.5 Requirements of internal/external customers are identified through consultation and documented</p> <p>1.6 Plans include methods for measuring customer satisfaction and obtaining feedback</p> <p>1.7 Operational performance objectives, measures and criteria are developed through consultation with relevant groups and individuals</p> <p>1.8 Tactical and operational plans identify financial, human and physical resource requirements</p> <p>1.9 Scheduling of activities meets customer/marketing requirements</p> <p>1.1 Plans contain clear profitability, productivity and performance targets for key result areas (e.g. OHS, environment, quality, customer service)</p> <p>0</p> <p>1.1 Plans are concise, logical and comply with organisation requirements</p> <p>1</p> <p>1.1 Plans address all relevant operational issues, including internal/external environmental factors</p> <p>2</p> <p>1.1 Tactical and operational plans have been subject to risk assessment and analyses, and include risk management plans</p> <p>3</p> |
| 2 Review business systems                | <p>2.1 Reviews are undertaken regularly of the implementation of tactical and operational plans</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

- 2.2 Information/reports are available to compare plans, budgets and forecasts to actual performance
- 2.3 Systems are reviewed in consultation with users and people responsible for implementing the business plans
- 2.4 Systems provide for identification of system variance or failure, to allow early intervention and prompt remediation
- 2.5 Systems monitor resource usage in a timely manner
- 2.6 Systems allow for flexible responses to changing and emerging situations
- 2.7 Systems are in place to provide feedback to relevant groups and individuals on their performance
- 2.8 Systems provide for immediate response to incidents involving potential risk to people, product or the environment
- 2.9 Systems are designed to achieve the organisation's energy saving targets

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statement.

### Critical Aspects of Evidence

Assessment for this unit will need to occur over a sufficient period of time to allow an holistic assessment of the tactical and operational planning activities

Plans developed must meet the organisation's criteria as well as those set down in the unit

Systems review and revision is a crucial aspect of the business planning process and needs to be clearly evidenced

**OHS considerations may include:**

review and evaluation of previous OHS plans and programs  
implementation of OHS systems for projects  
use of participative arrangements for review of OHS in operational performance  
development and review of OHS performance targets  
framework and components of OHS management system, its structures and performance  
systemic review procedures

### **Underpinning Knowledge\***

\* At this level the learner must demonstrate understanding of specialised knowledge with depth in some areas.

Relevant legislation from all levels of government that affects business operation, especially in regard to Occupational Health and Safety and environmental issues, equal opportunity, industrial relations and anti-discrimination

Strategic planning

All legislation relevant to the organisation's operation

Critical path/PERT methodology

Relevant industrial awards and agreements

Electronic commerce systems

Consultative methods and processes

Performance measurement and benchmarking methodology

Operations management

High reliability organisational concepts

Energy management

Capital investment evaluative methodology including NPV and ROI

### **Underpinning Skills**

Analytical skills to interpret strategic objectives and develop tactical and operational objectives

Communication/consultation skills to ensure all relevant groups and individuals are advised of what is occurring and are provided with an opportunity for input

Risk management skills to analyse, identify and develop mitigation strategies for identified risks

Systems analysis and design skills to ensure that system outputs meet tactical/operational objectives and measure performance in a timely way

Ability to relate to people from a range of social, cultural and ethnic backgrounds and physical and mental abilities

### **Resource Implications**

The learner and trainer should have access to appropriate documentation and resources normally used in the workplace

### **Consistency of Performance**

In order to achieve consistency of performance, evidence should be collected over a set period of time which is sufficient to include dealings with an appropriate range and variety of situations

### **Context/s of Assessment**

Competency is demonstrated by performance of all stated criteria, including paying particular attention to the critical aspects and the knowledge and skills elaborated in the Evidence Guide, and within the scope as defined by the Range Statement

Assessment must take account of the endorsed assessment guidelines in the Business Services Training Package

Assessment of performance requirements in this unit should be undertaken in an actual workplace or simulated environment

Assessment should reinforce the integration of the key competencies and the business services common competencies for the particular AQF level. Refer to the Key Competency Levels at the end of this unit

### **Key Competency Levels**

**Collecting, analysing and organising information (Level 3)** - to prepare the tactical and operational plans

**Communicating ideas and information (Level 3)** - to internal/external customers and review systems

**Planning and organising activities (Level 3)** - to develop plans and review/redesign systems

**Working with teams and others (Level 3)** - to consult with them and obtain their input into planning and system review activities

**Using mathematical ideas and techniques (Level 2)** - to ensure appropriate measurement activities are in place

**Solving problems (Level 3)** - to improve existing systems and achieve tactical/operational objectives

**Using technology (Level 2)** - to improve system's performance

Please refer to the Assessment Guidelines for advice on how to use the Key Competencies

### **Employability Skills Information**

This unit contains employability skills.

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

  - 2.5 Assign **resources** to the project and agree reporting protocols with relevant managers
- 3 Implement change management strategy
  - 3.1 Develop communication/education plans in consultation with relevant groups and individuals
  - 3.2 Develop communication/education plan to promote the benefits of the change to the organisation and to minimise loss
  - 3.3 Arrange activities to deliver the communication/education plans to all relevant groups and individuals
  - 3.4 Consult with relevant groups and individuals for input to the change process
  - 3.5 Identify and respond to barriers to the change in accordance with risk management plans
  - 3.6 Action **interventions and activities** set out in project plan in accordance with project timetable
  - 3.7 Activate strategies for embedding the change
  - 3.8 Conduct regular evaluation and review, and modify project plan where appropriate to achieve change program objectives

## Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

### Required skills

innovation skills to think laterally and to develop creative means to enable people to accept

change positively

high level interpersonal and leadership skills to obtain acceptance of change processes and to inspire trust

planning and organising skills to sequence events and to enable staff to be clear in times of change or turbulence.

### **Required knowledge**

change management process/cycle

organisational behaviour.

## **Evidence Guide**

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### **Overview of assessment**

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

documentation of a change process that details the rationale for the change and its objectives; the process of implementing the change and a critical evaluation of how the change process was managed

techniques for responding to resistance to change

knowledge of change management process/cycle.

#### **Context of and specific resources for assessment**

Assessment must ensure:

access to appropriate documentation and resources normally used in the workplace.

#### **Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

analysis of responses to case studies and scenarios

assessment of written reports on change management

direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate

observation of demonstrated techniques in responding to resistance to change

review of change management project plan and communication/education plans

review of documentation outlining consultation with relevant groups and individuals for input to the change process

oral or written questioning to assess knowledge of organisational behaviour.

### Guidance information for assessment

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

## Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Strategic change needs** refers to:

actions arising from strategic planning activities to bring about major change in the organisation (they may relate to people, processes, technology or structure)

**External environment** may refer to factors that are:

consumer driven  
ecological  
economic  
ethical  
legal

|                                                     |                                                                                                                                                                                                                                                                            |
|-----------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                     | political<br>social<br>technological                                                                                                                                                                                                                                       |
| <b>Major operational change requirements</b> means: | changes which need to be made to the organisation to maintain or improve performance and/or competitive position                                                                                                                                                           |
| <b>Relevant managers</b> refers to:                 | managers who:<br>are affected by the change<br>are participating in the change project<br>hold a leadership position in the organisation                                                                                                                                   |
| <b>Risk analysis</b> means:                         | determination of the likelihood of a negative event preventing the organisation meeting its objectives and the likely consequences of such an event on organisational performance                                                                                          |
| <b>Barriers to change</b> may include:              | challenges to group norms/established roles<br>existing organisational culture<br>existing reward systems<br>fear of loss of status, security, power, friends<br>interdepartmental rivalry/conflict<br>lack of involvement in the change<br>low morale<br>vested interests |
| <b>Mitigation strategies</b> means:                 | strategies put in place or action taken to reduce or eliminate risk identified                                                                                                                                                                                             |
| <b>Change management project plan</b> includes:     | budget<br>methodology for change program<br>objectives/outcomes<br>timetable                                                                                                                                                                                               |
| <b>Approvals</b> refers to:                         | formal approval from the manager/s who have responsibility for the area/s of the organisation affected by the change project                                                                                                                                               |
| <b>Resources</b> may include:                       | contractors<br>employees/managers                                                                                                                                                                                                                                          |

|                                                  |                               |
|--------------------------------------------------|-------------------------------|
|                                                  | external/internal consultants |
|                                                  | financial/budget approval     |
|                                                  | hardware/software             |

|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version first released with <i>BSB07 Business Services Training Package Version 8.0</i>.</p> <p>Replaces BSBHRM402A Recruit, select and induct staff.</p> |

## Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to execute tasks associated with the recruitment cycle. Performance of the work described in this unit will be underpinned by in-depth knowledge of the work of the organisation, and how recruitment and selection practices fit with other human resources functions.

## Application of the Unit

This unit applies to those with a supporting role in recruitment, selection and induction functions who work under the direction of a human resources manager.

Individuals at this level would not necessarily have staff reporting to them, although this may be the case.

## Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

## Pre-Requisites

Not applicable.

## Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

| Element                                                                  | Performance Criteria                                                                                                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements describe the essential outcomes of a unit of competency.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</i> |

## Elements and Performance Criteria

|                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- communication skills to:
  - use networks to source suitable applicants
  - actively listen to what is being said in interviews
  - advise on the outcomes of the selection process
  - support line managers in recruitment and selection functions
- literacy skills to:
  - work with job descriptions to devise suitable questions for interviews
  - make job offers and prepare letters for unsuccessful applicants
  - review legislation to ensure requirements are reflected in job descriptions
- organising and scheduling skills to arrange interviews and venues
- technology skills to:
  - advertise jobs
  - communicate with applicants and new appointments

- maintain information in the human resources information system.

## Required knowledge

- documentation required for recruitment, selection and induction
- human resources functions, human resources life cycle and the place of recruitment and selection in that life cycle
- principles of equity and diversity and relevant legislation
- range of interviewing techniques and other selection processes and their application.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

| Overview of assessment                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-----------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the ability to:</p> <ul style="list-style-type: none"><li>• work with job descriptions to support sourcing, selecting and appointing suitable staff</li><li>• participate in interviews and other selection techniques, and demonstrate awareness of EEO and anti-discrimination requirements</li><li>• use different advertising channels to promote vacancies and/or establish a potential talent pool.</li></ul>                                                                 |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"><li>• access to an appropriate range of documentation and resources normally used in the workplace.</li></ul>                                                                                                                                                                                                                                                                                                                     |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"><li>• analysis of responses to case studies and scenarios</li><li>• assessment of reports on recruitment and selection</li><li>• demonstration of selection techniques</li><li>• direct questioning combined with review of portfolios of evidence and third-party workplace reports of on-the-job</li></ul> |

|                                            |                                                                                                                                                                                                                                                                                                                                                               |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | performance by the candidate <ul style="list-style-type: none"> <li>• observation of interviewing techniques</li> <li>• review of job description and advertisements for staffing vacancies</li> <li>• review of documentation provided to successful candidate</li> <li>• oral or written questioning to assess knowledge of selection processes.</li> </ul> |
| <b>Guidance information for assessment</b> | Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: <ul style="list-style-type: none"> <li>• other units from the Certificate IV in Human Resources.</li> </ul>                                                                                                                         |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                                                      |                                                                                                                                                                                                                                                                                                                                                                                 |
|----------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><i>Job descriptions</i></b> may include:                          | <ul style="list-style-type: none"> <li>• attributes</li> <li>• competencies required by staff</li> <li>• job or person specifications</li> <li>• job title and purpose of position</li> <li>• necessary skills and knowledge</li> <li>• required qualifications</li> <li>• selection criteria</li> <li>• tasks or duties associated with the position.</li> </ul>               |
| <b><i>Policies</i></b> may include:                                  | <ul style="list-style-type: none"> <li>• anti-discrimination</li> <li>• diversity</li> <li>• equal employment opportunity (EEO)</li> <li>• privacy and confidentiality.</li> </ul>                                                                                                                                                                                              |
| <b><i>Legislation, codes and national standards</i></b> may include: | <ul style="list-style-type: none"> <li>• award and enterprise agreements, and relevant industrial instruments</li> <li>• relevant industry codes of practice</li> <li>• relevant legislation from all levels of government that affects business operation, especially in regard to WHS and environmental issues, EEO, industrial relations and anti-discrimination.</li> </ul> |

|                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|----------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Workplace health and safety considerations</b> may include: | <ul style="list-style-type: none"> <li>• establishing and maintaining WHS training, records and induction processes</li> <li>• performance against WHS legislation and organisation's WHS system, especially policies, procedures and work instructions.</li> </ul>                                                                                                                                                                                                                         |
| <b>Workforce strategies</b> may include:                       | <ul style="list-style-type: none"> <li>• targets for specific groups to ensure workforce diversity in, for example: <ul style="list-style-type: none"> <li>• age</li> <li>• ethnicity</li> <li>• experience</li> <li>• gender</li> <li>• other forms of differences, such as learning styles, personality types, working styles, etc.</li> </ul> </li> <li>• targets for specific qualifications, capabilities or attributes</li> <li>• recruiting for new strategic directions.</li> </ul> |
| <b>Channels and technology</b> may include:                    | <ul style="list-style-type: none"> <li>• government job search agencies</li> <li>• industry-specific websites and journals</li> <li>• internal communications, such as newsletters, intranet and emails</li> <li>• newspaper advertisements</li> <li>• recruitment agencies</li> <li>• recruitment websites</li> <li>• social media sites.</li> </ul>                                                                                                                                       |
| <b>Staffing requirements</b> may include:                      | <ul style="list-style-type: none"> <li>• casual, permanent or temporary</li> <li>• full-time or part-time.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Induction</b> may include:                                  | <ul style="list-style-type: none"> <li>• initial orientation of new employee</li> <li>• initial training of new employee to meet the requirements of the position.</li> </ul>                                                                                                                                                                                                                                                                                                               |

## Unit Sector(s)

Workforce Development – Human Resource Management

## **BSBFLM514A Manage people**

### **Modification History**

Not applicable.

### **Unit Descriptor**

This unit specifies the outcomes required to manage and lead team members within an organisation. This includes determining work allocations; implementing performance management processes; addressing issues related to own personal leadership style and performance within the work team; demonstrating leadership; building commitment within the team; and analysing, reviewing and evaluating the effectiveness of human resource management processes in line with the objectives of the work team and the organisation.

Frontline managers have a key role in managing and leading individuals within work teams. They play a prominent part in managing the performance of people who report to them directly and in providing leadership to teams.

At this level, work will normally be carried out within complex and diverse methods and procedures which require the exercise of considerable discretion and judgement, using a range of problem solving and decision making strategies.

|----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 Manage performance of individuals in teams | 1.1 Performance management systems/plans are developed and/or implemented in consultation with relevant personnel in accordance with documented processes, timelines and legal requirements, particularly OHS regulations                                 |
|                                              | 1.2 Work and resources required by the operational plan are allocated in consultation with relevant personnel                                                                                                                                             |
|                                              | 1.3 Strategies including mentoring and coaching are developed to ensure that team members are actively encouraged and supported in assessing their own competence, identifying their own learning needs and identifying a range of learning opportunities |
| 2 Address performance related issues         | 2.1 Systems are established to ensure that the efforts of team members are monitored and that formal and informal feedback is provided in a constructive manner                                                                                           |
|                                              | 2.2 Performance above expectations is identified and reinforced through recognition and continuous feedback                                                                                                                                               |
|                                              | 2.3 Performance below expectations is identified and a development plan for improved performance is negotiated, agreed on and documented in                                                                                                               |

- accordance with organisational and legal requirements
- 2.4 Action plans for improving performance are established, monitored, documented and reported in accordance with organisational and legal requirements
- 3 Address issues and problems of individuals in teams
- 3.1 Potential and current issues and problems arising within the work team are identified and acted on in accordance with organisation policies and legal requirements and, as appropriate, in consultation with concerned parties
- 3.2 Advice, support and expertise is sought from specialised human resource services as required, to resolve issues and problems
- 3.3 Issues and problems that impact on individual team members are followed through and resolved with concerned individuals/parties
- 4 Build support and commitment within the work team
- 4.1 Management performance and behaviour meets the organisation's requirements, provides leadership and serves as a positive role model for others
- 4.2 Personal performance supports organisation policies, codes of conduct and values and contributes to the development of an organisation which has integrity and credibility
- 4.3 Own performance is monitored and adjusted to ensure it aligns with key performance indicators and organisational goals
- 4.4 Team members are treated in a fair and equal manner and individual differences and abilities are identified and accommodated
- 4.5 Effective communication channels and processes with management and between relevant stakeholders are developed and maintained
- 5 Review and evaluate management of individuals within the work team
- 5.1 Data and information on the effectiveness of performance management systems/plans for individuals within the work team are collected, analysed, reported and evaluated to aid future planning

- 5.2 Advice and recommendations for performance management systems/plans for individuals within the work team are provided to management
- 5.3 Improvements and changes agreed with individual team members are implemented and monitored in line with objectives of the work team and the organisation

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

The Evidence Guide provides advice to inform and support appropriate assessment of this unit. It contains an overview of the assessment requirements followed by identification of specific aspects of evidence that will need to be addressed in determining competence. The Evidence Guide is an integral part of the unit and should be read and interpreted in conjunction with the other components of competency. Assessment must reflect the endorsed Assessment Guidelines of the parent Training Package.

### Overview of Assessment Requirements

A person who demonstrates competence in this unit must be able to provide evidence that they have taken responsibility for managing team members directly reporting to them. This will include evidence of managing issues arising within the work team; managing different levels of performance; and providing advice and input into decisions taken by management in relation to human resources within the team. More specifically it requires evidence of determining work allocations; implementing performance management processes; addressing issues related to own personal leadership style and performance within work teams; and analysing, reviewing and evaluating the effectiveness of human resource management processes.

### Required knowledge and understanding includes:

relevant legislation from all levels of government that affects business operation, especially in regard to occupational health and safety and environmental issues, equal opportunity, industrial relations and anti-discrimination

organisational policies and procedures related to human resources

relevant awards and certified agreements

legislation impacting on people management such as equal opportunity, OHS, industrial relations, anti-discrimination and unfair dismissal

key result areas of the team and the organisation

range of support services and expertise available within and through the organisation

requirements of the operational plan

the principles and techniques involved in:

- performance management system
- problem identification and resolution
- record keeping and management
- leadership and mentoring
- learning and development options or expertise to be able to refer team members to such expertise
- identifying the cultural and social environment
- developing trust and confidence
- consistent behaviour in work relationships

consultation and communication techniques and strategies:

- counselling
- identifying and assessing interpersonal styles
- conflict resolution
- strategies to obtain and address individual and team feedback
- developing networks to source specialist advice, support and expertise
- managing relationships with all stakeholders

processes for monitoring team and own performance

strategies that contribute to the elimination of discrimination/bias

**Required skills and attributes include:**

ability to relate to people from a range of social, cultural and ethnic backgrounds and physical and mental abilities

communication and negotiation

leadership and personnel management

planning and organising skills

problem solving skills

monitoring and review skills

training skills

counselling skills, including providing feedback

attributes:

- empathic
- assertive
- communicative

- show positive leadership
- self-aware
- supportive
- trusting
- open
- flexible
- accommodating
- initiating
- loyal
- recognising achievement
- fair
- adaptable

### **Key competencies or generic skills relevant to this unit**

The seven key competencies represent generic skills considered essential for effective work participation. Innovation skills represent a further area of generic competence. The bracketed numbering indicates the performance level required in this unit:

Level (1) represents the competence to undertake tasks effectively

Level (2) represents the competence to manage tasks

Level (3) represents the competence to use concepts for evaluating and reshaping tasks. The bulleted points provide examples of how the key competencies can be applied for this unit.

Communicating ideas and information (3)

communicating to lead a team including negotiating, counselling and providing feedback  
using written communication skills including those involved in report writing

Collecting, analysing and organising information (3)

tracking, monitoring and controlling human resource data and information  
reviewing people management within team

Planning and organising activities (3)

planning own work and that of team members to achieve team outcomes

Working in a team (3)

leading and representing the work team  
consulting the work team on a wide range of issues

working with others including management and other stakeholders, employees outside the work team, and external parties/clients

Using mathematical ideas and techniques (1)

using calculation skills associated with data manipulation involved in managing data

### Solving problems (3)

applying problem solving skills as required to address issues and problems arising in managing the team

assisting others within team to solve problems arising

### Using technology (1)

using word processing packages, spreadsheets, databases and other packages to produce written correspondence and reports, and for data collation

### Innovation skills (3)

using review process to improve people management and to explore alternatives to build support and commitment within the team

### **Products that could be used as evidence include:**

documentation produced in managing people within the work team, such as:

- rosters and staff allocation
- timesheets
- learning and development plans for team members
- materials developed for coaching, mentoring and training
- induction programs developed and/or delivered
- actions taken to address poor, unsafe or excellent performance
- actions taken to address issues and problems within work team
- reviews of people management
- advice and input into management decisions related to the work team
- records of people management lessons learned

### **Processes that could be used as evidence include:**

how resource allocation has been managed

how work was allocated within work team, and rationale for allocations

how financial plans and budgets were formulated

how the operational plan was managed

how team members were guided and supported in performing their role, including induction process for new team members

how individual learning and development pathways were developed

how performance management system was implemented within work team

how problems and issues within the work team have been addressed

how input and advice was provided to management in relation to human resource management of the work team

how own people management processes were reviewed and evaluated, and improvements identified, reported and acted upon

**Resource implications for assessment include:**

access by the learner and trainer to appropriate documentation and resources normally used in the workplace

**Validity and sufficiency of evidence requires:**

that this unit can be assessed in the workplace or in a closely simulated work environment

that where assessment is part of a learning experience, evidence will need to be collected over a period of time, involving both formative and summative assessment

that examples of actions taken by the candidate to manage people across the work team are provided

**Integrated competency assessment:**

that this unit should be assessed with other frontline management units taken as part of this qualification, as applicable to the candidate's management role in work team and as part of an integrated assessment activity

The Evidence Guide provides advice to inform and support appropriate assessment of this unit. It contains an overview of the assessment requirements followed by identification of specific aspects of evidence that will need to be addressed in determining competence. The Evidence Guide is an integral part of the unit and should be read and interpreted in conjunction with the other components of competency. Assessment must reflect the endorsed Assessment Guidelines of the parent Training Package.

**Overview of Assessment Requirements**

A person who demonstrates competence in this unit must be able to provide evidence that they have taken responsibility for managing team members directly reporting to them. This will include evidence of managing issues arising within the work team; managing different levels of performance; and providing advice and input into decisions taken by management in relation to human resources within the team. More specifically it requires evidence of determining work allocations; implementing performance management processes; addressing issues related to own personal leadership style and performance within work teams; and analysing, reviewing and evaluating the effectiveness of human resource management processes.

**Required knowledge and understanding includes:**

relevant legislation from all levels of government that affects business operation, especially in regard to occupational health and safety and environmental issues, equal opportunity, industrial relations and anti-discrimination

organisational policies and procedures related to human resources

relevant awards and certified agreements

legislation impacting on people management such as equal opportunity, OHS, industrial relations, anti-discrimination and unfair dismissal

key result areas of the team and the organisation

range of support services and expertise available within and through the organisation

requirements of the operational plan

the principles and techniques involved in:

- performance management system
- problem identification and resolution
- record keeping and management
- leadership and mentoring
- learning and development options or expertise to be able to refer team members to such expertise
- identifying the cultural and social environment
- developing trust and confidence
- consistent behaviour in work relationships

consultation and communication techniques and strategies:

- counselling
- identifying and assessing interpersonal styles
- conflict resolution
- strategies to obtain and address individual and team feedback
- developing networks to source specialist advice, support and expertise
- managing relationships with all stakeholders

processes for monitoring team and own performance

strategies that contribute to the elimination of discrimination/bias

**Required skills and attributes include:**

ability to relate to people from a range of social, cultural and ethnic backgrounds and physical and mental abilities

communication and negotiation

leadership and personnel management

planning and organising skills

problem solving skills

monitoring and review skills

training skills

counselling skills, including providing feedback

attributes:

- empathic
- assertive
- communicative
- show positive leadership

- self-aware
- supportive
- trusting
- open
- flexible
- accommodating
- initiating
- loyal
- recognising achievement
- fair
- adaptable

### **Key competencies or generic skills relevant to this unit**

The seven key competencies represent generic skills considered essential for effective work participation. Innovation skills represent a further area of generic competence. The bracketed numbering indicates the performance level required in this unit:

Level (1) represents the competence to undertake tasks effectively

Level (2) represents the competence to manage tasks

Level (3) represents the competence to use concepts for evaluating and reshaping tasks. The bulleted points provide examples of how the key competencies can be applied for this unit.

Communicating ideas and information (3)

communicating to lead a team including negotiating, counselling and providing feedback

using written communication skills including those involved in report writing

Collecting, analysing and organising information (3)

tracking, monitoring and controlling human resource data and information

reviewing people management within team

Planning and organising activities (3)

planning own work and that of team members to achieve team outcomes

Working in a team (3)

leading and representing the work team

consulting the work team on a wide range of issues

working with others including management and other stakeholders, employees outside the work team, and external parties/clients

Using mathematical ideas and techniques (1)

using calculation skills associated with data manipulation involved in managing data

Solving problems (3)

applying problem solving skills as required to address issues and problems arising in managing the team

assisting others within team to solve problems arising

Using technology (1)

using word processing packages, spreadsheets, databases and other packages to produce written correspondence and reports, and for data collation

Innovation skills (3)

using review process to improve people management and to explore alternatives to build support and commitment within the team

**Products that could be used as evidence include:**

documentation produced in managing people within the work team, such as:

- rosters and staff allocation
- timesheets
- learning and development plans for team members
- materials developed for coaching, mentoring and training
- induction programs developed and/or delivered
- actions taken to address poor, unsafe or excellent performance
- actions taken to address issues and problems within work team
- reviews of people management
- advice and input into management decisions related to the work team
- records of people management lessons learned

**Processes that could be used as evidence include:**

how resource allocation has been managed

how work was allocated within work team, and rationale for allocations

how financial plans and budgets were formulated

how the operational plan was managed

how team members were guided and supported in performing their role, including induction process for new team members

how individual learning and development pathways were developed

how performance management system was implemented within work team

how problems and issues within the work team have been addressed

how input and advice was provided to management in relation to human resource management of the work team

how own people management processes were reviewed and evaluated, and improvements identified, reported and acted upon

**Resource implications for assessment include:**

access by the learner and trainer to appropriate documentation and resources normally used in the workplace

**Validity and sufficiency of evidence requires:**

that this unit can be assessed in the workplace or in a closely simulated work environment

that where assessment is part of a learning experience, evidence will need to be collected over a period of time, involving both formative and summative assessment

that examples of actions taken by the candidate to manage people across the work team are provided

**Integrated competency assessment:**

that this unit should be assessed with other frontline management units taken as part of this qualification, as applicable to the candidate's management role in work team and as part of an integrated assessment activity

## Range Statement

The Range Statement adds definition to the unit by elaborating critical or significant aspects of the performance requirements of the unit. The Range Statement establishes the range of indicative meanings or applications of these requirements in different operating contexts and conditions. The specific aspects which require elaboration are identified by the use of italics in the Performance Criteria.

Legislation, codes and national standards relevant to the workplace may include:

award and enterprise agreements and relevant industrial instruments

relevant legislation from all levels of government that affects business operation, especially in regard to occupational health and safety (OHS) and environmental issues, equal opportunity, industrial relations and anti-discrimination

relevant industry codes of practice

OHS considerations may include:

knowledge of OHS legislation, principles and practice within the context of the organisation's operations and plans

OHS practice as an ethical standard and legislative requirement

training of all employees in health and safety procedures

regular updating and review of the organisation's OHS systems, procedures and records

organisation's responsibilities to internal and external personnel

adjustment of communications and OHS approach to cater for social and cultural diversity and special needs

**Performance management systems/plans** may refer to:

documented systems for managing performance within the organisation - usually incorporating performance plans for individuals directly relating to team and organisation objectives

informal systems developed by frontline manager for individuals and/or the work team in the place of existing organisation-wide system

**Relevant personnel** may include:

management

team members

human resources manager and personnel

fellow frontline managers

union/employee representatives or groups

**Mentoring and coaching** may include:

team leaders, supervisors and leading hands

arrangements with training personnel

arrangements with skilled personnel outside the work team

**Learning needs** may include:

gaps between the competencies held by the employee and the skills and knowledge required to effectively undertake workplace tasks

developmental learning, for example the learning required to progress through an organisation and take on new tasks and roles

**Learning opportunities** may include:

learning activities outside the workplace such as:

training through an RTO leading to a nationally recognised Australian Qualifications Framework (AQF) qualification or Statement of Attainment, for example through a traineeship or New Apprenticeship

accredited training through an independent organisation such as a State OHS authority  
workshops

short courses

workplace learning activities which may also lead to a recognised credential or be part of structured training such as:

induction

mentoring

action learning

coaching

shadowing

exchange/rotation

**A development plan** may include:

work allocation

team competencies

team roles and responsibilities

performance standards

work outputs and process

learning opportunities

Key Performance Indicators (KPIs)

codes of conduct

OHS requirements

negotiated agreement with individual

capacity for inserting ongoing evaluation, review and input such as:

- individual assessment of progress towards the KPIs

- comments from manager, and team members as appropriate

- review of the individual's workload

- referral to specialist support services available either within the organisation or externally through the organisation

- progress towards identified learning opportunities

- warnings and reporting of poor performance to management in accordance with organisational policies and procedures

- timelines for performance improvement including probationary period

**Action plans for improving performance** may include:

- plans that specify:

  - areas requiring improved performance

  - specific actions expected of the employee

  - level of improvement required

  - timing of expected improvement

  - support provided

**Issues and problems** may include:

perceived or actual issues and problems relating to:

- work roles, job design and allocation of duties

- work performance of self and others

stress or personal problems that may be referred to specialist human resources personnel or external service providers

injury rehabilitation

prejudice or racial vilification

bullying

dispute between individuals or parties

grievances

appeals against formal decisions such as assessments, promotion

discrimination and harassment

**Acted on** (in relation to organisation policies and legal requirements) may include but is not limited to:

bringing parties together to seek clarification of the issue and plan for action to resolve it

formal or informal processes including discussions and meetings to resolve the issue

involving a mediator

referral to specialist human resources support services/personnel

making 'reasonable adjustments' to work procedures and facilities where required, for example in the case of a person with a disability

referral to more senior management

coaching

counselling

disciplinary procedures

**Organisation policies and legal requirements** may include, but are not limited to:

workplace policies and procedures such as those covering:

grievances

complaints

appeals

Equal Employment Opportunity

sexual/workplace harassment

privacy

workplace standards

legislation such as anti-discrimination legislation, OHS, WorkCover

mission, vision and values statements or similar

**Concerned parties** may include:

individuals, other employees outside team, employee groups and management

**Specialised human resource services** may include:

management

human resources specialists

organisational resources outside immediate team

rehabilitation coordinator

OHS practitioners  
external service providers  
employee assistance program providers  
counsellors  
ministers of religion  
medical practitioners  
paraprofessional health related services

**Relevant stakeholders** may be:

within the work team  
the organisation's clients/customers  
Board members  
business or government contacts  
funding bodies  
professional associations  
unions/employee groups

**Data and information** may include:

employee turnover figures  
employee satisfaction surveys or 'climate' surveys  
records of performance management system implementation across work team  
records of participation in learning opportunities  
productivity data  
human resource records, such as absenteeism and lateness  
benchmarking exercises against relevant data for other work teams or other organisation  
industry standards

The Range Statement adds definition to the unit by elaborating critical or significant aspects of the performance requirements of the unit. The Range Statement establishes the range of indicative meanings or applications of these requirements in different operating contexts and conditions. The specific aspects which require elaboration are identified by the use of italics in the Performance Criteria.

## Unit Sector(s)

Not applicable.

## Modification History

Not Available

## INTRODUCTION

**Unit Descriptor** This unit specifies the outcomes required for financial management within a work team in an organisation. This includes planning and implementing financial management approaches, supporting team members whose role involves aspects of financial operations, monitoring and controlling finances, and reviewing and evaluating effectiveness of financial management processes in line with the financial objectives of the work team and the organisation.

**Competency Field** Business management services

**Domain** Frontline management

**Application of the Competency** Frontline managers have a key role in implementing financial processes within the work team in organisations. They play a prominent part in ensuring that costs are controlled, expenditure is within established budgets and legislative and financial compliance requirements are met.

At this level, work will normally be carried out within complex and diverse methods and procedures which require the exercise of considerable discretion and judgement, using a range of problem solving and decision making strategies.

## Element

## Performance Criteria

Elements define the critical outcomes of a unit      The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Italicised

of competency.

terms are elaborated in the Range Statement.

- |                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

Review and evaluate financial management processes | 4.1 Data and information on the effectiveness of financial management processes within the work team are collected and collated for analysis<br>4.2 Data and information on the effectiveness of financial management processes within the work team are analysed and any improvements to existing processes identified, documented and recommended<br>4.3 Agreed improvements are implemented and monitored in line with financial objectives of the work team and the organisation |

## RANGE STATEMENT

The Range Statement adds definition to the unit by elaborating critical or significant aspects of the performance requirements of the unit. The Range Statement establishes the range of indicative meanings or applications of these requirements in different operating contexts and conditions. The specific aspects which require elaboration are identified by the use of italics in the Performance Criteria.

Legislation, codes and national standards relevant to the workplace may include:

- award and enterprise agreements and relevant industrial instruments
- relevant legislation from all levels of government that affects business operation, especially in regard to occupational health and safety (OHS) and environmental issues, equal opportunity, industrial relations, anti-discrimination and record keeping legislation
- relevant industry codes of practice

OHS considerations may include:

- knowledge of OHS legislation, principles and practice within the context of the organisation's operations and plans
- OHS practice as an ethical standard and legislative requirement
- training of all employees in health and safety procedures, and regular updating of OHS systems
- adjustment of communications and OHS approach to cater for social/cultural diversity and special needs

Budget/financial plans may include:

- long-term budgets/plans
- short-term budgets/plans
- operational plans
- spreadsheet-based financial projections
- cash flow projections
- targets or key performance indicators (KPIs) for production, productivity, wastage, sales, income and expenditure

Relevant personnel may include:

- supervisors, fellow frontline managers
- financial managers, accountants or financial controllers

Contingency plans may include:

- rental, hire purchase or alternative means of procurement of required materials, equipment and stock

- contracting out or outsourcing human resource and other functions or tasks
- restructuring of organisation to reduce labour costs
- strategies for reducing costs, wastage, stock or consumables
- diversification of outcomes
- recycling and re-use
- finding cheaper or lower quality raw materials and consumables
- seeking further funding
- increasing sales or production
- risk identification, assessment and management processes
- succession planning

Support may include:

- documentation of procedures
- intranet-based information
- training including, mentoring, coaching and shadowing
- help desk or identified experts within the organisation
- information briefings or sessions
- access to specialist advice

Required roles may include:

- maintaining petty cash system
- purchasing and procurement
- invoicing clients, customers and consumers
- debt collection
- wages and salaries payments and record keeping
- banking
- maintaining journals, ledgers and other record keeping systems
- arranging for use of corporate credit cards
- ensuring security, accuracy and currency of financial operations

Resources and systems may include:

- hardware and software
- human, physical or financial resources
- specialist advice or support
- record keeping systems (electronic and paper-based)

Processes for reporting may include:

- petty cash records
- logs
- ledgers and journals
- spreadsheet-based records
- invoices and receipts
- bank statements
- credit card statements
- financial reports

Data and information on the effectiveness of financial management processes may include records (paper-based and electronic) related to:

- income and expenditure
- cash flow data
- quotations
- files of paid purchase and service invoices
- job costings
- employee timesheets
- credit card receipts
- petty cash receipts
- wages/salaries books
- invoices
- bank account records
- insurance reports
- taxation records
- contracts

## EVIDENCE GUIDE

The Evidence Guide provides advice to inform and support appropriate assessment of this unit. It contains an overview of the assessment requirements followed by identification of specific aspects of evidence that will need to be addressed in determining competence. The Evidence Guide is an integral part of the unit and should be read and interpreted in conjunction with the other components of competency.

Assessment must reflect the endorsed Assessment Guidelines of the parent Training Package.

### Overview of Assessment Requirements

A person who demonstrates competence in this unit must be able to provide evidence that they are able to manage finances for the work team effectively and efficiently and within organisational and legislative requirements. This may include evidence of managing the work of others whose roles are associated with financial management and record keeping.

## Specific Evidence Requirements

Required knowledge and understanding include:

- relevant legislation from all levels of government that affects business operation, especially in regard to occupational health and safety and environmental issues, equal opportunity, industrial relations and anti-discrimination
- organisational requirements related to financial management
- organisation roles in respect to financial delegations, accountabilities and responsibilities
- requirements for organisational record keeping and audit requirements
- organisational objectives and plans
- financial management requirements and performance measurement
- basic accounting principles
- consultative methods and processes
- the principles and techniques involved in:
  - budgeting
  - cash flows
  - ledgers and financial statements
  - accrual accounting concepts
  - advanced numerical calculations
  - electronic spreadsheets

Required skills and attributes include:

- ability to relate to people from a range of social, cultural and ethnic backgrounds and physical and mental abilities
- communication and training skills
- financial planning and management skills, including budgeting
- contingency management skills
- problem solving skills
- leadership and personnel management
- monitoring and review skills
- skills in the use of specialist software for financial record keeping and management (if and as relevant)
- attributes:
  - ethical
  - communicative
  - showing positive leadership

Key competencies or      The seven key competencies represent generic skills considered

generic skills relevant to this unit essential for effective work participation. Innovation skills represent a further area of generic competence. The bracketed numbering indicates the performance level required in this unit:

Level (1) represents the competence to undertake tasks effectively

Level (2) represents the competence to manage tasks

Level (3) represents the competence to use concepts for evaluating and reshaping tasks.

The bulleted points provide examples of how the key competencies can be applied for this unit.

Communicating ideas and information (3)

- communicating verbally to lead a team including negotiating, training, participating in meetings, questioning and discussing
- using written communication skills, including those involved in reporting, review and evaluation

Collecting, analysing and organising information (3)

- tracking, monitoring and controlling financial data
- reviewing and evaluating financial management

Planning and organising activities (3)

- planning for delegation of tasks associated with financial management while managing own work

Working in a team (3)

- working with team members and providing leadership to team
- working with others involved in financial management from outside the team

Using mathematical ideas and techniques (3)

- using calculation skills associated with data manipulation involved in financial data

Solving problems (3)

- applying problem solving skills as required to address problems arising in managing finances

Using technology (2)

- using word processing packages, spreadsheets, databases, and other packages to produce written correspondence and reports related to finances and data collation

Innovation skills (3)

- using review process to improve financial management

Products that could be used as evidence

- documentation produced in managing finances within the work team, such as:

include:

- revised budgets
- cost estimates
- cost management plans and strategies
- cost breakdown structures
- expenditure forecasts
- records of cost management lessons learned and recommendations for improvements

Processes that could be used as evidence include:

- how any required changes to budgets/financial plans were negotiated
- how cost management plans and contingency plans were developed
- how budgets/financial plans were communicated to team members
- how team members were supported in undertaking roles associated with financial management
- how problems and issues with respect to finances were identified and addressed
- how financial management was reviewed and improvements acted upon

Resource implications for assessment include:

- access by the learner and trainer to appropriate documentation and resources normally used in the workplace

Validity and sufficiency of evidence requires:

- that this unit can be assessed in the workplace or in a closely simulated work environment
- that where assessment is part of a learning experience, evidence will need to be collected over a period of time, involving both formative and summative assessment
- that examples of actions taken by the candidate to manage finances across the work team are provided

Integrated competency assessment means:

- that this unit should be assessed with other frontline management units taken as part of this qualification, as applicable to the candidate's management role in work team and as part of an integrated assessment activity

## BSBATSIM414C Oversee the organisation's annual budget

| 4. Review and finalise budget | 4.1.Ensure expenditure commitments are in line with the final income figures<br>4.2. Work with other board members and management to finalise and approve the annual budget<br>4.3.Present the final annual budget to the community<br>4.4.Review and update the budget regularly |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- numeracy skills to:
  - interpret information in budget papers
  - perform simple calculations
- communication and teamwork skills to work cooperatively with other board members, management and staff of the organisation, members, community and key stakeholders
- culturally appropriate communication skills to relate to people from diverse backgrounds and with diverse abilities
- evaluation and decision-making skills to monitor and review information presented to the board and enact decisions
- initiative and enterprise skills to make decisions and prioritise future activity
- problem-solving skills to identify and manage differences of opinions

#### Required knowledge

- components of a typical budget and standard budgeting procedures
- concept of community control of organisations and how it may apply to budgetary decision making
- concept of financial contingency planning and how this can be undertaken
- current and potential sources of income to fund the organisation's activities
- geographic, cultural, social, economic and political context in which particular organisations operate and how this might impact on budgetary decision-making
- organisational plans that will have an effect on the budget
- organisational vision, objectives and procedures in relation to sources of income for organisational activities

**REQUIRED SKILLS AND KNOWLEDGE**

- provisions of federal, state or territory legislation and funding body requirements that impact on how finances and assets are able to be used within the organisation
- relevant protocols and cultural responsibilities when making budgetary decisions

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the ability to:

- identify typical information to be included in a budget
- recognise when a budget indicates that expenditure is greater than income, and suggest modifications that would bring it into balance
- prepare a balanced budget in collaboration with others that meets the board's identified needs.

**Context of and specific resources for assessment**

Assessment must ensure:

- access to examples of budgets
- access to examples of relevant documents
- access to examples of projects that might be undertaken by a board
- knowledge and performance are assessed over time to confirm consistency in performance.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- analysis of responses to case studies and scenarios
- direct questioning combined with reflection of practical performance by the candidate
- observation of performance on a board or simulated board
- observation of performance in role plays
- observation of presentations
- oral or written questioning to assess knowledge.

**EVIDENCE GUIDE****Guidance information for assessment**

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- BSBATSIM418A Oversee financial management.

**Range Statement****RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Budget working group*** may include:

- board subcommittee together with senior management and staff
- community members
- Elders
- external expertise
- traditional owners.

***Budget performance*** may relate to:

- budget variances, such as under or over-expenditure
- revenue and expenditure targets.

***Relevant sources*** may include:

- accountant
- audited financial statements
- business manager
- funding bodies
- treasurer
- quotes.

***Income*** may include:

- enterprise operations
- grant funds
- interest on investments
- royalties and other payments
- service contracts.

***Expenditure*** may relate to:

- administration
- capital requirements
- consultants

| RANGE STATEMENT                             |                                                                                                                                                                                                                                |

| 6. Provide constructive feedback                             | 6.1. Encourage provision of constructive <b><i>feedback</i></b> in the workplace<br>6.2. Clarify with board members and management whose role it is to provide feedback to staff members about their performance<br>6.3. Provide feedback to people about their performance where appropriate |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- active listening skills to enhance communication
- communication and teamwork skills to work cooperatively with other board members, management and staff of the organisation, members, community and key stakeholders
- initiative skills to demonstrate cross-cultural competence, ensuring a culturally appropriate workplace that respects people from a range of backgrounds
- culturally appropriate communication skills to relate to people from diverse backgrounds and with diverse abilities
- mentoring and motivation skills to support others in their work
- problem-solving skills to identify and manage potential causes of misunderstandings

#### Required knowledge

- concept of community control of organisations and how it may impact on the

**REQUIRED SKILLS AND KNOWLEDGE**

day-to-day operations of the organisation

- cultural context in which Aboriginal and Torres Strait Islander boards operate, including role in upholding traditional and cultural values and how that impacts on workplace environment
- equity and diversity principles
- geographic, social, economic and political contexts in which particular organisations operate and how these may impact on the workplace environment and culture
- organisational policies, procedures and code of conduct
- professional development options
- protocols and cultural responsibilities relevant to the role of a board member
- respective roles and responsibilities of board members and the manager
- strategies for active listening
- strategies for giving and receiving feedback
- strategies for managing disagreements and cross-cultural misunderstandings
- teamwork theory and approaches

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the ability to:

- support others to achieve work goals
- treat staff and colleagues with respect and sensitivity
- communicate appropriately with people from a range of diverse backgrounds
- employ strategies to encourage teamwork and reduce the potential for cross-cultural misunderstandings.

**Context of and specific resources for assessment**

Assessment must ensure:

- participation on an actual or simulated board
- access to examples of issues that arise in workplaces

| EVIDENCE GUIDE                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <ul style="list-style-type: none"> <li>knowledge and performance are assessed over time to confirm consistency in performance.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b>Method of assessment</b>                | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>observation of performance on a board or simulated board</li> <li>direct questioning combined with reflection of practical board performance by the candidate</li> <li>analysis of responses to case studies and scenarios</li> <li>demonstration of techniques</li> <li>observation of presentations and group discussions</li> <li>oral or written questioning to assess knowledge</li> <li>observation of performance in role plays</li> <li>analysis of feedback from staff members, other board members and the community regarding performance.</li> </ul> |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>BSBATSIC412A Maintain and protect cultural values in the organisation.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

## Range Statement

| RANGE STATEMENT                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                      |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |                                                                                                                                      |
| <b><i>Positive qualities</i></b> may include:                                                                                                                                                                                                                                                                                                                                                                                                                                        | <ul style="list-style-type: none"> <li>attitudes and values</li> <li>initiative</li> <li>skills and abilities.</li> </ul>            |
| <b><i>Past experiences</i></b> may relate to:                                                                                                                                                                                                                                                                                                                                                                                                                                        | <ul style="list-style-type: none"> <li>culture</li> <li>effects of government policies</li> <li>educational opportunities</li> </ul> |

# CHCCD615A Develop and implement community development strategies

## Modification History

Not Applicable

## Unit Descriptor

### Descriptor

This unit describes the knowledge and skills required to work in the community to facilitate public awareness and resolution of a range of issues of public concern

## Application of the Unit

### Application

This unit is intended for application within a community work or community development work context

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Establish and build community based group processes

1.1 Use appropriate interpersonal skills to ensure that stories are heard and understood and to test there is common understanding

1.2 Respond to individual and group concerns in a manner which shows respect and identifies the public concern

1.3 Support individuals to identify others who may share their concerns

1.4 Employ relevant facilitation skills to assist people to identify when community development processes may not be the appropriate mechanism to address their issue and to provide appropriate referrals

1.5 Identify and address barriers to moving private concerns into public community action

1.6 Facilitate identification and development of community development strategies for proceeding with community actions

1.7 Identify structures and networks relevant to proposed community actions

2. Research and analyse structures and systems relevant to the public concern

2.1 Identify the structures and systems which have created and maintain *issues* within the public arena

2.2 Assist the group to develop strategies to seek positive change to these structures and systems

2.3 Implement strategies to seek positive change

2.4 Evaluate and review strategies in light of change achieved.

| 3. Facilitate processes to support community action | <p>3.1 Undertake all work in a timely manner</p> <p>3.2 Assist groups to implement appropriate mechanisms and actions which will address the range of <i>issues</i></p> <p>3.3 Contribute to the development of policies and processes which will facilitate resolution of group concerns in the public arena</p> <p>3.4 Routinely use effective interpersonal skills to motivate the group to work cooperatively</p> <p>3.5 Undertake appropriate work to develop and implement <i>operational arrangements</i> which will facilitate group processes</p> <p>3.6 Provide appropriate level of support within the defined work role to develop and maintain group processes and facilitate achievement of <i>identified outcomes</i></p> <p>3.7 Provide appropriate support to ensure there is ongoing evaluation of group processes</p> <p>3.8 Assist the group to access additional assistance and <i>resources</i> as required</p> <p>3.9 Develop and apply a strategy for managing a number of community development activities</p> |
| 4. Develop and maintain relevant networks           | <p>4.1 Identify and prioritise networking needs and established new networks as required to meet community and group needs and organisation objectives</p> <p>4.2 Develop and maintain strategic alliances with key individuals and groups covering a range of <i>issues</i> relevant to work role</p> <p>4.3 Incorporate significant cultural practices, needs and traditions into the networking strategy and its development</p> <p>4.4 Implement strategies to develop effective new networks in consultation with <i>key people</i> and in accordance with organisation objectives</p> <p>4.5 Make available information about new network to others as appropriate</p> <p>4.6 Develop and implement processes for engaging</p>                                                                                                                                                                                                                                                                                                    |

**ELEMENT****PERFORMANCE CRITERIA**

relevant community members to collect and disseminate information as appropriate to ensure effective operation of the network

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Community development principles and practices
- The community profile
- Funding sources and their policies and strategies for encouraging community input and participation
- Relevant local, state and federal strategies/legislation
- Depending on the work role or services provided, specific knowledge of particular groups or issues may be required, including:
  - Alcohol and other drugs
  - Cultural and linguistic diversity
  - Risk of self-harm
  - Women
  - Men
  - LGBTI
  - Family and children
  - Young people
  - Community education
  - Aboriginal and Torres Strait Islander people
  - Mental health
  - Social Policy and the State
  - Information dissemination

## REQUIRED SKILLS AND KNOWLEDGE

- Public speaking
- Using the mass media
- Ethics
- Negotiation skills
- Mechanisms of social action and social change

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate capacity to work strategically in a number of areas to ensure individual concerns are translated into public issues
- Develop and maintain public processes to address common issues
- Work with a wide range of key people or stakeholders in the community

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - research
  - project/program evaluation
  - budgeting
  - negotiation
  - liaison
  - networking
  - group facilitation

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the

## EVIDENCE GUIDE

Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be assessed in the workplace or in a simulated workplace under the normal range of workplace conditions

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to appropriate structures, people or organisations for assessment purposes

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes

## EVIDENCE GUIDE

- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Issues may include:*

- Employment
- Housing
- Financial/income support
- Access to education and training
- Health
- Crime prevention
- Social isolation
- Planning public access
- Child care
- Civil and human rights
- Transport and mobility
- Recreation, arts and culture
- Environmental protection

*Responses include:*

- Establishment of alternative systems and structures
- Working within local bureaucracies
- Advocacy

## RANGE STATEMENT

*Operational arrangements include:*

- Legal framework for operation
- Funding arrangements
- Models for operation
- Decision-making arrangements
- Baby sitting
- Vouchers
- Location
- Advertising/promotion

*Community work methods include:*

- Community action
- Advocacy
- Development of self help processes
- Development of infrastructure in the community
- Development of community support
- Development of community programs
- Brokering of institutional systems change

*Identified outcomes may include:*

- New or improved service delivery
- Community projects
- Community planning
- Consultative and planning committees
- Enhanced social capital
- Enhanced community skills
- Enhanced community capacity
- Community facilities
- Policy changes
- Other relevant needs identified by the community or the group

*Opportunities for groups to participate include:*

- Sector development structures
- Activities at service delivery, program, operative and management levels
- Formal and informal systems
- Promotion
- Support meeting
- Focus groups on relevant issues

**RANGE STATEMENT**

*Key people may include:*

- Advocacy groups
- Policy and decision-makers in the community
- Community leaders
- People with formal and informal representative roles

*Resources may include:*

- Skills/administrative support
- Physical, transport, venues, material, equipment
- Provision of training
- Financial
- Equipment
- Staff skills and time
- Provision of facilities
- Educational materials
- Funding

## **BSBMGT604A Manage business operations**

### **Modification History**

Not applicable.

### **Unit Descriptor**

The unit covers those activities required of a manager running a business operation and links closely with the business planning units. The emphasis is on the implementation of plans and the monitoring and response to systems failures.

This unit is the implementation of the work done in BSBMGT603A Review and develop business plans; co-assessment should be strongly considered.

Consider co-assessment also with BSBMGT606A Manage customer focus and BSBMGT609A Manage risk.

The unit covers those activities required of a manager running a business operation and links closely with the business planning units. The emphasis is on the implementation of plans and the monitoring and response to systems failures.

| 1 Implement tactical and operational plans | <p>1.1 Supply chains of resources to organisation or department established and operating effectively</p> <p>1.2 Requirements for skilled labour are met in accordance with plans</p> <p>1.3 Activities are brought on line in accordance with scheduling requirements of plans</p> <p>1.4 Preventative and breakdown maintenance arrangements for business systems are integrated into operations</p> <p>1.5 Cost maintenance and control systems are implemented</p> <p>1.6 Performance measurement systems are tested and operational</p> <p>1.7 Projects are commenced consistent with the project management plan</p> <p>1.8 Co-ordination of people, resources and equipment provide optimum results</p> <p>1.9 Products/services meet quality and functional specifications</p> <p>1.1 Communication/consultation is undertaken according to plans</p> <p>1.1 Implementation is consistent with business and strategic plans in place</p> |
| 2 Monitor performance                      | <p>2.1 Performance indicators and criteria for assessment are confirmed and in place</p> <p>2.2 Indicators/criteria are consistent with organisational objectives and planned outcomes</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

- 2.3 Projects are managed in accordance with established project management protocols
- 2.4 Timely reports on all key aspects of the business are available and user-friendly, and balanced in terms of financial and non financial performance
- 2.5 System failures, product failures and variances to plan are reported as they occur
- 3 Respond to performance data
  - 3.1 Relevant performance reports are identified and analysed in detail
  - 3.2 System specifications and protocols are reviewed to eliminate future failure
  - 3.3 Groups and individuals contributing to under-performance are coached, and training provided where appropriate
  - 3.4 System processes and work methods are regularly reviewed as part of continual improvement

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statement.

### Critical Aspects of Evidence

The evidence must cover the translation of the plans previously developed, into workable activities or projects

There must be evidence of a systematic value chain analysis of all of the support activities of the business and the outcomes of that analysis being translated into action

Evidence of risk management and evaluation of performance leading to effective remediation also needs to be present

### OHS considerations may include:

review of OHS records and performance management measures

establishment and maintenance of OHS risk management approaches

systemic use of hierarchy of control measures

establishment and maintenance of OHS systems for project management

### **Underpinning Knowledge\***

\* At this level the learner must demonstrate understanding of specialised knowledge with depth in some areas.

Relevant legislation from all levels of government that affects business operation, especially in regard to Occupational Health and Safety and environmental issues, equal opportunity, industrial relations and anti-discrimination

Strategic planning

All legislation relevant to the organisation's operation

Critical path/PERT methodology

Relevant industrial awards and agreements

Electronic commerce systems

Consultative methods and processes

Performance measurement and benchmarking methodology

Operations management

High reliability organisational concepts

Energy management

Capital investment evaluative methodology including NPV and ROI

### **Underpinning Skills**

Analytical and evaluative skills to assess supply chain performance

Performance measurement skills to develop and manage key performance indicators

Planning and co-ordination skills to ensure the people resources and equipment work in a functional manner to achieve optimum results

Communication/consultation skills to ensure all relevant groups and individuals are advised of what is occurring and are provided with an opportunity for input

Project management skills to ensure project objectives, outcomes and outputs are delivered on time, within budget, and incident free

Communication and report writing skills to keep all internal customers informed of activities and developments

Systems analysis and design skills to ensure that system outputs meet tactical/operational objectives and measure performance in a timely way

Coaching and training skills to remediate any under-performance present in the work group or individuals

Ability to relate to people from a range of social, cultural and ethnic backgrounds and physical and mental abilities

### **Resource Implications**

The learner and trainer should have access to appropriate documentation and resources normally used in the workplace

### **Consistency of Performance**

In order to achieve consistency of performance, evidence should be collected over a set period of time which is sufficient to include dealings with an appropriate range and variety of situations

### **Context/s of Assessment**

Competency is demonstrated by performance of all stated criteria, including paying particular attention to the critical aspects and the knowledge and skills elaborated in the Evidence Guide, and within the scope as defined by the Range Statement

Assessment must take account of the endorsed assessment guidelines in the Business Services Training Package

Assessment of performance requirements in this unit should be undertaken in an actual workplace or simulated environment

Assessment should reinforce the integration of the key competencies and the business services common competencies for the particular AQF level. Refer to the Key Competency Levels at the end of this unit

### **Key Competency Levels**

**Collecting, analysing and organising information (Level 3)** - to ensure plans in place meet all quality requirements

**Communicating ideas and information (Level 3)** - to ensure that all appropriate individuals understand the plans and systems

**Planning and organising activities (Level 3)** - to review systems and processes to achieve continuous improvement

**Working with teams and others (Level 3)** - to ensure that they are pro-active in the management of the operations

**Using mathematical ideas and techniques (Level 2)** - to analyse system/product failures

**Solving problems (Level 3)** - to eliminate any negative variances to the plan

**Using technology (Level 2)** - to improve system processes and work methods wherever appropriate

Please refer to the Assessment Guidelines for advice on how to use the Key Competencies

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of competence and should be read in conjunction with the Range Statement.

### **Critical Aspects of Evidence**

The evidence must cover the translation of the plans previously developed, into workable activities or projects

There must be evidence of a systematic value chain analysis of all of the support activities of the business and the outcomes of that analysis being translated into action

## Range Statement

The Range Statement provides advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. The following variables may be present for this particular unit:

### **Legislation, codes and national standards relevant to the workplace which may include:**

award and enterprise agreements and relevant industrial instruments

relevant legislation from all levels of government that affects business operation, especially in regard to Occupational Health and Safety and environmental issues, equal opportunity, industrial relations and anti-discrimination

relevant industry codes of practice

### **Supply chains means:**

a network of facilities that procures raw materials, transforms them into intermediate products (or services) and then finished goods (or services), and delivers them through a distribution system. It spans procurement, production and distribution; views them not as discrete elements but interlinked

### **Preventative and breakdown maintenance arrangements may include:**

programmed maintenance

preventative maintenance plans

emergency response plans

### **Performance measurement systems means:**

those systems designed to collect quantitative and qualitative indicators of performance in all of the Key Result Areas for the organisation so as to identify and remediate variances to plans

### **Optimum results means:**

that the best overall mix of results is achieved across the organisation's Key Result Areas. Outcomes are measured within the applicable constraints

### **Quality means:**

meeting all quality assurance specifications of the organisation

### **Project management protocols means:**

the rules of behaviour relating to the development, planning, approval, implementation, management and evaluation of projects

### **Timely means:**

in accordance with time limits established in the operational planning process

### **Coaching refers to:**

informal on-the-job and off-the-job advice and training to improve performance

The Range Statement provides advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. It relates to the unit as a whole and facilitates holistic assessment. The following variables may be present for this particular unit:

**Legislation, codes and national standards relevant to the workplace which may include:**

emergency response plans

**Performance measurement systems means:**

those systems designed to collect quantitative and qualitative indicators of performance in all of the Key Result Areas for the organisation so as to identify and remediate variances to plans

**Optimum results means:**

that the best overall mix of results is achieved across the organisation's Key Result Areas. Outcomes are measured within the applicable constraints

**Quality means:**

meeting all quality assurance specifications of the organisation

**Project management protocols means:**

the rules of behaviour relating to the development, planning, approval, implementation, management and evaluation of projects

**Timely means:**

in accordance with time limits established in the operational planning process

**Coaching refers to:**

informal on-the-job and off-the-job advice and training to improve performance

### Unit Descriptor

|                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Unit descriptor</b> | <p>This unit describes the performance outcomes, skills and knowledge required to lead an audit team as they undertake a quality audit. It covers conducting entry and exit meetings; identifying and gathering relevant information; managing audit team resources; and providing feedback to audit team members on their performance.</p> <p>The types of quality audit that may be covered by this unit include an external or internal systems audit or process or product/service audit.</p> <p>No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.</p> |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### Application of the Unit

|                                |                                                                                                                                                                                                                                                                                                                                                                                          |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application of the unit</b> | <p>This unit applies to individuals with well established, sound theoretical knowledge base in quality auditing who are proficient in using a wide range of specialised quality auditing and managerial techniques to carry out their own work and to supervise the quality audit team. The unit is relevant to audits where a lead auditor is responsible for a quality audit team.</p> |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                            | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                            |
|------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Conduct entry meeting           | 1.1. Organise entry meeting in advance at a mutually agreed time<br>1.2. Prepare agenda for audit<br>1.3. Confirm objectives and scope of audit at entry meeting<br>1.4. Confirm schedules and logistical arrangements at entry meeting<br>1.5. Make changes to plan, schedules and arrangements where required |
| 2. Identify and gather information | 2.1. Identify a range of potential <b><i>sources of information</i></b><br>2.2. Interview <b><i>appropriate persons</i></b><br>2.3. Gather relevant information and <b><i>sample documentation</i></b>                                                                                                          |

| ELEMENT                                                           | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                              |
|-------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 3. Manage audit team resources                                    | 3.1. Supervise activities of audit team members<br>3.2. Assess and review audit team findings in line with audit scope<br>3.3. Re-assign team members as required<br>3.4. Instigate contingency actions as required<br>3.5. Seek and reach agreement on corrective action reports |
| 4. Conduct exit meeting                                           | 4.1. Make preparations for exit meeting<br>4.2. Examine results and findings against audit objectives and present to auditee<br>4.3. Ensure reporting arrangements are agreed upon<br>4.4. Explain context and consequences of audit and discuss during follow-up                 |
| 5. Guide team members in continuously improving their performance | 5.1. Provide feedback on performance to audit team members<br>5.2. Encourage and support audit team members to critique their own work<br>5.3. Provide and document advice for individual improvement                                                                             |

## Required Skills and Knowledge

### Required knowledge

- auditing codes of practice or ethics
- auditing methods and techniques
- auditing regulations and standards, including:
  - AS/NZS ISO: 9000:2006: Quality management systems - Fundamentals and vocabulary
  - AS/NZS ISO 19011:2003: Guidelines for quality and/or environmental management systems auditing
- current audit practices
- industry, product and/or service knowledge
- quality auditing principles, techniques and systems
- requirements of house or other style manual protocols for written communications
- relevant legislation affecting business operations including appropriate occupational health and safety, environmental, and privacy legislation
- software applications relevant to conducting quality auditing activities
- terminology relating to quality auditing.

## Evidence Guide

| <b>EVIDENCE GUIDE</b>                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b>                                                                                                                    | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>• demonstration of leadership and management of a quality auditing team across quality audits in a variety of contexts</li> <li>• management of the information gathering process by team members, and analysis, synthesis and reporting of the findings</li> <li>• knowledge of auditing methods and techniques.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>Context of and specific resources for assessment</b>                                                                                                                                                                | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to workplace documentation including previous quality audit reports, checklists, risk management plans and audit plans.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Method of assessment</b>                                                                                                                                                                                            | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• analysis of information gathered in the information gathering process</li> <li>• review of audit plans</li> <li>• direct questioning combined with review of portfolios of evidence by third party workplace reports of on-the-job performance by the candidate</li> <li>• observations of application of audit techniques</li> <li>• observations of interactions with team members, colleagues and auditees</li> <li>• oral or written questioning to assess knowledge of current audit practices</li> <li>• review of documentation advising team members about improving their performance.</li> </ul> |
| <b>Guidance information for assessment</b>                                                                                                                                                                             | Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

**EVIDENCE GUIDE**

- other quality auditing units.

**Range Statement****RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Sources of information*** may include:

- examination of internal documentation
- examination of reports from external sources, for example external laboratory reports and vendor ratings
- inspection of records, for example meeting minutes, reports or log books
- interviews
- observation of activities

***Appropriate persons*** may include:

- persons from different levels within the auditee's organisation, for example management, administrative personnel and work floor personnel
- persons performing activities or tasks under consideration in the audit process

***Sample documentation*** may include:

- documented procedures
- log books
- meeting minutes
- previous audit reports
- reports
- reports from external sources
- systems specifications
- test results
- user requirements definitions
- work instructions

### Application of the Unit

|                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application of the unit</b> | <p>This unit applies to people with managerial responsibilities, including for building a better and more effective work environment. Continuous improvement and innovation have links with the model of the learning organisation and people working at this level play an important role in building the culture, values and attitudes of the organisation.</p> <p>Links may be made between continuous improvement and formal quality systems, such as International Organization for Standardization (ISO) or quality software. However it is not assumed that formal quality systems or software are in the workplace.</p> <p>Innovation is seen as an important attitude and set of practices, which should be fostered by people working at this level in teams and across the organisation.</p> |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                   | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Review programs, systems and processes | <p>1.1. Establish strategies to monitor and evaluate performance and <b><i>sustainability</i></b> of key systems and processes</p> <p>1.2. Undertake detailed analyses of <b><i>supply chains</i></b>, and operational, product and service delivery systems</p> <p>1.3. Identify performance measures, and assessment tools and techniques, and evaluate their effectiveness</p> <p>1.4. Analyse <b><i>performance reports</i></b> and variance from plans for key result areas of the organisation</p> <p>1.5. Identify and analyse changing trends and opportunities relevant to the organisation</p> <p>1.6. Seek advice from specialists, where appropriate, to identify technology and electronic commerce opportunities</p> |

| ELEMENT                                       | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2. Develop options for continuous improvement | <p>2.1. Brief groups on performance improvement strategies and innovation as an essential element of competition</p> <p>2.2. Foster creative climate and organisational learning by promoting interaction within and between work groups</p> <p>2.3. Encourage, test and recognise new ideas and entrepreneurial behaviour where successful</p> <p>2.4. Accept failure of an idea during trialling, and recognise, celebrate and embed success into systems</p> <p>2.5. Undertake risk management and cost-benefit analysis for each option or idea approved for trial</p> <p>2.6. Approve innovations through agreed organisational processes</p>                                                                                                                                                                           |
| 3. Implement innovative processes             | <p>3.1. Promote continuous improvement and sustainability as essential to doing business</p> <p>3.2. Address impact of change and consequences for people, and implement transition plans</p> <p>3.3. Ensure objectives, timeframes, measures and communication plans are in place to manage implementation</p> <p>3.4. Implement contingency plans in the event of non-performance</p> <p>3.5. Follow up failure by prompt investigation and analysis of causes and manage emerging challenges and opportunities effectively</p> <p>3.6. Ensure that learnings from activities are captured and managed to inform future work</p> <p>3.7. Regularly evaluate continuous improvement systems and processes</p> <p>3.8. Communicate costs and benefits of innovations and improvements to relevant groups and individuals</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

**REQUIRED SKILLS AND KNOWLEDGE**

- analytical skills to identify improvement opportunities in relation to:
  - concepts and ideas developed
  - services or products delivered
- flexibility and creativity skills to think laterally
- learning skills to develop options for continuous improvement
- teamwork and leadership skills to foster a commitment to quality and an openness to innovation

**Required knowledge**

- cost-benefit analysis methods
- creativity and innovation theories and concepts
- organisational learning principles
- quality management and continuous improvement theories
- risk management
- sustainability practices

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- demonstration of consultation processes to introduce or evaluate an existing continuous improvement process or system, including suggested actions or an action plan
- generation of an idea or concept that exhibits creative thinking and offers the possibility of benefiting the organisation
- demonstration of how the concept or idea was introduced, tested and evaluated, which does not have to have been shown to work or to be adopted by the business
- application of knowledge of quality management and continuous improvement theories.

**Context of and specific resources for assessment**

Assessment must ensure access to appropriate documentation and resources normally used in the workplace.

| EVIDENCE GUIDE                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| HLT07 Version 4                                                                            | HLT07 Version 5                                                                            | Comments                                                                                                                                                                    |
|--------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| HLTRNL604B - Provide support and management of the client undergoing haemodialysis therapy | HLTRNL604C - Provide support and management of the client undergoing haemodialysis therapy | Unit updated in V5.<br>ISC upgrade changes to remove references to old OHS legislation and replace with references to new WHS legislation. No change to competency outcome. |

### Unit Descriptor

#### Descriptor

This unit of competency describes the knowledge and skills required to support the client undertaking haemodialysis and to use current technologies in haemodialysis including the safe administration of medications via dialysis

### Application of the Unit

#### Application

The unit involves application of specialised skills and knowledge by Enrolled/Division 2 nurses or Aboriginal and/or Torres Strait Islander health workers, for clinical assessment and follow up of client care plans under direct supervisory arrangements in line with jurisdictional and regulatory requirements.

For Enrolled/Division 2 nurses the knowledge and skills described in this unit of competency are to be applied within jurisdictional nursing and midwifery regulatory authority legislative requirements.

Enrolled nursing work is to be carried out in consultation/collaboration with registered nurses and

under direct supervisory arrangements in line with jurisdictional regulatory requirements.

For Aboriginal and/or Torres Strait Islander health workers, this unit of competency addresses the delivery of renal health care services in Aboriginal and/or Torres Strait Islander communities.

Work performed by Aboriginal and/or Torres Strait Islander health workers is to be carried out in consultation/ collaboration with registered nurses and/or medical practitioners under direct supervisory arrangements in line with jurisdictional regulatory requirements.

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

### Pre-requisite units

This unit must be assessed after successful achievement of the following related unit of competency:

- HLTRNL601C Support the client with chronic kidney disease

**AND one of the following units:**

- HLTEN519C Administer and monitor intravenous medication in the nursing environment

**OR**

- HLTAHW606B Manage medicines in Aboriginal and/or Torres Strait Islander health care

## Employability Skills Information

### Employability skills

This unit contains employability skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Establish therapeutic relationship with *client*

1.1 Provide the client with the opportunity to ask questions and discuss areas of concern

1.2 Ask the client questions clearly and in an appropriate manner, level and pace, and in a way that encourages the client to provide full answers

1.3 Provide accurate feedback and education, appropriate to the client's needs and concerns, within scope of role and responsibilities

1.4 Encourage client independence throughout the procedure according to their level of capability

#### 2. *Assess physical health status* of client in preparation for haemodialysis

2.1 Complete pre-dialysis assessment of the client through observation and interview and report to other *members of the health care team* as required within *scope of work role* and organisation guidelines

2.2 Review *pathology results*, identify significant variations, and report to other members of the health care team according to organisation policies and procedures

2.3 *Examine the vascular access site* to determine suitable sites for cannulation and to identify any *problems*

2.4 Identify any significant physical health issues in relation to dialysis prescription and requirement for adjustments and report to other members of the health care team as required within scope of work role and organisation guidelines

2.5 Recognise and refer *actual and potential problems* that vary from the client's normal health status to other members of the health care team as required in consultation with registered nurse and within scope of

## ELEMENT

## PERFORMANCE CRITERIA

work role and organisation guidelines

### 3. Prepare equipment and the client for haemodialysis treatment

3.1 Explain procedure to the client in accordance with legal requirements and organisation policies and procedures

3.2 Prepare the client for treatment and make comfortable

3.3 Prepare machine according to organisation policies and procedures

3.4 Determine dialysis settings according to the client's dialysis prescription within scope of work role and organisation guidelines

3.5 *Prepare other interventions, including medications, under the direct supervision of, and as delegated by, the registered nurse within scope of work role and organisation guidelines*

3.6 Prepare *consumables* for cannulation of the client and connection to machine

3.7 Wash hands and use personal protective equipment in accordance with standard and additional precautions

3.8 Prepare the client's access for cannulation according to organisation policies and procedures

3.9 Determine appropriate site for cannulation in consultation with registered nurse

3.10 Perform cannulation according to organisation policies and procedures

### 4. Perform dialysis

4.1 Connect the client to haemodialysis machine according to organisation policies and procedures and *infection control guidelines*

4.2 Monitor the client during treatment within scope of work role and refer to other members of the health care team according to organisation policies and procedures

4.3 Recognise and respond appropriately to machine alarms and actual and potential problems of haemodialysis

4.4 Assess the client's response to treatment within

## ELEMENT

## PERFORMANCE CRITERIA

scope of work role and confer with supervising registered nurse

4.5 Assess the client's response to other interventions as administered within scope of work role

4.6 Recognise acute and delayed adverse reactions to other interventions and respond within scope of work role

4.7 Disconnect the client from haemodialysis machine in accordance with organisation policies and procedures

4.8 Clean equipment, dry and store in accordance with infection control and manufacturer's guidelines

4.9 Examine vascular access site to identify any problems

5. Assess physical health status of client at completion of haemodialysis

5.1 Complete the post-dialysis assessment of the client

5.2 Evaluate the *client's response to treatment* and report to other members of the health care team as required within scope of work role and organisation guidelines

5.3 *Document* and report outcomes to the appropriate members of the health care team

5.4 Provide feedback to the client on physical health assessment in order to maintain optimal health status within scope of work role

5.5 Encourage the client to voice concerns and respond appropriately

5.6 Incorporate referral to community services into advanced care planning strategies in consultation/collaboration with registered nurse and other members of the health care team

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

## REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Application of infection control principles, including environmental hazards, relating to haemodialysis
- Common pathology tests to diagnose and monitor CKD and their interpretation
- Definition and average reference ranges of common haematological and biochemical results relating to tests for Stage 5 CKD and haemodialysis
- Dialysis machinery and consumables
- Fluid, electrolyte and acid base balance
- Health status monitoring of client undergoing haemodialysis
- Immunity and the importance of vaccinations
- Medications associated with the dialysis process such as anticoagulation, saline and local anaesthetic including basic mechanism of action, precautions, contraindications and side effects
- Medicines in common use in management of clients with Stage 5 CKD receiving haemodialysis including basic mechanism of action, precautions, contraindications and side effects
- Organisation policies, procedures and protocols relating to haemodialysis
- Pathophysiology of Stage 5 chronic kidney disease (CKD )
- Physiological principles of osmosis, diffusion, ultra filtration and convection
- Recognise the different vascular accesses used for haemodialysis
- Relevant medical/medication terminology and approved abbreviations
- Reportable limits for clients vital signs and biochemical and haematological results for clients undergoing haemodialysis dialysis
- Signs and symptoms of actual and potential problems associated with haemodialysis and the appropriate response
- Structure and function of the urinary, cardiovascular, lymphatic and immune systems
- The differences of performing haemodialysis in a variety of environments
- Understanding how to assess the adequacy of dialysis
- Understanding of own role and responsibilities and those of other health care team members in the delivery of care to clients with CKD
- Water treatment standards, equipment and monitoring

## REQUIRED SKILLS AND KNOWLEDGE

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply formulae for drug calculations for administration of medications via dialysis
- Apply interpersonal skills, including working with others, using sensitivity when dealing with people and relating to persons from differing cultural, social and religious backgrounds
- Assess patency of vascular access
- Cannulate haemodialysis vascular access
- Correctly prepare machine for haemodialysis
- Demonstrate accountability for personal outputs and client group outcomes
- Identify and manage different haemodialysis vascular access types as required for work role e.g. native fistula, graft, vascath and permacath
- In consultation with the health care team, contribute to effective plans of care to meet the educational needs of the haemodialysis patient
- Monitor the health status of the client undergoing haemodialysis
- Perform emergency treatment for a client experiencing an adverse response to medications administered via dialysis
- Perform haemodialysis treatment
- Perform water testing procedures
- Prepare, administer and record the administration of medications via dialysis
- Recognise and respond to actual and potential problems of haemodialysis appropriately
- Use appropriate communication skills (non-verbal, openness, sensitivity, non-judgemental attitudes)
- Use oral communication skills (language competence) required to fulfil job roles as specified by the organisation/service, including:
  - interviewing techniques
  - asking questions
  - active listening
  - asking for clarification
- Use written communication skills (literacy competence) required to fulfil job roles as specified by organisation/service at a level of skill that may range from reading and understanding client documentation to completion of written reports
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate competency in this unit*

- Candidates must demonstrate their ability to apply essential knowledge identified for this unit of competency before undertaking workplace application
- Observation of performance in a work context is essential for assessment of this unit of competency
- Consistency of performance should be demonstrated over the required range of workplace situations and should occur on more than one occasion
- Assessment of medication administration must include a written calculation test with 100% mastery

*Context of and specific resources for assessment*

- This unit of competency is most appropriately assessed in the clinical workplace and under the normal range of clinical environment conditions

*Method of assessment*

- Observation in the workplace
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning - verbal and written
- Role play

*Access and equity considerations*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment

## EVIDENCE GUIDE

- In recognition of particular health issues facing Aboriginal and/or Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and/or Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Clients are limited to:*

- Adolescent
- Adult

*Assessment of physical health status may include:*

- Blood pressure pulse and respiration
- Weight
- Hydration status
- Evidence of uraemia and electrolyte imbalance e.g. lethargy, confusion, anorexia, nausea and vomiting
- Signs of fluid overload e.g. dyspnoea, tachypnoea ankle oedema, weight gain over a short period of time and high blood pressure readings
- Signs of dehydration e.g. dry mouth, dizzy, postural drop in blood pressure, low blood pressure and weight loss over short period of time
- Blood sugar levels
- Pathology results from routine testing for dialysis clients

## RANGE STATEMENT

- Haemodialysis vascular access site status
- Members of the health care team may include:*
- Enrolled/Division 2 nurse
  - Registered nurse
  - Nurse practitioner
  - General practitioner
  - Renal physician
  - Chronic disease management team
  - Dietitian
  - Social worker
  - Pharmacist
  - Podiatrist
  - Aboriginal and/or Torres Strait Islander health worker
- Scope of work role refers to:*
- Enrolled/Division 2 nurses
  - Aboriginal and/or Torres Strait Islander health workers
- Pathology results may include:*
- Haematological tests:
    - haemoglobin
    - iron studies
  - Biochemical tests:
    - urea
    - creatinine
    - calcium
    - phosphate
  - Dialysis adequacy tests:
    - Kt/Vs
    - urea reduction ratio
    - fraction reduction urea
- Examine the vascular access site includes:*
- Palpate fistula for thrill
  - Auscultate fistula for bruit
  - Observe for signs of infection
  - Check last needle sites

## RANGE STATEMENT

*Vascular access site problems may include:*

- Decreased thrill
- High pitched bruit
- Difficulty in needling fistula
- Abnormal arterial and venous pressure readings
- Pain, swelling, redness or trauma
- False aneurysms
- Leaking around cannulation site

*Actual and potential problems of haemodialysis may include:*

- Blown needle
- Hypotension
- Blood leak within dialyser
- Blood leak from cannulation sites
- Clotted dialyser within the circuit
- Rapid or excess fluid removal
- Rapid or excess electrolyte removal

*Prepare other interventions including medications must include:*

- Identification of contraindications of medications
- Confirmation of client identity and check for known allergies
- Identification of the purpose and function of prescribed medication
- 100% accurate calculation of medication doses for administration as prescribed
- Contributing to the provision of information provided to clients and carers on side effects of medication administration

*Other interventions may include:*

- Antibiotics
- Iron
- Erythropoiesis stimulating agents
- Anticoagulation
- Blood products e.g. concentrated albumin, packed cells

*Delegation refers to:*

- Conferring of authority to perform specific medication administration activities to a worker not usually authorised but who has been determined as appropriate for the task by the delegating health

## RANGE STATEMENT

professional

- Delegation is within the context of a care plan or other written instruction
- Where delegation is provided verbally it must be confirmed as soon as practicable according to organisation procedures in writing and incorporated in the care plan
- The authority is specific to an individual client within a specific care context and is not transferable
- Delegation instructions must include:
  - medication and its purpose
  - dosage and related instructions
  - route
  - contraindications
  - any other relevant instructions or information, especially information specific to the client

*Consumables may include:*

- Blood lines
- Dialyser
- Dialysate
- Priming solution
- Syringe/needles
- Anti-coagulant
- Tourniquet
- Antiseptic solution and alcohol swabs
- AV needles x 2
- Gauze and tape
- Local anaesthetic cream or subcutaneous lignocaine
- Flushing equipment - normal saline and syringes

*Infection control guidelines may include:*

- Standard and additional precautions
- Aseptic technique
- Access site preparation
- Waste handling and disposal

*Client's response to treatment may include:*

- Hypotension
- Headache
- Yawning

## RANGE STATEMENT

- Cramps
- Not achieving ideal weight

*Documentation may include:*

- Record of test procedures
- Complete and sign request form
- Medical record notation
- Labelling specimens and documentation
- Data entry on paper and electronically
- Client's response to treatment
- Strategies to manage client's response to treatment

## Unit Sector(s)

### Unit Descriptor

#### Descriptor

This unit describes the skills and knowledge required to provide care and support to clients with renal disease who are undertaking renal replacement therapy in the community setting

### Application of the Unit

#### Application

The unit involves application of specialised skills and knowledge by Enrolled/Division 2 nurses or Aboriginal and/or Torres Strait Islander health workers, for clinical assessment and follow up of client care plans under direct or indirect supervisory arrangements in line with jurisdictional and regulatory requirements.

For Enrolled/Division 2 nurses the knowledge and skills described in this unit of competency are to be applied within jurisdictional nursing and midwifery regulatory authority legislative requirements.

Enrolled nursing work is to be carried out in consultation/collaboration with registered nurses and under direct or indirect supervisory arrangements in

line with jurisdictional regulatory requirements.

For Aboriginal and/or Torres Strait Islander health workers, this unit of competency addresses the delivery of renal health care services in Aboriginal and/or Torres Strait Islander communities.

Work performed by Aboriginal and/or Torres Strait Islander health workers is to be carried out in consultation/collaboration with registered nurses and/or medical practitioners under direct or indirect supervisory arrangements in line with jurisdictional regulatory requirements.

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

### Pre-requisites

This unit must be assessed after successful achievement of the following related units of competency:

- HLTRNL601C Support the client with chronic kidney disease
- HLTRNL602C Provide support and management of the client undergoing peritoneal dialysis therapy

AND one of the following units:

- HLTEN519C Administer and monitor intravenous medication in the nursing environment
- OR
- HLTAHW606B Manage medicines in Aboriginal and/or Torres Strait Islander health care

## Employability Skills Information

### Employability skills

This unit contains employability skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

- |                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

## PERFORMANCE CRITERIA

policies and procedures

2.6 Recognise and refer actual and potential problems that vary from the client's normal health status to other members of the health care team as required within scope of work role and organisation guidelines

2.7 Provide feedback to the client on physical health assessment in order to maintain optimal health status

3. Support the client to self-manage their renal replacement therapy

3.1 Encourage the client to voice concerns, respond within scope of work role and organisation guidelines and report to other members of the health care team as required

3.2 Assist the client adhere to *self-care principles*

3.3 Observe the client manage their renal replacement therapy and *provide effective education* as required

3.4 Assist and empower the client to *self-manage the dialysis equipment and consumables*

3.5 Recognise and respond appropriately to actual and potential problems of renal replacement therapy and report to other members of the health care team as required within scope of work role in consultation with registered nurse and organisation guidelines

3.6 *Document* and report outcomes to the appropriate members of the health care team

3.7 Identify situations when the client is not coping with the renal replacement therapy and report to other members of the health care team in consultation with registered nurse

3.8 Incorporate referral to community services into advanced care planning strategies in consultation/collaboration with registered nurse and other members of the health care team

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Application of infection control principles to the management of clients who undergo renal replacement therapies including:
  - importance of good hygiene and adequate nutrition in prevention of infection
  - maintaining cleanliness of exit site or fistula arm
  - monitoring and maintaining integrity of skin to prevent infection
  - no touch technique
- Common pathology tests to diagnose and monitor CKD and their interpretation
- Fluid, electrolyte and acid base balance
- Health status monitoring
- Immunity and the importance of vaccinations
- Knowledge of disinfection procedures for dialysis equipment and machine according to organisation policies and procedures and infection control guidelines
- Management principles for different types of renal replacement therapy including:
  - haemodialysis
  - kidney transplant
  - peritoneal dialysis
- Medicines in common use in management of clients with Stage 5 CKD including basic mechanism of action, precautions and side effects
- Organisation policies, procedures and protocols relating to renal replacement therapy
- Pathophysiology of Stage 5 CKD
- Primary health care assessment and its interpretation
- Reportable limits for patients vital signs and biochemical and haematological results for clients undergoing renal replacement therapy
- Resources available to support the client
- Self-care principles, and commitment required and the potential impact of Stage 5 CKD and renal replacement therapy has on quality of life and self-esteem
- Signs and symptoms of actual and potential problems of renal replacement therapy and the appropriate response

## REQUIRED SKILLS AND KNOWLEDGE

- Structure and function of the urinary, cardiovascular, lymphatic and immune systems
- Understanding of own role and responsibilities and those of other health care team members in the delivery of care to clients with CKD

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply interpersonal skills, including working with others, using sensitivity when dealing with people and relating to persons from differing cultural, social and religious backgrounds
- Assess patency of vascular access
- Deliver effective education
- Demonstrate accountability for personal outputs and client group outcomes
- Demonstrate an understanding of self-care principles, education resources and long term commitment required to support the client to achieve self-care
- In consultation with the health care team, contribute to effective plans of care to meet the needs of the client undergoing renal replacement therapy
- Monitor the client in the preparation of dialysis equipment
- Monitor the client's ability to assess the effectiveness of their current renal replacement therapy
- Perform a health status assessment within scope of practice to monitor the health status of the client undergoing renal replacement therapy
- Recognise actual and potential problems of renal replacement therapy and respond appropriately
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues, including appropriate practices to ensure efficient use of resources
- Use appropriate communication skills (non-verbal, openness, sensitivity, non-judgemental attitudes)
- Use oral communication skills (language competence) required to fulfil job roles as specified by the organisation/service, including:
  - interviewing techniques
  - asking questions
  - active listening
  - asking for clarification
- Use written communication skills (literacy competence) required to fulfil job roles as specified by organisation/service at a level of skill that may range from reading and understanding client documentation to completion of written reports

## REQUIRED SKILLS AND KNOWLEDGE

### Evidence Guide

#### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate competency in this unit*

- Candidates must demonstrate their ability to apply essential knowledge identified for this unit of competency before undertaking workplace application
- Observation of performance in a work context is essential for assessment of this unit of competency
- Consistency of performance should be demonstrated over the required range of workplace situations and should occur on more than one occasion

*Context of and specific resources for assessment*

- This unit of competency is most appropriately assessed in the clinical workplace and under the normal range of clinical environment conditions

*Method of assessment*

- Observation in the workplace
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning - verbal and written
- Role play

*Access and equity considerations*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a

## EVIDENCE GUIDE

culturally diverse environment

- In recognition of particular health issues facing Aboriginal and/or Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and/or Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Clients are limited to:*

- Adolescent
- Adult

*Significant others may include:*

- Family
- Carer
- Friend

*Assessment of health status may include:*

- Blood pressure, pulse and respiration
- Weight
- Evidence of uraemia and electrolyte imbalance e.g. lethargy, anorexia, confusion, nausea and vomiting
- Signs of fluid overload e.g. dyspnoea, tachypnoea, ankle oedema, weight gain over a short period of time and high blood pressure readings
- Signs of dehydration e.g. dry mouth, dizzy, postural

## RANGE STATEMENT

drop in blood pressure, low blood pressure and weight loss over short period of time

- Pathology results from routine testing for dialysis clients
- Peritoneal dialysis exit site and/or fistula

*Members of the health care team may include:*

- Enrolled/Division 2 nurse
- Registered nurse
- Nurse practitioner
- General practitioner
- Renal physician
- Chronic disease management team
- Dietitian
- Social worker
- Pharmacist
- Podiatrist
- Aboriginal and/or Torres Strait Islander health worker

*Scope of work role refers to:*

- Enrolled/Division 2 nurses
- Aboriginal or Torres Strait Islander health workers

*Pathology results may include:*

- Haematological tests
  - haemoglobin
  - iron studies
- Biochemical tests
  - urea
  - creatinine
  - calcium
  - phosphate
- Dialysis adequacy tests
  - Kt/Vs
  - urea reduction ratio
  - fraction reduction urea

*Renal replacement therapy includes:*

- Peritoneal dialysis
- Haemodialysis

## RANGE STATEMENT

- Kidney transplant
- Actual and potential problems may include:*
- Hypertension/hypotension
  - Hyperglycaemia/hypoglycaemia
  - Cardiovascular abnormalities
  - Fluid imbalance
  - Electrolyte imbalance
  - Malnutrition
  - Haemodialysis problems
    - haemolysis
    - vascular access problems
      - infection
      - clotted or stenosed vascular access
      - prolonged bleeding
  - Peritoneal dialysis problems
    - infection
      - peritonitis
      - exit site infection
    - blocked or split Tenckhoff catheter
    - accidental break in sterile pathway
    - hernia
    - leak
    - obesity
  - Psychosocial issues
  - Dietary management
- Self-care principles include:*
- Fluid balance management
  - Nutritional management
  - Prevention of infection
  - Care of dialysis access
  - Care of transplanted kidney
  - Administration of medications and identification of their side effects
- Provide effective education include:*
- Develop lesson plan
  - Time management of education session
  - Evaluating education session

## RANGE STATEMENT

- Evaluating client learning
  - Recognising teachable moments
  - Assessing teaching and learning resources
- Management of dialysis equipment and consumables may include:*
- Stock management principles
    - stocktake
      - ordering cycle
      - count stock on hand
      - ordering supplies
      - method of ordering
      - check expiry dates
  - Delivery mode
  - Timeframes
  - Storage requirements
  - Requirement to rotate stock
  - Check equipment
- Documentation may include:*
- Record of test procedures
  - Complete and sign request form
  - Medical record notation
  - Labelling specimens and documentation
  - Data entry on paper and electronically

No change to competency outcome. |

### Unit Descriptor

#### Descriptor

This unit of competency describes the knowledge and skills required to support the client undertaking peritoneal dialysis and to use current technologies in peritoneal dialysis including the safe administration of medications via dialysis

### Application of the Unit

#### Application

The unit involves application of specialised skills and knowledge by Enrolled/Division 2 nurses or Aboriginal and/or Torres Strait Islander health workers, for clinical assessment and follow up of client care plans under direct or indirect supervisory arrangements in line with jurisdictional and regulatory requirements.

For Enrolled/Division 2 nurses the knowledge and skills described in this unit of competency are to be applied within jurisdictional nursing and midwifery regulatory authority legislative requirements.

Enrolled nursing work is to be carried out in consultation/collaboration with registered nurses and under direct or indirect supervisory arrangements in

line with jurisdictional regulatory requirements.

For Aboriginal and/or Torres Strait Islander health workers, this unit of competency addresses the delivery of renal health care services in Aboriginal and/or Torres Strait Islander communities.

Work performed by Aboriginal and/or Torres Strait Islander health workers is to be carried out in consultation/collaboration with registered nurses and/or medical practitioners under direct or indirect supervisory arrangements in line with jurisdictional regulatory requirements.

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

### Pre-requisite units

This unit must be assessed after successful achievement of the following related units of competency:

- HLTRNL601C Support the client with chronic kidney disease
- HLTRNL602C Provide support and management of the client undergoing peritoneal dialysis therapy

**AND one of the following units:**

- HLTEN519C Administer and monitor intravenous medication in the nursing environment

**OR**

- HLTAHW606B Manage medicines in Aboriginal and/or Torres Strait Islander health care

## Employability Skills Information

### Employability skills

This unit contains employability skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Establish a therapeutic relationship with the *client*

- 1.1 Provide the client with the opportunity to ask questions and discuss areas of concern
- 1.2 Ask the client questions clearly, in an appropriate manner, level and pace, and in a way that encourages the client to provide full answers
- 1.3 Provide accurate feedback and education, appropriate to the client's needs and concerns, within scope of role and responsibilities
- 1.4 Encourage client independence throughout the procedure according to their level of capability

2. Assess *physical health status* of client undergoing *peritoneal dialysis*

- 2.1 Complete a dialysis assessment of the client through observation and interview and report to other *members of the health care team* if required in accordance with *scope of work role* and organisation guidelines
- 2.2 Review *pathology results*, identify significant variations and report to other members of the health care team according to organisation policies and procedures
- 2.3 Examine the *catheter and exit site* to identify any *problems*
- 2.4 Obtain specimen swab from catheter site if necessary, according to organisation policies and procedures, and send for microbiological analysis
- 2.5 Identify any significant physical health issues in relation to dialysis prescription and requirement for adjustments and report to other members of the health

## ELEMENT

## PERFORMANCE CRITERIA

care team in accordance with scope of work role and organisation guidelines

2.6 Recognise and refer *actual and potential problems* that vary from the client's normal health status to other members of the health care team as required in consultation with registered nurse and within scope of work role and organisation guidelines

3. Assist the client in self-care management of peritoneal dialysis treatment

3.1 Review the client's understanding of the procedure in accordance with legal requirements and organisation policies and procedures

3.2 Assess the client's self-care strategies

3.3 Appraise the client's technique for dressing exit site and *provide effective education as required*

3.4 Assist the client as necessary with their peritoneal exchange according to organisation policies and procedures and *infection control guidelines*

3.5 Assess the client's peritoneal dialysis exchange technique in accordance with organisation and infection control guidelines

3.6 Monitor the client during treatment within scope of work role and within organisation guidelines and refer to other members of the health care team

3.7 Recognise and respond appropriately to actual and potential problems of peritoneal dialysis treatment

3.8 Obtain an effluent specimen if necessary, according to organisation policies and procedures, and send for microbiological analysis

3.9 Assess the client's *response to treatment* within scope of work role and organisation policies and procedures

3.10 *Document* and report outcomes to appropriate members of the health care team

3.11 Assist the client *manage peritoneal dialysis consumables*

4. Perform peritoneal dialysis exchange for the client unable

4.1 Examine the peritoneal dialysis exit site and perform exit site dressing as required

## ELEMENT

## PERFORMANCE CRITERIA

to undertake procedure

- 4.2 Prepare *peritoneal dialysis additives* for dialysis bag in line with *delegation*
- 4.3 Perform peritoneal exchange according to organisation policies and procedures and infection control guidelines
- 4.4 Monitor client during treatment within own scope of practice and within organisation guidelines and refer to other members of the health care team
- 4.5 Recognise and respond appropriately to actual and potential problems of peritoneal dialysis treatment
- 4.6 Assess the client's response to dialysis additives as administered within scope of work role
- 4.7 Recognise acute and delayed adverse reactions to dialysis additives and respond within scope of work role
- 4.8 Obtain an effluent specimen if necessary, according to organisation policies and procedures, and send for microbiological analysis
- 4.9 Assess the client's response to treatment within scope of work role and organisation policies and procedures
- 4.10 Document and report outcomes to appropriate members of the health care team
- 4.11 Assist the client manage peritoneal dialysis consumables

5. Assess physical health status of the client at completion of peritoneal dialysis

- 5.1 Complete the post-dialysis assessment of the client
- 5.2 Evaluate the client's response to treatment within scope of work role and organisation guidelines
- 5.3 Document and report outcomes to the appropriate members of the health care team
- 5.4 Provide feedback to the client on physical health assessment in order to maintain optimal health status
- 5.5 Encourage the client to voice concerns and respond appropriately
- 5.6 Incorporate referral to community services into advanced care planning strategies in consultation/collaboration with registered nurse and other

## ELEMENT

## PERFORMANCE CRITERIA

members of the health care team

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Application of infection control principles, including environmental hazards, relating to peritoneal dialysis
- Common pathology tests to diagnose and monitor CKD and their interpretation
- Concepts of ideal weight and assessment of ideal body weights in clients undergoing peritoneal dialysis
- Consumables and equipment relating to peritoneal dialysis
- Fluid, electrolyte and acid base balance
- Health status monitoring of client undergoing peritoneal dialysis
- Immunity and the importance of vaccinations
- Medications associated with the dialysis process such as intra-peritoneal antibiotics, heparin and insulin including basic mechanism of action, precautions, contraindications and side effects
- Medicines in common use in management of clients with Stage 5 CKD including basic mechanism of action, precautions, contraindications and side effects
- Organisation policies, procedures and protocols relating to peritoneal dialysis
- Pathophysiology of Stage 5 chronic kidney disease (CKD)
- Physiological principles of osmosis, diffusion, ultra filtration and convection
- Principles of peritoneal dialysis including:
  - dialysis adequacy
  - dwell time

## REQUIRED SKILLS AND KNOWLEDGE

- fluids - osmotic agent, volume
- frequency of exchanges
- modalities
- number of exchanges
- the differences of performing peritoneal dialysis in a variety of environments
- Relevant medical/medication terminology and approved abbreviations
- Reportable limits for patients vital signs and biochemical and haematological results for clients undergoing peritoneal dialysis
- Signs and symptoms of actual and potential problems associated with peritoneal dialysis and the appropriate response
- Structure and function of the peritoneum
- Structure and function of the urinary, cardiovascular, lymphatic and immune systems
- Understanding of own role and responsibilities and those of other health care team members in the delivery of care to clients with CKD

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply formulae for drug calculations for administration of medications via dialysis
- Apply interpersonal skills, including working with others, using sensitivity when dealing with people and relating to persons from differing cultural, social and religious backgrounds
- Collect specimens in accordance with organisation and infection control guidelines
- Correctly instruct client in the preparation for peritoneal dialysis
- Correctly prepare equipment for peritoneal dialysis
- Demonstrate accountability for personal outputs and broad client group outcomes
- Evaluate the impact of peritoneal dialysis treatment on the client - physically, psychologically and emotionally
- In consultation with the health care team contribute to effective plans of care to meet the needs of the peritoneal dialysis patient
- Monitor the health status of the client undergoing peritoneal dialysis
- Perform emergency treatment for a client experiencing an adverse response to medications administered via dialysis
- Perform, and assist client to perform, a peritoneal dialysis exchange
- Recognise actual and potential problems associated with peritoneal dialysis and respond appropriately
- Safely administer additives to a peritoneal dialysis bag (e.g. antibiotics, heparin, insulin)
- Use appropriate communication skills (non-verbal, openness, sensitivity and

## REQUIRED SKILLS AND KNOWLEDGE

- non-judgemental attitudes)
- Use oral communication skills (language competence) required to fulfil job roles as specified by the organisation/service, including:
  - interviewing techniques
  - asking questions
  - active listening
  - asking for clarification
- Use written communication skills (literacy competence) required to fulfil job roles as specified by organisation/service at a level of skill that may range from reading and understanding client documentation to completion of written reports
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate competency in this unit*

- Candidates must demonstrate their ability to apply essential knowledge identified for this unit of competency before undertaking workplace application
- Observation of performance in a work context is essential for assessment of this unit of competency
- Consistency of performance should be demonstrated over the required range of workplace situations and should occur on more than one occasion
- Assessment of medication administration must include a written calculation test with 100% mastery

*Context of and specific resources*

- This unit of competency is most appropriately assessed in the clinical workplace and under the

## EVIDENCE GUIDE

*for assessment*

normal range of clinical environment conditions

*Method of assessment*

- Observation in the workplace
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning - verbal and written
- Role play

*Access and equity considerations*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and/or Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and/or Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Clients are limited to:*

- Adolescent
- Adult

## RANGE STATEMENT

*Assessment of physical health status may include:*

- Blood pressure, pulse and respiration
- Weight
- Evidence of uraemia and electrolyte imbalance e.g. lethargy, confusion, anorexia, nausea and vomiting
- Signs of fluid overload e.g. dyspnoea, tachypnoea, ankle oedema, weight gain over a short period of time and high blood pressure readings
- Signs of dehydration e.g. dry mouth, dizzy, postural drop in blood pressure, low blood pressure and weight loss over short period of time
- Blood sugar levels
- Pathology results from routine testing for dialysis clients
- Peritoneal dialysis exit-site status
- Abnormalities of peritoneal dialysis fluid
- Returns on peritoneal dialysis exchanges
- Evidence of infection

*Peritoneal dialysis may include:*

- Continuous ambulatory peritoneal dialysis (CAPD)
- Automated peritoneal dialysis (APD)

*Members of the health care team may include:*

- Enrolled/Division 2 nurse
- Registered nurse
- Nurse practitioner
- General practitioner
- Renal physician
- Chronic disease management team
- Dietitian
- Social worker
- Pharmacist
- Podiatrist
- Aboriginal and/or Torres Strait Islander health worker

*Scope of work role refers to:*

- Enrolled/Division 2 nurses
- Aboriginal and/or Torres Strait Islander health workers

## RANGE STATEMENT

*Pathology results may include:*

- Haematological tests:
  - haemoglobin
  - iron studies
- Biochemical tests:
  - urea
  - creatinine
  - calcium
  - phosphate
- Dialysis adequacy tests:
  - Kt/Vs
  - urea reduction ratio
  - fraction reduction urea

*Catheter and exit site problems may include:*

- Exit site infection, signs and symptoms:
  - redness and tenderness at exit site
  - exudate at exit site
  - soiling of exit site dressing with blood-stained or pus discharge
- Cracking, splitting and discolouration of the catheter
- Cuff extrusion
- Mobile catheter
- Tension of catheter
- Extravasation to surrounding tissue or along inguinal canal to scrotum or labia
- Contamination of catheter or 'Y' line on bag during exchange process
- Leakage from site, extravasation or bag
- Blocked catheter due to constipation, catheter movement, fibrin plug

*Actual and potential problems may include:*

- Peritonitis, signs and symptoms:
  - fever
  - cloudy bag
  - abdominal pain
  - nausea and vomiting
- Hypertension/hypotension

## RANGE STATEMENT

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

## RANGE STATEMENT

- Delegation is within the context of a care plan or other written instruction
- Where delegation is provided verbally it must be confirmed as soon as practicable according to organisation procedures in writing and incorporated in the care plan
- The authority is specific to an individual client within a specific care context and is not transferable
- Delegation instructions must include:
  - medication and its purpose
  - dosage and related instructions
  - route
  - contraindications
  - any other relevant instructions or information, especially information specific to the client

### Unit Descriptor

#### Descriptor

This unit of competency describes the knowledge and skills required to support the client undergoing the physical and psychosocial influences and stages as chronic kidney disease (CKD) progresses

### Application of the Unit

#### Application

The unit involves application of specialised knowledge by Enrolled/Division 2 nurses or Aboriginal and/or Torres Strait Islander health workers, for clinical assessment and follow up of client care plans under direct or indirect supervisory arrangements in line with jurisdictional and regulatory requirements.

For Enrolled/Division 2 nurses the knowledge and skills described in this unit of competency are to be applied within jurisdictional nursing and midwifery regulatory authority legislative requirements.

Enrolled nursing work is to be carried out in consultation/collaboration with registered nurses and under direct or indirect supervisory arrangements in line with jurisdictional regulatory requirements.

For Aboriginal and/or Torres Strait Islander health

workers, this unit of competency addresses the delivery of renal health care services in Aboriginal and/or Torres Strait Islander communities.

Work performed by Aboriginal and/or Torres Strait Islander health workers is to be carried out in consultation/collaboration with registered nurses and/or medical practitioners under direct or indirect supervisory arrangements in line with jurisdictional regulatory requirements.

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

### Pre-requisite units:

This unit must be assessed after successful achievement of one of the following related units of competency:

- HLTEN519C Administer and monitor intravenous medication in the nursing environment

**OR**

- HLTAHW606B Work with medicines

## Employability Skills Information

### Employability skills

This unit contains employability skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Assess the educational needs of the *client* in regards to the impact of *CKD*
  - 1.1 Work with a knowledge of the *various clinical manifestations of CKD* and associated pathophysiology of each manifestation
  - 1.2 Identify and discuss with the client *common problems and complications associated with CKD*, focusing on the client's specific contributing factors
  - 1.3 Discuss with the client the psychosocial impact of CKD on their activities of daily living
  - 1.4 Ascertain and respect client needs in relation to lifestyle, social context, emotional and spiritual choices
  - 1.5 Communicate effectively with the client, their *significant others* and other *members of the health care team*
  - 1.6 Clarify the educational needs of the client with CKD in terms of the CKD stages, required care and the *client's self-management strategies*
  - 1.7 Support the client and significant others to ensure their freedom to discuss spiritual and cultural issues in an open and non-judgemental way within scope of work role and responsibilities
2. Contribute to providing education to the client with CKD
  - 2.1 Provide *information* and resources to the client and their significant others on the aetiology and pathophysiology of the stages of CKD within *scope of work role* and responsibilities
  - 2.2 Provide the client with relevant information to assist in maintaining their health status and slowing disease progression
  - 2.3 Provide information and support to the client to assist them establish and maintain an appropriate diet
  - 2.4 Provide the client with access to appropriate health education resources on CKD and renal replacement therapy
  - 2.5 Support the client to access information about treatment options, so that they can make an informed treatment choice

**ELEMENT****PERFORMANCE CRITERIA**

- 2.6 Communicate effectively with the client, their significant others and health care team members to clarify the needs of the client in terms of the stages of the disease, including end of life discussion, and the care required, and refer to other members of the health care team to meet those needs
- 2.7 In consultation with the health care team contribute to *advanced care planning* to identify and meet the changing needs of the client
- 2.8 Monitor changes to *advanced care directives* as they are reviewed regularly by appropriate staff members and support implementation of these changes
3. Contribute to determining the health status of the client with CKD
- 3.1 Perform a *holistic primary health care assessment* of the client in consultation/collaboration with the registered nurse
- 3.2 *Monitor health status* of the client to identify disease progression, report changes, and where appropriate, refer in accordance with scope of work role and organisation guidelines
- 3.3 Identify *psychosocial impacts* of common conditions and complications experienced by a client with a kidney condition, discuss with the client and refer, if required, for counselling or assistance in accordance with scope of work role and organisation guidelines
- 3.4 Work with an awareness of the psychosocial impact of palliative care on a client's family and significant others
- 3.5 In consultation with the health care team contribute to effective plans of care for clients with CKD
4. Assist the client to develop self-management strategies
- 4.1 Assist the client to self-manage the various clinical manifestations and common problems associated with CKD
- 4.2 Assist the client to maintain optimal health status
- 4.3 Assist the client to adhere to care management strategies and medical management regime of CKD

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Basic principles of client education
- Changing educational needs of the client as CKD progresses
- Common pathology tests to diagnose and monitor CKD and their interpretation
- Diverse cultural, religious and spiritual factors underpinning client choices at end of life
- Factors that can slow the progression of CKD
- Fluid, electrolyte and acid base balance
- Health status monitoring
- Immunity and the importance of vaccinations
- Interventional and investigational procedures used in the diagnosis and the management of CKD
- Management principles for various clinical manifestations of CKD and associated co-morbidities
- Meaning and interpretation of health check results for clients with CKD
- Medicines in common use in management of clients with CKD including basic mechanism of action, precautions, contraindications and side effects
- Nutritional considerations for clients with CKD
- Pathophysiology of Stages 1 to 5
- Primary health care assessment and its interpretation
- Principles of self-management for the client with CKD
- Relevant policies, protocols and practices of the organisation in relation to the provision of palliative care
- Risk factors for CKD
- Signs and symptoms of uraemia and fluid retention
- Structure and function of the urinary, cardiovascular, lymphatic and immune systems
- Treatment options for clients with CKD including renal replacement therapies e.g. peritoneal dialysis (PD) and haemodialysis (HD), including theory, terminology, procedures, risks and benefits at a basic level

## REQUIRED SKILLS AND KNOWLEDGE

- Underlying environmental and social factors contributing to CKD in the general population in Australia and to the higher rates experienced within Aboriginal and/or Torres Strait Islander communities
- Understanding of own role and responsibilities and those of other health care team members in the delivery of care to clients with CKD

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply care plans for clients with CKD in consultation/collaboration with registered nurse
- Apply interpersonal skills, including working with others, using sensitivity when dealing with people and relating to persons from differing cultural, social and religious backgrounds
- Deliver effective client education
- Demonstrate a professional approach to health education, knowledge of health systems and disease processes
- Demonstrate accountability for personal outputs and client group outcomes
- In consultation with the health care team contribute to effective plans of care to meet the educational needs of the client with CKD
- Monitor health status of a client with CKD
- Perform a primary health care assessment
- Select effective communication strategies
- Use appropriate communication skills (non-verbal, openness, sensitivity, non-judgemental attitudes)
- Use written communication skills (literacy competence) required to fulfil job roles as specified by organisation/service at a level of skill that may range from reading and understanding client documentation to completion of written reports

## Evidence Guide

### EVIDENCE GUIDE

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate competency in this unit*

- Candidates must demonstrate their ability to apply essential knowledge identified for this unit of competency before undertaking workplace application
- Observation of performance in a work context is essential for assessment of this unit of competency
- Consistency of performance should be demonstrated over the required range of workplace situations and should occur on more than one occasion

*Context of and specific resources for assessment*

- This unit of competency is most appropriately assessed in the clinical workplace and under the normal range of clinical environment conditions

*Method of assessment*

- Observation in the workplace
- Written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning - verbal and written
- Role play

*Access and equity considerations*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and/or Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and/or Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Clients may include:*

- Adolescent
- Adult

*CKD conditions may include:*

- Diabetic nephropathy
- Glomerulonephritis
- Hypertensive nephropathy
- Polycystic kidney disease
- Reflux nephropathy
- Kidney stones

*Clinical manifestations of CKD may include:*

- Hypertension
- Anaemia
- Bone disease
- Cardiovascular disease
- Impaired immunity
- Electrolyte imbalance
- Fluid imbalance

*Common problems and complications associated with CKD may include:*

- Uraemic breath
- Unusual or metallic taste
- Anorexia
- Nausea and vomiting
- Lethargy
- Change in urination
- Confusion

**RANGE STATEMENT**

- Pain
- Increase in depression
- Stages in grief and loss
- Sexual dysfunction
- General malaise
- Cardiovascular events
- Infections
- Uraemic frost
- Pruritus
- Restless leg syndrome

*Significant others may include:*

- Family
- Carer
- Friend

*Members of the health care team may include:*

- Enrolled/Division 2 nurse
- Registered nurse
- Nurse practitioner
- General practitioner
- Renal physician
- Chronic disease management team
- Dietitian
- Social worker
- Pharmacist
- Podiatrist
- Aboriginal and/or Torres Strait Islander health worker

*Client's self-management strategies include:*

- The knowledge and life long commitment to:
  - healthy life style
  - exercise
  - renal diet
  - fluid requirements
  - medication regime
  - care of dialysis access
  - recognising progressive symptoms of CKD
  - vaccination regime
  - diabetes care

## RANGE STATEMENT

- cardiovascular disease care
- dental care
- optometry care
- skin care

### *Information may include:*

- Normal structure and function of the urinary and cardiovascular systems.
- Causes of CKD
- Need for ongoing routine health assessments by health professionals
- Explanation of interventional and investigational procedures
  - blood tests
  - x-rays
  - abdominal ultrasounds
- Early and late physical symptoms of CKD
- CKD treatment options
- The importance of vaccinations
- Factors that can slow the progression of CKD

### *Scope of work role refers to:*

- Enrolled/Division 2 nurses
- Aboriginal and/or Torres Strait Islander health workers

### *Advanced care planning refers to:*

- The process of preparing for likely scenarios near end of life and usually includes assessment of, and dialogue about, a person's understanding of their medical history and condition, values, preferences and personal and family resources. Advanced care planning elements are the written directive and an appointment of a substitute decision maker
- Access through state and territory legislation or guidelines on advanced care planning

### *Advanced care directive refers to:*

- Sometimes called a 'living will', an advanced care directive describes one's future preferences for medical treatment and becomes effective in situations where the client no longer has capacity to make legal decisions

## RANGE STATEMENT

Specifically, it contains instructions that consent to, or refuse, the future use of specified medical treatments.

- Access through state and territory legislation or guidelines on advanced care planning
- One component of the broader advanced care planning process

Documenting advanced care directives is not compulsory as the person may choose to verbally communicate their wishes to the doctor or family, or appoint a substitute decision maker to make decisions on their behalf

*Examples of advanced care directives are:*

- Medical treatment preference, including those influenced by religious or other values and beliefs
- Particular conditions or states that the person would find unacceptable should these be the likely result of applying life-sustaining treatment, for example, severe brain injury with no capacity to communicate or self-care
- How far treatment should go when the client's condition is 'terminal', 'incurable' or 'irreversible' (depending on terminology used in specific forms)
- The wishes of someone without relatives to act as their 'person responsible' in the event they became incompetent or where there is no-one that person would want to make such decisions on their behalf

*Holistic primary health care assessment may include:*

- Physical health status:
  - blood pressure, pulse, respirations
  - urinalysis
  - protein creatinine ratio
  - girth measurement
  - weight
- Social needs:
  - sickness benefits
  - family support
  - transport to appointments
  - accommodation
- Psychological and cultural needs

**RANGE STATEMENT**

*Monitor health status may include:*

- Urinalysis
- Blood pressure, pulse and respirations
- Review pathology results from routine blood tests
- Identifying changes in client's weight
- Identifying signs and symptoms that may indicate changes in health status

*Psychosocial impacts may include:*

- Depression
- Stages of grief and loss
- Lethargy
- Sexual dysfunction
- Sleep disorders
- Changes to relationships within the family unit

| 1. Identify project processes and outcomes | <p>1.1.Scope of report and target audience is identified in contract, program guidelines, agency procedures, and group committee decisions.</p> <p>1.2.Background to project is researched from available records.</p> <p>1.3.Information is collated from project records, monitoring records, and information provided by group and other stakeholders.</p>                                                              |
| 2. Prepare report                          | <p>2.1.Framework of report is prepared to required scope, target audience and guidelines.</p> <p>2.2.Project report is prepared from researched information to contract, agency and group requirements.</p> <p>2.3.Conclusions are prepared in consultation with informed personnel.</p> <p>2.4.Draft report is circulated to identify stakeholders for comment according to group requirements and agency procedures.</p> |
| 3. Revise report for distribution          | <p>3.1.Draft report is revised to address comments from consultation.</p> <p>3.2.Any unresolved issues are submitted to group committee for decisions.</p> <p>3.3.Approval is obtained for revised report in accordance with contract, group and agency requirements.</p>                                                                                                                                                  |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- research through records and oral reports
- collate qualitative and quantitative information
- develop report framework to suit requirements
- implement consultation processes to obtain information and obtain consensus on report
- use word processing and spreadsheet packages
- use literacy skills to read, interpret and follow organisational policies and procedures, develop sequenced written instructions, record accurately and legibly information collected and select and apply procedures to a range of tasks
- use oral communication skills/language competence to fulfil the job role as specified by the organisation including questioning, active listening, asking for clarification, negotiating solutions and responding to a range of views
- use numeracy skills to estimate, calculate and record routine and more complex workplace measures and data
- use interpersonal skills to work with others and relate to people from a range of cultural, social and religious backgrounds and with a range of physical and mental abilities.

#### Required knowledge

- program objectives and guidelines
- group procedures and recording, including group management and committee procedures
- monitoring approaches
- project background, processes and outcomes
- agency procedures
- knowledge of capability of word processing packages.

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the

| <b>EVIDENCE GUIDE</b>                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

# CHCYTH012 Manage service response to young people in crisis

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                             |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Changes to elements and performance criteria. New evidence requirements for assessment.</p> |

## Application

This unit describes the skills and knowledge required to develop an agency approach to young people in crisis.

This unit applies to community services work in a range of contexts.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Implement a framework for preventing crisis situations

1.1 Develop a framework to address prevention and response to critical situations, and which reflects consideration of beliefs, rights and needs of client and responsibilities of organisation within a legislative and statutory context

1.2 Establish appropriate resources and mechanisms to assist workers to deal with crisis situations

1.3 Define details of organisation's responsiveness to crisis situations and articulate to relevant personnel

1.4 Store and maintain all information related to crisis

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

situations to maximise accessibility, accuracy, currency and legibility

1.5 Implement procedures to ensure clients have ready access to information that may help to resolve crisis situations

2. Support staff in responding to a crisis

2.1 Establish appropriate protocols for managing potential and actual crisis situations

2.2 Draft and regularly update procedures for the management of crises and communicate to staff and other relevant personnel

2.3 Ensure any crisis management procedures developed are consistent with legal and organisational obligations and constraints

2.4 Allocate resources for prompt and effective response to crisis situations

2.5 Provide appropriate crisis response training and update briefings to workers on a regular basis

2.6 Formulate appropriate advice for upgrade of organisation procedures including those related to workplace health and safety (WHS) and other industrial and legislative requirements

3. Follow-up crisis situations

3.1 Complete all required reporting and ensure it is comprehensive, accurate and consistent with organisation's policies and procedures

3.2 Define debriefing procedures and implement routinely

3.3 Provide opportunity for participation in review and evaluation of organisation responsiveness

3.4 Identify needs of all specific parties which arise from a crisis situation and develop strategies to ensure they are addressed

## Foundation Skills

*The foundation skills described those required skills (language, literacy and numeracy) that are essential to performance.*

- Writing – in order to develop policies, procedures and reports in line with workplace guidelines.

The remaining foundation skills essential to performance are explicit in the performance criteria of this unit.

## Unit Mapping Information

No equivalent unit.

## Assessment Requirements for CHCYTH012 Manage service response to young people in crisis

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                             |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Changes to elements and performance criteria. New evidence requirements for assessment.</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be demonstrated evidence that the candidate has completed the following tasks at least once:

- implemented a framework to prevent and respond to crisis situations by:
  - defining circumstances contributing to a crisis situation
  - analysing the legal and statutory requirements
  - identifying and obtaining resources to respond to crisis situations
  - providing information to clients and staff about the organisation's policies and procedures for dealing with crisis situation
  - supporting staff in responding to crises by providing training and briefings
- followed-up on crisis situations by:
  - maintaining documentation as required, including effective use of relevant information technology in line with WHS guidelines
  - effectively communicating with staff, including implementing mediation and negotiation, and conflict resolution/management
  - providing feedback to staff members.

### Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- legal and organisational policies relating to safety within the work environment
- relevant specialist support services and resources
- possible factors which contribute to young people entering crisis situations
- methods of crisis intervention including mediation and negotiation
- characteristics of aggressive and abusive behaviour
- methods of promoting less aggressive/abusive behaviour
- other support agencies and the relevant specialist resources they offer
- possible factors which contribute to young people entering crisis situations
- potential repercussions of inappropriate intervention of worker behaviour.

## Assessment Conditions

Skills must be demonstrated in the workplace.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

## CHCYTH010 Provide services for young people appropriate to their needs and circumstances

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                         |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment.</p> |

### Application

This unit describes the skills and knowledge required to provide guidance and role models to young people and their families to maintain positive and supportive relationships, while identifying problems and establishing goals for change based on maintaining support from family and the general community.

This unit applies to community services work in a range of contexts.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Identify and address immediate needs and circumstances of young people

1.1 Identify and respond to immediate needs of young people according to nature and degree of urgency

1.2 Provide young people and their families with information tailored to their capacity of understanding and designed to calm and reassure

1.3 Observe and note any signs of distress, anxiety, aggression and apathy

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1.4 Look for and note signs of impairment of functioning in individuals and relationships

2. Explore and clarify issues facing the young person and the nature of support sought

2.1 Offer the young person adequate opportunity to explore and clarify the issues facing her/him

2.2 Negotiate involvement of other parties as required by young person and worker

2.3 Listen actively and positively to young person's issues, needs, views and feelings about their issues and accepting support

2.4 Make renewed attempts through appropriately modified approaches or responses where there are communication difficulties

2.5 Describe and analyse the nature and scope of the issues and check with the young person for completeness and accuracy

2.6 Clearly explain to the young person the role and capacity of the worker to provide assistance and support

2.7 Where appropriate, obtain relevant available information from others about the young person's potential need for support, consistent with the young person's right to access information and to approve or disapprove of the worker's actions

3. Facilitate goal setting and action planning

3.1 Encourage and support the young person to work out their own goals and priorities and to assess feasibility

3.2 Identify and explain in a supportive manner any risks arising from the young person's choices

3.3 Offer further options to the young person without imposition or pressure where appropriate

3.4 Emphasise and negotiate clients' responsibility for determining and achieving their goals

3.5 Encourage clients to identify and prioritise long- and short-term goals based on individual responsibility and personal choice

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

3.6 Support the young person to develop strategies to act on goals set

3.7 Encourage clients to identify and analyse factors that have contributed to past behaviour and obstacles to achieving individual and family goals

3.8 Identify unrealistic expectations, challenge negative attitudes and unacceptable objectives and re-negotiate plans when required

4. Provide targeted assistance and referral

4.1 Discuss availability, type and nature of services and resources in a manner appropriate to the young person's right of choices

4.2 Encourage young person to use services and resources appropriate to their needs in line with legal, statutory and organisational requirements

4.3 Advise the young person about legal and statutory provisions which might affect their situation and confirm young person's understanding of information provided

4.4 Establish systems to ensure information and referral sources within organisation are up-to-date, comprehensive, accurate, accessible and relevant to clients

4.5 Continually monitor effectiveness of service delivery and resolve problems of access, services or resources as appropriate

4.6 Ensure all documentation and reporting is in accordance with organisation procedures

5. Act as an advocate on request

5.1 Where the young person requests the worker to act as an advocate, identify the scope and goals of the possible role and outline and negotiate these with the young person

5.2 When requested and where possible, support the young person and accompany them during first stages of access to services to enable them to gain confidence to go alone

5.3 Represent the young person's interests clearly and accurately in a manner consistent with the identified agreement between them and the worker

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

5.4 Explain to the young person all representations made on their behalf in a manner and language appropriate to their information needs and circumstances and confirm their understanding

5.5 Ensure decisions and/or actions taken on behalf of the young person are consistent with their expressed or implied preferences and interests

## Foundation Skills

*The foundation skills described those required skills (language, literacy and numeracy) that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Range of Conditions

*Specifies different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.*

*Range is restricted to essential operating conditions and any other variables essential to the work environment.*

Context for youth work must include one or more of the following:

- centre-based work
- drop-in centres, recreational facilities
- housing and residential services
- outreach and home visits, street, parks
- schools
- online youth work, web-based, emails, discussion rooms
- telephone contact

## Unit Mapping Information

No equivalent unit.

| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment.</p> |

### Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be demonstrated evidence that the candidate has completed the following tasks:

- identified and responded to the needs of at least two young people, including:
  - providing information to young person and families
  - listening to young person's issues, concerns and feelings
  - setting goals and planning actions to achieve goals with young person
  - discussing, identifying and encouraging young person to access services
  - referring young person to alternative services
- advocated for at least two young people, including:
  - negotiating goals, role and scope of advocacy work with young person
  - accompanying young person during first stages of service access
  - representing young person's interests and keeping young person informed of representation processes
- completed all relevant documentation and reports accurately and completely
- communicated with at young person clearly and accurately.

### Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- target groups relevant to the worker and the activity or program
- a range of youth activities and programs
- legal and safety requirements as they relate to activities and programs in youth work
- relevant funding sources
- communication strategies, including negotiation and conflict resolution
- organisational standards, policies and procedures.

## Assessment Conditions

Skills must be demonstrated in the workplace.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment.</p> |

### Application

This unit describes the skills and knowledge required to devise, set up, coordinate, deliver and evaluate activities and programs for individuals and groups.

This unit applies to community services work in a range of contexts.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Identify the program required

1.1 Collect evidence to determine the need for a particular program

1.2 Identify and review a range of possible programs to meet the defined needs

1.3 Select a program type based on client needs, organisational criteria and availability of resources

2. Prepare program plan

2.1 Undertake appropriate strategic planning activities to ensure client needs are met

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

2.2 Plan activities in consultation with key clients and stakeholders

2.3 Determine operational arrangements for conducting the program and assess their feasibility

2.4 Ensure planning activities reflect accepted good practice in working with young people

2.5 Develop flexible implementation plans to suit a variety of contexts and to cope with contingencies

2.6 Identify appropriate implementation and evaluation strategies in the program plan in consultation with stakeholders

3. Deliver program

3.1 Implement program in accordance with program plan, organisation guidelines and legal/statutory requirements

3.2 Provide participants with access to a range of activities suited to their needs and interests

3.3 Implement contingency plans and adapt program to changing needs of participants as required

3.4 Ensure problems in program delivery are addressed promptly

4. Monitor and evaluate program

4.1 Use appropriate evaluation strategies during and after program and for revision and development

4.2 Collect, organise and report evaluation information in a format which is accessible and meaningful to clients and stakeholders

4.3 Prepare and present reports as required by organisational, funding and other requirements

## Foundation Skills

*The foundation skills described those required skills (language, literacy and numeracy) that are essential to performance.*

- Reading – in order to collect and analyse evidence to inform program requirements.

- Writing – in order to prepare reports in line with workplace policies and procedures.

The remaining foundation skills essential to performance are explicit in the performance criteria of this unit.

## Range of Conditions

*Specifies different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.*

*Range is restricted to essential operating conditions and any other variables essential to the work environment.*

- Context for youth work must include one or more of the following:
- centre-based work
  - drop-in centres, recreational facilities
  - housing and residential services
  - outreach and home visits, street, parks
  - schools
  - online youth work, web-based, emails, discussion rooms
  - telephone contact

## Unit Mapping Information

No equivalent unit.

| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment.</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be demonstrated evidence that the candidate has completed the following tasks at least once:

- collected, analysed and reviewed relevant evidence and a range of programs to determine the need for a specific program
- prepared at least one program plan, including:
  - outlining activities and actions
  - determining operational arrangements for calculating costs, space and resources
  - assessing feasibility
  - developing implementation and evaluation strategies
- supported the implementation of at least one program in a variety of contexts, adapting program to the changing needs of participants and evaluating outcomes, including:
  - using evaluation techniques and reporting outcomes to clients and stakeholders in an accessible format.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- target groups relevant to the worker and the program

- a range of relevant youth activities and programs
- legal and safety requirements as they relate to activities and programs
- techniques of evaluation
- relevant funding sources
- organisational standards, policies and procedures
- techniques for writing complete and accurate reports.

## Assessment Conditions

Skills must be demonstrated in the workplace.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

## CHCYTH005 Develop and implement procedures to enable young people to address their needs

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                             |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Changes to elements and performance criteria. New evidence requirements for assessment.</p> |

### Application

This unit describes the skills and knowledge required to monitor and upgrade organisation approaches to young people with complex needs.

This unit applies to community services work in a range of contexts.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Develop support programs for young people

1.1 Assess specific needs of the young person and match to an existing program

1.2 Employ appropriate communication techniques to engage young person and to address specific needs

1.3 Consult relevant community organisations to identify available support programs that meet specific needs of clients

1.4 Undertake appropriate work to ensure a thorough knowledge of content, purpose and access protocols of existing programs

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

|                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|-----------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                             | 1.5 Provide relevant information to client as appropriate                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 2. Ensure that young people with complex needs receive appropriate services | <p>2.1 Implement procedures to ensure indications of physical, emotional, psychological or sexual abuse are identified and addressed</p> <p>2.2 Define and implement appropriate procedures to minimise effects of any aggressive or abusive behaviour of clients</p> <p>2.3 Employ appropriate approaches and language to enable clients to express their ideas in a range of ways</p>                                                                                                                                                                                                                                                       |
| 3. Liaise with other services and organisations                             | <p>3.1 Design and implement appropriate referral systems and procedures to ensure specific needs of clients can be addressed</p> <p>3.2 Identify and access support facilities required to optimise client access to specialist services</p> <p>3.3 Ensure support and advocacy services provided reflect organisation procedures, respect the young person's rights and are appropriate to cultural and other individual circumstances</p> <p>3.4 Consult with relevant professionals and service providers to ensure broad and comprehensive client service delivery</p>                                                                    |
| 4. Monitor and upgrade support provided by the organisation                 | <p>4.1 Regularly review information and services provided to clients to assess continuing relevance and effectiveness</p> <p>4.2 Periodically review assessment, support and referral systems used within the agency</p> <p>4.3 Hold appropriate debriefings with workers for the purposes of counselling, identifying training needs and evaluating client service delivery</p> <p>4.4 Identify problems experienced by workers, assess appropriate adjustments to service delivery and negotiate with relevant staff</p> <p>4.5 Provide support and supervision to other workers as required in accordance with organisation procedures</p> |

## ELEMENT

*Elements define the essential outcomes.*

## PERFORMANCE CRITERIA

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

4.6 Arrange regular debriefings with associated organisations and service providers

4.7 Produce and provide reports in accordance with organisation procedures

## Foundation Skills

*The foundation skills described those required skills (language, literacy and numeracy) that are essential to performance.*

- Reading – in order to analyse and review service policies and procedures in line with applicable legislative and regulatory requirements relevant to the service.
- Writing - in order to produce reports according to organisation procedures and policies.

The remaining foundation skills essential to performance are explicit in the performance criteria of this unit.

## Unit Mapping Information

No equivalent unit.

# Assessment Requirements for CHCYTH005 Develop and implement procedures to enable young people to address their needs

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                             |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Changes to elements and performance criteria. New evidence requirements for assessment.</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be demonstrated evidence that the candidate has completed the following tasks:

- assessed specific needs of at least one young person and identified existing programs/services that addressed these needs, as well as consulted relevant personnel and organisations to identify further or alternative support programs that could assist
- developed and implemented procedures to keep young people safe, including:
  - addressing any signs of abuse
  - establishing protocols of behaviours
  - monitoring at-risk behaviour patterns
  - establishing quick response actions to counter aggressive behaviour
- developed and implemented procedures relating to services offered by the organisation, including:
  - support facilities
  - particular types of support and information
  - referral advice
- reviewed the relevance and effectiveness of information and service provision to clients, and assessment, support and referral systems, including:
  - holding regular debriefings with associated organisations and service providers
  - debriefing and supporting other youth workers, including identifying training needs
  - producing reports and recording relevant information about clients and programs according to organisation procedures and policies, ensuring accurate and complete information is included.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- legal and organisational policies relating to advocacy, monitoring and dealing with abuse
- principles of empowerment and enabling processes in advocacy
- short-term counselling strategies
- different forms of abuse and their indicators and response processes
- a broad range of specialist and generic services and agencies
- family support and mediation
- youth-specific consultation and engagement principles for seeking feedback on service provision
- reflective and evaluative processes in youth work practice
- key aspects of human rights declarations and UN Convention on the Rights of the Child
- organisation's policies, guidelines and procedures.

## Assessment Conditions

Skills must be demonstrated in the workplace.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

|                                      |                                                                                                                                                                                                                                                                                                                                                              |
|--------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Prepare for validation            | <p>1.1 Discuss and confirm the approach to validation according to defined purposes, context, and relevant <b>assessment system policies and procedures</b></p> <p>1.2 Analyse relevant <b>benchmarks for assessment</b> and agree on the evidence needed to demonstrate competence</p> <p>1.3 Arrange <b>materials</b> for <b>validation activities</b></p> |
| 2. Contribute to validation process  | <p>2.1 Demonstrate active <b>participation</b> in validation sessions and activities using appropriate communication skills</p> <p>2.2 Participate in validation sessions and activities by applying the principles of assessment and rules of evidence</p> <p>2.3 Check all documents used in the validation process for accuracy and version control</p>   |
| 3. Contribute to validation outcomes | <p>3.1 Collectively discuss validation findings to support improvements in the quality of assessment</p> <p>3.2 Discuss, agree and record recommendations to improve assessment practice</p> <p>3.3 Implement changes to own assessment practice, arising from validation</p>                                                                                |

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- planning skills to participate in validation activities within agreed timeframes
- problem-solving skills to identify information that is inconsistent, ambiguous or contradictory
- evaluation skills to:
  - determine evidence requirements from competency standards
  - review assessment process, tools and methods
  - review collected evidence
- communication skills to share information in validation meetings.

### Required knowledge

- how to interpret competency standards and other related assessment information to determine the evidence needed to demonstrate competence, including:
  - criterion-referenced assessment as distinct from norm-referenced assessment

- various reasons for carrying out validation and the different approaches to validation that may be appropriate before, during and after assessment
- critical aspects of validation, including validation of assessment processes, methods and products
- relevant OHS legislation, codes of practice, standards and guidelines, impacting on assessment
- legal and ethical requirements of assessors, particularly in relation to validation activities
- principles of assessment
- rules of evidence.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

### Unit Descriptor

**Descriptor**

This unit describes the knowledge and skills required by the worker to support a client's health and emotional wellbeing

### Application of the Unit

**Application**

The skills and knowledge of this unit of competency will be applied according to an established individualised plan and with regard for the value and importance of people's health and wellbeing

This unit of competency covers possible indicators of abuse and neglect and a requirement to report to a supervisor

### Licensing/Regulatory Information

Not applicable.

### Pre-Requisites

Not applicable.

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

### ELEMENT

Elements define the essential outcomes of a unit of competency.

### PERFORMANCE CRITERIA

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

Support the *client* to engage with a relevant social *network* and the wider community

- 1.1 Confirm the client's social and recreational preferences
- 1.2 Identify a client's social network (where possible)
- 1.3 Encourage and facilitate the client to attend social and recreational activities and wherever possible, involving their social network
- 1.4 Encourage and facilitate the client to attend social and recreational activities that promote the development of social networks
- 1.5 Recognise the need to modify or adapt social and recreational activities to meet specific needs of the client and *report to appropriate person*
- 1.6 Provide the client with information about *community networks* and activities available to them

Support the client's health

- 2.1 Demonstrate basic understanding of the impact the client's circumstances may have on their health
- 2.2 Identify processes, actions and circumstances that support the client's good health
- 2.3 Provide support in a manner that promotes the client's good health
- 2.4 Confirm aspects of supporting a client's health within scope of knowledge, skills and/or job role and

|                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

|                                                                                  | 2.5 Identify <i>variations in a client's physical condition</i> and report to supervisor                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|                                                                                  | 2.6 Recognise indications that client's experience of pain is affecting their wellbeing and report according to organisation policy and protocol                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Support the person's emotional and psychological wellbeing                       | <p>3.1 Demonstrate basic understanding of the impact of client's circumstances may have on <i>emotional and psychological</i> wellbeing</p> <p>3.2 Identify processes, actions and circumstances that support the client's self-esteem and confidence</p> <p>3.3 Provide support in a manner that promotes the client's self-esteem and confidence</p> <p>3.4 Identify aspects of supporting a client's emotional wellbeing outside scope of knowledge, skills and/or job role and seek appropriate support</p> <p>3.5 Identify variations to a client's emotional wellbeing and report to supervisor</p> <p>3.6 Recognise and report possible indicators of client abuse and/or neglect and report according to organisation policy and protocol</p> |
| Recognise and accommodate a client's <i>cultural</i> and spiritual preferences   | <p>4.1 Demonstrate acceptance of a client's cultural and <i>spiritual preferences</i></p> <p>4.2 Ensure work practices accommodate a client's modesty and privacy according to cultural requirements</p> <p>4.3 Demonstrate cultural sensitivity in communication practices</p> <p>4.4 Facilitate the client's participation in cultural and spiritual practices and celebrations</p> <p>4.5 Provide the client with information regarding relevant cultural and spiritual networks available in the community</p>                                                                                                                                                                                                                                    |
| Support client to create an <i>environment</i> suitable to needs and preferences | <p>5.1 Encourage and assist client to maintain their environment</p> <p>5.2 Assist client to feel secure and comfortable</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|                                                                                     |                                                                                                                                   |
|-------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
|                                                                                     | 5.3 Identify hazards and report to supervisor                                                                                     |
|                                                                                     | 5.4 Use appropriate aids to support comfort, safety and wellbeing                                                                 |
|                                                                                     | 5.5 Facilitate established routines, rhythms and customs of client, where possible                                                |
|                                                                                     | 5.6 Inform client of support services and encourage them to use services                                                          |
| Recognise and accommodate the client's <i>expressions of identity and sexuality</i> | 6.1 Demonstrate understanding of the impact of the client's circumstances on an individual's expression of identity and sexuality |
|                                                                                     | 6.2 Recognise the impact of community values and attitudes regarding sexuality, ageing and disability                             |
|                                                                                     | 6.3 Avoid imposing own values and attitudes regarding sexuality on others                                                         |
|                                                                                     | 6.4 Support the person to express their sexuality                                                                                 |
|                                                                                     | 6.5 Respect different spiritual expressions of sexuality                                                                          |
|                                                                                     | 6.6 Acknowledge unmet needs relating to sexuality and identity and refer to an appropriate person                                 |
| Complete documentation                                                              | 7.1 Comply with the organisation's reporting requirements                                                                         |
|                                                                                     | 7.2 Complete documentation according to organisation policy and protocols                                                         |
|                                                                                     | 7.3 Maintain documentation in a manner consistent with reporting requirements                                                     |
|                                                                                     | 7.4 File documentation in accordance with organisation policy and protocols                                                       |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

## REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Basic understanding of the emotional, psychological, spiritual, cultural and sexual needs of clients
- Concepts of powerlessness and empowerment
- Cultural and individual differences in expressing sexuality
- Definition and explanation of the terms 'sexuality' and 'personal identity'
- Definition and explanation of the terms 'spirituality' and 'cultural'
- Effects of spirituality and culture on care delivery
- Expressions of sexuality
- Expressions of spirituality and culture
- Indicators of possible emotional concerns and issues which may have an impact on general health and wellbeing, such as prolonged sadness, distress, anxiety or depression; lack of engagement; or heightened level of emotional expression
- Indications of possible neglect or abuse, including physical, sexual, psychological or financial abuse and appropriate response in accordance with organisation and/or government guidelines
- Issues surrounding sexuality and sexual expression in residential settings
- Myths and stereotypes surrounding sexuality and sexual expression of aged people and people with disabilities
- Resources and networks that can support the cultural and spiritual needs of people
- Strategies for managing inappropriate sexual behaviour
- Strategies for selecting recreational and leisure activities based on preferences and abilities
- Strategies to facilitate community inclusion
- Strategies to meet the emotional needs of people
- Supporting existing networks and developing new networks and facilitating choice
- Understanding basic requirements for good health, including:
  - diet
  - exercise
  - hygiene
  - lifestyle
  - oral health
- Understanding of own work role and responsibilities

## REQUIRED SKILLS AND KNOWLEDGE

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Adhere to own work role and responsibilities
- Adopt a non-judgemental and accepting attitude when supporting the client to meet their emotional and psychosocial needs
- Apply basic problem solving skills to resolve problems within organisation protocols
- Liaise and report to appropriate persons/agencies
- Work effectively with clients, social networks, colleagues, supervisors and other services/agencies

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply reading and writing skills required to fulfil work role in a safe manner and as specified by the organisation/service:
  - this requires a level of skill that enables the worker to follow work-related instructions and directions and the ability to seek clarification and comments from supervisors, clients and colleagues
  - industry work roles will require a literacy level that will enable workers to interpret international safety signs, read client service delivery plans, make notations in client records and complete workplace forms and records
- Apply oral communication skills required to fulfil work role in a safe manner and as specified by the organisation:
  - this requires a level of skill and ability to follow work-related instructions and directions and to seek clarification and comments from supervisors, clients and colleagues
- Apply verbal and non-verbal communication skills:
  - industry work roles will require effective verbal and non-verbal communication skills to ask questions, clarify understanding and meaning, recognise and interpret non-verbal cues, adapt communication styles to meet specific needs, provide information and express encouragement and support, including active listening and empathy
- Follow organisation policies and protocols

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- It is recommended that assessment or information for assessment will be conducted or gathered over a period of time and cover the normal range of workplace situations and settings
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in culturally and linguistically diverse (CALD) environments
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however, holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include:
  - access to appropriate workplace where assessment can take place

## EVIDENCE GUIDE

- relevant organisation policy, protocols and procedures

*Method of assessment may include:*

- Observation in the workplace
- Written assignments/projects
- Case study and scenario analysis
- Questioning
- Role play simulation

*Related units:*

This unit must be assessed in relation to the specific context in which it will (or may) be applied

In the case of working with older people, this unit is recommended (but not required) to be assessed in conjunction with:

- CHCAC318B Work effectively with older people

**OR**

In the case of working with people with disabilities, it is recommended (but not required) to be assessed in conjunction with:

- CHCDIS301C Work effectively with people with a disability

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

## RANGE STATEMENT

*Client may include:*

- Individuals living in residential care environments
- Individuals living in the community
- Older people
- People with disabilities
- Prospective individuals to the service or services
- Veterans/war widows

*Environment may include:*

- Community centres
- Employment services
- Independent living accommodation
- Person's own dwelling
- Residential aged care facilities

*Emotional needs may include:*

- A sense of security and contentment
- Acceptance of loss
- Dealing with degenerative issues
- Dealing with pain, grief, bereavement and acceptance of death
- Freedom from anger
- Freedom from anxiety
- Freedom from fear
- Freedom from guilt
- Freedom from loneliness
- Love and affection
- Veterans'/war widows issues

*Psychological needs may include:*

- A sense of control
- Acceptance of disability
- Freedom from undue stress
- Life stage acceptance
- Personal identity
- Self-determination
- Self-esteem
- Sense of belonging
- Veteran/war widow related issues

## RANGE STATEMENT

*Variations in a client's physical condition may include:*

- Aches
- Client reporting feeling unwell
- Nail status
- Oral health anomalies
- Pain
- Skin tone and colour
- Weight gain
- Weight loss

*Spiritual preferences may include:*

- Ceremonial observances
- Formal and informal religious observance
- Need for privacy and an appropriate environment to reflect and/or participate in spiritual activities

*Cultural may refer to:*

- Ceremonial and festive observances
- Dress and dietary observance
- Need for continued interaction with cultural community

*Expressions of identity and sexuality may include:*

- Access to assistive/protective devices
- Love and affection
- Need for privacy and discretion
- Physical appearance
- Touch

*Appropriate communication and relationship building processes may include:*

- Courtesy
- Cross-cultural communication
- Empathy
- Non-judgemental care
- Observing and listening
- Respect for individual differences

*Network may include:*

- Advocates
- Carers
- Clergy/pastoral care provider

## RANGE STATEMENT

- Family members
- Friends
- Veteran's/war widow organisations

*Community network may include:*

- Clubs
- Community centres
- Community welfare groups
- Ethno-specific organisations
- Sport and recreational groups
- Support groups
- Veteran's/war widows organisations
- Voluntary organisations

*Appropriate person may include:*

- Clergy/pastoral care provider
- Health professionals (e.g. registered nurse, doctor, social worker, diversional therapist and/or psychologist)
- National association of loss and grief
- Palliative care association
- Sex therapist
- Special associations providing support services to individuals with specific health problems/disorder
- Supervisor
- Support group
- Veteran's organisations

*Report may include:*

- Non-verbal (written):
  - progress reports
  - case notes
  - incident reports
- Verbal:
  - telephone
  - face to face

## Unit Sector(s)

Not applicable.

# CHCCSL509A Reflect and improve upon counselling skills

## Modification History

Not Applicable

## Unit Descriptor

### Descriptor

This unit describes the knowledge and skills required to evaluate own work and to undertake continuing self-development and effective supervision within an ethical code of practice

## Application of the Unit

### Application

The basic counselling skills described in this unit are intended for application in the context of delivering a range of community services

Assessment may require additional knowledge specific to a particular community services or health sector

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

### Pre-requisites

This unit must be assessed after achievement of related units:

- CHCCSL501A Work within a structured counselling process
- CHCCSL503A Facilitate the counselling relationship
- CHCCSL507A Support clients in decision-making processes

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

- |                                                          |                                                                                                                    |
|----------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------|
| 1. Reflect upon own counselling skills and practice      | 1.1 Undertake <i>self-evaluation</i> in conjunction with supervisors and/or peers                                  |
|                                                          | 1.2 Give and receive open and evaluative feedback to and from co-workers                                           |
|                                                          | 1.3 Actively seek feedback and accept it non defensively                                                           |
| 2. Ensure continuing self-support and <i>supervision</i> | 2.1 Seek <i>specialist supervision and advice / further training</i> where the need is identified                  |
|                                                          | 2.2 Observe agency guidelines in relation to professional development                                              |
|                                                          | 2.3 Appraise current industry developments and apply to improve practice                                           |
|                                                          | 2.4 Regularly participate in a review mechanism as evidence of commitment to upgrading skills and <i>knowledge</i> |
|                                                          | 2.5 Evaluate current and likely future needs and take action to keep abreast of evolving trends                    |
|                                                          | 2.6 Devise, implement and regularly review a self development plan that sets realistic goals and targets           |

**ELEMENT****PERFORMANCE CRITERIA**

- 2.7 Develop and maintain awareness of own needs and areas of vulnerability in counselling work and use appropriate means of self-protection
3. Operate within an agreed ethical code of practice/ethics
- 3.1 Assess own practice against identified objectives or code of ethics, using a range of valid evidence
- 3.2 Recognise and address the effect of values, beliefs and behaviour in work with clients
- 3.3 Establish realistic goals and targets for self development

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Knowledge, skills and ethics relevant to current industry and professional standards and codes of ethics and practice
- Relevant legislation and agency guidelines and codes of ethics or practice standards
- Principles and techniques of:
  - personal goal setting
  - measuring performance
  - time management
  - identifying personal behaviour, self awareness, personality traits
  - establishing a personal development plan
- The agency's policies, plans and procedures

## REQUIRED SKILLS AND KNOWLEDGE

- The types of work methods and practices which can improve personal performance
- The types of learning style/s and how they relate to the individual
- The personal development opportunities and options

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate ongoing reflection on and development of capability to meet professional standards, in particular to:
  - actively seek professional development opportunities
  - seek and reflect upon feedback
  - seek opportunities for supervision / mentoring
  - identify and participate in personal development
  - integrate learning into improved practice

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Work with an awareness and sensitivity to conflict, culture and context
- Understand and implement relevant procedures
- Demonstrate application of skills in:
  - negotiation
  - communication
  - decision-making
  - functional literacy to interpret written and oral information about workplace requirements
  - communication, including receiving and analysing feedback and reporting
- Research information to develop personal development and work plans
- Elicit, analyse and interpret feedback
- Analyse culturally different viewpoints and take them into account in personal development and professional practice
- Monitor research trends related to roles and responsibilities
- Use information systems to assist establish work plans
- Assess the effectiveness of own skills development
- Develop and maintain professional networks
- Relate to people from a range of social, cultural and ethnic backgrounds and physical and mental abilities

## REQUIRED SKILLS AND KNOWLEDGE

### Evidence Guide

#### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence
- Evidence will be determined by selection from the Range Statement, justified in terms of work requirements, work roles and responsibilities and occupational specialisations

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or

## EVIDENCE GUIDE

### Torres Strait Islander clients and communities

#### *Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Where assessment is conducted within the workplace there are no resource implications above those normally available in the workplace

#### *Method of assessment:*

- For valid and reliable assessment of this unit, competency should be demonstrated in a range of situations which **may** include:
  - observation of performance in an actual workplace or in a setting that realistically simulates work conditions:
  - observation should include key aspects described in elements, performance criteria and relevant aspects of the Range Statement of the unit
  - where face-to-face observation is not possible, video recordings may be provided
  - candidate's critique of their 'performance' to demonstrate cognitive understanding of theory
  - written questioning
  - relevant case studies and/or scenarios
  - role play
  - focused discussion

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work

## RANGE STATEMENT

situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

- |                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|--------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Knowledge refers to:</i>                                              | <ul style="list-style-type: none"><li>• The understanding of relevant theories, principles, practices their application and other aspects of knowledge, which may be desirable or necessary in order to practise effectively</li></ul>                                                                                                                                                                                                                                           |

### Unit Descriptor

**Descriptor**

This unit describes the knowledge and skills required to support clients in planning a course of action

### Application of the Unit

**Application**

The basic counselling skills described in this unit are intended for application in the context of delivering a range of community services

Assessment may require additional knowledge specific to a particular community services or health sector

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Assist clients in clarifying their aims and requirements

- 1.1 Clearly explain to clients the policy on record-keeping and confidentiality
- 1.2 Encourage clients to identify and explore overall aims, requirements, and ideas for meeting them
- 1.3 Encourage clients to feel at ease and express themselves
- 1.4 Identify practical goals and requirements, and discuss with clients how these might be modified
- 1.5 Identify with clients potential courses of action for meeting individual aims and requirements
- 1.6 Where aims and requirements of clients cannot be met, refer clients to appropriate alternative sources of guidance and support
- 1.7 Identify indicators of *client issues requiring referral* and report or refer appropriately, in line with organisation requirements

2. Enable clients to explore possible courses of action

- 2.1 Explore with clients factors which could influence the preference for and ability to achieve a course of action
- 2.2 Explore with clients features of and likely consequences of possible courses of action
- 2.3 Check client understanding of what is involved in

**ELEMENT****PERFORMANCE CRITERIA**

each course of action

2.4 Help clients to assess advantages and disadvantages of each possible course of action, and their overall appropriateness for meeting particular client requirements

2.5 Encourage clients to decide on a course of action and to consider alternatives which could be used if necessary

2.6 Document decisions and agreed support within organisation guidelines

## **Required Skills and Knowledge**

### **REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Referral protocols
- Necessary self awareness including:
  - role within the organisation
  - limits of competence and responsibility
  - personal strengths and limitations
  - individual needs for support and supervision
  - capacity to be non-judgemental and/or difficulty with this
- Agency/organisation model/s of counselling and intervention
- Indication of physical or mental ill health
- Key and major psychology theories
- Obstacles to counselling process
- Human life stage development
- Policy and principles and procedures to secure and maintain confidentiality including

## REQUIRED SKILLS AND KNOWLEDGE

note-taking, record and log keeping and identity protection

- Relevant legislation and ethical code of practice
- Development of a range of possible interventions

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Work within the counselling framework.
- Managing own values so they do not impede effective work and managing the stress of the work

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - problem solving
  - counselling processes and methods
  - respect for client strengths or particular needs
  - capacity to maintain and critique realistic limits for agency service and client expectations
- Maintain documentation as required, including effective use of relevant information technology in line with work health and safety (WHS) guidelines

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance

## EVIDENCE GUIDE

- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence

- Access and equity considerations:*
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

- Context of and specific resources for assessment:*
- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
  - Resource requirements for assessment include access to an appropriate workplace or an environment capable of accurately simulating the workplace for assessment purposes

- Method of assessment:*
- For valid and reliable assessment of this unit, competency should be demonstrated in a range of situations which **may** include:
    - observation of performance in an actual workplace or in a setting that realistically simulates work conditions:
      - observation should include key aspects described in elements, performance criteria and relevant aspects of the Range Statement of the unit
      - where face-to-face observation is not possible, video recordings may be provided

## EVIDENCE GUIDE

- candidate's critique of their 'performance' to demonstrate cognitive understanding of theory
- written questioning
- relevant case studies and/or scenarios
- role play
- focused discussion

### *Related units:*

This unit is recommended to be assessed in conjunction with related unit:

- CHCCSL501A Work within a structured counselling process

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *Referral may include to specialist services/agencies such as:*

- Medical
- Psychiatric
- Grief and Loss
- Various compulsions (such as gambling)
- Financial counselling

### *Client issues requiring referral may include, but are not limited to:*

#### Indicators relating to potential:

- Child protection issues
- Suicide prevention/intervention
- Domestic and family violence
- Mental health issues
- Alcohol and other drugs issues

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Enable clients to identify concerns

- 1.1 Enable clients to express their concerns freely
- 1.2 Explore presenting issues of clients in order to establish their nature and depth, and give attention to the possibility of underlying issues
- 1.3 Identify situations requiring immediate action and deal with promptly
- 1.4 Enable clients to identify their primary concerns in relation to the presenting issues
- 1.5 Enable clients to prioritise concerns to work on
- 1.6 Assist clients to become aware of underlying issues where appropriate
- 1.7 Identify and respond appropriately to strong *emotional reactions*
- 1.8 Identify indicators of *client issues requiring referral* and report or refer appropriately, in line with organisation requirements

#### 2. Enable clients to work through concerns

- 2.1 Identify and work with uncertainty and ambivalence of clients
- 2.2 Support clients to experience and process difficulties
- 2.3 Draw attention to and discuss parallels and links

**ELEMENT****PERFORMANCE CRITERIA**

in clients' experience as appropriate

2.4 Ensure that *interventions* have meaning for the immediate situation of the client

2.5 Reflect on and consider interventions that are most likely to facilitate client understanding and actions

2.6 Enable clients to identify and use known and previously unknown strengths

2.7 Explore perceptions of clients' feelings by reflecting back, clarification and review with clients

2.8 Assist clients to become aware of underlying issues where appropriate and begin to identify ways of dealing with them

2.9 Acknowledge and work with changes in client's life as appropriate

3. Monitor the counselling process

3.1 Monitor and review the counselling process with clients to ensure it remains of value

3.2 Work on threats and disruptions to the counselling process with clients

3.3 Review and compare individual perceptions and client's perceptions of the process

3.4 Work on any tension between clients' hopes and expectations and the reality of resource limitations

3.5 Facilitate change at a pace the client can tolerate and assimilate

3.6 Assess the appropriateness of ending the current counselling

3.7 Acknowledge, value and work with individual uncertainty in the counselling relationship

3.8 Apply ethical codes of conduct as required in addressing counselling dilemmas

4. Bring the counselling process to an end

4.1 Enable clients to identify when the process is approaching its conclusion

4.2 Enable clients to identify, acknowledge and evaluate what is and is not changing, both in the counselling process and in their situation and

**ELEMENT****PERFORMANCE CRITERIA**

understanding

4.3 Utilise the ending process to enable clients to understand the nature and impact of earlier issues

4.4 Utilise boundaries of the counselling relationship to assist the ending process

4.5 Plan, structure and contract endings appropriately with clients

4.6 Support clients' sense of autonomy during the ending process

4.7 Inform clients about any opportunities for further support

4.8 Identify unresolved issues and discuss further work if appropriate

4.9 Complete appropriate documentation in line with organisation requirements

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Agency/organisation model/s of counselling and intervention
- Indication of physical or mental ill health
- Obstacles to counselling process
- Human life stage development
- Policies, principles and procedures to secure and maintain confidentiality including note-taking, record and log keeping and identity protection
- Relevant legislation, ethical codes of practice and statutory requirements applying to the counselling relationship

## REQUIRED SKILLS AND KNOWLEDGE

- Necessary self awareness including:
  - role within the organisation
  - limits of competence and responsibility
  - personal strengths and limitations
  - individual needs for support and supervision
  - capacity to be non-judgemental and/or difficulty with this

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Work within the counselling framework
- Manage own values so they do not impede effective work and managing the stress of the work

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - active listening, building rapport and contracting
  - capacity to manage intensity of interaction
  - elements of interpersonal counselling with problem solving skills
  - respect ambivalence in client and boundaries in interaction
  - capacity to assess complexity of situation
  - capacity to support the client while enlisting additional resources as required
  - capacity to recognise clients particular issues, situations and context
- Maintain documentation as required, including effective use of relevant information technology in line with work health and safety (WHS) guidelines

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

## EVIDENCE GUIDE

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit of competency will be assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to an appropriate workplace or an environment capable of accurately simulating the workplace for assessment purposes

*Method of assessment:*

- For valid and reliable assessment of this unit, competency should be demonstrated in a range of situations which **must** include observation of

## EVIDENCE GUIDE

performance in an actual workplace or in a setting that realistically simulates work conditions:

- observation should include key aspects described in elements, performance criteria and relevant aspects of the Range Statement of the unit
- where face-to-face observation is not possible, video recordings may be provided
- In addition assessment methods may include
  - written questioning
  - role play
  - supervised/guided discussion
  - candidate's critique of their 'performance' to demonstrate cognitive understanding of theory

*Related units:*

This unit is recommended to be assessed in conjunction with related units:

- CHCCSL501A Work within a structured counselling process
- CHCCSL502A Apply specialist interpersonal and counselling interview skills

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Emotional reactions may be indicated by:*

- Extreme withdrawal
- Labile emotion expression (rapid changes in emotion unrelated to external events or stimuli)
- Excessively talkative
- Aggressive behaviour and reaction

## RANGE STATEMENT

*Interventions may include:*

- Responding accurately to client situation
- Planning and collaborating with client alternative behaviours
- Reviewing with client current life stage

*Client issues requiring referral may include, but are not limited to:*

Indicators relating to potential:

- Child protection issues
- Suicide prevention/intervention
- Domestic and family violence
- Mental health issues
- Alcohol and other drugs issues

### PERFORMANCE CRITERIA

- |                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Use a structured approach to counselling                | <p>1.1 Use initial session to gather information as a foundation for counselling process</p> <p>1.2 Follow a structured approach to counselling work based on client needs and expectations</p> <p>1.3 Explain counselling process to clarify client's understanding and expectation</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2. Establish the nature of the helping relationship        | <p>2.1 Enable clients to understand the <i>nature of the counselling service</i> on offer</p> <p>2.2 Clarify, confirm or modify clients' expectations of the counselling service</p> <p>2.3 Identify any anxieties about the counselling process and explore with clients</p> <p>2.4 Acknowledge and respect clients' immediate concerns</p> <p>2.5 Clarify both expectations and commitment to the counselling relationship and confirm with clients</p> <p>2.6 Identify indicators of <i>client issues requiring referral</i> and report or refer appropriately, in line with organisation requirements</p> <p>2.7 Develop a plan for counselling and contract with client as required to address disclosure and organisation/service requirements</p> |
| 3. Confirm the appropriateness of the helping relationship | <p>3.1 Ensure own level of skill and knowledge of <i>counselling methods</i> and resources are appropriate to meet client needs</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

**ELEMENT****PERFORMANCE CRITERIA**

- 3.2 Explore alternatives to the proposed relationship with clients where appropriate
- 3.3 Affirm significance of what the client says
- 3.4 Promote clients' understanding of what they have a right to expect from the service

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Background knowledge of the counselling process, including:
  - purpose of counselling
  - how counselling has evolved as a helping relationship
  - place of counselling within the helping services
  - scope of counselling relationship, including professional limitations
- Ethical responsibilities in providing counselling
- Rights of clients involved in counselling
- Counselling context, process and goals
- Knowledge of theories supporting counselling process
- Human life stage development

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Work within the counselling framework

## REQUIRED SKILLS AND KNOWLEDGE

- Manage own values so they do not impede effective work and managing the stress of the work

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Develop empathy and rapport
- Demonstrate application of skills in:
  - active listening
  - respectful responding
  - well timed challenging
  - attention to counselling relationship
  - contracting appropriate to context

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit of competency will be assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of performance
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect

## EVIDENCE GUIDE

and supplementary forms of evidence

- Access and equity considerations:*
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

- Context of and specific resources for assessment:*
- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
  - Resource requirements for assessment include access to an appropriate workplace or an environment capable of accurately simulating the workplace for assessment purposes

- Method of assessment:*
- For valid and reliable assessment of this unit, competency should be demonstrated in a range of situations which **must** include observation of performance in an actual workplace or in a setting that realistically simulates work conditions:
    - observation should include key aspects described in elements, performance criteria and relevant aspects of the Range Statement of the unit
    - where face-to-face observation is not possible, video recordings may be provided
  - In addition assessment methods may include
    - written questioning
    - role play
    - supervised/guided discussion
    - candidate's critique of their 'performance' to

## EVIDENCE GUIDE

demonstrate cognitive understanding of theory

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Nature of the counselling service:*

- Context and resources of agency
- Preferred counselling model/s of agency

*Counselling methods:*

- Are according to agency policy and procedures

*Client issues requiring referral may include, but are not limited to:*

Indicators relating to potential:

- Child protection issues
- Suicide prevention/intervention
- Domestic and family violence
- Mental health issues
- Alcohol and other drugs issues

|                                             | 6.4 | Provide additional training as required                     |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Community networks
- Community views on disaster management
- Existing disaster plans (developed by other organisations who service the Community)
- Legislation relating to disaster management
- Local disaster planning processes and networks

## REQUIRED SKILLS AND KNOWLEDGE

- Local resources, suppliers and trades people
- Project development
- Relevant equipment and technology
- Relevant Federal, State and Local government policies, guidelines and
- Relevant policies, protocols and procedures of the organisation

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply communication and liaison skills
- Apply negotiation skills
- Apply skills in human resource management
- Apply small group facilitation skills
- Deliver training
- Undertake networking
- Undertake planning

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area

## EVIDENCE GUIDE

of work

- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- The workplace is recommended for assessment including by supervisor and peers, by observation and inquiries, and from written and other sources
- Off-the-job role plays and exercises may also be used

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Disasters may include:*

- Floods
- Cyclones
- Fires
- Earth quakes
- Nuclear accidents
- Riots, raids

## RANGE STATEMENT

|                                             |                                                                                                                                                                                                                                                        |

## RANGE STATEMENT

traditional and cultural values. Their behaviour and practice must be culturally sensitive and supportive of traditional healing and health, knowledge and practices

### *Community control:*

- Community participation and control in decision-making is essential to all aspects of health work, and the role of the health worker is to support the community in this process.

### *Supervision:*

- In this document, references to supervision describe supervision of work by more experienced workers, supervisors, managers or other health professionals, either directly or indirectly.

### *Legislative requirements:*

- Clinical practice may be governed by federal, state or territory legislation, which defines workers' roles and responsibilities  
Implementation of the competency standards must reflect the legislative framework in which a health worker operates
- Lack of resources, remote locations and community needs often require health workers to operate in situations which do not constitute "usual practice"  
Because of this, health workers may need to possess more competencies than described by "usual practice circumstances"  
Lack of resources or the environment in which the health worker works does not negate the requirement for the worker to work within a legislative framework, and be enabled by the employer to do so

## Unit Sector(s)

## HLTPM501B Manage in a health care business

### Modification History

Not Applicable

### Unit Descriptor

**Descriptor**

This unit of competency describes the skills and knowledge required to manage the business requirements of a practice within the health care environment

### Application of the Unit

**Application**

Work performed requires a range of well-developed skills where a high level of discretion and judgement is required and individuals will take responsibility for their own outputs and may supervise the performance of others

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

### Employability Skills Information

**Employability Skills**

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Manage the client related requirements of a practice

- 1.1 Identify the *practice requirements to address the safety and comfort needs of specific client groups*
- 1.2 Identify and implement *practice requirements to meet location and regional needs*
- 1.3 Develop and *implement communication* requirements to meet client needs
- 1.4 Identify and secure *information* suitable to client language and comprehension needs
- 1.5 Develop and implement systems to ensure that *other client support needs* are met, where required
- 1.6 Monitor the relevance and currency of client related requirements of a practice

2. Support practitioner information needs

- 2.1 Confer with practitioner about equipment and consumable quality and currency requirements, both current and anticipated
- 2.2 Research and secure information on options for equipment to meet practice requirements
- 2.3 Collate information about qualities of practice consumables
- 2.4 Complete cost benefit analysis of equipment and material quality and currency requirements and options with reference to budgetary and planning constraints

3. Manage appointment scheduling requirements

- 3.1 Analyse appointment scheduling requirements to best balance *client appointment needs* with practitioner time and needs

**ELEMENT****PERFORMANCE CRITERIA**

- |                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                      |
|----------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                                                                      | 3.2 Implement and monitor client scheduling practices that best balance client needs and practitioner needs                                                                                                                                                                                                                                                                                                          |
| 4. Monitor duty of care practice requirements (excluding practitioner specific requirements)                         | <p>4.1 Identify risk of harm or injury to clients, staff, contractors and suppliers</p> <p>4.2 Confer with practitioners about reasonable and appropriate action to mitigate the likelihood of harm and injury</p> <p>4.3 Implement risk mitigation strategies</p> <p>4.4 Maintain records of all actions that support attention to duty of care</p>                                                                 |
| 5. Develop and manage budget to meet the equipment, information and consumable currency requirements of the practice | <p>5.1 Confer with practitioner to determine the current and future needs of the practice</p> <p>5.2 Confer with practitioner, manufacturer guidelines and maintenance records to determine a replacement protocol for equipment</p> <p>5.3 Prepare an equipment maintenance and renewal plan and costing</p> <p>5.4 Include equipment maintenance and renewal requirements in budget development and monitoring</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and

## REQUIRED SKILLS AND KNOWLEDGE

manage contingencies in the context of the identified work role

This includes knowledge of:

- Client requirements in relation to information, appointment scheduling, available support services and specific service delivery issues
- Potential risks relevant to the practice and associated risk mitigation strategies
- Practice appointment scheduling and client follow up systems and procedures
- Practice policies and procedures in relation to addressed duty of care and service delivery requirements
- Practice policies, procedures and systems relevant to delivery of client services
- Practice security procedures and systems
- Practitioner requirements re information, equipment and other resources
- Quality, cost and associated requirements relating to equipment and consumable resources relevant to the practice
- Requirements relating to storage, handling, maintenance and currency of equipment and consumable resources

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Collate information about qualities of practice consumables
- Develop and manage practice budgets relating to equipment, information and consumable currency requirements
- Identify viable options for the practice in relation to equipment and materials in line with budgetary and planning constraints
- Implement risk mitigation strategies to address identified risks for practice
- Manage appointment scheduling to address client and practitioner needs
- Monitor and record actions that support attention to duty of care
- Promote, implement and manage work attitudes and practices that reflect awareness of the importance of a range of aspects of sustainability
- Prepare an equipment maintenance and renewal plan and costing
- Undertake a cost benefit analysis relating to quality and currency requirements of equipment and materials
- Undertake research into options relating to equipment and consumable resources to address identified practice requirements

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- Assessment must be completed in the workplace.
- Relevant guidelines, standards and procedures

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Specific client group needs may include:*

- Child friendly environment
- Access and comfort for aged clients
- Access and comfort for clients with a disability
- Indigenous Australian appropriate environment
- Access and comfort for specific conditions

*Regional requirements may include:*

- Comfort requirements for clients travelling long distances
- Warmth
- Coolness
- Flexible appointment requirements
- Hours of operation

*Communication requirements may occur in:*

- Appointment reminders
- Review times for chronic conditions
- Systems to ensure clients are aware of special requirements eg fasting, supply of specimens

*Information may include:*

- Condition specific information
- General well being information
- Language relevant information
- Age appropriate information
- Comprehension level appropriate information

*Client appointment needs*

- Adequate contact with the practitioner
- Appointment times that address client comfort needs

**RANGE STATEMENT**

*include:*

eg due to fasting' fluid intake etc

- Minimal waiting time

*Additional support needs may include:*

- Assistance organising referrals, where necessary
- Assistance organising other supports, eg home care
- Information about the cost and availability of equipment and aids

**Unit Sector(s)**

## BSBFLM512A Ensure team effectiveness

### Modification History

Not applicable.

### Unit Descriptor

This unit specifies the outcomes required by frontline managers to facilitate all aspects of team work within the organisation. It involves taking a leadership role in the development of team plans, leading and facilitating team work and actively engaging with the management of the organisation.

This unit replaces BSBFLM502A Provide leadership in the workplace and BSBFLM504A Facilitate work teams, which have been combined to create this unit.

Frontline managers have an important facilitative role in the development and empowerment of work teams. This will be evident in the way frontline managers work with teams and individuals, work across teams, and the initiative they take in strengthening the links between teams and the organisation's management.

At this level, work will normally be carried out within complex and diverse methods and procedures which require the exercise of considerable discretion and judgement, using a range of problem solving and decision making strategies.

This unit builds on BSBFLM412A Promote team effectiveness.

|----------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 Establish team performance plan      | 1.1 Team members are consulted to establish team purpose, roles, responsibilities and accountabilities in accordance with organisational goals, plans and objectives |
|                                        | 1.2 Performance plans are developed in consultation with team members, to establish expected outcomes, outputs, key performance indicators and goals for work team   |
|                                        | 1.3 Team members are supported in meeting expected performance outcomes                                                                                              |
| 2 Develop and facilitate team cohesion | 2.1 Strategies are developed to ensure team members have input into planning, decision making and operational aspects of work team                                   |
|                                        | 2.2 Policies and procedures are developed to ensure team members take responsibility for own work and assist others to undertake required roles and responsibilities |
|                                        | 2.3 Feedback is provided to team members to encourage, value and reward individual and team                                                                          |

- efforts and contributions
- 2.4 Processes are developed to ensure that issues, concerns and problems identified by team members are recognised and addressed
- 3 Facilitate team work
- 3.1 Team members and individuals are encouraged to participate in and take responsibility for team activities, including communication processes
- 3.2 The team is supported in identifying and resolving work performance problems
- 3.3 Own contribution to work team serves as a role model for others and enhances the organisation's image to all stakeholders
- 4 Liaise with stakeholders
- 4.1 Open communication processes with all stakeholders are established and maintained
- 4.2 Information from line manager/management is communicated to the team
- 4.3 Unresolved issues, concerns and problems raised by team members are communicated to, and followed up with, line manager/management and other relevant stakeholders
- 4.4 Unresolved issues, concerns and problems raised by internal or external stakeholders are evaluated, and necessary corrective action taken

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

The Evidence Guide provides advice to inform and support appropriate assessment of this unit. It contains an overview of the assessment requirements followed by identification of specific aspects of evidence that will need to be addressed in determining competence. The Evidence Guide is an integral part of the unit and should be read and interpreted in conjunction with the other components of competency. Assessment must reflect the endorsed Assessment Guidelines of the parent Training Package.

## Overview of Assessment Requirements

A person who demonstrates competence in this unit must be able to provide evidence that they are able to demonstrate leadership in developing plans, in leading and facilitating team work and in actively engaging with stakeholders. They must also provide evidence that team work is actively promoted, supported and encouraged within the work team; and their own performance serves as a role model for others and enhances the organisation's image.

### **Specific Evidence Requirements**

#### **Required knowledge and understanding include:**

relevant legislation from all levels of government that affects business operation, especially in regard to occupational health and safety and environmental issues, equal opportunity, industrial relations and anti-discrimination

organisational policies and procedures

organisational goals, objectives and plans

organisational structure and organisational chart

the principles and techniques involved in:

- contingency planning
- performance planning
- problem identification and resolution
- consultation and communication
- record keeping and management
- relationship management including motivation and negotiation
- group dynamics, processes and politics

methods for collecting and utilising feedback development of strategies, processes and procedures to facilitate and monitor team effectiveness

learning and development options available within and through organisation

strategies that contribute to the elimination of discrimination/bias

#### **Required skills and attributes include:**

ability to relate to people from a range of social, cultural and ethnic backgrounds and physical and mental abilities

communication skills

basic training skills, including mentoring and coaching

planning and organising skills

problem solving skills

leadership skills

skills to identify needs, goals and aspirations of others

group facilitation skills

attributes:

- assertive
- persuasive
- empathic
- communicative
- showing positive leadership
- self-aware
- supportive
- trusting
- open
- flexible
- accommodating
- initiating
- loyal
- recognising achievement
- fair
- adaptable

### **Key competencies or generic skills relevant to this unit**

The seven key competencies represent generic skills considered essential for effective work participation. Innovation skills represent a further area of generic competence. The bracketed numbering indicates the performance level required in this unit:

Level (1) represents the competence to undertake tasks effectively

Level (2) represents the competence to manage tasks

Level (3) represents the competence to use concepts for evaluating and reshaping tasks. The bulleted points provide examples of how the key competencies can be applied for this unit.

Communicating ideas and information (3)

communicating verbally to lead a team including negotiating, basic training, participating in meetings

communicating in writing including report writing, communicating with management, identifying issues and concerns in writing

Collecting, analysing and organising information (3)

developing systems to maintaining records of own knowledge and skills and that of team members relevant to organisation

planning undertaking analysis following planning activities

developing systems and processes for monitoring and review

Planning and organising activities (3)

planning for own work and the work of team members across a range of teams

contributing to the effectiveness of other teams and the organisation as a whole

Working in a team (3)

leading and representing the team

consulting team members for their input on team effectiveness strategies and feedback

working with others including external parties and team members

Using mathematical ideas and techniques (1)

using calculation skills associated with data manipulation relevant to work of team, including financial data

Solving problems (3)

applying problem solving skills as required to address issues and conflicting requirements arising from inter and intro team activities

assisting others to solve problems arising within and between teams

Using technology (2)

using word processing packages, spreadsheets, databases, and other packages to produce written correspondence and reports of activities, financial reporting and data collation.

understanding assistive technologies, as necessary

Innovation skills (3)

developing an innovative approach to the development of strategies to improve team effectiveness

**Products that could be used as evidence include:**

documentation produced in ensuring team effectiveness, such as:

- reports
- minutes or records of meetings
- work journals or diaries
- learning and development plans developed with team members
- records of actions taken to address issues raised by team members

**Processes that could be used as evidence include:**

how communication process was managed and implemented to ensure that consultation takes place

how team members were supported and encouraged to meet expected outcomes

strategies to develop and facilitate team cohesion

how performance plans were developed

how team members were guided and supported in performing their role, including induction process for new team members

how performance management system was implemented within work team

how problems and issues within the work team have been addressed

how input and advice was provided to management in relation to human resource management of the work team

how own people management processes were reviewed and evaluated, and improvements identified, reported and acted upon

**Resource implications for assessment include:**

access by the learner and trainer to appropriate documentation and resources normally used in the workplace

access to team members' input in relation to leadership of frontline manager

**Validity and sufficiency of evidence requires:**

that this unit can be assessed in the workplace or in a closely simulated work environment

that where assessment is part of a learning experience, evidence will need to be collected over a period of time, involving both formative and summative assessment

that examples of actions taken by the candidate to ensure team effectiveness are provided

**Integrated competency assessment means:**

that this unit should be assessed with other frontline management units taken as part of this qualification, as applicable to the candidate's leadership role in a work team and as part of an integrated assessment activity

The Evidence Guide provides advice to inform and support appropriate assessment of this unit. It contains an overview of the assessment requirements followed by identification of specific aspects of evidence that will need to be addressed in determining competence. The Evidence Guide is an integral part of the unit and should be read and interpreted in conjunction with the other components of competency. that examples of actions taken by the candidate to ensure team effectiveness are provided

**Integrated competency assessment means:**

that this unit should be assessed with other frontline management units taken as part of this qualification, as applicable to the candidate's leadership role in a work team and as part of an integrated assessment activity

**Range Statement**

The Range Statement adds definition to the unit by elaborating critical or significant aspects of the performance requirements of the unit. The Range Statement establishes the range of indicative meanings or applications of these requirements in different operating contexts and conditions. The specific aspects which require elaboration are identified by the use of italics in the Performance Criteria.

Legislation, codes and national standards relevant to the workplace may include:

award and enterprise agreements and relevant industrial instruments

relevant legislation from all levels of government that affects business operation, especially in regard to occupational health and safety (OHS) and environmental issues, equal opportunity, industrial relations, anti-discrimination and record keeping standards and legislation

relevant industry codes of practice

OHS considerations may include:

knowledge of OHS legislation, principles and practice within the context of the organisation's operations and plans

OHS practice as an ethical standard and legislative requirement

training of all employees in health and safety procedures

regular updating and reviewing of the organisation's OHS systems, procedures and records

key performance indicators include relevant OHS procedures

adjustment of communications and OHS approach to cater for social and cultural diversity and special needs

**Consulted** may refer to:

conducting meetings, interviews, brainstorming sessions, email/intranet communications, newsletters or other processes and devices which ensure that all employees have the opportunity to contribute to team and individual performance plans

mechanisms used to provide feedback to the work team in relation to outcomes of consultation

**Accountabilities** may refer to:

a statement of conduct outlining responsibilities/actions/performance

responsibilities as defined in position descriptions, codes of conduct/behaviour, duty statements or similar

**Performance plans** may refer to:

team plans based on work assignments and responsibilities

individual performance plans linked to team goals

**Outcomes, outputs, key performance indicators** may refer to agreed:

measures for monitoring and evaluating the efficiency or effectiveness of systems or services

targets for productivity improvements such as reduced downtime, higher production levels, decreases in absenteeism

improved individual and team performance and participation

improvements to systems, operations

changes in work roles and responsibilities

quality standards and expectations

targets for training and development

**Strategies** may refer to:

long-term or short-term plans factoring in opportunities for team input

mentoring and 'buddy' systems to support team members in providing input

clarification of roles and expectations

training and development activities

electronic communication devices and processes, such as intranet and email communication systems, to facilitate input

newsletters and briefings

**Policies and procedures** may refer to:

organisational guidelines and systems that govern operational functions

procedures that detail the activities that must be carried out for the completion of actions and tasks

Standard Operating Procedures

**Processes** may refer to:

discussions with individuals regarding their concerns

brainstorming options with the team for addressing concerns

creating a matrix of issues and concerns and distributing it for comment

distributing drafts for comment with a range of options for resolution of concerns

training and development sessions

**Stakeholders** may include:

the work team

Board members

union/employee groups and representatives

business or government contacts

funding bodies

**Line manager/management** may refer to:

frontline manager's direct superior

other management representatives

the Chief Executive Officer

The Range Statement adds definition to the unit by elaborating critical or significant aspects of the performance requirements of the unit. The Range Statement establishes the range of indicative meanings or applications of these requirements in different operating contexts and conditions. The specific aspects which require elaboration are identified by the use of italics in the Performance Criteria.

Legislation, codes and national standards relevant to the workplace may include:

award and enterprise agreements and relevant industrial instruments

relevant legislation from all levels of government that affects business operation, especially in regard to occupational health and safety (OHS) and environmental issues, equal opportunity, industrial relations, anti-discrimination and record keeping standards and legislation

relevant industry codes of practice

OHS considerations may include:

knowledge of OHS legislation, principles and practice within the context of the organisation's operations and plans

OHS practice as an ethical standard and legislative requirement

training of all employees in health and safety procedures

regular updating and reviewing of the organisation's OHS systems, procedures and records

key performance indicators include relevant OHS procedures

adjustment of communications and OHS approach to cater for social and cultural diversity and special needs

**Consulted** may refer to:

conducting meetings, interviews, brainstorming sessions, email/intranet communications, newsletters or other processes and devices which ensure that all employees have the opportunity to contribute to team and individual performance plans

mechanisms used to provide feedback to the work team in relation to outcomes of consultation

**Accountabilities** may refer to:

a statement of conduct outlining responsibilities/actions/performance

responsibilities as defined in position descriptions, codes of conduct/behaviour, duty statements or similar

**Performance plans** may refer to:

team plans based on work assignments and responsibilities

individual performance plans linked to team goals

**Outcomes, outputs, key performance indicators** may refer to agreed:

measures for monitoring and evaluating the efficiency or effectiveness of systems or services  
targets for productivity improvements such as reduced downtime, higher production levels,  
decreases in absenteeism

improved individual and team performance and participation

improvements to systems, operations

changes in work roles and responsibilities

quality standards and expectations

targets for training and development

**Strategies** may refer to:

long-term or short-term plans factoring in opportunities for team input

mentoring and 'buddy' systems to support team members in providing input

clarification of roles and expectations

training and development activities

electronic communication devices and processes, such as intranet and email communication  
systems, to facilitate input

newsletters and briefings

**Policies and procedures** may refer to:

organisational guidelines and systems that govern operational functions

procedures that detail the activities that must be carried out for the completion of actions and  
tasks

Standard Operating Procedures

**Processes** may refer to:

discussions with individuals regarding their concerns

brainstorming options with the team for addressing concerns

creating a matrix of issues and concerns and distributing it for comment

distributing drafts for comment with a range of options for resolution of concerns

training and development sessions

**Stakeholders** may include:

the work team

Board members

union/employee groups and representatives

business or government contacts

funding bodies

**Line manager/management** may refer to:

frontline manager's direct superior  
other management representatives  
the Chief Executive Officer

Establish monitoring and review mechanisms<br>4.4. Set and document achievable targets and timeframes<br>4.5. Establish and support boards of management of new businesses where appropriate<br>4.6. Provide information to the community on a regular basis |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- numeracy skills to evaluate information on business viability
- communication, teamwork and negotiation skills to work cooperatively with other board members, management and staff of the organisation, members, community and key stakeholders
- culturally appropriate communication skills to relate to people from diverse backgrounds and with diverse abilities
- evaluation and decision-making skills to monitor and review information presented to the board and enact decisions
- planning skills to develop and implement business plans
- problem-solving skills to identify and manage real and perceived conflict of interest between parties
- research and analytical skills to gather and evaluate business data
- oral and reading communication skills to develop and evaluate business proposals and plans

#### Required knowledge

- business planning strategies, including strategies for:
  - conducting feasibility studies
  - setting goals and objectives
- business processes
- business support services available
- concept of community control of organisations and how it may impact on business

**REQUIRED SKILLS AND KNOWLEDGE**

options

- cultural context in which Aboriginal and Torres Strait Islander boards operate, including their role in upholding traditional and cultural values, and how that might impact on business options and operations
- geographic, social, economic and political contexts in which particular organisations operate and how these may impact on business options and operations
- information generally included in feasibility studies and how it should be interpreted
- marketing terms and strategies
- organisational policies and procedures in relation to business activities
- possible business structures
- provisions of federal, state or territory legislation and funding body requirements that may impact on business options and operations
- relevant protocols and cultural responsibilities that might impact on the development of enterprise opportunities
- strategies for identifying skills available in the organisation and community

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the ability to:

- identify potential business activities for the organisation and possible business structures to support these activities
- develop business proposals in collaboration with others
- make decisions regarding the suitability of business proposals
- participate in business planning processes in collaboration with others.

**Context of and specific resources for assessment**

Assessment must ensure:

- participation on an actual or simulated board

| <b>EVIDENCE GUIDE</b>                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <ul style="list-style-type: none"> <li>• access to examples of enterprises operated by Aboriginal and Torres Strait Islander organisations</li> <li>• access to examples of relevant documents</li> <li>• knowledge and performance are assessed over time to confirm consistency in performance.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Method of assessment</b>                | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• observation of performance on a board or simulated board</li> <li>• direct questioning combined with reflection of practical board performance by the candidate</li> <li>• analysis of responses to case studies and scenarios</li> <li>• demonstration of techniques</li> <li>• observation of presentations and group discussions</li> <li>• oral or written questioning to assess knowledge</li> <li>• observation of performance in role plays</li> <li>• analysis of feedback from other board members, staff, community or other stakeholders regarding performance.</li> </ul> |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• BSBATSIW515C Secure funding.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## Range Statement

| <b>RANGE STATEMENT</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                         |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |                                                                                                                                                                         |
| <p><b><i>Evaluation of current business activities</i></b> may refer to:</p>                                                                                                                                                                                                                                                                                                                                                                                                         | <ul style="list-style-type: none"> <li>• capital requirements</li> <li>• community motivation</li> <li>• cultural appropriateness</li> <li>• human resources</li> </ul> |

|         | <p>and impacts relevant to the organisation</p> <p>3.3. Ensure regular occupational health and safety checks of the workplace are undertaken according to policy and procedures</p> <p>3.4. Review grievance procedures regularly</p> <p>3.5. Ensure all aspects of employment policy and procedures are <b>audited</b> independently</p> <p>3.6. Evaluate results of reviews and audits and propose changes to policy and procedures if necessary</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication, teamwork and negotiation skills to work cooperatively with other board members, management and staff of the organisation, members, community and key stakeholders
- culturally appropriate communication skills to relate to people from diverse backgrounds and with diverse abilities
- evaluation and decision-making skills to:
  - develop and review staffing policies
  - monitor and review information presented to the board and enact decisions
- literacy skills to review documentation and communicate information to others

#### Required knowledge

- board's responsibilities in relation to duty of care with respect to staff
- concept of community control of organisations and how it may impact on employment policies
- cultural context in which Aboriginal and Torres Strait Islander boards operate, including their role in upholding traditional and cultural values, and how that might impact on employment policies
- effective communication and negotiation strategies to disseminate information and negotiate policies and procedures
- equity and diversity principles in relation to employment policies
- geographic, social, economic and political contexts in which particular organisations operate and how these may impact on employment policies
- organisational policies and procedures in relation to staffing

**REQUIRED SKILLS AND KNOWLEDGE**

- policy and procedure development processes
- provisions of federal, state or territory legislation and funding body requirements that may influence employment policies, including industrial relations, occupational health and safety, and equal employment opportunity laws
- relevant awards and employment conditions
- relevant protocols and cultural responsibilities that might impact on employment policies

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the ability to:

- work with others to develop and review employment policies and procedures
- follow policies and procedures in relation to staff.

**Context of and specific resources for assessment**

Assessment must ensure:

- participation on an actual or simulated board
- access to examples of legislation and policy affecting the employment of staff
- knowledge and performance are assessed over time to confirm consistency in performance.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of performance on a board or simulated board
- direct questioning combined with reflection of practical board performance by the candidate
- analysis of responses to case studies and scenarios
- demonstration of techniques
- observation of presentations and group discussions
- oral or written questioning to assess knowledge

| EVIDENCE GUIDE                             |                                                                                                                                                                                                                                                                                     |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <ul style="list-style-type: none"> <li>• observation of performance in role plays.</li> </ul>                                                                                                                                                                                       |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• BSBATSIL510A Appoint and work with a manager</li> <li>• BSBATSIM514A Recruit and induct staff.</li> </ul> |

## Range Statement

| RANGE STATEMENT                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                   |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |                                                                                                                                                                                                                                                                                                                                                                                   |
| <b><i>Employer's responsibilities</i></b> may include:                                                                                                                                                                                                                                                                                                                                                                                                                               | <ul style="list-style-type: none"> <li>• conditions of relevant awards</li> <li>• duty of care</li> <li>• provision of a safe workplace</li> <li>• compliance with state, territory and federal industrial relations legislation</li> <li>• supervision</li> <li>• training.</li> </ul>                                                                                           |

|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 3. Sign contracts on behalf of the organisation                                     | <p>3.1.Ensure procedures for developing and documenting contracts are developed and followed</p> <p>3.2.Identify people authorised to sign contracts on behalf of the organisation</p> <p>3.3.Check that proposed contractual arrangements are realistic for the organisation and in the organisation's and community's interests</p> <p>3.4.Ensure contracts are signed according to organisational policies and procedures</p>                                                                                                                                        |
| 4. Follow finance procedures specified by funding bodies                            | <p>4.1.Seek variations to financial agreements from relevant funding bodies if required</p> <p>4.2.Identify and follow purchasing and disposal procedures specified by funding bodies</p> <p>4.3.Check that requirements for finance documentation specified by funding bodies are met</p>                                                                                                                                                                                                                                                                              |
| 5. Advise the community of the financial situation of the organisation              | <p>5.1.Identify the type and content of <b>financial information</b> that can be made publicly available</p> <p>5.2.Ensure financial information is made available to members as specified in the constitution</p> <p>5.3.Present financial information at meetings in a clear and simple manner</p>                                                                                                                                                                                                                                                                    |
| 6. Meet reporting requirements of relevant corporate authorities and funding bodies | <p>6.1.Identify reporting requirements by relevant corporate authorities and funding bodies</p> <p>6.2.Establish timelines to ensure financial statements are completed within the timeframe required by <b>relevant corporate authorities and funding bodies</b></p> <p>6.3.Ensure an auditor is appointed at the annual general meeting</p> <p>6.4.Review and evaluate financial statements to ensure they meet requirements</p> <p>6.5.Check that financial reports are submitted to relevant corporate authorities and funding bodies within required timeframe</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

## REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

### Required skills

- communication, teamwork and negotiation skills to work cooperatively with other board members, management and staff of the organisation, members, community and key stakeholders
- culturally appropriate communication skills to:
  - relate to people from diverse backgrounds and with diverse abilities
  - present financial information clearly and simply
- delegation skills to enable tasks to be completed within required timeframes
- evaluation and decision-making skills to monitor and review information presented to the board and enact decisions
- numeracy skills to interpret reports and undertake calculations
- problem-solving skills to identify and manage anomalies in financial reports

### Required knowledge

- concept of community control of organisations and how it may impact on reporting to community
- cultural context in which Aboriginal and Torres Strait Islander boards operate, including their role in upholding traditional and cultural values, and how that might impact on financial reporting to the community
- financial responsibilities of board members and management
- financial support services available
- geographic, social, economic and political contexts in which particular organisations operate and how these may impact on financial management and reporting processes
- organisational policies and procedures in relation to finances
- provisions of federal, state or territory legislation and funding body requirements that impact on financial management and reporting
- purpose and meaning of components of financial reports
- statutory and funding body requirements in relation to finances
- systems and structures to effectively manage finances

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment

| <b>EVIDENCE GUIDE</b>                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                                                       | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|-------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Develop and implement policies and procedures for the management of assets | <p>1.1. Work with other board members and staff to develop policies and procedures for managing assets that comply with legal and contractual requirements</p> <p>1.2. Follow policies and <b><i>administrative procedures</i></b> regarding the purchase, use, storage, maintenance and disposal of assets</p>                                                                                                                                                                   |
| 2. Ensure asset records are established                                       | <p>2.1. Ensure responsibility for establishing an <b><i>asset register</i></b> of the organisation's <b><i>movable assets</i></b>, and the recording and storage of <b><i>asset documents</i></b>, is delegated by the board to an appropriate person or persons</p> <p>2.2. Check that the register has been established and that appropriate asset documents are stored securely</p>                                                                                            |
| 3. Ensure that assets and records are maintained                              | <p>3.1. Receive and review reports with respect to assets to ensure they are up-to-date and complete</p> <p>3.2. Ensure appropriate procedures are in place and followed to undertake asset repairs</p> <p>3.3. Ensure appropriate procedures are in place and followed to report and document asset damage, loss or theft</p> <p>3.4. Develop an action plan to follow up asset management issues that arise</p> <p>3.5. Ensure asset records comply with funding providers'</p> |

| ELEMENT                                       | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                 |
|-----------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                               | requirements                                                                                                                                                                                                                                                                                                         |
| 4. Ensure insurance cover is in place         | <p>4.1.Ensure appropriate procedures are in place and followed to arrange and maintain insurance following asset acquisition</p> <p>4.2.Identify authorised signatories for claims for damage, loss or theft</p> <p>4.3.Ensure claims are submitted in a timely manner and include required evidence of loss</p>     |
| 5. Oversee an annual internal audit of assets | <p>5.1.Ensure items recorded in the asset register are checked annually</p> <p>5.2.Ensure the asset register is updated with current information following the internal audit</p> <p>5.3.Investigate discrepancies found in the asset register</p> <p>5.4.Propose changes to policies and procedures if required</p> |
| 6. Oversee acquisition and disposal of assets | <p>6.1.Approve acquisitions and disposal of assets in line with existing plans and budgets</p> <p>6.2.Ensure funding body requirements regarding asset acquisition and disposal are met</p>                                                                                                                          |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication and teamwork skills to work cooperatively with other board members, management and staff of the organisation, members, community and key stakeholders
- culturally appropriate communication skills to relate to people from diverse backgrounds and with diverse abilities
- evaluation and decision-making skills to monitor and review information presented to the board and enact decisions
- numeracy skills to review asset reports and identify discrepancies
- oral, diagrammatic or written literacy skills to be able to gather and share information
- problem-solving skills to identify and manage issues that arise in the management of assets

**REQUIRED SKILLS AND KNOWLEDGE****Required knowledge**

- asset auditing procedures
- asset purchasing and disposal procedures
- funding body requirements with regard to assets
- geographic, cultural, social, economic and political context in which particular organisations operate and how that may impact on the management of assets
- organisational procedures and processes with respect to assets
- provisions of federal, state or territory legislation and funding body requirements that have an impact on the management of assets
- record-keeping requirements with regard to assets
- relevant protocols and cultural responsibilities with respect to the management of assets

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the ability to:

- work with others to develop policies and procedures for managing assets
- follow policies and procedures for managing assets.

**Context of and specific resources for assessment**

Assessment must ensure:

- participation on an actual or simulated board
- access to examples of asset registers
- access to examples of relevant asset policy and procedures
- access to examples of relevant documents and reports
- knowledge and performance are assessed over time to confirm consistency in performance.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following

| EVIDENCE GUIDE                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <p>examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• observation of performance on a board or simulated board</li> <li>• direct questioning combined with reflection of practical board performance by the candidate</li> <li>• analysis of responses to case studies and scenarios</li> <li>• demonstration of techniques</li> <li>• observation of presentations</li> <li>• oral or written questioning to assess knowledge</li> <li>• observation of performance in role plays</li> <li>• analysis of feedback from others involved in the management of assets.</li> </ul> |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• BSBATSIM418A Oversee financial management</li> <li>• BSBATSIW417C Select and use technology.</li> </ul>                                                                                                                                                                                                                                                                                                                                 |

## Range Statement

| RANGE STATEMENT                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                          |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |                                                                                                                                                                                                                                          |
| <b><i>Administrative procedures</i></b> may include:                                                                                                                                                                                                                                                                                                                                                                                                                                 | <ul style="list-style-type: none"> <li>• asset disposal</li> <li>• internal audit</li> <li>• invoices and receipts</li> <li>• identification labelling</li> <li>• insurance</li> <li>• purchasing</li> <li>• use and control.</li> </ul> |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                                        | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                              |
|----------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Design the process for developing policy                    | 1.1. Work with other board members to establish a <b><i>policy development group</i></b> and develop a procedure for policy development<br>1.2. Consult the community where appropriate<br>1.3. Determine the need for expert advice<br>1.4. Delegate tasks to appropriate people                                                                                                 |
| 2. Obtain background information needed for policy development | 2.1. Identify key areas of operation requiring policy development<br>2.2. Review relevant previous board decisions<br>2.3. Identify and review <b><i>additional information</i></b> required                                                                                                                                                                                      |
| 3. Contribute to the drafting of policy                        | 3.1. Provide input into the drafting of <b><i>policy for each area</i></b> of organisation activity<br>3.2. Check policy to ensure it reflects the vision of the organisation and <b><i>cultural issues</i></b><br>3.3. Check policy to ensure it meets legal, constitutional and funding requirements<br>3.4. Provide feedback to the policy development group on draft policies |
| 4. Approve policy                                              | 4.1. Provide an explanation of draft policy to <b><i>others</i></b><br>4.2. Obtain and evaluate feedback<br>4.3. Propose amendments to draft policy where required in response to feedback                                                                                                                                                                                        |

|----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                        | <p>4.4. Work with board members to approve agreed policy</p> <p>4.5. Ensure procedures are in place to document and store policy in an accessible form</p>                                                                                           |
| 5. Implement policy                    | <p>5.1. Inform others of the board decision and the final policy</p> <p>5.2. Review board decision to ensure it complies with policy</p> <p>5.3. Evaluate organisational procedures to confirm consistency with policy</p>                           |
| 6. Review and amend policy as required | <p>6.1. Review policy regularly to ensure the organisation's vision and values are maintained</p> <p>6.2. Propose amendments to policy where appropriate</p> <p>6.3. Ensure policy changes are documented according to organisational procedures</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- culturally appropriate communication skills to relate to people from diverse backgrounds and with diverse abilities
- communication and teamwork skills to consult with other board members, staff, members, community and others regarding policy development and implementation
- evaluation and decision-making skills to:
  - review draft and existing policies and procedures
  - propose new or changed policies
- information-gathering skills to obtain information required for policy development
- negotiation skills to work with others to develop acceptable policies and ensure their implementation
- oral, diagrammatic or written literacy skills to be able to gather and share information

#### Required knowledge

- concept of community control of organisations and how it may impact on the development and implementation of policies

## REQUIRED SKILLS AND KNOWLEDGE

- cultural context in which Aboriginal and Torres Strait Islander boards operate, including their role in upholding traditional and cultural values, and how that could impact on the development and implementation of policies
- equity and diversity principles that might need to be applied when developing and implementing policies
- geographic, social, economic and political contexts in which particular organisations operate and how these may impact on the development and implementation of organisational policies
- organisation's constitution, vision, purpose and current processes
- provisions of relevant federal, state or territory legislation and funding body requirements relevant to the content of particular organisational policies
- relevant protocols and cultural responsibilities that could impact on the development and implementation of policies

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- work with others to implement a policy development process
- contribute to policy development processes
- inform others of new and changed policies
- review and amend policies as required.

#### Context of and specific resources for assessment

Assessment must ensure:

- participation on an actual or simulated board
- access to examples of policies
- access to examples of relevant documents
- knowledge and performance are assessed over time to confirm consistency in performance.

#### Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of performance on a board or simulated

| <b>Guidance information for assessment</b> | Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.                                                                                                                                                                                                                                                                                                                                                                                    |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

|                                                     |                                                                                                                                                                                                                                                                   |
|-----------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><i>Policy development group</i></b> may include: | <ul style="list-style-type: none"> <li>• board members</li> <li>• community members</li> <li>• expert advisers</li> <li>• staff members.</li> </ul>                                                                                                               |
| <b><i>Additional information</i></b> may relate to: | <ul style="list-style-type: none"> <li>• examples of policies from other organisations</li> <li>• existing organisational policy</li> <li>• funding terms and conditions</li> <li>• relevant government policy documents</li> <li>• relevant research.</li> </ul> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- numeracy skillsto read financial reports and calculations
- culturally appropriate communication skills to relate to people from diverse backgrounds and with diverse abilities
- communication and teamwork skills to work cooperatively with other board members, management and staff of the organisation, members, community and key stakeholders
- evaluation and decision-making skills to monitor and review information presented to the board and enact decisions
- initiative and enterprise skills to set priorities when making financial decisions

#### Required knowledge

- concept of community control of organisations and how it may impact on financial decisions
- cultural context in which Aboriginal and Torres Strait Islander boards operate, including their role in upholding traditional and cultural values, and how that might impact on financial decisions
- geographic, social, economic and political contexts in which particular organisations operate and how these may impact on financial decisions
- organisational procedures and processes regarding finances
- organisationalvision and objectives

**REQUIRED SKILLS AND KNOWLEDGE**

- previous budget performance and financial reports
- purpose and components of financial reports
- relevant protocols and cultural responsibilities when making financial decisions
- statutory and funding body requirements relevant to the organisation's financial decisionmaking
- statutory and funding body responsibilities in relation to financial reporting and assets

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the ability to:

- understand a variety of financial reports
- monitor the financial status of the organisation
- make financial decisions according to organisational vision and objectives that comply with legal and contractual requirements
- responsibly manage organisational assets.

**Context of and specific resources for assessment**

Assessment must ensure:

- participation on an actual or simulated board
- access to examples of financial reports and other relevant documents
- knowledge and performance are assessed over time to confirm consistency in performance.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of performance on a board or simulated board
- direct questioning combined with reflection of practical board performance by the candidate
- analysis of responses to case studies and scenarios

| EVIDENCE GUIDE                             |                                                                                                                                                                                                                                                                                              |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- analytical skills to review current organisational services and existing plans
- culturally appropriate communication skills to relate to people from diverse backgrounds and with diverse abilities
- evaluation and decision-making skills to monitor and review information presented to the board and enact planning decisions
- numeracy skills to understand relevant numerical data
- oral or written communication skills to be able to gather and share information

**REQUIRED SKILLS AND KNOWLEDGE**

- organisational and planning skills to ensure that plans that meet the vision, goals and objectives of the organisation are developed in a timely manner
- problem-solving skills to deal with planning information which is contradictory, ambiguous, inconsistent or inadequate
- research skills to identify and access planning information
- teamwork skills to develop plans cooperatively with other board members, management and staff of the organisation, members, community and key stakeholders

**Required knowledge**

- board processes for decision making
- concept of community control of organisations and how it may impact on organisational planning
- cultural context in which Aboriginal and Torres Strait Islander boards operate, including their role in upholding traditional and cultural values and how that could impact on organisational planning
- geographic, social, economic and political contexts in which particular organisations operate and how these may impact on organisational planning
- methods for community consultation and engagement
- methods for setting vision, goals and objectives
- organisation review processes, such as a SWOT analysis
- potential funding sources to support organisational goals and objectives
- principles of risk management relevant to organisational planning
- provisions of federal, state or territory legislation and funding body requirements that influence decisionmaking and may impact on organisational planning
- relevant organisational planning concepts
- relevant principles of sustainability
- relevant protocols and cultural responsibilities with respect to planning
- roles and responsibilities of board and management in organisational planning

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and**

Evidence of the ability to:

| <b>EVIDENCE GUIDE</b>                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| <b>evidence required to demonstrate competency in this unit</b> | <ul style="list-style-type: none"> <li>• develop plans that are consistent with community needs, cultural requirements and organisational directions</li> <li>• identify and access information relevant to planning activity</li> <li>• identify risk management and sustainability strategies</li> <li>• oversee organisational planning.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Context of and specific resources for assessment</b>         | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to examples of organisational plans</li> <li>• knowledge and performance is assessed over time to confirm consistency in performance</li> <li>• participation on an actual or simulated board.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Method of assessment</b>                                     | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• analysis of planning information and documentation</li> <li>• direct questioning combined with reflection practical board performance by the candidate</li> <li>• analysis of responses to case studies and scenarios</li> <li>• demonstration of techniques</li> <li>• observation of presentations</li> <li>• oral or written questioning to assess knowledge of planning processes</li> <li>• observation of performance in role plays</li> <li>• performance of board duties or an accurate simulation of board duties.</li> </ul> |
| <b>Guidance information for assessment</b>                      | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• BSBATSIC411C Communicate with the community</li> <li>• BSBATSIM417A Implement organisational plans</li> <li>• BSBRES401A Analyse and present research information.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                             |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Community*** may include:

- community members
- Elders
- members of the organisation
- other Aboriginal and Torres Strait Islander organisations
- other relevant stakeholders
- traditional owners.

***Relevant planning information*** may include:

- existing organisational plans
- community and stakeholder feedback
- funding and resource opportunities
- market research
- organisational documentation, such as:
  - annual general report
  - constitution
  - financial reports and budgets
  - networks and supporters
  - policy and procedures
  - vision and purpose statements
- relevant data and statistics
- relevant government reports, strategic directions, and policy
- staff skills and capabilities.

***Review*** may involve:

- community and stakeholder feedback
- evaluation reports
- gap analysis
- market research
- SWOT analysis.

***Planning activity*** may include:

- action plans
- business plans
- cultural plans
- financial plans
- marketing and promotion plans

| <b>RANGE STATEMENT</b>                                                |                                                                                                                                                                                                                                                                                                                                                           |
|-----------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                       | <ul style="list-style-type: none"> <li>• staffing plans</li> <li>• strategic plans.</li> </ul>                                                                                                                                                                                                                                                            |
| <b><i>Cultural identity</i></b> may include:                          | <ul style="list-style-type: none"> <li>• common cultural values that underpin Aboriginal and Torres Strait Islander people</li> <li>• diversity and uniqueness of individual communities</li> <li>• languages, songs, arts and artwork</li> <li>• Native Title status and issues</li> <li>• relationship with the land.</li> </ul>                        |

- |                                                                    |                                                                                                                                                                                                                                                                            |
|--------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Monitor the performance of a population health project          | 1.1 Monitor project activities to ensure they are being delivered in accordance with project plan<br>1.2 Regularly review results of monitoring to allow any problems or opportunities to be addressed                                                                     |
| 2. Evaluate a population health project                            | 2.1 Collect data as per procedures outlined in the <i>evaluation plan</i><br>2.2 Interpret data and summarise in a manner that allows for conclusions to be made, with before and after comparisons made when relevant                                                     |
| 3. Report on the outcome of a population health project evaluation | 3.1 Ensure the purpose, content and format of the evaluation report are as outlined in the project plan<br>3.2 Include in the report discussion of the evaluation process and results<br>3.3 Disseminate report to <i>stakeholders</i> in accordance with the project plan |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

## REQUIRED SKILLS AND KNOWLEDGE

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Equity issues in population health
- Evaluation (types, levels of evaluation)
- Evidence-based practice
- National, State and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Alma Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Social change and advocacy processes
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Analyse, judge and incorporate feedback where required
- Apply analytical thinking, problem solving and critical appraisal
- Apply effective communication and interpersonal skills including:
  - high level written or verbal
  - negotiation and liaison
  - consultation
  - conflict resolution and mediation
- Engage and work collaboratively and/or in partnership
- Facilitate and contribute effectively to meetings, forums and other networks
- Identify and consult with key stakeholders throughout the monitoring and evaluation process
- Pay attention to equity
- Undertake work planning and management
- Work as part of a multi-disciplinary team and/or autonomously

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistent satisfactory performance of all elements of this unit must be demonstrated

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit may be assessed in the workplace or in a simulated workplace under normal conditions
- The unit may be assessed in the classroom
- Access to:
  - a range of government and non-government policy documents and reports and statistics
  - journals, books and external expertise
  - documents and other materials (charters, declarations, discussion papers, etc.) from international conferences on population health
  - a range of government and non government policy documents and reports and statistics

## EVIDENCE GUIDE

- organisation policies and procedures

### *Method of assessment*

- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff client feedback
- Portfolio/CV
- Supporting statement of supervisors
- Evidence of relevant work experience/formal or informal learning
- Case studies and scenarios as a basis for the discussion of issues in population health project planning
- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report

### *Related units:*

This unit should be undertaken and assessed in conjunction with the following units:

- HLTPOP502C Work with the community to identify health needs
- HLTPOP503C Plan a population health project

It is recommended that this unit is undertaken in conjunction with the following unit to obtain a more holistic view of program planning, management and evaluation processes:

- PSPPM402B Manage simple projects

## Range Statement

### RANGE STATEMENT

## RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Population health projects may vary considerably in scope and content:*

- Population health projects may be developed in any population health field including:
  - health promotion
  - environment health
  - communicable diseases
  - health risk management and assessment
- Population health projects may be developed at any level including:
  - local
  - regional
  - state
  - national
- Population health projects may be developed for any population including:
  - general Australian population
  - any subgroups within that population identified based on age, sex, ethnicity, sexual identity, geographical location, physical environment, lifestyle choices, socio economic status, disability, health status etc.
  - any community defined as collective group of people identified by common values and mutual concern for the development and well-being of their group or geographical area
  - any setting/organisation whose practices influence health behaviour (e.g. clinical services, general practice, schools, workplaces, etc.)
- Population health projects can target individuals, groups or organizations
- Population health projects may vary in duration and intensity
- Population health projects may relate to different health determinants (e.g. biological, economic, behavioural, social, etc.)

## RANGE STATEMENT

|                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                          |

| 1. Address resourcing issues for <i>group activities</i> | <p>1.1 Plan group activities, including consideration of:</p> <ul style="list-style-type: none"> <li>• the purposes, defined according to the identified needs of the client group</li> <li>• the human, financial and physical <i>resources</i> required</li> </ul> <p>1.2 Where required resources are not immediately and readily available, make appropriate submissions to potential sources of assistance and resources</p> <p>1.3 <i>Ensure formal submissions meet requirements of</i> funding guidelines and organisation principles and practice</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 2. Coordinate a group planning process                   | <p>2.1 Actively seek opportunities for collaborative planning and promotion of group activities with clients and solicit, analyse and prioritise information about group's needs and expectations</p> <p>2.2 Negotiate the purpose of group activities with the group in a manner that gives sufficient time and space for individuals to articulate their ideas and wishes and create opportunity for input to ownership of group processes</p> <p>2.3 Translate purpose of proposed group activity into a set of aims and objectives</p> <p>2.4 Analyse potential impact on group operation of the values and beliefs of both worker and client and clarify with those involved in planning and implementing group activities</p> <p>2.5 Deal with contributions and suggestions to group planning processes so as to promote continued participation</p> <p>2.6 Design group strategies that promote effective group operation and take into account specific characteristics of clients who will participate in the activity or program</p> |

**ELEMENT****PERFORMANCE CRITERIA****3. Manage group processes including responding to conflict**

- 3.1 Promote opportunities for open dialogue and active listening between group members
- 3.2 Encourage and model sensitivity to participants, regardless of their gender, culture, ethnicity, subculture, sexuality and ability
- 3.3 When conflict threatens or arises:
- implement strategies to prevent it within own role, power and capacity
  - identify and reinforce the outcomes of positive conflict
  - clarify and confirm relevant principles and practices of conflict resolution and seek agreement to implement them
  - encourage acknowledgment of respective rights and responsibilities and perceptions of all participants within the conflict situation
- 3.4 Offer opportunity to all participants for debriefing, *support*, mediation, consultation and facilitation throughout conflict resolution processes

**4. Evaluate group activities**

- 4.1 Ensure aims and objectives of the group activity provide the basis for evaluation and feedback
- 4.2 Seek feedback from all group participants on leadership style, group process, achievement of objectives, other achievements and areas for development
- 4.3 Document evaluation data according to organisation procedures and distribute to relevant people

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

## REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Dynamics of groups
- Different styles of group leadership and decision
- Effective communication strategies
- Organisation's policies, principles and procedures
- Organisation's and community resources
- Relevant models such as stages of group development and stages of change

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Support group activities for formal and informal groups
- Participate in a variety of the group activity types identified in the Range Statement
- Provide support for an appropriate target group, defined by factors as listed in the Range Statement

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - conflict management
  - developing and maintaining positive relationships
  - effective group management

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a simulated workplace under the normal of range conditions
- Assessment may be conducted on one or more occasions but must enable assessment in a variety of settings with a range of both formal and informal groups

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can take place
  - simulation of realistic workplace setting for

## EVIDENCE GUIDE

### assessment

#### *Method of assessment:*

- Assessment may include observations, questioning or evidence gathered from the workplace  
e.g. testimonials from group members, portfolios

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

#### *Group activities may be:*

- Formal or informal
- Structured
- Semi structured
- Unstructured

#### *Group activities may relate to:*

- Discussions about relevant issues
- Sporting and recreation activities
- Music and performing arts
- Research, planning and management
- Informal education
- Community service and/or action
- Special interest causes

#### *Communication with young people may include:*

- Oral, written or visual means
- Use of third party translation/interpretation
- Any language

## RANGE STATEMENT

*Ensure formal submissions meet requirements may refer to:*

- The aim and objectives of the proposed activity or program
- Implementation and evaluation strategies
- Management arrangements
- Human, financial and physical resources available and required

*Support will include:*

- Information and resources managed by the organisation and other organisations and agencies
- Advice and information
- Facilitations

*Resources will include:*

- Information/referrals
- Facilities
- Equipment/materials
- Administrative support
- Facilitation of meetings
- Worker skills/expertise

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Identify the purpose of the group

- 1.1 Identify and determine with members of the group, activities which meet the group purpose
- 1.2 Discuss and establish with all group members, rules for group behaviour
- 1.3 Identify, acknowledge and respect *individual differences* of workers and group members
- 1.4 Seek, identify and accommodate goals, needs and expectations of participants according to available *resources*

2. Establish relationship with the group

- 2.1 Define roles played by group members including the worker
- 2.2 Encourage a suitable level of participation
- 2.3 Inform group of resources available to meet group needs
- 2.4 Assess capacity of the worker to respond to group's needs and communicate to the group, in an appropriate manner
- 2.5 Identify and implement the most appropriate *support* to achieve the objectives of the activity
- 2.6 Model *clear communication* to group members
- 2.7 Encourage group members to use clear and appropriate communication
- 2.8 Respect individual differences and needs in communication and interaction with group members
- 2.9 Ensure communication and interactions with group are appropriate to aim and purpose of group
- 2.10 Implement appropriate processes as necessary to address breaches of behaviour
- 2.11 Encourage participants to agree on and abide by a set of appropriate guidelines

- |                                                   |                                                                                                                               |
|---------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------|
|                                                   | 2.12 Promote group achievements in a way which motivates and recognises participants' efforts                                 |
|                                                   | 2.13 Keep records of group interaction, where required, in a manner consistent with organisation's documentation requirements |
| 3. Organise resources for <i>group activities</i> | 3.1 Work to ensure adequate resourcing is available                                                                           |
|                                                   | 3.2 Communicate to group availability of resources and guidelines for use                                                     |
|                                                   | 3.3 Encourage cooperative approach to the use of resources                                                                    |
|                                                   | 3.4 Complete <i>reports</i> on use of resources if required                                                                   |
|                                                   | 3.5 Ensure reports are completed to standard required by organisation                                                         |

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Dynamics of groups and the different styles of group leadership and decision-making
- Effective communication techniques
- Conflict management
- Organisation's policies, principles and procedures
- Relevant organisation and community resources

## REQUIRED SKILLS AND KNOWLEDGE

- Building and maintaining relationships
- Relevant models such as stages of group development and stages of change model

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Support group activities for formal and informal groups
- Participate in a variety of group activity types identified in the Range Statement or in the workplace
- Provide support for appropriate target groups

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply oral communication skills including asking questions, clarifying issues/topics, providing information in the workplace setting:
  - language used may be English or community language, depending on the client group
- Apply written communication competence to complete reports required by the organisation:
  - complexity of reports may vary from completing an organisation proforma, to completing a unstructured report
  - literacy support for completing reports may vary from the availability of support from a supervisor to no support available in the workplace
  - reports may be written in English or community language depending on the organisation requirements
- Apply reading competence required to fulfil the job role:
  - this may vary from no competence required (if information on the availability of resources, materials etc for the group are conveyed verbally), to the ability to read work-related texts, which may include lists of available resources, names of group members, policy statements on use of equipment and resources etc
  - language in use may be English or community language depending on organisation

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a simulated workplace under the normal of range conditions
- Assessment may be conducted on one or more occasions but must include the normal range of client groups, group activities and types of groups in the workplace

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment

## EVIDENCE GUIDE

*Method of assessment:*

- Assessment may include observations, questioning or evidence gathered from the workplace

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Group activities may be:*

- Formal or informal
- Structured
- Semi structured
- Unstructured

*Group activities may relate to:*

- Discussions
- Sporting and recreation activities
- Research, planning and management
- Informal and formal education
- Community action
- Special interest causes

*Resources will include:*

- Information/referrals
- Facilities
- Equipment/materials
- Administrative support
- Facilitation of meetings
- Worker skills/expertise

## RANGE STATEMENT

*Support will include:*

- Resources managed by the organisation
- Advice, information and facilitation
- Individual or group supervision

*Individual differences may include differences in:*

- Beliefs
- Values
- Age
- Cultural background
- Physical abilities

*Clear communication will be:*

- Communication related to group purpose and aims
- Communication that respects individual differences and abilities of group members

*Reports may be:*

- Verbal or written according to organisation procedures

### Unit Descriptor

#### Descriptor

This unit describes the knowledge and skills required to manage colleagues' occupational health and welfare

This will involve participating in and facilitating debriefing and various support processes for self or colleagues who are providing various services to people affected by domestic and family violence

### Application of the Unit

#### Application

This unit may apply in a range of community service contexts with clients who may experience domestic and family violence

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Monitor occupational health and welfare

1.1 Monitor occupational health and welfare, and where issues arise, take appropriate action in accordance with *organisation standards and procedures*

1.2 Employ appropriate *feedback techniques* to accurately identify workplace needs of *colleagues*

1.3 Readily identify required professional and *personal performance standards* and use to monitor occupational health and welfare

1.4 Regularly use self assessment and *reflective behaviour* strategies to monitor performance

1.5 Regularly or constructively seek formal or informal performance feedback and act upon it as appropriate

1.6 Plan appropriately to identify areas of need and develop proposals to support these areas

#### 2. Conduct debriefings

2.1 Plan, prepare and conduct debriefing in line with organisation standards and procedures

2.2 Schedule debriefing as soon as possible following the incident

2.3 Conduct debriefing in a safe environment and in a manner that facilitates open communication

2.4 Use appropriate *debriefing techniques* to

**ELEMENT****PERFORMANCE CRITERIA**

encourage further exploration of emotions and experiences to assist in reflection on issues

2.5 Use appropriate questioning to encourage colleagues to explore and acknowledge their concerns

2.6 Analyse and respond to any *indications of risk* or threat to safety according to the degree and nature of the risk to self or colleagues

2.7 Where required, report and record results of debriefings in accordance with organisation standards and procedures

3. Assist and support colleagues

3.1 Promptly deal with any issues relating to the well being of colleagues according to organisation standards and procedures

3.2 Routinely identify and implement effective ways of working to sustain ongoing health and morale

3.3 Provide encouragement, support, regular feedback and advice to colleagues as required

3.4 Clearly communicate to appropriate colleagues any additional support requirements to improve performance

3.5 Encourage and support colleagues to attend training appropriate for both professional and *personal development*

3.6 Hold regular meetings with colleagues to review and adjust *support strategies* and priorities

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

## REQUIRED SKILLS AND KNOWLEDGE

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Understanding of legislative requirements and knowledge of best practice approach to occupational health and welfare
- Understanding of rights and obligations of employees and employers regarding occupational health and welfare
- Knowledge of debriefing techniques and processes
