- Knowledge of appropriate feedback techniques to ensure the various workplace occupational health and welfare needs are accurately identified
- Understanding of techniques for effective workplace communication and team management
- Understanding of current organisation procedures, practices and standards for client assessment, allocation of services, case management, interviewing, code of conduct, confidentiality, use of resources, programmed intervention and duty of care requirements
- Knowledge of legislative requirements and provisions relevant to area of service delivery and delegated responsibility
- Understanding of specific limitations of work role, responsibility and professional abilities
- Awareness of own values and attitudes and their potential impact on clients
- Understanding of how to interpret units of competency and apply them to self, including identifying and prioritising personal learning needs
- Knowledge of self assessment and reflective strategies to assist in determining personal development needs, including preparing personal plans and establishing priorities
- Understanding of role in debriefing process as a peer, supervisor or 'professional debriefer'
- Understanding of specific debriefing techniques and a colleagues' need to debrief specifically in relation to domestic and family violence including dealing with violence, rage, intimidation, threats, transference, counter-transference and interaction with users of violence and those affected by users of violence

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Manage own and colleagues' occupational health and welfare by participating in and facilitating workplace debriefing and support processes, in particular, to:
  - work in accordance with the organisation's occupational health and welfare policies and procedures
  - make appropriate use of feedback and self assessment techniques to accurately identify occupational health and welfare issues
  - use appropriate debriefing techniques in accordance with organisation standards and

## REQUIRED SKILLS AND KNOWLEDGE

procedures

- accurately identify risk and issues that will affect the well being of self or colleagues
- provide advice, encouragement and support to colleagues to ensure that the workplace occupational health and welfare needs are met
- accurately interpret and comply with legal and procedural requirements
- understand own work role and responsibilities in relation to workplace work health and safety (WHS)

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - interpersonal relationship, such as questioning and active listening (paraphrasing, clarifying, summarising) techniques, including non-judgemental and empathic approaches
  - performance planning and feedback that will provide regular and constructive feedback to colleagues
  - response ranging from responding sensitively and appropriately, to providing constructive feedback on performance
  - assessment for a broad range of unpredictable problems involving analysis, assessment and evaluation, for example, identifying levels of risk that will affect occupational health and welfare of self and/or colleagues
  - problem solving for a defined range of unpredictable problems that may affect levels of occupational health and welfare
  - collaboration between worker and client, and between services and other providers
  - literacy and communication in relation to analysis, evaluation and presentation of information including preparing documents and reports related to WHS and welfare issues
  - collaboration between worker, clients and colleagues and between services and other providers

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the

## EVIDENCE GUIDE

Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Assessment of performance should be over a period of time covering all categories within the Range Statement statements that are applicable in the learning environment  
This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment
- Where assessment is conducted within the workplace

## EVIDENCE GUIDE

there are no resource implications above those normally available in the workplace

- Where assessment is conducted in a simulated or non-workplace environment then access to the necessary equipment and research resources should be provided

Access to simulated exercises, case studies related to service delivery issues will also be required if non-workplace assessment paths are utilised

### *Method of assessment:*

- Evidence will be determined by organisation from the Range Statement, justified in terms of work requirements, work roles and responsibilities and occupational specialisations
- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment in facilitating workplace debriefing and support processes and managing own and colleagues occupational health and welfare
  - assessment must be in the workplace, however, where there is not an opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
  - observation of processes and procedures, oral and/or written questions on essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
  - review of any documentation produced by the candidate related to identifying and responding to domestic violence

### *Related units:*

This unit should be assessed after or in conjunction with related unit:

## EVIDENCE GUIDE

- CHCDFV402C Manage own professional development in responding to domestic and family violence

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Organisation standards and procedures may include those relating to:*

- Whether debriefing is a voluntary or compulsory component of workplace practice
- Client and worker safety
- Employment conditions (e.g. industrial agreements, employee/employer requirements)
- Training and development practices
- Administrative processes
- WHS
- Collection and storage of information
- Client interview protocols and procedures
- Code of conduct/code of ethics
- Principles and implementation of duty of care and rights of client to self determination
- Departmental, inter-departmental regulations, protocols and procedures relevant to work role and responsibilities
- Inter-agency practice and protocols
- Use of interpreter and interpreter services
- Organisation mission statement and/or philosophy
- Eligibility criteria for accessing particular services
- Completion of forms and applications
- Guidelines relating to parameters of confidentiality/client consent
- Accountability procedures

## RANGE STATEMENT

- Timeframes for reflective practice and supervision
- Feedback techniques may include:*
  - Team briefing and planning meetings
  - Performance planning and feedback systems
  - Questionnaires
  - Counselling
  - Oral or written
- Colleagues may include:*
  - Other staff
  - Unpaid workers
  - Students on placements
  - Resources workers
  - Ancillary staff
  - Staff from other related organisations/agencies
  - Co-facilitators in group work
- Personal performance standards relates to:*
  - The practitioner's level of competency
  - Professional ethics
  - Integrity and behaviour
  - Regulations
  - Code of ethics/practice
  - Organisation/agency procedures
  - Community standards
  - Occupational accountabilities
- Reflective behaviour requires practitioners to regularly review their own performance against required and established professional performance requirements  
Such performance requirements may be documented through:*
  - Professional bodies' competencies and codes of practice/ethics
  - Organisation HR development policies and procedures
  - Occupational or functional roles/units of competency
- Debriefing techniques may include:*
  - Demonstrating empathy
  - Using appropriate body language
  - Reflecting, summarising and paraphrasing

## RANGE STATEMENT

- Asking open-ended questions
- Active listening

*Indications of risk could include:*

- Client contact outside service boundaries
- Poor performance
- Feelings of depression, anger, low self-esteem
- Medical problems such as overuse of tranquillisers, or alcohol, rug or substance abuse
- Emotional distress
- Transference and counter-transference of client issues on to worker and vice-versa
- Demonstration of stress related problems
- Indicators of stress could include the following:
- Inability to concentrate
- Health problems
- Changes of behaviour
- Continued focus on and re-visiting of an event
- Frequent absences
- Negative attitudes
- Unaware of own stress levels

*Personal development strategies may include development/implementation of a personal/professional improvement program, either internal or external to the organisation including such things as:*

- Development of improved interpersonal/technical skills
- Updating stress management abilities
- Adapting work rotation to facilitate changing personal/work priorities
- Formal/informal learning programs
- Utilisation of existing strengths to focus future career development
- Cultural and sub-cultural awareness/sensitivity
- Seeking coaching
- Mentoring
- Counselling from appropriate personnel to overcome identified limitations
- Development/improvement of conflict management skills
- Establishment of new career paths within or external to the organisation

**RANGE STATEMENT**

*Support strategies may include:*

- Formal, personal and organisation debriefing and professional supervision
- Informal exploration of incidents with team members and supporters
- Counselling
- Review of practice and resources
- Conscious use of personal recreational activities
- Performance appraisal
- Training and development activities

Not Applicable

## Unit Descriptor

### Descriptor

This unit describes the knowledge and skills required to use appropriate counselling and facilitation skills to thoroughly explore client issues and identify possible options by providing a safe and supportive environment which encourages clients to be actively involved in seeking their own solutions

## Application of the Unit

### Application

This unit may apply in a range of community service contexts with clients who may experience domestic and family violence

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Establish confidence

1.1 Use appropriate *interpersonal skills* to establish a professional relationship with *clients* based on confidence and support

1.2 Conduct *interviews and interactions* with clients in a safe environment and in a participatory and confidential manner

1.3 In all interactions with clients demonstrate sensitivity to cultural, family and individual differences and any *specific needs*

1.4 Explain and promote *rights and responsibilities* of client, their family and worker throughout client contact

1.5 Mutually determine appropriate structures, timeframes and protocols

1.6 In all work with clients, apply *organisation standards and procedures* and comply with *legislative and statutory requirements*

#### 2. Explore issues

2.1 Use appropriate *questioning* to encourage clients to explore and acknowledge their fears, concerns and personal capabilities

2.2 Encourage those who use violence to take personal responsibility for their actions

2.3 Use facilitation skills to encourage exploration of emotions and experiences that will assist in reflection of issues

2.4 Analyse and respond to any indications of *risk* or threats to safety according to the degree and nature of the risk to client, their family and/or worker

2.5 Explore appropriate range of services and

**ELEMENT****PERFORMANCE CRITERIA**

resources to meet needs of client and their family in accordance with organisation standards and procedures

2.6 Provide accurate and relevant information designed to develop awareness and understanding of domestic violence

2.7 Encourage client self determination through using opportunities which assist clients to identify issues, set personal *goals* and make informed choices to enhance the safety of the client and their family

2.8 Encourage clients to recognise decisions and changes needed to assist them to achieve their goals

2.9 Acknowledge progress and encourage and support self management of issues

3. Identify possible future directions

3.1 Identify future *services and support* required by the client and plan their delivery in consultation with client, their family and other *appropriate people*

3.2 Jointly identify client information needs and agreed and implement actions to satisfy these as appropriate

3.3 Provide opportunities for client and their family to obtain information and develop skills in accordance with organisation standards and procedures

3.4 Use appropriate questioning and reflection to assist the client to make positive choices and changes as necessary

3.5 Maintain records of participation and progress according to organisation standards and procedures

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

## REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Detailed knowledge of appropriate counselling techniques that will explore client issues and encourage client's self determination to enhance client and client's family's safety
- Understanding of current organisation procedures, practices and standards for client assessment, allocation of services, case management, interviewing, code of conduct, confidentiality, use of resources, programmed intervention and duty of care requirements
- Understanding of domestic violence indicators and procedures for undertaking assessment of needs of client and client's family
- Knowledge of respectful strategies that will assist in client self-determination which enhances client and their family's safety
- Knowledge of the various groups represented within the local community (e.g. Cultural, religious, language, sexual identity, age and disability) and an understanding of the issues that arise when working with those groups
- Knowledge of the social, historical, political and economic context of domestic violence, including types and nature of domestic violence, power and gender issues, child abuse, and associated criminal issues
- Specific knowledge of the appropriate range of referral sources and associated protocols
- Understanding of the prevalence of myths, unhelpful beliefs, attitudes and practices in the broader society in regard to domestic violence, and their effects on individuals' rights to safety and autonomy
- Knowledge of legislative requirements and provisions relevant to area of service delivery and delegated responsibility
- Awareness of own values and attitudes and their potential impact on clients
- Understanding of specific limitations of work role, responsibility and professional abilities

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Work within the counselling framework
- Manage own values so they do not impede effective work and manage the stress of the work - key indicators of competency
- Use interpersonal and general counselling skills and knowledge to obtain relevant client information and respond appropriately, in particular to:

## REQUIRED SKILLS AND KNOWLEDGE

- establish confidence with clients through appropriate interpersonal styles and methods
- use a range of questioning and interviewing techniques to facilitate exploration of client issues
- identify and assess needs of client and client's family including consideration of the physical and emotional safety of clients and their family
- encourage users of violence to take responsibility and be accountable for their use of violence
- facilitate client's self determination by using appropriate interpersonal skills to encourage clients to set their own personal goals which enhance safety
- depending on the work program or services provided apply specific knowledge of particular groups or issues (e.g. alcohol and other drugs (AOD), same-sex relationships, religious, survivors/victims, users of violence, Aboriginal and/or Torres Strait Islander issues, mental health etc)
- accurately interpret and comply with legal and procedural requirements
- understand own work role and responsibilities in relation to service delivery

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - interpersonal relationship such as questioning and active listening (paraphrasing, clarifying, summarising) techniques, including non-judgemental and empathic approaches
  - response ranging from responding sensitively to disclosures to maintaining confidentiality in relation to people affected by domestic violence
  - assessment for a broad range of unpredictable problems involving analysis, assessment, and evaluation-for example, identifying domestic violence during professional contact with clients and their family
  - problem solving for a defined range of predictable problems, for example when the needs of client and/or client's family are identified as lying outside a worker's particular professional role the worker should offer the client accurate and current information about appropriate services and workers in other occupational groups
  - collaboration between worker, client and client's family, and between services and other providers
  - counselling which challenges violence and abuse and support the change process
  - literacy and communication in relation to analysis, evaluation and presentation of information including preparing documents and reports related to client needs and service delivery issues

## REQUIRED SKILLS AND KNOWLEDGE

### Evidence Guide

#### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Assessment of performance should be over a period of time covering all categories within the Range Statement statements that are applicable in the learning environment
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or

## EVIDENCE GUIDE

### Torres Strait Islander clients and communities

#### *Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment
- Where assessment is conducted within the workplace there are no resource implications above those normally available in the workplace
- Where assessment is conducted in a simulated or non-workplace environment then access to the necessary equipment and research resources should be provided
- Access to simulated exercises, case studies related to service delivery issues will also be required if non-workplace assessment paths are utilised

#### *Method of assessment:*

- Evidence will be determined by selection from the Range Statement, justified in terms of work requirements, work roles and responsibilities and occupational specialisations
- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment in counselling clients affected by domestic violence
  - assessment must be in the workplace, however, where there is not an opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
  - observation of processes and procedures, oral and/or written questions on Essential knowledge and skills and consideration of required attitudes

## EVIDENCE GUIDE

- where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
- review of any documentation produced by the candidate related to client needs analysis and counselling clients in relation to domestic violence

### *Related units:*

This unit should be assessed after or in conjunction with related unit:

- CHCDFV402C Manage own professional development in responding to domestic and family violence

For the purpose of integrated assessment, this unit may be assessed in conjunction with the following unit:

- CHCCS607D Coordinate the assessment and delivery of services to clients with particular needs

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *Interpersonal skills may include:*

- Means by which an emotionally safe and empathic environment is created
- Means for communicating with people with disabilities or where English is not the first language
- Methods of communicating with different age,

## RANGE STATEMENT

religious, gender and sexual identity groups

- Non-judgemental communication techniques
- Using strategies that empower client to ensure safety of client and family
- Cultural, sub-cultural awareness/sensitivity
- Demonstrating empathy
- Using appropriate body language
- Reflecting, summarising and paraphrasing
- Asking open-ended questions
- The ability to ask direct questions about violence in a sensitive and appropriate way
- Using conflict management skills if appropriate
- If needed, use of a qualified interpreter whose involvement will not jeopardise the safety of the client and/or client's family
- Recognition of client/worker power differences
- Maintaining confidentiality
- Active listening
- Techniques to challenge client's behaviour and attitudes where appropriate

*Clients may include:*

- Individuals (inclusive of children, youth, adults and the aged)
- Referred or self-referred clients
- People with specific needs seeking access to services
- Voluntary and involuntary clients
- Survivors/victims of domestic violence, their families and friends
- Users of violence and their family

*Interviews and interactions with clients may be either informal or formal and include:*

- Scheduled or impromptu
- Via telephone or in person
- Separate interviews
- Other specialist assistance
- Through a qualified interpreter whose involvement will not jeopardise the safety of the client or their family
- Those conducted in a safe environment which encourages disclosure when appropriate

## RANGE STATEMENT

*Specific needs relating to clients may include, but are not limited to those:*

- Who have a disability
- Who come from diverse cultural and sub-cultural backgrounds
- Whose preferred or first language is not english
- Who are aged or young
- Who live in a remote or rural location
- Who are in same-sex relationships
- Whose religious beliefs or practices need to be considered
- Who have addiction or dependency issues
- With a dual diagnosis
- Who are of a particular gender
- Who come from an aboriginal background
- Who come from a torres strait islander background
- Who have mental health issues

*Rights and responsibilities include those relating to:*

- Rights of safety
- Rights under common law
- Rights outlined under relevant standards/principles and charters (e.g. Un declaration on rights of the child)
- Rights under the constitution
- Rights and responsibilities under legislation (e.g. freedom of information and child protection legislation)
- Guidelines relating to parameters of confidentiality/client consent
- Worker's code of ethics
- Rights of victim to access crime compensation

*Organisation standards and procedures include those relating to:*

- Client and worker safety
- Collection and storage of information
- Client interview protocols and procedures
- Code of conduct/code of ethics
- Principles and implementation of duty of care and rights of client to self determination
- Departmental, inter-departmental regulations, protocols and procedures relevant to work role and

## RANGE STATEMENT

protect self and children from further assault or harm

- Threat or attempts to self-harm
- Feelings of depression, anger, low self-esteem, suicidal thoughts, emotional distress or sleep disturbances
- Medical problems such as overuse of tranquillisers, or alcohol, drug or substance abuse
- Intimidation and harassment
- Existing or previous orders relating to domestic violence (e.g. apprehended violence order), or breach of orders
- Avoidance of discussion regarding possible abuse
- Client being denied access to funds, resources or required medications
- Implausible explanation for injuries
- Repeated requests for financial assistance
- Other factors that may indicate a history of violence
- Children's behaviour and developmental level
- Current behaviours of user of violence
- Frequent hospital visits/admissions
- Current or previous separation
- Family court and/or relationship history
- Implied or actual threats to harm the worker by user of violence

*Goals should be realistic and attainable and may be:*

- Those set out in a case plan
- Those set out by the individual
- Related to compliance with directions/orders
- Immediate, short term, long term
- Or any combination of the above

*Services and support may be internally or externally provided and could include, but are not limited to:*

- Safety, physical and emotional security
- Assistance to gain economic support
- Protection from financial exploitation
- Immediate and appropriate responses which aim to ensure/maintain safety
- Legal or medical information and support
- Accommodation/transportation
- Access to services/information
- Counselling (individual, family or group focused)

## RANGE STATEMENT

- Referrals to specialist services
- Referrals to community support and/or education groups
- Establishment of community networks
- Domestic violence awareness raising programs
- Provision of assistance to address issues, gather information and locate other resources
- Advocacy

*Appropriate people include:*

- Organisation management, colleagues, supervisor, team members
- Acknowledged domestic violence specialists
- Various community groups representing cultural, sub-cultural, religious, social, ethnic, gender, sexual identity, and age groupings within the community
- Government representatives and service providers
- Behaviour change groups, such as user of violence groups, drug and alcohol groups
- Family members, friends, care-givers
- Support groups such as survivors/victims of violence groups, community houses, women's networks, church groups, refuges, and professional associations
- Authorities responsible for provision of community and justice administration services, for example, local councils, legal services, such as legal aid, and state and commonwealth agencies

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Work within a domestic violence framework

- 1.1 Plan *work* practices to ensure maximum consideration is given to *client* and worker safety
- 1.2 Ensure all work undertaken accords with prevention *strategies* and accepted models of intervention and demonstrates consideration and understanding of the *underpinning values and philosophies* of domestic violence work and the nature of domestic violence, including its effects, its *social, historical, political and economic context* and its place in the criminal justice system
- 1.3 In all work demonstrate commitment to assist clients to deal with their issues through enhancing skills, accessing appropriate support and working with others in the *community* who share client's issues and concerns
- 1.4 In all work demonstrate understanding of the *rights and responsibilities* of the individual, the family, the community, and society and the worker's limitations, strengths and professional boundaries
- 1.5 In all work demonstrate consideration of the *interrelationship of issues* affecting clients in a domestic violence context

2. Model high standards of performance

- 2.1 Use own performance as a positive role model for others within the occupational group and the community as a whole
- 2.2 Acknowledge personal and professional values and attitudes regarding domestic violence and how they impact/conflict in practice, when planning and implementing work activities
- 2.3 In all work demonstrate respect and understanding

## ELEMENT

## PERFORMANCE CRITERIA

of individual differences and work processes are adapted as appropriate to meet the cultural, linguistic and any specific needs of the client

2.4 Use *organisation* and *professional standards, procedures* and values in providing services to clients affected by domestic violence and reflect community needs

2.5 Recognise and report breaches of organisation codes of ethics/and or practices in accordance with *professional and organisation standards and procedures*

### 3. Develop and maintain professional competence

3.1 Assess personal knowledge and skills in the domestic violence area against occupational *units of competency* and other relevant standards to determine development needs and priorities

3.2 Regularly use *self assessment and reflection* on practice to monitor *own performance* against established *personal performance standards* and to identify strengths and weaknesses

3.3 Use feedback from clients, their family and colleagues to identify and develop ways to improve competence in responding to domestic violence

3.4 Identify *personal development strategies* to recognise and respond effectively to domestic violence, and plan and implement to maintain currency of professional competency

3.5 Identify, acquire and apply new developments and trends in responding to domestic violence, and the associated skills and knowledge

3.6 Participate in *support processes* to obtain professional feedback and to monitor occupational health and stress

3.7 Use networking to identify and build relationships with associated and relevant individuals and organisations

3.8 *Participate in professional networks and associations* to obtain and maintain personal knowledge and *networks*

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Knowledge of the social, historical, political and economic context of domestic violence, including types and nature of domestic violence, its effects, power and gender issues, child abuse and associated criminal issues
- Understanding of the prevalence of myths, unhelpful beliefs, attitudes and practices in the broader society regarding domestic violence and their effects on individuals' rights to safety and autonomy
- An understanding of current organisation and professional procedures, practices, and social, ethical and business standards
- Knowledge of relevant debriefing and support processes
- An understanding of how to interpret units of competency and apply them to self, including identifying and prioritising personal learning needs
- An understanding of how to develop and maintain professional networks
- Knowledge of the principles and techniques of goal setting, measuring performance and time management
- Knowledge of self assessment and reflective strategies to assist in determining personal development needs, including preparing personal plans and establishing priorities
- Knowledge of respectful strategies that will assist in client self-determination to ensure safety of client and family
- Knowledge of legislative requirements and provisions relevant to area of service delivery and delegated responsibility
- Awareness of own values and attitudes and their potential impact on clients
- An understanding of specific limitations of work role, responsibility and professional abilities

#### *Essential skills:*

## REQUIRED SKILLS AND KNOWLEDGE

It is critical that the candidate demonstrate the ability to:

- Manage own performance and take responsibility for professional development in relation to domestic violence, in particular to:
  - consider the physical and emotional safety of clients, their family, worker and colleagues
  - display a positive role model to others
  - adapt work processes to meet the specific needs of the community, client or colleagues as required
  - monitor own performance and identify any personal development needs
  - identify ways to improve performance through seeking feedback from clients and colleagues
  - acknowledge personal values when responding to domestic violence
  - access learning opportunities to extend own personal work competencies to improve service delivery in domestic violence
  - develop and expand professional networks and participate in positive relationship building to further enhance skills and knowledge
  - interpret accurately and comply with legal and procedural requirements
  - understand their own work role and responsibilities in relation to domestic violence issues
  - select and use available technology appropriate to the task

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - networking to enable positive participation in professional associations and networks to enhance knowledge within a domestic violence framework
  - questioning and active listening to establish confidence and facilitate accurate and relevant exchange of information
  - liaison, for example, ability to liaise with people from a range of social, cultural, sub-cultural, religious and ethnic backgrounds in individual or group contexts
  - planning and organising for determining goals and strategies
  - researching and evaluating to acquire and assess information, for example-to prepare personal plans and establish priorities
  - collaboration between worker and client, between worker and colleagues and between services and other providers
  - problem solving for a defined range of predictable problems, for example when client needs are identified as lying outside a worker's particular professional role the worker should offer the client accurate and current information about appropriate services

## REQUIRED SKILLS AND KNOWLEDGE

and workers in other occupational groups

- literacy and communication in relation to analysis and evaluation of feedback, and presentation of information

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Assessment of performance should be over a period of time covering all categories within the Range Statement statements that are applicable in the learning environment  
This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people

## EVIDENCE GUIDE

- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
- Context of and specific resources for assessment:*
- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
  - Resources required for assessment of this unit include access to:
    - an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment
  - Where assessment is conducted within the workplace there are no resource implications above those normally available in the workplace
  - Where assessment is conducted in a simulated or non-workplace environment then access to the necessary equipment and research resources should be provided
  - Access to simulated exercises, case studies related to service delivery issues will also be required if non-workplace assessment paths are utilised
- Method of assessment:*
- Evidence will be determined by selection from the Range Statement, justified in terms of work requirements, work roles and responsibilities and occupational specialisations
  - Evidence for assessment of competence may be gathered by appropriate combination of the following:
    - demonstration of competency within the working environment to manage professional development in responding to domestic violence
    - assessment must be in the workplace, however, where there is not an opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios

## EVIDENCE GUIDE

- observation of processes and procedures, oral and/or written questions on Essential knowledge and skills and consideration of required attitudes
- where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
- review of any documentation produced by the candidate related to identifying and responding to domestic violence

### *Related units:*

For the purpose of integrated assessment, this unit may be assessed in conjunction with the following unit:

- CHCDFV301A Recognise and respond to domestic and family violence

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *Work may relate to:*

- Specific groups, issues or communities e.g. Health issues of young people from particular cultural, religious, sub-cultural backgrounds and/or geographical areas
- Monitoring, evaluation and research activities
- Policy development
- Primary intervention and assessment
- Advocacy

## RANGE STATEMENT

- Individual casework
- Community development
- Referrals
- Child protection work
- Provision of information/materials
- Service development towards systems change
- Project development and implementation

*Client may include:*

- Individuals (inclusive of children, youth, adults and the aged)
- Referred or self-referred clients
- Voluntary and involuntary clients
- People with specific needs seeking access to services
- Survivors/victims of domestic violence, their families and friends
- Users of violence and their family
- Other organisations/service providers
- Communities

*Underpinning values and philosophies in responding to domestic and family violence include:*

- The safety and well being of those subjected to domestic violence must be the first priority of any response
- All individuals have the right to be free from violence
- The community has a responsibility to work toward the prevention of domestic violence and to demonstrate the unacceptability of all forms of domestic violence
- All forms of domestic violence are unacceptable in any group, culture or creed
- Those who use violence should take responsibility for their behaviour and have access to programs to assist them change their behaviour to ensure the safety of their family
- A commitment to meeting the needs and upholding the rights of clients
- A commitment to empowering those affected by domestic violence
- Domestic violence is widespread and complex
- Domestic violence impacts on the physical, emotional, social, and financial well being and safety of individuals in families

## RANGE STATEMENT

- Domestic violence and abuse has devastating effects on family members and results in significant social and economic costs to the community
  - Domestic violence is an abuse of power perpetrated mainly (but not only) by men against women both in a relationship and after separation
- Social, historical, political and economic context:*
- Statutory framework within which work takes place
  - Historical context of work e.g. changing attitudes to domestic violence; changing approaches to working with people affected by domestic violence
  - Changing social context of work e.g. previous, current and changing government and societal views of domestic violence and approaches to working with clients
  - Political context e.g. government policies and initiatives affecting domestic violence work
  - Economic context e.g. the current economic situation as it relates to and affects domestic violence and the subsequent impact on client needs and the effects of economic deprivation and control on clients attempting to escape domestic violence
- Community may relate to a specific location, language/ cultural or social structure and include:*
- Individuals and groups defined by the organisation's programs and services
  - Other agencies providing services to individuals and groups
  - People with specific needs and interests
  - Organisation management, colleagues, supervisor, team members
  - Survivors/victims of domestic violence, their families and friends
  - Funding bodies
  - Professional networks and associations
  - Government representatives and service providers
  - Policy and decision-makers in the specific community
  - Groups representing cultural, sub-cultural, religious, social, ethnic, sexual, gender, and age issues in the community

## RANGE STATEMENT

*Rights and responsibilities may include:*

- Rights of safety
- Rights under common law
- Rights outlined under relevant standards/principles and charters (e.g. UN Declaration on Rights of the Child)
- Rights under the Constitution
- Rights and responsibilities under legislation (e.g. freedom of information and child protection legislation)
- Guidelines relating to parameters of confidentiality/client consent
- Worker's code of ethics

*Interrelationship of issues when responding to domestic violence may relate to clients with specific needs such as:*

- Disability issues
- Cultural diversity issues
- Language issues, such as when English is not the first language
- Issues for the aged or young
- Isolation issues, such as those from remote or rural locations
- Sexual identity issues
- Gender issues
- When religious beliefs, practices or values need to be considered
- Addiction or dependency issues
- Mental health issues
- Criminal history
- Literacy issues
- Those at risk of self-harm
- Economic/transport or accommodation issues

*Own performance may be monitored against established personal and organisation performance requirements and may include processes such as:*

- Formal/informal organisation initiated performance appraisals
- Obtaining feedback from supervisors, subordinates and colleagues
- Obtaining feedback from clients, human resource development personnel, family and other relevant community members etc.
- Monitoring of supervised staff, colleagues and/or team staff morale

## RANGE STATEMENT

- Personal reflective behaviour strategies/ methodologies
- Other strategies which facilitate the identification of personal strengths/weaknesses/issues to be addressed
- Routine organisation methods for monitoring service delivery

*Organisation and professional standards and procedures may include those relating to:*

- Client and worker safety
- Organisation mission statement and/or philosophy
- Routine organisation methods for monitoring service delivery
- Collection and storage of information
- Client interview protocols and procedures
- Code of conduct/code of ethics
- principles and implementation of duty of care and rights of client to self determination
- Departmental, inter-departmental regulations, protocols and procedures relevant to work role and responsibilities
- Industry standards
- Inter-agency practice and protocols
- Use of interpreter and interpreter services
- Eligibility criteria for accessing particular services
- Completion of forms and applications
- Debriefing and supervision
- Industry standards
- Guidelines relating to parameters of confidentiality/client consent
- Occupational health and safety

*Units of competency are standards which measure:*

- All those personal and technical knowledge, skills and attitudinal aspects (competencies) required to effectively and efficiently undertake the day to day tasks and duties of the practitioner's work function

*Self assessment and reflection requires practitioners to regularly review their own performance against required and established professional*

- Professional bodies' competencies and codes of practice/ethics
- Organisation HRD policies and procedures
- Occupational or functional roles/units of competency
- Professional accreditation and re-accreditation

## RANGE STATEMENT

*performance requirements*

requirements

*Such performance requirements may be documented through:*

*Personal development strategies may include development/implementation of a personal/professional improvement program, either internal or external to the organisation including such things as:*

- Development of improved interpersonal/technical skills
- Updating stress management abilities
- Adapting work rotation to facilitate changing personal/work priorities
- Formal/informal learning programs
- Utilisation of existing strengths to focus future career development
- Cultural, sub-cultural awareness/sensitivity
- Involvement in community activities
- Coaching, mentoring and/or supervision
- Counselling
- Updating/maintaining knowledge base on domestic/family violence issues and current context for work/professional practice
- Establishment of new career paths

*Support processes will need to include at least one of the following:*

- Counselling
- Performance feedback
- Debriefing
- Training and development
- Supervision

*Networks may be formal or informal and include:*

- Regional, specialist and peak associations
- Professional/occupation associations
- Trainers, teachers and academics
- Contacts in policy and funding bodies
- Local inter-agency networks
- Interest and support groups
- Other workers

*Participate in professional networks and associations may*

- Learning about the role, services and resources of other organisations
- Learning about the roles and resources of other

## RANGE STATEMENT

*include purposes such as:*

workers

- Providing advice and information about own service and organisations
- Peer support and review
- Professional development
- Maintaining coordination among organisations and workers
- Supporting joint programs or activities
- Providing information for policy development
- Supporting the interests of specific groups within the community

*Personal performance standards relates to:*

- The practitioner's level of competency
- Professional ethics
- Integrity and behaviour
- Regulations
- Code of ethics/practice
- Organisation/agency procedures
- Community standards

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Provide a lead in case management practice

- 1.1 Implement appropriate strategies to ensure currency with accepted best practice and relevant legislation
- 1.2 Where appropriate, provide practice advice and direction consistent with organisation service and professional standards
- 1.3 Challenge and support worker to ensure casework plans and actions are based on organisation procedures, practices and legislative requirements
- 1.4 Implement strategies to ensure worker has ready access to casework consultation with other workers to maximise their effectiveness
- 1.5 Access and apply specialist practice knowledge in the workplace and provide coaching and mentoring to staff to optimise competent practice
- 1.6 Advise worker on the full range of legislative provisions relevant to case management, and worker and organisation responsibilities

2. Provide practice advice on complex cases

- 2.1 Thoroughly analyse and assess case management plans and feedback on their implementation and provide expert advice on options for actions and further development
- 2.2 Provide workers with information on organisation processes for collecting information from key stakeholders to ensure more effective operation
- 2.3 Routinely provided workers with information about relevant legislation and any changes in organisation practices and procedures to promote consistency and

**ELEMENT****PERFORMANCE CRITERIA**

quality in practice

2.4 Routinely monitor progress on case plan and make changes as required to enable improved service delivery

2.5 Implement strategies to ensure appropriate stakeholders are consulted about specialist information and options for future action

## **Required Skills and Knowledge**

### **REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Theory and practice of case management
- Provisions of all relevant legislation and statutory requirements
- Practice model of supervision
- Codes of practice/ethics
- Own value base and belief system

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Research current trends in case management
- Analyse and evaluate practices
- Plan for practice improvement

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of

## REQUIRED SKILLS AND KNOWLEDGE

the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - role modelling
  - mentoring
  - facilitation of feedback
  - team management
  - high level report writing and documentation
  - research and analysis
  - effective use of relevant information technology in line with work health and safety (WHS) guidelines

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit of competence will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Assessment is recommended to be conducted on one or more occasion and should reflect a range of information and advice that is disseminated

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers

## EVIDENCE GUIDE

should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people

- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to:
  - an appropriate workplace where assessment can take place or simulation of realistic workplace setting

*Method of assessment:*

- Assessment may include observation, questioning and evidence gathered from the workplace environment, including testimonials from colleagues, portfolios etc

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*The contexts for facilitation of ongoing case management practice include:*

- Professional development and training programs
- Practice reviews and audits

*Facilitation of ongoing case*

- Organisation policy and procedures

**RANGE STATEMENT**

*management practice will be carried out within requirements established by:*

- Relevant program standards
- Service and professional standards, including code of professional ethics or code of practice

Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Conduct case management meetings

1.1 Facilitate information sharing with the client by establishing an appropriate rapport with the client and implementing appropriate procedures including:

- establish purpose, objectives and agenda of the meeting
- facilitate discussion
- resolve conflict where relevant
- identify, negotiate and record outcomes

1.2 Identify and agree boundaries and processes within service delivery, including:

- rights, roles, responsibilities, decision-making processes, accountability and outcomes
- ways of addressing experience, skills, values and development of participant
- impact of statutory mandates on interventions, the client and significant others
- the impact of value systems of worker, client and key stakeholders on outcomes
- information sharing and planning
- appropriate conflict resolution techniques to be employed

1.3 Define and explore individual family and community needs and rights, and organisation responsibilities to assure the rights are protected for all concerned

#### 2. Develop an appropriate approach to case management

2.1 Develop and utilise case management processes appropriate to implementing statutory requirements

2.2 Implement appropriate processes to facilitate client setting of goals and participation in case management processes

2.3 Integrate appropriate cultural considerations into all aspects of case management planning

**ELEMENT****PERFORMANCE CRITERIA**

- 2.4 Provide information on rights of appeal and avenues of complaint so client understands their rights
3. Develop an appropriate case management plan
- 3.1 Develop a case management plan to reflect initial assessment of needs
- 3.2 Identify the full range of appropriate immediate, short and long term needs of the client and other relevant parties
- 3.3 Develop action plans to reflect:
- integration of expertise of relevant stakeholders and other service deliverers
  - negotiated and agreed goals and operational processes
  - a range of strategies to address each goal and to maximise participation in plan
  - appropriate resource allocation
  - agreed responsibility for delivery
  - realistic and agreed indicators of success
  - rights and responsibilities of client
- 3.4 Establish processes for monitoring and changing case plan
- 3.5 Identify strategies to deal with *complex or high risk situations*
- 3.6 Match requirements of case plan to experience, workload and geographical location of worker
- 3.7 Focus plan on assisting clients to set and achieve realistic targets for change or action and to take personal responsibility
4. Manage case work activities and processes
- 4.1 Implement strategies to continually monitor the effectiveness of case management processes against agreed goals, relevant services and programs, client and stakeholder satisfaction
- 4.2 Assess the need for changes in case plan, including the need for ongoing intervention, and develop strategies for alternatives as appropriate
- 4.3 Successfully negotiate with relevant parties, any

**ELEMENT****PERFORMANCE CRITERIA**

proposed changes arising from case review

4.4 Utilise processes for case closure as appropriate, to comply with organisation procedures

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Behaviour change models and practices
- Organisation procedures and standards
- Formal meeting processes
- Relevant policy, procedures, legislation and statutory mandates
- Cultural protocols and systems
- Family structure, dynamics, communication and decision-making
- Relevant documentation protocols
- Range of available services

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Access and use a range of family and community resources
- Identify and gain agreement on role boundaries
- Facilitate groups and support participants to engage in information sharing and planning
- Apply organisation statutory and legislative requirements

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of

## REQUIRED SKILLS AND KNOWLEDGE

the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - Planning, decision-making and goal setting
  - Managing group dynamics
  - Conflict resolution, negotiation and (where required) mediation techniques
  - Defining boundaries
  - Planning and goal setting
  - Facilitation
  - Assertion
  - High level writing skills
  - Interpersonal and communication
  - Supervision and delegation where appropriate to job role

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit of competence will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Assessment may be conducted over one or more occasions and should include all aspects of case planning with a range of clients

*Access and equity considerations:* • All workers in community services should be aware

## EVIDENCE GUIDE

of access, equity and human rights issues in relation to their own area of work

- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to:
  - an appropriate workplace where assessment can take place or simulation of realistic workplace setting

*Method of assessment:*

- Assessment may include observation, questioning and evidence gathered from the workplace environment

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

## RANGE STATEMENT

*The contexts for facilitation of information sharing and planning include:*

- All formal processes included in case management e.g. case conferences, case review meetings, formal briefings on client progress

*Evaluating ongoing implementation includes:*

- Monitoring case plan implementation
- Facilitating review activities and feedback from workers on progress of intervention
- Liaison with service providers, clients, significant others
- Advising on how case plans can be modified, ensuring that changes are communicated appropriately

*Complex or high risk situations are to be defined as:*

- Life threatening/high risk situations
- Cases where at least three of the following factors are combined:
  - serious/sustained abuse
  - multiple difficulties present in family
  - intellectual or psychiatric disability
  - chronic and serious drug addiction affecting individuals capacity
- Where a wide range of other agencies are involved, e.g. community services, legal, medical and police agencies
- Where involvement of protective and custodial agencies with the family has been over a lengthy and sustained period
- When age of the client creates special considerations
- Cases with high public/political sensitivity requiring sensitive and experienced case investigation and management

*Negotiate actions includes:*

- Gaining agreement on course of actions, goal setting, milestone setting and agreement, timeline setting, establishment of review points in case plan

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Manage service delivery to address client needs

- 1.1 Ensure appropriate and accurate records of client needs and service delivery options are developed and maintained
- 1.2 Identify barriers to *client services* in consultation with *clients*
- 1.3 Apply understanding of relevant options for service delivery to match services to client's needs and rights
- 1.4 Take all available opportunities to promote client services and their benefits
- 1.5 Ensure the strategic direction of the organisation, individual and community needs and external requirements guide the provision of client services
- 1.6 Develop and implement performance indicators to routinely monitor client service delivery

#### 2. Plan client service delivery

- 2.1 Ensure service delivery planning includes client involvement in negotiation and agreement on appropriate goals, strategies and outcomes
- 2.2 Identify strategies to deal with contingencies which may arise
- 2.3 Identify relevant people and organisations to provide support and expertise to maximise effectiveness of service delivery
- 2.4 Routinely collect and analyse information on clients and delivery options to ensure services delivered reflect client needs and rights, current best practice, organisation and legislative guidelines, ethical practices and duty of care considerations

**ELEMENT****PERFORMANCE CRITERIA****3. Review client services**

- 3.1 Routinely review matching between client requirements and service delivery
- 3.2 Involve client and all other relevant personnel in review of service delivery
- 3.3 Monitor changes in circumstances, environmental factors or alterations to client needs and rights and incorporate in review of service delivery
- 3.4 Modify client service to reflect changing needs and rights and feedback on effectiveness of service delivery
- 3.5 Undertake appropriate work to ensure client concerns about service are resolved and complaints of a serious nature dealt with in accordance with organisation procedures

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Design and development of client services
- Legislative and statutory frameworks influencing provision of client services
- Current development in effective client service delivery
- Marketing and promotion techniques
- Evaluation and review
- Strategic planning and organisation development

## REQUIRED SKILLS AND KNOWLEDGE

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Establish and maintain a network of clients
- Incorporate the requirements of specific groups in all client service work
- Meet quality service standards

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Communicate effectively with both staff and clients
- Effectively coordinate resources in a complex environment
- Manage a team effectively
- Manage contingencies
- Use computer and software technology , as required by the workplace

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

#### *Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace setting under the normal range of workplace conditions
- Assessment should include assessment of all aspects of delivery of a quality client service and with a range of new or existing clients

#### *Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Social structures and systems in the community
- Complex cultural awareness
- Components of strategic planning
- Decision-making systems and leadership
- Community development principles relevant to social action and public processes
- Current social policy and its implementation programs
- Depending on the work role or services provided, specific knowledge of particular groups or issues may be required, including alcohol and other drugs (AOD):
  - cultural and linguistic diversity
  - risk of self-harm
  - women
  - men
  - community education
  - Aboriginal and Torres Strait Islander people
  - mental health

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Support communities to identify their rights and represent their own needs through social and public action
- Motivate individuals and groups to work cooperatively

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

## REQUIRED SKILLS AND KNOWLEDGE

- Demonstrate application of skills in:
  - applying evaluation methods
  - applying research methods
  - marketing and promotion
  - negotiation
  - effective use of relevant information technology in line with work health and safety (WHS) guidelines

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit can be assessed in the workplace, in the community or in relevant simulations
- Consistency in performance should consider specific needs of the community and how community action can support these needs

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

## EVIDENCE GUIDE

### *Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to a workplace or community or an appropriately simulated environment

### *Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *Actions for the support of community needs may include:*

- Strategies to change, promote or protect existing social structures, services, resources
- Initiatives by the community and undertaken by the community and/or agencies

**RANGE STATEMENT**

- Initiatives undertaken by the organisation and supported by the community and/or agencies
- Routinely planned and specific/occasional actions
- General and specially targeted
- Social action
- Promotion

*Mechanisms may include:*

- Structures
- Processes/protocol
- Consultation, participation , accountability
- Review, evaluation
- Existing and specially created
- Community development strategies

*Resources may include:*

- Those of the organisation
- Those acquired from other agencies
- System support/administration/policy
- Material/financial/facilities/equipment
- Developmental/information/training
- Information technology

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Assess community resource requirements

- 1.1 Identify resource requirements through consultation with networks and *key people and organisations*
- 1.2 Research existing available *community resources* and assess their capacity to meet needs of the group
- 1.3 Develop *strategies to address gaps in available resources*

#### 2. Develop and acquire resources

- 2.1 Develop strategies for the provision of resources to assist in meeting organisation objectives within funding considerations
- 2.2 Develop resources in consultation with key people
- 2.3 Follow all relevant processes and procedures to ensure endorsement and guarantee implementation

#### 3. Facilitate community access to resources

- 3.1 Publicise availability of resources to target group, *key people and organisations* to encourage participation in activities
- 3.2 Make resources available to all users as required in accordance with organisation procedures
- 3.3 Review resources regularly to ensure usefulness and currency

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

It is critical that the candidate demonstrate knowledge of:

- A range of systems that can be used to obtain, store and record information
- A range of resource media
- Resourcing policies and procedures
- Key people and organisations

The candidate must be also able to demonstrate relevant knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role, such as knowledge of:

- Depending on the work role or services provided, specific knowledge of particular groups or issues may be required, including alcohol and other drugs
  - cultural and linguistic diversity
  - risk of self-harm
  - women
  - men
  - community education
  - Aboriginal and Torres Strait Islander people
  - mental health

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Identify community needs and match a range of appropriate resources to meet those needs
- Demonstrate capacity to operate within specific communities or across a number of groups

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

## REQUIRED SKILLS AND KNOWLEDGE

These include the ability to:

- Design and prepare materials including relevant information technology
- Demonstrate application of skills in:
  - basic project management
  - networking
  - information management in line with work health and safety (WHS) requirements
  - information presentation
  - maintaining documentation as required

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit should be assessed on the job or through simulation
- Consistency in performance may be based on evidence from previous demonstration of competency, however assessors should consider particular community resource development needs if assessment occurs in the workplace

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait

## EVIDENCE GUIDE

Islander people

- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to an appropriate workplace or community or accurately simulated environment

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

## RANGE STATEMENT

*Key people and organisations may include:*

- Government and non government organisations
- The service's networks
- Staff
- Committee of management
- Specialist organisations

*Sources for addressing resource gaps may include:*

- External grants
- Commercial fund raising
- Internal allocations
- Other services/agencies
- Donations
- Exchanges
- Sharing

*Strategies to address gaps in available resources may include:*

- Grant submissions
- Commercial enterprise
- Fee for service
- Internal reallocation
- Internal cross subsidies
- Sponsorship/donations
- Exchanges/sharing/pooling

*Community resources may include:*

- Information
- Education
- Databases
- Library (paper based or electronic)
- Finances
- Equipment and materials
- Skills and expertise
- Capital assets
- Technology

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Work with individuals and the community to promote participation

- 1.1 Undertake work to identify key community issues to be addressed
- 1.2 Undertake planning to address community issues to ensure:
  - appropriate policies and *strategies* are developed
  - adequate resourcing is identified
  - *key people* are consulted
  - identified needs are addressed
- 1.3 Ensure processes are forward looking and proactive
- 1.4 Use appropriate interpersonal and networking skills to enlist support from *key people* and groups
- 1.5 Provide *opportunities* for community input to planning provision of services
- 1.6 Guarantee community input and participation in services

2. Support existing community activities

- 2.1 Undertake appropriate review of the relevance of existing community activities, based on changing community needs
- 2.2 Provide relevant support and assistance to existing community activities to obtain additional resources required for effective operation
- 2.3 Provide support to community groups to monitor and evaluate processes, progress and outcomes of

**ELEMENT****PERFORMANCE CRITERIA**

activities

2.4 Provide appropriate support to community groups to become self managing in the implementation of plans

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Community development methods and their principles and practices
- Funding sources and their policies and strategies for encouraging community input and participation
- budget and funding allocation
- Local, state and federal strategies/legislation

Health promotion (as per Ottawa Charter for Health Promotion (1986), the Jakarta Declaration on Leading Health Promotion into the 21st Century (1997) and the Bangkok Charter for Health Promotion in a Globalized World (2005))

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate the capacity to undertake a range of activities to ensure appropriate participation by groups and individuals in community based activities

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

## REQUIRED SKILLS AND KNOWLEDGE

- Work with key people or stakeholders in the community
- Demonstrate application of skills in:
  - research relating to the community
  - policy development
  - report writing, including effective use of relevant information technology in line with work health and safety (WHS) guidelines
  - evaluating effectiveness of community based activities
  - budgeting
  - negotiation, liaison, networking
  - marketing
  - facilitation

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be assessed in the workplace or in a simulated workplace under the normal range of workplace conditions

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account

## EVIDENCE GUIDE

relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to appropriate structures, people or organisations for assessment of ability to work with key people or stakeholders in the community

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

## RANGE STATEMENT

*Working with the community may include activities associated with:*

- Health promotion
- Community service delivery
- Community projects
- Community development
- Community action
- Community planning
- Consultative and planning committees
- Sector development structures

*Opportunities for community members and groups to participate may include:*

- Systems within and outside the organisation
- Activities at program, operative and management levels
- Formal and informal systems
- Focus groups on relevant issues
- Inviting community participation on organisation committees e.g. quality assurance committees, ethics committees
- Through publications
- Group facilitation
- Peer education/training
- Seminars and workshops

*Key people may include:*

- Advocacy groups
- Policy and decision-makers in the specific community
- Individuals, groups or communities most likely to be affected by strategies or action plans
- Community leaders
- People with formal and informal representative roles

*Strategies which the worker may develop may include:*

- Development of new business, employment opportunities for individuals
- Establishment of advocacy groups
- Health promotion activities
- Development of community facilities
- Strategies to increase access to facilities, services or decision-making
- Providing direction, advice and information

**RANGE STATEMENT**

*Information and resources may include:*

- Equipment
- Staff skills and time
- Provision of facilities
- Educational materials
- Funding
- Skills/administrative support
- Physical, transport, venues, material, equipment
- Developmental training
- Financial

**Unit Sector(s)**

Not Applicable

# CHCMH501A Provide advanced supports to facilitate recovery

## Modification History

Not Applicable

## Unit Descriptor

### Descriptor

This unit describes the knowledge and skills required to provide advanced support strategies for people with mental illness and psychiatric disabilities

Advanced supports involve analysis within a mental health diagnostic framework and the planning and implementation of psychosocial rehabilitation for specific client outcomes

## Application of the Unit

### Application

This unit applies to work with mental health consumers in a range of community services work contexts

This work provides a person-centred approach to care, involving a variety of health and community service professionals working collaboratively with the client, carers and family members

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Determine support and service requirements

- 1.1 Determine the possible complexities of client's and carer's needs based on an analysis within a mental health diagnostic framework
- 1.2 Determine most appropriate assessment strategies based on client information, client and carer context and mental health diagnostic framework
- 1.3 Determine most appropriate *assessment strategies* to best capture complexities of *client* and carer issues due to issues other than mental health
- 1.4 Confirm the appropriateness, validity and strength of the assessment relative to needs of client and carer
- 1.5 Gather resources required to complete the assessment
- 1.6 Determine availability of client and carer according to organisation protocols
- 1.7 Determine availability of appropriate space, if required
- 1.8 Conduct the assessment in accordance with client and carer pace and intensity requirements

2. Prepare for support and service requirements

- 2.1 Review possible complexities of client and carer needs based on an analysis within *a mental health*

**ELEMENT****PERFORMANCE CRITERIA**

*diagnostic framework*, and with reference to assessment information

2.2 Review complexities of client and carer needs within a context of the recovery process

2.3 Review literature on best practice that is relevant to the client and carer

2.4 Determine most appropriate support and service strategies based on client assessment and research information

2.5 Identify possible interaction effects when multiple interventions are involved

2.6 Determine appropriate outcomes and outcome indicators for specific interventions

2.7 Determine risks associated with planned intervention and take appropriate action

2.8 Gather resources to provide support, in line with client's needs and recovery plan specifications

3. Conduct supports and other service delivery

3.1 Confirm the client and carer understanding of the support to be provided and desired outcomes

3.2 Obtain informed consent from client before commencing support activities

3.3 Clarify any misunderstanding or confusion experienced by client and/or carer

3.4 Work with client and carer to develop a support plan in the context of recovery

3.5 Work with client and carer to determine appropriate roles of client, carer, worker and others in the intervention

3.6 Monitor participation of client, carer (and others) against progress toward desired outcome/s

3.7 Identify and note any difficulties experienced by client and/or carer completing support activity requirements

3.8 Work with client and carer to adjust support strategy and/or revise outcomes

3.9 Identify and manage compliance issues, including subjective and objective reporting of client's response to

**ELEMENT****PERFORMANCE CRITERIA**

the intervention

3.10 Seek assistance when the client presents with needs or signs outside limits of own authority, skills and/or knowledge

4. Recognise and deal with trauma

4.1 Identify indicators of trauma for client and/or carer

4.2 Identify own service capacity to meet client and/or carer trauma issues

4.3 Identify impact of trauma on client's mental health issues

4.4 Apply accepted procedures to evaluate the options of bringing in specialist support and/or appropriate referral

5. Evaluate effectiveness of services provided and adjust as required

5.1 Work collaboratively with client and carer to determine and measure outcomes of support and/or services provided in the context of goals identified in the recovery plan

5.2 Identify specific strengths of service provided and determine their relevance in the context of ongoing recovery

5.3 Identify and discuss with client and carer any new or ongoing difficulties and concerns where change or enhancement of supports and services are required for continued recovery

5.4 Identify and negotiate with client and carer potential changes to recovery goals, services to be provided and/or referral options as a basis for continued recovery

5.5 Adjust recovery plan and service delivery to strengthen achievements and support and promote ongoing recovery

6. Report and document information

6.1 Document information about service delivery, outcomes, issues and revisions according to the organisation's protocols

**ELEMENT****PERFORMANCE CRITERIA**

|                                |     |                                                                                                                                        |
|--------------------------------|-----|----------------------------------------------------------------------------------------------------------------------------------------|
|                                | 6.2 | Observe privacy and confidentiality requirements when reporting interventions                                                          |
|                                | 6.3 | Use appropriate terminology to document consumer response, outcomes and identified problems related to the intervention                |
| 7. Maintain safety in practice | 7.1 | Use conflict resolution and negotiation as appropriate                                                                                 |
|                                | 7.2 | Take appropriate action to ensure safety of self, client and others                                                                    |
|                                | 7.3 | Acknowledge limits of own abilities and make referrals as appropriate in accordance with organisation policies and available resources |
|                                | 7.4 | Seek emergency assistance as required                                                                                                  |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- A range of support strategies including:
  - motivational interviewing
  - solution focused interviewing
  - participation
  - stigma response management

## REQUIRED SKILLS AND KNOWLEDGE

- time management
- Assessment strategies to identify complex client needs
- Application of a mental health diagnostic framework
- Application in the mental health context of:
  - continuous quality improvement
  - evidence-based practice
  - values based practice
  - outcome measurement
- Recovery in the context of multiple and at times competing needs
- The possible tensions between appropriate supports and client wants and choices
- Types of assessment, including:
  - domain based assessment
  - norm based assessment
  - competency based assessment
  - stories
- Possible impact of assessment and support strategies on the client

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Engage the client and carer in assessment and identification of support requirements
- Analyse available information and observations to identify complex and possibly competing needs as a basis for determination of support and service delivery requirements and options to support identified recovery goals and processes
- Effectively apply and promote evidence-based practice and values based practice
- Communicate effectively with client, carer and relevant others to facilitate assessment and ongoing support and service delivery
- Monitor service delivery, client and carer participation and progress toward identified recovery goals and make appropriate adjustments to strategies, goals and services in consultation with client and relevant personal and professional stakeholders
- Recognise and respond appropriately to indicators of trauma
- Work with client to evaluate effectiveness of services provided in the context of ongoing recovery and negotiate and make appropriate adjustments to recovery goals and strategies for support service delivery
- Use appropriate strategies and techniques to maintain safety in mental health practice

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed on the job or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider the requirements of the particular workplace context

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to a workplace or simulated workplace where assessment may occur

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous

## EVIDENCE GUIDE

relevant experience or oral questioning on 'What if?' scenarios

- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Assessment strategies may include:*

- Domain based assessment
- Norm based assessment
- Competency based assessment
- Stories

*Client includes:*

- Person with a mental illness and psychiatric disability

*Mental health diagnostic framework may include but is not limited to:*

- Identifiable pain - physical or emotional
- Impact of emotional problems on role in work or family contexts
- Impact of health problems on physical activity
- Impact of health problems on role in work or family

**RANGE STATEMENT**

contexts

- Impact of physical or emotional problems on social activity
- Level of energy - fatigue problems
- Level of psychological well being or distress
- Perception of own state of well being / health

competency.

Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Provide high quality case work

1.1 Make available to the client appropriate strategies and activities to facilitate achievement of agreed goals and to maximise outcomes within statutory, legislative and organisation requirements

1.2 Identify and effectively communicate the rights and responsibilities of clients to them

1.3 Employ appropriate processes to optimise outcomes when working with groups

1.4 Implement appropriate strategies to continually monitor the effectiveness of approaches in achieving agreed goals, enabling client access to relevant services and programs and meeting client and stakeholder needs

1.5 Negotiate any proposed changes with clients and other relevant parties

1.6 Respond appropriately to potential and actual difficulties and crises including:

- identifying a range of relevant strategies
- engaging behaviour consistent with organisation standards
- accessing relevant emergency services as required
- providing appropriate debriefing to relevant parties

1.7 Implement appropriate mechanisms to assess the need to change case plans and strategies

1.8 Where decisions are made to implement case closure, employ procedures consistent with organisation procedures

#### 2. Enlist specialist services

2.1 Assess the need for specialist services, considering:

- severity of client needs
- agreed goals and planned outcomes

**ELEMENT****PERFORMANCE CRITERIA**

- resources
- the degree of community and family support
- the workers skills and work capacity

2.2 Where referrals are made to specialist services, implement processes to ensure progress will be monitored

## 3. Establish transition processes

3.1 Negotiate with relevant people, the need for ongoing resources, services and support

3.2 Make arrangements with relevant parties for participation in programs and other support activities

3.3 Negotiate appropriate levels of ongoing contact with client and significant others to ensure needs continue to be met once intensive work is completed

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Professional service provision codes of conduct, ethical codes, referral protocols
- Group dynamics models/practices
- Range of services available
- Organisation procedures and program standards
- Indicators of pathology i.e. Substance use, mental health
- Cultural protocols, taboos and language systems

## REQUIRED SKILLS AND KNOWLEDGE

- Facilitation model/practices
- Statutory mandate and responsibilities
- Behaviour change models/practices
- Central ideas and frameworks for understanding love, sex and intimacy in relationships
- Different areas and levels of well being such as psychological, physiological, social, economic and spiritual.
- Theoretical developmental approaches to human development and understanding of life stages and physical, emotional, social, cognitive characteristics of human development
- Human lifespan and personality theory
- Major psychological approaches to human behaviour.
- Main approaches - psychoanalytic, behavioural, humanistic and cognitive relate approaches to social welfare work
- Links between personality theory and abnormal psychology including main definitions of health and well being
- Stress indicators
- Sociological understanding including:
  - culture and diversity
  - critique of socialisation theory
  - family, power

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Work cooperatively with clients and significant others to achieve behavioural life skills changes
- Work with individuals in a range of settings to achieve maximum outcomes

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of high level communication skills, including
  - establishing a trusting relationship
  - information gathering
  - reflective listening, respectful responding, development of empathy and rapport
- Demonstrate application of skills in:
  - crisis intervention
  - demonstration of empathy
  - relationship building

## REQUIRED SKILLS AND KNOWLEDGE

- communication
- negotiation
- assertion
- conflict management

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Assessment must include assessment of competence with a number of clients

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

## EVIDENCE GUIDE

*Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment

*Method of assessment:*

- Assessment may include observations, questioning or evidence gathered from the workplace

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Working with clients will be carried out within requirements established by:*

- Relevant legislation and statutory requirements
- International conventions relating to the rights of individuals
- Organisation policy and codes of conduct
- Relevant program standards
- Professional association codes of conduct and ethical and ethical positions

### ELEMENT

### PERFORMANCE CRITERIA

1. Establish an appropriate *working relationship* with clients

- 1.1 Routinely use effective strategies to ensure:
  - clients identify their needs and goals
  - individual and cultural differences are addressed
  - areas of resistance/conflict are identified and appropriately resolved
  - appropriate levels of consultation are implemented
  - the experience and life skills of the client are appropriately addressed
  - relevant information is collected
- 1.2 Implement processes to reach agreement on meeting procedures, consequences of actions and cooperative relationship
- 1.3 Clarify negotiable and non negotiable aspects of intervention
- 1.4 Define and maintain boundaries between client and worker, including roles, responsibilities and accountabilities, to ensure compliance with statutory requirements and duty of care responsibilities
- 1.5 Implement strategies to ensure all dealings with clients reflect appropriate expression of value systems and consideration of emotional impact of intervention

2. Promote preventative strategies

- 2.1 Provide a full range of opportunities for clients to engage in identification of problems and solutions
- 2.2 Employ a range of strategies to assist clients to meet specific targets and to gain control over their lives
- 2.3 Identify, develop and initiate an appropriate range of opportunities in accordance with organisation policies and procedures and client needs
- 2.4 Encourage and monitor client progress and involvement in activities and take appropriate action to maximise individual skill development

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Relevant policy, procedures and legislation

## REQUIRED SKILLS AND KNOWLEDGE

- Cultural protocols and systems
- Statutory requirements
- Group processes
- Appropriate social work theories
- Client worker relationships
- Range of services - programs available

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Facilitate exploration of issues
- Establish role definitions
- Identify and work constructively with conflict and resistance
- Monitor own positions and reactions
- Clarify differences in perception
- Undertake problem exploration within a pro active framework

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Devise and develop tasks to help clients understanding and problem solving efforts
- Demonstrate application of skills in:
  - working with conflict, resistance and levels of risk
  - empathy, engagement and rapport building
  - effective listening
  - goal clarification
  - communicating interest, respect and concern
  - articulating clearly boundaries of own role
  - recognising signs and triggers for dependency
  - constructive use of personal and professional authority and influence to support or confront
  - interpersonal relationship

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment

*Method of assessment:*

- Assessment may include observations, questioning or

## EVIDENCE GUIDE

evidence gathered from the workplace

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*The contexts of working with clients include:*

- Contact with a service on a voluntary or involuntary basis
- Contact with a statutory activity e.g. Notification, first juvenile offence
- Within an intervention
- Within a support activity or service

*Working relationship will be within requirements established by:*

- Commonwealth and state legislation
- International conventions relating to the rights of children and young persons
- Organisation policy and procedures
- Relevant program standards
- Organisation codes of conduct, ethics

### Unit Descriptor

#### Descriptor

This unit describes the knowledge and skills required by skilled employees in the alcohol and other drugs (AOD) sector working with minimal supervision with a range of clients experiencing a range of issues

They will apply ongoing therapeutic intervention with clients with alcohol and other drug issues drawing on a range of models and techniques supported by evidence

### Application of the Unit

#### Application

This unit applies to those working with clients with AOD issues in the delivery of community services

Service delivery may take place in a range of settings

### Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Apply suitable counselling and support techniques to assist individual with AOD issues

- 1.1 Ascertain the immediate and proximate needs and goals of client with complex and multiple needs
- 1.2 Review range of models and techniques, including group activities, to meet assessment outcomes
- 1.3 Design intervention and support strategies to meet assessment outcomes
- 1.4 Apply intervention strategies with a range of clients in a range of settings
- 1.5 Maintain engagement with reticent client
- 1.6 Explore potential legal and health issues
- 1.7 Integrate and apply advanced generic counselling competencies to clients affected by alcohol and other drugs
- 1.8 Document client interventions according to agency policy

2. Review personal and agency ability to deliver service to address all client needs

- 2.1 Consult and review case management plans
- 2.2 Ascertain client 's social, emotional and other

## ELEMENT

## PERFORMANCE CRITERIA

needs that cannot be met in agency service

2.3 Identify limitations and role boundaries in current practice

2.4 Identify and refer to services able to address client needs

2.5 Monitor and review client progress

2.6 Consult with other services to support their delivery of AOD services within their scope

2.7 Work cooperatively with *significant others*, co-workers and other services to support client needs

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Advanced understanding of counselling models and techniques, that may include an appropriate range of the following:
  - cognitive behavioural therapy
  - rational emotive therapy
  - reality therapy
  - transactional analysis
  - cross cultural awareness and application of skills
  - work in shared care contexts
  - support through pharmacotherapy
  - solution based therapy
  - integrating approaches and models
  - supporting and empathetic counselling

## REQUIRED SKILLS AND KNOWLEDGE

- negotiate treatment plans
- advanced knowledge of therapeutic models, interventions and client treatment issues in AOD
- measures for monitoring client outcomes
- teaching clients range of self management skills, using range of self-report measures
- use of assessment tools (e.g. AUDIT) to measure and monitor client progress
- holistic client work
- family counselling
- group work and group counselling
- solution focused therapy/narrative therapy

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate high-level judgement and autonomy to be able to:
  - work with people with complex and/or multiple issues and understanding of their impact on AOD use
  - select and apply AOD assessment tools appropriately
  - ensure the safety of the individual, self and the community
  - identify risks and apply risk management strategies
  - provide opportunities for the person with complex needs to achieve personal needs and goals
  - apply a range of AOD related intervention strategies
  - make whole of life assessments
  - apply relevant monitoring and review techniques

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Maintain documentation as required, including effective use of relevant information technology in line with work health and safety (WHS) guidelines

## Evidence Guide

### EVIDENCE GUIDE

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Competency must be demonstrated in a real work environment
- Competence in this unit must be assessed over a period of time in order to ensure consistency of performance across contexts applicable to the work environment
- Consistency in performance should consider the work environment, worker's role and responsibilities in the workplace

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- Assessment of this competency will require human resources consistent with those outlined in the Assessment Guidelines

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed

## EVIDENCE GUIDE

through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios

- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Models of counselling may include:*

- Cognitive behavioural therapy
- Rational emotive therapy
- Reality therapy
- Transactional analysis
- Cross cultural awareness and application of skills
- Work in shared care contexts
- Support through pharmacotherapy
- Solution based therapy

*Complex issues may include:*

- Dual/multiple disabilities
- Intellectual disability, physical disability, neurological,
- Offending behaviours
- Complex medical needs
- ABI autism, sensory loss, Prader Willi syndrome,

## RANGE STATEMENT

### Unit Descriptor

#### Descriptor

This unit describes the knowledge and skills required by the worker to advocate to ensure that the rights and needs of consumers and clients issues are maintained within the broader rights and needs of the general community

### Application of the Unit

#### Application

This unit may apply to work undertaken across a range of sectors involved in delivery of community services

### Licensing/Regulatory Information

Not applicable.

### Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Obtain, analyse and document information relevant to the needs of clients as a community of interest within the general community

- 1.1 Obtain and analyse relevant documented information about particular issues
- 1.2 Obtain and analyse relevant statistical and research data
- 1.3 Conduct consultations with consumers, carers, and other stakeholders to identify and describe *issues of concern*
- 1.4 Conduct other research as appropriate
- 1.5 Synthesise relevant information into forms appropriate for communicating with, and providing to, *relevant agencies and stakeholders*

2. Work with consumers, service users, services and other stakeholders to develop *strategies* to address identified needs

- 2.1 Develop and maintain close working relationships/ networks with relevant stakeholders
- 2.2 Organise formal meetings, working groups and other *activities* to develop policy statements, action plans, projects, and programs to address identified needs
- 2.3 Participate in meetings, working groups and other activities aimed at developing relevant *strategies*
- 2.4 Prepare strategic/action/project plans in forms that are appropriate to the needs and roles of relevant stakeholder organisations

**ELEMENT****PERFORMANCE CRITERIA**

- |                                                                                                                                        |                                                                                                                                                           |

|                                                                                                                                        | 3.5 Pursue opportunities and provide comments on policy documents, legislation, project plans and other relevant documents regarding the needs of clients |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- An understanding of the context and relationship of client issues to community, society and government policy
- Broad knowledge of relevant range of issues affecting the client group
- Key stakeholders and how to access them
- Knowledge specific to the client/consumer group
- Knowledge specific to working with people from culturally and linguistically diverse (CALD) backgrounds
- Political lobbying processes, including electronic campaigning
- Relevant agencies and services which may assist in promoting and advocating
- Relevant regulatory, legislative and legal requirements

## REQUIRED SKILLS AND KNOWLEDGE

- Social policies relevant to the service delivery at national, state/territory and local level
- Structural, political and other social factors which operate to maintain discrimination against clients, consumers and service users
- Structural, political and other social factors which can be addressed to improve promotion activities, such as:
  - age and
  - culture
  - ethnicity
  - gender
  - language
  - socioeconomic status
- Understanding of the balance between the rights of the general community and the rights of people with specific issues
- Use of media for advocacy purposes

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Apply high level-skills when advocating or representing client issues within broad social, political and community structures

The candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply skills in written and oral communication
- Undertake research and analysis
- Apply skills in:
  - consultation
  - electronic campaigning
  - policy development
  - networking
  - strategic planning
  - negotiation
  - lobbying
- Undertake representation

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed on the job or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider specific workplace and advocacy practices and requirements

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally and linguistically diverse (CALD) environments
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include:
  - access to appropriate workplace where assessment can take place
  - simulation of realistic workplace setting for assessment

## EVIDENCE GUIDE

### *Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competency will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *Relevant agencies and stakeholders include:*

- Consumers and consumer organisations
- General health and welfare services
- Government departments and agencies
- Non-government organisations
- Media
- Politicians
- Commercial enterprises

### *Activities may be:*

- Informal
- Formal

**RANGE STATEMENT**

*Strategies may include:*

- Public meetings
- Electronic campaigning
- Interviews
- Questionnaires
- Monitoring trends in the general community/media towards clients
- Development of policy/issues papers
- Media management
- Public relations

*Issues of concern may include, but are not limited to:*

- Mental illness
- Alcohol and/or other drugs (AOD)
- Housing
- Child protection
- Domestic violence
- Disability issues
- Gambling

## Elements and Performance Criteria

| Element                                                                     | Performance Criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|-----------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 Identify the roles of governance and management                           | <p>1.1 Differentiate and document the member, governance and management issues of the organisation in the <b>organisation's governance policy guidelines</b></p> <p>1.2 Identify, document and refer to the relationships between governance issues and management issues</p>                                                                                                                                                                                                                                                                                                                                                                                                              |
| 2 Facilitate the development of an effective Board                          | <p>2.1 Provide information to enable the <b>Board</b> to analyse the efficiency and effectiveness of the organisation in meeting its stated objectives and performance targets</p> <p>2.2 Ensure new Directors understand the way that the <b>Board</b> operates and the <b>organisation's governance policy guidelines</b></p> <p>2.3 Highlight continuing professional development opportunities to the attention of all Directors</p> <p>2.4 Monitor relevant aspects of the appropriate federal, state and local <b>legislation</b> and by-laws for organisation compliance and provide advice to ensure Directors follow legal requirements when carrying out <b>Board</b> duties</p> |
| 3 Provide detailed information for the Board to deal with the right matters | <p>3.1 Ensure the <b>Board</b> is aware of <b>emerging issues</b> in the industry that are likely to have an impact on the organisation's business</p> <p>3.2 Evaluate the identified <b>emerging issues</b> within a risk management and due diligence framework for their impact on the organisation and provide this information to the <b>Board</b></p> <p>3.3 Differentiate governance and management issues of the organisation to ensure the <b>Board</b> deals with the right matters</p> <p>3.4 Collate a well structured <b>Board</b> paper, containing all necessary information items and including a recommendation from management, for all agenda items</p>                 |

- 3.5 Ensure **Board** members receive the papers in sufficient time to study them before the meeting
- 3.6 Establish processes to source appropriate internal and external professional advice for Directors to inform their decision-making (where required)
- 3.7 Establish processes to deal with extraordinary matters that arise outside scheduled meetings
- 4 **Ensure that Board decisions are implemented properly**
  - 4.1 Ensure complete and accurate minutes are recorded and reported to the **Board**
  - 4.2 Identify and implement actions that flow from the decisions clearly
  - 4.3 Implement the appropriate policies and procedures to support the Board's decisions within agreed timeframes
  - 4.4 Advise the **Board** promptly of **issues** affecting the implementation of **Board** decisions
- 5 **Ensure regular communication with the Board**
  - 5.1 Provide information and advice regularly to the **Board** to foster informed decision-making
  - 5.2 Brief the Chairperson in great detail on all substantive issues at all times
  - 5.3 Seek clear instructions from the **Board** in order to implement specific policy directions (as required)
  - 5.4 Seek feedback from the **Board** in relation to the performance of staff regarding implementation of the specific policy directions

## Required Skills and Knowledge

Not applicable.

## Evidence Guide

### Evidence Guide

The Evidence Guide identifies the critical aspects, knowledge and skills to be demonstrated to confirm competence for this unit. This is an integral part of the assessment of

competence and should be read in conjunction with the Range Statements

**Critical aspects of evidence to be considered**

Assessment must confirm sufficient knowledge of working effectively with the Board of a recreation organisation or facility in the work environment

Assessment of performance should be over a period of time covering all categories of the Range Statements that are applicable in the learner's environment

In particular, assessment must confirm the ability to

differentiate between management and governance issues

ensure the Board follows the organisation's governance policy guidelines

facilitate the establishment of an effective Board team

arrange for the Board to deal with the right matters

provide sufficient documentation for the Board to reach informed decisions

ensure that the decisions are implemented properly

communicate regularly with the Board and ensure the Chairperson is well briefed on current issues affecting the organisation

**Interdependent assessment of units**

This unit must be assessed after attainment of competency in the following unit(s)

Nil

This unit must be assessed in conjunction with the following unit(s)

Nil

For the purpose of integrated assessment, this unit may be assessed in conjunction with the following unit(s)

Nil

## Required knowledge and skills

### Required knowledge

Knowledge of the business and operations of the organisation as it relates to the formulation of strategic directions

Knowledge of the legal framework under which the organisation operates and the Memorandum and/or Articles of Association of the organisation

Knowledge of roles and responsibilities of particular functions on the Board such as Chairperson, Secretary and Director

Knowledge of the role policies and procedures play in the effective running of an organisation

Knowledge of the separation of the governance (Board) and management (Chief Executive Officer) functions of the organisation and how the management issues are effectively functions of the Board that are delegated to the Chief Executive Officer (CEO)

Knowledge of human resource management practices as they relate to the development of effective working relationships between paid staff and volunteer Boards

### Required skills

Literacy and numeracy skills as they relate to the reading, comprehension, evaluation and analysis of documentation that relates to the organisation's strategic direction, governance policy guidelines and the monitoring of trends in industry

Research skills as they relate to the monitoring of trends in industry

Verbal communication skills as they relate to the presentation of information to the Board

Written communication skills as they relate to the presentation of papers at a Board meeting

Consultation skills as they relate to the

meaningful engagement of relevant Board members in the organisation's operations

Policy development skills as they relate to the drafting of, consultation on and endorsement of policies and procedures for the effective operation of the organisation

Facilitation and project management skills as they relate to the implementation of Board decisions

Leadership skills as they relate to demonstration of appropriate individual standards of performance, influencing others, making decisions, facilitating group decision - making and the utilisation of appropriate leadership styles

## Resource implications

Physical resources - assessment of this competency requires access to

either real or simulated organisations and their respective Board processes

Human resources - assessment of this unit of competency will require human resources consistent with those outlined in the Assessment Guidelines. That is, assessors (or persons within the assessment team) must

be competent in this unit but preferably be competent in the unit at the level above

be current in their knowledge and understanding of the industry through provision of evidence of professional activity in the relevant area

have attained the mandatory competency requirements for assessors under the Australian Quality Training Framework (AQTF) as specified in Standard 7.3 of the **Standards for Registered Training Organisations**

## Consistency in performance

Due to issues such as the varied issues that are required to be discussed by a Board, this unit of competency must be assessed over period of time in order to ensure consistency of performance over the Range Statements and contexts applicable to working

effectively with the Board or management committee of a sport or recreation organisation

### Context for assessment

This unit of competency must be assessed in the context of working effectively with the Board or management committee of a sport or recreation organisation

Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on required knowledge and skills and consideration of required attitudes

Where performance is not directly observed and/or is required to be demonstrated over a "period of time" and/or in a "number of locations", any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

### KEY COMPETENCIES

| Collect, Analyse & Organise Information | Communicate Ideas & Information | Plan & Organise Activities | Work with Others & in Teams | Use Mathematical Ideas & Techniques | Solve Problems | Use Technology |
|-----------------------------------------|---------------------------------|----------------------------|-----------------------------|-------------------------------------|----------------|----------------|
| 3                                       | 3                               | 3                          | 3                           | 3                                   | 3              | 2              |

These levels do not relate to the Australian Qualifications Framework. They relate to the seven areas of generic competency that

underpin  
effective  
workplace  
practices.

The three  
levels of  
performanc  
e (1, 2 and  
3) denote  
the level of  
competency  
required to  
perform the  
task:

Use routine  
approaches

Select from  
routine  
approaches

Establish  
new  
approaches

**Collecting,  
analysing  
and  
organising  
informatio  
n -**

Collecting  
information  
on the core  
business of  
the  
organisatio  
n

**Communic  
ating ideas  
and  
informatio  
n -**

Reporting  
to the  
Board on a  
task that  
was

allocated

**Planning  
and  
organising  
activities -**

Planning  
and  
organising  
regular  
Board  
meetings

**Working  
with teams  
and others**

- Working  
with memb  
ers of a  
Board of an  
organisatio  
n

**Using  
mathemati  
cal ideas  
and**

**techniques**  
- Analysing  
financial  
documents  
for the  
organisatio  
n

**Solving  
problems -**

Identifying  
the need to  
hold an  
extraordina  
ry meeting

**Using  
technology**

- Taking  
part in a  
teleconfere  
nce

Please refer  
to the

Assessment  
Guidelines  
for advice  
on how to  
use the Key  
Competenci  
es.

## Range Statement

### Range Statements

The Range Statements provide advice to interpret the scope and context of this unit of competence, allowing for differences between enterprises and workplaces. The Range Statements relate to the unit as a whole and helps facilitate holistic assessment. In addition, the following variables may be present for this particular unit of competency

#### RANGE STATEMENT

#### CATEGORIES

##### Board

[all categories]

refers to Boards or committees of management responsible for the governance of a recreation organisation or facility as distinct from the management operations

Board members may be paid Directors or volunteers

##### Emerging issues

[all categories]

may include but not limited to

the Corporate Law Economic Reform Bill (1998)

technology

information

##### Legislation

[all categories]

specific laws

Corporation law

the Corporations law, the complimentary State legislation and the Ordinances of the relevant Territories

the Company Law Review Act (1998)  
the Corporate Law Economic Reform Bill  
(1998)

Associations law  
Trade Practices law  
Competition  
consumer protection  
Contract law  
Environmental law  
Taxation law  
Regulatory compliance

laws relating to people  
Industrial Relations/Workplace Relations  
Act  
Occupational Health and Safety (OH&S)  
Acts  
Employment  
Equal Opportunity and Anti - Discrimination  
Child Protection  
Volunteer Workers Insurance  
Public Liability  
Workers compensation  
business specific laws

laws relating to business  
Income Tax Act  
Payroll Acts  
Stamp duty Act  
Liquor Licensing Acts  
Landlord and Tenant  
Goods and Services Tax (GST) Act  
Copyright Act  
Trade Marks Act

**Organisation's governance policy guidelines**

business specific laws and acts

[all categories]

would include policies and processes in the areas of

role of Board

Board structure

role of individual Directors

role of Chairperson

role of Company Secretary

role of Chief Executive Officer (CEO)

Board meetings

Board meeting agenda

Board papers

Board minutes

the Board calendar

committees

delegation of authority

monitoring

strategy formulation

service/advice

contacts

Chief Executive Officer (CEO) evaluation

Director protection

Board evaluation

Director development

Director selection and induction

Not applicable.

## HLTIN504D Manage the control of infection

### Modification History

| HLT07 Version 4                              | HLT07 Version 5                              | Comments                                                                                                                                             |
|----------------------------------------------|----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| HLTIN504C<br>Manage the control of infection | HLTIN504D<br>Manage the control of infection | ISC upgrade changes to remove references to old OHS legislation and replace with references to new WHS legislation. No change to competency outcome. |

### Unit Descriptor

**Descriptor**

This unit describes the skills required to oversee the adherence to established infection control guidelines and duty of care throughout a particular work environment

### Application of the Unit

**Application**

This unit applies to a role with broad responsibilities for development, implementation and monitoring of infection control policy and procedures

Application of this unit should be contextualised to reflect any specific workplace infection risks, hazards and associated infection control practices

### Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

### Pre-requisite unit

This unit must be assessed after successful achievement of pre-requisite:

- HLTIN301C Comply with infection control policies and procedures

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Ensure potential infectious material is removed from the workplace

- 1.1 Ensure information and resources are provided to support the correct handling and disposal of waste according to established guidelines and procedures
- 1.2 Maintain procedures for use of personal protective equipment when sorting and separating waste
- 1.3 Ensure waste *transport* procedures support workplace safety

2. Ensure *equipment* and surfaces are clean and sanitised

- 2.1 Ensure information and resources are provided to enable effective cleaning and *sanitisation* of equipment and surfaces
- 2.2 Provide information on the correct procedure(s) for cleaning and sanitation of the workplace

**ELEMENT****PERFORMANCE CRITERIA**

- |                                                                           |     |                                                                                                                                |
|---------------------------------------------------------------------------|-----|--------------------------------------------------------------------------------------------------------------------------------|
|                                                                           | 2.3 | Ensure appropriate recommended protective clothing is worn throughout the workplace                                            |
|                                                                           | 2.4 | Ensure clear and accurate information on infection control guidelines is provided                                              |
| 3. Ensure personal hygiene is maintained in the workplace                 | 3.1 | Establish standards of personal presentation and hygiene in the workplace and ensure they are maintained                       |
|                                                                           | 3.2 | Establish clinical guidelines for hygiene and ensure they are maintained                                                       |
|                                                                           | 3.3 | Ensure appropriate and checked <i>protective clothing</i> is made available according to established guidelines and procedures |
|                                                                           | 3.4 | Ensure information is provided in the use of protective clothing                                                               |
| 4. Establish and monitor guidelines for hazard identification and control | 4.1 | Review hazard/spillage response and documentation and assess need for further action/improvement of practices                  |
|                                                                           | 4.2 | Ensure information is provided in hazard identification and control                                                            |
|                                                                           | 4.3 | Establish workplace policies and procedures in hazard identification and control and monitor to ensure their effectiveness     |
|                                                                           | 4.4 | Monitor workplace to ensure hazards are managed in accordance with guidelines                                                  |
|                                                                           | 4.5 | Ensure hazard control procedures are carried out as necessary                                                                  |

## Required Skills and Knowledge

To demonstrate competence for this unit the worker must acquire the essential knowledge and skills described:

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- How infection is spread
- Measures to manage and monitor infection control
- Work health and safety (WHS) implications of work
- Potential hazards in a health environment
- Processes for managing and developing effective workplace policies and procedures relating to infection control
- Time management strategies to set priorities

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Develop, implement and monitor strategies to address infection control across a specific work environment

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Communicate and maintain workplace policies and procedures relating to work performance in relation to infection control and duty of care, including:
  - helping others achieve planned outcomes
  - managing unsatisfactory performance and use of discipline as necessary
  - minimising disruption to the work environment
  - safe and competent use of technology
- Develop staff on WHS and hazard identification
- Implement cross infection and prevention strategies
- Integrate learning from the broader health profession into improved work practices
- Manage problems relating to infection control
- Provide leadership in the development and communication of policies and procedures
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Use effective communication skills to ensure application and maintenance in the workplace of:
  - correct hygiene procedures and hand washing techniques
  - hazard identification and control

- WHS policies and procedures
- procedures appropriate to the cleaning area and purpose
- selection and use of appropriate equipment and chemicals for cleaning and sanitising in the workplace
- standard and additional precautions

## Evidence Guide

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Consistency of performance should be demonstrated over the required range of workplace situations

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Related units:*

Where relevant, the following competency unit should be assessed before or in conjunction with this unit:

- HLTIN302C Process reusable instruments and equipment in health work

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance.

*Disposal includes:*

- Bury
- Flush
- Burn
- Storage for collection

*Transport includes:*

- Bins
- Trolley
- Manual

*Sanitising may include:*

- Sterilising in some situations
- Carbolising
- Soaking
- Disinfecting

*Equipment may include:*

- Buckets
- Mops and brushes
- Soap
- Water

*Guidelines include:*

- Standard and additional precautions
- Policies and guidelines of the clinic

*Hazards and risks may include:*

- Sharps
- Human waste
- Wet floors
- Stagnant water
- Body fluids
- Animals, insects and vermin
- Expiry dates

*Waste may include:*

- Infectious waste
- Sharps

*Linen may include:*

- Bed linen
- Gowns/masks
- Clothing
- Tea towels

*Sorting may include:*

- On-site
- Off-site
- Storage
- Transport

*Protective clothing includes:*

- Safety glasses
- Gloves
- Gowns
- Masks
- Caps

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Gather and record *information*

1.1 Identify, access and collect appropriate information in order to meet:

- client needs
- specific workplace needs
- organisation needs

1.2 Ensure all processes and procedures promote:

- confidentiality
- security
- integrity of the information

1.3 Collate, prioritise and store information according to purpose of record and established procedures

1.4 Ensure information gathered is relevant, accurate and consistent with the organisation's values and client needs

#### 2. Prepare and present *reports*

2.1 Prepare reports to meet:

- audience/client needs
- standard reporting protocols and procedures
- organisation criteria

2.2 Include conclusions and recommendations in reports that are clearly supported by the information

**ELEMENT****PERFORMANCE CRITERIA**

gathered and verifiable evidence

2.3 In preparing reports, use appropriate technology within the operator's level of expertise and within established guidelines that promote safe working conditions for self and others

2.4 Circulate reports to key people, assess their feedback for relevance and incorporate into report

2.5 Present reports to appropriate person/s for implementation in accordance with organisation guidelines

3. Supervise processes for collection, use, storage and dissemination of information

3.1 Monitor issues arising from day to day operation of information systems and develop solutions cooperatively

3.2 Provide appropriate training opportunities for staff to ensure effective use of relevant technology

3.3 Where appropriate, provide advice on complex areas of information

3.4 Develop processes for dealing with information requests and exchanges

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Available sources of information
- Appropriate documentation required for specific types of reporting
- Importance of using opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Interviewing methods

- Organisation policies and procedures relating to reporting and records systems
- Research methods and information gathering
- The range of report writing which is required of the organisation for internal and external purposes

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Collect, collate and store information
- Prepare and present information in a range of formats to meet the needs of the client

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - report writing
  - a range of oral and written communication skills
  - research
  - safe and effective use and coordination of relevant technology in line with work health and safety (WHS) guidelines

## **Evidence Guide**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

### *Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions  
This may include the use of languages other than English and alternative communications systems
- Assessment must include assessment of the normal range of information and presentation of information

- Access and equity considerations:*
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
- Context of and specific resources for assessment:*
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
  - Resources required for assessment of this unit include access to:
    - an appropriate workplace where assessment can be conducted or simulation of realistic workplace setting for assessment
- Method of assessment:*
- Assessment may include observations, questioning and evidence gathered from the workplace e.g. prepared reports

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

- Information may be sought from:*
- Clients
  - Group meetings
  - Individuals, including:
    - family, support network

- specialists
- stakeholders
- team members
- Other agencies
- Written sources

*Reports may be:*

- Administration files
- Client reports/case notes
- Court reports
- Expenses
- Incident reports
- Log books
- Reports to case management conferences
- Reports to funding, policy or legal bodies
- Timesheets

*Relevant people will include:*

- Community groups/leaders
- External organisations
- Family and support networks of clients
- Inside the organisation
- Specialist organisations
- Team members

## Elements and Performance Criteria

| ELEMENT                                                  | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|----------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Develop workplace sustainability policy               | 1.1. Define <b>scope</b> of sustainability policy<br>1.2. Gather information from a range of <b>sources</b> to plan and develop policy<br>1.3. Identify and consult <b>stakeholders</b> as a key component of the policy development process<br>1.4. Include appropriate <b>strategies</b> in policy at all stages of work for minimising resource use, reducing toxic material and hazardous chemical use, and employing life cycle management approaches<br>1.5. Make recommendations for policy options based on likely effectiveness, timeframes and cost<br>1.6. Develop policy that reflects the organisation's commitment to sustainability as an integral part of business planning and as a business opportunity<br>1.7. Agree to appropriate methods of implementation |
| 2. Communicate workplace sustainability policy           | 2.1. Promote workplace sustainability policy, including its expected outcome to key stakeholders<br>2.2. Inform those involved in implementing the policy as to outcomes expected, activities to be undertaken and responsibilities assigned                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 3. Implement workplace sustainability policy             | 3.1. Develop and communicate procedures to help implement workplace sustainability policy<br>3.2. Implement strategies for continuous improvement in resource efficiency<br>3.3. Establish and assign responsibility to use recording systems for tracking continuous improvements in sustainability approaches                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4. Review workplace sustainability policy implementation | 4.1. Document outcomes and provide feedback to key personnel and stakeholders<br>4.2. Investigate successes or otherwise of policy<br>4.3. Monitor records to identify trends that may require remedial action and use to promote continuous improvement of performance<br>4.4. Modify policy and or procedures as required to ensure improvements are made                                                                                                                                                                                                                                                                                                                                                                                                                      |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to adjust communication to suit different audiences; to respond effectively to diversity; to work as a member of a team to consult on and validate policy
- literacy skills to read and evaluate complex and formal documents such as policy and legislation
- problem skills to effectively manage different points of view and dissenting stakeholders
- research, analytical and writing skills to research, analyse and present information; to prepare written reports requiring precision of expression and language and structures suited to the intended audience

#### Required knowledge

- best practice approaches relevant to own work area
- environmental or sustainability legislation, regulations and codes of practice applicable to industry and organisation
- equal employment opportunity, equity and diversity principles and occupational health and safety implications of policy being developed
- policy development processes and practices
- principles, practices and available tools and techniques of sustainability management relevant to the particular industry context
- quality assurance systems relevant to own organisation
- relevant industry competency
- relevant organisational policies, procedures and protocols
- relevant systems and procedures to aid in the achievement of workplace sustainability

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Overview of assessment

| <b>EVIDENCE GUIDE</b>                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>• candidate's involvement as a key person in planning, developing and implementing organisational policy and that the developed policy complies with legislative requirements</li> <li>• implementation strategy, as part of the policy, that has been devised, implemented and reviewed showing a measurable improvement utilising the chosen benchmark indicators</li> <li>• communicating with stakeholders to discuss possible approaches to policy development and implementation, and contributing to the resolution of disputes among stakeholders</li> <li>• developing and monitoring policies for analysing data on enterprise resource consumption</li> <li>• using software systems for recording and filing documentation for measurement of current usage and using word processing and other basic software for interpreting charts, flowcharts, graphs and other visual data and information</li> <li>• reviewing and improving policies by identifying improvements and benchmarking against industry best practice and attempting new approaches continuously over time.</li> </ul> |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to an actual workplace or simulated environment</li> <li>• access to relevant legislation/standards/guidelines</li> <li>• access to a range of workplace documentation and personnel, information and resources (such as compliance obligations, organisational plans, work responsibilities)</li> <li>• access to reports from other parties involved in the development and implementation of policy</li> <li>• evidence is collected over time, involving both formative and summative assessment</li> <li>• evidence is relevant to the particular workplace role, including work area, equipment, systems, and documentation.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

**EVIDENCE GUIDE**

|                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on the job performance by the candidate</li> <li>• response to case studies</li> <li>• review of policy developed and procedural documentation outlining the approach taken</li> <li>• review of implementation strategy, plans and work plans</li> <li>• analysis of methods used to involve stakeholders in policy development, implementation and review</li> <li>• analysis of inefficiencies or opportunities for improvements identified in the workplace</li> <li>• evaluation of participation in sustainability work practices and programs such as an environmental management framework</li> <li>• observation over time in relation to review of work area relating to policy and procedures being developed to assess measurement of resources used, hazards and compliance.</li> </ul> |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• BSBATSIM419A Contribute to the development and implementation of organisational policies</li> <li>• BSBHRM506A Manage recruitment, selection and induction processes</li> <li>• BSBHRM602B Manage human resources strategic planning</li> <li>• BSBINN502A Build and sustain an innovative work environment</li> <li>• BSBMGT515A Manage operational plan</li> <li>• BSBMGT516C Facilitate continuous improvement</li> <li>• BSBMGT608C Manage innovation and continuous improvement</li> <li>• BSBMGT616A Develop and implement strategic plans</li> <li>• BSBMGT617A Develop and implement a business plan</li> <li>• BSBRSK501A Manage risk.</li> </ul>                                                                                                                 |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Scope** of workplace sustainability policy may include:

- addressing sustainability initiatives through reference to standards, guidelines and approaches such as:
  - ecological foot printing
  - Energy Efficiency Opportunities Bill 2005
  - Global Reporting Initiative
  - green office program
  - green purchasing
  - Greenhouse Challenge Plus (Australian government initiative)
  - ISO 14001:1996 Environmental management systems life cycle analyses
  - life cycle analyses
  - product stewardship
  - supply chain management
  - sustainability covenants/compacts
  - triple bottom line reporting
- integrated approach to sustainability which includes environmental, economic and social aspects, or a specific approach that focuses on each aspect individually
- investigating particular business and market context of the industry/organisation
- meeting relevant laws, by laws and regulations or best practice to support compliance in environmental performance and sustainability at each level as required (such as Environmental Protection or Biodiversity Conservation Act):
  - international
  - commonwealth
  - state/territory
  - industry

| <b>RANGE STATEMENT</b>           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

Ensure actions convey flexibility and adaptability to                                                                                                                                                                                                                                             |

| ELEMENT                                             | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|-----------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                     | <p>change and accessibility</p> <p>2.5.Ensure consultation and participation in decision making occurs with relevant groups and individuals where appropriate</p> <p>2.6.Ensure decision making takes into account needs and expectations of both internal and external groups</p> <p>2.7.Ensure decision making occurs in accordance with <b>risk management</b> plans for all options, and within appropriate timeframes</p> <p>2.8.Ensure that the organisation is represented positively in the media and community</p>              |
| 3. Build and support teams                          | <p>3.1.Assign <b>accountabilities and responsibilities</b> to teams consistent with their competencies and operational plans</p> <p>3.2.Ensure teams are resourced to allow them to achieve their objectives</p> <p>3.3.Empower teams and individuals through effective delegation and support for their initiatives</p> <p>3.4.Create and maintain <b>a positive work environment</b></p> <p>3.5.Encourage teams and individuals to develop innovative approaches to the performance of work</p>                                        |
| 4. Demonstrate personal and professional competence | <p>4.1.Model ethical conduct in all areas of work and encourage others to adopt business ethics</p> <p>4.2.Adapt appropriate interpersonal and leadership styles to meet particular circumstances and situations</p> <p>4.3.Set and achieve personal objectives and work program outcomes</p> <p>4.4.Ensure self performance and professional competence is continuously improved through engagement in a range of professional development activities</p> <p>4.5.Participate regularly in industry/professional networks and groups</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

## REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

### Required skills

- interpersonal skills to communicate and inspire trust and confidence of others and to ensure their cooperation and support
- networking skills to ensure support from key groups and individuals for concepts/ideas/products/services
- risk management skills to analyse, identify and develop mitigation strategies for identified risks.

### Required knowledge

- business ethics and their application
- leadership styles and their application
- legislation, codes and by-laws relevant to the organisation's operations
- organisation mission, purpose and values
- organisation objectives, plans and strategies
- organisational change processes.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- input from a wide range of sources providing evidence in respect to a broad range of activities and application of business ethics
- demonstration of personal competence that links to the organisation's requirements for managers
- effective communication skills and an ability to win commitment to the organisation and its activities
- knowledge of leadership styles and their application
- knowledge of legislation, codes and by-laws relevant to the organisation's operations.

#### Context of and specific resources for

Assessment must ensure:

| 4. Manage follow up | <p>4.1. Write and agree performance improvement and development plans in accordance with organisational policies</p> <p>4.2. Seek assistance from human resources specialists where appropriate</p> <p>4.3. Reinforce excellence in performance through recognition and continuous feedback</p> <p>4.4. Monitor and coach individuals with poor performance</p> <p>4.5. Provide support services where necessary</p> <p>4.6. Counsel individuals who continue to perform below expectations and implement the disciplinary process if necessary</p> <p>4.7. <b><i>Terminate</i></b> staff in accordance with legal and organisational requirements where serious misconduct occurs or ongoing poor-performance continues</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

## REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

### Required skills

- communication skills to articulate expected standards of performance, to provide effective feedback and to coach staff who need development
- risk management skills to analyse, identify and develop mitigation strategies for identified risks
- planning and organisation skills to ensure a planned and objective approach to the performance management system.

### Required knowledge

- relevant legislation from all levels of government that affects business operation, especially in regard to occupational health and safety and environmental issues, equal opportunity, industrial relations and anti-discrimination
- relevant awards and certified agreements
- performance measurement systems utilised within the organisation
- unlawful dismissal rules and due process
- staff development options and information.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- documented performance indicators and a critical description and analysis of performance management system from the workplace
- techniques in providing feedback and coaching for improvement in performance
- knowledge of relevant awards and certified agreements.

#### Context of and specific resources for assessment

Assessment must ensure:

- access to appropriate documentation and resources normally used in the workplace.

**EVIDENCE GUIDE**

|                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Method of assessment</b>                | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• analysis of responses to case studies and scenarios</li> <li>• assessment of written reports</li> <li>• demonstration of techniques in providing feedback and coaching</li> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• review of work plans, performance indicators, risk analysis, performance management and review processes, performance improvement and development plans.</li> </ul> |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• other management units.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

**Range Statement****RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

|                                     |                                                                                                                                                                                                                                                                  |
|-------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Performance standards</b> mean:  | <ul style="list-style-type: none"> <li>• level of performance sought from an individual or group which may be expressed either quantitatively or qualitatively</li> </ul>                                                                                        |
| <b>Code of Conduct</b> means:       | <ul style="list-style-type: none"> <li>• agreed (or decreed) set of rules relating to employee behaviour/conduct with other employees or an agreed (or decreed) set of rules relating to employee behaviour/conduct with other employees or customers</li> </ul> |
| <b>Performance indicators</b> mean: | <ul style="list-style-type: none"> <li>• measures against which performance outcomes are gauged</li> </ul>                                                                                                                                                       |

| <b>RANGE STATEMENT</b>                         |                                                                                                                                                                                                                                                                                                                                                                      |
|------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><i>Risk analysis</i></b> means:             | <ul style="list-style-type: none"> <li>determination of the likelihood of a negative event preventing the organisation meeting its objectives and the likely consequences of such an event on organisational performance</li> </ul>                                                                                                                                  |
| <b><i>Performance management</i></b> means:    | <ul style="list-style-type: none"> <li>in accordance with relevant industrial agreements</li> <li>process or set of processes for establishing a shared understanding of what an individual or group is to achieve, and managing and developing individuals in a way which increases the probability it will be achieved in both the short- and long-term</li> </ul> |
| <b><i>Excellence in performance</i></b> means: | <ul style="list-style-type: none"> <li>regularly and consistently exceeding the performance targets established while meeting the organisation's performance standards</li> </ul>                                                                                                                                                                                    |
| <b><i>Termination</i></b> means:               | <ul style="list-style-type: none"> <li>cessation of the contract of employment between an employer and an employee, at the initiative of the employer within relevant industrial agreements</li> </ul>                                                                                                                                                               |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to use networks to source suitable applicants, to listen to and understand what is being said in interviews, and to advise on the outcomes of the selection process
- literacy skills to work with job descriptions to devise suitable questions for

**REQUIRED SKILLS AND KNOWLEDGE**

- interviews, to prepare letters for unsuccessful applicants and to make job offers
- organising and scheduling skills to arrange interviews and venues.

**Required knowledge**

- documentation required for recruitment and selection
- human resource functions, human resource life cycle and the place of recruitment and selection in that life cycle
- principles of equity, diversity and relevant legislation.
- range of interviewing techniques and other selection processes and their application.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- demonstrated ability to work with job descriptions to source and select suitable staff
- interviewing and other selection techniques that demonstrate awareness of equal opportunity and anti-discrimination requirements
- knowledge of the human resource life cycle.

**Context of and specific resources for assessment**

Assessment must ensure:

- access to an appropriate range of documentation and resources normally used in the workplace.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- analysis of responses to case studies and scenarios
- assessment of written reports on recruitment and selection
- demonstration of selection techniques
- direct questioning combined with review of portfolios of evidence and third party workplace

| EVIDENCE GUIDE                             |                                                                                                                                                                                                                                                                                                                                                                        |
|--------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <p>reports of on-the-job performance by the candidate</p> <ul style="list-style-type: none"> <li>• observation of interviewing techniques</li> <li>• review of advertisements for staffing vacancies</li> <li>• review of documentation provided to successful candidate</li> <li>• oral or written questioning to assess knowledge of selection processes.</li> </ul> |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• other units from the Certificate IV in Human Resources.</li> </ul>                                                                                                                           |

## Range Statement

| RANGE STATEMENT                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                              |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |                                                                                                                                                                                                                                                                                                                                                                                              |
| <b><i>Job descriptions</i></b> may include:                                                                                                                                                                                                                                                                                                                                                                                                                                          | <ul style="list-style-type: none"> <li>• attributes</li> <li>• competencies required by staff</li> <li>• job or person specifications</li> <li>• job title and purpose of position</li> <li>• necessary skills and knowledge</li> <li>• qualifications</li> <li>• selection criteria</li> <li>• tasks or duties associated with the position</li> </ul>                                      |
| <b><i>Legislation, codes and national standards</i></b> may include:                                                                                                                                                                                                                                                                                                                                                                                                                 | <ul style="list-style-type: none"> <li>• award and enterprise agreements, and relevant industrial instruments</li> <li>• relevant industry codes of practice</li> <li>• relevant legislation from all levels of government that affects business operation, especially in regard to OHS and environmental issues, equal opportunity, industrial relations and anti-discrimination</li> </ul> |

## Elements and Performance Criteria

| ELEMENT                               | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|---------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Research human resources functions | 1.1. Clarify <b><i>human resources issues</i></b> for review and document scope of review<br>1.2. Identify local, state/territory, national and international human resources networks for human resources professionals<br>1.3. Identify information sources for human resources data and information<br>1.4. Select a <b><i>research strategy</i></b> suitable to the topic<br>1.5. Consult with <b><i>relevant personnel</i></b><br>1.6. Undertake research<br>1.7. Review research findings |
| 2. Review policy and procedures       | 2.1. Locate policies and procedures relevant to the research topic                                                                                                                                                                                                                                                                                                                                                                                                                              |

| ELEMENT                        | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                        |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| frameworks                     | 2.2. Analyse strengths and weaknesses of policies and procedures<br>2.3. Consider legislation, regulations and standards that apply to the policies and procedures and the research topic                                                                                                   |
| 3. Apply ethical framework     | 3.1. Review <b>ethical requirements</b> associated with the human resources function under review<br>3.2. Consider ethical obligations of human resources personnel working in the area under review<br>3.3. Document behaviours associated with working ethically in the area under review |
| 4. Report on research outcomes | 4.1. Collate, analyse and document key findings of the review<br>4.2. Write report on outcomes of research<br>4.3. Develop recommendations for future activity                                                                                                                              |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- judgement and decision making skills to review ethical and policy frameworks and to recommend suggested improvements
- literacy skills to research an issue and to write a clear and legible report which documents key issues coherently.

#### Required knowledge

- human resources functions and policy frameworks
- legal and compliance requirements for working in human resources
- roles and responsibilities of human resources practitioners.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the

| <b>EVIDENCE GUIDE</b>                                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

|                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |

## Elements and Performance Criteria

| ELEMENT                                | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|----------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Identify and contact funding bodies | 1.1. Identify and investigate mainstream and Aboriginal and Torres Strait Islander funding sources<br>1.2. Gather information about potential funding bodies' priorities, key areas and expected outcomes<br>1.3. Clearly explain organisational funding requirements to potential funding bodies                                                                                                                                                            |
| 2. Prepare a case for funding          | 2.1. Form a team to oversee the funding <b>submission</b><br>2.2. Delegate tasks to staff if appropriate<br>2.3. Determine if consultant services should be engaged to provide technical assistance in preparing the case for funding<br>2.4. Ensure a proposal is prepared that meets the funding body's objectives, criteria and submission requirements<br>2.5. Ensure all existing financial obligations with respect to the funding body are up-to-date |
| 3. Promote the case for funding        | 3.1. Use networks to lobby the funding body where appropriate<br>3.2. Seek representation with the funding body if necessary<br>3.3. Advise <b>key people</b> of the progress and outcome of the submission                                                                                                                                                                                                                                                  |

| ELEMENT                | PERFORMANCE CRITERIA                                                                                                                                                                                                              |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4. Appeal if necessary | <p>4.1. Identify relevant appeal authorities and procedures for funding bodies</p> <p>4.2. Determine whether an appeal should be made if a funding submission is not successful</p> <p>4.3. Use the appeal system if required</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- analytical skills to identify funding body requirements and determine if funding proposals meet requirements
- communication, teamwork and negotiation skills to work cooperatively with other board members, management and staff of the organisation, members, community and key stakeholders
- culturally appropriate communication skills to relate to people from diverse backgrounds and with diverse abilities
- evaluation and decision-making skills to monitor and review information and enact decisions
- planning and prioritising skills to:
  - delegate tasks to others
  - ensure funding applications are submitted within required timeframe
- networking and lobbying skills to identify potential funding sources and gain support for applications
- research skills to identify potential funding bodies and analyse their requirements

#### Required knowledge

- appeal procedures available if funding submission is rejected
- concept of community control of organisations and how it may impact on how funding is sourced and used
- cultural context in which Aboriginal and Torres Strait Islander boards operate, including their role in upholding traditional and cultural values, and how that may impact on how funding is sourced and used
- funding sources and their requirements
- geographic, social, economic and political contexts in which particular organisations operate and how these may impact on how funding is sourced and

**REQUIRED SKILLS AND KNOWLEDGE**

used

- organisational policies and procedures in relation to obtaining funding
- provisions of federal, state or territory legislation and funding body requirements that impact on how funds may be sourced and used
- relevant consultancy services to support funding submissions
- relevant protocols and cultural responsibilities that impact on how funding is sourced

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the ability to:

- identify possible sources of funding for organisational activities
- identify required components of funding submissions
- evaluate whether a funding submission meets the funding body's requirements
- follow appeal procedures if required.

**Context of and specific resources for assessment**

Assessment must ensure:

- participation on an actual or simulated board
- access to examples of projects requiring funding
- access to the internet or other sources of information about funding bodies
- access to examples of relevant documents
- knowledge and performance are assessed over time to confirm consistency in performance.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of performance on a board or simulated

| EVIDENCE GUIDE                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <p>board</p> <ul style="list-style-type: none"> <li>• analysis of actual or simulated funding submission</li> <li>• direct questioning combined with reflection of practical board performance by the candidate</li> <li>• analysis of responses to case studies and scenarios</li> <li>• demonstration of techniques</li> <li>• observation of presentations and group discussions</li> <li>• oral or written questioning to assess knowledge</li> <li>• observation of performance in role plays</li> <li>• analysis of feedback from other board members, staff, community or other stakeholders regarding performance.</li> </ul> |

Ensure meeting facilitation enables participation, discussion, problem-solving and <b><i>resolution</i></b> of issues<br>2.4. Brief minute taker on method for recording meeting                |

| ELEMENT               | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                |
|-----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                       | notes in accordance with organisational requirements and conventions for type of meeting                                                                                                                                                                                                                                                                                                                                                            |
| 3. Follow up meetings | <p>3.1. Check transcribed meeting notes to ensure they reflect a true and accurate record of the meeting, and are formatted in accordance with organisational procedures and meeting conventions</p> <p>3.2. Distribute and <b>store minutes</b> and other follow-up documentation within designated time lines, and according to organisational requirements</p> <p>3.3. Report outcomes of meetings as required, within designated time lines</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to:
  - participate in sustained complex interpersonal exchanges and to interact with others
  - listen to, incorporate and encourage feedback
  - conduct oral presentations to a group, to consult participants and to answer questions
  - manage and work with a group to construct an action plan
  - chair meetings
- literacy skills to:
  - categorise and organise information
  - assess information for relevance and accuracy
  - identify and elaborate on key agenda items and source additional information
- numeracy and time management skills to allow for sufficient meeting preparation
- problem-solving skills to choose appropriate solutions from available options.

#### Required knowledge

- culturally appropriate techniques to communicate with people from diverse backgrounds and people with diverse abilities
- key provisions of relevant legislation from all forms of government, standards and codes that may affect aspects of business operations, such as:

**REQUIRED SKILLS AND KNOWLEDGE**

- anti-discrimination legislation
- ethical principles
- codes of practice
- privacy laws
- copyright
- occupational health and safety
- formats for minutes and agendas
- group dynamics
- meeting terminology, structures, arrangements and responsibilities of chairperson
- organisational procedures and policies regarding meetings, chairing and minutes.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- applying conventions and procedures for formal and informal meetings
- chairing meetings in relation to agreed agendas.

**Context of and specific resources for assessment**

Assessment must ensure:

- access to reference material in regard to meeting venues, catering, transport suppliers
- access to names and contacts for meeting participants
- access to office supplies and equipment
- access to computers and relevant software.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- analysis of responses to case studies and scenarios
- demonstration of techniques
- direct questioning combined with review of portfolios of evidence and third party workplace

| EVIDENCE GUIDE                             |                                                                                                                                                                                                                                                  |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | reports of on-the-job performance by the candidate <ul style="list-style-type: none"> <li>• review of minutes, agendas and other communication</li> <li>• review of testimony from team members, colleagues, supervisors or managers.</li> </ul> |
| <b>Guidance information for assessment</b> | Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example: <ul style="list-style-type: none"> <li>• other general administration units.</li> </ul>                                |

## Range Statement

| RANGE STATEMENT                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                   |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |                                                                                                                                                                                                                                                                                                                                                                                                   |
| <b><i>Agendas</i></b> may include:                                                                                                                                                                                                                                                                                                                                                                                                                                                   | <ul style="list-style-type: none"> <li>• correspondence</li> <li>• date, time and location of meeting</li> <li>• date of next meeting</li> <li>• general business</li> <li>• major agenda items</li> <li>• matters or business arising from the minutes</li> <li>• minutes of the previous meeting</li> <li>• reports</li> <li>• statement of the meeting's purpose</li> <li>• welcome</li> </ul> |

# HLTIN403C Implement and monitor infection control policy and procedures

## Modification History

Not Applicable

## Unit Descriptor

### Descriptor

This unit is concerned with infection control responsibilities of employees with supervisory accountability to implement and monitor infection control policy and procedures in a specific work unit or team within an organisation

## Application of the Unit

### Application

This unit does not apply to a role with organisation-wide responsibilities for infection control policy and procedure development, implementation or monitoring

Application of this unit should be contextualised to reflect any specific workplace infection risks, hazards and associated infection control practices

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

### Pre-requisite unit

This unit must be assessed after successful achievement of pre-requisite:

- HLTIN301C Comply with infection control policies and procedures

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Provide information about *infection control policies* and procedures

- 1.1 Explain accurately and clearly to the work group relevant information about infection control policy and procedures, and applicable *industry codes of practice*
- 1.2 Regularly provide information about identified hazards and the outcomes of infection risk assessments to the work group
- 1.3 Provide opportunities for the work group to seek further information on workplace infection control issues and practices

2. Integrate infection control policy and procedure into work practices

- 2.1 Implement infection control policy and procedures with members of the work group
- 2.2 Maintain liaison with person responsible for organisation-wide infection control
- 2.3 Provide coaching and support as required to ensure that individuals/teams are able to implement infection control practices
- 2.4 Adopt work procedures to reflect appropriate infection control practice
- 2.5 Deal with issues raised through consultation and

**ELEMENT****PERFORMANCE CRITERIA**

ensure they are resolved promptly or referred to the appropriate personnel for resolution

2.6 Implement workplace procedures for dealing with infection control risks and hazardous events as necessary

2.7 Encourage employees to report infection risks and to improve infection control procedures

3. Monitor infection control performance and implement improvements in practices

3.1 Promptly investigate infection control hazardous events to identify their cause in accordance with organisation policy and procedure

3.2 Monitor work procedures to control infection risks to ensure compliance

3.3 Regularly review and adjust work procedures to ensure improvements in infection control practice

3.4 Provide feedback to team and individuals on compliance issues, changes in work procedures and infection control outcomes

3.5 Ensure training in work procedures is provided as required to maintain infection control standards

3.6 Identify any inadequacies in work procedures and infection control measures and ensure they are corrected or reported to designated personnel

3.7 Accurately maintain records of infection control risks and incidents as required

3.8 Use aggregate infection control information reports to identify *hazards*, to monitor and improve risk control methods and to indicate training needs

3.9 Report and investigate potential breaches of infection control in line with organisation procedures

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

To demonstrate competence for this unit the worker must acquire the essential knowledge

## REQUIRED SKILLS AND KNOWLEDGE

and skills described:

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Basic understanding of communicable disease transmission
- Knowledge of infection risks and control measures specific to work area and related work processes
- Literacy levels and communication skills of work group members and consequent suitable communication techniques
- Organisation procedures for monitoring and training staff in implementation of infection control procedures and practices
- The hierarchy of risk control measures from most to least preferred (ie. elimination, engineering controls, administrative control and personal protective equipment)
- The significance of client confidentiality in relation to infection control
- The significance of other management systems and procedures for infection control
- Working knowledge, consistent with the elements of competence, of the organisation's applicable infection control policy and procedures and relevant industry codes of practice, which impact on work processes of the specific work unit

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply procedures for adopting appropriate infection control practices within work unit
- Manage change processes in relation to improving infection control work practices
- Monitor compliance with policy and procedures
- Negotiate with the work group in relation to issues such as establishing, maintaining and improving infection control work practices
- Participate in work planning and management
- Provide appropriate supervision of work group in relation to infection control
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Use effective communication and interpersonal skills to explain infection control procedures and their rationale to members of work group, to provide feedback on work

## REQUIRED SKILLS AND KNOWLEDGE

performance in relation to infection control in order to maintain infection control standards

- Use literacy and numeracy skills to:
  - read and interpret workplace documentation relating to infection control policies and procedures
  - accurately explain procedures to others with a range of language and literacy capabilities
  - accurately communicate with team and individuals about organisation policy and procedures for infection control
  - maintain and interpret infection control records

## Evidence Guide

### EVIDENCE GUIDE

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Assessment must demonstrate ability to ensure compliance with the health care establishment's infection control policy as it relates to specific job roles
- Consistency of performance should be demonstrated over the required range of workplace situations

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people

## EVIDENCE GUIDE

- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance.

*Infection control policies and procedures may relate to:*

- Cleaning procedures and schedules
- Cleaning agents
- Cleaning equipment
- Handling, storage and disposal of all types of waste
- Food handling and food safety
- Hygiene procedures
- Infection control risk management
- Infection control incident and hazard reporting
- Sterilising
- Linen production and handling
- Maintenance procedures
- Storage requirements
- Personal protective clothing
- Work flows
- Management of blood and body fluid spills
- Single use of disposables
- Aseptic techniques
- Skin preparation procedures
- Immunisation
- Needle stick injuries
- Personal contact with infectious clients
- Standard and additional precautions
- Confidentiality

**RANGE STATEMENT**

|                                                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

**RANGE STATEMENT**

*Designated personnel may include:*

- Manager
- Infection Control Coordinator
- Quality Improvement Coordinator
- Infection Control Committee
- Occupational Health and Safety Committee

*Aggregate infection control information may include:*

- Records of needle stick injuries
- Records of occupational exposures to blood and body fluids/substances
- Hospital-acquired infection rates
- Australian council on healthcare standards clinical indicators
- HACCP records
- Hazard reports

### Unit Descriptor

#### Descriptor

This unit of competency describes the skills and knowledge required to identify and respond to clinical risks and client reactions associated with pathology specimen collection

### Application of the Unit

#### Application

Work performed requires a broad knowledge base and the ability to apply solutions to a defined range of unpredictable problems

Individuals will take responsibility for their own outputs and limited responsibility for the quantity and quality of output of others

All tasks are conducted in accordance with organisation policies and procedures including WHS and infection control guidelines

of clinical risks

- |                                                               |                                                                                               |
|---------------------------------------------------------------|-----------------------------------------------------------------------------------------------|
| 3. Identify and respond to client reactions and complications | 3.1 Observe client for reactions during and after <i>collection procedure</i>                 |
|                                                               | 3.2 Follow <i>emergency procedures</i> for severe reactions and complications                 |
|                                                               | 3.3 Follow <i>first aid protocols</i> in accordance with organisation policies and procedures |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Anatomy and physiology relevant to the range of collection sites and procedures
- Common reactions and complications of pathology collection procedures relevant to work role
- Direction of flow of oxygenated and deoxygenated blood through the heart and lungs
- Elementary anatomy and physiology of the heart relevant to pathology collection
- Elementary anatomy and physiology of the vascular and nervous systems, particularly the close association of blood vessels and nerves of the limbs relevant to pathology collection
- Elementary anatomy of arteries, veins and capillaries
- Emergency procedures for client reactions and complications
- Relevant medical terminology and common clinical laboratory abbreviations

## REQUIRED SKILLS AND KNOWLEDGE

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply first aid
- Assess potential clinical risks to individual clients of a range of collection procedures
- Demonstrate client observation skills for detection of reactions and complications
- Demonstrate client positioning skills for various collection procedures
- Follow emergency response procedures for client reactions and complications
- Follow response procedures to median nerve injury during venepuncture
- Identify and locate the blood vessels and nerves relevant to the range of collection sites
- Identify elementary functions, common disorders and common diagnostic tests for each of the skeletal, respiratory, digestive, urinary, reproductive, endocrine and lymphatic systems relevant to work role
- Identify major veins in limbs
- Identify significant structures of the heart
- Identify the greater blood vessels which enter and exit the heart
- Use numeracy skills ranging from the ability to complete basic arithmetic calculations such as addition, subtraction, multiplication, and division to recording data
- Use oral communication skills and language competence required to fulfil job roles in a safe manner and as specified by the organisation, including skills in:
  - asking questions
  - providing clear information
  - listening to and understanding workplace instructions
  - clarifying workplace instructions when necessary
  - literacy in English or community language, depending on client group and organisation requirements
- Use problem solving skills required including the ability to use available resources, assemble equipment and prioritise workload

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the

## EVIDENCE GUIDE

Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is preferred for assessment of this unit
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

*Context of and specific resources for assessment:*

- Relevant equipment
- Training arm
- Emergency response procedures
- Infection control procedures
- Clinical risk assessment policy and procedures
- Workplace health and safety guidelines
- Laboratory policy and procedure guidelines
- Pre-test criteria
- Other organisation policies and procedures
- Duties statements and/or job descriptions

*Method of assessment*

- Observation in the work place
- Written assignments/projects or questioning should be used to assess knowledge
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Clinical skills involving direct client care are to be assessed initially in a simulated clinical setting (laboratory). If successful, a second assessment may be conducted during workplace application under direct supervision
- Interviewing and questioning
- Computer-aided assessment
- Formal appraisal systems

## EVIDENCE GUIDE

- Staff/client feedback

- Access and equity considerations:*
- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Related units:*

This unit should be assessed in conjunction with the following related units:

- HLTPAT304D Collect pathology specimens
- HLTPAT306D Perform blood collection

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Clinical and personal information may include:*

- Clinical history
- Allergies

## RANGE STATEMENT

|                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                         |

### PERFORMANCE CRITERIA

- |                                             |                                                                                                                                                |
|---------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Greet client and apply pre-test criteria | 1.1 Correctly identify client                                                                                                                  |
|                                             | 1.2 Obtain relevant personal and clinical information in accordance with organisation policies and procedures                                  |
|                                             | 1.3 Record relevant details in accordance with organisation policies and procedures                                                            |
|                                             | 1.4 Obtain consent to collection procedure from client                                                                                         |
| 2. Prepare for blood collection procedure   | 2.1 Identify appropriate method of <i>collection</i> is identified and follow correct procedures                                               |
|                                             | 2.2 Adopt standard and additional precautions as required                                                                                      |
|                                             | 2.3 Select correct <i>equipment</i> and blood collection tubes and place in order of draw to ensure the collection accords with test requested |
|                                             | 2.4 Follow <i>organisation procedures</i>                                                                                                      |

**ELEMENT****PERFORMANCE CRITERIA****3. Perform relevant routine blood collection procedure**

- 3.1 Follow infection control guidelines throughout procedure to minimise infection/cross infection
- 3.2 Adopt standard and additional precautions as required
- 3.3 Ensure client is correctly and comfortably positioned and appropriately prepared for the specific collection procedure
- 3.4 Seek assistance with procedure if required
- 3.5 Select appropriate collection site and blood collected using *correct procedure* and equipment
- 3.6 Observe client during procedure for potential adverse effects
- 3.7 Transfer correct volume of blood to the selected collection tubes in the set order of draw
- 3.8 Invert collection tubes within timeframe required and according to organisation policies and procedures
- 3.9 Apply pressure to collection site for the required time following withdrawal of needle
- 3.10 Observe and dress blood collection site, and monitor client for adverse effects from the collection

**4. Perform post-blood collection procedures**

- 4.1 Dispose of contaminated and general waste in accordance with infection control protocols and organisation policies and procedures and taking into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- 4.2 Label blood collection tubes with time and date of collection, client details and other required information
- 4.3 Complete all necessary documentation and information transfer so samples can be advanced to further processing in accordance with organisation procedures
- 4.4 Prepare collected samples for transit to further processing or are *stored* according to requirements of test(s)

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Basic knowledge of human anatomy and physiology in relation to the vascular, arterial and nervous system and relevant to the variety of blood collection procedures and collection sites
- Boundaries of responsibilities and ability to refer problems to supervisor
- Clinical risks of blood collection procedures
- Correct techniques for blood collection through venepuncture or skin puncture
- Ethics relevant to blood collection
- Factors which may affect the chemical analysis of blood
- Function of needles and syringes, tourniquets, cleansing solutions and swabs and evacuated systems
- Medical terminology relevant to blood collection
- Obligations with respect to confidentiality of client information
- Specimen storage procedures
- Test requested and any special requirements, e.g. appropriate times to collect, impact of drugs, timing of last dose, required fasting times, protecting the integrity of the specimen
- The use of collection tube additives, including EDTA, sodium citrate, lithium/sodium heparin, fluoride oxalate, separation gel

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply assessment skills for determination of appropriate blood collection site and procedure
- Apply knowledge of anatomy and physiology relevant to blood collection
- Apply relevant WHS procedures
- Apply standard and additional precautions
- Apply transferring technique to avoid contamination
- Comply with organisation policies and procedures including WHS and infection control
- Correctly label blood collection tubes

- Demonstrate procedures to be implemented to resolve complications resulting from venepuncture
- Demonstrate the function of needles and syringes, tourniquets, cleansing solutions and swabs, evacuated systems, and other equipment and disposables
- Demonstrate the procedure for client identification
- Demonstrate the use of all blood collection equipment appropriate to a range of collection sites and procedures
- Exhibit an appropriate level of care reflecting courtesy, responsiveness and helpfulness
- Operate applicable laboratory information system
- Select appropriate transit procedure and documentation, or selection of appropriate storage
- Select equipment and prepare blood collection tubes for a specific, or a series of, pathology test(s), excluding arterial punctures, arterial/venous fistula, or shunt punctures or disconnections
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Undertake first aid management relevant to risks of blood collection
- Work cooperatively in a team environment
- Work without close supervision

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions

## EVIDENCE GUIDE

as closely as possible

### *Context of and specific resources for assessment:*

- A real or simulated workplace environment to mimic the relations and communications between client reception, blood collection, specimen reception and the laboratory
- use of an artificial/training arm or mannequin as required
- All necessary blood collection equipment and tubes
- An approved laboratory procedure manual

### *Method of assessment*

- Observation in the work place
- Written assignments/projects or questioning should be used to assess knowledge
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Clinical skills involving direct client care are to be assessed initially in a simulated clinical setting (laboratory). If successful, a second assessment may be conducted during workplace application under direct supervision
- Verbal and/or diagrammatic explanations
- Practical exercises and tasks
- Question and answer (verbal)
- Short written exercises, including multiple choice
- Client feedback
- Recollection rates

### *Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal

## EVIDENCE GUIDE

and/or Torres Strait Islander clients and communities

### *Related units:*

This unit should be assessed in conjunction with the following related unit:

- HLTPAT308C Identify and respond to clinical risks associated with pathology specimen collection

Holistic assessment practice with other pathology units of competency is encouraged

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Blood collection is in accordance with organisation policies and procedures and relates to:*

- Venepuncture on adults, adolescents, paediatrics and born-at-term neonates
- Capillary collection from adults, adolescents, paediatrics and born-at-term neonates, but not including premature neonates
- Other blood collections as specified by organisation policy

*Complex blood collection techniques (not covered by this unit) include blood collection:*

- From premature neonates
- Via peripherally inserted central catheter
- Arterial collections via lines or artery
- Other blood collections as specified by organisation policy

## RANGE STATEMENT

- Blood sample requests will come from:*
- Registered medical practitioner,
  - Nominated nursing staff eg nurse practitioner
- Personal protective equipment includes:*
- Gloves
  - Gowns
  - Masks
  - Goggles and safety glasses
- Venues for collection may include:*
- Centres/clinics
  - Home visits - invalid, elderly or disabled clients
  - Hospitals
  - Other facilities including aged care and mental health facilities
- Blood collection procedures may include:*
- Skin puncture
  - Venepuncture
- Equipment and disposables include:*
- Tourniquets
  - Collection tubes
  - Vacuum flasks
  - Range of syringes and needles
  - Multi-sample needle and holder
  - Winged infusion set ("butterfly")
  - Evacuated blood collection equipment
  - Lancets
  - Sharps containers
  - Steri-wipes
  - Dressings
  - Local anaesthetic skin cream
- Correct storage requirements of specimens may include:*
- Use of ice or dry ice
  - Maintenance of warm temperature
  - Timely transfer to storage
  - Protection from light

### Unit Descriptor

#### Descriptor

This unit of competency describes the skills and knowledge required to follow procedures for collection of pathology specimens other than blood from clients and clients for pathology testing

### Application of the Unit

#### Application

Work performed requires a broad knowledge base and the ability to apply solutions to a defined range of unpredictable problems

Individuals will take responsibility for their own outputs and limited responsibility for the quantity and quality of output of others

All tasks are conducted in accordance with organisation policies and procedures including WHS and infection control guidelines

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

- |                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|----------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Receive request for collection of <i>pathology specimen</i> | 1.1 Assess request to determine equipment required and other special requirements<br>1.2 Identify precise nature and requirements of the test request<br>1.3 Collect relevant clinical and personal information by interview of client and document correctly<br>1.4 Ensure <i>pre-test</i> criteria are met<br>1.5 Refer pathology requests to supervisor if required<br>1.6 Use of pathology collection manuals correctly<br>1.7 Select and prepare <i>equipment</i> and appropriate collection containers |
| 2. Perform procedure                                           | 2.1 Explain procedure to client and obtain consent in accordance with legal and organisation requirements<br>2.2 Follow infection control guidelines<br>2.3 Use personal <i>protective equipment</i> appropriately                                                                                                                                                                                                                                                                                           |

**ELEMENT****PERFORMANCE CRITERIA**

according to organisation policy

2.4 Use collection and clinical equipment appropriately to avoid contamination of sample

2.5 Follow organisation guidelines for safe handling of pathology specimens/non pathology specimens

2.6 Adopt standard and additional precautions and seek assistance as required

2.7 Follow appropriate procedures for collection of sample

2.8 Follow WHS guidelines relating to disposal of equipment

3. Label and store specimens for transportation

3.1 Label specimens in accordance with ISO 9000 or the National Australian Testing Authority

3.2 Process and *store specimens* correctly

3.3 Contain specimens appropriately for transport

3.4 Report specimens ready for transportation

4. Care for client

4.1 Position client correctly and make comfortable

4.2 Monitor client during and on completion of collection procedure to identify potential adverse outcomes

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do

## REQUIRED SKILLS AND KNOWLEDGE

the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Abbreviations commonly used in a clinical laboratory
- Basic anatomy and physiology relevant to type of pathology collections
- Basic medical terminology used in a clinical laboratory
- Boundaries of responsibilities
- Client care
- Correct storage methods for specimens and fixatives
- General knowledge of pathology laboratories e.g. various departments and tests performed
- Obligations with respect to confidentiality of client information and legal and ethical issues
- Potential complications of collection procedures
- Tests and appropriate times to collect eg drugs, last dose
- Understanding of test requested and any special requirements - protecting the integrity of the specimen

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply basic first aid
- Apply standard and additional precautions
- Comply with policies and procedures including WHS, infection control etc
- Demonstrate appropriate care when handling radioactive isotopes
- Demonstrate correct techniques for collection of pathology specimens other than blood
- Demonstrate knowledge of pre-test criteria
- Exhibit an appropriate level of care reflecting courtesy, responsiveness and helpfulness
- Handle sterile jar so as not to contaminate
- Maintain client confidentiality
- Respond productively to supervision
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Use basic computer skills
- Use literacy support available in the workplace that may range from having access to support or assistance from expert/mentor/supervisor, to having no communication supports available

## REQUIRED SKILLS AND KNOWLEDGE

- Use numeracy skills that may range from the ability to complete basic arithmetic calculations, weighing and measuring requirements to recording data
- Use oral communication skills and language competence required to fulfil job roles in a safe manner and as specified by the organisation, including skills in:
  - asking questions
  - providing clear information
  - listening to and understanding workplace instructions
  - clarifying workplace instructions when necessary
  - literacy in English or a community language, depending on client group and organisations requirements
- Use problem solving skills required including ability to use available resources Use reading and writing skills required to fulfil job roles in a safe manner and as specified by the organisation at a level of skill that may range from the ability to understand symbols used in WHS signs, to reading and interpreting requests for pathology specimens and completing appropriate documentation
- Use time management strategies to set priorities
- Work cooperatively in a team environment and unsupervised (some centres only have one staff)

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is preferred for assessment of this unit
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions

## EVIDENCE GUIDE

as closely as possible

*Method of assessment may include:*

- Observation in the work place
- Written assignments/projects or questioning should be used to assess knowledge
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Clinical skills involving direct client care are to be assessed initially in a simulated clinical setting (laboratory). If successful, a second assessment may be conducted during workplace application under direct supervision
- Formal appraisal systems
- Staff/client feedback
- Portfolio/CV
- Supporting statement of supervisor(s)
- Authenticated evidence of relevant work experience and/or formal/informal learning

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Related units:*

- However holistic assessment practice with other pathology units of competency is encouraged

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Pathology specimen requests are made by:*

- Registered medical practitioner or specialist or nominated nursing staff eg nurse practitioner

*Clients may include*

- Adults
- Children and infants

*Pre-test requirements include:*

- Client identification
- Client details
- Collection of clinical information
- Appropriate procedures for paediatric clients may require specialised skills and knowledge

*Pathology specimens other than blood may include:*

- Saliva
- Sputum
- Urine including via catheter
- Semen
- Stool
- Swabs
- Skin scraping
- Breath
- Aspirates

*Protective clothing includes:*

- Gloves
- Gowns
- Masks
- Goggles

**RANGE STATEMENT**

*Venues for collection may include:*

- Centres/clinics
- Collection centre
- Home visits
- Hospitals
- Other facilities including aged care and mental health facilities
- General workplaces

*Equipment includes:*

- Vacuum flasks
- Syringes
- Needles
- Lancets
- Steri-wipes
- Band-Aids
- Paediatric urine bags
- Swabs
- Scalpels
- Sterile jars
- Breath balloons
- Scraping cards for skin and nail scrapings

*Correct storage of specimens may include:*

- Kept on ice or dry ice
- Kept warm
- Actioned immediately
- Protected from light
- Use of fixatives
- Procedures may be undertaken in an assisting role eg assisting a pathologist with a fine needle aspiration

**Unit Sector(s)**

Not Applicable

## HLTOHC408B Apply fluoride varnish

### Unit Descriptor

#### Descriptor

This unit describes the skills and knowledge required by practitioners working in specific rural, remote and isolated areas and/or facilities to apply fluoride varnish products as prescribed in individualised oral health care plans and where approved within their designated role

### Application of the Unit

#### Application

This unit is intended to address skills and knowledge appropriate for health workers whose work roles may require the application of fluoride varnish in accordance with relevant jurisdictional, legislative and regulatory requirements

The unit applies to practitioners working in specific contexts, such as Aboriginal and/or Torres Strait Islander health workers as well as nurses working in rural, remote and isolated areas

The work involves implementation of verbal or written individualised oral health care plans that have been prepared by, or under advice from, an appropriate registered oral health practitioner

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

### Pre-requisite

This unit must be assessed after achievement of:

- HLTIN301C Comply with infection control policies and procedures

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Prepare for and participate in the application of *fluoride varnish*

1.1 Ensure client's *oral health care plan* developed by an oral health practitioner specifically includes the application of fluoride varnish and that there are no *contraindications* to this procedure

1.2 Check scope of own work role to ensure it includes application of fluoride varnish as advised by an oral health practitioner in an individualised oral health care plan

1.3 Explain fluoride varnish application procedure to client and/or *significant others* and check their

**ELEMENT****PERFORMANCE CRITERIA**

understanding of the *benefits of fluoride varnish* and the *risks associated with fluoride varnish*

1.4 Explain the *advantages of fluoride varnish over other procedures* and the *disadvantages of fluoride varnish over other procedures*

1.5 Confirm informed *consent*

1.6 Ensure client is positioned as comfortably as possible according to their individual needs

1.7 Prepare *fluoride varnish kit* and other equipment as required

2. Apply fluoride varnish to teeth

2.1 Position the client for safety and comfort

2.2 Prepare teeth for application in accordance with product instructions

2.3 Dispense *appropriate amount of fluoride varnish*

2.4 *Apply fluoride varnish in correct manner* with applicator to specific teeth as recommended in the oral health care plan

2.5 Apply fluoride varnish in line with *legislative requirements, organisation policies and procedures and standard precautions*

3. Provide information to client and/or significant others

3.1 Inform client and/or significant others of the importance of following manufacturer instructions and *recommended guidelines for eating, drinking fluids and brushing/cleaning teeth* following application

3.2 Inform client and/or significant others of any expected changes in tooth appearance or sensation, including colour, feel or taste

3.3 Ensure client and/or significant others are aware of oral health practitioner's recommended schedule for ongoing application in line with their individualised oral health care plan

3.4 Provide information to client and/or significant others in both verbal and take home written or picture formats as appropriate to their individual needs or preferences

**ELEMENT****PERFORMANCE CRITERIA**

- |                                                                                         |                                                                                                                              |
|-----------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|
| 4. Complete reporting and documentation according to organisation policy and procedures | 4.1 Document and report application undertaken and any concerns arising during contact with client and/or significant others |

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Awareness of relevant jurisdictional legislation and regulation relating to fluoride, including schedule, supply, authorisation and disposal
- Awareness of the National Oral Health Plan and other relevant state, territory and national government policy and programs
- Advantages and disadvantages of fluoride varnish use over other preventive products/procedures
- Basic anatomy and physiology underpinning oral health and hygiene
- Benefits and risks associated with fluoride varnish
- Causes and prevention, of tooth wear, including erosion, abrasion and attrition
- Common equipment and aids utilised in the application of fluoride, such as mouth props
- Effective self-care practices for oral health
- Emergency procedures that may be required during the application of fluoride varnish
- Factors that impact on oral health, including:
  - abuse
  - access to services

- accumulation of plaque and calculus
- alcohol, licit and illicit drugs and substances, and over the counter and herbal treatments
- alcohol misuse
- bacteria in dental plaque
- client education
- correct infant feeding practices
- diet and nutrition, including fluids
- fluoride
- general health and wellbeing
- immunosuppressant conditions
- oral piercings
- medical history
- psychological issues, such as fear of being seen without dentures or persisting with ill fitting dentures for satisfaction of others
- salivary function
- smoking
- social and cultural determinants of health
- susceptible tooth surfaces
- transmission of bacteria particularly from parent to child
- trauma, such as from seizures
- Healthy eating recommendations as identified in the National Health and Medical Research Council's (NHMRC) Australian Dietary Guidelines
- Work health and safety (WHS) issues and procedures, including those related to manual handling and infection control

*continued....*

*Essential knowledge (cont'd):*

- Oral disease and broad treatment options available
- Own work role and responsibilities in the application of fluoride varnish Personal safety and security risks associated with provision of fluoride varnish application
- Principles and practices in undertaking technical skills associated with the application of fluoride
- Principles and practices of confidentiality, privacy and consent
- Processes and strategies to support people with oral hygiene care needs
- Relevant evaluation criteria for monitoring effectiveness of fluoride varnish application program
- Role of significant others in supporting clients oral health care needs
- Safe application of fluoride varnish
- Safe storage of products
- Symptoms and signs that suggest need for further assessment and/or treatment
- The relationship between oral health and general health

- Tooth development, including understanding of the:
  - life cycle of a tooth
  - tooth eruption
  - tooth structure
  - tooth types

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Adhere to own work role and responsibilities in line with organisation policies and procedures
- Apply fluoride varnish safely and effectively in line with product guidelines and oral health care benefits
- Carry out effective oral health self-care practices
- Communicate effectively with people requiring application of fluoride varnish and their families and/or carers and/or significant others
- Identify and respond to risks associated with applying fluoride varnish
- Liaise and report appropriately to supervisor and/or oral or other health practitioners
- Make informed observations and report appropriately, including the identification of variations to oral health care support requirements
- Obtain and follow relevant information from an individualised care support plan
- Reflect on and improve own level and application of skills and knowledge to achieve desirable outcomes and maintain own capabilities
- Use processes, aids and equipment appropriately in the application of fluoride varnish
- Use relevant technology, including information technology safely and effectively

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply basic problem-solving skills to resolve problems of limited difficulty within organisation protocols
- Apply literacy and numeracy skills required to fulfill work role in a safe manner and as specified by the organisation
- Consistently demonstrate interpersonal skills, including empathy when relating to people from a range of backgrounds and abilities
- Work effectively with clients, colleagues and supervisors

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider the particular workplace context

*Access and equity considerations:*

- All workers in health and community services environments should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and/or Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and/or Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include:
  - access to appropriate workplace where assessment can take place
  - simulation of realistic workplace setting

## EVIDENCE GUIDE

### *Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competency will include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Consistency of performance should be demonstrated over a range of relevant workplace conditions

### *Related units:*

- This unit may be assessed independently or in conjunction with other units with associated workplace application

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *Fluoride varnish refers to:*

- A highly concentrated form of fluoride which is applied to tooth's surface as a type of topical fluoride therapy
- may be applied to enamel, dentine or cementum of tooth and can be used to help prevent decay, remineralise tooth surface and treat dentine hypersensitivity

**RANGE STATEMENT**

- not permanent varnish but due to adherent nature will stay in contact with tooth surface for several hours

*Clients may include:*

- Clients with prescribed application of fluoride varnish in an individualised oral health care plans, such as those in:
  - aged care facilities
  - correctional facilities
  - mental health facilities
  - rural, remote or isolated communities

*Oral health care plan may include:*

- A stand-alone individualised oral health care support plan
- Care plan written by an appropriate health practitioner
- Oral hygiene care plan
- Personal care tasks embedded in a wider individualised plan

*Contraindications may include but not be limited to:*

- A known allergy to one of the constituents of the varnish
- Being pregnant or lactating
- Last application less than three months earlier
- Not having eaten prior to treatment

*Significant others may include but are not limited to:*

- Any person with the appointed right to speak for the client, such as:
  - carers
  - guardians
  - members of family
  - other professionals

*Benefits of fluoride varnish include but may not be limited to:*

- Prevention and reduction of dental caries
- Reduced tooth sensitivity

**RANGE STATEMENT**

*Risks associated with fluoride varnish include but may not be limited to:*

- Incorrect dose which may be toxic
- Over-application i.e. less than three months apart
- Swallowing fluoride varnish which can be toxic and corrective action i.e. drinking milk must be taken

*Advantages of fluoride varnish over other procedures includes but may not be limited to:*

- Can be used in some cases where there is tooth sensitivity resulting from erosion or abrasion
- Dries rapidly and will set even in presence of saliva
- Has sticky consistency which helps it adhere to tooth's surface
- Quickly applied

*Disadvantages of fluoride varnish over other procedures includes but may not be limited to:*

- Is technique sensitive and poor technique, such as not covering entire specified surface negates outcomes
- May cause a temporary change in the surface colour of teeth as well as some filling materials
- May cause gagging and/or vomiting
- May require a dry field during application
- Requires client cooperation

*Consent may be:*

- Verbal
- Written

*Fluoride varnish kit may consist of:*

- Applicator/micro-brush
- Cotton rolls
- Fluoride varnish
- Gauze for cleaning tooth in preparation for varnish

*Appropriate amount of fluoride varnish refers to:*

- Amount as stated in the product application guidelines or oral health care plan and depending upon the specific product

*Apply fluoride varnish in correct manner refers to:*

- Keeping client mouth open and tongue away from teeth
- Maintaining moisture control
- Retracting lip, wiping and applying a thin layer of varnish to the teeth as prescribed in the oral health

## RANGE STATEMENT

care plan

- Ensuring varnish is applied only directly to the area prescribed in the oral health care plan without contact with other tissues
- Wiping tongue to remove excess varnish using wipe
- Never dispensing product in addition to that stated in the oral health care plan

*Legislative requirements refer to:*

- Federal, state or territory legislation that may impact on workers' practices and responsibilities, noting that implementation of the unit of competency must reflect the legislative framework in which a worker operates

*Organisation policies and procedures may include but not be limited to:*

- Clinical protocols
- Position descriptions
- Workplace policies and procedures, including:
  - infection control
  - WHS

*Standard precautions refer to infection control and include:*

- Washing hands before and after oral care
- Appropriate use of personal protective equipment (PPE), including:
  - gloves
  - mask
  - eye/facial protection e.g. glasses/face shield
  - gown
- Use, where appropriate, environmental barriers, such as plastic coverings on chair headrests
- Disposal of PPE
- Appropriate handling of contaminated waste
- Effective environmental cleaning

*Recommended guidelines for eating, drinking fluids and brushing/cleaning teeth include:*

- Client should not eat or drink for specified time as per product instructions to prevent removal of fluoride varnish unless necessary e.g. if diabetic
- Client should avoid hot foods and should eat a soft, non-abrasive diet for the rest of the day

**RANGE STATEMENT**

- Drinking cool fluids, preferably water, is acceptable
- Resume regular and effective oral health procedures as per practitioners recommendations in the oral health care plan

**Unit Sector(s)**

Not Applicable

# CHCYTH011 Work effectively with young people and their families

|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment.</p> |

## Application

This unit describes the skills and knowledge required to cooperate in mutual agreement on the activities, outcomes and processes of young people's family members/nominated carers, for the purpose of achieving goals identified in consultation with the young person to address their concerns and/or risks.

This unit applies to community services work in a range of contexts where the young person is considered the primary client.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Establish relationship with the young person's nominated carer/family members

1.1 Gather necessary information about the background and circumstances of young person and their family/carers with respect for privacy and confidentiality

1.2 Provide information to young person and their family/carers in a factual, clear and ethical manner to promote positive responses

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1.3 Identify issues and changes needed to behaviour and relationships of young people and their families/carers

1.4 Maintain clear, ethical and honest relationships with young person as the primary client, and their family/carers as secondary clients

1.5 Encourage family members to reflect on their relationships, expectations and personal responsibilities

1.6 Identify obstacles to professional relationships with families/carers

1.7 Record concerns according to the code of conduct and ethics

2. Exchange information with family/carers about young person's needs and/or risks

2.1 Use effective communication and model positive behaviour techniques to encourage active participation and appropriate responses

2.2 Monitor and anticipate behaviour and mood of clients and respond appropriately

2.3 Provide clients with clear and relevant information at a suitable language and comprehension level within the parameters of confidentiality and privacy

2.4 Analyse own values for impact on attitudes and interactions and to detect and avoid personalising issues, discrimination or stereotyping

3. Determine a mutual approach to addressing the young person's needs

3.1 Check that objectives, outcomes and processes of young person's responses are consistent with organisation's policies and objectives and service outcomes

3.2 Negotiate with the young person their goals and indicators of achievement and include other persons where nominated by the young person

3.3 Plan a structured sequence of activities and timetable to achieve client objective within available resources

3.4 Consult team members for feedback on the planned program

3.5 Identify resources needed for continuing work with

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

clients and allocate according to priorities and availability

4. Respond to families'/nominated carers concerns about young person

4.1 Develop trust and address family members'/carers' concerns, including limitations on confidentiality and power differentials between individuals

4.2 Identify and prioritise short- and long-term implications of family/ carer concerns

4.3 Validate family/ carer concerns using a range of checking sources including consultation with the young person as primary client

4.4 Provide information to family members/ carers on a need-to-know basis with respect for young person's privacy

4.5 Negotiate conditions and confirm agreement with families/ carers to encourage commitment, cooperation and mutual action

4.6 Identify indicators of concerns, patterns of behaviour, strengths and barriers to family involvement and consider this information in the approach taken

4.7 Encourage family members/ carers to take responsibility for agreement on objectives, targets and outcomes

4.8 Ensure location of client meetings promotes neutrality, individual empowerment, comfort, trust, privacy, energy and focus for all clients

4.9 Guide clients to maintain positive direction, cooperation, achievements and respect

## Foundation Skills

The foundation skills described those required skills (language, literacy and numeracy) that are essential to performance.

- Oral communication – in order to engage in collaborative discussions with young people and their families.

The remaining foundation skills essential to performance are explicit in the performance criteria of this unit.

## Unit Mapping Information

No equivalent unit.

# Assessment Requirements for CHCYTH011 Work effectively with young people and their families

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                         |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment.</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be demonstrated evidence that the candidate has completed the following tasks:

- used a range of strategies to empower at least two young people and their families/carers to maintain motivation and purpose and achieve agreed outcomes, including:
  - facilitating the young person's individual expression of needs to families/carers and others
  - using varied communication strategies with young people and families/carers to ensure that opportunities for exploring issues are fair, confidential, and appropriate to the needs of individuals
  - advocating for the needs of young people
- assessed at least two clients' background and behaviour to determine family intervention and youth support processes
- planned family intervention-based support strategically to achieve service outcomes and priorities for at least one young person.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- principles of communication for specified outcomes, including:
  - empathetic listening
  - meaning and impact of body language
  - eye contact
  - interpreting hidden and complex messages
  - feedback
  - use of reflection, review and debriefing
  - facilitation of interaction and participation
- principles of group dynamics and interaction including:
  - differentials in power
  - empathy/identification
  - trust-building
  - challenging
- rights of children and young people
- ethics and codes of conduct where the young person is the primary client
- privacy legislation applied to situations of information exchange between a range of individuals and organisations about a young person as primary client of the service
- understanding of own values and attitudes and their impact on work and relationships.

## Assessment Conditions

Skills must be demonstrated in the workplace.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

## CHCYTH004 Respond to critical situations

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                         |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment.</p> |

### Application

This unit describes the skills and knowledge required to maintain safety through effective response to potential or actual critical situations.

This unit applies to staff working in specialist services and in residential work sites or in the community.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Implement risk-minimisation strategies

1.1 Establish framework for dealing with potential crisis situations

1.2 Undertake timely risk assessment of potential crisis situation, with due consideration for the safety of young people and others

1.3 Identify, assess and implement a variety of possible strategies to minimise risk in accordance with organisational procedures

1.4 Recognise the possible causes of incidents and assess

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

these for relevance to the safety and welfare of young people and the service environment

1.5 Seek and provide information on potential responses to the appropriate team members for action and support

1.6 Request assistance clearly and promptly

2. Maintain a safe environment for young people

2.1 Identify and routinely implement organisation's policies, procedures and practices designed to maximise physical and emotional safety of young person

2.2 Maintain healthy and safe environment to minimise potential for harm

2.3 Ensure all legislative and ethical requirements are met by self and those who supervise

3. Prevent escalation of violent behaviour

3.1 Routinely monitor person's behaviour pattern to ensure aggressive or abusive behaviour is minimised

3.2 Develop plan of care outlining ways to prevent, and respond to clients' expressions of violence against self or others, communicate it to relevant personnel and implement the plan

3.3 Anticipate potential causes of conflict and harmful behaviour and respond in a manner that promotes calm and reassurance, to prevent escalation

3.4 Use procedure to protect clients from endangering themselves or others that are consistent with legal, ethical and organisation requirements, and safety considerations

3.5 Make appropriate judgements relating to physical restraint, based on balance of risk and safety of all

3.6 Provide assistance as necessary and appropriate to the situation

3.7 Complete relevant documentation, as required

4. Secure the safety of

4.1 Use calm, confident and assertive communication to establish positive personal interaction and exchange

# Assessment Requirements for CHCYTH004 Respond to critical situations

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                         |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment.</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be demonstrated evidence that the candidate has completed the following tasks at least once:

- established a framework for dealing with potential crisis situations which covers:
  - identifying and assessing risks to client safety and welfare
  - understanding and anticipating possible causes of conflicts
  - identifying and implementing risk-minimisation strategies
  - providing information on possible responses to team members
  - stating when to request assistance of others
  - detailing types of assistance appropriate to various situations
  - identifying equipment available to support response to potential crisis situations
- maintained a safe and healthy environment to minimise the risk of crisis situations
- used effective communication skills and techniques in all communications with client, appropriate to the situation
- documented actions taken according to organisational procedures and policies, clearly and accurately.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- team roles and responsibilities and reporting requirements
- responsibilities of child protection reporting and duty of care
- understanding how critical incidents and risks arise both generally and in particular situations
- common mental health issues in young people
- principles of effective communication for counselling, risk-assessment, negotiation, mediation and information management
- code of conduct
- organisation's policies, guidelines and procedures and emergency protocols.

## Assessment Conditions

Skills must be demonstrated in the workplace.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

## CHCYTH003 Support young people to create opportunities in their lives

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                                         |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment.</p> |

### Application

This unit describes the skills and knowledge required to assist young people to identify the challenges and opportunities in their lives and to work towards their goals on an individual or group level.

This unit applies to work undertaken in all youth work roles where the young person is the primary client.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Create a relationship of trust and respect

1.1 Apply principles of youth work practice to facilitate safe individual or group processes for interaction

1.2 Identify the conditions necessary for young people to change and grow

1.3 Listen to and observe the young person's stories experiences, and behaviour to clarify concerns and needs

1.4 Encourage and support young people to identify

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

relationships between their issues and social structures

1.5 Respect the young person's culture/s and way of interacting

2. Work with young people to identify their needs, rights, strengths, hopes and opportunities

2.1 Use a range of communication skills to identify and explore the young person's challenges, strengths and resources

2.2 Encourage the client to reframe their current circumstances to support their own understanding

2.3 Identify and acknowledge circumstances outside the young person's control

2.4 Support the young person to communicate their issues or problems in a way appropriate to their individual needs, background and culture

2.5 Take appropriate action to address immediate issues or concerns

2.6 Confirm own understanding of issues and opportunities with the young person

3. Identify goals with the young person

3.1 Use creative methods, processes and questions to consider and create possibilities

3.2 Establish with the young person their desired outcomes

3.3 Assist young people to explore future possibilities and ways of being

3.4 Identify barriers that hinder the way young people would like changes to take place

4. Develop and implement action plans

4.1 Use a range of youth work interventions to create future opportunities

4.2 Explore additional resources needed to achieve goals

4.3 Develop proposals and strategies for action plans

4.4 Measure and ensure change is noticed

4.5 Document intervention work as required

## Foundation Skills

*The foundation skills described those required skills (language, literacy and numeracy) that are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Range of Conditions

*Specifies different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.*

*Range is restricted to essential operating conditions and any other variables essential to the work environment.*

Context for youth work must include one or more of the following:

- centre-based work
- drop-in centres, recreational facilities
- housing and residential services
- outreach and home visits, street, parks
- schools
- online youth work, web-based, emails, discussion rooms
- telephone contact

## Unit Mapping Information

No equivalent unit.

|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment.</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be demonstrated evidence that the candidate has completed the following tasks:

- interacted, encouraged and supported at least two young people in both an individual and a group setting, including:
  - supporting the young people according to their circumstances and the objectives of each individual's desired goals, individual needs, risks and circumstances, including education and employment
  - supporting vulnerable young people and those with special needs and risks to participate in the decision-making and planning of actions and opportunities
  - creating future opportunities for the individuals using a range of youth work interventions and documented measures of change.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- aspects of human behaviour and development related to young people, their personal and social development and relationships
- statutory requirements and application of the concept of duty of care and child protection

- organisation reporting procedures and practice
- case planning practices and principles
- principles of effective communication and cultural practices, and customs of the community and the young people in the service
- relevant organisation procedures and policies related to program, service and personal support for young people, referral, reporting of young people's issues and experiences
- support services and specialists and their guidelines for access and service provision.

## Assessment Conditions

Skills must be demonstrated in the workplace.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

## CHCYTH002 Work effectively with young people in the youth work context

### Modification History

| Release   | Comments                                                                                                                                                                                                                                                             |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Changes to elements and performance criteria. New evidence requirements for assessment.</p> |

### Application

This unit describes the skills and knowledge required to work in the youth work context.

The unit focuses on historical and contemporary youth sector practice and understanding of the current status of young people.

This unit applies to work undertaken in all youth work roles where the young person is the primary client.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

*Elements define the essential outcomes.*

1. Apply understanding of the social, historical, economic, legal and political contexts of young people

#### PERFORMANCE CRITERIA

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

- 1.1 Assess and respond to the needs of young people within the context of their experiences
- 1.2 Research, analyse and maintain up-to-date knowledge and awareness of the social, political, economic and legal contexts of young people
- 1.3 Research, analyse and apply understanding of

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

youth policy in practices of youth work

1.4 Apply understanding of the historical and cultural constructs of youth and the changing context of young people

2. Apply understanding of the context of youth work

2.1 Apply knowledge of youth contexts to youth work practice

2.2 Identify legal frameworks which impact on context of youth work

2.3 Research, maintain and apply models and frameworks of youth work in a variety of youth work contexts

2.4 Develop a comprehensive understanding of the youth sector

3. Work within the core values and practice frameworks of youth work

3.1 Assess core youth work practice values to ensure supports and interventions are young person-centred

3.2 Apply practice frameworks to maximise support for the young person as a unique individual

3.3 Demonstrate support for the young person's rights and safety including access and equity of services

4. Work with understanding of the impact of values in determining the approach to working with young people

4.1 Identify and reflect on own values and experiences which may impact on approaches to youth work

4.2 Work with awareness of organisation's values

4.3 Make sure interventions and supports are appropriate to the young person's own values

**Foundation Skills**

*The foundation skills described those required skills (language, literacy and numeracy) that*

*are essential to performance.*

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

## Range of Conditions

*Specifies different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.*

*Range is restricted to essential operating conditions and any other variables essential to the work environment.*

- Context for youth work must include one or more of the following:
- centre-based work
  - drop-in centres, recreational facilities
  - housing and residential services

# Assessment Requirements for CHCYTH002 Work effectively with young people in the youth work context

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                             |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Changes to elements and performance criteria. New evidence requirements for assessment.</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be demonstrated evidence that the candidate has completed the following tasks:

- followed effective processes for work with at least three young people by:
  - checking and analysing information for assessment of risks, special needs, significant changes, and personal and social developmental levels for young people
  - making decisions based on knowledge of the impact of cultural and personal values on behaviour and expectations
  - providing appropriate support and/or services
- provided supervision and care based on assessed risk and justifiable degree of care and concern
- responded to risks and incidents of varying degrees of severity
- used clear and reassuring communication relevant to the culture of young people.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- cultural practices which will have an impact on decisions made about what allowances are made and what rights are given and responsibilities expected

- current status of young people in the context of:
  - social and cultural context of youth
  - historical, economic, political and social contexts of young people
  - rights, needs and responsibilities of young people
  - risk-taking and social behaviour in young people
  - young people as primary client
  - changing contexts of young people
- processes for getting advice and assistance when there are ethical or professional issues
- relevance of the work role and functions to maintaining sustainability of the workplace, including environmental, economic, workforce and social sustainability
- impact of popular beliefs on values, attitudes and behaviour
- the organisation's codes of conduct or code of ethics/duty of care
- range of specialist support services and programs available to young people
- social, political, historical and economic contexts of the service response to the needs and interests of young people.

## Assessment Conditions

Skills must be demonstrated in the workplace.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

| Release 1.0 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Combination of content from units CHCPROT429A and CHCRF301E. Significant changes to elements and performance criteria. New evidence requirements for assessment.</p> |

### Application

This unit describes the skills and knowledge required to work within an established child protection framework. It also covers standard protocols to maintain a safe environment for children and young people.

This unit applies to a range of child protection work occurring in an interagency framework of practice.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Implement principles of child protection

1.1 Perform work requirements according to legal, political and community expectations of child protection work

1.2 Demonstrate understanding of the child protection system, roles and responsibilities of key agencies

## ELEMENT

## PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

|                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| Release 1.0 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Combination of content from CHCPROT429A and CHCRF301E. Significant changes to elements and performance criteria. New evidence requirements for assessment.</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be demonstrated evidence that the candidate has completed the following tasks:

- worked collaboratively with at least two families, including:
  - applying a range of collaborative work practices when working with families, children, young people, colleagues and other agencies
  - adhering to child protection principles and work practices while performing work role
  - applying self-management strategies and safe work principles
  - communicating and responding appropriately to children and families
  - supporting families to ensure that the child or young person is safe
- performed the activities outlined in the performance criteria of this unit during a period of at least 120 hours of work in at child protection service.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role.

These include knowledge of:

- legal, social and political context of child protection work
- interagency framework and agreed protocols
- roles and responsibilities of key agencies and personnel
- effects of child abuse and neglect and its impact on the process of investigation and assessment
- agreed guidelines of collaboration
- worker safety and self-management principles
- cultural and linguistic differences
- organisation standards, policies and procedures.

## Assessment Conditions

Skills must be demonstrated in the workplace

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                              | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                        |
|------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Establish effective work environment for learning | 1.1. Establish and agree upon objectives and scope of the work-based learning<br>1.2. Analyse work practices and routines to determine their effectiveness in meeting established learning objectives<br>1.3. Identify and address <b><i>OHS implications</i></b> of using work as the basis for learning                                                                                                   |
| 2. Develop a work-based learning pathway             | 2.1. Address <b><i>contractual requirements</i></b> and responsibilities for learning at work<br>2.2. Arrange for integration and monitoring of external learning activities with the <b><i>work-based learning pathway</i></b><br>2.3. Obtain agreement from relevant personnel to implement the work-based learning pathway                                                                               |
| 3. Establish the learning-facilitation relationship  | 3.1. Identify context for learning and individual's learning style<br>3.2. Select appropriate technique or process to facilitate learning and explain the basis of the technique to learner<br>3.3. Develop, document and discuss <b><i>individualised learning plan</i></b> with learner<br>3.4. Access, read and interpret documentation outlining the OHS responsibilities of the various parties in the |

| ELEMENT                                                                    | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|----------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                            | <p>learning environment</p> <p>3.5. Monitor supervisory arrangements appropriate to learner's levels of knowledge, skill and experience to provide support and encouragement and ensure learner's health and safety</p>                                                                                                                                                                                                                                              |
| 4. Implement work-based learning pathway                                   | <p>4.1. Sequence introduction of workplace tasks, activities and processes to reflect the agreed work-based learning pathway</p> <p>4.2. Explain objectives of work-based learning and the processes involved to learner</p> <p>4.3. Encourage learner to take responsibility for learning and to self-reflect</p> <p>4.4. Develop techniques that facilitate learner's transfer of skills and knowledge</p>                                                         |
| 5. Maintain and develop the learning/facilitation relationship             | <p>5.1. Prepare for each session</p> <p>5.2. Structure learning activities to support and reinforce new learning, build on strengths, and identify areas for further development</p> <p>5.3. Observe learner cues and change approaches where necessary to maintain momentum</p> <p>5.4. Practise <b>ethical behaviour</b> at all times</p> <p>5.5. Monitor effectiveness of the learning/facilitation relationship through regular meetings between the parties</p> |
| 6. Close and evaluate the learning/facilitation relationship               | <p>6.1. Carry out the closure smoothly, using appropriate interpersonal and communication skills</p> <p>6.2. Seek feedback from learner on the outcomes achieved and value of the relationship</p> <p>6.3. Evaluate and document process, including <b>impact, self evaluation and reflection</b>, and file according to legal and organisational requirements</p>                                                                                                   |
| 7. Monitor and review the effectiveness of the work-based learning pathway | <p>7.1. Document work performance and learning achievement and keep records according to organisational requirements</p> <p>7.2. Evaluate effectiveness of the work-based pathway against the objectives, processes and techniques used</p> <p>7.3. Recommend improvements to work-based practice in light of the review process</p>                                                                                                                                 |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- oral communication and language skills to:
  - motivate the learner
  - transfer skills and knowledge
- interpersonal skills to maintain appropriate relationships
- observation skills to monitor individual progress
- literacy skills to:
  - read and interpret organisational documents, legal documents and contracts
  - complete and maintain documentation
- organisational skills to provide guidance and feedback to individuals
- communication skills, including:
  - using effective verbal and non-verbal language
  - using critical listening and questioning techniques
  - giving constructive and supportive feedback
  - assisting learners to paraphrase advice or instructions back to the trainer/facilitator
  - providing clear and concrete options and advice
  - using appropriate industry/profession terminology and language
  - ensuring language, literacy and numeracy used is appropriate to learners

#### Required knowledge

- systems, processes and practices within the organisation where work-based learning is taking place
- operational demands of the work and impact of changes on work roles
- organisational work culture, including industrial relations environment
- systems for identifying skill needs
- introductory knowledge of different learning styles and how to encourage learning in each, for example:
  - visual learners
  - audio learners
  - kinaesthetic learners
  - theoretical learners
- relevant policy, legislation, codes of practice and national standards that may affect training and assessment in the vocational education and training sector
- OHS relating to the work role, including:
  - hazards relating to the industry and specific workplace

**REQUIRED SKILLS AND KNOWLEDGE**

- reporting requirements for hazards and incidents
- specific procedures for work tasks
- safe use and maintenance of relevant equipment
- emergency procedures
- sources of OHS information

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment**

Assessment must address the scope of this unit and reflect all components of the unit. Arrange of appropriate assessment methods and evidence-gathering techniques must be used to determine competency. A judgement of competency should only be made when the assessor is confident that the required outcomes of the unit have been achieved and that consistent performance has been demonstrated.

**Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the ability to:

- prepare and facilitate work-based learning
- provide evidence of a minimum of two examples of developing work-based learning pathways, that include:
  - identifying needs for learning
  - analysing work practices, work environment and work activities
  - organising and allocating work in a way that reflects learning needs and provides effective learning opportunities through work processes
- provide a minimum of two examples of a learning facilitation relationship being conducted:
  - with different individuals
  - demonstrating communication skills and flexibility
  - demonstrating one or more of the processes or techniques identified.

**Context of and specific resources for assessment**

Evidence must be gathered in the workplace wherever possible. Where no workplace is available, a simulated workplace must be

| EVIDENCE GUIDE                             |                                                                                                                                                                                                         |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | provided.<br>Assessment must ensure access to information about work activities.                                                                                                                        |
| <b>Method of assessment</b>                |                                                                                                                                                                                                         |
| <b>Guidance information for assessment</b> | For further information about assessment of this and other TAE units, refer to relevant implementation guidance published on the IBSA website ( <a href="http://www.ibsa.org.au">www.ibsa.org.au</a> ). |

## Range Statement

| RANGE STATEMENT                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                       |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included. |                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b><i>OHS implications</i></b> may include:                                                                                                                                                                                                                                                                                                                                                                                                                                   | <ul style="list-style-type: none"> <li>• OHS obligations</li> <li>• workplace OHS policies and procedures</li> <li>• ensuring work practices, routines and proposed changes do not pose a risk to learners and others.</li> </ul>                                                                                                                                                                                     |
| <b><i>Contractual requirements</i></b> may include:                                                                                                                                                                                                                                                                                                                                                                                                                           | <ul style="list-style-type: none"> <li>• training plans under apprenticeships/traineeships</li> <li>• requirements of government-funded training programs, such as Workplace English Language and Literacy (WELL).</li> </ul>                                                                                                                                                                                         |
| <b><i>Work-based learning pathway</i></b> may include:                                                                                                                                                                                                                                                                                                                                                                                                                        | <ul style="list-style-type: none"> <li>• identifying specific goals for work-based learning</li> <li>• identifying job tasks or activities to be included in learning process</li> <li>• appropriate sequencing of job tasks/activities to reflect learner incremental development</li> <li>• direct guidance and modelling from experienced co-workers and experts</li> <li>• opportunities for practice.</li> </ul> |
| <b><i>Individualised learning plan</i></b> may include:                                                                                                                                                                                                                                                                                                                                                                                                                       | <ul style="list-style-type: none"> <li>• information about individual's learning style, learner characteristics, and the context for learning</li> <li>• clear boundaries and expectations of the learning/facilitation relationship</li> <li>• documented equity or additional support needs for the</li> </ul>                                                                                                      |

| RANGE STATEMENT                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

## TAEDEL401A Plan, organise and deliver group-based learning

### Modification History

Not applicable.

### Unit Descriptor

|                        |                                                                                                                                                    |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Unit descriptor</b> | This unit describes the performance outcomes, skills and knowledge required to plan, organise and deliver training for individuals within a group. |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|

### Application of the Unit

|                                |                                                                                                                                                                                                                                                                                      |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application of the unit</b> | This unit typically applies to a person working as an entry-level trainer, teacher or facilitator in or with a training and assessment organisation. The person will be working from a learning program developed by someone else, and structuring the learning around that program. |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                        |
|-------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Interpret learning environment and delivery requirements | 1.1. Access, read and interpret <b><i>learning program documentation</i></b> to determine delivery requirements<br>1.2. Use available information and documentation to identify group and individual learner needs and learner characteristics<br>1.3. Identify and assess constraints and risks to delivery<br>1.4. Confirm personal role and responsibilities in planning and delivering training with relevant personnel |
| 2. Prepare session plans                                    | 2.1. Refine existing learning objectives according to program requirements and specific needs of individual learners<br>2.2. Develop <b><i>session plans</i></b> and document these for each segment of the learning program<br>2.3. Use knowledge of learning principles and theories to generate ideas for managing session delivery                                                                                      |
| 3. Prepare resources for delivery                           | 3.1. Contextualise existing learning materials to meet the needs of the specific learner group<br>3.2. Finalise learning materials and organise facility, technology and equipment needs in time for delivery of learning sessions<br>3.3. Confirm overall delivery arrangements with relevant personnel                                                                                                                    |
| 4. Deliver and facilitate training sessions                 | 4.1. Conduct each session according to session plan, modified where appropriate to meet learner needs<br>4.2. Use the diversity of the group as another resource to                                                                                                                                                                                                                                                         |

| ELEMENT                         | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                          |
|---------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                 | support learning<br>4.3. Employ a range of delivery methods as training aids to optimise learner experiences<br>4.4. Demonstrate effective facilitation skills to ensure effective participation and group management                                                                                                                                                                         |
| 5. Support and monitor learning | 5.1. Monitor and document learner progress to ensure outcomes are being achieved and individual learner needs are being met<br>5.2. Make adjustments to the delivery sessions to reflect specific needs and circumstances<br>5.3. Manage <i>inappropriate behaviour</i> to ensure learning can take place<br>5.4. Maintain and store learner records according to organisational requirements |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- presentation skills to ensure delivery is engaging and relevant, including:
  - synthesising information and ideas
  - preparing equipment, such as data projectors and computer presentation applications
  - speaking with appropriate tone and pitch
  - using language appropriate to audience
  - encouraging and dealing appropriately with questions
- group facilitation skills to ensure that:
  - every individual has an opportunity for participation and input
  - group cohesion is maintained
  - behaviour that puts others at risk is observed, interpreted and addressed
  - discussion and group interaction are enhanced
- conflict resolution and negotiation skills to:
  - identify critical points, issues, concerns and problems
  - identify options for changing behaviours
- oral communication and language skills to:

**REQUIRED SKILLS AND KNOWLEDGE**

- motivate learners to transfer skills and knowledge
- engage with the learner
- interpersonal skills to maintain appropriate relationships and ensure inclusivity
- observation skills to monitor individual and group progress

**Required knowledge**

- introductory knowledge of learning theories
- sound knowledge of learning principles
- sound knowledge of learner styles
- industry area and subject matter of the delivery
- learner group profile, including characteristics and needs of individual learners in the group
- content and requirements of the learning program and/or delivery plan
- different delivery methods and techniques appropriate to face-to-face group delivery
- techniques for the recognition and resolution of inappropriate behaviours
- behaviours in learners that may indicate learner difficulties
- organisational record-management systems and reporting requirements
- evaluation and revision techniques
- specific resources, equipment and support services available for learners with special needs
- relevant policy, legal requirements, codes of practice and national standards, including commonwealth and state or territory legislation that may affect training and assessment in the vocational education and training sector
- OHS relating to the facilitation of group-based learning, including:
  - assessment and risk control measures
  - reporting requirements for hazards
  - safe use and maintenance of relevant equipment
  - emergency procedures
  - sources of OHS information
  - role of key workplace persons
- policies and procedures relevant to the learning environment

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment

| <b>EVIDENCE GUIDE</b>                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to assess the competence of a candidate.

### Application of the Unit

This unit typically applies to assessors.

### Licensing/Regulatory Information

Not applicable.

### Pre-Requisites

Not applicable.

### Employability Skills Information

This unit contains employability skills.

### Elements and Performance Criteria Pre-Content

| ELEMENT | PERFORMANCE CRITERIA |
|---------|----------------------|
|---------|----------------------|

|                                                                          |                                                                                                                                                                                                                                                                                                                         |
|--------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements describe the essential outcomes of a unit of competency.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</i> |
|--------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

|                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|---------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Prepare for assessment       | <p>1.1 Interpret <b>assessment plan</b> and confirm organisational, legal and ethical requirements for conducting assessment with relevant people</p> <p>1.2 Access and interpret relevant <b>benchmarks for assessment</b> and nominated <b>assessment tools</b> to confirm the requirements for evidence to be collected</p> <p>1.3 Arrange identified material and physical resource requirements according to assessment system policies and procedures</p> <p>1.4 Organise <b>specialist support</b> required for assessment</p> <p>1.5 Explain, discuss and agree details of the assessment plan with candidate</p> |
| 2. Gather quality evidence      | <p>2.1 Use agreed <b>assessment methods</b> and instruments to gather, organise and document evidence in a format suitable for determining competence</p> <p>2.2 Apply the principles of assessment and rules of evidence in gathering quality evidence</p> <p>2.3 Determine opportunities for evidence gathering in actual or simulated activities through consultation with the candidate and relevant personnel</p> <p>2.4 Determine opportunities for integrated assessment activities and document any changes to assessment instruments where required</p>                                                          |
| 3. Support the candidate        | <p>3.1 Guide candidates in gathering their own evidence to support recognition of prior learning (RPL)</p> <p>3.2 Use appropriate communication and interpersonal skills to develop a professional relationship with the candidate that reflects sensitivity to <b>individual differences</b> and enables two-way <b>feedback</b></p> <p>3.3 Make decisions on reasonable adjustments with the candidate, based on candidate's needs and characteristics</p> <p>3.4 Access required specialist support in accordance with the assessment plan</p> <p>3.5 Address any OHS risk to person or equipment immediately</p>      |
| 4. Make the assessment decision | <p>4.1 Examine collected evidence and evaluate it to ensure that it reflects the evidence required to demonstrate competence</p> <p>4.2 Use judgement to infer whether competence has been demonstrated, based on the available evidence</p> <p>4.3 Make assessment decision in line with agreed assessment procedures and according to agreed assessment plan</p> <p>4.4 Provide clear and constructive feedback to candidate regarding</p>                                                                                                                                                                              |

|                                              |                                                                                                                                                                                                                                                            |
|----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                              | the assessment decision and develop any follow-up action plan required                                                                                                                                                                                     |
| 5. Record and report the assessment decision | 5.1 Record assessment outcomes promptly and accurately<br>5.2 Complete and process an assessment report according to agreed assessment procedures<br>5.3 Inform other relevant parties of the assessment decision according to confidentiality conventions |
| 6. Review the assessment process             | 6.1 Review the assessment process in <b>consultation</b> with relevant people to improve own future practice<br>6.2 Document and record the review according to relevant assessment system policies and procedures                                         |

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- analysis and interpretation skills to:
  - break down competency standards
  - interpret assessment tools and other assessment information, including those used in RPL
  - identify candidate needs
  - make judgements based on assessment of available evidence
- observation skills to:
  - recognise candidate's prior learning
  - determine candidate's performance
  - identify when candidate may need assistance during the assessment processes
- research and evaluation skills to:
  - access required human and material resources for assessment
  - access assessment system policies and procedures
  - access RPL policies and procedures
  - evaluate evidence
  - evaluate assessment process
- cognitive skills to:
  - weigh up the evidence and make a judgement
  - consider and recommend reasonable adjustments
- decision-making skills to:
  - recognise a candidate's prior learning

- make a decision on a candidate's competence
- literacy skills to:
  - read and interpret relevant information to conduct assessment
  - prepare required documentation and records or reports of assessment outcomes in required format
- communication and interpersonal skills to:
  - explain the assessment, including RPL process
  - give clear and precise instructions
  - ask effective questions
  - provide clarification
  - discuss process with other relevant people
  - give appropriate feedback
  - discuss assessment outcome
  - use language appropriate to candidate and assessment environment
  - establish a working relationship with candidate.

### **Required knowledge**

- competency-based assessment, including:
  - vocational education and training as a competency-based system
  - criterion-referenced assessment as distinct from norm-referenced assessment
  - competency standards as the basis of qualifications
  - structure and application of competency standards
  - principles of assessment and how they are applied
  - rules of evidence and how they are applied
  - range of assessment purposes and assessment contexts, including RPL
  - different assessment methods, including suitability for gathering various types of evidence, suitability for content of units, and resource requirements and associated costs
  - reasonable adjustments and when they are applicable
  - types and forms of evidence, including assessment instruments that are relevant to gathering different types of evidence used in competency-based assessment, including RPL
  - potential barriers and processes relating to assessment tools and methods
  - assessment system, including policies and procedures established by the industry, organisation or training authority
- RPL policies and procedures established by the organisation
- cultural sensitivity and equity considerations
- relevant policy, legislation, codes of practice and national standards, including commonwealth and state or territory legislation that may affect training and assessment in the vocational education and training sector, such as:
  - copyright and privacy laws in terms of electronic technology
  - security of information

- plagiarism
- training packages and competency standards
- licensing requirements
- industry and workplace requirements
- duty of care under common law
- recording information and confidentiality requirements
- anti-discrimination, including equal employment opportunity, racial vilification and disability discrimination
- workplace relations
- industrial awards and enterprise agreements
- OHS responsibilities associated with assessing competence, such as:
  - requirements for reporting hazards and incidents
  - emergency procedures
  - procedures for use of relevant personal protective equipment
  - safe use and maintenance of relevant equipment
  - sources of OHS information.
- 

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

| Overview of assessment                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| <b>Guidance information for assessment</b>              |                                                                                                                                                                                                                                      |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><i>Assessment plan</i></b> may include: | <ul style="list-style-type: none"> <li>overall planning, describing: <ul style="list-style-type: none"> <li>what is to be assessed</li> <li>when assessment is to take place</li> <li>where assessment is to take place</li> <li>how assessment is to take place.</li> </ul> </li> </ul>                                                                                                                                                                                                                                                                                                                          |
| <b><i>Benchmarks for assessment:</i></b>   | <ul style="list-style-type: none"> <li>refer to a criterion against which the candidate is assessed</li> <li>may be a competency standard/unit of competency, assessment criteria of course curricula, performance specifications, or product specifications.</li> </ul>                                                                                                                                                                                                                                                                                                                                          |
| <b><i>Assessment tools</i></b> include:    | <ul style="list-style-type: none"> <li>the learning or competency unit(s) to be assessed</li> <li>the target group, context and conditions for the assessment</li> <li>the tasks to be administered to the candidate</li> <li>an outline of the evidence to be gathered from the candidate</li> <li>the evidence criteria used to judge the quality of performance (i.e. the assessment decision-making rules)</li> <li>the administration, recording and reporting requirements</li> <li>the evidence of how validity and reliability have been tested and built into the design and use of the tool.</li> </ul> |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to plan and organise the assessment process, including recognition of prior learning (RPL), in a competency-based assessment system. It also includes the development of simple assessment instruments.

### Application of the Unit

This unit typically applies to assessors and workplace supervisors with assessment planning responsibilities; and trainers or other assessors responsible for planning assessment, including RPL.

The unit is suitable for those with an existing assessment strategy which documents the overall framework for assessment.

### Licensing/Regulatory Information

Not applicable.

### Pre-Requisites

Not applicable.

### Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|-----------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Determine assessment approach  | <p>1.1 Identify candidate and confirm <b><i>purposes and context of assessment/RPL</i></b> with relevant people according to <b><i>legal, organisational and ethical requirements</i></b></p> <p>1.2 Identify and access <b><i>benchmarks for assessment/RPL</i></b> and any specific assessment guidelines</p>                                                                                                                                                                                      |
| 2. Prepare the assessment plan    | <p>2.1 Determine evidence and <b><i>types of evidence</i></b> needed to demonstrate competence, according to the <b><i>rules of evidence</i></b></p> <p>2.2 Select <b><i>assessment methods</i></b> which will support the collection of defined evidence, taking into account the context in which the assessment will take place</p> <p>2.3 Document all aspects of the <b><i>assessment plan</i></b> and confirm with relevant personnel</p>                                                      |
| 3. Develop assessment instruments | <p>3.1 Develop <b><i>simple assessment instruments</i></b> to meet target group needs</p> <p>3.2 Analyse <b><i>available assessment instruments</i></b> for their suitability for use and modify as required</p> <p>3.3 <b><i>Map assessment</i></b> instruments against unit or course requirements</p> <p>3.4 Write clear instructions for candidate about the use of the instruments</p> <p>3.5 Trial draft assessment instruments to validate content and applicability, and record outcomes</p> |

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- cognitive interpretation skills to:
  - interpret competency standards and other assessment documentation, including material

- relating to reasonable adjustment
- identify opportunities for integrated competency assessment
- contextualise competency standards to the operating assessment environment, including RPL
- consider access and equity needs of diverse candidates
- technology skills to use appropriate equipment and software to communicate effectively with others
- research and evaluation skills to:
  - obtain competency standards, assessment tools and other relevant assessment resources
  - research candidate characteristics and any reasonable adjustment needs
  - evaluate feedback, and determine and implement improvements to processes
- literacy skills to read and interpret relevant information to design and facilitate assessment and recognition processes
- communication skills to discuss assessment, including RPL processes with clients and other assessors
- interpersonal skills to:
  - demonstrate sensitivity to access and equity considerations and candidate diversity
  - promote and implement equity, fairness, validity, reliability and flexibility in planning an assessment processes.
- **Required knowledge**
- ethical and legal requirements of an assessor
- competency-based assessment, including:
  - work focused
  - criterion referenced
  - standards based
  - evidence based
- different purposes of assessment and different assessment contexts, including RPL
- how to read and interpret the identified competency standards as the benchmarks for assessment
- how to contextualise competency standards within relevant guidelines
- four principles of assessment and how they guide the assessment process
- purpose and features of evidence, and different types of evidence used in competency-based assessments, including RPL
- rules of evidence and how they guide evidence collection
- different types of assessment methods, including suitability for collecting various types of evidence
- assessment instruments and their purpose; different types of instruments; relevance of different instruments for specific evidence-gathering opportunities.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to contribute to the assessment process.

### Application of the Unit

This unit typically applies to a person with technical or vocational expertise who is in a supervisory or mentoring/coaching work role and for whom collecting evidence for assessment is an adjunct to principal work responsibilities.

This unit is performed under the following conditions:

- the necessary assessment tools and assessment resources to guide the evidence collection process have been provided
- any adjustments to tools are determined by the qualified assessor (as defined by the Australian Quality Training Framework and the assessor requirements of the relevant training package), who provides guidance and supervision.

### Licensing/Regulatory Information

Not applicable.

### Pre-Requisites

Not applicable.

### Employability Skills Information

This unit contains employability skills.

### Elements and Performance Criteria Pre-Content

| ELEMENT | PERFORMANCE CRITERIA |
|---------|----------------------|
|---------|----------------------|

**ELEMENT**

*Elements describe the essential outcomes of a unit of competency .*

**PERFORMANCE CRITERIA**

*Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.*

**Elements and Performance Criteria**

|                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|----------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Clarify role and responsibilities in the assessment process | <p>1.1 Discuss and confirm <b><i>purpose of assessment</i></b> with <b><i>relevant people</i></b></p> <p>1.2 Discuss and confirm <b><i>benchmarks for assessment</i></b> with qualified assessor</p> <p>1.3 Access, read and clarify <b><i>assessment plan</i></b> with qualified assessor</p> <p>1.4 Discuss and agree with qualified assessor the specific responsibilities in gathering evidence and types of evidence to be gathered</p>                                                                                                                                                                                                                                             |
| 2. Confirm organisational arrangements for evidence gathering  | <p>2.1 Access and confirm relevant <b><i>assessment system policies and procedures</i></b>; organisational, legal and ethical requirements; and other relevant advice on assessment</p> <p>2.2 Clarify nominated <b><i>assessment tools</i></b> and methods for collecting evidence with qualified assessor, to ensure that procedures to be followed and instruments to be used are clear</p> <p>2.3 Discuss and confirm with relevant people <b><i>assessment context</i></b>, including candidate's characteristics and any need for <b><i>reasonable adjustments</i></b></p> <p>2.4 Confirm and arrange <b><i>resource requirements</i></b> in consultation with relevant people</p> |
| 3. Collect evidence in accordance with the assessment plan     | <p>3.1 Explain assessment process to candidate, including the different responsibilities of the parties involved, and refer any candidate issues or concerns to qualified assessor prior to undertaking assessment activities</p> <p>3.2 Use <b><i>assessment instruments</i></b> to gather quality evidence within available time and resources, according to organisational, legal and ethical requirements</p>                                                                                                                                                                                                                                                                        |
| 4. Record and report findings                                  | <p>4.1 Organise and provide evidence to the qualified assessor in a format suitable for analysis according to assessment system policies and procedures</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

|  |                                                                                                                                                                                                                                                                                                        |
|--|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | <p>4.2 Actively seek feedback from the qualified assessor on whether evidence-gathering activities meet the principles of assessment and whether evidence collected meets the rules of evidence</p> <p>4.3 Document areas for improvement in collecting evidence, for future assessment activities</p> |
|--|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- observation skills to observe candidate performance
- cognitive and interpretation skills to ensure collection of valid and reliable evidence
- organisational skills to collect evidence
- time-management skills to schedule assessment events and activities
- literacy skills to:
  - read and interpret relevant information
  - prepare required documentation and collate evidence in required format
- communication skills to:
  - discuss evidence-gathering processes with practitioners and candidates
  - provide constructive and supportive feedback
  - ask appropriate questions to clarify and confirm instructions for evidence gathering
  - provide clear and concrete options and advice.

### Required knowledge

- competency-based assessment, including:
  - criterion referenced
  - competency standards as the benchmarks for assessment
  - competency-based reporting
- principles of assessment
- rules of quality evidence
- different purposes of assessment
- diversity of assessment contexts
- evidence, including different types of evidence
- evidence-gathering methods – what are assessment methods and different types of methods
- purpose and features of assessment tools and assessment plans
- potential barriers and processes relating to evidence-gathering procedures and assessment processes
- organisational assessment system policies and procedures relevant to this unit of competency

- technical or subject area being assessed
- cultural sensitivity and equity considerations
- relevant policy, legislation, codes of practice and national standards, including commonwealth and state or territory legislation, that may affect training and assessment in the vocational education and training sector
- OHS relating to the work role, and OHS considerations to be included in collecting evidence, including:
  - hazard identification and risk control measures
  - requirements for reporting hazards and incidents
  - emergency procedures
  - procedures for use of relevant personal protective equipment
  - safe use of relevant equipment
  - sources of OHS information
  - role of key workplace personnel
  - responsibilities of learners.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|                                                                                                     |                                                                                                                                                                                                                                                                                                                                                       |
|-----------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                       |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | Evidence of the ability to: <ul style="list-style-type: none"> <li>• carry out a minimum of three evidence-gathering activities, with different candidates for each activity</li> <li>• present documentation of the evidence in a clear and concise manner</li> <li>• present documented feedback from others involved in the assessment.</li> </ul> |
| <b>Context of and specific resources for assessment</b>                                             | Evidence must be gathered in the workplace wherever possible. Where no workplace is available, a simulated workplace must be provided.                                                                                                                                                                                                                |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

### Unit Descriptor

#### Descriptor

This unit describes the skills and knowledge required to facilitate individual learning by adults through a collaborative learning relationship

Identifying which learners and learning contexts may benefit from individual learning forms part of this unit

Interpersonal and communication skills to create the conditions necessary for effective individual learning and to advise, guide, support and respond to the needs of the individual learner, and so establish an appropriate relationship, are critical

The unit provides the skills and knowledge to do this, and to work with a supervisor in facilitating adult learning and development

### Application of the Unit

#### Application

This unit typically applies to adult language, literacy and numeracy tutors working with the support of a program supervisor as needed, with one learner or with individual learners in a small group context

The learning relationship may be face-to-face, online, via telecommunication, or using a combination of media

It may take a number of forms, including structured or semi-structured activities and formal or informal

agreements and may be independent of, or part of, a broad learning and delivery strategy

Individual learning relationships may be used to help an individual or individuals meet personal or job goals, learn new skills and knowledge, or develop new learning and work behaviour

## Licensing/Regulatory Information

## Pre-Requisites

Not Applicable

## Employability Skills Information

**Employability Skills** This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Identify individual learning requirements

1.1 In consultation with learner, identify needs and goals for individual learning in the *learning area* and discuss with *relevant persons*

1.2 Consult with supervisor to identify appropriate *individual learning techniques and processes* and document them to support individual learning needs and goals

1.3 Obtain *organisational support* for

**ELEMENT****PERFORMANCE CRITERIA**

implementation, where relevant

2. Establish the learning relationship

- 2.1 Identify **individual's learning style, learner characteristics** and abilities, and **context for learning** and discuss with supervisor
- 2.2 Select or organise appropriate technique or process to facilitate individual learning and explain and discuss the basis of the technique or process with the individual learner
- 2.3 Clarify and agree upon boundaries and expectations of the learning relationship
- 2.4 Clarify **additional support** required in consultation with supervisor
- 2.5 Develop and document **individualised learning plan**, and discuss with learner

3. Maintain and develop the learning relationship

- 3.1 Prepare for each meeting or session
- 3.2 Grow the relationship and sustain active participation using effective communication and interpersonal skills
- 3.3 As planned with supervisor, develop **structured learning activities** to support and reinforce new learning, build on strengths and identify areas for further development
- 3.4 Demonstrate leadership and motivational skills to enable the learner to take responsibility for learning, practising ethical behaviour at all times
- 3.5 Observe **learner cues** and change approach where necessary to maintain momentum
- 3.6 Acknowledge, respect and value individual differences and clients with particular needs
- 3.7 Schedule regular meetings in consultation with both parties to monitor the effectiveness of the learning relationship

4. Close and evaluate the learning relationship

- 4.1 Use **tools and signals** developed with supervisor to determine readiness for closure of individual learning

**ELEMENT****PERFORMANCE CRITERIA**

relationship

4.2 Carry out closure using appropriate interpersonal and communication skills

4.3 Seek **feedback** from the learner on the outcomes achieved and the value of the relationship

4.4 **Evaluate** whether the learning relationship met learning needs and goals

4.5 **Reflect** on own performance in managing the relationship, identify areas for improvement and discuss with supervisor

4.6 Document outcomes as required by the learning relationship

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge and understanding of:

- Change processes, for example:
  - how people work through change
  - behaviour associated with change
- Codes of practice, standards and legal requirements relating to role, such as:
  - duty of care under common law
  - recording information and confidentiality requirements
  - anti-discrimination, including equal opportunity, racial vilification and disability discrimination
- Different learning styles and how to encourage different learners
- Effects of verbal and non-verbal communication, such as:
  - how to interpret behaviour

## REQUIRED SKILLS AND KNOWLEDGE

- how to model behaviour and values
- How to create or adapt new learning activities as well as other learning options, learning activities and referrals
- Learning cycle, including:
  - concrete experience
  - observation and reflection
  - concept formation
  - testing new learning
- Adult learning principles
- Learner cues that may reflect difficulties with individual learning relationships
- Needs and characteristics of individual learners and current techniques to facilitate individual learning
- Requirements of the support program, including administrative and WHS
- Roles and responsibilities of those providing language, literacy and numeracy support and their specialist supervisors
- Sources of external support
- Tools to evaluate learning outcomes, such as the ACSF

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Negotiate and manage a learning relationship, while working with supervisors and learners
- Demonstrate communication skills and flexibility, using a range of processes and techniques
- Use a range of methods to evaluate the learning relationship

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Communication skills to:
  - clarify and agree upon boundaries and expectations of the learning relationship
  - confirm, clarify or repair understanding
  - provide constructive feedback
  - use verbal and non-verbal language and concepts appropriate to individual and cultural differences
- Initiative and enterprise skills to:
  - inform supervisor of learner progress and issues as required

## REQUIRED SKILLS AND KNOWLEDGE

- identify suitable learning techniques and activities for the individual learner
- model facilitation and learning behaviour
- manage complex situations, including conflict
- Interpersonal skills to:
  - interact with clients from a range of social, cultural, religious and linguistic backgrounds and with varying physical and mental abilities, while:
    - recognising and responding to verbal and non-verbal messages
    - recognising and responding to individual difference and diversity
    - acting without bias or discrimination
    - responding sensitively to diverse backgrounds and particular needs
  - facilitate individual learning through a collaborative and respectful relationship, keeping sessions learner-centred and drawing on the expertise and background of the learner
  - establish a supportive environment that builds rapport
  - use appropriate humour to lighten atmosphere
- Leadership and motivational skills to empower and inspire the learner
- Literacy skills to:
  - develop the learning plan
  - maintain records and other documentation
  - read and interpret relevant documentation
- Planning and organising skills to
  - organise appropriate techniques and processes to facilitate individual learning
  - prepare for learning sessions
- Teamwork skills to collaborate with supervisor to:
  - analyse learner needs
  - apply appropriate model of learning to develop learners' required skills
  - implement support strategies appropriate to learner needs
- Technical skills to:
  - determine and alter a learning plan in consultation with supervisor
  - negotiate with learners to ensure suitable learning
  - interpret information gathered and adapt own style accordingly
  - lead and motivate learners to take responsibility for their own learning
  - maintain momentum during the learning process
- Technology skills to:
  - use a range of technology to support numeracy learning
  - use software packages as part of the learning program
- Time-management skills to
  - structure sessions
  - drive the process to achieve goals

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Assessment should ensure the candidate addresses the elements and performance criteria on at least three occasions, over a period of time

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- Competency must be demonstrated in a realistic simulated or real work environment
- Assessment requires access to a range of opportunities defined in the range statement, including access to:
  - individual learning plan
  - facilitation activities
  - evaluations from participants or organisation
  - evidence of self-evaluation and improvement of

## EVIDENCE GUIDE

skills, for example, a learning journal

- audio or video of a facilitation session

### *Method of assessment:*

- Assessment methods suitable for valid and reliable assessment of this competency may include a combination of:
  - case studies
  - demonstration
  - observation
  - oral and written questioning
  - scenarios, simulation or role plays
  - workplace projects
  - authenticated evidence
- Assessment methods should reflect work demands, such as literacy, and the needs of particular individuals, such as:
  - people in rural and remote locations
  - people with disabilities
  - people from culturally and linguistically diverse backgrounds
  - Aboriginal and Torres Strait Islander people
  - women
  - young people
  - older people

### *Guidance information*

- This unit may be assessed independently, however holistic assessment with other units relevant to the industry sector, workplace and job role is recommended

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating

## RANGE STATEMENT

conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Learning area may be:*

- Generic skills
- Life skills
- Management skills
- Organisational or individual
- Program-specific
- Skills for new or changed job role, work procedures or work skills
- Technical skills

*Relevant persons may include:*

- Learner
- Language, literacy or numeracy specialist
- Experienced trainer, teacher or tutor
- Mentor
- Supervisor or coordinator

*Individual learning techniques and processes may include:*

- Coaching or tutoring techniques
- Formal or informal process
- Mentoring techniques
- Ongoing or one-off process
- Peer relationships
- Single or double loop learning approaches
- Specific circumstance or an integrated feature of the overall learning process

*Organisational support may include:*

- Additional time with learner
- Agreement by organisation to provide additional assistance to individuals through identified techniques
- Venue and equipment support

*Individual's learning style may include:*

- Activist
- Auditory
- Global and analytical

## RANGE STATEMENT

- Kinaesthetic
- Pragmatic
- Reflective
- Tactile
- Theoretical
- Visual

*Learner characteristics may include:*

- Cultural background and needs
- Employment status
- Language, literacy and numeracy requirements
- Length of time resident in Australia
- Level of formal schooling in Australia or overseas
- Level of maturity
- Past learning experiences
- Preferred learning styles
- Specific physical or psychological needs

*Context for learning may be:*

- Defined by time requirements and built into learning activities
- Defined by the learning activities
- Determined by the area of learning
- Determined by the trainer and the learner
- Impacted by the health, safety or welfare of the learner
- In a classroom, tutorial room, meeting room, office, any agreed meeting place
- In a home, training and/or assessment organisation, college, community, university or school

*Additional support may include:*

- Aboriginal and Torres Strait Islander support
- Community support
- Counselling services
- Disability support
- English language, literacy and numeracy support
- Ethnic support services
- Interpreting services
- Support for learners affected by displacement and other trauma

## RANGE STATEMENT

- Individualised learning plan may include:*
- Contingency plans
  - Goals to be achieved that reflect learner interests, needs and abilities
  - Logistics of the learning relationship, for example:
    - period of relationship
    - frequency of meetings and length of sessions
    - location of meetings or contact
  - Structure of the learning relationship, for example:
    - activities to be undertaken
    - monitoring processes
    - tools and equipment needed
    - shadowing
  - WHS considerations

- Structured learning activities may include:*
- Demonstrations and role plays
  - Direction, guidance and mutual discussion
  - Learning journal
  - Practice opportunities
  - Projects
  - Readings and research
  - Role modelling
  - Video and audio analysis
  - Written exercises

- Learner cues may include:*
- Evidence of frustration, distraction, stress
  - Evidence of problems or issues which may be personal or related to the individualised learning
  - Level of communication and interaction
  - Level of dependence or independence
  - Level of ease or difficulty in undertaking learning activities
  - Level of engagement or disengagement
  - Regular or irregular attendance
  - Stagnation in learning

- Tools and signals may include:*
- Agreed time period over

**RANGE STATEMENT**

- Level of independence in learning
- Measure of improvement in a particular area
- Readiness to maintain learning through other means or modes
- Self-assessment by the learner
- Severe or fixed blockages in the relationship

*Feedback may be:*

- Formal and informal discussion with learner and others
- Interview
- Written questionnaire

*Evaluation may look at:*

- Achievement of other outcomes as a result of the relationship
- Development of new goals or skills
- Development of or increase in the self-confidence and capacity to learn of the learner
- Increased or new motivation to learn
- Level of attendance by learner
- Successful achievement, rate of achievement, or lack of achievement of identified goals

*Reflection may include:*

- Asking critical questions about own ability, what worked, what did not work and how the relationship building process could be improved
- Reviewing feedback from learner and identifying critical aspects and areas for improvement
- Reviewing records and journals on sessions and critically evaluating own performance

### Unit Descriptor

**Descriptor**

This unit describes the knowledge and skills required to develop and analyse policies which impact on the client group and the work of the organisation

### Application of the Unit

**Application**

This unit may apply in a range of community service contexts

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Review existing policies

1.1 Identify relevant organisation and other policies and assess them for relevance to the organisations objectives and effectiveness

1.2 Consult clients and other stakeholders about their views on policies

1.3 Document and present reviews of policies in a format appropriate to the purpose of the review, the context, and the receiver

#### 2. Contribute to *research* for policy advice

2.1 Identify, plan and implement research and consultation strategies appropriate to the worker's role in the research process within timeframes, resource constraints and agreed processes

2.2 Collate, report and present research and consultation outcomes in a format appropriate to the research process, the purpose of the research, the context and the receiver

2.3 Identify factors impacting on quality or outcomes of research or consultation and incorporate in reports

#### 3. Provide briefing materials on policy issues

3.1 Prepare briefing materials as required in a format

**ELEMENT****PERFORMANCE CRITERIA**

appropriate to audience, purpose and context

3.2 Draw on expertise and role of worker and organisation for briefing materials

3.3 Incorporate reasoned argument and evidence into briefing materials

4. Promote informed policy debate

4.1 Identify *strategies to stimulate informed debate* appropriate to the worker's role in policy development, community education or client service delivery in consultation with other workers and management

4.2 Implement strategies to stimulate informed debate within timeframes, resource allocations and agreed processes

4.3 Where necessary, implement strategies to translate policy materials into language/s easily understood by clients and other stakeholders

4.4 Develop strategies that enable exchange of views and information between policy initiators, clients and other stakeholders

**Required Skills and Knowledge**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Organisation policies impacting on the worker, the organisation and its target groups
- Government and other policies impacting on the issue under consideration, and the organisation and its target groups
- The contexts for policies, people and the organisation
- Research and consultation techniques
- The limits of the worker's own role and competence and the organisation's role

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate application of skills to:
  - policies within own organisation
  - policies within networks or associations
  - policies directly related to own work role and areas of expertise
  - policies for target groups relevant to the organisation
- Demonstrate involvement with stakeholders relevant to the organisation and the policy issue under consideration

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Analyse evidence and arguments
- Demonstrate reasoning, including identification of implications and consequences of particular courses of action
- Apply consultation and research methodologies
- Demonstrate application of skills in:
  - report writing, including translation of complex concepts into simple language or images
  - public speaking addressing a group
  - group participation
  - effective use of relevant information technology in line with work health and safety (WHS) guidelines

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions

This may include the use of languages other than English and alternative communication systems

- It is recommended that assessment take place on one or more than occasions to enable assessment of all aspects of policy development to take place

- Access and equity considerations:*
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

- Context of and specific resources for assessment:*
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
  - Resource requirements for assessment of this unit include access to:
    - an appropriate workplace where assessment can take place, or simulation of realistic workplace setting for assessment

- Method of assessment:*
- Assessment may include observations, questioning and evidence gathered from the workplace

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Research may be:*

- Survey
- Qualitative
- Quantitative

*Information gathering and consultation techniques may include:*

- Interview structured, semi-structured and unstructured, group and individual
- Conversation by phone or face-to-face
- Observation and listening
- Collection of materials e.g. Printed material and videos
- Attendance at workshops, meetings and forums
- Questionnaires and other basic survey instruments

*Strategies to stimulate informed debate will involve:*

- Employing a range of communication styles, modes and media
- Employing any of the consultation techniques identified in the Range Statement
- Employing networking strategies

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Establish a relationship with *mentoree*

1.1 Use effective communication styles to develop trust, confidence and rapport

1.2 Make agreements on how the mentoring relationship will be conducted including:

- the amount of time involved for both parties
- confidentiality of information
- scope of issues to be covered

1.3 Discuss and clarify expectations and goals with mentoree

2. Offer mentoring support

2.1 Assist the mentoree to identify and evaluate options to achieve agreed goals

2.2 Share personal experiences and knowledge with the mentoree to assist in progress towards agreed goals

2.3 Encourage the mentoree to make decisions and take responsibility for courses of action or solutions under consideration

2.4 Provide supportive advice and assistance in a manner that allows mentoree to retain responsibility for achievement of their own goals

2.5 Recognise and openly discuss *changes in the mentoring relationship*

2.6 Make adjustments to the relationship to take account of the needs of both mentor and mentoree

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Communication skills in relation to listening supportively, questioning, providing feedback constructively, challenging limitations and non-verbal communication
- Significant knowledge and experience of the area of practice in which the mentoree operates

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Apply understanding of the role and benefits of mentoring
- Use significant workplace knowledge and experience to assist another individual to achieve his or her agreed goals
- Demonstrate application of effective communication styles

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of understanding of mentoring, its role and potential benefits
- Demonstrate application of communication skills including:
  - listening supportively
  - questioning
  - providing feedback constructively
  - challenging limitations
  - non-verbal communication

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Assessment must ensure activities are conducted over a period of time in which the candidate provides mentoring support for a less experienced colleague

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged

*Method of assessment:*

- Assessment methods must be chosen to ensure that mentoring skills can be practically demonstrated
- Methods must include assessment of knowledge as well as practical skills and may include, for example:
  - evaluation of reports detailing mentoring

## EVIDENCE GUIDE

activities undertaken by the candidate (taking account of confidentiality issues)

- interview with the mentoree to evaluate the mentor's skills
- oral or written questions to assess knowledge of the key concepts of mentoring
- review of portfolio's of evidence and third party workplace reports of on-the-job performance by the candidate

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Mentoree may work within the same or different organisations as the mentor and:*

- The mentoring process may apply to any area of organisation or professional endeavour
- Expectation and goals for mentoring may include:
  - acquisition of specific skills
  - progress with overall development
  - individual professional and personal development

*Changes in the mentoring relationship may include:*

- Inability of one party to continue participation
- Identification of a need for assistance from others with different skills
- Achievement of goals and decision to conclude the relationship
- Changes in the dynamic of the relationship

performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Reflect on own practice

- 1.1 Undertake *self-evaluation* in conjunction with supervisors and/or peers
- 1.2 Demonstrate understanding of own limitations in self awareness, self management, social awareness, relationship management
- 1.3 Provide and receive open and evaluative feedback to and from co-workers
- 1.4 Actively seek feedback and accept it non-defensively

2. Ensure continuing self-support and supervision

- 2.1 Identify a range of support networks both within and outside the organisation
- 2.2 Seek *specialist advice/further training* where need is identified
- 2.3 Observe agency guidelines in relation to professional development
- 2.4 Undertake an appraisal of current industry developments and apply these to improve practice
- 2.5 Regularly participate in a review mechanism as a commitment to upgrading skills and knowledge
- 2.6 Evaluate current and likely future needs and take action to keep abreast of evolving trends

3. Operate within an agreed code of ethics or practice

- 3.1 Assess own practice against identified agency objectives or code of ethics, using a range of valid evidence
- 3.2 Recognise the effect of values, beliefs and behaviour in work with clients
- 3.3 Establish realistic goals and targets for self

**ELEMENT****PERFORMANCE CRITERIA**

development

3.4 Adhere to legal parameters relevant to practitioner's profession where this is a requirement of employment

## **Required Skills and Knowledge**

### **REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Relevant legislation and agency guidelines and codes of ethics or practice standards
- Principles and techniques of:
  - personal goal setting
  - measuring performance
  - time management
  - identifying personal behaviour, self awareness, personality traits
  - establishing a personal development plan
- Agency's policies, plans and procedures
- Types of work methods and practices which can improve personal performance
- Types of learning style/s and how they relate to the individual
- Personal development opportunities and options
- Functions of supervision - educative, administrative and supportive

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

## REQUIRED SKILLS AND KNOWLEDGE

- Apply knowledge, skills and ethics relevant to current industry and professional standards and codes of ethics and practice
- Work with an awareness and sensitivity to conflict, culture and context
- Apply skills in negotiation, communication and decision-making
- Demonstrate understanding and implementation of relevant procedures
- Demonstrate ongoing reflection on and development of personal capability to meet professional standards, in particular to:
  - actively seek professional development opportunities
  - seek and reflect upon feedback
  - seek opportunities for supervision / mentoring
  - identify and participate in personal development
  - integrate learning into improved practice

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Work to increase social justice and to identify and respond to inequality and discrimination
- Research information to develop personal development and work plans
- Elicit, analyse and interpret feedback
- Analyse culturally different viewpoints and taking them into account in personal development and professional practice
- Monitor research trends related to roles and responsibilities
- Use information systems to assist establish work plans
- Assess the effectiveness of own skills development
- Develop and maintain professional networks
- Manage or seek support to manage complex ethical issues, dilemmas
- Relate to people from a range of social, cultural and ethnic backgrounds and physical and mental abilities
- Demonstrate application of:
  - functional literacy skills to interpret written and oral information about workplace requirements
  - communication skills including receiving and analysing feedback and reporting

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence of competency in this unit will need to be assessed over a period of time in order to gather evidence of consistent performance
- This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence
- Evidence will be determined by selection from the Range Statement, justified in terms of work requirements, work roles and responsibilities and occupational specialisations

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Where assessment is conducted within the workplace there are no resource implications above those

## EVIDENCE GUIDE

normally available in the workplace

### *Method of assessment:*

- Demonstration of competency within the working environment to learn from others and reflect on performance
- Where there is not an opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Observation of processes and procedures, oral and/or written questions on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
- Review of any documentation produced by the candidate related to self development

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *Knowledge refers to:*

- The understanding of relevant theories, principles, practices their application and other aspects of knowledge, which may be desirable or necessary in order to practise effectively.

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Assess the needs and issues of clients

- 1.1 Identify *reasons for seeking help*
- 1.2 Identify and document current *needs*
- 1.3 Identify client's abilities to address their own needs
- 1.4 Explain organisation policy and procedures in relation to records, confidentiality and privacy
- 1.5 Define and maintain boundaries between client and worker, including roles, responsibilities and accountabilities, to ensure compliance with statutory requirements and duty of care responsibilities
- 1.6 Implement strategies to ensure all dealings with clients reflect appropriate expression of value systems and consideration of emotional impact of intervention
- 1.7 Discuss possibilities and options for responding to client needs, determine preferred actions and prioritise

**ELEMENT****PERFORMANCE CRITERIA**

- 1.8 Promptly and supportively respond to clients in distress or crisis, in accordance with organisation policies and procedures
2. Establish goals of service provision with the client
- 2.1 Use *appropriate communication and relationship building processes* to identify service provision goals
- 2.2 Identify and prioritise issues to be addressed through services provision
- 2.3 Discuss possibilities and options for responding to client needs, determine preferred actions and prioritise
- 2.4 Assist client to evaluate and select *strategies* to achieve their goals
- 2.5 Document goals in relation to client needs in accordance with organisation procedures, as appropriate
- 2.6 *Share goals*, with client's consent, where appropriate
3. Provide services to meet client needs
- 3.1 Identify strategies to address impact of mental illness and/or psychiatric disability, incorporating the knowledge, skills and abilities of the person
- 3.2 Facilitate use of other appropriate strategies, services and resources
- 3.3 Negotiate short and long-term strategies as appropriate
- 3.4 *Provide services* in manner that supports and encourages independence
- 3.5 Maintain *records of service provision* related to agreed goals and strategies, in accordance with organisation procedures and policy
- 3.6 Provide referrals as appropriate
4. Review progress with the client
- 4.1 Regularly discuss progress with the client
- 4.2 Negotiate revised goals and strategies
- 4.3 Negotiate exit from the service or program with the client and provide support in accordance with

**ELEMENT****PERFORMANCE CRITERIA**

organisation policies and available resources

4.4 Discuss outcomes with client and appropriate persons inside or outside the organisation and document in accordance with organisation policies and procedures

4.5 Maintain confidentiality in accordance with agency/ organisation guidelines and relevant legislation

5. Use self-protection strategies

5.1 Use conflict resolution and negotiation as appropriate

5.2 Take appropriate action to ensure safety of self and others

5.3 Acknowledge limits of own abilities and make referrals as appropriate in accordance with organisation policies and available resources

5.4 Seek *emergency assistance* as required

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Language of the mental health sector
- Signs and symptoms of common mental illness
- Common medications for the treatment of mental illness and/or psychiatric disability and their side effects
- Principles and practice of psychosocial rehabilitation
- Difference between mental illness and psychiatric disability
- Early intervention
- Impact of mental illness and/or psychiatric disability on: self-esteem, motivation, daily living skills and relationships
- A range of clinical treatment and support services available locally

- Client-centredness
- Rights and responsibilities of workers and clients
- Understanding of complex ethical issues
- Principles and practices of duty of care
- Recovery
- Relevant policy, regulatory, legislative and legal requirements relating to mental health service provision
- Knowledge specific to working with people from culturally and linguistically diverse (CALD) backgrounds
- Knowledge specific to working with people at risk of self-harm
- Knowledge specific to the following areas:
  - working with clients with alcohol and/or other drugs (AOD) issues
  - working with women
  - working with men
  - working with children and young people
  - working with aged clients
  - working with corrective services clients
  - working with Aboriginal and/or Torres Strait Islander clients
  - community education

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Identify the needs and provide services to a range of clients with mental health issues
- Effective collaboration with other workers and relevant services

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Reflect on the dynamics of relationships
- Demonstrate application of following skills where they apply to work role:
  - communication
  - negotiation
  - questioning
  - active listening
  - interpretation of verbal and non-verbal communication
  - liaison
  - referral including identification of circumstances in which referral to a health professional is appropriate
  - supportive counselling

- conflict resolution
- mediation
- crisis situation responses
- protective intervention
- advocacy
- networking and liaison
- identification of support structures
- awareness of self and the impact of self on relationships
- confidentiality
- report writing
- resolving aggression, including:
  - . negotiation
  - . workplace safety
  - . debriefing
- Maintain documentation as required, including effective use of relevant information technology in line with work health and safety (WHS) guidelines

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed on the job or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider the range of services provided to clients in the workplace

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in CALD environments
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait

**Islander people**

- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

***Context of and specific resources for assessment:***

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to a workplace or simulated workplace where assessment may occur

***Method of assessment:***

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competency will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## **Range Statement**

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

***Reasons for seeking help may be identified with assistance from:***

- The client
- Carers
- Colleagues
- Information from other services

*Needs may include:*

- Physical disability
- Intellectual disability
- Problematic alcohol and other drugs use
- Psychosocial
- Employment
- Related to grief and loss
- Emotional
- Financial
- Legal
- Spiritual
- Social
- Cultural

*Appropriate communication and relationship building processes may include:*

- Engagement
- Empathy
- Non-judgemental manner
- Listening to the person
- Treating the person as an individual
- Rapport building
- Respect
- Hope

*Share goals applies within the bounds of confidentiality and may include people such as:*

- Case managers
- Other staff
- Carers
- Consumers
- Family members
- Other services

*Provide services must take into account:*

- Available resources
- Contingency plans

*Other services and resources may include:*

- Carer groups
- Consumer groups
- Accommodation
- Legal
- Day support

- Employment
- Skill development service (e.g. life or living skills)
- Spiritual support
- Psychosocial rehabilitation
- Other disability support services
- Consumer consultants
- Pre-vocational
- Leisure
- Creative activities
- Recreation
- Education
- Social activities
- Aboriginal and/or Torres Strait Islander health services
- AOD
- Advocacy
- Respite
- Pharmacies
- Financial
- Supportive counselling in response to crisis situations
- Interpreter
- Family violence and sexual assault services
- Accommodation

*Strategies may include assistance with:*

- Self help groups
- Accommodation
- Employment
- Legal matters
- Recreation
- Daily living skills
- Creative activities
- Social skills
- Relationships

*Records of service provision may include:*

- Individual service plans
- Initial contact forms
- Comprehensive assessment and service plan
- Individual program plans
- Evaluation forms

*Emergency assistance may be sought from:*

- Own organisation staff
- Other community organisation staff
- Clinical mental health services
- Other agencies
- Hospitals
- Ambulance
- Police
- Consumer consultants
- Trans-cultural consultants

## **Unit Sector(s)**

### Unit Descriptor

#### Descriptor

This unit describes the knowledge and skills required by workers who provide immediate and ongoing support and interventions for consumers with co-existing mental health and alcohol and other drugs issues drawing on a range of models and techniques supported by evidence

### Application of the Unit

#### Application

This unit applies to work with mental health consumers in a range of community services work contexts

This work provides a person-centred approach to care, involving a variety of health and community service professionals working collaboratively with the client, their carer/s and family

In this unit 'dual diagnosis clients' means consumers with 'mental health and alcohol and other drugs (AOD)' diagnoses

## ELEMENT

## PERFORMANCE CRITERIA

2.3 Directly support services commonly accessed by dual diagnosis clients to improve practice

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Holistic care - health, social, legal
- Predisposing factors to mental illness and indicators of pathology i.e. Substance use, mental health
- Legal Issues
- support models of rehabilitation
- Interventions appropriate to co-morbidity
- Counselling models/practices including basic knowledge of theories supporting counselling process
- Professional service provision codes of conduct, ethical codes, referral protocols
- Group dynamics models/practices
- Range of services available
- Organisation procedures and program standards
- Cultural protocols, taboos and language systems
- Facilitation model/practices
- Statutory mandate and responsibilities
- Human development and understanding of life stages
- Behaviour change models/practices
- Stress indicators
- Evidence-based practice including National Mental Health Practice Standards

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Work cooperatively with clients/significant others to achieve behavioural life skills changes

- Work with individuals in a range of settings to achieve maximum outcomes

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - crisis intervention
  - demonstration of empathy
  - relationship building
  - communication
  - negotiation
  - managing groups
  - stress management
  - assertion
  - conflict management
  - influencing skills
  - training and education
- Apply counselling skills, including:
  - counselling context, process and goals
  - establishing a trusting relationship
  - information gathering
  - reflective listening, respectful responding, development of empathy and rapport
  - human life stage development
- Maintain documentation as required, including effective use of relevant information technology in line with work health and safety (WHS) guidelines

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Competency must be demonstrated in a real work environment
- Competence in this unit must be assessed over a period of time in order to ensure consistency of

performance over contexts applicable to the work environment

- Consistency in performance should consider the work environment, worker's role and responsibilities in the workplace

- Access and equity considerations:*
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

- Context of and specific resources for assessment:*
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
  - Assessment of this competency will require human resources consistent with those outlined in the Assessment Guidelines

- Method of assessment:*
- Competency must be demonstrated in a real work environment
  - In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
  - Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
  - Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or

other appropriate persons

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Dual diagnosis refers to:*

- Consumers with co-existing mental health and AOD diagnoses

*Working with consumers will be carried out within requirements established by:*

- Relevant legislation and statutory requirements
- International conventions relating to the rights of individuals
- Organisation policy and codes of conduct
- Relevant program standards
- Professional association codes of conduct and ethical and ethical positions

## Unit Descriptor

### Descriptor

This unit describes the knowledge and skills required by those working with people with mental health issues to conduct necessary assessments and support participation in the assessment process

## Application of the Unit

### Application

The skills and knowledge of this unit of competency will be applied by a worker conducting an assessment to determine service eligibility and identify services required as part of the recovery process

The assessment will be an established process used according to specified guidelines, organisation policies and procedures

This unit applies to work with clients affected by a mental illness in a range of community services work contexts

This work provides a person-centred approach to care, involving a variety of health and community service professionals working collaboratively with the client, their carer/s and family

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Prepare for intake assessment

1.1 Work collaboratively with the person being assessed to determine possible impact that an assessment might have on them

1.2 Organise an appropriate time and a safe, suitable and comfortable environment for the assessment

**ELEMENT****PERFORMANCE CRITERIA**

- 1.3 Inform person of the purpose and process of the assessment and confirm their understanding
  - 1.4 Obtain consent from the person where required by organisation policy and procedure
  - 1.5 Confirm the appropriateness of the *nature of assessment* to the assessment purpose
- 
2. Conduct intake assessment
    - 2.1 Determine *person's needs* and choices based on appropriate assessment tools and/or processes according to organisation policy and procedures
    - 2.2 Identify requirements for assessment of person's mental state outside job scope and refer to an appropriate mental health professional in a timely manner
    - 2.3 Comply with the organisation's guidelines when conducting the assessment
    - 2.4 Work collaboratively with the client to ensure the assessment is fair, ethical and objective, whilst reflecting the client's perspective and preferences
    - 2.5 Observe the person's level of comfort with the assessment process and suspend assessment, if necessary
    - 2.6 If any risk of harm is identified, take steps to ensure safety of client and self and refer to an appropriate authority in a timely manner
    - 2.7 Record assessment results and prepare and file assessment report according to defined guidelines and organisation policy and procedures
- 
3. Facilitate collaborative planning process
    - 3.1 Use assessment results as a basis for identifying available service and/or referral options
    - 3.2 Explain the purpose of the planning process and discuss the importance of planning collaboratively
    - 3.3 Discuss *different planning options* with the person to select the most appropriate planning option
    - 3.4 Work with the person to determine their *readiness for the development of activities to support a recovery plan*
    - 3.5 Work with the person to determine stakeholders to be included in the planning process and the *logistical*

**ELEMENT****PERFORMANCE CRITERIA***requirements of planning*

3.6 Identify and organise necessary *background material* and provide to relevant stakeholders

4. Develop a recovery plan

4.1 Conduct planning session in a manner that respects the person as their own expert, fosters their strengths and promotes their participation, giving them control of their lives

4.2 Work collaboratively with the person to determine their goals for recovery and elements of risk that may be associated with achieving them

4.3 Work collaboratively with the person to identify strategies to achieve identified goals and remove or reduce identified risk

4.4 Clearly record the planning activities and document plan as a basis for evaluation of its effectiveness

4.5 Provide feedback on outcomes of the planning process to relevant stakeholders

5. Facilitate ongoing relevance of service activities to the recovery plan

5.1 Provide information and training to assist the person to monitor their plan

5.2 Respond to reports of variation in the person's circumstances that could affect the support requirements

5.3 Work collaboratively with the person and relevant others to make any required adjustments to the plan

6. Complete documentation

6.1 Comply with the organisation's *reporting* requirements in relation to assessment and planning processes

6.2 Complete documentation according to organisation policy and protocols

6.3 Maintain documentation in a manner consistent with reporting requirements

6.4 File documentation according to organisation policy and protocols

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Understanding of own work role and responsibilities
- Recovery theory and philosophy
- Understanding of validity and reliability requirements for assessment
- Understanding of assessment process requirements
- Understanding of person-centred assessment processes with a psychosocial focus, to establish needs, risk, and personal support requirements
- A range of planning processes that support person's strengths, interests, health and emotional well being and self determination
- Duty of care requirements when conducting assessment and facilitating a plan
- Relevance of services provided to the holistic recovery goals
- Organisation policy and procedure associated with individual assessment
- Reporting requirements of individual assessment
- Consent requirements for dissemination of a person's assessment results

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Follow organisation policies and protocols
- Liaise and report to appropriate persons/agencies
- Adhere to own work role and responsibilities
- Conduct an assessment within defined guidelines
- Report on assessment results
- Apply basic problem solving skills to resolve problems within organisation protocols
- Apply planning processes that support person's strengths, interests, health and emotional well being and self determination
- Address duty of care requirements when conducting assessment and facilitating a recovery plan

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of

the identified work role

These include the ability to:

- Apply reading and writing skills required to fulfil work role in a safe manner and as specified by the organisation/service:
  - this requires a level of skill that enables the worker to follow work-related instructions and directions and the ability to seek clarification and comments from supervisors, clients and colleagues
  - industry work roles will require a literacy level that will enable workers to interpret international safety signs, read client service delivery plans, make notations in client records and complete workplace forms and records
- Apply verbal and non-verbal communication skills:
  - industry work roles will require effective verbal and non-verbal communication skills to ask questions, clarify understanding and meaning, recognise and interpret non-verbal cues, adapt communication styles to meet specific needs, provide information and express encouragement and support including active listening and empathy
- Work effectively with clients, social networks, colleagues, supervisors and other services/agencies

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- It is recommended that assessment or information for assessment will be conducted or gathered over a period of time and cover the normal range of workplace situations and settings
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

- Access and equity considerations:*
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
- Context of and specific resources for assessment:*
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
  - Resources required for assessment include:
    - access to appropriate workplace where assessment can take place
    - relevant organisation policy, protocols and procedures
- Method of assessment may include:*
- Observation in the workplace
  - Written assignments/projects
  - Case study and scenario analysis
  - Questioning
  - Role play simulation

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

- Nature of assessment may*
- Competency based assessment

*include:*

- Domain based assessment
- Needs based assessment
- Norm based assessment

*Person's needs may include:*

- Psychological needs:
  - a sense of control
  - acceptance of disability
  - freedom from undue stress
  - life stage acceptance
  - personal identity
  - self-determination
  - self-esteem
  - sense of belonging
  - veteran/war widow related issues
- Spiritual needs:
  - ceremonial observances
  - formal and informal religious observance
  - need for privacy and an appropriate environment to reflect and/or participate in spiritual activities
- Cultural needs:
  - ceremonial and festive observances
  - dress and dietary observance
  - need for continued interaction with cultural community
- Sexuality and identity:
  - access to assistive/protective devices
  - love and affection
  - need for privacy and discretion
  - physical appearance
  - touch

*Different planning options may include:*

- Informal plans
- Organisation planning processes, including:
  - care plan
  - education plan
  - employment plan
  - individual program plan
  - recovery plan
  - recreation and access plan

- Person-centred planning processes, including:
- MAPS
- PATH
- Personal Futures Planning

*Readiness for development of a plan may refer to:*

- Capacity to make decisions
- Capacity to participate
- Capacity to understand the process
- Involvement of an advocate
- Power imbalances

*Logistical requirements of planning may include:*

- Advance notification of stakeholders
- Information gathered from other involved health and community services and from family and friends, where appropriate
- Time, place and venue

*Background material may include:*

- Information on the process
- Requests for information to bring to the meeting

*Reporting may include:*

- Non-verbal (written):
- progress reports
- case notes
- incident reports
- Verbal:
- telephone
- face-to-face

|                                                                               | 4.3 Identify broad job requirements in different service options                                                                           |
|                                                                               | 4.4 Demonstrate consideration of the role of other health and community service providers in supporting a consumer in the recovery process |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Impact of stigma
- A range of facts/myths about mental illness and psychiatric disability
- Basic principles of disability
- Participative models of service delivery
- Range of services that exist to assist people to address their mental health needs
- Key concepts such as promotion, prevention and early intervention and how they are related to the social, economic, political and historical contexts of mental health service provision
- Principles of community delivered service provision

## REQUIRED SKILLS AND KNOWLEDGE

- Importance of client input
- Holistic and person-centred care
- Current issuers facing people affected by mental illness
- Client needs and rights including duty of care
- Principles of client empowerment/disempowerment
- Historical and social context of mental health
- Political and economic context of mental health
- Principles of access and equity
- Basic policy, regulatory, legislative and legal requirements include
  - mental health acts
  - Privacy Act
  - equal employment opportunity principles
  - community treatment orders
  - community counselling orders
  - guardianship board
  - freedom of information act
  - individual rights
  - united nations principles for the protection of persons with mental illness and the improvement of health care
  - national mental health policy and plan
  - national mental health service standards
  - disability services/discrimination acts and standards
- Involuntary and voluntary admission to hospital
- National standards for mental health services
- Historical and social context

*continued ...*

### *Essential knowledge (contd):*

- Current issues facing clients and existing services to address their needs and rights
- Understanding of regulations and guidelines governing the handling of medication
- Early intervention
- Legal system
  - courts
  - police powers
  - court reports
  - tribunals
  - parole

## REQUIRED SKILLS AND KNOWLEDGE

- community treatment orders
- Indigenous Australian culture
- Knowledge specific to working with people from culturally and linguistically diverse backgrounds
- Knowledge specific to working with people at risk of self-harm

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate application of understanding of underpinning values and philosophies in the mental health sector, such as:
  - holistic and person-centred approaches
  - social inclusion focus of working with people with mental health issues
  - collaborative approaches to working with people with mental health issues and their carers where appropriate
  - value, importance and history of the role of consumer workers
- Demonstrate an application of an understanding of impact of stigma
- Demonstrate an application of the issues facing people affected by mental health issues
- Demonstrate broad skills to identify and analyse the range of service options and the role they play in dealing with mental health issues

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed on the job or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider the

## EVIDENCE GUIDE

requirements of the particular workplace context

- Access and equity considerations:*
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
- Context of and specific resources for assessment:*
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
  - Resources required for assessment of this unit include access to a workplace or simulated workplace where assessment may occur
- Method of assessment:*
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
  - Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
  - Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## EVIDENCE GUIDE

*Related units:*

This unit should be assessed after or in conjunction with:

- CHCMH402A Apply understanding of mental health issues and recovery processes

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Identification of reasons for seeking help may be assisted by:*

- The client
- Carers
- Colleagues
- Information from other services

*Context includes:*

- Statutory framework within which work takes place
- Historical context of work e.g.
  - changing attitudes to mental health
  - changing approaches to working with people with mental health issues
- Changing social context of work such as:
  - person-centred and collaborative approach to working with people with mental health issues
  - changing government and societal views of mental health
  - increasing use of consumer workers
  - deinstitutionalisation
- Political context such as:
  - government policies and initiatives affecting

**RANGE STATEMENT**

*include:*

- Community education
- Promotion of mental health and well being
- Early intervention
- Delivery of appropriate services
- Commitment to meeting the needs and upholding the rights of consumers
- Commitment to empowering the consumer
- Encouragement of personal growth and development toward recovery and wellness

*A commitment to access and equity principles includes:*

- Creation of a consumer oriented culture
- A non-discriminatory approach to all people using the service, their family, carer/s and friends, the general public and co-workers
- Ensuring the work undertaken takes account of and caters for differences including: cultural, physical, religious, economic, social

*Cultural and linguistic differences may include:*

- Different cultural and social contexts
- The needs of indigenous Australians
- The needs of people from non-English speaking backgrounds
- Social variables such as social attitudes to mental illness

| CHCCS504A<br>Provide services to clients with complex needs | CHCCS504B<br>Provide services to clients with complex needs | ISC upgrade changes to remove references to old OHS legislation and replace with references to new WHS legislation. Updated terminology 'challenging behaviour' to 'behaviours of concern'. No change to competency outcome. |

### Unit Descriptor

**Descriptor**

This unit describes the skills and knowledge required by community workers to provide services to people with complex needs

### Application of the Unit

**Application**

This unit applies to workers in the community services sector who may be working with people who have complex and multiple needs

Workers may include social housing workers, mental health workers, family violence workers, drug and/or alcohol (AOD) workers, disability workers, forced migrant workers and generalist support.

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Work with clients facing a range of issues

- 1.1 Apply a demonstrated understanding of issues that client may face including:

- mental health
- AOD
- imprisonment
- family violence
- homelessness
- child protection
- disability
- trauma/grief
- acquired brain injuries
- cultural issues

- 1.2 Apply a demonstrated understanding of associated and impacting issues:

- access and equity to services in the wider social environment
- trauma/grief
- health
- cognitive/social
- personal safety

- 1.3 Recognise the impacts *complex issues* may have on significant others

**ELEMENT****PERFORMANCE CRITERIA**

- |                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|---------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2. **ELEMENT****PERFORMANCE CRITERIA**

delivery plan

4.5 Seek advice and assistance from relevant professionals where appropriate when the client's goals are not being reached

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Legislative requirements:
  - relevant acts
  - privacy
  - duty of care
- Work health and safety (WHS)
- Customer service principles
- Personal values
- Access and equity principles
- Social justice principles
- Psychological first aid principles
- Consumer rights and responsibilities
- Broad understanding of community services sector including:
  - mental health
  - AOD
  - gambling
  - torture/trauma/grief/loss
  - disabilities
  - behavioural disorders
  - family violence

## REQUIRED SKILLS AND KNOWLEDGE

- child protection
- prison system
- social housing/homelessness

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Prioritise and manage the changing service needs of the client with complex and multiple needs
- Recognise own limitations and need for assistance
- Recognise agency's limitations
- Work collaboratively with colleagues, professionals and other services

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - negotiation and persuasion
  - liaising and networking
  - safety assessment
- Demonstrate oral communication skills required to develop rapport with client
  - oral communication skills may include:
    - listening
    - asking questions
    - providing encouragement
    - minimising impact of behaviours of concern
  - language used may be English, sign language or community language depending on client group
- Demonstrate literacy competency required to fulfil the procedures of the organisation/ service
- Safely use and coordinate the use of relevant technology effectively in line with WHS guidelines

## Evidence Guide

### EVIDENCE GUIDE

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- This unit may be contextualised to reflect its application to:
  - a range of age related areas such as youth work and aged care
  - a range of 'issue' types
- It is recommended that assessment or information for assessment will be conducted or gathered over a period of time and cover the normal range of workplace situations and settings
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally and linguistically diverse (CALD) environments
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

## EVIDENCE GUIDE

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- In particular, assessment is recommended in conjunction with:
  - CHCCS500B Conduct complex assessment and referral
  - CHCNET501C Work effectively with other services and networks
- Resources required for assessment include:
  - access to appropriate workplace or simulated workplace where assessment can take place
  - relevant organisation policy, protocols and procedures

*Method of assessment may include:*

- Observation in the workplace
- Written assignments/projects
- Case study and scenario analysis
- Questioning
- Role play simulation

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Safety of client and self may refer to:*

- Domestic violence
- Unpredictable client behaviour (e.g. aggression, dementia, mental health issues and AOD issues)
- Hazardous environments

**RANGE STATEMENT**

- Specific identified health and safety risks

*Complex issues may include:*

- Mental health
- AOD
- Family violence
- Poverty
- Disability
- Behaviours of concern
- Age
- Aboriginality
- Cultural diversity

*Complex needs with associated stigma may include but are not limited to:*

- Mental illness
- Homelessness
- AOD use
- Family violence

**Unit Sector(s)**

### Unit Descriptor

#### Descriptor

This unit describes basic competencies required by community service workers to provide sensitive and effective intervention where risk of self-harm or suicide has been identified

The focus is on identifying and managing immediate suicide risk in the context of a supportive helping relationship that seeks to work collaboratively with the person at risk to achieve safe outcomes

Safe outcomes in this context include a clear safety plan for addressing any immediate danger to the person at risk or others, mobilising access to emergency medical help when needed and facilitating links with further care

The unit relates to managing imminent risk in ways which provide opportunity for more comprehensive assessment and the provision of further help

### Application of the Unit

#### Application

This unit may apply to people in formal helping roles in any community service context or where caregivers encounter persons at risk of suicide

The focus of this unit is to provide a comprehensive response to manage situations where risk of suicide

may be indicated, noting that self-harm may itself result in death - intentional or unintentional

The skills and knowledge included here are to be applied to minimise risk in presenting situations and refer appropriately for *ongoing support* where required

## Licensing/Regulatory Information

## Employability Skills Information

**Employability Skills** This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Identify and assess the person's current suicide risk

- 1.1 Recognise and respond to signs, (such as statements, reactions, thoughts, feelings or behaviours) indicating that a person may be considering suicide
- 1.2 Attend to any hunches, while listening as a helper, perhaps from indirect communications, that suggest the client may be considering suicide
- 1.3 Ask directly about thoughts of suicide whenever

**ELEMENT****PERFORMANCE CRITERIA**

there are grounds for concern

If suicide thoughts are present:

1.4 Seek sufficient understanding of why the person is considering suicide, and what links them to life, to inform and facilitate the intervention

1.5 Assess current suicide risk guided by risk assessment considerations outlined in the Range Statement and by whether there is an imminent threat to the person's safety or the safety of others

1.6 Follow steps outlined in elements 2, 3 and 4.

If the person indicates she/he is not thinking of suicide and no suicidal intent, plans, or behaviour are evident:

1.7 Work collaboratively with the person to provide support and facilitate access to further care as needed - guided by elements 3 and 4

1.8 Remain vigilant about any emerging indications of suicidality, prompting careful risk assessment and safe management as outlined in elements 1 and 2

2. Work actively with the person to reduce the immediate risk of suicide and increase safety

2.1 Build a collaborative empathic relationship with person at risk that acknowledges how thoughts of suicide and the pain behind them may affect their safety

2.2 Listen to what lies behind any thoughts of suicide while affirming and strengthening links to safety and living implicit in the helping relationship

2.3 Work with person at risk to develop and follow through on a safety plan that reduces immediate danger of self-harm, risk of suicidal behaviour and/or suicide and mobilises access to emergency medical help when needed

2.4 Manage intervention in ways that address and reduce any risk of harm to caregivers and others potentially at risk in the situation and remain mindful of circumstances where the police may need to be involved to address safety

2.5 Seek and act on advice from workplace supervisor to ensure action taken is lawful, complies with good suicide intervention practice and organisation policies consistent with that practice, ethical processes and duty of care obligations

**ELEMENT****PERFORMANCE CRITERIA**

- 2.6 Address work health and safety (WHS) obligations in relation to managing self and others
- 2.7 Refer to health professionals where appropriate
3. *Facilitate and strengthen the individual's links to further care*
- Having worked with the person to take any steps needed to address immediate safety:
- 3.1 Encourage and enable capacity of person at risk and/or in crisis to make informed choices about further help that deals with their suicidality and associated needs for ongoing care
- 3.2 Acknowledge how the current helping relationship has provided foundations for further care
- 3.3 Explore and seek to understand and address any barriers to seeking or accepting help
- 3.4 Develop, with the individual, a plan and agreed first steps, to access and utilise informal supports and professional help
4. Provide further intervention support to resource the individual beyond immediate crisis
- When or if it is assessed that there is no imminent risk that needs to be immediately addressed:
- 4.1 Maintain open rapport with individual to encourage discussion of on-going concerns related to their situation generally and any suicide risk - focusing on what most needs attention now
- 4.2 Affirm person's decision to seek and accept help to keep safe and address their concerns
- 4.3 Review how and with whom they might seek help in future to keep safe and/or get support
- 4.4 Support individual to develop coping strategies (both internal and external) which prepare them to safely manage any recurrence of suicidal thoughts
- 4.5 Identify mental health concerns or personal circumstances (such as depression, trauma, substance misuse or significant losses) that need addressing and facilitate access to appropriate help
- 4.6 Ensure supports and coping strategies developed are documented and communicated as necessary to other members of work team

**ELEMENT****PERFORMANCE CRITERIA**

4.7 Comply with all laws, relevant ethical guidelines and policy requirements that affect duty of care

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Common indicators or signs of potential suicide risk, including risk of any type of self-harm
- Principles of crisis intervention, including relevant laws, ethical guidelines and policy requirements that support good care
- Policy around critical incidents and duty of care
- Principles and practices of suicide intervention including risk assessment, development of safety plans and facilitation of on-going support
- Procedures for obtaining assistance and making informed referrals to other agencies
- Procedures for facilitating emergency interventions
- Awareness of personal values, beliefs and attitudes which may facilitate or impede crisis care and suicide intervention
- Examination of common notions about suicide and sound suicide intervention practice in the light of available evidence
- Awareness of how other mental health issues may impact upon intervention
- Commitment to attend to the pain of the person at risk and work towards safe, life sustaining outcomes
- Principles of self care and support-seeking relevant to involvement in crisis and suicide intervention work

## REQUIRED SKILLS AND KNOWLEDGE

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate the capacity to work competently and independently according to the principles of effective practice and within general context of supervisory relationship
- Demonstrate accountability for own professional conduct and practice including:
  - carrying out assigned tasks
  - working effectively under the pressure of crisis situations
  - maintaining the quality of services to clients
  - strengthening links to life-sustaining options and supports in suicidal crises.
  - demonstrating a commitment to attend to the pain of persons considering or affected by suicide and to work toward safe, life-affirming outcomes
- Facilitate links with higher levels of care and making referrals, including access to emergency medical help when needed
- Seek, integrate and apply learning from supervision and support

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - competent skills in communication, counselling and crisis intervention
  - competent suicide intervention, (including recognition, assessment and safe management of immediate suicide risk and facilitating links to further emergency help or general care as needed)
  - self-monitoring and self care
- Maintain documentation as required, including effective use of relevant information technology in line with WHS guidelines

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

## EVIDENCE GUIDE

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to a workplace or similar environment over a number of occasions

*Method of assessment may include:*

- Simulations
- Case scenarios
- Report writing including developing safety plans

## Range Statement

### RANGE STATEMENT

## RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**General context of suicide self/harm work:** Mental health or community support worker in a community, respite, residential or hospital setting

*Identifying potential suicide risk involves:*

- Avoiding assumptions about who may be at risk and being alert to potential risk on an individual basis in any situation
- Recognising potential warning signs that invite help and prompt enquiry about suicide
- Asking directly about thoughts of suicide when there are any grounds for concern

*Informed suicide risk assessments involve:*

- Recognising that any suicide thoughts or acts of deliberate self-harm signal significant distress, pose potential risk of injury or death and should be taken seriously
- Assessing factors that indicate suicide risk which include, but are not limited to, the following:
  - concern is aroused by the presence of suicide thoughts and things often associated with these thoughts (such as a desire to escape pain that feels unbearable, a sense of hopelessness, current difficulty seeing alternatives to suicide and feeling alone)
  - immediate risk increases when someone has begun acting on their suicide thoughts or is preparing to do so (for example possible suicide in progress, presence of a suicide plan, available means) and / or has expressed suicidal intent
  - risk can be further exacerbated if the person is under the influence of excessive alcohol or other drug use
  - pertinent background factors, particularly prior

## RANGE STATEMENT

suicidal behaviour and the presence of significant mental health problems, should be carefully assessed

A wide variety of contextual or personal considerations also help inform assessments and may include such things as significant loss, trauma, the impact of another person's suicide or a pattern of extreme agitation, anger / violent behaviour

- Identifying internal sources of safety and support (such as coping skills and beliefs) and those around them (such as family, friends and community services)
- Connections to life and living are usually present alongside thoughts of suicide and can provide foundations to build upon in increasing the safety of a person at risk
- 

*Safer outcomes include:*

Recognising that:

- Vigilance about safety with all suicide related thoughts or behaviours is essential, even though the person may be influenced by a wide range of motives in considering or engaging in deliberate self-harm
- Risks to life and safety can often be greater than individuals recognise or intend, so safe outcomes are a primary focus, regardless of stated intentions

Developing or reactivating suicide safety plans tailored to meet the situation, but typically including the following processes and tasks:

- Affirm and build on the desire for help and safety implicit in the counselling relationship
- Work with the person at risk to identify and act on clear cooperative steps that reduce the immediate risk of self-harm / suicide over an agreed time period
- Focus specifically, in the first instance, on factors, plans and behaviours, including unsafe use of alcohol and other drugs that endanger the person at risk at this particular time and seek to engage them cooperatively in steps that safely manage and reduce these risks
- Explore ways of engaging others in the safety plan, such as in monitoring safe use of prescription medication/s

## RANGE STATEMENT

- Enable prompt, timely action that increases informal and professional support, mobilises access to emergency medical help when needed and reduces likelihood person will act on their suicidal thoughts
  - Seek to create calm environment to promote safety for person at risk, caregiver and others involved in situation
  - Access support and follow advice from organisation's supervisor/ coordinator that reflect lawful, good suicide intervention practice and follow crisis management and emergency procedures
  - Attend to self and others in relation to WHS in the workplace
- Facilitate and strengthen the individual's links to further care includes:*
- Affirming the first steps to further care already implicit the current crisis intervention relationship
  - Encouraging further helping steps while acknowledging and addressing internal conflicts and external barriers to taking those steps
  - Asking the person what assistance they would value most at this time
  - Providing information and referral options to match the person's needs and specifically address their suicidality along with other concerns
  - Exploring achievable steps to help the person strengthen their connections, relationships and formal / informal supports
  - Supporting the person to determine how and when these supports and services can best be used
- Ongoing support provision may include:*
- Ongoing vigilance about identifying and managing suicide risk
  - Use of effective communication skills to maintain rapport and morale
  - Use of strengths-based approach to identify and encourage internal and external coping strategies and supports
  - Debriefing to third parties potentially affected by the crisis
  - Identifying underlying significant life issues and supporting the client to seek assistance around these issues e.g. feelings of remorse, guilt, sadness, anger,

**RANGE STATEMENT**

addiction, abuse, trauma, other mental health issues

- Supporting the client to access another service / agency / information
- Documenting work with person to ensure all plans and safeguards are communicated in work team
- Following policy relating to documentation, duty of care, confidentiality, and support planning

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Equity issues in population health
- Evidence-based practice
- National, State and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Alma Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Social change and advocacy processes
- The various capacity building strategies
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases
- Understanding of capacity building theory and framework

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply analytical thinking, problem solving and critical appraisal
- Apply effective communication and interpersonal skills including:
  - high level written or verbal
  - negotiation and liaison
  - consultation
  - conflict resolution and mediation
- Engage and work collaboratively and/or in partnership
- Facilitate and contribute effectively to meetings, forums and other networks
- Undertake work planning and management

## REQUIRED SKILLS AND KNOWLEDGE

- Work as part of a multi-disciplinary team and/or autonomously

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistent satisfactory performance of all elements of this unit must be demonstrated
- May need to be assessed in conjunction with other units of competency addressing capacity building strategies

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit may be assessed in the workplace or in a simulated workplace under normal conditions
- The unit may be assessed in the classroom

## EVIDENCE GUIDE

- Access to:
  - a range of government and non-government policy documents and reports and statistics
  - journals, books and external expertise
  - documents and other materials (charters, declarations, discussion papers, etc.) from international conferences on population health
  - a range of government and non government policy documents and reports and statistics
  - organisation policies and procedures

*Method of assessment may include:*

- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff client feedback
- Portfolio/CV
- Supporting statement of supervisors
- Evidence of relevant work experience/formal or informal learning
- Case studies and scenarios as a basis for the discussion of issues in population health project planning
- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional

## RANGE STATEMENT

contexts.

*Context within which a capacity building program sits may include:*

- Physical environment
- Economic environment
- Political environment
- Organisational environment
- Socio-cultural environment

*Pre-existing capacities may include relevant:*

- Skills
- Structures
- Partnerships
- Resources

*Dimensions of capacity building include:*

- Development of infrastructure
- Enhancement of program sustainability
- Fostering problem solving capabilities

*Key action areas of capacity building include*

- Organisational development
- Workforce development
- Resource allocation
- Partnerships
- Leadership

*Principles of effective capacity building practice include:*

- Respecting and valuing pre-existing capacities
- Developing mutual respect
- Being responsive to context within which capacity building program sits
- Avoiding pre-packaged ideas and strategies

*Examples of capacity building strategies include*

- Canvassing opportunities for a program
- Lobbying for support
- Developing skills in others
- Supporting policy development
- Negotiating with management
- Guiding the establishment of partnerships
- Contributing to organisational planning

**RANGE STATEMENT**

|                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## Unit Sector(s)

Not Applicable

## HLTPOP503C Plan a population health project

### Modification History

Not Applicable

### Unit Descriptor

**Descriptor**

This unit is concerned with planning the specifics of a population health project

It covers the process of selecting an appropriate health issue, selecting specific intervention strategies, tailoring strategies to appropriate groups, developing goals(s) and objectives, defining ways of measuring these, identifying required and available resources, identifying appropriate stake holders, communicating with them and managing the project

### Application of the Unit

**Application**

This unit applies to work in a public health context

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

### Employability Skills Information

**Employability Skills**

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

- |                                                                              |                                                                                                                                                                                                                                                                                                                                                                                        |
|------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Develop a process for overseeing plan development                         | 1.1 Establish an advisory group representing <i>stakeholders</i><br>1.2 Timetable advisory group feedback on each stage of the planning process<br>1.3 Incorporate feedback where appropriate                                                                                                                                                                                          |
| 2. Confirm appropriateness of health issue that is being planned for         | 2.1 Identify burden of illness related to the health issue<br>2.2 Determine appropriateness of health issues being planned for on the basis of the way it fits with relevant policies and guidelines<br>2.3 Identify current related activities in relation to the issue                                                                                                               |
| 3. Select appropriate <i>strategies</i> to achieve <i>goal(s)/objectives</i> | 3.1 Clearly identify program goal(s) and objectives<br>3.2 Identify strategies most likely to fulfil project goal(s) and objectives on the basis of available literature and suitability, effectiveness, reach and acceptability to stakeholders and target group<br>3.3 Ensure strategy activities are logically sequenced and are consistent with time frame and resources available |
| 4. Plan evaluation                                                           | 4.1 Select an evaluation design that is appropriate to the goal and objectives and resources available<br>4.2 Identify measures of project goal and objectives                                                                                                                                                                                                                         |

**ELEMENT****PERFORMANCE CRITERIA**

and develop protocols for their collection

4.3 Identify methods of monitoring and recording aspects of strategy implementation such as reach/exposure, acceptability/satisfaction and quality of materials

4.4 Outline proposed evaluation report purpose, format and content on the basis of consultation with stakeholders

5. Plan project budget

5.1 Identify costs of implementing strategy and evaluation and monitoring

5.2 Investigate and assess sources of project funding

5.3 Identify sources of personnel to meet the human resource requirements, taking into consideration their skills and knowledge base

5.4 Identify sources of non-human resources such as meeting rooms, information resources and training materials

6. Ensure resources required are prepared/ready for use

6.1 Develop or source resources for strategy implementation (e.g. protocols, training packages, written materials) and test to ensure acceptability and suitability to the needs of the target group

6.2 Brief staff or individuals involved in the project on the programme rationale, procedures and the role they will play and ensuring they develop the skills required for the fulfilment of that role

7. Develop a dissemination plan

7.1 Develop a plan for documenting and disseminating results to relevant stakeholders

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

## REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Equity issues in population health
- Evidence-based practice
- National, State and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Alma Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Social change and advocacy processes
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Analyse, judge and incorporate feedback where required
- Apply analytical thinking, problem solving and critical appraisal
- Apply effective communication and interpersonal skills including:
  - high level written or verbal
  - negotiation and liaison
  - consultation
  - conflict resolution and mediation
- Apply budgeting skills
- Apply evaluation design skills
- Apply monitoring skills
- Demonstrate effective goal and objective writing
- Develop and implement a process that ensures consultation with key stakeholders

## REQUIRED SKILLS AND KNOWLEDGE

throughout the planning process

- Engage and work collaboratively and/or in partnership
- Facilitate and contribute effectively to meetings, forums and other networks
- Pay attention to equity
- Undertake work planning and management
- Work as part of a multi-disciplinary team and/or autonomously

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistent satisfactory performance of all elements of this unit must be demonstrated

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## EVIDENCE GUIDE

### *Context of and specific resources for assessment:*

- This unit may be assessed in the workplace or in a simulated workplace under normal conditions
- The unit may be assessed in the classroom
- Access to:
  - a range of government and non-government policy documents and reports and statistics
  - journals, books and external expertise
  - documents and other materials (charters, declarations, discussion papers, etc.) from international conferences on population health
  - a range of government and non government policy documents and reports and statistics
  - organisation policies and procedures

### *Method of assessment*

- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff client feedback
- Portfolio/CV
- Supporting statement of supervisors
- Evidence of relevant work experience/formal or informal learning
- Case studies and scenarios as a basis for the discussion of issues in population health project planning
- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report

### *Related units:*

This unit should be undertaken and assessed in conjunction with the following units:

- HLTPOP502C Work with the community to identify health needs
- HLTPOP504C Evaluate a population health project

It is recommended that this unit is undertaken in conjunction with the following unit to obtain a more holistic view of program planning, management and

## EVIDENCE GUIDE

evaluation processes:

- PSPPM402B Manage simple projects

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Population health projects may vary considerably in scope and content:*

- Population health projects may be developed in any population health field including:
  - health promotion
  - environment health
  - communicable diseases
  - health risk management and assessment
- Population health projects may be developed at any level including:
  - local
  - regional
  - state
  - national
- Population health projects may be developed for any population including:
  - general Australian population
  - any subgroups within that population identified based on age, sex, ethnicity, sexual identity, geographical location, physical environment, lifestyle choices, socio economic status, disability, health status etc.
  - any community defined as collective group of people identified by common values and mutual

## RANGE STATEMENT

|                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| <i>Stakeholders may include:</i>                               | <ul style="list-style-type: none"> <li>Representatives of relevant health agencies operating in the local community</li> <li>Community advocates or change agents</li> <li>Representatives/leaders of the target population</li> <li>Population health professionals/Supervisors</li> <li>Federal, state or local health service and population health planners</li> <li>Federal, state or local health service providers</li> <li>Other health and/or non-government organisations</li> </ul>                                                                                                                                                        |
| <i>Sources of information for planning may include:</i>        | <ul style="list-style-type: none"> <li>Literature from population health and related disciplines such as published book, peer-reviewed papers (especially systematic reviews) and reports</li> <li>Literature outlining marketing and behaviour change strategies specific to the target population</li> <li>Demographic data and information</li> <li>Socio-economic data and information</li> <li>Data and information from health research and health studies</li> <li>Expert informants</li> <li>Key representatives of the target population</li> <li>National, State and local health policy documents and implementation guidelines</li> </ul> |

## RANGE STATEMENT

- Planning models include:*
- PRECEDE-PROCEED
  - Model of rational planning (McCarthy)
  - Hawe, Degeling and Hall's Program Planning Model
- Goal(s) refer/s to:*
- What the project aims to ultimately achieve
- Objectives refer to:*
- What the project needs to attain to achieve project goal(s)
- Strategy refers to:*
- A plan of action to achieve a project goal
- Appropriate strategies should take into account:*
- Current Australian trends in health inequalities
  - Current evidence relating to health and its social determinants
  - Socioeconomic variables, and measures of health inequality at an area and individual level
- Relevant personnel for consultation may include:*
- Individuals who have undertaken similar work or worked with a similar target population
  - Individuals who control access to any of the factors that may influence delivery of the project strategies (e.g. stakeholders, target population, etc.)
  - Individuals who may potentially provide resources

## Unit Sector(s)

Not Applicable

## HLTPOP502C Work with the community to identify health needs

### Modification History

Not Applicable

### Unit Descriptor

#### Descriptor

This unit develops the skills necessary to assist particular populations/subgroups of interest/communities to define and assess their health needs

It develops the ability to carefully work with them to examine the problem being targeted and to understand how and why it occurs

The results from the needs assessment guides the design, planning and evaluation of population health projects or interventions

This unit specifically addresses the second stage of health needs assessment as outlined in Application

### Application of the Unit

#### Application

There are two stages in health needs assessment:

- The first relates to the task of identifying and prioritising health problems
- The second relates to translating these national goals into concrete action within local communities

The first stage of needs assessment often lies in the hands of health policy makers and population health professionals

Results of this stage are documented in policy papers or legislation detailing national, state or local health goals and the mobilisation of allocated funds

Recognising that community is the centre of gravity for the promotion of health, the second stage ensures the relevance and appropriateness of programs and offers members of the community a chance to engage in the planning process

## Licensing/Regulatory Information

## Pre-Requisites

Not Applicable

## Employability Skills Information

**Employability Skills** This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Conduct a literature review

- 1.1 Clearly identify health problem and target group being addressed
- 1.2 Identify and access *relevant sources* of data
- 1.3 Use the literature review to reveal the established causes of the health problem, other intervention programs that have been conducted to address the health problem and general information about the target group
- 1.4 *Critically appraise information accessed through literature review* in terms of reliability and applicability

#### 2. Collect other relevant *data* to

- 2.1 Identify relevant types of data required to further

**ELEMENT****PERFORMANCE CRITERIA**

further define target group

define target group

2.2 Collect required data that cannot be obtained through a literature search, according to organisation procedures and ethical considerations

2.3 Document description of target group in a manner that would provide sufficient information for purposes of evaluation and for examination of those considering duplicating interventions

3. Investigate the health problem as it occurs and is perceived within the community

3.1 Identify appropriate means of consulting the target group regarding the health problem, its causes and appropriate interventions/solutions

3.2 Implement means of consultation with target group and experts using allocated resources and according to organisation procedures and ethical considerations

3.3 Document results of consultation in a manner useful to planning, evaluating and duplicating interventions and according to organisation procedures and ethical considerations

4. Work with the community to identify and define their *health needs*

4.1 Clearly identify factors contributing to the health problem on the basis of findings from the literature review and other data collected and discuss with the community

4.2 Sort out, in a logical manner, factors that identify *causal pathways* defining health needs and discuss with the community

4.3 Recommend activities that would build the capacity of the community to identify their health needs to relevant stakeholders

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Equity issues in population health
- Evidence-based practice
- National, State and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Alma Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Social change and advocacy processes
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply analytical thinking, problem solving and critical appraisal
- Apply effective communication and interpersonal skills including:
  - high level written or verbal
  - negotiation and liaison
  - consultation
  - conflict resolution and mediation
- Engage and work collaboratively and/or in partnership
- Facilitate and contribute effectively to meetings, forums and other networks
- Undertake work planning and management
- Work as part of a multi-disciplinary team and/or autonomously

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistent satisfactory performance of all elements of this unit must be demonstrated

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit may be assessed in the workplace or in a simulated workplace under normal conditions
- The unit may be assessed in the classroom and may contain a strong theoretical emphasis
- Access to:
  - A range of government and non-government policy documents and reports and statistics
  - Journals, books and external expertise
  - Documents and other materials (charters,

## EVIDENCE GUIDE

declarations, discussion papers, etc.) from International Conferences on Population Health

- A range of Government and non government policy documents and reports and statistics
- Organisation policies and procedures

*Method of assessment may include:*

- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff client feedback
- Portfolio/CV
- Supporting statement of supervisors
- Evidence of relevant work experience/formal or informal learning
- Case studies and scenarios as a basis for the discussion of issues in population health project planning
- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report

*Related units:*

This unit should be undertaken and assessed in conjunction with the following units:

- HLTPOP503C Plan a population health project
- HLTPOP504C Evaluate a population health project

Other relevant units include:

- PSPPM402B Manage simple projects
- CHCCOM403A Use targeted communication skills to build relationships
- LGACOM502B Devise and conduct community consultations

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Health need is defined as:*

- State, conditions or factors in the community which, if absent, prevent people from achieving the optimum of physical, mental and social well-being

*Types of need*

- Normative need (based on expert opinion)
- Expressed need (based on inferences made from observation of use of health services)
- Comparative need (derived from examining the services provided in a similar population)
- Felt need (based on what members of the community say they need)

*Health problem and group being targeted may be initially identified through one of the following ways:*

- Consultation with supervising Population Health professional
- Position/job description
- Policy documents/legislation detailing national, state or local health goals

*Means of finding relevant literature may include:*

- Using the subject catalogue
- Using abstracts or indexes (e.g. Index Medicus, Psychological Abstracts, Sociological Abstracts, ERIC, Social Sciences Citation Index, Current Contents, FAMILY, APAIS)
- Computer searches

*Critical appraisal of literature refers to:*

- Process of review that enables one to decide how useful pieces of research work are

## RANGE STATEMENT

*Reliability of literature (particularly relating to interventions) refers to:*

- The logical soundness of method, results and conclusions drawn by authors

*Applicability of literature (particularly relating to interventions) refers to:*

- The extent to which the finding could extend to, or be replicated, in other groups - particularly the group being targeted

*Relevant sources of information include:*

- Books
- Journals
- Hospital records
- Notification systems
- Registers
- Sentinel recording systems
- Surveys
- Annual public health reports
- Existing epidemiological/socio-demographic data
- National Population Health and Health Promotion agencies and organisations
- General practitioners/primary care service
- Local health authorities
- Councils
- Voluntary agencies
- Relevant databases such as HEAPS
- Publications of Australia Bureau of Statistics (ABS)
- Experts in the field (practice and academia)
- Target group representatives

*Data may be:*

- Qualitative
- Quantitative

*Types of data required about the target group may include:*

- Demographic characteristics (e.g. age, sex, ethnic composition, residence, education level achieved)
- Patterns of behaviour
- Lifestyle

## RANGE STATEMENT

*Ethical considerations that guide data collection and consultation processes may include:*

- Privacy and Confidentiality
- Responsibility to help a community respond to needs they identify which might not necessarily coincide with stated priority health needs

*Consultation may take the form of one of the following:*

- Interviews (personal, phone, formal or informal, etc.)
- Nominal group process
- Questionnaires
- Delphi method
- Focus groups
- Forums

*The term "causal pathways" refers to:*

- Series of factors and events that seem to lead up to the problem

*Causal pathways may include the following components:*

- Risk markers: identify the target group, outlines the characteristics associated with occurrence of problem but do not necessarily directly contribute to it)
- Risk factors: directly account for why the problem is occurring
- Contributing factors: contribute to or account for the risk factors and could be sorted out into predisposing factors, enabling factors and reinforcing factors

*Stakeholders may include:*

- Representatives of relevant health agencies operating in the local community
- Community advocates or change agents
- Representatives/leaders of the target population
- Population health professionals/Supervisors
- Federal, State or local health service and population health planners
- Federal, State or local health service providers
- Other health and/or non-government organisations

## Unit Sector(s)

## HLTPOP501C Apply a population health framework

### Modification History

Not Applicable

### Unit Descriptor

#### Descriptor

This unit is intended to support workers to understand and apply the underlying principles and philosophy that must be reflected in all areas of population health work

This includes using appropriately a range of "change action" frameworks underpinning population health work

The unit also assists in locating the population health worker within the larger context of regional, national and international initiatives on promoting health

### Application of the Unit

#### Application

This unit applies to work in a public health context

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

### Employability Skills Information

#### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

- |                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
|----------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Apply the principles of the <i>population</i> health approach to relevant work                                                | 1.1 Identify current and historic <i>concepts of health</i> and its determinants<br>1.2 Identify key principles to a population health approach<br>1.3 Modify work approach so as to apply key principles of population health                                                                                                                                                                                                                                                                 |
| 2. Select from of a range of ' <i>change action</i> ' frameworks that underpin population health work                            | 2.1 Identify relevant population health 'change action' frameworks<br>2.2 Match appropriate 'change action' frameworks to population health tasks on the basis of theory and/or past evidence<br>2.3 Recognise and reflect a multi-disciplinary and multi-strategic approach in population health work<br>2.4 Notice and remedy the consequences of poor selection                                                                                                                             |
| 3. Work effectively within the local, state, national and international context within which a population health worker operates | 3.1 Identify and assess relevant local, state and national organisations, networks, policies and initiatives supporting population health<br>3.2 Explore priority population health issues at the local, state, national level and international levels<br>3.3 Determine limitations on actions resulting from legislation etc. and discuss with superiors, peers and other team members<br>3.4 Clarify own role as part of a multi-sectoral and multi-strategic approach to population health |

**ELEMENT****PERFORMANCE CRITERIA****Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Equity issues in population health
- Evidence-based practice
- National, State and local health policies, goals, targets and priorities and relevant legislative frameworks
- Population health issues in Australia
- Principles and practices of population health
- Range of population health strategies and application of best practice in population health
- Relevant international charters/declarations and documents (e.g. Ottawa Charter, Alma Ata, Jakarta Declaration, The Solid Facts by WHO)
- Social determinants of health
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases
- Types of organisations involved in population health in Australia

*Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

## REQUIRED SKILLS AND KNOWLEDGE

- Apply analytical thinking, problem solving and critical appraisal
- Apply effective communication and interpersonal skills including:
  - high level written or verbal
  - negotiation and liaison
  - consultation
  - conflict resolution and mediation
- Gather information from documentation, consultation and other sources
- Translate 'big picture' information into value at the local and regional level

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## EVIDENCE GUIDE

### *Context of and specific resources for assessment:*

- This unit may be assessed in the workplace or in a simulated workplace under normal conditions
- The unit may be assessed in the classroom and may contain a strong theoretical emphasis
- Access to:
  - a range of government and non-government policy documents and reports and statistics
  - journals, books and external expertise
  - documents and other materials (charters, declarations, discussion papers, etc.) from international conferences on population health
  - a range of government and non government policy documents and reports and statistics
  - organisation policies and procedures

### *Method of assessment*

- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff client feedback
- Portfolio/CV
- Supporting statement of supervisors
- Evidence of relevant work experience/formal or informal learning
- Case studies and scenarios as a basis for the discussion of issues in population health project planning
- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report

## Range Statement

### RANGE STATEMENT

## RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*The term population may refer to:*

- General Australian population
- Any sub-group within that population identified by age, sex, ethnicity, sexual identity, geographical location, physical environment, lifestyle choices, socio economic status, disability, health status, etc.
- Any community defined as collective group of people identified by common values and mutual concern for the development and well-being of their group or geographical area

*Relevant work implies:*

- That not all of a particular worker's (paid) role may be classified as 'population health'
- Indeed for most workers, population health work will be a component only (sometimes small) of their total work role.
- This unit applies only to that part of the role that adopts the population health principles and change action frameworks listed below

*Concepts/models of health include:*

- Medical model
- Salutogenic model
- Social view of health
- Academic/professional models of health

*Health determinants may include:*

- Political
- Biological and genetic factors
- Physical environment
- Social factors (e.g. social gradient, stress, early life, social exclusion, work, unemployment, social support, addiction, food, transport, housing, etc.)
- Behavioural

## RANGE STATEMENT

|                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

**RANGE STATEMENT**

*health action may include*

- Hospital
- Health services
- Community
- Work
- Transport
- Sports, arts and recreation facilities

*Examples of local, national and international organisations, networks and initiatives supporting Population Health work include:*

- Establishments that provide primary health care
- Community clinics
- Local public health units
- State and national Health departments
- Professional and industry associations
- Non-government organisations
- International health organisations

*Relevant international charters/declarations include:*

- Lalonde Report
- The Solid Facts by WHO
- Health for All by the Year 2000
- Declaration of Alma Ata
- Healthy Toronto 2000
- 38 Targets for Health in the European region
- Ottawa Charter for Health Promotion
- Jakarta Declaration on Health Promotion into the 21st Century
- Health Promotion: Bridging the Equity Gap

# HLTPOP407C Develop population health competencies in other people

## Modification History

Not Applicable

## Unit Descriptor

### Descriptor

This unit addresses the need to develop population health competencies in workers in fields directly or indirectly allied to population health

## Application of the Unit

### Application

This may apply to individuals in community or welfare work who may be required to engage in population health program planning, delivery or evaluation in their own settings or those who are involved in an entirely different line of work in the community (Council, teaching in a school setting or librarians) but may play a critical role in promoting health

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Adult learning theories
- Capacity building theory and framework and various capacity building strategies
- Equity issues in population health
- Evidence-based practice
- National, State and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Quality assurance
- Relevant international charters/declarations and documents (eg. Alma Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Social change and advocacy processes
- Theory and practice of population health including health promotion, health protection

## REQUIRED SKILLS AND KNOWLEDGE

and prevention of communicable and non communicable diseases

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply training planning, delivery and evaluation methods and strategies
- Use a high level of oral and written presentation skills in a training context

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

#### *Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Successful performance of all elements of the unit should be demonstrated
- Competency in this unit needs to be assessed over a period of time, in a range of contexts and on multiple occasions involving a combination of direct, indirect and supplementary forms of evidence

#### *Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and

## EVIDENCE GUIDE

current issues impacting on health of Aboriginal and Torres Strait Islander people

- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- Assessment should occur on the job or in a simulated workplace
- Access to:
  - training program
  - training session plans
  - requisite training locations, materials and target groups for training

*Method of assessment:*

- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff client feedback
- Portfolio/CV
- Supporting statement of supervisors
- Evidence of relevant work experience/formal or informal learning
- Case studies and scenarios as a basis for the discussion of issues in population health project planning
- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report

*Related units*

- This unit should ideally be assessed in conjunction with related training units if appropriate to the worker and may need to be assessed in conjunction with other units of competency addressing capacity building strategies

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Practical and appropriate methods of developing competencies might include:*

- Identifying training needs/competencies that need to be developed
- Training delivery methods and opportunities for practice
- Materials that may be used
- Monitoring and reviewing the effectiveness of training
- Characteristics of participants that may impact on training

*Individuals in the community who can assist in health promotion may include:*

- Health and community workers
- Teachers
- Medical Receptionists
- General Practitioners
- Lab Technicians
- Librarians
- Community health nurse
- Members of community organisations
- Community educators
- Local government industry managers
- Council workers

*Stakeholders may include:*

- Representatives of relevant health agencies operating in the local community
- Community advocates or change agents
- Representatives/leaders of the target population
- Population health professionals/Supervisors
- Federal, state or local health service and population

**RANGE STATEMENT**

|                                                                              |                                                                                                                                                                                                                                                                                                                       |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

## REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Equity issues in population health
- Evidence-based practice
- Media practices and procedures
- Methods of establishing beneficial media relationships
- National, State and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Alm Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Requirements of different medium types
- Social change and advocacy processes
- The need to provide information which is accurate, particularly with regard to libel and discrimination issues
- The role of media in disseminating information
- The role of the media to present information in a newsworthy/ informative manner
- The significance of organisation confidentiality in relation to the public release of information
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases
- Working knowledge, consistent with the elements of competence, of the organisation's applicable media policy and procedures and relevant industry codes of practice

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Accurately communicate organisation policy
- Apply procedures for liaising with media
- Apply effective communication and interpersonal skills including:

## REQUIRED SKILLS AND KNOWLEDGE

- language competence
- literacy and reading competence
- writing competence
- Apply analytical thinking, problem solving and critical appraisal
- Communicate information in a fluent, clear and interesting manner
- Demonstrate public speaking and media presentation skills
- Engage and work collaboratively and/or in partnership
- Facilitate and contribute effectively to meetings, forums and other networks
- Liaise with media and other organisation personnel
- Undertake work planning and management
- Work as part of a multi-disciplinary team and/or autonomously

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account

## EVIDENCE GUIDE

relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit is most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Assessment may be conducted on more than one occasion to cover a variety of situations
- A diversity of assessment tasks is essential for holistic assessment
- Access is required to:
  - equipment such as overhead projector and other presentation aids, appropriate computer software
  - mock audience, if simulated case study

*Method of assessment:*

Assessment may include:

- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff/client feedback
- Portfolio
- Supporting statement of supervisor(s)
- Authenticated evidence of relevant work experience and/or formal/informal learning
- Case studies and scenarios as a basis for discussion of issues and strategies to contribute to best practice in the work environment

*Related units:*

- This unit can be assessed independently
- However, holistic assessment practice with other appropriate units of competency is encouraged

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Organisations liaising with the media may include:*

- Health services
- Government services and departments
- Schools
- Local community organisations
- Clubs
- Churches and associations
- Industry

*Organisational protocols may include:*

- Following organisational policies and procedures
- Maintaining personal presentation standards and expectations
- Ensuring media liaison person is fully briefed and prepared
- Acknowledging support of other organisations
- Seeking advice from superiors where appropriate
- Observing relevant Federal and State legislation and regulations

*Appropriate media may include:*

- Print (local and daily newspapers, business newspapers, generalist magazines, specialist magazines, articles or reviews)
- Television (news interviews, commercials, programs or documentaries)
- Radio (interviews, talk-back or commercials)
- Internet (organisation web-sites, other government department and private web-sites, online forums)

*Campaigns or issues may include:*

- Statewide initiatives
- Locality wide interventions

**RANGE STATEMENT**

- Single setting interventions
- Single location interventions
- Long-term interventions

*Requirements of the media may include:*

- Deadlines
- Written reports
- Verbal presentations
- Photos
- Amenities
- Briefing area
- Access to media liaison person
- Bilingual personnel or bilingual information

*Relevant and succinct information may include:*

- Information that according to protocol is available for public release
- Information that is factual and avoids speculation
- Language that can be readily understood by a majority of the audience, in order to avoid misinterpretation

Enter <i>data</i> and interrogate the <i>system</i>          | <ul style="list-style-type: none"><li>2.1 Enter, check and amend data in accordance with prescribed procedures</li><li>2.2 Extract required information by querying the system</li><li>2.3 Import/export data between compatible databases and adjust host documents in accordance with software and system procedures</li><li>2.4 Use manuals, user documentation and on-line help to overcome problems</li><li>2.5 Name and store databases, in accordance with organisation requirements and exit the application without data loss/damage</li><li>2.6 Take steps to ensure that integrity and accuracy of data are maintained at all times, including contributing to the development of quality assurance procedures</li></ul> |
| 3. Disseminate/transmit information                             | <ul style="list-style-type: none"><li>3.1 Preview, adjust and print database reports in accordance with organisational and task requirements</li><li>3.2 Transmit electronic updates according to prescribed procedures and guidelines</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Equity issues in population health
- Evidence-based practice
- National, State and local health policies, goals, targets and priorities
- Organisation policy and procedures
- Overview of the stages in population health project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Ottawa Charter, Alma Ata, The Solid Facts by WHO)
- Social change and advocacy processes
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply numeracy skills in relating to creating simple queries and using simple formulae
- Demonstrate efficient input of data with minimal duplication of datasets
- Ensure databases are appropriate to task requirements
- Relate to people from a range of social, cultural, ethnic and professional backgrounds and physical and mental abilities

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Integrated demonstration of all elements of this unit required
- Competency is demonstrated by performance of all stated criteria within the scope as defined by the Range Statement
- In order to achieve consistency of performance, evidence should be collected over a set period of time which is sufficient to include dealings with an appropriate range and variety of situations

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- Assessment of performance requirements in this unit should be undertaken in an actual workplace or simulated environment
- The learner and trainer should have access to appropriate documentation and resources normally used in the workplace, such as:

## EVIDENCE GUIDE

- workplace reference materials such as style guides
- computer equipment with database software
- english dictionary

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Database systems may include:*

- State disease surveillance system
- Health registries created for different health issues (cancer, pap smear, hepatitis, etc.)

*Prescribed procedures and guidelines may be outlined in:*

- Organisational procedures manual
- Procedures manual provided by relevant health authorities

*Prescribed policy and procedures may include:*

- Log-on procedures
- Password protection
- Storage/location of data
- Standard formats
- Author's instructions
- Use of templates

*Software functions may include:*

- Field definitions/attributes
- Inserting/deleting blank lines and spaces

## RANGE STATEMENT

- Altering field widths
- Adding, deleting, moving, re-labelling fields
- Repeating (if available)
- Calculate/formula
- Formatting fields
- Formatting text
- Data protection
- Headers/footers
- Table, form and report wizards
- Exporting/merging data from different databases/software

*Data may include:*

- Numbers
- Text

*Checking may include:*

- Proofreading
- Accuracy of data
- Spelling, electronically and manually
- Accuracy of formulae with calculator
- Outcome of sorting/filtering
- Ensuring instructions with regard to content and format have been followed
- Timeliness of data entry

*Printing may include:*

- Records
- Tables
- Forms
- Queries
- Reports
- Charts

*Storage of data may include:*

- Storage in electronic folders/sub-folders
- Storage on hard/floppy disk drives, CD ROM, tape backup
- Organisation policy for backing up files
- Organisation policy for filing hard copies of databases
- Filing locations

## ELEMENT

## PERFORMANCE CRITERIA

- |                                                  |                                                                                                    |
|--------------------------------------------------|----------------------------------------------------------------------------------------------------|
| 3. Maintain the partnership                      | 3.1 Promote the partnership in the agreed manner                                                   |
|                                                  | 3.2 Undertake regular communication and review with all partners                                   |
|                                                  | 3.3 Identify, monitor and review challenges facing the partnership                                 |
|                                                  | 3.4 Seek, communicate, document and review <i>opportunities for learning</i> from the partnership  |
|                                                  | 3.5 Maintain transparency of agendas                                                               |
|                                                  | 3.6 Maintain <i>agreed measurement systems</i>                                                     |
| 4. Evaluate the effectiveness of the partnership | 4.1 Evaluate the flexibility and appropriateness of responses to challenges facing the partnership |
|                                                  | 4.2 Evaluate and communicate performance against agreed measures                                   |
|                                                  | 4.3 Monitor, review and communicate to stakeholders capability to implement the exit strategy      |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Mission, values and culture of the organisations targeted for and within the partnership

## REQUIRED SKILLS AND KNOWLEDGE

- Needs of the organisation
- Clarity of 'chain of command' - who will drive the partnership and how it relates to decision-making in the organisations

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate strategic communication skills
- Undertake conflict resolution
- Apply skills in strategic planning, including developing objectives, strategies and relevant budgets
- Undertake partnership proposal development
- Identify benefits to potential partners

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - general research
  - interview techniques
  - report writing

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

### *Critical aspects for assessment and evidence required to*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills

## EVIDENCE GUIDE

*demonstrate this unit of competency:*

- Competency must be demonstrated in a real work environment
- Competence in this unit must be assessed over a period of time in order to ensure consistency of performance over contexts applicable to the work environment
- Consistency in performance should consider the work environment, worker's role and responsibilities in the workplace

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to:
  - appropriate workplace where assessment can be conducted or
  - simulation of realistic workplace setting for assessment
  - equipment and resources normally used in the workplace
  - time (e.g. to establish good relationships)

*Method of assessment may include:*

- Observations
- Questioning
- Evidence gathered from the workplace environment and presented as a portfolio

## EVIDENCE GUIDE

- Demonstration over a period of time to ensure consistency of performance
- Assessment of a partnership proposal written for a specific partner
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

#### *Types of partnerships:*

- Partnerships may be between organisations across sectors and may be based on philanthropy, or a combination of resources to achieve common goals in developing community capacity

## RANGE STATEMENT

*Partnership opportunities:*

- Partnership opportunities are developed by the partners to meet both their needs and the various needs of the communities that they are part of

*Framework refers to:*

- The framework describes the structure policy and processes of the partnership to best meet stakeholder needs

*Measures for success refers to:*

- The quantifiable and qualitative goals that the partnership has developed to indicate that its purposes are being achieved

*Opportunities for learning refers to:*

- Practices of reflection throughout the workings of the partnership to seek opportunities for improvement

*Agreed measurement systems refers to:*

- The process of measuring the identified success criteria

**ELEMENT****PERFORMANCE CRITERIA**

necessary act on them in accordance with organisation procedures

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

It is critical that the candidate demonstrate knowledge of:

- Needs assessment and analysis
- Goals and objectives for project selected
- Resource availability for particular projects
- Strategies and actions needed to achieve goals
- Accountability requirements
- Resources and support within the community
- Organisation policies and procedures

The candidate must also be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role, such as knowledge of:

- Organisation policies and procedures for dealing with the media

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Match education activities with community needs and priorities
- Demonstrate collaboration and consultation with key people and organisations
- Deliver high quality innovative educational projects

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

## REQUIRED SKILLS AND KNOWLEDGE

These include the ability to:

- Demonstrate application of skills in:
  - liaison and networking
  - communication
  - research skills
  - time management
  - budgeting
  - report writing
  - evaluation
  - presentation
  - promotion
  - negotiation
  - effective use of relevant information technology in line with work health and safety (WHS) guidelines

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit may be assessed on the job using appropriate relevant materials and examples or through an appropriately simulated environment
- Consistency in performance should consider the organisation and individual context within which work takes place

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a

## EVIDENCE GUIDE

culturally diverse environment

- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to appropriate resources for developing, delivering and evaluating community education projects (or access to an appropriately simulated environment)

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

### RANGE STATEMENT

## RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

- Education project may include:*
- Projects of varying scope and scale ranging from state wide initiatives, to specific activities
    - a single event, such as an information stall in a shopping centre
    - a multi session education and skill development project
    - a complex, large scale series of activities that incorporates diverse but coordinated elements, such as a state-wide education campaign involving mass media information

- Key people and organisations may include:*
- Target group
  - Other relevant organisations
  - Funding bodies
  - Community support groups
  - The media

- Resources may include:*
- Equipment
  - Staff skills
  - Time
  - Space
  - Venue
  - Educational materials
  - Funding

- Marketing materials must be:*
- Culturally appropriate

- Assessment and evaluation of the education project may include:*
- Use of feedback material
  - Discussions with stakeholders, organisations and other participants
  - Discussion with colleagues

### Unit Descriptor

**Descriptor**

This unit describes the knowledge and skills required to work with and engage users of violence in assisting them to take responsibility for their violence and to work towards changing their behaviour and enhancing the safety of their family

### Application of the Unit

**Application**

This unit may apply in a range of community service contexts with clients who may experience domestic and family violence

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Establish and maintain professional relationship

- 1.1 Use appropriate *interpersonal skills* to develop an open, trusting and professional relationship and to allow accurate and relevant exchange of information
- 1.2 Establish and maintain contact with partner and/or family of *users of violence* to identify and analyse their needs
- 1.3 Explain and promote client and worker *rights and responsibilities* throughout client contact
- 1.4 Mutually agree and adhere to appropriate structures, timeframes and protocols
- 1.5 In all dealings with users of violence and their family, comply with *organisation standards and procedures* and with *legislative and statutory requirements*

2. Assess capacity for change

- 2.1 Assess motivation and commitment of users of violence to change *attitudes, beliefs and behaviour* and encourage positive elements and aspects
- 2.2 Respectfully challenge and constructively address violent behaviour and attitudes condoning violence in an environment that promotes positive client participation
- 2.3 Identify and assess related issues and factors that impact directly on the user of violence, their partner and

**ELEMENT****PERFORMANCE CRITERIA**

family members

2.4 Identify own limitations and strengths in addressing and assessing needs, and respond to them within a supervision framework

3. Encourage personal responsibility

3.1 Challenge users of violence and encourage them to identify their violence and its known and potential affect upon partner and family members

3.2 Encourage users of violence to take responsibility for their actions, to recognise their choices to develop *skills and/or knowledge* and to develop non-violent and respectful relationships

3.3 Assist users of violence to use personal exploration to identify and address opportunities and obstacles to change their *attitudes, beliefs and behaviour*

3.4 Assist users of violence to establish realistic *goals* and strategies to enhance the safety of their partner and family members

3.5 Identify and negotiate the need for specialised services or referral with users of violence and *relevant people*

3.6 Ensure all dealings with users of domestic violence are respectful and sensitive to cultural and family issues and to any *individual differences*

4. Monitor and review progress

4.1 Monitor progress of the user of violence through self reflection, partner and family member feedback and critical assessment by the worker and if appropriate, the criminal justice system

4.2 Identify and challenge lack of progress in taking responsibility and any re-use of violence, and develop modified strategies to enhance the safety of the partner and family members of users of violence

4.3 Encourage users of violence to establish and maintain networks of support to assist in the development of responsible *behaviour*

4.4 Identify and allocate additional *services and/or support needed* for further progress according to

**ELEMENT****PERFORMANCE CRITERIA**

availability and organisation standards and procedures

4.5 Complete and maintain all appropriate documentation in accordance with organisation standards and procedures and in compliance with legislative and statutory requirements

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Knowledge of the social context of domestic violence, including power and control, motivation for change, gender, child abuse and criminal issues
- Knowledge of behaviour and socialisation theories including those which emphasise that thinking patterns can be changed to give people acceptable and constructive alternatives to harmful behaviour
- Knowledge of the cultural, age and language groups represented within the local community, and an understanding of cultural issues that arise when working with those groups
- Understanding of the prevalence of beliefs in the broader society which condone violence, and individuals' rights to safety and autonomy
- Knowledge of internally and externally provided services particularly in the domestic violence field
- Knowledge of respectful strategies that will assist clients in changing their attitudes, beliefs and behaviours
- Knowledge of legislative requirements and provisions relevant to area of service delivery and delegated responsibility
- Knowledge which incorporates theories and concepts of planning and control procedures, resource management and risk management
- A knowledge of techniques for dealing with potentially volatile clients and group situations

## REQUIRED SKILLS AND KNOWLEDGE

- Awareness of own values and attitudes and their potential impact on clients
- Knowledge of potential obstacles and opportunities for clients that may impact on changes in attitudes, beliefs and behaviours

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Use interpersonal skills and knowledge to work effectively with users of violence to effect change and to provide appropriate support to family members, in particular, to:
  - accurately identify the safety needs of partners and family members of users of domestic violence
  - establish clear agreements with users of violence about goals, strategies and outcomes to effect change
  - comply with the organisations security and work health and safety (WHS) policies and operating procedures relating to contact with users of violence
  - demonstrate challenging and supportive feedback techniques to maintain a focus on personal responsibility with users of violence
  - refer to relevant programs which meet the needs of the users of violence, their partner and family
  - accurately interpret and comply with legal and procedural requirements
  - understand own work role and responsibilities in relation to service delivery
  - manage own practice within a supervisory framework

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - facilitation in relation to providing guidance for behavioural change and the achievement of specified goals
  - response, which include maintaining separate confidentiality strategies when working with users of violence, their partner and family members
  - questioning and active listening (paraphrasing, clarifying, summarising, relationship building and engaging) techniques to develop a trusting relationship and facilitate accurate and relevant exchange of information
  - goal setting and strategy development for ensuring safety
  - self management within a supervision framework
  - assessment to identify needs and related issues which impact on user of violence, partner and family members
  - counselling which challenge violence and support the change process
  - problem solving for a broad range of unpredictable problems involving analysis,

## REQUIRED SKILLS AND KNOWLEDGE

assessment, evaluation and the ability to adjust plans and acquire additional resources to assist users of violence, their partner, and/or family

- collaboration between worker and use of violence, partner and family, and between worker and services and workers across occupational groups
- dealing with volatile and potentially volatile clients and group situations
- literacy and communication in relation to analysis, evaluation and presentation of information including preparing documents and reports related to client needs and service delivery issues

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Assessment of performance should be over a period of time covering all categories within the Range Statement statements that are applicable in the learning environment  
This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers

## EVIDENCE GUIDE

should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people

- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

### *Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment
- Where assessment is conducted within the workplace there are no resource implications above those normally available in the workplace
- Where assessment is conducted in a simulated or non-workplace environment then access to the necessary equipment and research resources should be provided
- Access to simulated exercises, case studies related to service delivery issues will also be required if non-workplace assessment paths are utilised

### *Method of assessment:*

- Evidence will be determined by organisation from the Range Statement, justified in terms of work requirements, work roles and responsibilities and occupational specialisations
- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment in delivering services to users of violence to effect change
  - assessment must be in the workplace, however, where there is not an opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic

## EVIDENCE GUIDE

simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios

- observation of processes and procedures, oral and/or written questions on Essential knowledge and skills and consideration of required attitudes
- where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
- review of any documentation produced by the candidate related to work done with users of violence to effect change

### *Related units:*

This unit should be assessed after or in conjunction with related unit:

- CHCDFV402C Manage own professional development in responding to domestic and family violence

For the purpose of integrated assessment, this unit may be assessed in conjunction with the following units:

- CHCCM402E Establish and monitor a case plan
- CHCCS607E Coordinate the assessment and delivery of services to clients with particular needs

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

## RANGE STATEMENT

*Interpersonal skills may include:*

- Means for communicating with people with disabilities or where English is not the first language
- Methods of communicating with different age, religious, gender and sexual identity groups
- Non-judgemental communication techniques
- Using strategies that empower client to ensure safety of client and family
- Assessment for motivation and capacity to change violent and abusive behaviour
- Techniques to challenge client's behaviour and attitudes where appropriate
- Cultural, sub-cultural awareness/sensitivity
- Using appropriate body language
- Reflecting, summarising and paraphrasing
- Asking open-ended questions
- The ability to ask direct questions about violence in a sensitive and appropriate way
- Using conflict management skills if appropriate
- Recognition of client/worker power differences
- Maintaining confidentiality
- Active listening
- If needed, use of a qualified interpreter whose involvement will not jeopardise the safety of the client or client's family

*Users of violence may be:*

- Individuals who have committed domestic violence
- Referred or self-referred
- People with specific needs
- Voluntary or involuntary clients

*Rights and responsibilities may include:*

- Rights of safety
- Rights under common law
- Rights outlined under relevant standards/principles and charters (e.g. UN declaration on rights of the child)
- Rights under the constitution
- Rights and responsibilities under legislation (e.g. freedom of information and child protection legislation)
- Guidelines relating to parameters of

| <i>These goals may be:</i>                                                                                                                              | <ul style="list-style-type: none"> <li>Those set out in a case plan</li> <li>Those set out by the individual, partner and/or family</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

## RANGE STATEMENT

- Compliance with directions/orders
- Immediate
- Short term
- Long term
- Or a combination of the above

*Relevant people may refer to:*

- Organisation management, colleagues, supervisor, team members
- Acknowledged domestic violence issue experts (including, specialised practitioners from human/community service sectors etc)
- Various community groups representing cultural, religious, social, ethnic, gender, and age groups within the community
- Government representatives and service providers
- Family members, friends, care-givers
- Behaviour change groups, such as users of violence groups, drug and alcohol groups
- Support groups such as users of violence support groups, community houses, church groups, professional associations
- Authorities responsible for provision of community and justice administration services, for example, local councils, state and commonwealth agencies
- Probation and parole officers

*Skills and/or knowledge and behaviours to be developed may include but are not limited to:*

- Communication skills
- Life-skills
- Self management skills
- Stress-management skills
- Personal development/self-esteem skills
- Development of constructive alternatives to current abusive behaviour
- The development of an awareness of the effects of violence and abuse
- Development of a sense of responsibility for their actions
- Insight/personal assessment

*Individual differences may, but*

- Who have a disability

**RANGE STATEMENT**

*are not limited to those:*

- Who come from diverse cultural and sub-cultural backgrounds
- Whose preferred or first language is not english
- Who are aged or young
- Who live in a remote or rural location
- Who are in same-sex relationships
- Whose religious beliefs or practices need to be considered
- Who are of a particular gender
- With a dual diagnosis
- Who have addiction or dependency issues
- Who come from an aboriginal background
- Who come from a Torres Strait Islander background
- Who have mental health issues

*Organisation standards and procedures may include those relating to:*

- Client and worker safety
- Collection and storage of information
- Client interview protocols and procedures
- Code of conduct/code of ethics
- Principles and implementation of duty of care
- Departmental, inter-departmental regulations, protocols and procedures relevant to work role and responsibilities
- Inter-agency practice and protocols
- Use of interpreter and interpreter services
- Organisation mission statement and/or philosophy
- Eligibility criteria for accessing particular services
- Completion of forms and applications
- Guidelines relating to confidentiality/client consent
- WHS
- Debriefing and supervision
- Industry standards

*Legislative and statutory requirements may include:*

- Relevant State/territory/Commonwealth legislation (e.g. domestic violence, family violence, guardianship, disability services, immigration, anti-discrimination, child protection, legal practice legislation)
- International conventions relating to the rights of women, children and young people

## **RANGE STATEMENT**

- Relevant international conventions on civil and human rights
- Freedom of information legislation

## **Unit Sector(s)**

Not Applicable

## **CHCDFV408C Provide support to children affected by domestic and family violence**

### **Modification History**

Not Applicable

### **Unit Descriptor**

#### **Descriptor**

This unit describes the knowledge and skills required to provide support and information to children and young people living in a home where domestic and family violence occurs

It requires an awareness of the potential effects of domestic and family violence on behaviour and development and an ability to engender confidence

### **Application of the Unit**

#### **Application**

This unit may apply in a range of community service contexts with clients who may experience domestic and family violence

### **Licensing/Regulatory Information**

Not Applicable

Not Applicable

### **Employability Skills Information**

#### **Employability Skills**

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Establish confidence and rapport with children

- 1.1 Use appropriate *interpersonal skills* to establish rapport and develop a trusting relationship with the child/young person and to encourage children and young people to communicate their feelings, experiences and fear
- 1.2 In all dealings with children, demonstrate sensitivity to cultural, family, individual differences and any *specific needs*
- 1.3 Conduct interactions with children/young people in a *welcoming environment and atmosphere* that could be considered safe by children/young people
- 1.4 Make children and/or young people aware of their *rights* including service and support options (as appropriate to their age and developmental level)
- 1.5 In all dealings with children/young people, apply *organisation standards and procedures* and comply with *legislative and statutory requirements*

2. Explore issues and develop plans

- 2.1 Employ appropriate interpersonal skills to ensure the *needs of children/young people* are accurately identified
- 2.2 Analyse and immediately respond to any indications of *risk* or threats to safety according to organisation standards and procedures and legislative and statutory requirements
- 2.3 Identify own limitations in assessing and addressing the child/young person's needs and, where appropriate, seek assistance from *appropriate persons*
- 2.4 Ensure all relevant information is collected and assessed for complexity, urgency and safety, to identify

## ELEMENT

## PERFORMANCE CRITERIA

priorities for service delivery

2.5 Carry out appropriate assessments to ensure the child/young person is provided with the best range of age-appropriate services and/or referrals

2.6 Provide care-givers with culturally and linguistically appropriate information on domestic violence and parenting

3. Provide support, advocacy and information

3.1 Ensure strategies for addressing the child/young person's needs account for their age and developmental level and their physical and emotional safety

3.2 Provide services and referrals to support key relationships for the child/young person and put in place mechanisms to ensure that appropriate parenting is supported

3.3 Provide support services and information to the family to address issues of domestic violence and the effect it has on children/young people where appropriate

3.4 Develop support plans with each child/young person which take into account their needs or wishes, and, where appropriate, the wishes of their care-giver

3.5 Provide short term *follow up* to the child/young person to help maintain their safety and to address any further needs

3.6 Where appropriate, advocate for the child/young person's needs and rights to safety in interactions with the care-giver

3.7 Undertake record-keeping and reporting in accordance with organisation standards and procedures and legislative and statutory requirements

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

## REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Knowledge of the effects of witnessing/experiencing domestic violence on children and young people including the effects on their overall development
- Understanding of recognising the links between domestic violence and other forms of child abuse such as sexual abuse, physical abuse, psychological abuse and neglect
- Understanding of legal obligations, and legislative requirements particularly in relation to child protection
- Understanding of current organisation procedures, practices and standards for client assessment, allocation of services, case management, interviewing, code of conduct, confidentiality, use of resources, programmed intervention and duty of care requirements
- Knowledge of services available for children/young people and their families that they can access within the community
- Understanding of the factors related to domestic violence victimisation which impact upon the care-giver's ability to parent effectively
- Knowledge of the various groups represented within the local community (e.g. cultural, religious, language, sexual identity, age and disability) and an understanding of the issues that arise when working with those groups
- Knowledge of the appropriate range of referral sources and associated protocols
- Knowledge of provisions relevant to area of service delivery and delegated responsibility
- Understanding of specific limitations of work role, responsibility and professional abilities
- Awareness of own values and attitudes and their potential impact on children/young people
- Knowledge of age and developmentally appropriate resources and strategies
- Knowledge of age, development and language levels of children

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Use appropriate interpersonal skills and knowledge to provide support to children affected by domestic violence to obtain relevant client information and respond appropriately, in particular, to:

## REQUIRED SKILLS AND KNOWLEDGE

- establish trust and confidence with children/young people through age and developmentally appropriate interpersonal styles and methods
- provide a welcoming and safe environment for children/young people using age and developmentally appropriate resources
- assist children/young people and their care-givers to make informed choices by providing them with age and developmentally appropriate information
- identify and assess children/young people's needs and develop strategies to address them considering their physical and emotional safety and the wishes of their care-giver/parent, if appropriate
- access and utilise age and developmentally appropriate communication resources (e.g. toys, puppets, drawings)
- ensure that any further needs of children/young people are met by providing appropriate follow up actions
- accurately interpret and comply with legal and procedural requirements
- understand own work role and responsibilities in relation to service delivery

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - responding sensitively to disclosures/ability to maintain confidentiality within parameters of legislation and organisation's procedures when working with children/young people affected by domestic violence
  - assessment for a broad range of unpredictable problems involving analysis, assessment and evaluation - for example, identifying varying levels of risk to a child/young person's safety
  - problem solving for a defined range of predictable problems, for example when child/young person's needs are identified as lying outside a worker's particular professional role the worker should be able to provide current information about appropriate services
  - collaboration between worker and child/young person, and between services and workers across occupational groups
  - basic age and developmentally appropriate facilitation, such as questioning and active listening (paraphrasing, clarifying, summarising, story telling) techniques, including non-judgemental and empathic approaches
  - age and developmentally appropriate literacy and communication for presentation of information to children/young people

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Assessment of performance should be over a period of time covering all categories within the Range Statement statements that are applicable in the learning environment  
This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency

## EVIDENCE GUIDE

is encouraged

- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment
- Where assessment is conducted within the workplace there are no resource implications above those normally available in the workplace, unless child specific resources are not available
- Where assessment is conducted in a simulated or non-workplace environment then access to the necessary equipment and research resources should be provided
- Access to simulated exercises, case studies related to service delivery issues will also be required if non-workplace assessment paths are utilised

### *Method of assessment:*

- Evidence will be determined by organisation from the Range Statement, justified in terms of work requirements, work roles and responsibilities and occupational specialisations
- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment in supporting children and young people affected by domestic violence
  - assessment must be in the workplace, however, where there is not an opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
  - observation of processes and procedures, oral and/or written questions on Essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## EVIDENCE GUIDE

- review of any documentation produced by the candidate related to supporting children and young people affected by domestic violence

### *Related units:*

This unit should be assessed after or in conjunction with related unit:

- CHCDFV402C Manage own professional development in responding to domestic and family violence

For the purpose of integrated assessment, this unit may be assessed in conjunction with the following units:

- CHCCHILD404A Support the rights and safety of children and young people
- CHCAD401D Advocate for clients
- CHCCS412D Deliver and develop client service
- CHCCM402D Establish and monitor a case plan

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *Interpersonal skills may include:*

- Age and developmentally appropriate communication techniques
- Storytelling
- Means by which an emotionally safe and empathic environment is created
- Means for communicating with people with disabilities or where English is not the first language

## RANGE STATEMENT

- Methods of communicating with different age, religious, gender and sexual identity groups
- Non-judgemental communication techniques
- Using strategies that empower the client/young person
- Cultural, sub-cultural awareness/sensitivity
- Demonstrating empathy
- Validating child or young persons emotions
- Using appropriate body language
- Reflecting, summarising and paraphrasing
- Asking open-ended questions
- Maintaining confidentiality
- The ability to ask direct questions about violence in a sensitive and appropriate way
- Active listening

*Specific needs relating to children/young people, may include, but are not limited to those:*

- Who have a disability
- Who come from diverse cultural and sub-cultural backgrounds
- Where English is not their preferred or main language
- Who live in a remote or rural location
- Whose parents are in same-sex relationships
- Whose religious beliefs or practices need to be considered
- Who are in substitute care, including alternative care and residential care
- Children with special needs (e.g. who have been abused, who have learning difficulties etc.)

*A welcoming environment and atmosphere would include:*

- Appropriate space - child friendly
- Toys, puppets, books and resources appropriate to various ages and which are culturally appropriate
- Resources for care-giver and other family members where relevant
- Where worker is able to 'control' the environment - a separate child specific and friendly space

*Rights of a child or young person may include:*

- Rights as described in the United Nations Declaration on the Rights of the Child

## RANGE STATEMENT

- Rights under common law
- Rights under the Constitution
- Rights under legislation (e.g. freedom of information legislation)
- Guidelines relating to parameters of confidentiality/client consent

*Organisation standards and procedures may include those relating to:*

- Child protection protocols and procedures
- Child/young person and worker safety
- Collection and storage of information
- Interview protocols and procedures
- Code of conduct/code of ethics
- Principles and implementation of duty of care and rights of child/young person to self determination
- Departmental, inter-departmental regulations, protocols and procedures relevant to work role and responsibilities
- Inter-agency practice and protocols
- Use of interpreter and interpreter services
- Organisation mission statement and/or philosophy
- Eligibility criteria for accessing particular services
- Completion of forms and applications
- Guidelines relating to confidentiality/client consent
- Occupational health and safety
- Debriefing and supervision

*Legislative and statutory requirements may include:*

- Relevant State/territory/Commonwealth legislation (e.g. domestic violence, guardianship, disability services, immigration, anti-discrimination, child protection, legal practice legislation, other legislation specific to children and young people)
- International conventions relating to the rights of children and young people
- Relevant international conventions on civil and human rights
- Freedom of information legislation

*Needs of children/young people should be distinguishable to those of other family members and may*

- Safety and physical and emotional security
- Accommodation

## RANGE STATEMENT

*include:*

- Access to services/information
- Counselling
- Ongoing assessment
- Referrals to specialist services
- Referrals to community support and/or education groups
- Information provided to care-givers, such as parenting information
- Safety plans including protective behaviour techniques

*Risk may refer to client, client's family and/or worker and be indicated by the following:*

- Self identification of risk
- Evidence of physical injuries
- Threat to safety
- Current or previous criminal charges for assault of client by partner/ex-partner
- Current or previous police involvement
- Objective assessment of care-givers current ability to protect child/young person from further assault or harm
- Threat or attempts to self-harm
- Feelings of depression, anger, low self-esteem, suicidal thoughts, emotional distress or sleep disturbances
- Medical problems such as overuse of tranquillisers, or alcohol, drug or substance abuse
- Intimidation and harassment
- Child/young person being denied access to required medications
- Existing or previous orders relating to domestic violence (e.g. apprehended violence order), or breach of orders
- Avoidance of discussion regarding possible abuse
- Being denied access to resources or required medications
- Implausible explanation for injuries
- Repeated requests for financial assistance
- Other factors that may indicate a history of violence
- Children's behaviour and developmental level
- Current behaviours of user of violence
- Frequent hospital visits/admissions

## RANGE STATEMENT

- Current or previous separation
  - Family court and/or relationship history
  - Implied or actual threats to harm the worker by user of violence
- Appropriate persons include:*
- Organisation management, colleagues, supervisor, team members
  - Acknowledged domestic violence specialists
  - Various community groups representing cultural, sub-cultural, religious, social, ethnic, gender, sexual identity, and age groupings within the community
  - Government representatives and service providers
  - Specialist support services
  - Family members, friends, care-givers
  - Support groups such as survivors/victims of violence groups, drug and alcohol groups, community houses, women's networks and refuges, professional associations
  - Authorities responsible for provision of community and justice administration services, for example, local councils, legal services, such as legal aid, and state and commonwealth agencies
  - Child protection workers, children's service workers or any worker specialising in working with children
- Methods to collect information may include for instance:*
- Interviews with child/young person, their family, significant others and carers
  - Applications and other forms such as questionnaires
  - Case documentation
  - Using specialist communicators
  - Classification tools
  - Information from professionals including medical reports and psychological and developmental assessment
  - Information from service providers including child protection authorities
  - Use of specific child appropriate tools, e.g. puppets, sand-play, toys, drawing, and storytelling
- Follow up of children and/or*
- Checks with referred agencies to ensure that they

## RANGE STATEMENT

*young people should be conducted in their environment and may include a range of the following:*

- appropriately met child/young person's needs
- Contacts the child/young person via telephone, face-to-face interview
- With a qualified and appropriate interpreter if needed, or other specialist assistance

*Legislative and statutory requirements may include:*

- Relevant State/territory/Commonwealth legislation (e.g. domestic violence, guardianship, disability services, immigration, anti-discrimination, racial discrimination act, and anti-vilification legislation, child protection, legal practice legislation)
- International conventions relating to the rights of children and young people
- Relevant international conventions on civil and human rights
- Freedom of Information legislation

# CHCDFV403C Provide crisis intervention and support to those experiencing domestic and family violence

## Modification History

Not Applicable

## Unit Descriptor

### Descriptor

This unit describes the knowledge and skills required to provide domestic violence crisis intervention and support

This standard distinguishes between responses to clients in crisis and responses to clients and their families requiring long to medium term support

## Application of the Unit

### Application

This unit may apply in a range of community service contexts with clients who may experience domestic and family violence

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Identify immediate *risks* and needs

- 1.1 Use appropriate *interpersonal skills* to promote confidence and rapport, allowing accurate and relevant exchange of information
- 1.2 Use *methods* to ensure that all relevant *client* information is collected with client consent
- 1.3 Assess information for complexity, urgency and eligibility so *immediate needs* can be accurately identified
- 1.4 Analyse and respond to any indications of risk or threats to safety according to the degree and nature of the risk for client and/or worker
- 1.5 Identify own limitations in addressing and assessing *client needs* and where appropriate, seek assistance from *appropriate persons*
- 1.6 Ensure all dealings with clients reflect organisation standards and procedures and comply with *legislative and statutory requirements*

#### 2. Explore interventions

- 2.1 Explain and promote *rights and responsibilities* of client and worker in accordance with *organisation standards and procedures*
- 2.2 Immediately respond to incidents affecting safety according to organisation standards and procedures and in a manner designed to protect the safety and welfare of the client and the worker
- 2.3 Employ relevant *interpersonal skills* to assist clients to explore issues and identify realistic intervention options
- 2.4 Use relevant *strategies* to help empower and

## ELEMENT

## PERFORMANCE CRITERIA

enable the client to maintain their own safety and welfare

2.5 Provide client with information about available *services* that may meet their needs and assist client to identify their preferred option

2.6 In all *work*, prioritise the physical and emotional safety of clients and workers

2.7 In all work demonstrate sensitivity to client's *specific needs* and any cultural, family and individual differences

3. Develop and implement support plans

3.1 Negotiate and agree *strategies* for intervention with the client before commencing work

3.2 Identify and discuss alternative *strategies* which may deal with contingencies that may arise

3.3 Identify, negotiate and implement *strategies* which address client's *immediate* and other *needs* and provide appropriate support and referrals

3.4 Undertake record-keeping and reporting in accordance with *organisation standards and procedures*

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Knowledge of the social, political, historical, and economic context of domestic

## REQUIRED SKILLS AND KNOWLEDGE

violence, including types and nature of domestic violence, power and gender issues, child abuse and associated criminal issues

- Understanding of the prevalence of myths, unhelpful beliefs, attitudes and practices in the broader society in regard to domestic violence, and their affects on individual's rights to safety and autonomy
- Understanding of domestic violence indicators and procedures for undertaking assessment of client needs
- Understanding the differences between responding to clients in a crisis situation and those requiring long term support
- Knowledge of the various groups represented within the local community (e.g. cultural, religious, language, sexual identity, age and disability) and an understanding of the issues that arise when working with those groups
- Understanding of current organisation procedures, practices and standards for client assessment, allocation of services, case management, interviewing, code of conduct, confidentiality, use of resources, programmed intervention and duty of care requirements
- Knowledge of the appropriate range of referral sources and associated protocols
- Knowledge of legislative requirements and provisions relevant to area of service delivery and delegated responsibility
- Knowledge of applying community development principles and strategies
- Knowledge of effective crisis intervention strategies and their applicability to various scenarios
- Awareness of own values and attitudes and their potential impact on clients
- Understanding of specific limitations of work role, responsibility and professional abilities

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Use appropriate interpersonal skills and general knowledge to recognise and respond to domestic violence in an appropriate manner, in particular, to:
  - respond to incidents in a manner which promotes the client's physical and emotional safety
  - establish confidence with clients through using appropriate interpersonal styles and methods
  - identify accurately the immediate needs of clients whilst considering the degree of complexity and urgency
  - select and negotiate appropriate intervention strategies and resources which match client needs
  - interpret accurately and comply with legal and procedural requirements
  - depending on the work program or services provided apply specific knowledge of particular groups or issues (e.g. alcohol and other drugs (AOD), same-sex relationships, religious, survivors/victims, users of violence, Aboriginal and/or Torres

## REQUIRED SKILLS AND KNOWLEDGE

Strait Islander people, mental health)

- understand own work roles and responsibilities in relation to service delivery

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Maintain confidentiality and to deal effectively with breaches of confidentiality especially when client safety is threatened
- Demonstrate application of skills in:
  - response, for example, from responding sensitively to disclosures through to maintaining confidentiality in relation to people affected by domestic violence
  - assessment for a broad range of unpredictable problems involving analysis, assessment, and evaluation - for example, identifying domestic violence during professional contact with clients
  - questioning and active listening that establishes client confidence and facilitates disclosure
  - problem solving for a defined range of problems, for example when client needs are identified as lying outside a worker's particular professional role the worker should offer the client accurate and current information about appropriate services and workers in other occupational groups
  - collaboration between worker and client, and between services and other providers
  - literacy and communication in relation to analysis, evaluation and presentation of information including preparing documents and reports related to client needs and service delivery issues

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

## EVIDENCE GUIDE

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Assessment of performance should be over a period of time covering all categories within the Range Statement statements that are applicable in the learning environment  
This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment
- Where assessment is conducted within the workplace there are no resource implications above those normally available in the workplace
- Where assessment is conducted in a simulated or

## EVIDENCE GUIDE

non-workplace environment then access to the necessary equipment and research resources should be provided

- Access to simulated exercises, case studies related to service delivery issues will also be required if non-workplace assessment paths are utilised

### *Method of assessment:*

- Evidence will be determined by selection from the Range Statement, justified in terms of work requirements, work roles and responsibilities and occupational specialisations
- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment in identifying and responding to domestic violence
  - assessment must be in the workplace, however, where there is not an opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
  - observation of processes and procedures, oral and/or written questions on Essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
  - review of any documentation produced by the candidate related to identifying and responding to domestic violence

### *Related units:*

This unit should be assessed after or in conjunction with related unit:

- CHCDFV402C Manage own professional development in responding to domestic and family violence

## EVIDENCE GUIDE

### Range Statement

#### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

- Interpersonal skills may include:*
- Means by which an emotionally safe and empathic environment is created
  - Means for communicating with people with disabilities or where english is not the first language
  - Methods of communicating with different age, religious, gender and sexual identity groups
  - Non-judgemental communication techniques
  - Using strategies that empower client to ensure safety of client and family
  - Cultural, sub-cultural awareness/sensitivity
  - Demonstrating empathy
  - Using appropriate body language
  - Reflecting, summarising and paraphrasing
  - Asking open-ended questions
  - The ability to ask direct questions about violence in a sensitive and appropriate way
  - Using conflict management skills if appropriate
  - If needed, use of a qualified interpreter whose involvement will not jeopardise the safety of the client or client's family
  - Recognition of client/worker power differences
  - Maintaining confidentiality
  - Active listening

## RANGE STATEMENT

*Methods to collect information may for instance include:*

- Interviews with clients, family, significant others and carers
- Questionnaires
- Applications and other forms
- Case documentation
- Using specialist communicators
- Classification tools
- Information from professionals including medical reports
- Information from service providers
- Previous file records
- Client consent (verbal and written)

*Client may include:*

- Individuals (inclusive of children, youth, adults and the aged)
- Referred or self-referred clients
- Voluntary and involuntary clients
- People with specific needs seeking access to services
- Survivors/victims of domestic violence, their families and friends

*Immediate needs to be assessed include:*

- Safety and physical and emotional security
- Safety plans
- Legal or medical information and support
- Accommodation/transportation
- Safety and welfare of any children whether with client or not

*Other client needs/services and/or strategies could include, but are not limited to:*

- Economic support
- Protection from financial exploitation
- Access to services/information
- Ongoing assessment
- Referrals to specialist services
- Referrals to community support and/or education groups
- Establishment of community networks
- Counselling (individual, family or group focused)
- Domestic violence awareness raising programs
- Legal or medical information and support

## RANGE STATEMENT

|                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

## RANGE STATEMENT

*indicated by the following:*

- Threat to safety
- Current or previous criminal charges for assault of client by partner/ex-partner
- Current or previous police involvement
- Objective assessment of client's current ability to protect self and children from further assault or harm
- Threat or attempts to self-harm
- Feelings of depression, anger, low self-esteem, suicidal thoughts, emotional distress or sleep disturbances
- Medical problems such as overuse of tranquillisers, or alcohol, drug or substance abuse
- Intimidation and harassment
- Existing or previous orders relating to domestic violence (e.g. Apprehended violence order), or breach of orders
- Avoidance of discussion regarding possible abuse
- Being denied access to funds, resources or required medications
- Implausible explanation for injuries
- Repeated requests for financial assistance
- Other factors that may indicate a history of violence
- Children's behaviour and developmental level
- Current behaviours of user of violence
- Frequent hospital visits/admissions
- Current or previous separation
- Family court and/or relationship history
- Implied or actual threats to harm the worker by user of violence

*Appropriate persons include:*

- Organisation management, colleagues, supervisor, team members
- Acknowledged domestic violence specialists
- Various community groups representing cultural, sub-cultural, religious, social, ethnic, gender, sexual identity, and age groups within the community
- Government representatives and service providers
- Family members, friends, care-givers
- Specialist support services for people with specific needs
- Support groups such as survivors/victims of violence groups, drug and alcohol groups, community houses,

## RANGE STATEMENT

women's networks and refuges, church groups, professional associations

- Authorities responsible for provision of community and justice administration services, for example, local councils, legal services, such as legal aid, and state and commonwealth agencies

*Specific needs relating to clients, may include, but are not limited to those:*

- Who have a disability
- Who come from diverse cultural and sub-cultural backgrounds
- Whose preferred or main language is not english
- Who are aged or young
- Who live in a remote or rural location
- Who have mental health issues
- Who are in same-sex relationships
- With a dual diagnosis
- Who are of a particular gender
- Whose religious beliefs or practices need to be considered
- Who have addiction or dependency issues
- Who come from an aboriginal background
- Who come from a Torres Strait Islander background

*Legislative and statutory requirements include:*

- Relevant State/territory/Commonwealth legislation (e.g. Domestic Violence, Guardianship, Disability Services, Immigration, Anti-Discrimination, Child Protection, Legal Practice legislation)
- International conventions relating to the rights of children and young people
- Relevant international conventions on civil and human rights
- Freedom of Information legislation

### Unit Descriptor

#### Descriptor

This unit of competency describes the skills and knowledge required to conduct screening hearing tests for individuals who are employed in industry or other employment that might give rise to hearing loss

### Application of the Unit

#### Application

Work performed requires specific knowledge in relation to conducting screening hearing tests and the ability to communicate well. The skills required are limited to performance of screening tests within mass hearing loss identification programs

All tasks are conducted in accordance with industry standards, organisation policies and procedures, and infection control guidelines

### Licensing/Regulatory Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Prepare for *screening tests*

1.1 Ensure *information*, including required forms are accessible and ready for use

1.2 Assess the environment for screening test suitability

1.3 Check *equipment and attachments* for assessments and ensure they are calibrated ready for use

1.4 Ensure *personal protective equipment* is available and used if required

#### 2. Establish a positive relationship with the client

2.1 Explain the test procedure clearly and simply to the client

2.2 Gain *informed consent* from client where applicable

2.3 Give client the opportunity to ask questions and discuss concerns

2.4 Identify and meet special needs of client

2.5 Maintain *confidentiality of client* information

**ELEMENT****PERFORMANCE CRITERIA**

client information provided

6.3 Discuss relevant issues and concerns with relevant personnel at facility

6.4 Follow up referral with facility to ensure continuity of case management

7. Clean and store equipment

7.1 Clean and/or dispose of equipment in accordance with manufacturers' requirements and infection control procedures

7.2 Store equipment and attachments in accordance with organisation policy and procedures

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Current relevant Australian Standards
- Knowledge and understanding of relevant abbreviations and symbols
- Relevant anatomy and physiology to enable test performance to be accurate and of minimum risk to clients
- Relevant aspects of hearing loss, its types and its effects
- Relevant aspects of the auditory process
- Requirements for accurate conduction of hearing tests

*Essential skills:*

## REQUIRED SKILLS AND KNOWLEDGE

It is critical that the candidate demonstrate the ability to:

- Accurately perform screening hearing tests on children
- Accurately perform simple otoscopic examination on children
- Communicate effectively with client regarding the procedures and the outcomes of the tests
- Conduct accurate screening hearing tests on children
- Operate audiometry equipment correctly and in accordance with manufacturers' specifications
- Recognise conditions when test results may be unreliable
- Recognise when a client is not giving true thresholds

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Deal with conflict
- Use interpersonal skills to relate to people from a range of social, cultural and religious backgrounds and physical and mental abilities
- Use numeracy skills ranging from the ability to interpret data and record client results
- Use oral communication skills-language competence required to fulfil job roles in a safe manner and as specified by the organisation. Assessors should look for skills in asking questions, providing clear information, listening to and understanding workplace instructions, and clarifying workplace instructions when necessary. Effective verbal and nonverbal communication skills with a range of internal and external persons are essential, together with competence in English or a community language, depending on client group
- Use problem solving skills including an ability to use available resources and plan daily work routine
- Use reading and writing skills-literacy competence required to fulfil job roles in a safe manner and as specified by the organisation. The level of skill required involves reading and documenting clinical information and understanding procedure manuals
- Work with others and display empathy with client and carers

## Evidence Guide

### EVIDENCE GUIDE

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- Access to appropriate workplace and equipment where screening hearing tests can take place or the simulation of realistic workplace setting, including access to equipment for assessments
- Relevant organisation policy, guidelines, procedures and protocols
- Relevant professional bodies policies and guidelines on the conduct of screening hearing tests
- Relevant legislative and regulatory documents

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

**RANGE STATEMENT**

- Screening tests restricted to:*
- Pure tone audiometry tests ie air conduction screening test, air conduction threshold test
- Information may include:*
- Client medical history
  - Referral letter
  - Consent form
  - Correspondence
  - Previous test results
  - Current Standards
- Equipment and attachments may include:*
- Otoscope
  - Screening audiometer
- Personal protective equipment may include:*
- Gloves
- Clients may include:*
- Children (of school age) and their carers
- Informed consent may include:*
- Written
  - Verbal
  - Implied
- Client confidentiality may include:*
- Legal and ethical requirements
  - Secure location for written records
  - Consulting rooms with privacy
  - Information disclosed to an appropriate person consistent with the responsibility of this position
  - Adherence to Privacy Act
- Personal hygiene/infection control procedures may include:*
- Washing hands
  - Current National Health and Medical Research Council (NHMRC) guidelines for infection control in health care settings
  - Standard Precautions and Additional Precautions as

No change to competency outcome. |

## Unit Descriptor

### Descriptor

This unit of competency describes the skills and knowledge required to conduct screening hearing tests for individuals who are employed in industry or other employment that might give rise to hearing loss

## Application of the Unit

### Application

Work performed requires specific knowledge in relation to conducting screening hearing tests and the ability to communicate well. The skills required are limited to performance of screening tests within mass hearing loss identification programs

All tasks are conducted in accordance with industry standards, organisation policies and procedures, and infection control guidelines

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

Not Applicable

## Employability Skills Information

**Employability Skills** This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Prepare for screening tests

- 1.1 Ensure *information*, including required forms are accessible and ready for use
- 1.2 Assess the environment for screening test suitability
- 1.3 Check *equipment and attachments* for assessments ensure they are calibrated ready for use
- 1.4 Ensure *personal protective equipment* is available and used if required

#### 2. Establish a positive relationship with the client

- 2.1 Explain the test procedure clearly and simply to the client
- 2.2 Gain *informed consent* from client where applicable
- 2.3 Give client the opportunity to ask questions and

**ELEMENT****PERFORMANCE CRITERIA**

discuss concerns

2.4 Identify and meet special needs of client

2.5 Maintain *confidentiality of client information*

3. Conduct otoscopy

3.1 Follow *personal hygiene and infection control* procedures

3.2 Conduct otoscopy to produce valid, reliable and accurate results and in accordance with *relevant policy and procedures*

3.3 Identify *contra-indications for proceeding* with further screening tests

3.4 Make *referral* to appropriate agency for further assessment and treatment if required

4. Conduct further screening hearing tests

4.1 Follow *personal hygiene and infection control* procedures

4.2 Conduct screening hearing tests to produce valid, reliable and accurate results and in accordance with *relevant policy and procedures*

4.3 *Take steps* to maximise test accuracy, validity and reliability

4.4 Conduct a re-test if test results unreliable

4.5 Record results in accordance with relevant policies and procedures

5. Review test results with client and their carer

5.1 Examine results to determine *outcome of screening test*

5.2 Communicate outcome of tests clearly and simply to the client and their carer

5.3 Discuss options for further tests with client

5.4 Give client/carers the opportunity to ask questions and discuss areas of concern

5.5 Record, document and file in accordance with relevant policies and procedures

**ELEMENT****PERFORMANCE CRITERIA**

- |                                         |                                                                                                                                       |
|-----------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| 6. Refer client to appropriate facility | 6.1 Make referral to appropriate agency for detailed assessment if client fails screening test                                        |
|                                         | 6.2 Establish contact with referral facility and key client information provided                                                      |
|                                         | 6.3 Discuss relevant issues and concerns with relevant personnel at facility                                                          |
|                                         | 6.4 Follow up referral with facility to ensure continuity of case management                                                          |
| <br>                                    |                                                                                                                                       |
| 7. Clean and store equipment            | 7.1 Clean and/or dispose of equipment and attachments in accordance with manufacturers' requirements and infection control procedures |
|                                         | 7.2 Store equipment and attachments in accordance with organisation policy and procedures                                             |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Appropriate practices to ensure efficient use of power and other resources
- Current relevant Australian Standards
- Knowledge and understanding of relevant abbreviations and symbols
- Relevant anatomy and physiology to enable test performance to be accurate and of minimum risk to clients

## REQUIRED SKILLS AND KNOWLEDGE

- Relevant aspects of hearing loss, its types and its effects
- Relevant aspects of the auditory process
- Requirements for accurate conduction of hearing tests

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Accurately perform screening hearing tests on adults
- Accurately perform simple otoscopic examination on adults
- Communicate effectively with client regarding the procedures and the outcomes of the tests
- Conduct accurate screening hearing tests on adults
- Operate audiometry equipment correctly and in accordance with manufacturers' specifications
- Recognise conditions when test results may be unreliable
- Recognise when a client is not giving true thresholds

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Deal with conflict
- Use interpersonal skills to relate to people from a range of social, cultural and religious backgrounds and physical and mental abilities
- Use numeracy skills that may range from the ability to interpret data and record client results
- Use oral communication skills-language competence required to fulfil job roles in a safe manner and as specified by the organisation. Assessors should look for skills in asking questions, providing clear information, listening to and understanding workplace instructions, and clarifying workplace instructions when necessary. Effective verbal and nonverbal communication skills with a range of internal and external persons are essential, together with competence in English or a community language, depending on client group
- Use problem solving skills required including an ability to use available resources and plan daily work routine
- Use reading and writing skills-literacy competence required to fulfil job roles in a safe manner and as specified by the organisation. The level of skill required involves reading and documenting clinical information and understanding procedure manuals
- Work with others and display empathy with client and carers

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- Access to appropriate workplace and equipment where screening hearing tests can take place or the simulation of realistic workplace setting, including

| <i>Client confidentiality may include:</i>        | <ul style="list-style-type: none"><li>• Legal and ethical requirements</li><li>• Secure location for written records</li><li>• Consulting rooms with privacy</li><li>• Information disclosed to an appropriate person consistent with the responsibility of this position</li><li>• Adherence to Privacy Act</li></ul> |

## RANGE STATEMENT

*Personal hygiene/infection control procedures may include:*

- Washing hands
- Current National Health and Medical Research Council (NHMRC) guidelines for infection control in health care settings
- Standard Precautions and Additional Precautions as defined by the NHMRC
- Current Australian Standards
- Local Government ordinances
- Other legislative requirements

*Relevant policies and procedures may include:*

- Organisation
- Industry standards (state and national)
- Office of Hearing Services
- Privacy Act
- Research organisations e.g. National Acoustic Laboratory (NAL)
- Relevant state/territory WHS bodies
- Industry professional bodies
- Relevant Australian standards

*Contraindications for proceeding with further screening tests include:*

- Excessive cerumen
- Foreign body
- Discharge from the ear
- Atresia

*Referral agencies may include:*

- Audiologist
- Medical practitioner
- Medical facilities

*Steps taken to maximise test accuracy may include:*

- Sound proof facility
- Client comfort

*Outcome of tests may include:*

- Pass or fail test

| 3. Ensure role of <i>community organisations</i> in the delivery of the disaster plan is understood | <p>3.1 Identify and explain roles and responsibilities of community organisation</p> <p>3.2 Undertake assessment of skills and possible training of community organisation representatives</p> <p>3.3 Undertake disaster planning exercises in line with community and organisation requirements</p>                                                           |
| 4. Provide feedback on disaster plan                                                                | <p>4.1 Assess the effectiveness of the disaster plan</p> <p>4.2 Identify and document ways to improve the disaster plan</p> <p>4.3 Provide supervisor/manager and disaster planning coordinator with information on the effectiveness of the disaster plan and suggested ways to improve</p>                                                                   |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Local resources, suppliers and trades people
- Project development
- Relevant equipment and technology (types, sources, operation and maintenance)
- Relevant policies, protocols and procedures of the organisation
- Small group facilitation
- The content of the disaster plan

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Communicate effectively
- Demonstrate implementation skills related to the worker's role and responsibilities in implementing the disaster plan
- Network, negotiate

## Evidence Guide

### EVIDENCE GUIDE

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- The workplace is recommended including assessment by supervision and peers
- Information may be gathered from supervisors and peers, by observation and inquiries and from written and other sources.
- Off-the-job role plays and exercises may also be used

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Disasters may include:*

- Floods
- Cyclones
- Nuclear
- Fires
- Riots/raids
- Earthquakes

*A disaster plan (and planning strategies or processes) means:*

- Guidelines and/or plans for responding to various types of disaster, detailing worker roles and responsibilities, resource needs and sources and situation management strategies

*The disaster plan coordinator refers to:*

- The person in the community/service/organisation (or another organisation) who is assigned the responsibility of co-ordinating the full implementation of the Disaster Plan

*Community organisations may include:*

- State/territory health department
- Police
- Social security
- Local government
- Emergency services
- Non-government organisations
- Service providers of various types
- Community groups who provide care to the community

*Lead agency means:*

- The organisation with primary co-ordination responsibility for managing the response to the

**RANGE STATEMENT**

disaster

*Cultural context:*

- The competency standards are based upon acknowledgment and support of the diverse cultural and traditional values of communities that the health worker works in
- Health workers are upholders of traditional and cultural values
- Their behaviour and practice must be culturally sensitive and supportive of traditional healing and health, knowledge and practices

*Community control:*

- Community participation and control in decision-making is essential to all aspects of health work, and the role of the health worker is to support the community in this process

*Supervision:*

- In this document, references to supervision describe supervision of work by more experienced workers, supervisors, managers or other health professionals, either directly or indirectly

**Unit Sector(s)**

Not Applicable

Not Applicable

### Pre-Requisites

Not Applicable

### Employability Skills Information

**Employability Skills**

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Prepare a research plan

- 1.1 Ensure views and interests of *stakeholders* are reflected in the research methodology and it and is compatible with ethical considerations
- 1.2 Select research methodology suitable to needs, purposes and resources and to maximise credibility of outcomes
- 1.3 Select and use research strategies appropriate to client group, subject matter being researched, the outcomes sought and the resources available
- 1.4 Ensure research plan incorporates strategies for validating research outcomes

#### 2. Implement appropriate research strategies

- 2.1 Select and use research strategies appropriate to subject matter being researched, the outcomes sought and the resources available
- 2.2 Determine and allocate resources needed to conduct research
- 2.3 Ensure collection, recording and storage of all relevant information is timely and will ensure validity, confidentiality and security
- 2.4 Identify a representative range of people and groups with an interest in the issues and consult them in appropriate ways to ensure validity of outcomes
- 2.5 Undertake consultation according to agreed practices and protocol of own and other agencies
- 2.6 Consider cultural sensitivities and ethical issues in

**ELEMENT****PERFORMANCE CRITERIA**

all consultation

3. Organise and analyse information

3.1 Organise information in a form that allows analysis and suits the research purposes

3.2 Develop patterns in the data and derive explanations, maintaining validity and reliability

4. Report the findings of the research

4.1 Report complete and accurate details of the research methodology, information and analysis in an accessible and useable style and format

4.2 Provide opportunities for validation of research findings

4.3 Report research results and make them available to all relevant stakeholders

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Current and suitable research methodologies, including community based research and participatory research
- Research interview techniques, including consultation methods, protocols and practice
- Information systems, manual and electronic
- Report presentation
- Cultural implications of research methods
- Cultural analysis of information
- Cultural knowledge and ownership issues

- Research ethics

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Carry out research activities that are directly relevant to the organisation and/or the community

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - consultation methods
  - complex communication
  - negotiation with a wide range of known and unknown stakeholders
  - interpretation and analysis of data
  - networking
  - written/oral presentation
- Utilise relevant information technology effectively in line with work health and safety (WHS) guidelines

## **Evidence Guide**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions  
This may include the use of languages other than English and alternative communication systems
- It is recommended that assessment take place on one or more occasions but must include all aspects of research activities - preparing, implementing, analysing, and reporting on research

- Access and equity considerations:*
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

- Context of and specific resources for assessment:*
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
  - Resource requirements for assessment of this unit include access to:
    - an appropriate workplace where assessment can take place, or simulation of realistic workplace setting for assessment

- Method of assessment:*
- Assessment may include observations, questioning and evidence gathered from the workplace

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

- The contexts for undertaking research may include:*
- Preparation of a range of organisation information for policy development, strategic planning, marketing and promotion services, planning new services, reviewing existing services, providing advice to

management

- Responsibility for research specific to a service, its stakeholders, interests and relationship with the wider community
- Specific community or client interests and issues

*Stakeholders may be:*

- Within the organisation
- Within the community
- In other areas of delivery and other services, agencies
- In the education/training field
- Other specialists
- Management
- Community leaders
- Recipients of the service delivery

### Unit Descriptor

#### Descriptor

This unit describes the knowledge and skills required to identify, develop, implement, monitor and review programs to meet the needs of clients

### Application of the Unit

#### Application

This unit may apply in a range of community service contexts and may focus on services and programs to address specific client issues, in areas of work such as: aged care, disability, mental health and alcohol and/or other drugs

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

- |                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|--------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Identify programs and service requirements to meet client needs | <p>1.1 Use client information to target service provision for <i>clients</i> and to enable quality service to be provided</p> <p>1.2 Investigate the needs of clients according to organisation procedures</p> <p>1.3 Establish and apply procedures to monitor, assess and report client satisfaction with service delivery</p> <p>1.4 Interact and consult with clients as required to monitor changing needs so they can be addressed</p> <p>1.5 Seek advice or services from other workers or agencies or primary health practitioners as required</p>              |
| 2. Develop and implement programs for meeting client needs         | <p>2.1 Undertake appropriate planning to ensure client needs are met</p> <p>2.2 Put in place mechanisms to ensure client service information is recorded, maintained and applied to future client dealings so service developments are well informed and appropriate</p> <p>2.3 Develop programs as required</p> <p>2.4 Review <i>client services</i> in consultation with clients and other <i>relevant people</i> including primary health practitioners</p> <p>2.5 Monitor client service delivery to ensure it upholds the organisation's reputation, addresses</p> |

## ELEMENT

## PERFORMANCE CRITERIA

individual client differences and meets duty of care responsibility

2.6 Identify and address problems in addressing client needs in accordance with organisation procedures

2.7 Maintain all relevant documentation relating to clients and service delivery and communicate in accordance with organisation procedures

2.8 Maintain high standards of client service delivery in line with procedural and legislative requirements

2.9 Seek provision of services from other workers, agencies or primary health practitioners as required

2.10 Facilitate strategies and opportunities to meet the needs of people and develop according to organisation policies and procedures

2.11 Facilitate individual differences, rights, needs and preferences within programs

2.12 Incorporate *special needs* in the development of programs and services

2.13 Communicate the needs of clients to carers and other workers as required

2.14 Make available *appropriate program resources*

### 3. Monitor and review programs

3.1 Ensure changes to client service are within policy and budgetary frameworks

3.2 Ensure the provision of *training as required for implementation* to meet changing client needs and community expectations

3.3 Modify specified aspects of the service or service delivery as needed to meet changing client and service requirements

3.4 Ensure changes to client service are within procedural and legislative requirements and maintain high standards of delivery

3.5 Undertake appropriate planning to ensure client needs are met

3.6 Develop required programs

3.7 Make referrals to external services as appropriate

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Design and development of client services and principles of effective service delivery
- Specific client services provided by the organisation and associated policies and procedures
- Strategic planning and organisation development
- Evaluation principles and practices
- Local, Commonwealth or State services and associated Commonwealth or State regulations, acts or guidelines re service provision
- Community resources
- Cultural differences and practices
- Common health problems encountered in clients
- Depending on the work role or services provided, specific knowledge of particular groups or issues may be required, such as:
  - alcohol and other drugs (AOD)
  - cultural and linguistic diversity
  - risk of self-harm
  - gender issues and specific needs of women and/or men
  - community education
  - Aboriginal and Torres Strait Islander people
  - mental health
  - homelessness
- Where clients are aged the following specific knowledge is required:
  - maximising independence
  - health promotion
  - emotional, psychological and spiritual needs
  - cultural, religious and ceremonial needs

## REQUIRED SKILLS AND KNOWLEDGE

- maintenance of an adequate diet
- dementia
- personal hygiene
- dressing and grooming
- mobility and exercise
- Where clients may have disabilities the following specific knowledge is required:
  - relevant legislation relating to disability issues
  - relevant specific culture and language used by people with disabilities
  - knowledge specific to working with families and family systems
  - understanding different client requirements according to different disabilities
  - networks in the disability sector
- Where clients may have disabilities the following specific knowledge is required (contd):
  - consumer needs and rights including duty of care
  - principles of empowerment/disempowerment in relation to people with disabilities
  - principles of access and equity
  - current issues facing clients and existing services for addressing needs and rights
  - principles and practices of confidentiality
  - knowledge specific to working with people from culturally and linguistically diverse backgrounds
  - knowledge specific to working with people at risk of self-harm
  - organisation policies, practices and programs relating to the work role
  - organisation work health and safety (WHS) policies and procedures
  - organisation philosophy and guidelines
  - rights and responsibilities of people with disabilities
  - understanding of stereotypes of people with disabilities
  - available client services
  - awareness of own attitudes to people with disabilities
  - awareness of discriminatory actions
  - common risks to safety
- Where clients experience mental health issues the following specific knowledge is required:
  - structural, political and other social factors which operate to maintain discrimination against people affected by mental health problems
  - structural, political and other social factors which can be addressed to improve mental health promotion, such as:
    - gender
    - language
    - culture
    - ethnicity

## REQUIRED SKILLS AND KNOWLEDGE

- age
- socioeconomic status
- broad knowledge of mental illness and disability issues
- internal structure of the mental health system and its relationship within the broader context of health services, welfare services and government
- policies relevant to mental health at national, state and local level
- relevant agencies and services which may assist in promoting and advocating for mental illness and/or psychiatric disability issues
- political lobbying processes
- use of media for advocacy purposes
- key stakeholders and how to access them
- understanding of the balance between the rights of the general community and the rights of people with a mental illness and/or psychiatric disability
- relevant regulatory, legislative and legal requirements relating to mental health issues
- Where clients experience mental health issues the following specific knowledge is required (contd):
  - knowledge specific to working with people from culturally and linguistically diverse backgrounds
  - knowledge specific to working with people at risk of self-harm
  - knowledge specific to the following areas:
    - working with clients with alcohol and other drugs issues
    - working with women
    - working with men
    - working with children and young people
    - working with aged clients
    - working with corrective services clients
    - working with Aboriginal and Torres Strait Islander clients
    - community education
- Where clients experience AOD issues the following specific knowledge is required:
  - legal and organisation knowledge:
  - legal and organisation requirements for client registration, allocation and referral
  - organisation policies on reporting and confidentiality
  - organisation policies and procedures for documenting work with clients
  - understanding agency role, agency target group and the impacts on the local community
  - range of AOD specific treatment intervention options including detoxification, in-patient treatment programs, outpatient treatment services, and brief interventions
  - effects of AOD use:
  - signs and symptoms of medical risk associated with AOD use

## REQUIRED SKILLS AND KNOWLEDGE

- stages and symptoms of AOD withdrawal
- basic health issues relating to alcohol and/or other drugs use e.g. malnutrition, blood borne diseases, skin infestations, effects of drug use on health, cognitive, social, emotional development and impact on others
- basic pharmacology - types of drugs; dose levels; effects of specific drugs; tolerance; treatment approaches broadly
- the effects of alcohol related brain injury
- consequences and effects of drug substitution/replacement
- effects of prescribed drugs on the use of other drugs
- patterns of drug use in Australia and the local community
- range of use and use scenarios e.g. lifestyle context of illegal drug use
- legal issues:
  - legal status of drugs
  - legal issues surrounding AOD use
- policy:
  - public health model - interaction of impact of drugs, individual and the environment
  - harm minimisation including a range of approaches: prevention, early intervention, abstinence, specialist treatment, supply control and safer drug use
- Where clients experience alcohol and other drugs issues the following specific knowledge is required (contd):
  - working with clients:
    - common relapse precipitants
    - a range of strategies for working with clients
    - strategies to promote participation in programs
    - range of cultural contexts - lifestyle, set of beliefs, customs
    - client empowerment/disempowerment
    - rights of workers and clients
    - different lifestyles
  - self-esteem, abuse issues, self-awareness, own biases, ethical obligations re: helping relationships
  - types of counselling e.g. motivational interviewing, brief and intensive intervention, relapse prevention
  - protocols around use of interpreters
  - client-centredness
  - case management principles
  - working with clients at risk of self-harm:
    - suicidal or self-harming behaviour, ideation or intention
    - no-suicide contracts and other protective strategies
  - links between predisposing factors for self-harm, drug use and mental health

## REQUIRED SKILLS AND KNOWLEDGE

problems

- legal and ethical obligations regarding clients at risk of self-harm or with mental illnesses

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Consult effectively with the client/s
- Respond to specific client needs
- Establish and maintain a network of service providers, including health practitioners

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Analyse client needs
- Demonstrate oral communication skills required to fulfil the job role in the organisation/service:
  - oral communication skills may include:
    - listening, asking questions, providing encouragement, clarifying meaning, clarifying a situation, explaining the needs of aged people to other workers
    - language used may be English, sign language or community language depending on client group
- Demonstrate literacy competence required to fulfil the procedures of the organisation/service:
  - language used may be English or community language depending on the service/organisation
- Demonstrate written communication skills required to fulfil the job role as specified by the service/organisation:
  - Written skills may include:
    - completion of reports or documentation, selecting appropriate language and detail depending on the purpose of the report and the intended audience (e.g. documentation for funding, accreditation documents, client notes etc)
    - language used may be English or a community language depending on client group and organisation
    - communication support is incorporated as required (e.g. using dictionaries, medical books, other reports)
- Demonstrate reading skills required to fulfil the job role as specified by the service/organisation:
  - skills may include reading written material such as policies, procedure manuals and

## REQUIRED SKILLS AND KNOWLEDGE

program materials, understanding and interpreting their content

- Demonstrate application of skills in:
  - Consultation
  - Strategic planning
  - Organisation development
  - Review and evaluation
  - Safe and effective use and coordination of relevant technology in line with work health and safety (WHS) guidelines

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace setting under the normal range of workplace conditions
- Assessment should include all aspects of service provision i.e. analyse, review, plan and develop service etc

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account

## EVIDENCE GUIDE

relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to relevant workplace or simulated realistic workplace setting where assessment may take place

*Method of assessment:*

- Assessment may include observations, questioning or evidence gathered from the workplace e.g. testimonials from clients

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Client services are:*

- Specific to the organisation

*Clients may include:*

- Individual members of the public
- Other organisations, community groups, individuals and health providers
- Other work areas of the organisation
- Senior management
- Service users

## RANGE STATEMENT

*Relevant people may include:*

- Clients
- Family and personal network of clients
- Other workers including health providers

*Special needs may relate to:*

- Disabilities
- Language
- Gender
- Culture
- Age
- Remote location

*Training as required for implementation may be identified by:*

- Relevant program manager
- Supervisor

*Appropriate program resources may include:*

- Aids and equipment
- Qualified and/or specially trained staff

## Unit Sector(s)

### Unit Descriptor

#### Descriptor

This unit describes the knowledge and skills required to assess a range of client issues and refer appropriately

### Application of the Unit

#### Application

On completion of this unit, the worker will be able to respond appropriately to clients that have a range of issues outside and in addition to the area of immediate focus, expertise or interests of the worker and their organisation

For instance, a child protection worker may need to identify when alcohol and other drug issues are important in the life of a presenting client

Completion of the unit will also provide the worker with competence to make decisions as to whether to refer or retain the client

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Establish interpersonal relationship with client

- 1.1 Define boundaries and use communication skills that will establish a trusting and respectful relationship
- 1.2 Utilise facilitative communication skills to assist the client to identify areas of concern, to prioritise areas for immediate and longer term action and to determine options for action and workable strategies to address their priority areas
- 1.3 Share relevant information with client about options and services available to enable them to make informed decisions

2. Identify the range of issues impacting on the client and assess client needs

- 2.1 Identify *indicators of harm, neglect, abuse or risk of harm*
- 2.2 Use observations, assessment tools and questioning to identify possible *presenting issues*
- 2.3 Seek information from a range of *appropriate sources* to determine the range of issues that may be affecting the client within *organisation policies and procedures* regarding autonomy, privacy and

**ELEMENT****PERFORMANCE CRITERIA**

confidentiality

2.4 Apply *organisation procedures for collecting and analysing client information*

2.5 Examine *all client information* to determine the degree to which other issues may impact on the possible services that can be provided by the organisation

3. Analyse and assess information to determine appropriate course of action to be followed

3.1 Assess the level of risk to the client and others directly involved using tools approved or adopted by the organisation

3.2 Follow organisation procedures and address *legal requirements and duty of care obligations in responding to indicators of risk of abuse, neglect or harm*

3.3 Identify and prioritise client's current needs and available sources of assistance

3.4 Identify organisation's capacity to meet range of client needs to be addressed

3.5 Apply accepted procedures to assess the option of bringing in *specialist support* and continuing to work with the client

3.6 Share relevant information with client about options and services available to enable them to make informed decisions

3.7 Provide the client with resources as appropriate

3.8 Follow relevant State/territory legislation, organisation policies and procedures and duty of care obligations and legislative requirements in responding to indicators of actual or potential risk of abuse, neglect or harm

4. Refer client to other services to provide coordinated support

4.1 Identify a client's need for support *internal and external* to the agency

4.2 Implement *appropriate procedures to address potential emergency or crisis situation*

4.3 Comply with cultural obligations when working with clients

4.4 Work with the client and *significant others* where

**ELEMENT****PERFORMANCE CRITERIA**

relevant to motivate, support and encourage the client

4.5 Identify current needs and sources of assistance, and give support as appropriate

5. Review effectiveness of services provided to meet client needs

5.1 Review outcomes in accordance with organisation procedures and in consultation with clients, carers and significant others, case managers and other service providers

5.2 Complete *document/s* as required and in line with organisation procedures

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Identification of the impact of issues relating to:
  - mental health
  - child protection - this must include essential underpinning knowledge of dynamics of child abuse, indicators of risk and risk factors
  - domestic violence
  - disability
  - homelessness
  - unemployment
  - alcohol and other drugs (AOD)
- Knowledge of accepted practices and available referral agencies for working with people experiencing issues related to:
  - mental health

## REQUIRED SKILLS AND KNOWLEDGE

- child protection
- domestic violence
- disability
- homelessness
- unemployment
- AOD
- any form of crisis

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Apply client management skills to deal with complex needs and difficult or behaviours of concern
- Identify the range of relevant issues that may impact on service delivery
- Develop an implement a plan in conjunction with the client to address their issues
- Provide referral to appropriate services
- Evaluate effectiveness of services
- Operate within duty of care and organisation requirements to address client needs
- Apply interpersonal skills to facilitate client to identify options for change and for addressing their issues
- Demonstrate case work skills to ensure effective assessment, intervention and referral
- Manage information to ensure all records are maintained, stored and accessible

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply research skills to ensure a current and correct list of relevant services are readily available to the client
- Provide a brief intervention to raise awareness, share knowledge and help client to think about making changes to improve well being
- Apply crisis intervention and networking skills
- Utilise relevant information technology effectively in line with work health and safety (WHS) guidelines

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit must be assessed after, or in conjunction, with the attainment of competency in the compulsory communication unit within the qualification
- Competency must be demonstrated in a real work environment
- Competence in this unit must be assessed over a period of time in order to ensure consistency of performance across contexts applicable to the work environment
- Consistency in performance should consider the work environment, worker's role and responsibilities in the workplace

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged

## EVIDENCE GUIDE

### *Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

### *Related units:*

Although this unit requires no pre-requisite, there are a number of related units of competence both of a generic and sector specific nature that would be ideally mastered prior to undertaking this unit of competence

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *Presenting issues include:*

- A client with secondary or multiple issues who is most likely to present 'first' to the following types of services (for an issue relevant to those services):
  - child protection
  - juvenile justice / youth service

**RANGE STATEMENT**

- social housing
- employment service

*Indicators of harm, neglect, abuse or risk of harm*

- Physical symptoms such as injuries or loss of weight
- Verbal and non- verbal cues
- Impairment to cognitive functioning caused by acquired brain injury such as loss of memory, inability to concentrate, plan, organise
- Reports from the individual, carers or other workers
- Psychological/emotional indicators

*Harm, neglect, abuse or risk of harm includes:*

- Physical
- Emotional
- Cognitive
- Psychological
- Sexual
- Financial

*Appropriate sources (of information) include:*

- Case notes
- File
- Other workers

*Harm, neglect, abuse or risk of harm may be from:*

- Carers
- Workers/service providers
- Self
- Family or significant others
- Community members

*Responding to indicators of risk of abuse, neglect or harm includes:*

- Intervention to remove the risk
- Reporting to appropriate personnel
- Investigating
- Seeking specialist support/services
- Referral
- Following State/territory legislative requirements

*Responding to indicators of risk*

- Legislation

**RANGE STATEMENT**

*of abuse, neglect or harm will be determined by:*

- The specific job role
- Organisation procedures
- Family and cultural mores

*People who are vulnerable and at significant risk may be:*

- People with a disability
- People with an acquired brain injury
- Elderly people
- People with mental health issues
- Children and young people
- Babies under one year of age
- Toddlers (children under three years of age)
- People who are homeless
- People in unequal power relationships

*Non presenting problems or issues are likely to be:*

- Alcohol and other drugs
- Mental illness
- Developmental disability
- Acquired Brain Injury
- Abuse and risk of abuse
- Domestic violence
- Homelessness / inadequate housing
- Unemployment
- Juvenile justice issues
- Communicable disease
- Financial difficulties
- New arrival in the country

*Legal requirements and duty of care obligations include:*

- Ethical referral
- Comply with state and territory legislation

*Significant other may include*

- Partners
- Family members
- Carers
- Advocates

*Approaches to addressing*

- AOD may include knowledge of harm minimisation

## RANGE STATEMENT

*specific issues include applying accepted methodologies, underpinning values and philosophies of the specific areas*  
*The following notes offer a guide:*

practices, of the effects of AOD on body system and social relationships, and of the signs and symptoms of intoxication:

- knowledge of groups and agencies in the community who can respond to individuals with AOD problems by providing treatment and detoxification programs is central
- also important is an awareness of personal bias, and models or perspectives on drug use i.e. disease perspective, moral perspective of both the client and of referral agencies
- Mental health may include recognising basic signs and symptoms of anxiety, depression, suicidal impulses, and indicators of mental illness such as hallucinations or delusion:
  - knowledge of appropriate referral and intervention services in the community is critical
- Domestic violence may include an understanding of such violence as an abuse of power perpetrated both in a relationship and after separation and that such violence takes a number of forms:
  - these include physical and sexual violence, emotional and psychological abuse and economic deprivation
  - domestic violence occurs across all groups, cultures and creeds
  - the safety and well being of individuals subjected to domestic violence should be of primary concern
  - knowledge of groups and agencies in the community who can respond to individuals with domestic violence issues is required
- Child protection requires knowledge of relevant state mandatory reporting legislation and its application
  - Child protection also requires knowledge of child development, dynamics of child abuse, risk factors, behavioural/physical indicators of abuse and agencies that respond to child protection matters
- It is vital to recognise that children (particularly infants) in families where abuse of alcohol and other drugs exist are more likely to be at risk of harm
  - where there other risk factors such as domestic

## RANGE STATEMENT

violence and mental health co exist with AOD issues the potential risk of harm to those children increases significantly

- When working with adult clients who have children, the safety, welfare and well being of the children must be included in all case management practices
- Developmental disability may describe individuals who have a multiplicity of disabilities including difficulty learning, thinking and reasoning, retaining information and forming social relationships
  - it is vital to recognise the individuality of developmental disabled persons, their right to age appropriate consultation and to self determination
  - needs arising from social isolation and the critical importance of primary care-givers in the lives of developmental disabled persons should also be recognised
  - knowledge is required of groups and agencies in the community that can provide advocacy services
- Juvenile justice may include knowledge of adolescent clients and their special need as individuals, within families and as part of a group, including stages of development and social issues affecting youth
  - recognition of the vulnerability of young people in their dealings with authority and of the protection that should operate during an investigation or proceeding in relation to an offence is required
  - knowledge of groups and agencies in the community that can provide services such as advocacy and legal advice to young people in their dealings with the justice system is essential
- Acquired Brain Injury may include:
  - awareness of the causes and effects of ABI
  - understanding of the impact of cognitive impairment on the individual and families, including associated grief and loss issues; knowledge of the ABI service system; skills in working with people with behaviours of concern

*Organisation procedures for*

- Questionnaires

**RANGE STATEMENT**

*collecting and analysing client information may include written and oral input to:*

- Assessment tools
- Client profile forms etc

*Procedures to prevent escalation of a potential emergency or crisis situation may include:*

- Using calming communication skills
- Managing and containing emotional responses and escalating behaviour
- Identify and address source of the issue
- Discussing the situation with the client
- Negotiation and mediation
- Seeking assistance from other workers or client carers
- Providing physical and visual barriers
- Evaluating the potential risk of the emergency
- Implementing specific communication skills including questioning, reflective listening and body language

*Appropriate procedures to address potential emergency or crisis situation may include:*

- Negotiating to prevent escalation
- Seeking assistance from other people or agencies
- Immediate referral
- Intervention to ensure physical safety

*Other information could include information from:*

- The client's carers and or family
- Other agencies or workers with knowledge of the client
- Client files

*Specialist support may include:*

- Health professionals
- Careers and employment advice
- Financial counselling
- Family and relationship counselling
- Child Protection officers
- Mental health professional
- AOD detox, withdrawal and support
- Child care
- Centrelink officers

## RANGE STATEMENT

*All client information would include:*

- Behaviour
- Responses to questions and other information provided by client
- Physical appearance and acuity
- File information
- Information on the client provided by family, carers, other workers, other agencies

*Accepted procedures to evaluate the benefit to the client of referral include:*

- Discussing options with the client, carers and family
- Checking the availability of services within the organisation
- Checking the availability and accessibility of other services

*Brief intervention will be focused on providing de-escalation and emotional support:*

- One-to-one approach, private
- Takes short period of time
- Can be done by anyone in the team
- A client led process
- Opportunistic
- Used for harm reduction and facilitating behaviour change
- Carer respite (e.g. for clients with ABI)

*Organisation policies and procedures may include:*

- Incident reporting and documentation
- Operational guidelines for handling cases involving difficult and behaviours of concern
- Record-keeping
- Legal responses

*Decisions to provide a brief intervention will be based on:*

- The issues of concern to the client and the stage of decision to change is determined
- Availability of resources to support the brief intervention
- Agency and worker mandate and focus

**RANGE STATEMENT**

*Document/s may include:*

- Data
- Case notes
- Case files
- Client reports
- Referral notes

### Unit Descriptor

**Descriptor**

This unit describes the knowledge and skills required to apply the basic elements of implementing services for people accessing community services organisations issues in a range of settings

It may be within an established plan of care

### Application of the Unit

**Application**

This unit may apply in a range of community service contexts

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

### Employability Skills Information

**Employability Skills**

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. *Establish a working relationship with clients to assist them to identify their needs*

- 1.1 Routinely use effective strategies to ensure:
  - clients identify their needs and goals
  - individual and cultural differences are addressed
  - areas of resistance/conflict are identified and appropriately resolved
  - appropriate levels of consultation are implemented
  - the experience and life skills of the client are appropriately addressed
  - relevant information is collected
- 1.2 Implement processes to reach agreement on meeting procedures, consequences of actions and cooperative relationship
- 1.3 Clarify negotiable and non negotiable aspects of intervention
- 1.4 Define and maintain boundaries between client and worker, including roles, responsibilities and accountabilities, to ensure compliance with statutory requirements and duty of care responsibilities
- 1.5 Implement strategies to ensure all dealings with clients reflect appropriate expression of value systems and consideration of emotional impact of intervention
- 1.6 Use *appropriate communication and relationship building processes*
- 1.7 Discuss *possibilities and options for responding to client needs*, determine preferred actions and prioritise
- 1.8 Assist client to evaluate and select strategies to achieve their goals

**ELEMENT****PERFORMANCE CRITERIA**

- 1.9 Promptly and supportively *respond to clients in distress or crisis*, in accordance with *organisation policies and procedures*
2. Support clients to meet their needs
- 2.1 Identify information and skills required by the client to meet their needs
- 2.2 Provide or develop opportunities to obtain information and develop skills
- 2.3 Provide individual and group support in accordance with resources and procedures
- 2.4 Explain the client's rights and responsibilities
- 2.5 Maintain confidentiality in accordance with organisation policies and procedures
3. Promote preventative strategies
- 3.1 Provide a full range of opportunities for clients to engaged in identification of problems and solutions
- 3.2 Employ a range of strategies to assist clients to meet specific targets and to gain control over their lives
- 3.3 Identify, develop and initiate an appropriate range of opportunities in accordance with organisation policies and procedures and client needs
- 3.4 Encourage and monitor client progress and involvement in activities and appropriate action taken to maximise individual skill development
4. Review *work with clients*
- 4.1 Review work with client within organisation policies and procedures and adapt strategies as appropriate
- 4.2 Review outcomes of client work with *supervisor and/or colleagues* in accordance with organisation policies and procedures
5. Use self-protection strategies as required
- 5.1 Use conflict resolution and negotiation as appropriate
- 5.2 Take appropriate action to ensure the safety of

**ELEMENT****PERFORMANCE CRITERIA**

self and others

5.3 Acknowledge limits of own abilities and make referrals as appropriate

5.4 Seek emergency *assistance* as required

6. Refer clients

6.1 Check services the client is already accessing with the client and the service/s

6.2 Discuss suitability of *other services* with the client

6.3 Support client to make contact with other services

6.4 Provide follow up to determine the effectiveness of the referral

7. Provide specialist services to clients

7.1 Complete all appropriate documentation and maintain in accordance with organisation and statutory standards and requirements

7.2 Implement procedures to ensure information sharing between key stakeholders is facilitated

7.3 Ensure all dealings with the client/s reflect:

- accepted organisation standards of behaviour
- mutual respect
- commitment to information sharing and dissemination
- adherence to agreed plan
- sensitivity to cultural, family and individual differences
- ability to work with the client in the context of the family and broader community
- application of the organisation's philosophy
- compliance with statutory requirements and duty of care responsibilities

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

## REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Understanding of role and responsibilities of self and other workers within the organisation
- Organisation policies and procedures as listed in the Range Statement
- Agency role, agency target group
- Issues affecting the client group
- Understanding relevant terminology related to the sector
- Awareness and understanding of issues relating to work in the sector
- Stigma, prejudice and common stereotypes relating to client issues
- Culture of service provision in the sector
- Relevant policy, regulatory, legislative and legal requirements relating to service provision
- Appropriate protocols and cultural systems relevant to work area
- Theories and methodologies related to work in the sector
- Child protection, mental health and AOD issues as they relate to work in the sector
- Working with individuals and groups
- Motivational interviewing techniques
- Service role and target groups
- Related agencies and referral procedures used by the organisation
- Awareness of own biases and beliefs
- Ethical obligations re: helping relations, confidentiality
- Rights of workers and clients
- Principles and practices of duty of care
- Knowledge specific to working with people from culturally and linguistically diverse backgrounds
- Knowledge specific to working with people at risk of self-harm
- Relationships between service providers
- Relevant systems/networks in the local area
- Statutory requirements
- Where clients have mental health issues the following specific knowledge is required:
  - community correctional orders and mental health issues

## REQUIRED SKILLS AND KNOWLEDGE

- mental health promotion
- signs and symptoms of major mental illness
- Where clients have mental health issues the following specific knowledge is required (contd):
  - impact of mental illness and/or psychiatric disability on self-esteem, motivation, daily living skills
  - common medications for mental illness and their side effects
  - psychosocial treatment approaches
  - psychiatric disability
  - basic understanding of psychosocial rehabilitation processes
  - basic understanding of the range of clinical treatment and support services
- Where clients have housing issues the following knowledge is required:
  - understanding of language used in the community housing sector
  - awareness of housing issues
  - relationships between service providers
  - community housing systems/networks in the local area
  - culture of community housing provision
  - policy, regulatory, legislative and legal requirements including:
    - residential tenancy acts or equivalent
    - Privacy Act
    - legislation underpinning the principles of equal opportunity
    - Freedom of Information Act
    - Individual rights
    - National Housing Policy
    - National Housing Service Standards
    - Disability Services Acts and standards
- Where clients have AOD issues the following knowledge is required:
  - first aid certification or equivalent skills (as per unit HLTF311A Apply first aid) including cardio pulmonary resuscitation (CPR), bandaging, managing toxic substances, managing bleeding, managing broken bones, managing consciousness, managing choking and knowledge of coma positions
  - working with a range of different clients with AOD issues
  - conducting work role within established plans, procedures or programs
  - range of AOD specific services delivered by the organisation
  - AOD use, general effects on body systems and their functions and general social and psychological effects
  - drugs/substances most commonly used in local area
  - relationship between suicide and AOD use

## REQUIRED SKILLS AND KNOWLEDGE

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Effectively provide support to clients within organisation procedures
- Facilitate exploration of issues
- Establish role definitions
- Identify and work constructively with conflict and resistance
- Monitor own positions and reactions
- Clarify differences in perception
- Demonstrate problem exploration within a pro-active framework

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply strategies for self-protection and self care
- Apply strategies for dealing with aggressive or distressed people
- Demonstrate a non-judgemental approach to working with people
- Devise and develop tasks to help clients understanding and problem solving efforts
- Demonstrate constructive use of personal and professional authority and influence to support or confront
- Demonstrate application of skills in:
  - establishing rapport
  - effective active listening including questioning
  - interpretation of verbal and non-verbal communication
  - conflict resolution
  - problem solving
  - interpersonal relationship
  - networking and liaison with other services
  - crisis situation responses
  - report writing
  - supportive counselling
  - goal clarification
  - working with conflict, resistance and levels of risk
  - empathy, engagement and rapport building
  - communicating interest, respect and concern
  - articulating clearly boundaries of own role

## REQUIRED SKILLS AND KNOWLEDGE

- recognising signs and triggers for dependency
- Maintain documentation as required, including effective use of relevant information technology in line with work health and safety (WHS) guidelines

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace setting under the normal range of workplace conditions
- Consistency in performance should consider particular requirements of support provision delivered in the workplace

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources*

- This unit can be assessed independently, however

## EVIDENCE GUIDE

*for assessment:*

holistic assessment practice with other community services units of competency is encouraged

- Resources required for assessment include access to relevant workplace or simulated realistic workplace setting where assessment may take place

*Method of assessment:*

- Assessment may include observations, questioning or evidence gathered from the workplace

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Clients include:*

- Individual clients and families and support network of the client
- Members of the public seeking information

*The contexts of working with clients include:*

- Contact with a service on a voluntary or involuntary basis
- Contact with a statutory activity e.g. Notification, first juvenile offence
- Within an intervention
- Within a support activity or service

*Organisation policies and procedures may include:*

- Emergencies
- Work health and safety (WHS)
- Referrals
- Reporting
- Goals, objectives and targets
- Accountability

**RANGE STATEMENT**

- Code of conduct
  - Confidentiality
  - Grievance procedures
- Establish a working relationship will be carried out within requirements established by:*
- Commonwealth and State legislation
  - International conventions relating to the rights of children and young persons
  - Organisation policy and procedures
  - Relevant program standards
  - Organisation codes of conduct, ethics
- Work with clients may:*
- Occur at established premises or at other locations used by outreach, street, remote or off-site services
  - Other locations may include the client's home, public places, workplaces or mobile service centres
- Needs may include:*
- Emotional support
  - Social support
  - Financial advice
  - Cognitive/behavioural support
  - Food and clothing
  - Transport
  - Emergency relief
  - Legal advice
  - Accommodation support
  - Referral to other agencies
  - Harm minimisation
  - Financial device
  - Consumables
  - Legal advice
- Appropriate communication and relationship building processes may include:*
- Engagement
  - Empathy
  - Non-judgemental manner
  - Active listening
  - Listening to the person
  - Acknowledging the person in a pleasant and accepting manner

**RANGE STATEMENT**

- Treating the person as an individual with their own life history, skills and interests
  - Rapport building
  - Warmth
  - Genuineness
  - Respect
- Possibilities and options for responding to client needs may include:*
- Referral of the client to a colleague within the organisation
  - Referral of the client to other agencies in accordance with organisation policies and procedures
- Respond to clients in distress and crisis will include:*
- Enlisting support and/or assistance from colleagues or emergency support as appropriate
  - Using calm and calming behaviour
  - Reporting incidents promptly and accurately
- Services should promote the client's independence and abilities and take into account their:*
- Preferences
  - Ability to communicate
  - Level of stress or anxiety
  - Behavioural disturbance e.g. tears, agitation, despair, elation, mood swings, disinhibition caused by acquired brain injury
  - Verbal or physical aggression
  - Inappropriate responses
  - Family and peer support/self help
  - Need for encouragement
  - Cultural/linguistic background
  - Social circumstances e.g. family and social support
- Client service processes may be informal and/or formal and may include:*
- Problem solving techniques
  - Evaluation
  - Interviewing techniques
  - Information provision
  - Group work
  - Individual support
  - Working with carers and others
  - Relaxation management

**RANGE STATEMENT**

- Stress management
  - Anger management
  - Coping strategies
  - Counselling and support groups
- Work with clients may occur in any environment including:*
- Social settings
  - Home
  - Drop in centres
  - Workplace
  - Vehicles/transport
  - Cafes, shopping centres
  - Structured programs
  - Legal settings
  - Other agencies or services
- Supervisors and/or colleagues may include:*
- People from other services
  - Team members
- Assistance may be sought from:*
- Other staff
  - Clinical mental health services
  - Acquired brain injury services
  - Community based support services
  - Legal services
  - Hospitals
  - Ambulance
  - Police
  - Interpreters
  - Consumer consultants
  - Transcultural consultants
- Other services may include:*
- Carer/consumer groups
  - Psychosocial rehabilitation
  - Accommodation
  - Specialist disability
  - Legal
  - Day support
  - Employment and/or skill development service e.g.

**RANGE STATEMENT**

Life or living skills

- Pre-vocational
- Leisure
- Recreation
- Education
- Social activities
- Neuropsychological assessment
- Behaviour consultancy services
- Clinical treatment
- Drug and alcohol
- Health
- Advocacy
- Respite
- Pharmacies
- Financial
- Torture/trauma
- Spiritual support

**ELEMENT****PERFORMANCE CRITERIA**

communication needs of individuals within the group are identified and addressed

5. Identify communication strategies to build relationships with clients who are involuntary or present communication challenges

5.1 Identify and address specific communication barriers such as:

- closed or unreceptive attitudes
- mistrust or misunderstanding of people, organisations, systems and/or processes
- emotional states, such as fear, anger and frustration

5.2 Identify areas of mistrust or conflict that may require resolution

5.3 Identify the need to include *additional parties*

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

It is critical that the candidate demonstrate knowledge of:

- Effective communication strategies and techniques to address barriers and build and maintain relationships
- Recognition of communication styles of individuals
- Basic group dynamics and facilitation of group discussion

The candidate must also be able to demonstrate relevant knowledge required to effectively perform task skills; task management skills; contingency management skills and job/role environment skills as outlined in elements and performance criteria, such as knowledge of:

- Cross cultural communication protocols

## REQUIRED SKILLS AND KNOWLEDGE

- Non-verbal communication strategies
- Communication techniques to maintain constructive interactions
- Barriers to communication

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Provide evidence that all communication with clients and colleagues is appropriate to individual needs and the situation and promotes achievement of organisation objectives
- Use strategies to meet particular communication needs/difficulties
- Address individual issues in a timely way and in a manner which maintains the integrity of the individual
- Know when to provide referrals to conflict resolution and mediation

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply a full range of communication techniques including:
  - reflective and active listening, respectful responding, empathy, feedback and rapport
  - addressing communication barriers through application of a range of strategies
  - recognition of non-verbal triggers
  - clarification of boundaries of work role
- Apply oral communication skills required to fulfil job roles as specified by the organisation/service:
  - skills in asking questions, providing clear information, listening to and understanding workplace instructions, and clarifying workplace instructions when necessary
  - service/organisation may require competence in English or community language, depending on client group

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the

## EVIDENCE GUIDE

Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in a work context or in simulated work environment and under the normal range of work conditions
- Assessment is recommended to be on more than one occasion and must include the range of clients who access the service

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to relevant workplace or simulated realistic workplace setting where assessment may take place

*Method of assessment:*

- Assessment may include observation, questioning and evidence gathered from the workplace and/or simulated work environment, including written work

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Communicate effectively includes:*

- Effective use of questioning, speaking, and listening and non-verbal communication techniques
- Identifying and evaluating what is occurring within an interaction in a non-judgemental way
- Making decisions about appropriate words, behaviour, posture
- Using clarifying, summarising questions
- Putting together a response that is culturally appropriate
- Expressing an individual perspective
- Expressing own philosophy, ideology and background and exploring the impact of this on the communication
- Exploring and unpacking problems
- Using active and reflective listening appropriately
- Providing sufficient time to enable stories to be told
- Providing summarising and reflective responses in conflict situations
- Confirming that required information is accessed or message communicated

*Non-verbal communication includes:*

- Gestures
- Posture
- Facial expression

*Interviews may include:*

- Discussion of staffing issues
- Routine information collection
- Maintaining confidentiality
- Evidential-based
- Non disclosure

## RANGE STATEMENT

- Disclosure

*Established procedures may refer to:*

- Commonwealth and State legislation
- International conventions relating to the rights of individuals
- Organisation policy and procedures
- Relevant program standards
- Duty of care and ethical practice

*Presentation of information includes:*

- Clarity
- Appropriate sequencing
- Delivery within an appropriate time
- Utilising media to enhance presentation, if appropriate
- Addressing audience needs

*Opportunities will include:*

- Allowing sufficient time to hear individual stories
- Encouraging a full exploration of issues
- Encouraging validation of individual issues

*Additional parties may include:*

- Trusted friends
- Case workers
- Family members
- Nominated adults

| 3. Identify and assess effectiveness of methods to create and increase community awareness of the agency's role and purpose in managing place | <p>3.1 Collate and analyse data on the effectiveness of various consultative methods in the context of known community data and place planning objectives</p> <p>3.2 Develop criteria for determining the range and effectiveness of consultative methods and apply to determine relative opportunities for community consultation</p> <p>3.3 Apply specialist knowledge and skills to determine the most suitable methods for the identified community and place</p>                                                                                                                                                                       |
| 4. Develop a place plan                                                                                                                       | <p>4.1 Develop the plan in consultation with the broad community, businesses, other government and non-government agencies and organisations</p> <p>4.2 Advertise/exhibit the plan and incorporate feedback in accordance with agency policies, protocols and procedures</p> <p>4.3 Present the plan to key decision-makers for endorsement</p> <p>4.4 Incorporate amendments from key stakeholders as required</p> <p>4.5 Disseminate the plan to <i>relevant agency or departmental personnel</i> who will be involved in implementation</p> <p>4.6 Return the plan to the community for celebration and acknowledgment of completion</p> |
| 5. Manage and review implementation of place plan                                                                                             | <p>5.1 Develop qualitative and quantitative performance measuring processes to be confirmed by the community</p> <p>5.2 In consultation with the community, regularly collect, analyse and display qualitative and quantitative data to provide accurate measures of implementation performance and progress</p>                                                                                                                                                                                                                                                                                                                            |

## ELEMENT

## PERFORMANCE CRITERIA

- 5.3 Use information obtained during performance monitoring, both within and outside of the place, to modify and/or further develop the plans implementation program as appropriate
- 5.4 Ensure the community maintains interest and sense of ownership in implementation of plan

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Comprehensive, appropriate demographic and cultural resource information
- Strategies for involving a diverse community in planning and activities
- Community cultural development philosophy and practice across several art forms
- Community networks
- Council policies, procedures and protocols

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Apply comprehensive, appropriate demographic and cultural resource information
- Develop and implement strategies for involving a diverse community in planning and activities
- Provide evidence of review processes

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of

## REQUIRED SKILLS AND KNOWLEDGE

the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - cross-cultural communication
  - community research
  - qualitative and quantitative data analysis
  - community consultation
  - program planning

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Competency must be demonstrated in a real work environment
- Competence in this unit must be assessed over a period of time in order to ensure consistency of performance across contexts applicable to the work environment
- Consistency in performance should consider the work environment, worker's role and responsibilities in the workplace

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment

## EVIDENCE GUIDE

- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
- Context of and specific resources for assessment:*
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
  - Resources required for assessment include access to:
    - workplace or simulated case study that encompasses consultation with community groups
    - cultural resources and relevant personnel
- Method of assessment:*
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
  - Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
  - Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

### RANGE STATEMENT

## RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Culture includes:*

- Group activities/games
- Dress
- Communication practices
- Language
- Types, styles and significance of artefacts
- Music
- Built and natural environment

*Relevant agency or departmental personnel may include:*

- Heritage planner
- Town planner
- Environmental officer
- Community service delivery staff
- Parks, gardens and road staff
- Library staff
- Supervisors
- Managers
- Recreation planners

*Cultural resources include:*

- Community history
- Items in the built and natural environment
- Private and public artistic products
- Cultural practices and facilities
- Ethnic groups
- Age groupings
- Clubs
- Gender groupings

*Methods for raising awareness include:*

- Use of existing systems from other organisations/communities
- Use of expert consultants with relevant skills

## RANGE STATEMENT

- Action learning strategies
- Workshops
- Advertising
- Signage
- Printed materials
- Mass media
- Public education

*Links with community interest groups include:*

- Formal committees of Council
- Working parties
- Workshops
- Meetings

**ELEMENT****PERFORMANCE CRITERIA**

*strategies* and activities

3.2 Assist in facilitation of effective group meetings and enhance outcomes

3.3 *Support* and maintain group processes to facilitate achievement of identified outcomes by the group

3.4 Monitor effectiveness of group processes and provide information to the group to enable improvement and change as required

4. Reflect on practice

4.1 Reflect on own practice

4.2 Regularly participate in a review mechanism as a commitment to upgrading skills and knowledge

4.3 Work with group to regularly undertake review mechanisms

4.4 Work with group to reflect on group practice and processes

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Community development theory, principles and practices
- The community profile
- Funding sources and their policies and strategies for encouraging community input and participation
- Relevant local, state and federal strategies/legislation
- Community processes and protocols

## REQUIRED SKILLS AND KNOWLEDGE

- Conflict management
- Media engagement
- Meeting procedures
- Governance issues
- Representation, lobbying and advocacy
- Power and conflict management
- Leadership in community
- Networking
- Data collection and analysis
- Depending on the work role or services provided, specific knowledge of particular groups or issues may be required, including:
  - alcohol and other drugs (AOD)
  - cultural and linguistic diversity
  - risk of self-harm
  - women
  - men
  - community education
  - Aboriginal and Torres Strait Islander people
  - mental health
  - LGBTI
  - young people
  - families and children

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate capacity to identify individual concerns and translate them into public issues by facilitating individual awareness of issues which may be common to the group and to assist establishment of access to group processes
- Develop and maintain public processes to address common issues
- Work with key people or stakeholders in the community

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Motivate, enthuse and activate
- Demonstrate application of skills in:
  - research, including data collection/analysis and recording, and effective use of

## REQUIRED SKILLS AND KNOWLEDGE

relevant information technology in line with work health and safety (WHS) guidelines

- project/program evaluation
- budgeting
- negotiation, liaison, networking
- group facilitation
- applying WHS requirements in the work role

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be assessed in the workplace or in a simulated workplace under the normal range of workplace conditions

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

## EVIDENCE GUIDE

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to appropriate structures, people or organisations for assessment purposes

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Referrals may be:*

- Both inside and outside the organisation
- To other workers, service providers or organisations
- To specialist services

## RANGE STATEMENT

*Issues and needs may include:*

- Employment
- Housing
- Financial support
- Access to education and training
- Health
- Child care
- Community issues such as domestic violence, aged care, disability services, etc

*Operational arrangements include:*

- Legal framework for operation
- Funding arrangements
- Models for operation
- Decision-making arrangements
- Baby sitting
- Vouchers
- Location
- Advertising/promotion

*Opportunities to facilitate community participation include:*

- Activities at service delivery, program, operative and management levels
- Formal and informal systems
- Promotion
- Support meeting
- Focus groups on relevant issues
- Community meetings

*Key people may include:*

- Advocacy groups
- Policy and decision-makers in the specific community
- Individuals, groups or communities most likely to be affected by strategies or action plans
- Community leaders
- People with formal and informal representative roles
- Community elders
- Council members
- Elected representatives (politicians)

*Group processes and models*

- Community action

**RANGE STATEMENT**

*include:*

*Community development outcomes may include:*

- New or improved service delivery
- Community projects
- Community planning
- Consultative and planning committees
- Enhanced social capital
- Enhanced community skills
- Enhanced community capacity
- Community facilities
- Policy changes
- Other relevant needs identified by the community or the group

*Support includes:*

- Media
- Meeting procedures
- Representation, lobbying and advocacy
- Power and conflict management
- Motivate, enthuse and activate
- Leadership in community
- Networking
- Data collection and analysis
- Gaining resources

*Strategies may include:*

- Establishment of advocacy groups
- Promotion activities
- Lobbying
- Developing alliances
- Collaboration and cooperation
- Community awareness raising
- Submissions to social planning
- Political action and campaigns
- Participatory/collaborative research and development
- Other strategies as appropriate

*Resources may include:*

- Skills/administrative support
- Physical, transport, venues, material, equipment

**RANGE STATEMENT**

- Provision of training
- Financial
- Equipment
- Staff skills and time
- Provision of facilities
- Educational materials
- Funding
- Personnel

**Unit Sector(s)**

## CHCCD412B Work within a community development framework

### Modification History

Not Applicable

### Unit Descriptor

#### Descriptor

This unit describes the knowledge and skills required to work within a community development framework

A community development framework may include a range of methods designed to strengthen and develop communities by enhancing individual and group capacity to confidently engage with community structures and to address problems and issues

### Application of the Unit

#### Application

Application of a community development framework may be undertaken within the scope of or in conjunction with a range of work roles/areas in the community services industry including specific areas of service delivery, community education activities and working with groups to address issues

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Operate within a community development framework

- 1.1 Reflect a current working knowledge and understanding of community development vision and mission in work undertaken
- 1.2 Reflect through *work*, a commitment to working with communities to resolve their issues through enhancing skills, accessing appropriate support and working with others in the community who share concerns and issues
- 1.3 Underpin work with a commitment to the *principles of community development*
- 1.4 Demonstrate understanding of the interrelationships of the needs and rights of the individual, the family, the community and society
- 1.5 Reflect through work, a demonstrated understanding of the impact of current and changing social, political and economic contexts
- 1.6 Work in a manner which reflects the impact of worker's own value base and values within a community development framework

2. Distinguish between private and public issues arising in community development

- 2.1 Employ appropriate interpersonal skills to hear individual stories and distinguish between private and public issues

**ELEMENT****PERFORMANCE CRITERIA**

|                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

## REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

It is critical that the candidate demonstrate knowledge of:

- Own biases related to community development
- Relevance of the work role and functions to maintaining sustainability of the workplace, including environmental, economic, workforce and social sustainability
- Strategies for addressing individual differences
- Principles and practices of community development work, including:
  - structural disadvantage and inequality,
  - social justice and human rights,
  - empowerment
  - recognition of personal and public political process
  - commitment to peoples' participation
- Work models within a community development framework, including:
  - social action
  - advocacy
  - locality development work
  - brokering connections between communities and systems
  - community needs analysis / research

The candidate must also be able to demonstrate relevant knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role, such as knowledge of:

- Recognition of the value of process, including as an outcome:
  - respecting and valuing local knowledge and skills
  - mutuality

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Elicit a story from individuals, to test common understandings and to facilitate agreement on actions to be followed based on information and assistance provided by the worker
- Review and modify own work practice within a community development framework

## REQUIRED SKILLS AND KNOWLEDGE

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply appropriate communication and interpersonal skills relevant to work area
- Demonstrate application of skills in:
  - research
  - needs analysis and assessment in a community context
  - relevant literacy standards and skills necessary to meet reporting requirements of work area
  - reflective listening
  - referral
- Recognise and act upon opportunities to enhance sustainability in the workplace

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- It is recommended that assessment or information for assessment will be conducted or gathered over a period of time and cover the normal range of workplace situations

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation

## EVIDENCE GUIDE

|                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional

## RANGE STATEMENT

contexts.

*Work in the industry includes:*

- Paid work
- Unpaid work
- Voluntary

*Principles of community development include:*

- 'People-centred' developmental approach to work that may be civil, political, economic, social or cultural
- Commitment to participatory democracy,
- Commitment to peoples' participation,
- Empowerment
- Justice (commutative, distributive and social), and human rights
- Reciprocity and mutuality
- Recognition of personal and public political process,
- Recognition of the value of process, including as an outcome
- Respecting and valuing local knowledge and skills,

*Ethical practices include those relating to:*

- Financial management
- Information collection, storage and dissemination
- Operation of community and other organisations
- Professional relationships

*Group processes and models include:*

- Community action

*Community development outcomes may include:*

- Building capacity to address problems in the community and to strengthen community structures
- Community facilities
- Community planning
- Community projects
- Consultative and planning committees
- Enhanced community capacity
- Enhanced community skills
- Enhanced social capital

**RANGE STATEMENT**

- Increased capacity of groups and individuals to engage with political and community structures
- Increased community self confidence in public activity
- Inter-community collaboration
- Meeting community needs
- New or improved service delivery
- Other outcomes identified by the community or the group
- Policy changes

*Appropriate course of action may include:*

- A public response/meeting
- Conducting a specific project
- Development of a program
- Establishment of organisational arrangements
- Group action

*Appropriate referrals may include*

- Not part of agency mandate
- Private matters
- Public matters that are already being addressed elsewhere

*Areas of difference and diversity include:*

- Culture and cultural practices relating to:
  - religion/spiritual observances
  - family relationships
  - status/protocol
  - ceremonies/celebrations
  - prohibition/taboos
- Language
- Social, economic, physical and health issues

## Elements and Performance Criteria

| ELEMENT                             | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Gather and organise information  | <p>1.1. Gather and organise <b>information</b> in a format suitable for analysis, interpretation and dissemination in accordance with <b>organisational requirements</b></p> <p>1.2. Access information held by the organisation ensuring accuracy and relevance in line with established organisational requirements</p> <p>1.3. Ensure that <b>methods of collecting information</b> are reliable and make efficient use of resources in accordance with organisational requirements</p> <p>1.4. Identify research requirements for combining online research with non-electronic sources of information</p> <p>1.5. Use <b>business technology</b> to access, organise and monitor information in accordance with organisational requirements</p> <p>1.6. Update, modify, maintain and store information, in accordance with organisational requirements</p> |
| 2. Research and analyse information | <p>2.1. Clearly define <b>objectives of research</b> ensuring consistency with organisational requirements</p> <p>2.2. Ensure that data and <b>research strategies</b> used are valid and relevant to the requirements of the research and make efficient use of available resources</p> <p>2.3. Identify <b>key words and phrases</b> for use as part of any online search strategy, including the use of <b>Boolean operators</b> and other search tools</p>                                                                                                                                                                                                                                                                                                                                                                                                  |

| ELEMENT                | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                        | <p>2.4. Use reliable <b>methods of data analysis</b> that are suitable to research purposes</p> <p>2.5. Ensure that assumptions and conclusions used in analyses are clear, justified, supported by evidence and consistent with research and <b>business objectives</b></p>                                                                                                                                                                                                         |
| 3. Present information | <p>3.1. Present recommendations and issues in an appropriate format, style and structure using suitable business technology</p> <p>3.2. Structure and format reports in a clear manner that conforms to organisational requirements</p> <p>3.3. Report and distribute research findings in accordance with organisational requirements</p> <p>3.4. Obtain <b>feedback</b> and comments on suitability and sufficiency of findings in accordance with organisational requirements</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- literacy skills to read, write and understand a variety of texts; and to edit and proofread documents to ensure clarity of meaning, accuracy and consistency of information
- problem-solving skills to deal with information which is contradictory, ambiguous, inconsistent or inadequate
- technology skills to select and use technology appropriate to a task
- research skills to identify and access information.

#### Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety (OHS)
- organisational record keeping/filing systems, security procedures and safe

**REQUIRED SKILLS AND KNOWLEDGE**

- recording practices
- organisational policies and procedures relating to distribution of workplace information, and legal and ethical obligations
- research processes and strategies to identify new sources (online and print) of information and to use them most efficiently and effectively.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- presenting information and data
- maintaining and handling data and documents systematically
- analysing and interpreting data to support organisational activities
- knowledge of research processes and strategies to identify new sources of information.

**Context of and specific resources for assessment**

Assessment must ensure:

- access to an actual workplace or simulated environment
- access to office equipment and resources
- examples of research tasks and resources.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate
- analysis of responses to case studies and scenarios
- demonstration of techniques
- observation of presentations
- review of documentation outlining recommendations and issues

| EVIDENCE GUIDE                             |                                                                                                                                                                                                                                                                       |
|--------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <ul style="list-style-type: none"> <li>• review of reports outlining research findings.</li> </ul>                                                                                                                                                                    |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• general administration units</li> <li>• IT use units</li> <li>• Governance units</li> </ul> |

## Range Statement

| RANGE STATEMENT                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## BSBCCO405A Survey stakeholders to gather and record information

### Modification History

| Release   | Comments                                                                            |
|-----------|-------------------------------------------------------------------------------------|
| Release 1 | This version first released with <i>BSB07 Business Training Package version 6.0</i> |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to survey stakeholders to gather and record information.

Competence in this unit requires preparing, undertaking and recording relevant and required details of information collected according to organisational, legislative and regulatory requirements. It also requires efficient use of relevant technology.

### Application of the Unit

This unit applies in environments where accurate and detailed records of contacts are a mandatory requirement of the role. This involves using interview recording technology.

This work is undertaken under supervision.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

Not applicable.

### Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

| Element                                                                  | Performance Criteria                                                                                                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements describe the essential outcomes of a unit of competency.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</i> |

## Elements and Performance Criteria

|                                                              |                                                                                                                                                                                                                                                                                                                                                                                                       |
|--------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Obtain, record and analyse information from the community | 1.1 Identify <b>information sources</b><br>1.2 Collect and record <b>information</b> according to organisational procedures and legislative and policy requirements<br>1.3 Collate, sort and analyse information collected in relation to the purpose for which it is being obtained<br>1.4 Ensure contents of <b>recording forms and reports</b> are in line with <b>organisational requirements</b> |
| 2. Take and compile statements                               | 2.1 Take <b>comprehensive statements</b> from sources appropriate to the matter being investigated according to organisational procedures and legislative and policy requirements<br>2.2 Use active listening when taking accurate statements from people                                                                                                                                             |
| 3. Conduct interviews                                        | 3.1 Plan, manage and conduct interviews to gather maximum amount of information relevant to the matter being examined<br>3.2 Treat all interviewees fairly and equitably<br>3.3 Conduct and record interviews according to legislation, policy and procedures                                                                                                                                         |
| 4. Use information and database systems                      | 4.1 Enter information into database, adhering to data entry security procedures<br>4.2 Identify and use appropriate sources of information when recording data<br>4.3 Access and store information according to legislation, policy and procedures                                                                                                                                                    |
| 5. Use interview and evidence recording equipment            | 5.1 Operate <b>recording equipment</b> according to legislation, policy and procedures<br>5.2 Produce <b>records</b> according to organisational requirements and                                                                                                                                                                                                                                     |

|                                                                      |                                                                                                                                                                                                                                                                        |
|----------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                      | procedures<br>5.3 Maintain equipment and usage logs in good order                                                                                                                                                                                                      |
| 6. Conduct follow-up activity with other members of the organisation | 6.1 Identify and use communication links within the organisation to exchange information<br>6.2 Assess the relevance of information received in terms of its intended purpose<br>6.3 Dispose of irrelevant information according to legislation, policy and procedures |

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- analytical skills to analyse information and data
- communication skills to:
  - articulate information, advice and instructions
  - question and listen in order to understand and resolve issues raised
- interpersonal skills to establish rapport and build relationships with stakeholders
- literacy skills to prepare and compile detailed statements and reports
- numeracy skills to analyse, record and store data according to organisational requirements
- planning and organising skills to manage own tasks within required timeframes
- self-management skills to:
  - comply with policies and procedures
  - seek learning and development opportunities.

### Required knowledge

- information types and their sources
- procedures and security measures for accessing, storing, retrieving and sharing data from databases
- rights of individuals in relation to the conduct of interviews and compilation of statements
- statutory, regulatory and legislative requirements relating to surveying stakeholders
- use of evidence and contact recording technology.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure access to:</p> <ul style="list-style-type: none"> <li>information and databases for analysis activities</li> <li>relevant legislation, standards and guidelines.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>direct questioning combined with review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate</li> <li>review of statements or recording of details of contacts</li> <li>review of compliance with statutory, regulatory, legislative and organisational requirements</li> <li>oral and/or written questioning to assess knowledge of interviewing techniques and outcomes</li> <li>oral and/or written questioning to assess knowledge of storage and disposal of information.</li> </ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|-------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|-----------|-------------------------------------------------------------------------------------|
| Release 1 | This version first released with <i>BSB07 Business Training Package version 6.0</i> |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to gather, collate and record information from a variety of sources, including database systems.

Competence in this unit requires preparing, undertaking and recording relevant and required details of information collected according to organisational, legislative and regulatory requirements. It also requires efficient use of relevant technology.

### Application of the Unit

This unit applies in environments where accurate and detailed records of contacts are a mandatory requirement of the role. This may or may not involve using interview recording technology.

This work is undertaken under supervision.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

Not applicable.

### Employability Skills Information

This unit contains employability skills.

### Elements and Performance Criteria Pre-Content

| Element | Performance Criteria |
|---------|----------------------|
|---------|----------------------|

| Element                                                                  | Performance Criteria                                                                                                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i>Elements describe the essential outcomes of a unit of competency.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</i> |

## Elements and Performance Criteria

|                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

Obtain, record and analyse information  | <p>1.1 Identify <b>information sources</b></p> <p>1.2 Collect and record <b>information</b> according to organisational procedures and legislative and policy requirements</p> <p>1.3 Collate and sort collected information in relation to the purpose for which it is being obtained</p> <p>1.4 Ensure contents of <b>recording forms and reports</b> used meet <b>organisational processes</b></p>                                                                                                                                                                                                                                                                          |
| 2. Reduce, describe and review information | <p>2.1 Identify information that is to be <b>analysed</b> and identify <b>analysis methodology</b> and <b>analysis processes</b></p> <p>2.2 Reduce and describe subject to support the development of interpretations</p> <p>2.3 Review the appropriateness of the <b>reduced information</b> according to organisational processes</p> <p>2.4 Archive information not used in the <b>reduction and description processes</b> for future reference</p>                                                                                                                                                                                                                         |
| 3. Develop inferences                      | <p>3.1 Test interpretations to review credibility and consistency</p> <p>3.2 Refine and consolidate interpretations to strengthen inferences drawn</p> <p>3.3 Formulate inferences from facts and tested interpretations, incorporating chain of reasoning to ensure transparency to clients and users</p> <p>3.4 Inform clients and users about assumptions in the arguments leading to inferences</p> <p>3.5 Assess and report the relationship between information developed and probable interpretations, ensuring validity and compliance with organisational guidelines</p> <p>3.6 Develop sound recommendations that inform users of intelligence analysis outcomes</p> |

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- analytical skills to analyse information and data
- communication skills to:
  - articulate information
  - provide advice and instructions
  - prepare and compile detailed statements and reports
  - use questioning and listening skills to understand and resolve issues raised
- numeracy skills to analyse, record and store data according to organisational requirements
- planning and organising skills to manage own tasks within required timeframes
- self-management skills to:
  - comply with policies and procedures
  - seek learning and development opportunities.

### Required knowledge

- information types and their sources
- procedures and security measures for accessing, storing, retrieving and sharing data from databases
- procedures for use of evidence and contact recording technology
- rights of individuals in relation to the conduct of interviews and statement compilation
- statutory, regulatory and legislative requirements relating to information collation.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|                                                                             |                                                                                                                                                                                              |

| <b>competency in this unit</b>                          | <ul style="list-style-type: none"> <li>analyse, interpret and summarise information and make recommendations based on the outcomes of the analysis</li> <li>demonstrate knowledge of statutory, regulatory and legislative requirements.</li> </ul>                                                                                                                                                                                                                                                                                                                                           |
| <b>Context of and specific resources for assessment</b> | <p>Assessment must ensure access to:</p> <ul style="list-style-type: none"> <li>information and databases for analysis activities</li> <li>relevant legislation, standards and guidelines.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                         |
| <b>Method of assessment</b>                             | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>direct questioning combined with review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate</li> <li>review of statements</li> <li>review of compliance with statutory, regulatory, legislative and organisational requirements</li> <li>oral and/or written questioning to assess knowledge of storage and disposal of information.</li> </ul> |
| <b>Guidance information for assessment</b>              | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                            |                                                                                                                                                                                                                                                                                                              |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

| ELEMENT                 | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                         | <p>decisions with participants</p> <p>3.3. Identify people and organisations responsible for actions</p> <p>3.4. Record decisions and recommended actions</p>                                                                                                                                                                                                                                                                                                   |
| 4. Communicate outcomes | <p>4.1. Share meeting outcomes with board, members and relevant others</p> <p>4.2. Encourage participants to use their networks to communicate information provided and decisions made at the meeting</p> <p>4.3. Follow up people and organisations identified as responsible for actions to ensure they understand what is required</p> <p>4.4. Report outcomes to participating Elders, community members and organisations through established channels</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication, teamwork and negotiation skills to work cooperatively with other board members, management and staff of the organisation, members, community and key stakeholders
- culturally appropriate communication skills to relate to people from diverse backgrounds and with diverse abilities
- leadership and networking skills to encourage participation and ensure meeting effectiveness
- negotiation and conflict-management skills to handle differences of opinion
- planning skills to increase participation and ensure protocols are followed
- facilitation and public-speaking skills to manage the meeting, present ideas and communicate effectively with the audience

#### Required knowledge

- community consultation methods
- concept of community control of organisations and how it may impact on the conduct of community meetings
- consensus decision-making principles

**REQUIRED SKILLS AND KNOWLEDGE**

- cultural context in which Aboriginal and Torres Strait Islander boards operate, including their role in upholding traditional and cultural values, and how that might impact on the conduct of community meetings
- decision-making strategies
- geographic, social, economic and political contexts in which particular organisations operate and how these may impact on the conduct of community meetings
- organisational policies and procedures relevant to community meetings
- provisions of federal, state or territory legislation and funding body requirements that influence decisionmaking
- relevant community bodies that might be included in community meetings
- relevant protocols and cultural responsibilities in relation to conducting community meetings

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the ability to:

- plan a community meeting to ensure participation of appropriate people
- conduct a community meeting that provides participants with an opportunity to share views
- put in place processes to inform appropriate people about what occurred at the meeting and the outcomes of proposed action.

**Context of and specific resources for assessment**

Assessment must ensure:

- participation in an actual or simulated community meeting
- access to examples of issues raised at community meetings
- meeting participants
- knowledge and performance are assessed over time to confirm consistency in performance.

**EVIDENCE GUIDE****Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of performance in a community meeting or simulated community meeting
- direct questioning combined with reflection of practical performance by the candidate
- analysis of responses to case studies and scenarios
- demonstration of techniques
- observation of presentations and group discussions
- oral or written questioning to assess knowledge
- observation of performance in role plays
- analysis of feedback from other board members, staff, community or other stakeholders regarding performance.

**Guidance information for assessment**

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- BSBATSIL512A Be a leader in the community.

**Range Statement****RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Appropriate people*** may include:

- Elders
- managers
- members
- staff
- traditional owners.

***Invited guests*** may include:

- Elders
- government representatives
- land councils
- members

| <b>RANGE STATEMENT</b>                   |                                                                                                                                                                                                                                                         |

| CHCICS408A Provide support to people with chronic disease | CHCICS408B Provide support to people with chronic disease | Unit updated in V4.<br>ISC upgrade changes to remove references to old OHS legislation and replace with references to new WHS legislation. No change to competency outcome. |

### Unit Descriptor

**Descriptor**

This unit describes the knowledge and skills required by workers to provide support and assistance to people who have a chronic disease

### Application of the Unit

**Application**

The skills and knowledge of this unit of competency will be applied as part of a comprehensive service aimed at promoting the well being and self management of well being by the client

The skills and knowledge may be applied in a range of settings, including, client's home, residential service, aged care setting, hospital, recreation, school, community agency, employment setting and community based service

The skills and knowledge are applied within defined roles and responsibilities

The word client may refer to the person receiving support, their family and/or supporters

## Licensing/Regulatory Information

## Pre-Requisites

Not Applicable

## Employability Skills Information

**Employability Skills** This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Provide support in a chronic disease self management context

- 1.1 Identify the client's *chronic disease conditions* and support plan
- 1.2 Identify impairments, activity limitations and/or participation restrictions that the client may experience due to the chronic disease
- 1.3 Seek information about the chronic disease and its possible impacts on client health, well being and ability to achieve maximum performance in life situations
- 1.4 Seek information from the client, supervisor and/or health professional in order to understand current client treatments, and other inputs and supports
- 1.5 Determine the level and type of support and assistance required according to the client, their support plan, worker roles and responsibilities and organisation policy and procedures
- 1.6 Actively involve the client in the development of

**ELEMENT****PERFORMANCE CRITERIA**

|                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

Provide support as part of a coordinated service approach | 3.1 Identify the level and type of contribution of health and community services agencies and professionals in supporting the person, including the role of general practitioner or other primary care provider<br>3.2 Identify the level and type of contribution to supporting the client made by family/care providers<br>3.3 Identify own communication role and requirements within the support system<br>3.4 Identify any variations to client's needs, health and/or emotional well being and make appropriate referral<br>3.5 Identify the appropriate communication and reporting processes within the client's support system<br>3.6 Identify <i>strategies for worker self care</i> |

**Required Skills and Knowledge**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include understanding of:

- Own work role and responsibilities
- Basic understanding of chronic diseases in relation to the impact on maintaining health and well being
- Some of the more common chronic diseases, including
  - Asthma
  - Cancer
  - Cardio vascular diseases
  - Chronic obstructive pulmonary disease
  - Diabetes
  - Haemoglobin disorders
  - HIV/AIDS
  - Mental illness, including depression
  - Musculoskeletal disorders
  - Obesity
  - Osteoarthritis, rheumatoid arthritis
  - Physical disabilities
  - Stroke
  - Viral hepatitis (Hepatitis C and Hepatitis B)
- Understanding the Continuum of Chronic Disease
- Understanding of models of chronic disease self management, including Stanford and Wagner
- Understanding of World Health Organisation model of chronic disease
- Life variables that have an impact on health and well being
- Social, emotional, physical, psychological and financial impacts of chronic disease
- Strategies to support the maintenance of positive life roles
- Strategies that enable the change of client behaviour over time
- Strategies that prevent chronic disease
- Stages of change, to establish readiness for attitudinal and behavioural change
- How to communicate effectively with a person with a chronic disease
- Possible impact on family dynamics as a result of a chronic disease
- Principles, practices and relevance of client focused practice in chronic disease self management
- Work health and safety (WHS), risk assessment and risk management relevant to the job role

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Follow organisation policies and protocols
- Support a client to identify options across a range of variables such as support and service requirements, access requirements, lifestyle options
- Observe changes in a client's condition and/or well being and report to appropriate health professional

- Use facilitation skills to foster client focused and strengths-based practice
- Liaise and report appropriately to supervisor and/or health professionals
- Adhere to own work role and responsibilities
- Identify and respond to risks associated with providing personal care
- Use appropriate communication strategies and tools
- Follow the relevant WHS guidelines

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply reading and writing skills required to fulfil work role in a safe manner and as specified by the organisation/service:
  - this requires a level of skill that enables the worker to follow work-related instructions and directions and the ability to seek clarification and comments from supervisors, clients and colleagues
  - industry work roles will require workers to possess a literacy level that will enable them to interpret international safety signs, read client's service delivery plans, make notations in clients records and complete workplace forms and records
- Apply oral communication skills required to fulfil work role in a safe manner and as specified by the organisation:
  - this requires a level of skill that enables the worker to follow work-related instructions and directions and the ability to seek clarification and comments from supervisors, clients and colleagues
  - industry work roles will require workers to possess oral communication skills that will enable them to ask questions, clarify understanding, recognise and interpret non-verbal cues, provide information and express encouragement
- Apply numeracy skills required to fulfil work role in a safe manner and as specified by the organisation:
  - industry work roles will require workers to be able to perform basic mathematical functions, such as addition and subtraction up to three digit numbers and multiplication and division of single and double-digit numbers
- Apply basic problem solving skills to resolve problems of limited difficulty within organisation protocols
- Work effectively with clients, colleagues and supervisors
- Demonstrate safe and effective use of workplace technology in line with WHS guidelines

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- It is recommended that assessment or information for assessment will be conducted or gathered over a period of time and cover the normal range of workplace situations and settings
- This unit will be most appropriately assessed in the workplace and under the normal range of workplace conditions
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to:
  - appropriate workplace where assessment can take place
  - relevant organisation policy, protocols and procedures
  - equipment and resources normally used in the workplace

*Method of assessment may*

- Observation in the workplace
- Written assignments/projects

*include:*

- Case study and scenario analysis
- Questioning
- Role play simulation

*Related units:*

This unit is recommended but not required to be assessed in conjunction with knowledge and skills addressed in related units:

- CHCICS406B Support client self management
- CHCISC407B Support positive lifestyle

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Chronic disease conditions may include:*

- Asthma
- Cancer
- Cardio vascular diseases
- Chronic obstructive pulmonary disease
- Depression
- Diabetes
- Haemoglobin disorders
- HIV/AIDS
- Obesity
- Osteoarthritis, rheumatoid arthritis
- Physical disabilities
- Stroke
- Viral hepatitis (Hepatitis C and Hepatitis B)

*Client variables may include:*

- Emotional status
- Financial status
- Fluctuation or recurrence of condition
- Health status
- Lifestyle needs and aspirations
- Psychological status
- Relationship status
- Stigma

*Appropriate referral may include:*

- Disability support workers
- Education sector
- Family member

- Work role may include:*
- Health and community professionals
  - Other services
  - Primary care health professional
  - Rehabilitation
  - Aged care worker
  - Allied health worker
  - Disability worker
  - Division 2 nurse
  - HACC worker
  - Mental health worker
  - Rehabilitation professional
- Strategies for worker self care may include:*
- Debriefing
  - Mentoring
  - Reflection
  - Self care

### Unit Descriptor

**Descriptor**

This unit describes the knowledge and skills required by workers to provide clients with the support required to plan, make, implement and sustain positive lifestyle options that will have a positive impact on their health and well being

### Application of the Unit

**Application**

The skills and knowledge of this unit of competency will be applied as part of a comprehensive service aimed at promoting and supporting client emotional and physical health and well being

The word client can be read to mean client and family

### Licensing/Regulatory Information

**ELEMENT**

positive lifestyle

**PERFORMANCE CRITERIA**

positive lifestyle options

3.2 Support client to develop strategies to reduce risks to sustaining positive lifestyle options

3.3 Support client to monitor their positive lifestyle options

3.4 Assist the client to evaluate the lifestyle options and source appropriate supports

**Required Skills and Knowledge**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include understanding of:

- Own work role and responsibilities
- Basic positive lifestyle issues, including the impact of diet, physical activity, exercise, life/work balance, alcohol, smoking, substance use and relationships
- Understanding of the importance to respect client choices and possible conflicts that could arise
- Rights and responsibilities within a human rights framework
- Work health and safety (WHS), risk assessment and risk management relevant to the job role
- Knowledge of the role of the worker within a person-centred approach
- Knowledge of resources and services that support positive lifestyle

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Follow organisation policies and protocols
- Use facilitation skills to foster client involvement in positive lifestyle decisions
- Liaise and report appropriately to supervisor and/or health professionals
- Adhere to own work role and responsibilities
- Identify and respond to risks associated with providing personal care
- Work within a human rights and person-centred framework

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of

the identified work role

These include the ability to:

- Apply reading and writing skills required to fulfil work role in a safe manner and as specified by the organisation/service:
  - this requires a level of skill that enables the worker to follow work-related instructions and directions and the ability to seek clarification and comments from supervisors, clients and colleagues
  - industry work roles will require workers to possess a literacy level that will enable them to interpret international safety signs, read client's service delivery plans, make notations in clients records and complete workplace forms and records
- Apply oral communication skills required to fulfil work role in a safe manner and as specified by the organisation:
  - this requires a level of skill that enables the worker to follow work-related instructions and directions and the ability to seek clarification and comments from supervisors, clients and colleagues
  - industry work roles will require workers to possess oral communication skills that will enable them to ask questions, clarify understanding, recognise and interpret non-verbal cues, provide information and express encouragement
- Apply numeracy skills required to fulfil work role in a safe manner and as specified by the organisation:
  - industry work roles will require workers to be able to perform basic mathematical functions, such as addition and subtraction up to three digit numbers and multiplication and division of single and double-digit numbers
- Apply basic problem solving skills to resolve problems of limited difficulty within organisation protocols
- Work effectively with clients, colleagues and supervisors
- Demonstrate safe and effective use of workplace technology in line with WHS guidelines

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- It is recommended that assessment or information for assessment will be conducted or gathered over a period of time and cover the normal range of workplace situations and settings
- This unit will be most appropriately assessed in the

- workplace and under the normal range of workplace conditions
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible
- Access and equity considerations:*
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
- Context of and specific resources for assessment:*
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
  - Resources required for assessment include access to:
    - appropriate workplace where assessment can take place
    - relevant organisation policy, protocols and procedures
    - equipment and resources normally used in the workplace
- Method of assessment may include:*
- Observation in the workplace
  - Written assignments/projects
  - Case study and scenario analysis
  - Questioning
  - Role play simulation

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work

situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Lifestyle issues may include:*

- Diet
- Exercise
- Work/life balance
- Alcohol
- Drugs and substances
- Smoking
- Side effects of prescribed medication

*Supports may include:*

- Financial
- Family
- Formal support networks
- Professional support, such as:
  - doctors
  - dieticians
  - physiotherapists
  - direct care workers
  - psychologists
  - psychiatrists
  - teachers

*Facilitate access to services and/or resources may include:*

- Friends
- Provision of information
- Formal referrals
- Supporting client to make contacts
- Assisting the client to attend sessions

*Health and emotional well being may include:*

- Identification to variations in health and emotional well being
- Referral to appropriate health and community professionals
- Reporting to the supervisor concerns/changes to client's health and well being
- Following the strategies identified in the client's support plan
- Identifying and reporting deficits in the client's support plan

### Unit Descriptor

#### Descriptor

This unit describes the knowledge and skills required by workers to provide clients with support and assistance to self-manage aspects of their life that may include planning, access and involvement in community services and decision-making

### Application of the Unit

#### Application

The skills and knowledge of this unit of competency will be applied as part of a comprehensive service aimed at promoting and supporting the independence and self-management of the client

The skills and knowledge may be applied in a range of settings, including, client's home, residential service, aged care setting, hospital, recreation, school, community agency, employment setting and community-based service

The word client may refer to the person receiving support, their family and/or supporters

## Employability Skills Information

**Employability Skills** This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Provide support in a client-focused manner

- 1.1 Support the client to develop processes and strategies that address the uniqueness of their psychological, biological, *social and emotional context*
- 1.2 Support the client to develop processes and strategies that address their capacity to access activities and services, within the context of client performance and possible capacity
- 1.3 Support the client to identify and acknowledge their interests, preferences and concerns
- 1.4 Support the client to access all information and options required to make informed choices and decisions
- 1.5 Support the client to determine positive and negative consequences, including *risks* and constraints, associated with different options and choices
- 1.6 Provide support in a manner that is in keeping

**ELEMENT****PERFORMANCE CRITERIA**

- with the client's individual needs and requirements
- 1.7 Provide support in a manner that is responsive to the individual circumstances and aspirations of the client and where necessary their carers and supporters
- 1.8 Where needed, work with supervisor to develop strategies to deal with client non-conformance
2. Provide strengths-based support
- 2.1 Support the client to identify and acknowledge their own strengths and self-care capacity
- 2.2 Support the client to identify opportunities to mobilise their strengths
- 2.3 Support the client to develop and trial solutions for presenting concerns and needs
- 2.4 Support the client to monitor the application of solutions to presenting concerns and needs
- 2.5 Provide support or assistance in the context of identified risks and constraints
- 2.6 Provide support or assistance for clients to access and use support services and associated resources where required and within organisation policies, protocols and procedures
- 2.7 Identify difficulties in meeting the client's needs with the client and a supervisor and address in line with organisation protocols
- 2.8 Maintain confidentiality, privacy and dignity of the client in line with organisation policy and protocols
3. Support the client to develop and/or maintain networks
- 3.1 Provide relevant support or assistance for the client to identify meaningful networks
- 3.2 Provide relevant support or assistance for the client to develop strategies to develop and/or maintain meaningful networks
4. Support positive coping skills and behaviours within a person-centred framework
- 4.1 Assist the client to identify their existing coping skills and behaviours that maximise participation in own life situation
- 4.2 Support the client to identify need for appropriate coping skills and behaviours to maximise their ability to do required activities within their own life situation
- 4.3 Support the client to identify coping skills likely to cause harm to the client or others

**ELEMENT****PERFORMANCE CRITERIA**

- |                                        |                                                                                                                                                                |
|----------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                        | 4.4. Support client to identify impact of coping skills and behaviours on themselves and others                                                                |
|                                        | 4.5. Provide information and support client to identify positive coping skills and behaviours                                                                  |
|                                        | 4.6. Support the client as required to make referrals to services to assist with the establishment and/or maintenance of positive coping skills and behaviours |
|                                        | 4.7. Support the client to implement and/or maintain positive coping skills and behaviours                                                                     |
| 5. Support service and resource access | 5.1. Work with client to identify needs that might benefit from referral to services and/or access to resources                                                |
|                                        | 5.2. Provide the client with information about how required services and/or resources can be accessed                                                          |
|                                        | 5.3. Support the client to access required services and/or resources                                                                                           |
|                                        | 5.4. Support the client to monitor service effectiveness and/or resource appropriateness                                                                       |
|                                        | 5.5. Support the client to access advocacy services where required to maintain integrity and efficacy of required services                                     |

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include understanding of:

- Own work role and responsibilities
- Client-centred philosophy and practices
- Empowerment and rights-based practices
- Strengths-based philosophy and practices
- Self-management in the context of a client with cognitive impairment
- Processes and strategies to support people to make informed choices and decisions
- Different cultural responses to chronic disease

- Risk analysis strategies and processes
- Work health and safety (WHS), risk assessment and risk management relevant to the job role
- Role of the worker within a human rights perspective

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Follow organisation policies and protocols
- Support a client to identify options across a range of variables such as support and service requirements, access requirements and lifestyle options
- Use facilitation skills to foster client-focused and strengths-based practice
- Liaise and report appropriately to supervisor and/or health professionals
- Adhere to own work role and responsibilities
- Identify and respond to risks for client, carer and worker associated with providing personal care
- Use appropriate communication strategies and tools
- Follow relevant WHS guidelines
- Work within a person-centred practice framework

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply reading and writing skills required to fulfil work role in a safe manner and as specified by the organisation/service:
  - this requires a level of skill that enables the worker to follow work-related instructions and directions and the ability to seek clarification and comments from supervisors, clients and colleagues
  - industry work roles will require workers to possess a literacy level that will enable them to interpret international safety signs, read client's service delivery plans, make notations in clients records and complete workplace forms and records
- Apply oral communication skills required to fulfil work role in a safe manner and as specified by the organisation:
  - this requires a level of skill that enables the worker to follow work-related instructions and directions and the ability to seek clarification and comments from supervisors, clients and colleagues
  - industry work roles will require workers to possess oral communication skills that will enable them to ask questions, clarify understanding, recognise and interpret non-verbal cues, provide information and express encouragement
- Apply numeracy skills required to fulfil work role in a safe manner and as specified by the organisation:
  - industry work roles will require workers to be able to perform basic mathematical functions, such as addition and subtraction up to three digit numbers and

- multiplication and division of single and double-digit numbers
- Apply basic problem solving skills to resolve problems of limited difficulty within organisation protocols
- Work effectively with clients, colleagues and supervisors
- Demonstrate safe and effective use of workplace technology in line with WHS and manual handling guidelines relevant to the jurisdiction and workplace

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- It is recommended that assessment or information for assessment will be conducted or gathered over a period of time and cover the normal range of workplace situations and settings
- This unit will be most appropriately assessed in the workplace and under the normal range of workplace conditions
- Where, for reasons of safety, space, confidentiality or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in culturally and linguistically diverse (CALD) environments
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to:
  - appropriate workplace where assessment can take place
  - relevant organisation policy, protocols and procedures
  - equipment and resources normally used in the workplace

*Method of assessment may include:*

- Observation in the workplace
- Written assignments/projects
- Case study and scenario analysis
- Questioning
- Role play simulation

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Social and emotional context may include:*

- Motivation
- Individual and community beliefs, values and culture
- Language
- Pain
- Fear
- Family context
- Support mechanisms
- Isolation

*Capabilities and constraints may include:*

- Financial
- Transport
- Knowledge /information
- Language
- Cultural
- Communication

*Risks may include:*

- Emotional
- Psychological
- Health

*Strategies for worker self care may include:*

- Physical
- Security
- Financial
- Risk to self
- Risk to others
- Mentoring
- Debriefing
- Self care
- Reflection

|                                          | 4.2 Monitor, record and report progress against the plan of care according to organisation guidelines                                                                               |
|                                          | 4.3 Negotiate revised action plans and timelines and write into the plan of care as needed                                                                                          |
|                                          | 4.4 Negotiate <i>client exit</i> from the program with the client and provide support in accordance with organisation policies and available resources                              |
|                                          | 4.5 Review <i>outcomes</i> of client work with supervisor and /or colleagues in accordance with organisation policies and procedures                                                |
| 5. Evaluate work undertaken with clients | 5.1 Review <i>outcomes of client work against care plan</i> goals and document in accordance with organisation policies and procedures                                              |
|                                          | 5.2 Discuss <i>outcomes</i> with clients and appropriate persons inside or outside the organisation and document in accordance with organisation policies and procedures            |
|                                          | 5.3 Put in place processes to ensure feedback from supervisors, clients and other workers and reflection on own practices are incorporated in work activities and services provided |
|                                          | 5.4 Identify professional development needs and options and access to ensure ongoing competence                                                                                     |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

## REQUIRED SKILLS AND KNOWLEDGE

These include knowledge of:

- Legal and organisation knowledge, including:
  - legal and organisation requirements for client registration, allocation and referral
  - organisation policies on reporting and confidentiality
  - organisation policies and procedures for documenting work with clients
  - understanding agency role, agency target group and the impacts on the local community
  - range of alcohol and other drugs specific treatment intervention options including detoxification, inpatient treatment programs, outpatient treatment services, and brief interventions
- Effects of alcohol and other drugs use, including:
  - signs and symptoms of medical risk associated with alcohol and other drugs use
  - stages and symptoms of alcohol and other drugs withdrawal
  - basic health issues relating to alcohol and/or other drugs use - e.g. malnutrition, blood borne diseases, skin infestations, effects of drug use on health, cognitive, social, emotional development and impact on others
  - basic pharmacology - types of drugs; dose levels; effects of specific drugs; tolerance; treatment approaches broadly
  - the effects of alcohol related brain injury
  - consequences and effects of drug substitution/replacement
  - effects of prescribed drugs on the use of other drugs
  - patterns of drug use in Australia and the local community
  - range of use and use scenarios e.g. lifestyle context of illegal drug use
- Complexity of poly drug use, including:
  - medical
  - physiological
  - knowledge
- Indicators of other issues, including:
  - mental health issues
  - homelessness
  - financial issues
  - domestic issues
  - employment issues
  - disability issues
  - gender identification issues
  - post traumatic stress disorder - Vietnam veteran
  - children of Vietnam veteran

*continued ...*

## REQUIRED SKILLS AND KNOWLEDGE

### *Essential knowledge (contd):*

- Legal issues, including:
  - legal status of drugs
  - legal issues surrounding alcohol and other drugs use
- Policy issues, including:
  - public health model - interaction of impact of drugs, individual and the environment
  - harm minimisation including a range of approaches: prevention, early intervention, abstinence, specialist treatment, supply control and safer drug use
- Working with clients, including:
  - common relapse precipitants
  - a range of strategies for working with clients
  - strategies to promote participation in programs
  - range of cultural contexts - lifestyle, set of beliefs, customs
  - client empowerment/disempowerment
  - rights of workers and clients
  - different lifestyles
  - self-esteem, abuse issues, self-awareness, own biases, ethical obligations re: helping relationships
  - types of counselling e.g. motivational interviewing, brief and intensive intervention, relapse prevention
  - medical approaches to treatment for drug use
  - nature and approaches of therapeutic communities
  - protocols around use of interpreters
  - person-centred approach
  - case management principles
- Working with clients at risk of self-harm, including:
  - suicidal or self-harming behaviour, ideation or intention
  - no-suicide contracts and other protective strategies
  - links between predisposing factors for self-harm, drug use and mental health problems
  - legal and ethical obligations regarding clients at risk of self-harm or with mental illnesses

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Where jurisdiction and job role mandate, demonstrate first aid certification or equivalent

## REQUIRED SKILLS AND KNOWLEDGE

skills (as per unit *HLTF311A Apply first aid*) including:

- cardio pulmonary resuscitation (CPR)
- bandaging
- managing toxic substances
- managing bleeding
- managing broken bones
- managing consciousness
- managing choking and knowledge of coma positions
- Where jurisdiction and job role mandate, work with clients in a range of settings e.g. residential, in community settings and outreach work
- Work with clients with coexisting issues such as mental health, child abuse
- Work collaboratively with clients to address their issues
- Refer the client to health professionals immediately the client needs exceeds the responsibility and capacity of the worker or in an emergency situation
- Identify coexisting issues such as mental health issues and
- Identify and address child protection issues that will effect work with the client

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Establish rapport
- Apply active listening skills, including questioning
- Interpret verbal and non-verbal communication
- Work with a range of clients
- Contract with clients
- Demonstrate application of skills in:
  - conflict resolution
  - negotiation
  - crisis intervention
  - protective intervention
  - advocacy
  - networking and liaison with other agencies
  - identification of support structures
- Maintain documentation as required, including effective use of relevant information technology in line with work health and safety (WHS) guidelines

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills  
In addition, this competency should be assessed in the context of the particular workplace client group
- This unit of competence will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions  
Some theoretical knowledge may be assessed by formal testing e.g. suicide risk assessment
- Assessment must include the normal range of workplace situations

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to a workplace or simulated workplace where assessment may occur

## EVIDENCE GUIDE

### *Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

### *Related units:*

Depending on jurisdiction and job role, assessment of this unit of competency **may be** required in conjunction with:

- HLTFA311A Apply first aid  
or
- HLTFA412A Apply advanced first aid

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *Targeted services (i.e. specific to alcohol and/or other drugs use) may include:*

- Detoxification
- Inpatient counselling
- Outpatient counselling

## RANGE STATEMENT

- Self-help groups
  - Proclaimed place, rehabilitation centres, residential
  - Sobering up units
  - Services which provide consumables e.g. syringes, thiamine, needle exchange,
  - Drug substitution/replacement services e.g. methadone, bupranorphine, naltrexone
  - Therapeutic communities
- Other services include:*
- Accommodation
  - Emergency services
  - Mental health services
  - Financial assistance
  - Health professionals
  - Counselling
  - Employment support
- Strategies to develop effective working relationships*
- Verbal communication styles
  - Plan areas to be addressed, approaches to be taken and special considerations
  - Planning to address contingencies
  - Implementing appropriate cultural approaches
- Relapse prevention strategies may include:*
- Identification of drug use 'triggers' and working with the client to develop responses to deal with triggers
  - Referral to self help groups
  - Stress management advice
  - Ongoing positive support
  - Monitoring of the client's progress
  - Facilitating use of community resources
  - Encouraging client to develop a support network
  - Role play
  - Discussion of strategies for stress management, money management, goal setting, prioritising, problem solving, decision-making, disengagement
- Review refers to:*
- A short term formative analysis of client progress
  - Reviewing strategies

## RANGE STATEMENT

- Standards against which a review can occur
- Client exit (negotiation of with the client) will depend on the organisation policies and procedures and the individual clients needs and may include:
  - Negotiation of contract with client
  - Providing information on what the client may expect when they leave
  - Providing follow up
  - Ending the client/worker relationship
  - Ensuring personal safety of clients at risk of self-harm including availability of ongoing supports from appropriate agencies
  - Access to harm reduction consumables e.g. Needles, syringes, and needle exchange programs
- Client exit (organisation requirements) may include:
  - Client questionnaire
  - Documentation including reason for exit and condition of client at exit
  - Organisation's documentation on treatment/assessment progress
- Supporting a client to make contact with other services may include:
  - Making an appointment for the client
  - Accompanying client to first appointment
  - Organising for another appropriate person to accompany the client to an appointment
  - Organising interpreter services for the client
- Other services include:
  - Centrelink
  - Accommodation
  - Emergency services
  - Mental health services
- Follow up will depend on the organisation's policies and procedures and the client needs and may include:
  - Obtaining feedback and reports on outcomes of referrals from other agency in accordance with organisation policies and procedures including those referring to client confidentiality
  - Checking protective support for suicide risk is available if required
  - Making an appointment for follow up
  - Contact with client at referral agency

## RANGE STATEMENT

- Liaison between alcohol and other drugs worker and other services

*Outcomes may include:*

- Measurement of harm minimisation
- Changes made during intervention and changes sustained over time
- Those negotiated with the client as part of a management plan
- Referral and acceptance to another treatment program or half-way house
- Both positive and negative outcomes
- Linkage with appropriate services
- Client being moved from institution or service
- Client changes - behaviour, attitudinal

*Review outcomes of client work against care plan may be:*

- Within the organisation
- In consultation with other agencies

Amended related unit HLTF311A and HLTF412A. No change to competency outcome. |

### Unit Descriptor

#### Descriptor

This unit describes the knowledge and skills required to provide support and assistance to people going through the process of withdrawing from alcohol, tobacco or other drugs, including combinations of these

### Application of the Unit

#### Application

Withdrawal services may be non-medical or provide pharmacological relief under relevant legislative guidelines

Services may be residential or home-based

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Check needs of clients

- 1.1 Question client to ascertain substance/s used, duration of use, average daily intake, time and amount of last dose and how the drug/s was administered
- 1.2 Report behaviour or physical status inconsistent with alcohol and/or other drug (AOD) use to the appropriate person and/or seek assistance
- 1.3 Provide or seek medical or emergency assistance as appropriate and in accordance with organisation policies and procedures
- 1.4 Assess client to determine if they meet organisation mission criteria and have been referred appropriately

#### 2. Support management of withdrawal

- 2.1 Select/provide an *appropriate environment* within which AOD withdrawal is to take place in accordance with organisation policy and procedure
- 2.2 Monitor client's physical state regularly in accordance with policies and legislation to ensure health and safety
- 2.3 Monitor client's fluid and nutrition intake in accordance with organisation policies and procedures and under appropriate professional supervision
- 2.4 Provide client with *support services* in accordance

**ELEMENT****PERFORMANCE CRITERIA**

with organisation policies and procedures

2.5 Document signs of concurrent illness and refer to the appropriate person or medical officer

2.6 Document services provided to client in accordance with organisation and legislative requirements

2.7 Undertake consultation with medical officer in accordance with organisation policies and procedures and relevant legislation

3. Evaluate client withdrawal

3.1 Discuss outcomes with client and appropriate persons in the organisation

3.2 Assess and document outcomes of client drug withdrawal in accordance with organisation policies and procedures

4. Assist clients with ongoing harm minimisation

4.1 Provide client with relevant and current information on AOD and related issues and discuss

4.2 Discuss *harm minimisation strategies* for AOD use with client

4.3 Assist client to contact and use self-help and other services

4.4 Provide follow up in accordance with organisation policies and available resources

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

## REQUIRED SKILLS AND KNOWLEDGE

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Organisation protocols for residential withdrawal and any restrictions on clients, such as contact with family and friends and curfews
- Organisation protocols for home-based withdrawal such as home environment supportive of withdrawal outcomes
- Signs and symptoms of AOD withdrawal
- Stages of withdrawal signs and symptoms
- Concurrent medical illnesses which may mimic/mask withdrawal
- Responses to the stages of withdrawal such as referral to hospital, massage and relaxation tapes
- Backup resources such as access to medical officer and access to hospital
- Strategies for self-protection
- Strategies for dealing with aggressive clients
- Other agencies and services provided
- Recent and relevant information on AOD issues

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate first aid certification or equivalent skills (as per unit *HLTF311A Apply first aid*) including:
  - cardio pulmonary resuscitation (CPR)
  - bandaging
  - managing toxic substances
  - managing bleeding
  - managing broken bones
  - managing consciousness
  - managing choking and knowledge of coma positions
- Apply relevant organisation and legislative protocols and procedures for the provision of withdrawal services
- Work with clients in a manner that ensures personal safety and that of others

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

## REQUIRED SKILLS AND KNOWLEDGE

These include the ability to:

- Maintain a calm and reassuring manner
- Demonstrate application of skills in:
  - conflict resolution
  - self-protection
- Maintain documentation as required, including effective use of relevant information technology in line with work health and safety (WHS) guidelines

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Competency must be demonstrated in a real work environment
- Competence in this unit must be assessed over a period of time in order to ensure consistency of performance across contexts applicable to the work environment
- Consistency in performance should consider the work environment, worker's role and responsibilities in the workplace

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally and linguistically diverse (CALD) environments
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait

## EVIDENCE GUIDE

Islander people

- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- Assessment of this competency will require human resources consistent with those outlined in the Assessment Guidelines
- Resources required for assessment include access to:
  - resources required for first aid certification or equivalent skills
  - an appropriate workplace environment where assessment can take place
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios

*Method of assessment:*

- Assessment of this unit of competency will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

*Related units:*

This unit of competency is recommended to be assessed in conjunction with a first aid unit

Depending on jurisdiction and job role, this may be:

- HLTFA311A Apply first aid  
or
- HLTFA412A Apply advanced first aid

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

- |                                                                             |                                                                                                                                                                                                                                                                                                                            |

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Prepare for *assessment*

1.1 Conduct discussions with the client to identify reasons for seeking help and *other related information* that may assist in establishing a basis for further work

1.2 Explain to *client* organisation parameters of confidentiality and policy/procedures

1.3 Inform the client of the purpose and process of the assessment

1.4 Confirm the client's understanding of the purpose and process of assessment

#### 2. Conduct assessment

2.1 Take *client's drug use history* in accordance with organisation policies and procedures

2.2 Identify and clarify any previously identified co-morbidity / dual diagnosis in consultation with relevant health or community services professionals

2.3 Assess the *current status of the client* using standardised AOD screens and from discussion with client

2.4 Use established assessment procedures and protocols to identify issues related to client health in collaboration with relevant health professional as

- |                                                |      |                                                                                                                                                   |
|------------------------------------------------|------|---------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                | 2.5  | Assess patterns of use with established assessment procedures and protocols                                                                       |
|                                                | 2.6  | Assess level of dependence with established assessment procedures and protocols                                                                   |
|                                                | 2.7  | Identify <i>indicators of other issues</i> that may affect work with the client through observation and questioning                               |
|                                                | 2.8  | Provide a suitable and comfortable environment for the assessment                                                                                 |
|                                                | 2.9  | Comply with the guidelines when conducting the assessment                                                                                         |
|                                                | 2.10 | Conduct assessment in a fair manner                                                                                                               |
| 3. Identify and respond to need for referral   | 3.1  | Identify client issues that are outside the scope of the service and/or the scope of the worker                                                   |
|                                                | 3.2  | Identify <i>appropriate service and other support options</i>                                                                                     |
|                                                | 3.3  | Inform the client of possible options                                                                                                             |
|                                                | 3.4  | Inform the client of the reasons for seeking other service and support options                                                                    |
|                                                | 3.5  | Confirm the client's understanding of options                                                                                                     |
|                                                | 3.6  | Work with the client to determine referral options and responsibilities                                                                           |
|                                                | 3.7  | Where appropriate, make referral with client consent and within organisation policy and procedures                                                |
| 4. Interpret and report on assessment results  | 4.1  | Record assessment results according to defined guidelines                                                                                         |
|                                                | 4.2  | Interpret assessment results according to defined guidelines                                                                                      |
|                                                | 4.3  | Apply organisation criteria to determine entry or exclusion to services                                                                           |
|                                                | 4.4  | Prepare assessment report based on guidelines and organisation policy and procedures                                                              |
| 5. Provide assessment feedback and information | 5.1  | Provide feedback to the person according to organisation policy and procedure                                                                     |
|                                                | 5.2  | Provide assessment information to others, including relevant health and/or community services professionals according to consent requirements and |

**ELEMENT****PERFORMANCE CRITERIA**

organisation policy and procedure

## **Required Skills and Knowledge**

### **REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Aspects of working with clients, including:
  - common relapse precipitants
  - a range of strategies for working with clients
  - case management principles
  - client empowerment/disempowerment
  - client-centred approach
  - different lifestyles
  - protocols around use of interpreters
  - range of cultural contexts (e.g. lifestyle, set of beliefs and customs)
  - rights of workers and clients
  - self-esteem, abuse issues, self-awareness, own biases, ethical obligations relating to helping relationships
  - strategies to promote participation in programs
  - types of counselling (e.g. motivational interviewing, brief and intensive intervention, and relapse prevention)
- Co-morbidity issues relating to assessment of people with AOD issues
- Effects of AOD use, including:
  - basic health issues relating to AOD use (e.g. malnutrition, blood borne diseases, skin infestations, effects of drug use on health, cognitive, social, emotional development and impact on others)
  - basic pharmacology (e.g. types of drugs, dose levels, effects of specific drugs, tolerance, and treatment approaches broadly)

## REQUIRED SKILLS AND KNOWLEDGE

- consequences and effects of drug substitution/replacement
- effects of prescribed drugs on the use of other drugs
- patterns of drug use in Australia and the local community
- range of use and use scenarios (e.g. lifestyle context of illegal drug use)
- signs and symptoms of medical risk associated with AOD use
- stages and symptoms of AOD withdrawal
- the effects of alcohol-related brain injury
- Established processes and protocols for determining:
  - health status
  - length of dependence
  - level of dependence
  - patterns of use
- Legal and organisation knowledge, including:
  - legal and organisation requirements for client registration, allocation and referral
  - organisation policies and procedures for documenting work with clients
  - organisation policies on reporting and confidentiality
  - range of AOD specific treatment intervention options, including detoxification, inpatient treatment programs, outpatient treatment services and brief interventions
  - understanding agency role, agency target group and the impacts on the local community
- Legal issues, including:
  - legal issues surrounding AOD use
  - legal status of drugs
- Policy issues, including:
  - harm minimisation, including a range of approaches (e.g. prevention, early intervention, abstinence, specialist treatment, supply control and safer drug use)
  - public health model (e.g. interaction of impact of drugs, individual and the environment)
- Risk management in relation to interventions for people with AOD and co-morbidity issues
- Theoretical frameworks about motivation to change AOD use
- Working with clients at risk of self-harm, including:
  - legal and ethical obligations regarding clients at risk of self-harm or with mental illnesses
  - links between predisposing factors for self-harm, drug use and mental health problems
  - no-suicide contracts and other protective strategies
  - suicidal or self-harming behaviour, ideation or intention

## REQUIRED SKILLS AND KNOWLEDGE

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Conduct assessments using established processes and protocols
- Work with clients:
  - with a range of issues
  - in a range of settings
  - from different cultural backgrounds
  - in a non-judgemental way
  - in emergency situations

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate first aid certification or equivalent skills (as per unit *HLTFA311A Apply first aid*) including:
  - cardio pulmonary resuscitation (CPR)
  - bandaging
  - managing toxic substances
  - managing bleeding
  - managing broken bones
  - managing consciousness
  - managing choking and knowledge of coma positions
- Establish rapport
- Use active listening including questioning
- Interpret verbal and non-verbal communication
- Work with a range of clients
- Contract with clients
- Demonstrate application of skills in:
  - conflict resolution
  - negotiation
  - crisis intervention
  - protective intervention
  - advocacy
  - networking and liaison with other agencies
  - identification of support structures
- Maintain documentation as required, including effective use of relevant information technology in line with work health and safety (WHS) guidelines

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Competency must be demonstrated in a real work environment
- Competence in this unit must be assessed over a period of time in order to ensure consistency of performance across contexts applicable to the work environment
- Consistency in performance should consider the work environment, worker's role and responsibilities in the workplace

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally and linguistically diverse (CALD) environments
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- Assessment of this competency will require human resources consistent with those outlined in the Assessment Guidelines
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios

## EVIDENCE GUIDE

### *Method of assessment:*

- Assessment of this unit of competency will usually include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

### *Related units:*

This unit of competency is recommended to be assessed in conjunction with a first aid unit

Depending on jurisdiction and job role, this may be:

- HLTFA311A Apply first aid  
or
- HLTFA412A Apply advanced first aid

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *Clients include:*

- Families and personal network of the client

### *Assessment may take place:*

- Face-to-face
- By telephone

### *Other related information may include:*

- Co-morbidity (dual diagnosis) issues related to physical/sensory/intellectual/psychiatric disabilities
- Developmental issues

## RANGE STATEMENT

|                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|-----------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                                   | <ul style="list-style-type: none"><li>• Doctor's or other professional's reports</li><li>• Information provided by family or support network</li><li>• Information related to legal issues for persons under court/protective/statutory orders</li><li>• That provided by other services via referral</li><li>• Trauma issues, for example, for survivors of domestic violence, abuse, neglect or sexual assault</li></ul>                       |
| <i>Current status of the client includes:</i>                                     | <ul style="list-style-type: none"><li>• Determining readiness to change</li><li>• Physical, emotional, financial, legal and psychosocial state and immediate needs in these areas</li><li>• Other drug use in the family</li><li>• Level of risk of deliberate self-harm behaviours and/or harm to others</li><li>• Levels of risk behaviour associated with AOD use including behaviours which expose clients to blood borne diseases</li></ul> |
| <i>Indicators of other issues may include:</i>                                    | <ul style="list-style-type: none"><li>• A history of mental health issues</li><li>• Indicators of abuse, neglect or harm including self-harm</li><li>• Indicators of child abuse</li><li>• Having no accommodation, employment or money</li></ul>                                                                                                                                                                                                |
| <i>Options for meeting the range of client needs may include:</i>                 | <ul style="list-style-type: none"><li>• Referral to other services</li><li>• Community intervention</li></ul>                                                                                                                                                                                                                                                                                                                                    |
| <i>Client's drug use history refers to collection of relevant information on:</i> | <ul style="list-style-type: none"><li>• Name, age, gender, and so on</li><li>• Drug history</li><li>• Social and legal history</li><li>• Current status including housing status</li><li>• Agency ability to cater for the client needs</li><li>• Mental health issues</li><li>• Other relevant related issues affecting clients</li></ul>                                                                                                       |
| <i>Early or short-term programs refers to:</i>                                    | <ul style="list-style-type: none"><li>• Less intensive, shorter term activities that are an alternative to longer and more intensive programs.</li></ul>                                                                                                                                                                                                                                                                                         |

## RANGE STATEMENT

These brief interventions carried out by a range of workers, often opportunistically, are usually offered to those individuals who are less severely drug dependent

*Current information on related issues includes information on:*

- Meeting physical, emotional, financial and social needs
- Contacts for self-help groups
- Resources on dependency
- Resources on alcohol and other drugs issues for families or personal network
- Advocacy groups
- Information regarding mental health and self-harm
- Crisis and emergency contacts

*Goals and action plans may be short and long term and should include:*

- Harm minimisation (including abstinence, controlled drinking, safer sex, safer drug use, safe injecting)
- Strategies to target reducing at risk behaviours

*Goals and action plans may include:*

- Vocational goals (employment and training)
- Accommodation
- Meeting immediate physical needs
- Maintenance of stable social and emotional environment
- Reintegration within social context
- Ensuring personal safety
- Management of crisis
- Timelines and priorities

*Relapse prevention strategies may include:*

- Identification of drug use 'triggers' and working with the client to develop responses to deal with triggers
- Referral to self help groups
- Stress management advice
- Ongoing positive support
- Monitoring of the client's progress
- Facilitating use of community resources
- Encouraging client to develop a support network
- Role play

## RANGE STATEMENT

|                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- analytical skills to classify and report information
- literacy skills to read and understand a variety of texts; and to write, edit and proofread documents to ensure clarity of meaning, accuracy and consistency of information
- problem-solving skills to deal with information which is contradictory, ambiguous, inconsistent or inadequate
- technology skills to display information in a format suitable to the target audience.

#### Required knowledge

- key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  - anti-discrimination
  - ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety (OHS)
- organisational policies and procedures for knowledge management
- other relevant organisational policies and procedures, for example:
  - commercial confidentiality.
  - customer service
  - information management
- records management.

## Evidence Guide

| <b>EVIDENCE GUIDE</b>                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| <b>Context of and specific resources for assessment</b>                                                                                                                                                                | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to an actual workplace or simulated environment</li> <li>• access to office equipment and resources</li> <li>• examples of information documents found in the workplace</li> <li>• access to system (within privacy and confidentiality provisions).</li> </ul>                                                                                                                                                                                                           |
| <b>Method of assessment</b>                                                                                                                                                                                            | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• review of documentation outlining learning resulting from the use of the system</li> <li>• analysis of responses to case studies and scenarios</li> <li>• demonstration of techniques.</li> </ul> |
| <b>Guidance information for assessment</b>                                                                                                                                                                             | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• general administration units</li> <li>• other information management units.</li> </ul>                                                                                                                                                                                                                                                                                         |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

|                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| Release 1 | <p>This version first released with <i>BSB07 Business Training Package version 6.0</i></p> <p>Revised unit. Required skills updated to focus on learning and development practices and compliance with policy and procedures. Use of database management system (DBMS) to control data access, enforce data integrity, manage concurrency, and access information incorporated into the performance criteria in line with the customer contact industry's escalated use of technology. Critical aspects reviewed to succinctly address the essence of the unit.</p> <p>Replaces BSBCCO301A Use multiple information systems</p> |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to use multiple information systems to research information and records, and to maintain up-to-date customer information. This may involve navigation between information systems using multiple windows and the maintenance of systems data while interacting with a customer.

Competence in this unit requires proficiency in the use of systems to analyse, research and resolve customer enquiries. It also requires basic troubleshooting skills to identify and report on issues that may arise with systems.

### Application of the Unit

This unit applies in customer contact environments where use of multiple information systems is required to resolve customer enquiries or complaints.

This work is undertaken with some supervision and guidance.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

## Pre-Requisites

Not applicable.

## Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

| Element                                                                  | Performance Criteria                                                                                                                                                                                                                                                                                                    |

| <i>Elements describe the essential outcomes of a unit of competency.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.</i> |

## Elements and Performance Criteria

|                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|--------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Access a range of information systems                           | 1.1 Efficiently <b>log on</b> to <b>information systems</b><br>1.2 Navigate screens efficiently to locate displays and information relevant to role<br>1.3 Use a database management system (DBMS) to control data access, enforce data integrity, manage concurrency, and access information<br>1.4 <b>Manage use of information systems</b> efficiently according to organisational requirements                                                                                                                                                                       |
| 2. Process customer information using multiple information systems | 2.1 Analyse <b>customer</b> enquiry to identify <b>information</b> needs<br>2.2 Identify information systems required to satisfy information needs<br>2.3 Use information systems according to organisational processes to complete customer enquiry or transaction<br>2.4 Record customer information in information systems to complete customer enquiry or transaction<br>2.5 Use the shortest reasonable pathways to navigate between and within information systems<br>2.6 Maintain contact and communication with the customer while operating information systems |

|                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                  | 2.7 Verify information with customer to complete transaction                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 3. Identify and rectify information system and processing errors | <p>3.1 Identify <b>errors</b> in information system, relevant to role</p> <p>3.2 Analyse errors for their impact on information system and customers</p> <p>3.3 Identify source of errors, where possible</p> <p>3.4 Consult with <b>stakeholders</b> to identify actions to rectify errors</p> <p>3.5 Arrange rectification and confirm that amendments are accurate</p> <p>3.6 Inform customers of errors and take necessary action</p> <p>3.7 Identify information system faults and notify relevant personnel according to policy</p> <p>3.8 Recommend procedural change according to policy</p> |

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- analytical skills to research, identify and use information effectively
- communication skills to maintain effective customer contact while using information systems
- interpersonal skills to establish rapport and build relationships with customers
- literacy skills to read, interpret and record information
- numeracy skills to read, validate and calculate data and information
- problem-solving skills to analyse and resolve issues with information systems
- self-management skills to:
  - comply with policies and procedures
  - seek learning and development opportunities
- technology skills to use organisational information systems.

### Required knowledge

- computer and system troubleshooting principles
- enterprise business systems and operating platforms relevant to role
- enterprise policies, procedures and guidelines regarding the use and security of information systems
- social networking websites, including Facebook and Myspace
- escalation process for reporting information technology issues.

## Evidence Guide

*The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the ability to:</p> <ul style="list-style-type: none"><li>• apply checks to ensure data is captured and errors are rectified according to established procedures</li><li>• demonstrate knowledge of enterprise policies, procedures and guidelines regarding the use and security of information systems</li><li>• navigate systems to locate required information.</li></ul>                                                                                                                                                                                                                                                                               |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure access to:</p> <ul style="list-style-type: none"><li>• relevant standards and guidelines for use of systems</li><li>• workplace information and data</li><li>• quality assurance and system user error reports</li><li>• troubleshooting reports and escalation reports</li><li>• work environment to observe operation of systems.</li></ul>                                                                                                                                                                                                                                                                                                    |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"><li>• direct questioning combined with review of portfolios of evidence and third-party workplace reports of on-the-job performance by the candidate</li><li>• direct observation of use of systems</li><li>• review of data entry</li><li>• feedback from quality assurance program</li><li>• review of performance management reports</li><li>• oral and/or written questioning to assess knowledge of systems and organisational security and operational requirements.</li></ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                                                     |                                                                                                                                                                                                                                                                                                                      |
|---------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><i>Log on</i></b> may include:                                   | <ul style="list-style-type: none"> <li>• complying with information technology security protocols</li> <li>• logging into telephone system</li> <li>• opening most frequently used applications</li> <li>• turning on computer equipment</li> <li>• username and passwords to access information systems.</li> </ul> |
| <b><i>Information systems</i></b> may include:                      | <ul style="list-style-type: none"> <li>• billing systems</li> <li>• databases</li> <li>• internet</li> <li>• intranet</li> <li>• telephone systems.</li> </ul>                                                                                                                                                       |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                         | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                              |
|-------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Assess technology needs                      | 1.1. Identify organisational tasks that could be helped by <b><i>technology</i></b><br>1.2. Undertake a cost-benefit analysis<br>1.3. Seek independent technical advice as necessary                                                                                                                              |
| 2. Acquire technology                           | 2.1. Investigate costs of acquiring technology<br>2.2. Investigate ways of acquiring or <b><i>accessing technology</i></b> other than by funding<br>2.3. Investigate sources of funding for technology purchases and associated costs<br>2.4. Seek funds required for purchase of technology and associated costs |
| 3. Ensure staff are prepared for new technology | 3.1. <b><i>Evaluate</i></b> the need for technology training<br>3.2. Identify suitable trainers and/or mentors to support staff to use the new technology<br>3.3. Ensure suitable training is provided for staff who will use the technology                                                                      |
| 4. Evaluate the use of technology               | 4.1. Develop strategies to ensure the new technology is used within the organisation<br>4.2. Evaluate whether technology is used effectively and meets organisational needs<br>4.3. Identify barriers to the effective use of the technology                                                                      |

| ELEMENT | PERFORMANCE CRITERIA                                                        |
|---------|-----------------------------------------------------------------------------|
|         | 4.4. Develop and implement actions to address barriers to its effective use |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication, teamwork and negotiation skills to work cooperatively with other board members, management and staff of the organisation, members, community and key stakeholders
- culturally appropriate communication skills to relate to people from diverse backgrounds and with diverse abilities
- evaluation and decision-making skills to monitor and review information presented to the board and enact decisions
- mentoring skills to support staff using the technology
- planning skills to organise appropriate training and support for staff
- problem-solving skills to identify and manage issues that may arise in the use of the technology

#### Required knowledge

- basic principles of cost-benefit analysis
- cultural context in which Aboriginal and Torres Strait Islander boards operate, and how that may impact on the selection and use of technology
- equipment and funding sources
- geographic, social, economic and political contexts in which particular organisations operate and how these may impact on the selection and use of technology
- potential barriers to learning, and strategies to address these
- provisions of federal, state or territory legislation and funding body requirements that may impact on the purchase, use and disposal of assets
- range of technology options available to support organisational activities
- relevant protocols and cultural responsibilities when supporting members of staff
- strategies that can be used to evaluate information regarding technology
- training options available to the organisation to develop skills in the use of technology

## Evidence Guide

| <b>EVIDENCE GUIDE</b>                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Overview of assessment</b>                                                                                                                                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b>                                                                                                                    | <p>Evidence of the ability to:</p> <ul style="list-style-type: none"> <li>choose appropriate technology to support the organisation's activities</li> <li>identify suitable training options to support the introduction of new technology</li> <li>develop strategies to ensure technology is used effectively within the organisation.</li> </ul>                                                                                                                                                                                                                                                                                                                                                   |

## Unit Descriptor

### Descriptor

This unit describes the skills and knowledge required by workers to apply and manage use of basic oral health products and provide assistance to clients in the use of those products for oral health care as identified in an individualised oral health care plan and where approved within their designated role

## Application of the Unit

### Application

This unit is intended to address specialised skills and knowledge appropriate for a limited range of health and community services workers whose work roles specifically include the application of identified oral health products in line with legislative, regulatory and jurisdictional requirements, organisation guidelines and standard precautions and excluding the application of fluoride varnish

The work involves implementation of oral or written individualised oral health care plans that have been prepared by or under advice from an appropriate registered health practitioner and ideally an oral

health practitioner

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

### Pre-requisite

This unit must be assessed after achievement of either:

- HLTIN301C Comply with infection control policies and procedures

or

- CHCWHS312A Follow safety procedures for direct care work

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Prepare for and participate in the application of *basic oral*

- 1.1 Identify and comply with *organisation guidelines* relating to each product and its administration

**ELEMENT****PERFORMANCE CRITERIA**

*health care products*

- 1.2 Identify *high risk products* and comply with specific guidelines relating to their administration
- 1.3 Explain product application process and purpose to *client* and/or *substitute decision maker* in line with product guidelines, oral health care benefits and any potential risks
- 1.4 Obtain feedback from client to determine that procedure is understood and obtain consent from client or relevant substitute decision maker to undertake process
- 1.5 Ensure client is positioned as comfortably as possible according to their individual needs
- 1.6 Prepare products and equipment as required and ensure that product has not expired by checking the expiry date on product
- 1.7 Ensure all actions are in line with *legislative requirements*, organisation guidelines, *standard precautions* and within own work role

2. Apply basic oral health care products

- 2.1 Apply product in safe and effective manner in line with *oral health care plan* and product guidelines
- 2.2 Support client to apply own product where able
- 2.3 Where assistance is required *position self* to suit client or situation
- 2.4 Use appropriate amount of product and apply as recommended in line with oral health care plan
- 2.5 Ensure application is undertaken using correct applicator at correct location
- 2.6 Use recommended alternative techniques or arrangements outlined in the oral health care plan in case of client refusal or inability to comply

3. Support *oral health* and oral hygiene of clients with *special care needs*

- 3.1 Support client with special care needs in line with oral health care plan
- 3.2 Be aware of *common oral health problems associated with clients with palliative care needs* and take appropriate action in line with their needs
- 3.3 Be aware of *common oral health problems associated with nil by mouth instructions* and take

**ELEMENT****PERFORMANCE CRITERIA**

appropriate action in line with client needs

3.4 Be aware of *common difficulties associated with dementia that may result in oral health problems* and take appropriate action in line with client needs

3.5 Be aware of *common oral side effects of medication* and take appropriate action in line with client needs

3.6 Ensure identified *preventive measures* are implemented in line with oral health care plan

4. Complete reporting and documentation according to organisation policies and procedures

4.1 Document and report processes undertaken and any concerns arising during oral health practices

4.2 Maintain and file documentation

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Awareness of the National Oral Health Plan and other relevant state, territory and national government policy and programs
- Basic anatomy and physiology underpinning oral health and hygiene
- Benefits and risks associated with basic oral health products
- Common equipment and aids utilised in the application of oral hygiene products e.g. mouth props
- Factors that impact on oral health, including:
  - abuse
  - access to services
  - accumulation of plaque and calculus
  - alcohol, licit and illicit drugs and substances, and over the counter and herbal treatments

- alcohol misuse
- bacteria in dental plaque
- client education
- correct infant feeding practices
- diet and nutrition, including fluids
- fluoride
- general health and wellbeing
- immunosuppressant conditions
- medical history
- oral piercings
- psychological issues, such as fear of being seen without dentures or persisting with ill fitting dentures for satisfaction of others
- salivary function
- smoking
- social and cultural determinants of health
- susceptible tooth surfaces
- transmission of bacteria particularly from parent to child
- trauma, such as from seizures
- Healthy eating recommendations as identified in the National Health and Medical Research Council's (NHMRC) Australian Dietary Guidelines
- Impact of certain health conditions and related treatments on oral health e.g. immunosuppressant conditions, HIV, chemotherapy and radiation
- Individualised oral health care support plans, including terminology
- Work health and safety (WHS) issues and procedures, including those related to manual handling and infection control

*continued...*

*Essential knowledge(contd):*

- Oral disease and broad treatment options available
- Oral health issues for identified high risk sub-populations
- Oral side effects of medications, such as metallic taste in the mouth, dry mouth syndrome and ulcers
- Own work role and responsibilities in oral health care
- Personal safety and security risks associated with provision of oral hygiene care support
- Practical use of oral health products
- Principles and practices in undertaking technical skills associated with the application of oral health products
- Principles and practices of confidentiality, privacy, respect and consent
- Processes and strategies to support people with oral hygiene care needs
- Role of carers in relation to oral health care needs of clients
- Saliva and its role in the maintenance of oral health:

- acting as a lubricant
- delivering calcium, phosphate and fluoride to the tooth surface
- protecting teeth by neutralising acid
- Significance of service setting, including specific contexts, such as providing oral hygiene in a client care setting or in a client's private home
- Signs and symptoms of an allergic reaction
- Specialist oral care and support for clients in circumstances, such as those who:
  - are aged
  - are on nil by mouth instructions
  - are receiving palliative care
  - are undergoing chemotherapy
  - who have enteral feeding, such as via a nasogastric tube or a percutaneous endoscopic gastrostomy (PEG) tube
  - have dementia
  - have epilepsy
  - have intellectual or physical disability
  - have loss of tooth through extraction
  - have loss of tooth through injury
  - have medical or psychiatric conditions
  - have post-surgery or trauma needs
- Strategies to minimise personal safety and security risks associated with provision of oral hygiene care support
- Symptoms and signs that suggest a need for further assessment and/or treatment
- The interaction between oral health and general health

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Adhere to own work role and responsibilities in line with organisation policies and procedures
- Apply identified oral health products (excluding fluoride varnish) safely and effectively in line with product guidelines and oral health care benefits
- Communicate effectively with people requiring application of oral health care products
- Identify and respond to risks associated with the application of oral health care products
- Liaise and report appropriately to supervisor and/or health practitioners
- Make informed observations and report appropriately, including the identification of variations to oral health care support requirements
- Obtain and follow relevant information from an individualised care support plan
- Provide physical and psychosocial support to the person when assisting with oral care needs including, meeting personal preferences, wherever appropriate
- Reflect on and improve own level and application of skills and knowledge to achieve

desirable outcomes and maintain own capabilities

- Use processes, aids and equipment appropriately in application of products
- Use relevant technology, including information technology, safely and effectively

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply basic problem solving-skills to resolve problems within organisation protocols
- Apply literacy and numeracy skills required to fulfill work role in a safe manner and as specified by the organisation
- Consistently demonstrate interpersonal skills, including empathy, when relating to people from a range of backgrounds and abilities

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider the particular workplace context

*Access and equity considerations:*

- All workers in health and community services environments should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and/or Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and/or Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues relating to factors

impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include:
  - access to appropriate workplace where assessment can take place
  - simulation of realistic workplace setting

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competency will include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Consistency of performance should be demonstrated over a range of relevant workplace conditions

*Related units:*

- This unit may be assessed independently or in conjunction with other units with associated workplace application

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Basic oral health care products*

- Products specified in the client's individualised oral health care plan, such as:

*include:*

- alcohol-free mouthwash
- antibacterial products
- lip moisturiser
- non-medically prescribed therapeutic agents and topical analgesic
- remineralisation products
- saliva substitutes/stimulants:
  - chewing gum
  - gels
  - liquids
  - lozenges
  - sprays

*Organisation guidelines may include but are not limited to:*

- Clinical protocols
- Position descriptions
- Workplace policies and procedures, including:
  - infection control
  - WHS

*High risk products may include:*

- Pharmacy only products, such as:
  - antifungal products
  - fluoride gel
  - high fluoride toothpaste
  - topical anaesthetic

*Client refers to those living in the community and/or facilities and may include:*

- Children receiving care, including in children's services
- Older persons
- Palliative care clients
- People in care or health facilities
- People with acquired brain injury
- People with dementia
- People with disabilities
- People with mental health issues

*Substitute decision maker (in relation to consent) must be:*

- The person appointed with the right to speak for the client, such as:
  - advocate

- carers
- guardians
- health attorneys
- medical power of attorney
- members of family
- other practitioners
- parent of child
- person responsible
- public trustee

*Legislative requirements refer to:* • Federal, state or territory legislation that may impact on workers' practices and responsibilities, noting that implementation of the unit of competency must reflect the legislative framework in which a worker operates

*Standard precautions refer to infection control and include:*

- Washing hands before and after oral care
- Appropriate use of personal protective equipment (PPE):
  - gloves
  - mask
  - eye/facial protection e.g. glasses/face shield
  - gown
- Disposal of PPE

*Oral health care plan may include:*

- A stand-alone individualised oral health care support plan
- Care plan written by an appropriate health practitioner
- Oral hygiene care plan
- Personal care tasks embedded in a wider individualised plan

*Position self may include but is not limited to:*

- Front position:
  - sit client in chair facing you
  - if in bed, support their head with pillow
  - support client's chin with index finger and thumb without placing pressure on throat
  - use thumb holding chin to roll down and hold

lower lip for better vision and access

- client mouth to be partly opened to comfortable level
- Stand behind position/head support position:
  - stand behind and to the side of client
  - rest client's head against side of your body and in the crook of your arm
  - support client's chin with your index finger and thumb without placing pressure on throat
  - use thumb holding chin to roll down and hold lower lip for better vision and access
  - client mouth to be partly opened to comfortable level

*Oral health refers to but may not be limited to:*

- A person's mouth that has:
  - breath without offensive odour
  - inflammation and lesion-free soft tissue
  - intact and stable teeth without cavities
  - moist lips without chapping
  - no build up of food, calculus or plaque
  - no oral pain
  - pink, moist, uncoated tongue
  - watery plentiful saliva
- Looking after the whole mouth, including natural and artificial teeth, gums, tongue, lips and inside the cheeks
- Oral health related quality of life factors, such as appearance, social interaction and self-esteem

*Special care needs may include but are not limited to:*

- Support for clients:
  - following loss of tooth through injury
  - following loss of tooth through extraction
  - post-surgery or trauma
  - receiving palliative care
  - undergoing chemotherapy
  - who are ageing
  - who have enteral feeding, such as via a nasogastric tube or a percutaneous endoscopic gastrostomy (PEG) tube
  - who have a communication deficit

- who have intellectual or physical disability
- who have medical or psychiatric conditions
- who have nil by mouth instructions
- who have swallowing issues (dysphagia)
- who have dementia

*Common oral health problems associated with clients with palliative care needs may include but are not limited to:*

- Angular cheilitis
- Candida (thrush)
- Debris
- Dental caries
- Dry mouth and/or lips
- Excessive saliva
- Hairy leukoplakia
- Herpes simplex
- Kaposi sarcoma (HIV patients only)
- Sensitive mouth
- Ulcers, including viral and traumatic

*Common oral health problems associated with nil by mouth instructions include but are not limited to:*

- affected vocal function
- dry mouth (xerostomia) which can decrease saliva and may result in discomfort
- increased bacteria and decreased protection against bacteria

*Common difficulties associated with dementia that may result in oral health problems include but are not limited to:*

- Behavioural, such as not eating or drinking water
- Memory difficulties
- Paranoia
- Side effects of medications
- Skill deterioration

*Common oral side effects of medication include but are not limited to:*

- Dry mouth
- Effects of sugar content
- Excessive saliva
- Metallic taste
- Rash
- Ulcers

*Preventive measures include but*

- Good hydration

*are not limited to:*

- Oral hygiene as recommended in the oral health care plan, including when unable to wear denture
- Regular observation of oral mucosa

### Unit Descriptor

#### Descriptor

This unit describes the skills and knowledge required by workers to provide or assist a client with their oral hygiene needs within the framework of an individualised care support plan and within their designated role and responsibilities

### Application of the Unit

#### Application

This unit is intended to address skills and knowledge appropriate for workers who provide direct client care in a range of health and community services environments and whose work role requires them to provide hands on provision of or assistance with a client's oral hygiene where the client is unable to do any or all of this task for themselves

This work is carried out to achieve planned outcomes in the client's individual oral health care plan as part of their overall support plan

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

### Pre-requisite

This unit must be assessed after achievement of either:

- HLTIN301C Comply with infection control policies and procedures

or

- CHCWHS312A Follow safety procedures for direct care work

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Identify client's *oral hygiene requirements* and work within a *person-centred* approach to ensure *good oral health*

1.1 Review *individualised care support plan* with *client* and/or supervisor to confirm support requirements to address client's oral hygiene needs

1.2 Work effectively with clients from a diverse range of backgrounds to meet individual preferences in relation to provision of support or assistance with oral hygiene

1.3 Discuss and confirm the client's level of participation in meeting their own oral hygiene

**ELEMENT****PERFORMANCE CRITERIA**

preferences and provide information to the client and/or carer or *substitute decision maker* as required

1.4 Confirm oral hygiene requirements are within scope of own knowledge, skills and work role and seek appropriate assistance where client requirements are outside scope

1.5 Take into account and address *potential impacts* that provision of oral hygiene may have on the client and address any *situations of risk or potential risk* associated with the provision of support and confirm actions with supervisor

1.6 Identify oral hygiene products, processes and aids for providing assistance and promoting independence in line with client's individualised care support plan

1.7 Ensure all actions are in line with *legislative requirements, standards* and *organisation guidelines*

2. Assist and support clients in their identified oral hygiene needs

2.1 Prepare and use in an appropriate, safe and client preferred manner:

- *oral hygiene products and aids for teeth and soft tissue*
- *oral hygiene products and aids for dentures*
- *other materials required for oral hygiene*

2.2 Inform client of processes to take place

2.3 Provide support or assistance with oral hygiene tasks according to the individualised care support plan, organisation policies and procedures and with awareness of identified individual client preferences or risk, including:

- *toothbrushing*
- *soft tissue care*
- *care of dentures*
- *use of alcohol-free mouthwash*
- *interdental cleaning*

2.4 Incorporate *standard toothbrush care* into procedures

2.5 Where appropriate encourage client to wear, insert and remove own dentures in line with care plan and, where necessary, support and assist clients with care of

**ELEMENT****PERFORMANCE CRITERIA**

dentures to industry standards

2.6 Use *techniques to improve oral hygiene practices* and *modified oral hygiene methods and aids* where identified as needed

2.7 Use *standard precautions* and, where necessary, *additional precautions* to address infection control requirements in all oral hygiene practices

3. Assist and support clients in an appropriate manner

3.1 Provide oral hygiene support or assistance in an *appropriate environment*

3.2 Use *effective communication, appropriate body language* and a *caring attitude* to facilitate client understanding of, and comfort with, oral hygiene processes taking place

3.3 Clarify and address difficulties in providing support, including *client behavioural responses* with client and supervisor within organisation protocols

3.4 Use recommended alternative techniques or arrangements in case of client refusal or inability to comply as recommended in the individualised care support plan

3.5 Recognise signs that indicate potential for an oral health problem, including distress or behaviours of concern, especially in clients unable to articulate their symptoms or concerns

3.6 Maintain confidentiality, privacy, dignity and respect of the client within organisation policies and procedures

4. Recognise and report changes in client oral hygiene requirements

4.1 Regularly *review* oral hygiene techniques being used to ensure oral health is maintained according to the oral health care plan

4.2 Identify variations in oral hygiene support requirements and/or *report* to supervisor and/or other appropriate personnel

4.3 Work with client and/or supervisor and/or other appropriate personnel to identify required changes to procedures and aids

| ELEMENT                                                                                                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|-------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 5. Identify <i>variations in client behaviour and habits</i> and if appropriate undertake visual oral check | <p>5.1 Identify client behaviour and habits that may indicate oral health issues or associated pain or discomfort</p> <p>5.2 Identify <i>signs and symptoms of potential oral health issues</i> that may indicate variation from normal or warrant attention by an oral health practitioner</p> <p>5.3 Observe, listen for self-reports and question client and/or carer, and/or <i>other relevant people</i> as required to determine whether the client is experiencing any pain or discomfort that may be associated with oral health issues</p> <p>5.4 Take into account <i>contributing factors</i> that may produce variation from normal behaviour</p> <p>5.5 Obtain consent from the client or substitute decision maker to conduct a basic visual oral check and questioning if necessary in line with legislative requirements, organisation guidelines and within own work role</p> <p>5.6 Ensure comfort of client by developing trust and rapport and working in an appropriate environment and at an optimal time</p> <p>5.7 Ensure client is in a position which provides visual access to the mouth seeking their assistance to open their own mouth to minimise contact with the mouth using appropriate infection control procedures</p> <p>5.8 Provide support for client's head or chin if necessary to enhance visual access without creating discomfort for the client</p> |
| 6. Complete reporting and documentation according to organisation policies and procedures                   | <p>6.1 Document and report oral hygiene practices performed</p> <p>6.2 Document and report any concerns arising during oral hygiene practices</p> <p>6.3 Maintain and file documentation</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Awareness of the National Oral Health Plan and other relevant state, territory and national government policy and programs
- Basic anatomy and physiology underpinning oral health and hygiene, including what is considered healthy and unhealthy
- Basic understanding of variations in oral hygiene care support requirements
- Basics of oral health and hygiene
- Common and specialised equipment, products and aids utilised in provision of oral hygiene care support
- Factors that impact on oral health, including:
  - abuse
  - access to services
  - accumulation of plaque and calculus
  - alcohol, licit and illicit drugs and substances and over the counter and herbal treatments
  - alcohol misuse
  - bacteria in dental plaque
  - client education
  - correct infant feeding practices
  - diet and nutrition, including fluids
  - fluoride
  - general health and wellbeing
  - immunosuppressant conditions
  - medical history
  - oral piercings
  - psychological issues, such as fear of being seen without dentures or persisting with ill fitting dentures for satisfaction of others
  - salivary function
  - smoking
  - social and cultural determinants of health
  - susceptible tooth surfaces
  - transmission of bacteria particularly from parent to child

- trauma, such as from seizures
- Guidelines for use of relevant technology, including information technology
- Impact of certain health conditions and related treatments on oral health e.g. immunosuppressant conditions, HIV, chemotherapy and radiation
- Individualised care support plans, including terminology
- Infection control standards and guidelines
- Methods of communication with clients in accordance with their communication needs
- Mobility issues for some clients and the impact this may have on oral hygiene
- Work health and safety (WHS) issues and procedures, including those related to manual handling

*continued ...*

#### *Essential knowledge (contd):*

- Oral side effects of medications, such as metallic taste in the mouth, dry mouth syndrome and ulcers
- Organisation requirements for documentation and report writing
- Own work role and responsibilities in provision of oral hygiene
- Personal safety and security risks associated with provision of oral hygiene care support and strategies to minimise risks
- Principles and practices in undertaking technical skills associated with supporting or assisting people to meet oral hygiene care needs
- Principles and practices of confidentiality, privacy, respect and dignity
- Processes and strategies to support people with and provide oral hygiene care needs
- Role of carers and substitute decision makers in relation to oral hygiene decisions and support
- Roles of oral health practitioners
- Significance of service setting, including specific contexts of supporting oral hygiene care needs in a client care setting and in a client's private home
- Signs and symptoms of an allergic reaction
- The interaction between oral health and general health

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Accurately document activities and observations within organisation policies and procedures
- Adhere to own work role and responsibilities within organisation policies and procedures
- Carry out effective oral health self-care practices
- Communicate effectively with people requiring oral hygiene care support, including use of active listening and questioning skills
- Consistently apply standard precautions

- Differentiate between healthy and unhealthy oral presentation
- Identify and respond to risks associated with providing oral hygiene care support
- Identify variations to oral hygiene care support requirements
- Liaise and report appropriately to supervisor and/or health practitioners
- Obtain and follow relevant information from an individualised care support plan
- Provide and/or assist with oral hygiene care support within the individual personal care context
- Recognise changes of clients behaviour, habits and physical condition that might indicate potential oral health issues and report accordingly
- Reflect on and improve own level and application of skills and knowledge to achieve desirable outcomes and maintain own capabilities
- Support a person's direction and participation in provision of oral hygiene care support responding to personal preferences wherever appropriate
- Use initiative in finding opportunities to promote oral health care and its interaction with general health
- Use processes, aids and equipment appropriately in provision of oral hygiene care support, including tooth brushing, soft tissue cleaning, use of mouthwash, care of dentures, care of crowns, bridges, implants and braces
- Use relevant technology, including information technology safely and effectively

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply basic problem-solving skills to resolve problems within organisation protocols
- Apply literacy and numeracy skills required to fulfill work role in a safe manner and as specified by the organisation
- Consistently demonstrate interpersonal skills, including empathy when relating to people from a range of backgrounds and abilities
- Work effectively with clients, colleagues and supervisors

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a simulated workplace under the normal range of

*competency:*

conditions

- Consistency in performance should consider the particular workplace context

*Access and equity considerations:*

- All workers in health and community services environments should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and/or Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and/or Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include:
  - access to appropriate workplace where assessment can take place
  - simulation of realistic workplace setting

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competency will include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Consistency of performance should be demonstrated over a range of relevant workplace conditions

*Related units:*

- This unit may be assessed independently or in conjunction with other units with associated workplace application

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Oral hygiene requirements appropriate to the client include care of:*

- Teeth
- Crowns, bridges, implants, braces and other orthodontic appliances
- Dentures
- Mouth
- Soft tissue

*Person-centred refers to:*

- Effective service delivery
- Involving clients in discussions about service delivery options and issues
- Involving clients in informed decision-making relating to their care/service
- Listening to and addressing complaints
- Obtaining informed consent
- Putting clients, carers and their preferences at the centre of service delivery

*Good oral health refers to but may not be limited to:*

- A person's mouth that has:
  - breath without offensive odour
  - inflammation and lesion-free soft tissue
  - intact and stable teeth without cavities
  - moist lips without chapping
  - no build up of food, calculus or plaque
  - no oral pain
  - pink, moist, uncoated tongue
  - watery plentiful saliva
- Looking after the whole mouth, including natural and

artificial teeth, gums, tongue, lips and inside the cheeks

- Oral health related quality of life factors, such as appearance, social interaction and self-esteem

*Individualised care support plan may include:*

- A stand-alone individualised oral health care support plan
- Care plan written by an appropriate health practitioner
- Oral hygiene care plan
- Personal care tasks embedded in a wider individualised plan

*Client refers to those living in the community and/or facilities and may include:*

- Children receiving care, including in children's services
- Older persons
- Palliative care clients
- People in care or health facilities
- People with acquired brain injury
- People with dementia
- People with disabilities
- People with mental health issues

*Substitute decision maker (in relation to consent) must be:*

- The person appointed with the right to speak for the client, such as:
  - advocate
  - carers
  - guardians
  - health attorneys
  - medical power of attorney
  - members of family
  - other practitioners
  - parent of child
  - person responsible
  - public trustee

*Potential impacts may include but not be limited to:*

- Positive impacts, such as:
  - able to chew food
  - clean mouth

- improved general health and wellbeing
- improved social engagement or interaction
- increased self-esteem
- longevity
- Negative impacts, such as:
  - discomfort
  - disempowerment
  - embarrassment
  - fear
  - humiliation
  - pain
  - trauma particularly as a result of poor technique

*Situations of risk or potential risk, may include but not be limited to:*

- Complex care clients, such as those with dementia or parkinson's disease
- Emotional reaction from client, such as those related to dementia or anxiety
- Infection control
- Manual handling
- Oral side effects of medication
- Physical reaction from client
- Pre-existing medical conditions
- Reaction to contact with sensitive teeth
- Resistance from client
- Triggers for seizures

*Legislative requirements refers to:*

- Federal, state or territory legislation that may impact on workers' practices and responsibilities, noting that implementation of the unit of competency must reflect the legislative framework in which a worker operates

*Standards may include but not be limited to:*

- Aged Care Standards
- Community Care Common Standards
- Disability Service Standards
- Home and Community Care (HACC) National Health Standards
- Infection Control Standards
- National Standards for Mental Health Services

*Organisation guidelines may include but are not limited to:*

- Clinical protocols
- Position descriptions
- Workplace policies and procedures, including:
  - infection control
  - WHS

*Oral hygiene products and aids for teeth and soft tissue may include but not be limited to:*

- Alcohol-free mouthwash directed by an oral health practitioner as part of an oral health care plan
- Fluoride toothpaste
- Interdental brushes
- Manual and electric toothbrushes
- Modified toothbrushes
- Mouth props (if trained in their use)
- Saliva substitutes
- Soft toothbrush suitable for bending
- Specialised aids
- Sprays
- Sugar-free gums
- Tongue scraper
- Tooth remineraliser

*Oral hygiene products and aids for dentures may include:*

- Denture adhesive
- Denture brush
- Denture disinfection product
- Denture labeling kit
- Denture soaking products
- Denture-friendly cleaner
- Named denture storage container (disposable or non-disposable)

*Other materials required for oral hygiene may include:*

- Bowl or hand basin
- Cup of fresh water
- Disposable gloves
- Hand towel to be placed across clients chest
- Lip balm
- Towel

- Toothbrushing may include:*
- Using currently accepted methods to clean:
    - natural teeth
    - fixed and removable prostheses
    - soft tissue
- Soft tissue care refers to:*
- Care of all soft tissue, including:
    - cheeks
    - gums
    - lips
    - palate
    - tongue
- Care of dentures refers to:*
- Cleaning, identifying and storing using currently accepted methods taking into account individual needs and preferences in line with the care plan
- Use of alcohol-free mouthwash may refer to:*
- That which is directed by a health practitioner as part of an oral health care plan to enhance oral hygiene
- Interdental cleaning refers to:*
- Cleaning between the teeth
- Standard toothbrush care refers to:*
- Cleaning, storage and replacement of toothbrush to currently accepted standards
- Techniques to improve oral hygiene practices may include but are not limited to:*
- Bridging:
    - engages clients senses especially sight and touch
    - engage client first and describe and show toothbrush
    - mimic brushing of own teeth to provide physical prompt
    - place brightly coloured toothbrush in client's preferred hand and they may mirror behaviour
  - Chaining:
    - if not initiated through bridging, gently bring clients hand and toothbrush to mouth, describing activity and then encourage the client to continue

- Hand over hand:
  - if chaining does not work, place hand over client's hand and start brushing client's teeth so you are doing it together

*continued...*

*Techniques to improve oral hygiene practices may include but are not limited to (cont'd):*

- Distraction:
  - if hand over hand method is not successful, place a familiar item, such as towel, cushion or activity board, in client's hand while brushing their teeth
- Rescuing:
  - if attempts at oral hygiene are not successful tell client you will leave it for now
  - ask for assistance and perhaps have someone else take over

*Modified oral hygiene methods and aids may include but are not limited to:*

- Appropriate alcohol-free mouthwash and gel
- Backward bent toothbrush, or similar implement to retract cheek while brushing with another toothbrush
- Bite block
- End tufted brush
- Flossers
- Hand grip on toothbrush for clients with reduced grip strength
- High fluoride toothpaste wiped onto teeth instead of brushing as a short term alternative only
- Mouth props for clients who clench or bite or who have difficulty opening mouth (specific training required)
- Mouth spray
- Mouth swabs
- Saliva substitute
- Suction swabs
- Tongue scraper and/or brush

*Standard precautions refer to infection control and may include:*

- Wash hands before and after oral care
- Appropriate use of personal protective equipment (PPE):
  - eye/facial protection e.g. glasses/face shield
  - gloves
  - gown
  - mask

- Disposal of PPE

*Additional precautions refer to:*

- Those infection control precautions that should be used, in addition to standard precautions, when these alone might not contain transmission of infection

*Appropriate environment may include but is not limited to:*

- Choosing location where client is most comfortable
- Ensuring good lighting
- Maintaining client's preferred routines
- Turning off competing background noise, such as television or radio
- Using aids that may ease client anxiety e.g. hand mirror
- Using brightly coloured toothbrush that can be easily seen e.g. for children or for clients with dementia or visual impairment

*Effective communication includes but is not limited to:*

- Active listening and questioning
- Always explaining actions and processes and reinforcing with gestures where appropriate
- Asking questions that require a yes or no response when oral hygiene practices are being carried out
- Giving one instruction or piece of information at a time
- Observing client closely as lack of response, signs of frustration, anger, disinterest or inappropriate responses may suggest communication is too complex or that client is uncomfortable
- Speaking at appropriate volume, clearly and at clients pace
- Using reassuring words and positive feedback
- Using words client can understand

*Appropriate body language may include but is not limited to:*

- Being aware of approaching client appropriately e.g. diagonally from the front and at eye level
- Gently touching the client on the hand or lower arm to get attention, if necessary
- Positioning self at eye level and maintaining eye contact, as appropriate
- Being aware that personal space of clients can vary
- Being consistent in approach with positive expression

and caring language

*Caring attitude includes but is not limited to:*

- Allowing plenty of time for client to respond to questions or instructions
- Focusing on building a good relationship before starting oral hygiene
- Using the client's name
- Using a calm, friendly and non-demanding manner
- Working with a person-centred approach

*Client behavioural responses may include but are not limited to:*

- Biting toothbrush
- Coughing
- Distress induced vomiting
- Fear response
- Gagging
- Grabbing or hitting out
- Leaving
- Not opening the mouth
- Not responding to directions
- Spitting
- Verbal aggression

*Review may include but not be limited to the following questions and suggestions:*

- Are the oral hygiene aids appropriate for the client?
- Do others e.g. family and/or carer have input?
- Has the observed behaviour improved?
- Is attitude and approach considerate of client needs?
- Is the approach and routine consistent for client?
- Is the client more receptive to oral hygiene support?
- Is the environment, timing, language and expression right for client?

*Report may include:*

- Non-verbal:
  - care plans
  - case notes
  - hazard and incident reports
  - photographs
  - progress reports
- Verbal:
  - face-to-face

- telephone
- recorded

*Variations in client behaviour and habits may include:*

- Anxiety around, or avoidance of, specific events
- Apparent pain or discomfort in or around the mouth
- Behaviours of concern
- Change in eating habits
- Change in mood or demeanour
- Changes in communication
- Crying
- Difficulty with eating, including spitting out food
- Hands in the mouth
- Inconsistent wearing of dentures
- Lethargy
- Physical aggression
- Refusal to open mouth
- Rubbing own teeth or gums
- Seemingly normal behaviours e.g. coughing could be indicator that food is in the lungs
- Self-harming behaviour
- Social isolation or withdrawal

*Signs and symptoms of potential oral health issues may include but not be limited to:*

- Observed and/or reported signs in or around the mouth, such as:
  - bad breath (halitosis)
  - bleeding
  - broken teeth
  - brown or discoloured teeth
  - calculus (mineralised plaque that will not brush off) on teeth particularly at gum line
  - change in colour or coating of tongue
  - dry mouth
  - eruption issues for children
  - evidence of build up of dental plaque on teeth, particularly at gum line
  - holes in teeth
  - lip blisters, sores or cracks
  - loose or mobile teeth
  - mouth debris/excessive food left in mouth
  - mouth ulcers

- premature loss of baby teeth
- receding or enlarged gums
- soft tissue lesions e.g. red or white spots
- swelling of face or localised swelling/inflammation

*continued.....*

*Signs and symptoms of potential oral health issues may include but not be limited to (cont'd):*

- Issues reported by client and/or others, such as:
  - tooth sensitivity
  - refusal of oral care
  - sore mouth, gums, tongue or teeth
- Other observations, such as:
  - change in appetite
  - change in demeanour or mood
  - difficulty eating/speaking
  - inability to open mouth very wide
  - irritability
  - refusing to open mouth
  - weight loss
- Observed and/or reported issues with dentures, such as:
  - broken metal wires/clips on partial denture
  - calculus on denture
  - chipped or missing teeth on denture or chipped or broken acrylic (gum) areas on denture
  - denture movement when client is speaking or eating
  - refusal or failure to wear denture
  - sore spots caused by wearing denture
  - unclean denture

*Other relevant people may include but is not limited to:*

- External health care providers
- Other service providers
- Personnel internal to the service provider

*Contributing factors may include but not be limited to:*

- Abuse
- Ageing
- Disability
- Injury
- Medications

- Substance misuse
- Systemic illness

## **Unit Sector(s)**

Not Applicable

## CHCOHC404A Recognise and respond to signs and symptoms that may indicate oral health issues

### Modification History

Not Applicable

### Unit Descriptor

#### Descriptor

This unit describes the skills and knowledge required to recognise and respond appropriately to signs and symptoms that may indicate a potential for oral health issues in clients

### Application of the Unit

#### Application

This unit is intended to address skills and knowledge appropriate for direct care workers in a range of health and community services environments whose work roles enable them to recognise potential oral health issues through observation of the behaviour, habits and physical condition of clients

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

### Employability Skills Information

#### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Identify variations in *client* behaviour

- 1.1 Identify *client behaviour and habits* that may indicate oral health issues or associated pain or discomfort
- 1.2 Observe, listen for self-reports and question client and/or carer or *other relevant people* as required to determine whether the client is experiencing any pain or discomfort that may be associated with oral health issues
- 1.3 Take into account *contributing factors* that may produce variation from normal behaviour

2. Undertake basic visual oral check and questioning

- 2.1 Obtain consent from the client or *substitute decision maker* to conduct basic visual oral check and questioning
- 2.2 Ensure comfort of client by developing trust and rapport and working in an appropriate environment and at an optimal time
- 2.3 Ensure client is in a position which provides access to the mouth seeking their assistance to open their own mouth limiting contact inside the mouth
- 2.4 Provide support for client's head or chin if necessary to enhance visual access without creating discomfort for the client
- 2.5 Perform basic visual oral check in line with *legislative requirements, organisation guidelines, policies and procedures* and within own work role
- 2.6 Ensure visual check is conducted in accordance with *standard precautions*

## ELEMENT

## PERFORMANCE CRITERIA

- 2.7 Identify *signs and symptoms of potential oral health issues* that may indicate variation from normal and actively listen to and be aware of self-reports
3. Follow up and promote ongoing oral health care
- 3.1 Complete reporting processes, using *information from client* and/or carer or other relevant people as well as own observations in relation to potential oral health issues
- 3.2 Discuss potential oral health issues with client and/or relevant others in line with organisation policies and procedures and respecting client priorities and choices
- 3.3 Take appropriate action within work role, including discussing with supervisor in consultation with client
- 3.4 Provide client with information relevant to promoting and maintaining *good oral health* using appropriate communication strategies
- 3.5 Support clients to take a self-care approach to oral health in line with individual needs where possible
- 3.6 Identify and address key barriers to management or self-management of oral health

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

## REQUIRED SKILLS AND KNOWLEDGE

These include knowledge of:

- Awareness of the National Oral Health Plan and other relevant state, territory and national government policy and programs
- Basic anatomy and physiology underpinning oral health, including what is considered healthy and unhealthy
- Causes and prevention of tooth wear, including erosion, abrasion and attrition
- Effective self-care practices for oral health
- Factors that impact on oral health, including:
  - abuse
  - access to services
  - accumulation of plaque and calculus
  - alcohol, licit and illicit drugs and substances and over the counter and herbal treatments
  - alcohol misuse
  - bacteria in dental plaque
  - client education
  - correct infant feeding practices
  - diet and nutrition, including fluids
  - fluoride
  - general health and wellbeing
  - immunosuppressant conditions
  - medical history
  - oral piercings
  - psychological issues, such as fear of being seen without dentures or persisting with ill fitting dentures for satisfaction of others
  - salivary function
  - smoking
  - social and cultural determinants of health
  - susceptible tooth surfaces
  - transmission of bacteria particularly from parent to child
  - trauma, such as from seizures
- Guidelines for use of relevant technology, including information technology
- Healthy eating recommendations as identified in the National Health and Medical Research Council's (NHMRC) Australian Dietary Guidelines
- Impact of certain health conditions and related treatments on oral health e.g. immunosuppressant conditions, HIV, chemotherapy and radiation
- Infection control standards and guidelines

*continued ...*

## REQUIRED SKILLS AND KNOWLEDGE

### *Essential knowledge (contd):*

- Key elements of accurate reporting
- Oral disease and broad treatment options available
- Oral side effects of medications, such as metallic taste in the mouth, dry mouth syndrome and ulcers
- Organisation policies and procedures relating to:
  - client confidentiality and consent
  - limits to own role and authority/responsibility
  - referral, including various levels of urgency
- Own ability and role in relation to client oral health
- Range of behavioural changes that may be indicative of oral health issues
- Range of relevant oral health referral options
- Saliva and its role in the maintenance of oral health:
  - acting as a lubricant
  - delivering calcium, phosphate and fluoride to the tooth surface
  - protecting teeth by neutralising acid
- Systemic conditions which influence the development of oral disease
- The interaction between oral health and general health

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Accurately differentiate between healthy and unhealthy oral presentation
- Carry out effective oral health self-care practices
- Communicate effectively to provide information of processes and protocols to be undertaken
- Consistently apply standard precautions where necessary
- Elicit relevant information from client or documents
- Identify situations when assistance is required
- Recognise changes in clients behaviour, habits and physical condition that might indicate potential oral health issues
- Reflect on and improve own level and application of skills and knowledge to achieve desirable outcomes and maintain own capabilities
- Use active listening and questioning skills
- Use appropriate reporting and documentation practices
- Use communication skills to effectively establish a relationship of trust with clients, their family and/or carers and other relevant people
- Use initiative in finding opportunities to promote oral health care
- Use relevant technology, including information technology safely and effectively

## REQUIRED SKILLS AND KNOWLEDGE

*continued ...*

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply basic problem-solving skills to resolve problems within organisation protocols
- Apply literacy and numeracy skills required to fulfill work role in a safe manner and as specified by the organisation
- Consistently demonstrate interpersonal skills, including empathy when relating to people from a range of backgrounds and abilities
- Work effectively with clients, colleagues and supervisors

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider the particular workplace context

*Access and equity considerations:*

- All workers in health and community services environments should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment

## EVIDENCE GUIDE

- In recognition of particular issues facing Aboriginal and/or Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and/or Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
- Context of and specific resources for assessment:*
- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
  - Resources required for assessment include:
    - access to appropriate workplace where assessment can take place
    - simulation of realistic workplace setting
- Method of assessment:*
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
  - Assessment of this unit of competency will include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
  - Consistency of performance should be demonstrated over a range of relevant workplace conditions
- Related units:*
- This unit may be assessed independently or in conjunction with other units with associated workplace application

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

- Client refers to those living in the community and/or facilities and may include:*
- Children receiving care, including in children's services
  - Older people
  - Palliative care clients
  - People in care facilities
  - People with dementia
  - People with disabilities
  - People with mental health issues
- Client behaviour and habits may include:*
- Anxiety around or avoidance of specific events
  - Apparent pain or discomfort in or around the mouth
  - Behaviours of concern
  - Change in eating habits
  - Change in mood or demeanour
  - Changes in communication
  - Crying
  - Difficulty with eating, including spitting out food
  - Hands in the mouth
  - Inconsistent wearing of dentures
  - Lethargy
  - Physical aggression
  - Refusal to open mouth
  - Rubbing own teeth or gums
  - Seemingly normal behaviours e.g. coughing could be indicator that food is in the lungs
  - Self-harming behaviour
  - Social isolation or withdrawal
- Other relevant people may*
- External health care providers

## RANGE STATEMENT

*include but not be limited to:*

- Other service providers
- Personnel internal to the service provider

*Contributing factors may include but not be limited to:*

- Abuse
- Ageing
- Disability
- Injury
- Medications
- Substance misuse
- Systemic illness

*Substitute decision maker (in relation to consent) must be:*

- The person appointed with the right to speak for the client, such as:
  - advocate
  - carers
  - guardians
  - health attorneys
  - medical power of attorney
  - members of family
  - other practitioners
  - parent of child
  - person responsible
  - public trustee

*Legislative requirements refers to:*

- Federal, state or territory legislation that may impact on workers' practices and responsibilities, noting that implementation of the unit of competency must reflect the legislative framework in which a worker operates

*Organisation guidelines may include but are not limited to:*

- Clinical protocols
- Position descriptions
- Workplace policies and procedures, including:
  - infection control
  - occupational health and safety

## RANGE STATEMENT

*Standard precautions refer to infection control and may include:*

- Wash hands before and after oral care
- Appropriate use of personal protective equipment (PPE):
  - eye/facial protection e.g. glasses/face shield
  - gloves
  - gown
  - mask
- Disposal of PPE

*Signs and symptoms of potential oral health issues may include but not be limited to:*

- Observed and/or reported signs in or around the mouth, such as:
  - bad breath (halitosis)
  - bleeding
  - broken teeth
  - brown or discoloured teeth
  - calculus (mineralised plaque that will not brush off) on teeth particularly at gum line
  - change in colour or coating of tongue
  - dry mouth
  - eruption issues for children
  - evidence of build up of dental plaque on teeth, particularly at gum line
  - holes in teeth
  - lip blisters, sores or cracks
  - loose or mobile teeth
  - mouth debris/excessive food left in mouth
  - mouth ulcers
  - premature loss of baby teeth
  - receding or enlarged gums
  - soft tissue lesions e.g. red or white spots
  - swelling of face or localised swelling/inflammation
  - tooth sensitivity
- Issues reported by client and/or others, such as:
  - tooth sensitivity
  - refusal of oral care
  - sore mouth, gums, tongue or teeth

## RANGE STATEMENT

- Other observations, such as:
  - change in appetite
  - change in demeanour or mood
  - difficulty eating/speaking
  - inability to open mouth very wide
  - irritability
  - refusing to open mouth
  - weight loss
- Observed and/or reported issues with dentures, such as:
  - broken metal wires/clips on partial denture
  - calculus on denture
  - chipped or missing teeth on denture or chipped or broken acrylic areas on denture
  - denture movement when client is speaking or eating
  - refusal or failure to wear denture
  - sore spots caused by wearing denture
  - unclean denture
- *Information from client may include but is not limited to:*
  - Basic dietary information on eating patterns and cariogenic food and drink intake
  - Client concerns, beliefs and preferences regarding their signs and symptoms
  - Clinical progress notes relevant to the presenting problem
  - Current prescribed and other medications
  - Current support mechanisms
  - Family and community circumstances, including environmental factors that may contribute to client's health
  - History of the presenting problem e.g. character, severity and duration of symptoms and past dental visits
  - Medical history, e.g. chemotherapy
  - Significant ongoing health conditions

## RANGE STATEMENT

*Good oral health refers to but is not limited to:*

- A person's mouth that has:
  - breath without offensive odour
  - inflammation and lesion-free soft tissue
  - intact and stable teeth without cavities
  - moist lips without chapping
  - no build up of food, calculus or plaque
  - no oral pain
  - pink, moist, uncoated tongue
  - watery plentiful saliva
- Looking after the whole mouth, including natural and artificial teeth, gums, tongue, lips and inside the cheeks
- Oral health related quality of life factors, such as appearance, social interaction and self-esteem

## Unit Sector(s)

Not Applicable

# CHCOHC402A Support clients and groups to learn practical aspects of oral health care

## Modification History

Not Applicable

## Unit Descriptor

### Descriptor

This unit describes the skills and knowledge required by workers to provide practical information and instruction to clients and groups in relevant aspects of oral health self-care

## Application of the Unit

### Application

This unit is intended to address skills and knowledge required by those working in a range of health and community services environments whose work roles involve a level of interaction with clients that enables them to provide practical demonstration and instruction of oral hygiene practices and techniques

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Use appropriate oral health care resources to address the needs of the *target audience*

- 1.1 Access and provide *oral health information* as required to address *planned outcomes*
- 1.2 Prepare information so that it is relevant to the target audience and use a *person-centred* approach to identify and respond effectively to individual needs
- 1.3 Ensure flexible approach to delivery, using materials and methods that take into account social and cultural determinants of health, location, economic and physical circumstances, age, language, culture, capability and communication needs of the target audience
- 1.4 Respond to client enquiries or concerns by providing accurate information about *oral health issues* and risk factors related to oral health, including the *importance of diet and nutrition*
- 1.5 Address identified client issues where appropriate by providing information about the importance of regular oral checks, *risk factors for oral disease, prevention of oral disease, consequences of oral disease* and the need to follow up oral problems

2. Demonstrate and provide information and instruction on *oral hygiene techniques* and *appropriate aids* to meet planned outcomes

- 2.1 Ascertain requirements specific to client by questioning, observing and accessing available information
- 2.2 Provide accurate instruction in a variety of relevant oral hygiene techniques and demonstrate techniques addressing specific client requirements
- 2.3 Use *standard precautions* to address infection control requirements
- 2.4 Work with clients to ensure effective *toothbrushing* and soft tissue care with both manual and

## ELEMENT

## PERFORMANCE CRITERIA

electric toothbrushes and other oral hygiene aids where relevant

2.5 Demonstrate and provide instruction on the care of partial and full dentures

2.6 Provide instruction on the use of fluoride toothpaste and the option of topical self-care products, advising clients to further discuss with their oral health care practitioner as appropriate

2.7 Provide support in a person-centred manner that engages the target audience, provides a basis for making informed decisions and encourages them to actively participate and ask questions

2.8 Provide opportunities for participants to demonstrate learned skills

2.9 Encourage clients to follow effective oral hygiene practices and make positive *knowledge, attitude and behavioural changes*

2.10 Maintain client confidentiality in line with organisation and legislative guidelines

3. Follow up and reinforce oral health information and instruction

3.1 Implement a review strategy to determine the effectiveness of the oral health information and instruction and whether planned outcomes were met

3.2 Implement changes to oral health information and instruction processes based on review outcomes

3.3 Regularly update and maintain records of oral health care programs delivered according to organisation policies and procedures

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

## REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Awareness of the National Oral Health Plan and other relevant state, territory and national government policy and programs
- Basic anatomy and physiology underpinning oral health
- Broad understanding of oral hygiene techniques, including for soft tissues and natural and artificial teeth
- Causes and prevention of tooth wear, including erosion, abrasion and attrition
- Client-specific issues such mental health, disability, age and general health
- Effective self-care practices for oral health
- Factors that impact on oral health, including:
  - abuse
  - access to services
  - accumulation of plaque and calculus
  - alcohol, licit and illicit drugs and substances and over the counter and herbal treatments
  - alcohol misuse
  - bacteria in dental plaque
  - client education
  - correct infant feeding practices
  - diet and nutrition, including fluids
  - fluoride
  - general health and wellbeing
  - immunosuppressant conditions
  - medical history
  - oral piercings
  - psychological issues, such as fear of being seen without dentures or persisting with ill fitting dentures for satisfaction of others
  - salivary function
  - smoking
  - social and cultural determinants of health
  - susceptible tooth surfaces

## REQUIRED SKILLS AND KNOWLEDGE

- transmission of bacteria particularly from parent to child
- trauma, such as from seizures
- Guidelines for use of relevant technology, including information technology
- Healthy eating recommendations as identified in the National Health and Medical Research Council's (NHMRC) Australian Dietary Guidelines
- Impact of certain health conditions and related treatments on oral health e.g. immunosuppressant conditions, HIV, chemotherapy and radiation

*continued....*

### *Essential knowledge (contd):*

- Modifications to oral health information related to special needs due to disability, aged care, child needs, language and culture
- Oral disease and broad treatment options available
- Oral hygiene aids and the associated use and advantages of each
- Oral side effects of medications, such as metallic taste in the mouth, dry mouth syndrome and ulcers
- Organisation policies and procedures and legislation relating to client confidentiality and infection control
- Own role in client health education
- Person-centred practice
- Relevant evaluation criteria for monitoring effectiveness of oral health care program
- Saliva and its role in the maintenance of oral health:
  - acting as a lubricant
  - delivering calcium, phosphate and fluoride to the tooth surface
  - protecting teeth by neutralising acid
- The interaction between oral health and general health
- The role of properly constructed and fitted mouth guards in preventing oral injuries

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Adapt information, communication and delivery techniques as necessary to meet the needs of individuals and specific groups in the provision of oral health information and practical instruction and demonstration of oral hygiene practices and techniques
- Carry out effective oral health self-care practices
- Reflect on and improve own level and application of skills and knowledge to achieve desirable outcomes and maintain own capabilities
- Use a person-centred framework to apply fundamental motivational and learning skills
- Use evaluation skills to review the effectiveness of oral health information and instruction provided

## REQUIRED SKILLS AND KNOWLEDGE

- Evaluate how well target audience has understood information and instruction provided
- Use initiative in finding opportunities to promote oral health care
- Use relevant technology, including information technology safely and effectively

*continued....*

### *Essential skills (contd):*

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply basic problem-solving skills to resolve problems within organisation protocols
- Apply literacy and numeracy skills required to fulfill work role in a safe manner and as specified by the organisation
- Consistently demonstrate interpersonal skills, including empathy when relating to people from a range of backgrounds and abilities
- Work effectively with clients, colleagues and supervisors

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider the particular workplace context

## EVIDENCE GUIDE

- Access and equity considerations:*
- All workers in health and community services environments should be aware of access, equity and human rights issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular issues facing Aboriginal and/or Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and/or Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
- Context of and specific resources for assessment:*
- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
  - Resources required for assessment include:
    - access to appropriate workplace where assessment can take place
    - simulation of realistic workplace setting
- Method of assessment:*
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
  - Assessment of this unit of competency will include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
  - Consistency of performance should be demonstrated over a range of relevant workplace conditions
- Related units:*
- This unit may be assessed independently or in

## EVIDENCE GUIDE

conjunction with other units with associated workplace application, such as:

- CHCPROM401C Share health information
- BSBCMM401A Make a presentation
- Chronic disease self-management skill set
- Where this function involves working with groups, candidates may need to undertake a unit in working with groups, such as:
  - CHCGROUP403D Plan and conduct group activities

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Target audience may include but is not limited to individuals and groups who are:*

- Aboriginal and Torres Strait Islander peoples
- Children and adolescents
- Financially or socially disadvantaged
- Friends, families and/or carers of clients
- From culturally and linguistically diverse backgrounds, including refugees and migrants
- Living in rural, remote or isolated areas
- Older people
- Palliative care clients
- People with chronic disease e.g. diabetes and osteoporosis
- People with disability and/or support needs
- People with immunosuppressed conditions
- People with mental health issues
- People with substance misuse issues
- Pregnant women

## RANGE STATEMENT

- Taking medications that affect oral health
  - Young parents
- Oral health information may include but is not limited to:*
- Brochures, posters and information sheets
  - Models and mirrors
  - PowerPoint presentations
  - Resources available for specific groups, such as children, people from culturally and linguistically diverse backgrounds and people with disabilities
  - Videos/DVDs/CD-ROMs
  - Web-based resources, such as those available on The National Oral Health Clearinghouse and government health department websites, including oral health messages
- Planned outcomes may refer to:*
- The intended change in oral health knowledge, attitude and behaviour specific to the needs of the individual or group
- Person-centred refers to:*
- Involving clients in discussions about service delivery options and issues
  - Involving clients in informed decision-making relating to their care/service
  - Listening to and addressing complaints
  - Obtaining informed consent
  - Providing effective service delivery
  - Putting clients, carers and their preferences at the centre of service delivery
- Oral health issues may include but are not limited to:*
- Damage to teeth due to trauma
  - Damage to soft tissues e.g. due to smoking or prescribed and non-prescribed drugs and over the counter and herbal treatments
  - Dental caries
  - Developmental abnormalities
  - Non-carious tooth wear:
    - abrasion
    - attrition
    - erosion (acid)

## RANGE STATEMENT

- Oromotor impairment
- Periodontal disease
- Physical impairment
- Poor nutrition and eating and drinking habits
- Poor oral hygiene
- Poorly fitting or lack of dentures and other prosthesis
- Quality and quantity of saliva
- Soft tissue lesions
- Systemic conditions

*Importance of diet and nutrition on oral health may include:*

- Ensuring dietary habits, including fluids are in line with current Australian Dietary Guidelines and taking into consideration:
  - composition
  - consistency
  - following
  - frequency of intake
  - quantity of intake
- Impact of cariogenic and acidic food and drinks

*Risk factors for oral disease may include but not be limited to:*

- Age-related deterioration
- Bleeding gums
- Chronic conditions, such as diabetes
- Cognitive, physical or psychological disability
- Diet and nutrition related factors in the development of dental caries, including:
  - consumption and frequency of foods with high sugar content and/or highly acidic drinks, such as carbonated drinks, fruit juices and sports drinks
  - incorrect use of infant feeding and dummies in babies/children
- Eating disorders
- Exposure to radiation and chemotherapy
- High levels of plaque
- Impact of chewing tobacco
- Impact of smoking on oral soft tissues
- Lack of fluoride
- Lack of regular dental visits
- Mental illness or disorder

## RANGE STATEMENT

- Metabolic disorders
  - Oral piercing
  - Poor oral hygiene
  - Salivary function
  - Use and misuse of alcohol, licit and illicit drugs and substances and over the counter and herbal treatments e.g. opioids and psychotropic drugs
- Prevention of oral disease may include but is not limited to:*
- Addressing alcohol, drug and substance misuse issues within a harm minimisation framework
  - Appropriate timing of oral hygiene e.g. after food or medication
  - Dietary change
  - Effective oral health self-care practices
  - Encouraging smoking cessation
  - Increasing salivary flow and optimising its composition
  - Increasing water intake to recommended amount
  - Plaque control and removal
  - Preventing oral trauma from sports and other injuries
  - Promoting the use of fluorides
  - Regular visits to oral health practitioners
- Consequences of oral disease may include but are not limited to:*
- Behavioural change
  - Emotional and psychological issues
  - Financial impact e.g. loss of employment
  - Ill health
  - Impaired social interaction
  - Inability to concentrate related, for example, to pain
  - Infection
  - Missed school or work days
  - Nausea
  - Noticeable physical changes
  - Nutritional deficiencies
  - Pain which may vary from minor to extreme levels
  - Possible systemic illness
  - Reduced life span
  - Reduced quality of life
  - Reduced self-esteem

## RANGE STATEMENT

- Speech impairment
- Oral hygiene techniques may include, but are not limited to:*
- Appropriate use of oral health products, including fluoride toothpaste and alcohol-free mouthwash when recommended
  - Cleaning and maintaining of full and partial dentures and all natural teeth
  - Manual and electric tooth-brushing techniques
  - Modifications to toothbrush handles for specific needs of client/carer e.g. as modified by an occupational therapist
  - Techniques for clients with specific needs e.g. cognitive impairment, physical disability, aged clients and carers, young children and babies
  - Techniques required for clients wearing oral appliances e.g. braces, crowns, implants and dentures
  - Use of other specific oral hygiene aids when specified in client's oral health care plan
- Appropriate aids may include:*
- Alcohol-free mouthwash
  - Face mirror for client
  - Interdental brushes
  - Range of manual and electric toothbrushes
  - Range of oral hygiene aids e.g. mouth props
  - Range of toothpastes
- Standard precautions refer to infection control which includes:*
- Wash hands before and after oral care
  - Appropriate use of personal protective equipment (PPE):
    - eye/facial protection e.g. glasses/face shield
    - gloves
    - gown
    - mask
  - Disposal of PPE
- Toothbrushing may include:*
- Using currently accepted methods to clean:
- natural teeth
  - fixed and removable prostheses

## RANGE STATEMENT

- soft tissue

*Knowledge, attitude and behavioural changes may include:*

- Appropriate infant feeding, including:
  - breast and bottle feeding
  - introduction of solids
- Cessation of smoking
- Ensuring fluoride intake
- Improved diet and nutrition, including reduced frequency of drinks containing acid and sugars, such as carbonated drinks, fruit juices and sports drinks
- Improved oral hygiene techniques and practices, including increased salivary flow
- Increased sense of control over own oral health
- Increased use of oral health services
- Limiting foods or drinks that stay in the mouth for long periods of time
- Reduced frequency of snacking
- Use of strategies to minimise harm from licit and illicit drugs

## Unit Sector(s)

## Unit Descriptor

### Descriptor

This unit describes the skills and knowledge required by workers to provide educational and motivational information that promotes oral health care in a way that encourages clients to take action to improve and maintain their own oral health as a contributing factor to general health

## Application of the Unit

### Application

This unit is intended to address skills and knowledge appropriate for workers in a range of health and community services environments whose work roles provide them with an opportunity to:

- promote the importance of good oral health care
- encourage clients to use good oral health care practices

## ELEMENT

## PERFORMANCE CRITERIA

factors, including the *importance of diet and nutrition*

2.4 Provide information on the causes and problems of poor oral health, including *dental plaque, dental caries, dental erosion* and *periodontal disease*

2.5 Provide information on the causes and *prevention of oral diseases, consequences of oral diseases* and the impact of oral health on general health and well being

2.6 Provide information on prevention of oral injury and injury management

2.7 Provide information on oral pain and options for appropriate management

2.8 Provide information on available oral health care resources, services and referral pathways, including *oral health practitioners, other health practitioners* and specialist resources

2.9 Ensure flexible approach to delivery, using materials and *methods* that take into account social and cultural determinants of health, location, economic and physical circumstances, age, culture, capability and communication needs of the target audience

2.10 Maintain client confidentiality in line with organisation and legislative guidelines

3. Provide specific information on oral hygiene self-care techniques and *appropriate aids*

3.1 Provide information on and demonstrate a variety of relevant oral hygiene techniques, including appropriate infection control practices

3.2 Provide information on the use of appropriate aids and explain their advantages in terms of achieving and maintaining effective oral hygiene

3.3 Provide appropriate information to assist people with *special needs* with their oral hygiene self care technique

3.4 Encourage clients to follow effective oral hygiene practices and to make *knowledge, attitude and behavioural changes* where necessary

4. Follow up and reinforce oral health information

4.1 Obtain feedback from the client and/or group to determine whether the information is correctly received

## ELEMENT

## PERFORMANCE CRITERIA

and understood

4.2 Implement a review strategy to determine the effectiveness of the oral health information session and whether planned outcomes for the target audience were met

4.3 Implement changes to information or delivery processes based on review outcomes

4.4 Regularly update and maintain records of oral health care programs according to organisation policies and procedures

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Awareness of the National Oral Health Plan and other relevant state, territory and national government policy and programs
- Basic anatomy and physiology underpinning oral health
- Causes and prevention of tooth wear, including erosion, abrasion and attrition
- Effective self-care practices for oral health
- Factors that impact on oral health, including:
  - abuse
  - access to services
  - accumulation of plaque and calculus
  - alcohol, licit and illicit drugs and substances and over the counter and herbal treatments

## REQUIRED SKILLS AND KNOWLEDGE

- alcohol misuse
- bacteria in dental plaque
- client education
- correct infant feeding practices
- diet and nutrition, including fluids
- fluoride
- general health and wellbeing
- immunosuppressant conditions
- medical history
- oral piercings
- psychological issues, such as fear of being seen without dentures or persisting with ill fitting dentures for satisfaction of others
- salivary function
- smoking
- social and cultural determinants of health
- susceptible tooth surfaces
- transmission of bacteria particularly from parent to child
- trauma, such as from seizures
- Guidelines for use of relevant technology, including information technology
- Healthy eating and drinking recommendations as identified in the National Health and Medical Research Council's (NHMRC) Australian Dietary Guidelines
- Impact of certain health conditions and related treatments on oral health e.g. immunosuppressant conditions, HIV, chemotherapy and radiation
- Individual motivating factors for improving oral health

*continued ...*

### *Essential knowledge (cont'd):*

- Legislation and organisation policies and procedures relating to client confidentiality, documentation and infection control standards
- Oral disease and broad treatment options available
- Oral health information, including oral hygiene techniques
- Oral injury prevention and management:
  - first response e.g. falls, teeth falling out, swallowing teeth, soft tissue damage, such as that related to seizures
  - mouth guards
- Oral side effects of medications, such as metallic taste in the mouth, dry mouth syndrome and ulcers
- Own role in client health education and where it fits on the continuum of health

## REQUIRED SKILLS AND KNOWLEDGE

- promotion e.g. policy, communication and action
- Referral pathways for both private and public oral health services
- Relevant evaluation criteria for monitoring effectiveness of oral health care program
- Risk and preventive factors associated with oral disease
- Roles of oral health practitioners
- Saliva and its role in the maintenance of oral health:
  - acting as a lubricant
  - delivering calcium, phosphate and fluoride to the tooth surface
  - its effect on the ability to swallow
  - protecting teeth by neutralising acid
- Specific oral health information related to special needs due to disability, aged care, children's needs, general health, language, culture and social circumstances
- Symptoms and signs that suggest a need for further assessment
- The interaction between oral health and general health

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Acknowledge client ability with oral health self-care and encourage and motivate them to improve, including encouraging friends, family and/or carers where appropriate
- Carry out effective oral health self-care practices
- Communicate effectively with a wide range of people to provide information that addresses their oral health care needs in a manner that takes into account their specific requirements, including the use of augmentative and alternative communication strategies where required
- Evaluate how well target audience has understood information provided
- Reflect on and improve own level and application of skills and knowledge to achieve desirable outcomes and maintain own capabilities
- Use evaluation skills to review the effectiveness of oral health information provided
- Use initiative in finding opportunities to promote oral health care
- Use relevant technology, including information technology safely and effectively

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply basic problem solving skills to resolve problems within organisation protocols
- Apply literacy and numeracy skills required to fulfill work role in a safe manner and as specified by the organisation
- Consistently demonstrate interpersonal skills, including empathy when relating to people

## REQUIRED SKILLS AND KNOWLEDGE

from a range of backgrounds and abilities

- Work effectively with clients, colleagues and supervisor

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider the particular workplace context

*Access and equity considerations:*

- All workers in health and community services environments should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and/or Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and/or Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

## EVIDENCE GUIDE

### *Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include:
  - access to appropriate workplace where assessment can take place
  - simulation of realistic workplace setting

### *Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competency will include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Consistency of performance should be demonstrated over a range of relevant workplace conditions

### *Related units:*

- This unit may be assessed independently or in conjunction with other units with associated workplace application, such as:
  - CHCPROM401B Share health information
  - BSBCMM401A Make a presentation
  - Chronic disease self-management skill set
- Where this function involves working with groups, candidates may need to undertake a unit in working with groups, such as:
  - CHCGROUP403D Plan and conduct group activities

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Good oral health refers to but may not be limited to:*

- A person's mouth that has:
  - breath without offensive odour
  - inflammation and lesion-free soft tissue
  - intact and stable teeth without cavities
  - moist lips without chapping
  - no build up of food, calculus or plaque
  - no oral pain
  - pink, moist, uncoated tongue
  - watery plentiful saliva
- Looking after the whole mouth, including natural and artificial teeth, gums, tongue, lips and inside the cheeks
- Oral health related quality of life factors, such as appearance, social interaction and self esteem

*Oral health messages refers to:*

- State, territory or national statements that include evidence based current best practice techniques and strategies for maintaining good oral health

*Oral health issues may be related to:*

- Damage to teeth due to trauma
- Damage to soft tissues e.g. due to smoking or prescribed and non-prescribed drugs and over the counter and herbal treatments
- Dental decay
- Developmental abnormalities
- Non-carious tooth wear:
  - abrasion
  - attrition
  - erosion (acid)

## RANGE STATEMENT

- Oromotor impairment
- Periodontal disease
- Physical impairment
- Poor nutrition and eating and drinking habits
- Poor oral hygiene
- Poorly fitting or lack of dentures and other prosthesis
- Quality and quantity of saliva
- Soft tissue lesions
- Systemic conditions

*Risk factors for oral diseases may include but not be limited to:*

- Age-related deterioration
- Bleeding gums
- Chronic conditions, such as diabetes
- Cognitive, physical or psychological disability
- Diet and nutrition related factors, including:
  - consumption and frequency of foods with high sugar content and/or highly acidic drinks, such as carbonated drinks, fruit juices and sports drinks
  - incorrect use of infant feeding and dummies in babies/children
- Eating disorders
- Exposure to radiation and chemotherapy
- High levels of plaque
- Impact of chewing tobacco
- Impact of smoking
- Lack of fluoride
- Lack of regular dental visits
- Mental illness or disorder
- Metabolic disorders
- Oral piercing
- Poor oral hygiene
- Salivary function
- Use and misuse of alcohol, licit and illicit drugs and substances and over the counter and herbal treatments e.g. opioids and psychotropic drugs

*Oral hygiene techniques refer to the care of teeth, soft tissue and prostheses and may include, but*

- Appropriate use of oral health products, including fluoride toothpaste and alcohol-free mouthwash when recommended
- Cleaning and maintaining of full and partial dentures

## RANGE STATEMENT

*not be limited to:*

and all natural teeth

- Manual and electric tooth brushing technique
- Modifications to toothbrush handles for specific needs of client/carer e.g. as modified by an occupational therapist
- Techniques for clients with specific needs e.g. cognitive impairment, physical disability, aged clients and carer, young children and babies
- Techniques required for clients wearing oral appliances e.g. braces, crowns, implants and dentures
- Use of other specific oral hygiene techniques and aids as specified in client's oral health care plan

*Social and cultural determinants of health refer to:*

- The socio-economic and cultural factors that affect the living circumstances, quality of life, health literacy and in turn the health and wellbeing of individuals and communities

*Individual motivations may include but are not limited to:*

- Access to services
- Financial priorities
- General health and wellbeing
- Independence
- Pain management
- Potential consequences of poor oral hygiene, including impact on general health and specific health issues
- Previous experience of oral health care
- Psychological e.g. fear of being seen without dentures
- Self-awareness of personal appearance
- Self-esteem and social interaction

*Oral health information may include but is not limited to:*

- Brochures, posters and information sheets
- Models and mirrors
- PowerPoint presentations
- Resources available for specific groups, such as children, people from culturally and linguistically diverse backgrounds and people with disabilities
- Videos/DVDs/CD-ROMs
- Web based resources, such as those available on the

## RANGE STATEMENT

National Oral Health Clearinghouse and government health department websites, including oral health messages

*Planned outcomes refer to:*

- The intended change in oral health knowledge, attitude and behaviour specific to the needs of the individual or group

*Target audience may include but is not limited to individuals and groups who are:*

- Aboriginal and Torres Strait Islander peoples
- Children and adolescents
- Financially or socially disadvantaged
- Friends, families and/or carers of clients
- From culturally and linguistically diverse backgrounds, including refugees and migrants
- Living in rural, remote or isolated areas
- Older people
- Palliative care clients
- People with chronic disease e.g. diabetes and osteoporosis
- People with disability and/or support needs
- People with immunosuppressed conditions
- People with mental health issues
- People with substance misuse issues
- Pregnant women
- Taking medications that affect oral health
- Young parents

*Importance of diet and nutrition on oral health may include:*

- Ensuring dietary habits, including fluids are in line with current Australian Dietary Guidelines and taking into consideration:
  - composition
  - consistency
  - following
  - frequency of intake
  - quantity of intake
- Impact of cariogenic and acidic food and drinks

## RANGE STATEMENT

- Dental plaque refers to:*
- A biofilm containing bacteria deposited on the teeth and associated with the development of dental caries
- Dental caries refers to:*
- A disease where bacterial processes damage hard tooth structure (enamel, dentine, and cementum)
  - also known as tooth decay
- Dental erosion refers to:*
- Erosion of the tooth enamel and possibly the dentine caused by acids not of bacterial origin, such as those in acidic foods, acidic drinks and stomach acids
- Periodontal disease refers to:*
- Diseases of the gum and/or the supporting bone that range from simple gingival or gum inflammation to serious disease that results in major damage to the soft tissue and bone that support the teeth:
  - gingivitis and periodontitis
  - characterised by:
    - bad breath (halitosis)
    - bleeding gums
    - discomfort in the gums
    - inflammation/infection
    - loosening of the teeth
    - receding of the gums
    - spaces opening between teeth
- Prevention of oral diseases may include but is not limited to:*
- Addressing alcohol, drug and substance misuse issues within a harm minimisation framework
  - Appropriate timing of oral hygiene e.g. after food or medication
  - Dietary change
  - Effective oral health self-care practices
  - Encouraging smoking cessation
  - Increasing salivary flow and optimising its composition
  - Increasing water intake to recommended amount
  - Plaque control and removal
  - Preventing oral trauma from sports and other injuries
  - Promoting the use of fluorides

## RANGE STATEMENT

- Regular visits to oral health practitioners
- Consequences of oral diseases may include but are not limited to:*
- Behavioural change
  - Emotional and psychological issues
  - Financial impact e.g. loss of employment
  - Ill health
  - Impaired social interaction
  - Inability to concentrate related, for example, to pain
  - Infection
  - Missed school or work days
  - Nausea
  - Noticeable physical changes
  - Nutritional deficiencies
  - Pain which may vary from minor to extreme levels
  - Possible systemic illness
  - Reduced life span
  - Reduced quality of life
  - Reduced self-esteem
  - Speech impairment
- Oral health practitioners include:*
- Dental assistants
  - Dental hygienists
  - Dental prosthetists
  - Dental specialists e.g. orthodontist
  - Dental technicians
  - Dental therapists
  - Dentists
  - Oral health therapists
- Other health practitioners include but are not limited to:*
- Aboriginal and/or Torres Strait Islander health workers
  - Dietitians
  - Enrolled nurses
  - General practitioners
  - Health promotion officers
  - Nutritionists
  - Occupational therapists
  - Registered nurses

## RANGE STATEMENT

- Speech pathologists
- Methods of delivery may include but are not limited to:*
  - Audio visual presentation
  - Augmentative and alternative communication systems
  - Pamphlets and flyers
  - Pictures
  - Verbal presentation
  - Written documents
- Appropriate aids may include:*
  - Face mirror for client
  - Range of interdental aids
  - Range of manual and electric toothbrushes
  - Range of toothpastes
  - Range of topical self-care products e.g. alcohol-free mouthwash, fluoride supplements and tooth remineraliser
  - Resources e.g. teaching models
- Special needs include but are not limited to:*
  - Anxiety, including as a trigger for seizures
  - Cognitive impairment
  - Communication impairment
  - Cultural preferences
  - High gag reflex
  - Homelessness/rough sleeping
  - Immunosuppressed conditions
  - Intellectual disability
  - Language barriers
  - Mental illness
  - Oromotor impairment
  - Physical impairment
  - Swallowing disorder
- Knowledge, attitude and behavioural changes may include:*
  - Appropriate infant feeding, including:
    - breast and bottle feeding
    - introduction of solids
  - Cessation of smoking
  - Ensuring fluoride intake

## RANGE STATEMENT

- Improved diet and nutrition, including reduced frequency of drinks containing acid and sugars, such as carbonated drinks, fruit juices and sports drinks
- Improved oral hygiene techniques and practices, including increased salivary flow
- Increased sense of control over own oral health
- Increased use of oral health services
- Limiting foods or drinks that stay in the mouth for long periods of time
- Minimised harm from illicit drug use
- Reduced frequency of snacking

### Unit Descriptor

**Descriptor**

This unit describes the skills and knowledge required by workers to carry out basic oral health screening of clients using tools that are accepted by the oral health sector

### Application of the Unit

**Application**

This unit is appropriate for workers in a range of health and community services environments whose work roles involve the type of interactions with clients that would enable the use of basic oral health screening tools

Application could be stand alone or as part of other screening processes to identify the need for referral to an oral health practitioner or for additional education or instruction in oral health care

Examples of tools that are accepted by the oral health sector for oral health screening are listed in the Range Statement of this unit

### PERFORMANCE CRITERIA

- |                                                                                       |                                                                                                                                                                                                                    |
|---------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Prepare for and participate in <i>basic routine oral health screening services</i> | 1.1 Explain <i>screening</i> procedure and rationale to clients                                                                                                                                                    |
|                                                                                       | 1.2 Take into account client's ability to self report                                                                                                                                                              |
|                                                                                       | 1.3 Seek information and guidance on <i>tools to work with certain individuals</i> and the most suitable approach, taking into consideration factors such as, cognitive ability, communication methods and culture |
|                                                                                       | 1.4 Obtain feedback from client to determine that procedure is understood and obtain consent from client or relevant <i>substitute decision maker</i> to conduct screening                                         |
|                                                                                       | 1.5 Prepare screening materials and documents                                                                                                                                                                      |
|                                                                                       | 1.6 Perform basic routine screening in line with <i>legislative requirements</i> , organisation requirements and within own work role                                                                              |
|                                                                                       | 1.7 Use only <i>screening tools that are currently</i>                                                                                                                                                             |

**ELEMENT****PERFORMANCE CRITERIA**

*accepted by the oral health sector* and are fit for basic oral health screening as part of client support work

1.8 Use tools correctly, strictly according to instructions, guidelines and/or training approved by the oral health sector'

2. Follow screening tool questioning, observation and recording requirements

2.1 Use screening tool to question clients about their oral health taking into account *specific individual issues*

2.2 *Document and record* client responses to questions

2.3 Record observations about client's oral health in appropriate format according to tool and *organisation guidelines*

2.4 Consult with *other health personnel* where necessary to assist with, confirm or clarify screening and recording processes and outcomes

2.5 Complete reporting processes using information from client, significant others and own observations

2.6 Confirm available and appropriate referral pathways to address identified client needs in line with own work role

2.7 Where appropriate and in consultation with others where necessary, refer clients to address identified needs for oral health education and/or assessment

2.8 Where screening was unsuccessful report and follow up appropriately

3. Review screening process and outcomes

3.1 Ask for *feedback* from clients and other relevant stakeholders to determine the effectiveness of screening processes and identify any issues in own use of screening tool/s

3.2 Where appropriate, discuss with clients and other relevant stakeholders any issues or obstacles relating to referrals made

3.3 Discuss feedback with other members of the team and take appropriate action to address feedback where required

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Own role in oral health screening
- Relevant referral pathway options
- Relevant screening tools and procedures and associated rationale for use
- Relevant workplace policies, procedures and programs for screening

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Communicate effectively to provide information and ensure understanding of information provided in a range of formats
- Consult effectively with other health and community services personnel
- Reflect on and improve own level and application of skills and knowledge to achieve desirable outcomes and maintain own capabilities
- Use appropriate referral practices and pathways
- Use approved simple oral health screening tool/s appropriately and effectively in line with established oral health sector guidelines
- Use communication skills to effectively establish a relationship of trust with clients and/or family or significant others
- Use relevant technology, including information technology safely and effectively

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply basic problem solving skills to resolve problems within organisation protocols
- Apply literacy and numeracy skills required to fulfill work role in a safe manner and as specified by the organisation
- Consistently demonstrate interpersonal skills, including empathy when relating to people from a range of backgrounds and abilities
- Incorporate oral health screening processes with other organisation screening
- Work effectively with clients, colleagues and supervisors

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider the particular workplace context

*Access and equity considerations:*

- All workers in health and community services environments should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and/or Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include:
  - access to appropriate workplace where assessment can take place
  - simulation of realistic workplace setting

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competency will include observation of processes and procedures, oral and/or written questioning on essential knowledge and skills and consideration of required attitudes
- Consistency of performance should be demonstrated over a range of relevant workplace conditions

*Related units:*

- This unit may be assessed independently or in conjunction with other units with associated workplace application

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Basic routine oral health screening services may include:*

- Routine screening by age, sex, ethnicity and regional disease prevalence
- Screening practices in line with relevant, organisation, local, state, territory and national guidelines

*Screening refers to:*

- Following a process to collect specific information and determine a prescribed course of action

*Tools to work with certain individuals may include but not be limited to:*

- Abbey pain scale - an augmentative pain screening tool for people with cognitive impairment, such as that caused by dementia
- Augmentative or alternative communication systems,

|                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| <i>Document and record may</i>                                                        | <ul style="list-style-type: none"><li>• Photographs</li></ul>                                                                                                                                                                                                                                                                                                                                                                          |

*include the use of:*

- Verbal reports
- Written reports

*Organisation guidelines may include but are not limited to:*

- Clinical protocols
- Position descriptions
- Workplace policies and procedures, including:
  - infection control
  - work health and safety (WHS)

*Other health personnel may include but are not limited to:*

- Aboriginal and/or Torres Strait Islander health workers
- Allied health professionals, such as:
  - dietitians
  - health promotion officers
  - nutritionists
  - occupational therapists
  - physiotherapists
  - speech therapists
- General practitioners
- Members of the community who provide health care
- Nurses
- Oral health practitioners
- Specialists

*Feedback may be provided:*

- As a recording using sound or visual media
- In writing
- Using symbols or drawings
- Verbally

| HLTCSD306C Respond effectively to behaviours of concern | HLTCSD306D Respond effectively to behaviours of concern | Unit updated in V5 - Changed 'challenging behaviour' to 'behaviours of concern' |

### Unit Descriptor

**Descriptor**

This unit of competency describes the skills and knowledge required to respond effectively to behaviours of concern in clients and others

These skills are associated with handling difficult incidents rather than managing ongoing behaviours

### Application of the Unit

**Application**

The unit will be suitable for work roles such as Security Officers, Care Assistance Workers and others exposed to behaviours of concern

Application of this unit should be contextualised to reflect any requirements, issues and practices specific to each workplace

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Plan response

- 1.1 Identify appropriate response to potential instances of *behaviours of concern* in line with work role and organisation policies and procedures
- 1.2 Ensure *planned responses* to behaviours of concern maximise the availability of other appropriate staff and resources
- 1.3 Give priority to safety of self and others in responding to behaviours of concern

#### 2. Apply response

- 2.1 Ensure response to instances of behaviours of concern reflect organisation policies and procedures
- 2.2 Seek assistance as required
- 2.3 Deal with difficult or challenging behaviour promptly, firmly and diplomatically in accordance with *organisation policy and procedure*
- 2.4 Use communication effectively to achieve the desired outcomes in responding to difficult or challenging behaviour
- 2.5 *Select* appropriate *strategies* to suit particular instances of difficult or challenging behaviour

**ELEMENT****PERFORMANCE CRITERIA**

- |                                |                                                                                                                    |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------|
| 3. Report and review incidents | 3.1 Report incidents according to organisation policies and procedures                                             |
|                                | 3.2 Review incidents with appropriate staff and offer suggestions appropriate to area of responsibility            |
|                                | 3.3 Access and participate in available debriefing mechanisms and associated support and/or development activities |
|                                | 3.4 Seek advice and assistance from legitimate sources as and when appropriate                                     |

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Client issues needing to be referred to an appropriate health professional
- OHS issues relating to difficult and challenging behaviour
- Organisation's reporting processes

*Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

## REQUIRED SKILLS AND KNOWLEDGE

This includes the ability to:

- Effectively use techniques for monitoring own service area including client satisfaction
- Foresee and respond quickly and effectively to contingencies
- Identify when assistance is required
- Interpret and follow the instructions and guidance of health professionals involved with the care of client
- Maintain duty of care
- Maintain personal safety and the safety of others
- Monitor and/or maintain security equipment
- Remain alert to potential incidents of difficult or challenging behaviour
- Remain calm and positive in adversity
- Speak in a firm, diplomatic and culturally appropriate manner
- Think and respond quickly and strategically
- Use literacy skills in reading, writing and oral communication to fulfil job role in a safe manner and as specified by the organisation, including:
  - understand symbols used in OHS signs
  - read workplace safety pamphlets or procedure manuals and labels
  - use appropriate verbal and non verbal communication styles
  - ask questions
  - provide clear information
  - listen to and understand workplace instructions and clarify when necessary
  - apply literacy skills as required in English or a community language.
- Use numeracy skills to complete basic arithmetic calculations such as addition, subtraction, multiplication, division to recording numbers
- Use problem solving skills to:
  - effectively utilise available resources
  - prioritise workload
- Work with others and display empathy with client and relatives

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

## EVIDENCE GUIDE

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace (simulating difficult or challenging behaviour) or in a simulated workplace and under the normal range of work conditions
- This unit can be assessed independently, but holistic assessment practice is encouraged with other related units of competency
- Assessment may be conducted on one occasion but should include a diverse range of sources of difficult and challenging behaviours, as may be expected in the workplace
- A diversity of assessment tasks is also essential for holistic assessment

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating

## RANGE STATEMENT

conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Planned responses may be based on:*

- Established organisation procedures
- Knowledge of individual persons and underlying causes
- Own ability and experience

*Difficult or challenging behaviours may include:*

- Aggression
- Confusion or other cognitive impairment
- Intoxication
- Intrusive behaviour
- Manipulation
- Noisiness
- Self-destructive
- Verbal offensiveness
- Wandering

*Strategies for dealing with challenging behaviours may include:*

- Diversional activities
- Following established emergency response procedures
- Referring to appropriate personnel eg supervisor, security officer

*Selection of strategies for dealing with challenging behaviours may be based on:*

- Established procedures and guidelines
- Potential effect on different parties, clients, staff and others
- The nature of the incident

*Organisation policies and procedures may include:*

- Debriefing of staff involved in incident
- Incident reporting and documentation
- Operational guidelines for handling incidents and/or cases involving difficult and challenging behaviour

## Unit Sector(s)

No change to competency outcome. |

### Unit Descriptor

#### Descriptor

This unit describes foundation knowledge and skills required to provide suicide intervention in the context of a telephone counselling service to persons potentially at risk, those concerned about someone at risk and people dealing with the aftermath of a suicide

The focus is on competencies that enable the telephone counsellor to identify and manage immediate suicide risk in the context of a supportive counselling relationship that seeks to work collaboratively with the caller to achieve safe outcomes

Safe outcomes in this context include a clear safety plan for addressing any immediate danger to the person at risk, or others, mobilising access to emergency medical help when needed and facilitating links with resources able to offer further assessment and care

The needs and safety of the caller are the primary focus in any suicide call

However, interventions also need to consider and address the safety of those offering help and potential risk to others in the situation

## Application of the Unit

### Application

The unit addresses opportunities for suicide intervention available to the telephone counsellor that recognise the potential and limits of the telephone medium and feature its role in linking callers with further resources

Telephone counsellors will be persons with training appropriate to their role who apply learning as employees or community volunteers

Competence in basic helping skills and crisis intervention is foundational preparation for this unit

## Licensing/Regulatory Information

## Pre-Requisites

Not Applicable

## Employability Skills Information

**Employability Skills** This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. *Identify and assess a caller's current suicide risk*

- 1.1 Recognise and respond to signs (such as statements, reactions, thoughts, feelings or disclosed behaviours) indicating that a caller may be considering or affected by suicide
  - 1.2 Attend to any hunches while listening to a caller, perhaps from indirect communications that suggest they may be considering suicide
  - 1.3 Ask directly about suicide whenever there are grounds for concern
- If suicide thoughts are present:
- 1.4 Seek sufficient understanding of why the person is considering suicide, and what links them to life, to guide and facilitate the intervention
  - 1.5 Assess current suicide risk guided by *risk assessment* considerations outlined in the Range Statement and by whether there is an imminent threat to the caller's safety or the safety of others

2. Apply telephone counselling skills to reduce immediate risk of suicide and increase caller safety

- 2.1 Build a collaborative, empathic working relationship with the caller that acknowledges how thoughts of suicide and painful feelings behind them may affect their safety
- 2.2 Listen to what lies behind thoughts of suicide, while affirming and strengthening the links to safety and living implicit in search for help that prompted the call
- 2.3 Work with the caller to develop and implement a safety plan that builds on an assessment of suicide risk and reduces the immediate danger of self-harm or suicide
- 2.4 Facilitate access to emergency medical help in any call where it is assessed to be needed to address an imminent threat to the caller's life or safety (such as a potential suicide in progress)
- 2.5 Remain mindful of and address, as much as possible over the phone, potential risk to the safety of others involved in the situation
- 2.6 Be aware of situations where police may need to be involved to address the safety of the caller or others and act accordingly

## ELEMENT

## PERFORMANCE CRITERIA

- 2.7 Seek and act on feedback from the workplace supervisor and other internal performance review processes to ensure counselling is lawful, complies with good suicide intervention practice, and organisation policies consistent with that practice, ethical processes and duty of care obligations
- 2.8 Observe work health and safety (WHS) obligations in relation to managing oneself
3. Facilitate and strengthen the caller's links to further care
- Having worked with the caller to take any steps needed to address immediate safety:
- 3.1 Acknowledge how the decision to seek and respond to help in this call has provided foundations for further care
- 3.2 Provide information to enhance the caller's awareness of the nature and *range of available resources* and how to access them
- 3.3 Explore the caller's openness toward available help and where possible address barriers to further help-seeking
- 3.4 Develop with the caller an agreed plan and first steps for accessing and utilising informal supports and professional help that deal with their suicidality and factors associated with it
- 3.5 Encourage further use of telephone counselling support and other services when needed
4. Provide suicide intervention support that resources the caller beyond the immediate suicidal crisis
- When or if it is assessed that there is no imminent risk that needs to be immediately addressed:
- 4.1 Identify those aspects of the caller's distress and concern related to their suicidal thoughts that most need attention now
- 4.2 Help the caller identify coping strategies (both internal and external) which prepare them to manage any recurrence of suicidal thoughts in future, highlighting steps they could take to increase their safety and get help
- 4.3 Determine whether underlying mental health concerns or personal circumstances (such as depression, substance misuse, significant losses or trauma) are

## ELEMENT

## PERFORMANCE CRITERIA

present and require further help

4.4 Provide counselling support to any caller concerned about someone at risk of suicide by exploring and determining the basis of concern and the potential role they may play in increasing that person's safety

4.5 Provide counselling support to any caller impacted by someone else's suicide to ensure the nature of their concerns is explored, threat of risk to caller is evaluated and access to further help is facilitated

4.6 Comply with laws, *ethical guidelines and policy requirements that affect duty of care*

4.7 Document the suicide risk assessment and safety plan, including any follow up steps taken and the rationale behind them

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Awareness that suicide risk may potentially feature in any call
- Knowledge of common indicators or signs of potential suicide risk
- Principles and practices of suicide intervention - particularly the tasks of suicide risk assessment, risk management, development of safety plans and facilitation of access to ongoing support
- Principles and practice of crisis intervention, including relevant laws, ethical guidelines and policy requirements which affect duty of care
- Applications of crisis intervention principles and practices to the telephone counselling medium
- Procedures for facilitating referrals and emergency interventions
- Awareness of personal attitudes, beliefs and values and how these might facilitate or impede suicide intervention
- Examination of common notions about suicide in the light of available evidence

- General awareness of how mental health issues may impact on crisis intervention and suicidal crises
- Principles of self care and support-seeking relevant to involvement in crisis and suicide intervention work

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate the capacity to work competently and independently according to the principles of their training and within the general context of the supervisory relationship
- Demonstrate accountability for own professional conduct and practice including:
  - carrying out assigned tasks
  - working effectively under the pressure of crisis situations
  - maintaining the quality of services to the organisation's callers
  - strengthening links to life-sustaining options and supports for calls featuring suicide
  - demonstrating a commitment to attend to the pain of persons considering or affected by suicide and to work toward life-affirming outcomes
- Identify calls which may feature suicide risk or bereavement

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate competent telephone counselling skills in:
  - engaging callers in an empathic, respectful, collaborative helping relationship
  - implementing effective crisis intervention principles and practices
  - providing competent suicide intervention over the phone including:
    - recognition
    - assessment
    - safe management of immediate suicide risk
    - facilitating links to further emergency help or ongoing care as needed
  - facilitating links with higher levels of care including emergency services where necessary
  - practising self-monitoring and self care
  - seeking and integrating supervisory support
  - maintaining documentation as required, including effective use of relevant information technology in line with WHS guidelines

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Work will be assessed in accordance with professional standards of care commensurate with the telephone counselling role
- Assessment must occur in the workplace or similar environment conducive to professional work over a number of occasions

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources for training in and assessment of crisis intervention competencies needs to be available to:
  - provide initial and ongoing training
  - ensure baseline knowledge and skills following basic training
  - observe implementation of these competencies in actual counselling situations and simulated role plays
  - facilitate learning through reflection on practice

and integration of supervisory feedback

*Method of assessment:*

- Consistent performance and development would be expected to be demonstrated involving a combination of oral and written media while also featuring simulated and actual practice
- Examples might include:
  - group exercises
  - written (e.g. journal) and verbal responses to questioning
  - simulated exercises
  - observation of practice on telephone shifts
  - response to and integration of supervisory feedback

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*General context of the suicide intervention work:*

- Telephone counselling will normally be provided in the context of a 24-hour telephone counselling service within the framework of the organisation's guidelines and competency requirements that reflect good suicide intervention practice
- Telephone counsellors will have received training in generalist telephone counselling skills and in the principles and practices of crisis intervention
- Supervision on 24-hour call may be accessed during a call when needed and must be consulted in certain mandated situations such as a potential suicide in progress
- Other professional community resources such as Poisons Information Service, Ambulance or Police should be accessed as needed
- Intervention builds on the caller's desire for help and links to living, evident in making the call, despite the

ambivalence about living and dying that is often present

*Identify and assess a caller's current suicide risk involves:*

- Vigilance about the potential for suicide risk in any caller
- Recognising the wide range of warning signs that invite help and prompt enquiry about suicide
- Asking directly about thoughts of suicide where there are any grounds for concern

*Risk assessment involves:*

- Recognising that any suicide thoughts or acts of deliberate self-harm signal significant distress, pose potential risk of injury or death and should be taken seriously
- Assessing factors that indicate suicide risk which include, but are not limited to, the following:
  - concern is aroused by the presence of suicide thoughts and things often associated with these thoughts, such as:
    - a desire to escape pain that feels unbearable
    - a sense of hopelessness
    - current difficulty seeing alternatives to suicide
    - feeling alone
  - immediate risk is increased when a person has begun acting on their suicide thoughts or is preparing to do so and/or has expressed suicidal intent - for example:
    - possible suicide in progress
    - presence of a suicide plan
    - available means
  - risk can be exacerbated if the caller is under the influence of excessive alcohol or other drug use
  - pertinent background factors, particularly prior suicidal behaviour and the presence of significant mental health problems should be carefully assessed

A wide variety of contextual or personal considerations help inform assessments and may include such things as:

- significant loss
- trauma
- the impact of another person's suicide

- a pattern of extreme agitation, anger/violent behaviour
- Identifying sources of safety and support within the caller (such as coping skills and beliefs) and around them (such as friends, family and community services)
- Connections to life and living are usually present alongside thoughts of suicide and can provide foundations to build upon in increasing caller safety

*Safety outcomes include:*

- Recognising that:
  - vigilance about safety with all suicide related thoughts or behaviours is essential, even though the caller may have been influenced by a wide range of motives in considering or engaging in deliberate self-harm
  - risks to life and safety can often be greater than callers recognise or intend, so safe outcomes are a primary focus, regardless of stated caller intentions, especially given the limited contextual information available in a telephone counselling intervention
- Implementing suicide safety plans that should be tailored to the caller, but typically include:
  - affirm and build on the desire for help and safety implicit in the call
  - work with the caller to identify and act on clear cooperative steps for reducing immediate risk of suicide or any self-harm during and immediately after the call
  - focus specifically on factors, plans and behaviours, including unsafe use of alcohol and other drugs, that endanger the caller at this particular time and seek to engage them cooperatively in steps that safely manage and reduce that risk
  - enable prompt, timely action that increases support, mobilises access to emergency medical help when needed and reduces the likelihood that the person will act on their suicidal thoughts
  - seek to create a calm environment that promotes safety for the person at risk and others involved in the situation
  - access support and follow up advice from the organisation's supervisor/coordinator that reflects

lawful good suicide intervention practice and follows crisis management and emergency procedures

*The range of available resources include:*

- Informal support
- Professional help
- Future use of telephone counselling service

A productive connection between the caller and counsellor that accompanies risk assessment and safety management can strengthen hope and motivation to commit to the safety plan and engage further with helping resources

*Appropriate counselling support to people with thoughts of suicide will include:*

- The following general practices as a context for risk assessment and safety management:
  - developing an empathic, collaborative counselling relationship
  - recognising that the presence of any thoughts of suicide elevate risk and require plans to increase safety
  - understanding how these thoughts are linked to particular events or experiences - particularly involving loss, a suicide death or trauma - and the person's reaction to them
  - hearing feelings often found behind these thoughts such as pain, and the desire to escape it
  - listening for perceptions such as the caller's current difficulties in seeing alternatives to suicide
  - conducting careful assessment and management of suicide risk
  - developing and implementing a safety plan based on this assessment that includes safely reducing access to suicide methods and generally minimising the harm of any suicidal acts already in progress (e.g. mobilising an emergency medical response)
  - addressing problems in living and strengthening supportive life links and relationships once immediate safety has been addressed

*Appropriate counselling support to people concerned about someone at risk include:*

- The above set of actions and deciding on:
  - the role the caller might have in reaching out to the person at risk and
  - who else may need to be involved

*Appropriate counselling support to people impacted by someone's suicide includes:*

- Determining the nature of the caller's relationship to the person who died by suicide
- Exploring and responding to the pain and impact of the loss in feelings such as sadness, anger, guilt or remorse
- Asking the caller what aspects of the death or the loss they most need to focus on now and attend to these concerns
- Assessing for suicide risk in the caller
- Exploring internal coping strengths and external supports likely to provide support

*Internal referral systems may include:*

- Training
- The organisation's referral database and files
- Supervisory and on call network
- Support personnel
- Protocols for supervisory consultation during a suicide call and accessing emergency services when necessary
- Literature - including books and brochures

*Ethical guidelines and policy requirements that affect duty of care include:*

- Awareness of appropriate standards of care in suicide intervention
- Observance of any relevant laws
- Compliance with the organisation's ethical code, policies and procedures related to delivery of the telephone counselling service
- Policies about disclosure and confidentiality, including any limits that may apply in suicide intervention
- Responsiveness to caller requests
- Meeting the organisation's training standards
- Seeking assistance and providing referrals
- Participation in supervisory activities and professional development and training

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Identify when to apply *crisis* intervention

- 1.1 Be alert to the need for a crisis assessment and response by evidence of one or more of the following in the client:
- disabling levels of distress
  - difficulty performing daily tasks
  - difficulty fulfilling usual roles and responsibilities
  - possible threats to life or safety
- 1.2 Apply checklists to determine client response as appropriate

2. Apply crisis intervention strategies

- 2.1 Establish rapport and an active working relationship
- 2.2 Affirm help-seeking and instil realistic hope for managing the current crisis
- 2.3 Focus on how past or current problems are affecting present feelings, thoughts and behaviours
- 2.4 Balance the exploration and containment of powerful feelings and disabling thoughts
- 2.5 Balance adoption of a collaborative and directive helping stance according to the client's current capacity for decision-making and coping
- 2.6 Provide structure and strategies for dealing with

**ELEMENT****PERFORMANCE CRITERIA**

the immediate crisis through enabling thoughts and behaviours

2.7 Identify and decide on short-term coping steps

2.8 Provide options for links to further help, actively facilitating these where necessary

3. Apply risk assessment strategies and implement risk management

3.1 Demonstrate vigilance about potential threats to life or safety in managing every crisis situation

3.2 Practise direct inquiry about thoughts of self-harm or harming others when there are slightest grounds for concern

3.3 Practise direct enquiry about possible exposure to harm from others when there are slightest grounds for concern

3.4 Employ risk assessment and risk management strategies whenever needed

3.5 Actively facilitate emergency interventions where assessed to be necessary to protect life or safety

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Principles and practice of crisis intervention, including relevant ethical guidelines and policy requirements which affect duty of care
- Applications of crisis intervention principles and practices to the telephone counselling medium
- Principles and practices of suicide intervention - particularly the tasks of suicide risk assessment and risk management associated with suicide first aid
- Procedures for facilitating referrals and emergency interventions

- The specific requirements of crisis intervention and how they relate to and complement general telephone counselling
- Knowledge of personal attitudes, beliefs and values and how these might facilitate or impede effective crisis interventions
- General awareness of how mental health issues may impact on crisis intervention
- Principles of self care and support-seeking relevant to involvement in crisis intervention work

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate appropriate use of self and accessing appropriate support in providing counselling service in times of crisis so duty of care and safety of client is assured

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - competent counselling skills
  - effective general crisis intervention skills
  - suicide risk recognition, assessment, and management (suicide first aid)
  - consulting appropriately
  - facilitating links with higher levels of care
  - self-monitoring and self care
  - seeking and integrating supervisory support
- Use relevant workplace technology safely and effectively in line with work health and safety (WHS) guidelines
- Maintain documentation as required, including effective use of relevant information technology in line with WHS guidelines

## **Evidence Guide**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

### *Critical aspects for assessment and evidence required to*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills

*demonstrate this unit of competency:*

- Assessment must occur in the workplace or similar environment conducive to professional work

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources for training in and assessment of crisis intervention competencies needs to be available to:
  - provide initial and ongoing training
  - ensure baseline knowledge and skills following basic training
  - observe implementation of these competencies in actual counselling situations and simulated role plays
  - facilitate learning through reflection on practice and integration of supervisory feedback

*Method of assessment:*

- Consistent performance and development would be expected to be demonstrated involving a combination of oral and written media while also featuring simulated and actual practice
- Examples might include:
  - group exercises
  - written (e.g. journal) and verbal responses to questioning
  - simulated exercises
  - observation of practice on telephone shifts

- response to and integration of supervisory feedback

### *Co-requisites*

This unit must be assessed in conjunction with related units:

- CHCTC301C Deliver a service consistent with the organisation's mission and values
- CHCTC302B Provide client-centred telephone counselling

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *A crisis is any situation where:*

- Internal distress over impactful events, painful transitions or problems in living has escalated to the point where it is disabling a person's ability to cope and function
- The person in crisis may be at risk of self-injury or suicide and may sometimes pose a threat to others
- The focus of crisis intervention is constructive management of the immediate situation
- Its primary goals are to promote safety, reduce distress and restore functioning rather than deal with underlying issues or explore long-term strategies for addressing them
- Crisis intervention always involves vigilance about potential threats to life and safety and development of a safety plan to address any imminent danger assessed to be present
- Crisis intervention complements other strategies adopted by the caregiver or counsellor and focuses on stabilising the current situation and providing a bridge to further help
- Once the immediate crisis has been addressed, other strategies designed to provide counselling, treatment

care or support can be commenced or resumed

*General context of work:*

- Counsellors have received training in the principles and practice of crisis intervention, including risk management and suicide first aid
- Work is performed in a setting where ongoing supervision is provided within a team environment
- Supervision on 24-hour call may be accessed during a call should counsellors require it and must be accessed in certain mandated situations such as a potential suicide in progress
- Work will be assessed in accordance with professional standards of care commensurate with the telephone counselling role
- Enterprise requirements and WHS legislation shall be observed

*Working independently must include:*

- Counsellors must demonstrate the capacity to work competently and independently according to the principles of their training and within the general context of the supervisory relationship noted above
- They shall be accountable for their own professional conduct and practice including:
  - carrying out assigned tasks
  - working effectively under the pressure of crisis situations
  - maintaining the quality of services to the organisations callers

*Internal referral systems may include:*

- Training
- Organisations referral database and folders
- Supervisory and on call network
- Support personnel
- Literature - including books and brochures

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Apply knowledge of the mental health sector

- 1.1 Demonstrate basic knowledge of mental health organisations and services
- 1.2 Reflect an understanding of *different service approaches in mental health* in work
- 1.3 Apply basic knowledge of common mental health issues and associated signs and symptoms
- 1.4 Apply basic knowledge of how to respond appropriately to changes in mental health and mental distress and to report appropriately
- 1.5 Clarify statutory requirements and duty of care responsibilities applying to own work, including role, responsibilities, accountabilities and potential consequences of own actions

2. Establish appropriate working relationships with consumers who are living with mental health issues

- 2.1 Demonstrate and apply understanding of and commitment to a consumer's right to self define and direct their own recovery
- 2.2 Use strategies to ensure all contacts with consumers reflect appropriate expression of value systems and consideration of emotional impact of intervention
- 2.3 Use appropriate communication and relationship building processes to facilitate strong positive relationships
- 2.4 Discuss with the consumer possibilities and options for responding to their needs and determine and prioritise preferred action
- 2.5 Respond promptly and supportively to consumers in distress or crisis, respecting the consumer's wishes to

**ELEMENT****PERFORMANCE CRITERIA**

the extent possible in the circumstances, and in accordance with organisation policies and procedures

2.6 Work in collaboration with consumer and their support network to routinely ensure that:

- the consumer's desires, preferences, experiences, knowledge and life skills directly influence the nature and type of services provided
- the consumer's *needs* and *goals* are met
- individual and cultural differences are addressed
- potential barriers and challenges to achieving positive outcomes are identified and appropriately resolved
- appropriate levels of consultation are implemented
- relevant information is collected

2.7 Consistently comply with statutory requirements and duty of care responsibilities

3. Clarify the needs and issues of consumers

3.1 Identify and document consumer's current needs, wants and preferences

3.2 Discuss with the consumer their abilities to address their own needs and aspirations and identify support they require

4. Provide non-clinical services to meet consumer aspirations and needs

4.1 In collaboration with the consumer, consider their experience, knowledge, skills and abilities and ensure these are taken into account in determining strategies to address the impact of their mental distress

4.2 In consultation with the consumer, facilitate the use of appropriate strategies, services and resources

4.3 Negotiate short and long term strategies and implement as appropriate

4.4 Provide services in a manner which supports and encourages independence and consumer self direction

4.5 Follow organisation policy and procedures particularly in relation to consumer and carer rights, best practice principles, *record keeping*, confidentiality and privacy

4.6 Review progress and effectiveness of strategies

**ELEMENT****PERFORMANCE CRITERIA**

with consumer, supervisor and others as appropriate

4.7 Acknowledge limits of own knowledge, abilities and work role and make appropriate referral to other services as required in accordance with organisation policies

4.8 Seek emergency assistance as required

5. Apply self-care strategies

5.1 Maintain a positive work life balance

5.2 Regularly seek and undertake supervision and peer support

5.3 Demonstrate awareness of strategies to address personal physical and emotional needs and apply as appropriate

5.4 Undertake debriefing and seek access to employee assistance programs as required

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Common mental health sector terminology
- Facts/myths about mental illness and psychiatric disability
- Impact of mental illness and/or psychiatric disability on: self esteem, motivation, daily living skills and relationships
- Impact of stigma and discrimination

## REQUIRED SKILLS AND KNOWLEDGE

- Principles and practices of duty of care
- Recovery and recovery oriented practice
- Relevant policy, regulatory, legislative and legal requirements relating to mental health service provision
- Rights and responsibilities of workers, consumers and their care network
- Signs and symptoms of common mental illness

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Access consumer and carer workers, resources and services
- Actively listen
- Communicate effectively
- Complete documentation
- Consult
- Display awareness of self and the impact of self on relationships
- Effective referral including identification of circumstances in which referral to a health or other professional is appropriate
- Facilitate consumer directed collaboration
- Interpret verbal and non verbal communication
- Maintain confidentiality
- Mediate and negotiate
- Network
- Question
- Resolve conflict
- Respond to crisis appropriately
- Use inclusive and person first language
- Use consumer's preferred language, terminology, personal meaning and interpretations
- Write reports

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the

## EVIDENCE GUIDE

Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed on the job or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider the requirements of the particular workplace context

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to a workplace or simulated workplace where assessment may occur

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge

## EVIDENCE GUIDE

and skills and consideration of required attitudes

- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Different service approaches in mental health may include:*

- Medical models
- Psychosocial rehabilitation models
- Recovery oriented practice

*Needs may include:*

- Cultural
- Disability
- Emotional
- Employment
- Financial and economic
- Grief and loss
- Health
- Housing
- Legal
- Mental health
- Physical
- Problematic alcohol and other drugs use
- Sexuality

**RANGE STATEMENT**

- Social
- Spiritual
- Trauma informed care

*Goals may be:*

- Flexible, regularly reviewed and changed
- Formally or informally negotiated
- Generated in accordance with consumer's wishes and aspirations

*Appropriate communication and relationship building processes may include:*

- Collaborative consultation
- Empathy
- Engagement
- Giving hope
- Listening and responding to the person verbal and nonverbal communication
- Non judgemental and sensitive approach
- Rapport building
- Respect
- Valuing and responding to the uniqueness of each person
- Working with the person's own understanding of their experience

*Information is shared within the bounds of confidentiality, and wherever possible, with the consent and knowledge of a consumer, with people such as:*

- Care network
- Case managers
- Consumers
- Family members
- Other services
- Other staff
- Supervisor

*Services provided take into account:*

- Available resources
- Benefit to a consumer and their care network
- Contingency plans

*Strategies may include assistance with:*

- Accessing peer support
- Education about recovery

## RANGE STATEMENT

- Elimination of discrimination
- Encouraging a person's sense of hope and personal value
- Enhancing a person's own sense of agency
- Enhancing and supporting the care network
- Identifying and exploring positive and negative risks with consumers
- Promoting self advocacy and self determination
- Promoting the right of equal and full citizenship with access to all community resources and opportunities
- Removal of barriers to participation
- Supporting people to develop and pursue their recovery goals and aspirations
- Trauma and trauma informed care
- Working with consumers with their choices to live, and work in their community of choice

### *Recordkeeping:*

- Ideally all records should be developed in collaboration with the consumer

### *Records of service provision may include:*

- Advanced directive
- Advocacy letters
- Assessment records
- Care and service plans
- Complaints
- Consent letters
- Consumer's own records of their recovery
- Evaluation forms
- Feedback and satisfaction forms
- File notes
- Individual program plans
- Individual service plans
- Initial contact forms
- Personal records
- Recovery wellness plans
- Referral letters

### *Emergency assistance may be*

- Ambulance
- Clinical mental health services

**RANGE STATEMENT**

*sought from:*

- Cultural consultants
- Hospitals
- Other organisations
- Peer workers
- Person's care network
- Police
- Workers within the organisation

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Develop communication strategies to effectively engage with people

- 1.1 Identify the person's strengths and interests that may provide an opportunity to establish rapport
- 1.2 Apply *appropriate communication strategies* to establish rapport with person with mental health condition, their family, carer/s and work team
- 1.3 Apply communication strategies in a manner that acknowledges individual time requirements to establish rapport
- 1.4 Apply communication strategies in a manner that acknowledges cultural barriers to establishing rapport
- 1.5 Identify and respect the client's choice to involve others (e.g. carer/s, family and friends)
- 1.6 Apply communication strategies that acknowledge the client's recovery experiences

2. Maintain an effective working relationship with person affected by mental health condition

- 2.1 Identify communication requirements to maintain an effective working relationship with the person
- 2.2 Deliver any supports collaboratively and in a manner that maintains an effective working relationship with the person
- 2.3 Collaboratively work with the person, giving them control over their own lives

3. Develop and maintain effective working

- 3.1 Identify the information and support needs of

## ELEMENT

relationships with family,  
carer/s, friends and others

## PERFORMANCE CRITERIA

family, carer/s and friends

3.2 Use communication that is readily understood by  
carer/s, family and friends

3.3 Communicate with family, carer/s and friends in a  
manner that respects the dignity, choices and  
confidentiality of the person with the mental health  
condition

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Person-centred approach
- Strengths-based approach
- Requirements of engaging people
- Respectful language and use of communication
- Recognition of communication styles of individuals
- Basic counselling skills
- Oral communication required to fulfill job roles as specified by the organisation/service
- Cross cultural communication issues
- Mindful practice

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Apply a range of communication strategies including:

## REQUIRED SKILLS AND KNOWLEDGE

- reflective listening
- respectful responding
- development of empathy and rapport
- active listening if culturally appropriate, recognition of non-verbal triggers
- feedback
- interpretation
- setting role boundaries
- negotiation
- establishing empathy
- congruence of communication and action
- follow up communication
- non-verbal communication

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed on the job or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider the requirements of the particular workplace context

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal

## EVIDENCE GUIDE

and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people

- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to a workplace or simulated workplace where assessment may occur

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## PERFORMANCE CRITERIA

financial well being

2.4 Recognise importance of employment/occupation/vocation and potential impact of mental health diagnosis on that aspect of the person's life

2.5 Empathise with sense of loss and associated adjustments experienced by person with mental health diagnosis

2.6 Demonstrate understanding of a range of coping mechanisms used by the person

3. Apply an understanding of the impact of social determinants on health

3.1 Identify a range of social barriers that impact on the life of the person with mental health issues

3.2 Identify the effect of and *possible strategies to respond to the barriers* that impact on the person

3.3 Identify *others* that can assist with the response to barriers that impact on the person

3.4 Identify strategies to engage support with the response to barriers that impact on the person

4. Work with families, carer/s friends and other networks to support people with mental illness

4.1 Work with consideration and understanding of the impact of a client's mental health diagnosis on families, carer/s, friends and other social networks

4.2 Work with awareness of the everyday effects of the interaction of coping mechanisms used by person experiencing mental illness on their family, carer/s and other social networks

4.3 Work with understanding of the roles of consumer workers, carers and associated networks and their potential to positively impact the life of the person with mental health issues

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Person-centred, holistic and strengths-based approaches
- Basic knowledge of mental health diagnosis and diagnostic processes
- Roles of a range of workers involved in mental health teams and their potential contributions in the recovery process, including:
  - clinical and non-clinical workers
  - consumer workers
- The range of contexts which influence a person's life
- Stigma
- Individual triggers, reasons and purposes of behaviours of concern
- Types of behaviours of concern
- Social barriers experienced by people affected by mental illness
- Systemic issues that affect people affected by mental illness
- The effect of involuntary and voluntary admission to hospital
- Range of people affected by mental illness/ mental health diagnosis
- Coping mechanisms of people affected by mental illness, including person who experiences mental illness, family, carer/s, friends and social networks
- Theoretical frameworks in regard to loss and adjustment

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Reflect on own attitudes, behaviours and practice and how this affects other people
- Apply a holistic approach to working with people
- Apply a person-centred approach to working with people
- Apply a strengths-based approach to working with people
- Identify effective responses to behaviours of concern
- Identify a range of barriers experienced by people affected by mental illness and psychiatric disability
- Identify a range of individual, family, carer/s and social network coping mechanisms
- Work collaboratively with the person and as part of a mental team and facilitate and support the potential contributions of other members of that team in the recovery process

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed on the job or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider the requirements of the particular workplace context

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to a workplace or simulated workplace where assessment may occur

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually

include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes

- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Possible strategies to respond to barriers may include:*

- Focus on strengths
- Solution finding
- Cooperative effort
- Information
- Providing choices and options

*Others may include:*

- Family
- Carer/s
- Friends
- Neighbours
- Social network
- Co-workers
- Employers

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Awareness of policy, regulatory, legislative and legal requirements, including
  - Carer's Recognition Act
  - community counselling orders
  - community treatment orders
  - Criminal Law (Mentally Impaired Defendants) Act
  - Disability Services/Discrimination Acts and standards
  - equal employment opportunity principles
  - Freedom of Information Act
  - Guardianship Board
  - individual rights
  - mental health acts
  - national mental health policy and plan
  - national mental health service standards
  - national practice standards for the mental health workforce
  - work health and safety (WHS) standards
  - Privacy Act
  - United Nations Principles for the Protection of Persons with Mental illness and the Improvement of Health Care

- Awareness of available government benefits in areas such as housing and accommodation and finance
- Consumer needs and rights including duty of care
- Current issues facing clients and existing services to address their needs and rights
- Early intervention
- Facts/myths about mental illness and psychiatric disability
- Historical and social context
- Holistic and client-centred care
- Impact of stigma
- Importance of consumer input
- Importance of principles and practices to enhance sustainability in the workplace, including environmental, economic, workforce and social sustainability
- Indigenous Australian culture
- Involuntary and voluntary admission to hospital

*continued ...*

*Essential knowledge (contd):*

- Knowledge specific to working with people at risk of self-harm
- Knowledge specific to working with people from culturally and linguistically diverse backgrounds
- Legal system
  - courts
  - police powers
  - court reports
  - tribunals
  - parole
  - community treatment orders
- Major psychiatric illnesses
- National standards for mental health services
- Political and economic context
- Principles and practice of duty of care
- Principles and practices of confidentiality
- Principles and practices of ethics and values
- Principles of access and equity
- Principles of client empowerment/disempowerment
- Principles of clinical governance
- Principles of community delivered service provision
- Principles of disability
- Relevance of the work role and functions to maintaining sustainability of the workplace, including environmental, economic, workforce and social sustainability

- Understanding of regulations and guidelines governing the handling of medication

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate application of understanding of underpinning values, philosophies and standards applying to work in the mental health sector

## **Evidence Guide**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

### *Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed on the job or in a simulated workplace under the normal range of conditions
- Consistency in performance should consider the requirements of the particular workplace context

### *Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

### *Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged

- Resources required for assessment of this unit include access to a workplace or simulated workplace where assessment may occur

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Context includes:*

- Changing social context of work e.g. Consumer centred approach, changing government and societal views of mental health, approaches to working with clients, deinstitutionalisation
- Economic context e.g. The current economic situation as it relates to and affects mental health and the subsequent impact on client needs
- Facts/myths about mental illness and psychiatric disability
- Historical context of work e.g. Changing attitudes to mental health; changing approaches to working with clients
- Political context e.g. Government policies and

initiatives affecting mental health work,  
mainstreaming

- Statutory framework within which work takes place

*Different models of work may include:*

- Acute, continuing and rehabilitation models
- Case management
- Clinical mental health services
- Clubhouse
- Community development and education
- Consumer run models
- Crisis situation responses
- Early intervention/prevention
- Home based support
- Mental health promotion
- Peer support/self help
- Psychosocial rehabilitation
- Residential services
- Respite care
- Supported employment
- Working with families and carers

*Stakeholders and representatives may include:*

- Carers
- Clinical mental health services
- Community organisations
- Consumers
- Families and care givers
- Friends, peers and target group
- Government representatives and service providers
- Local community
- Management, colleagues, supervisor, team members
- Peak bodies and networks in the sector

*The underpinning values and philosophy of the sector may include:*

- A holistic and consumer-centred approach
- Commitment to empowering the consumer
- Commitment to meeting the needs and upholding the rights of consumers
- Community education
- Delivery of appropriate services
- Early intervention
- Encouragement of personal growth and development

toward recovery and wellness

- Family sensitive approaches
- Promotion of mental health and well being

*Commitment to access and equity principles includes:*

- A non-discriminatory approach to all people using the service, their family, carer/s and friends, the general public and co-workers
- Creation of a consumer oriented culture
- Ensuring the work undertaken takes account of and caters for differences including: cultural, physical, religious, economic, social

*Culturally and linguistically diverse may include:*

- Different cultural and social contexts
- Social variables such as social attitudes to mental illness
- The needs of indigenous Australians
- The needs of people from non-English speaking backgrounds

### Unit Descriptor

#### Descriptor

This unit describes basic competencies required by community service workers to recognise and respond appropriately to signs and symptoms that indicate individuals may be at risk

The focus is on identifying and managing immediate risk in the context of a supportive helping relationship that seeks to work collaboratively with the person at risk to achieve safe outcomes

### Application of the Unit

#### Application

This unit may apply to people in formal helping roles in any community service context or where caregivers encounter persons at risk

This unit provides skills and knowledge to enable workers to contain the situation and minimise any immediate risk and to provide appropriate referral for crisis intervention and ongoing support as required

Workers requiring skills and knowledge to provide crisis intervention support to resource an individual beyond the situation of immediate risk need additional skills and knowledge and are advised to complete in unit [CHCCS521B Assess and respond to individuals at risk of suicide](#)

## Licensing/Regulatory Information

## Pre-Requisites

Not Applicable

## Employability Skills Information

**Employability Skills** This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

1. Identify and assess the person's current risk

### PERFORMANCE CRITERIA

- 1.1 Recognise and respond to signs, (such as statements, reactions, thoughts, feelings or behaviours) indicating that a person may be at risk
- 1.2 Attend to any hunches, while listening as a helper, perhaps from indirect communications, that suggest the client may be at risk
- 1.3 Ask directly about thoughts of suicide whenever there are grounds for concern  
If suicide thoughts are present:
- 1.4 Seek sufficient understanding of why the person is considering suicide, and what links them to life, to inform and facilitate the intervention
- 1.5 Assess current suicide risk guided by risk assessment considerations outlined in the Range

**ELEMENT****PERFORMANCE CRITERIA**

Statement and by whether there is an imminent threat to the person's safety or the safety of others

2. Work actively with the person to reduce the *immediate risk* and increase safety

- 2.1 Build a collaborative empathic relationship with person at risk
- 2.2 Listen to what contributed to the critical incident and affirm and strengthen links to safety and living implicit in the helping relationship
- 2.3 Work with person at risk to identify and agree *actions to reduce immediate danger and mobilise access to emergency assistance*, including medical help when needed
- 2.4 Identify and agree actions that address and reduce any risk of harm to caregivers and others potentially at risk in the situation and remain mindful of circumstances where the police may need to be involved to address safety
- 2.5 Seek advice and/or assistance from workplace supervisor to ensure action taken is lawful, complies with good crisis intervention practice and organisation policies consistent with that practice, ethical processes and duty of care obligations
- 2.6 Address work health and safety (WHS) obligations in relation to managing self and others

3. Provide referral for crisis intervention support

- 3.1 Encourage and enable capacity of person at risk to make informed choices about further help that deals with their crisis and associated needs for ongoing care
- 3.2 Acknowledge how the current helping relationship has provided foundations for further care
- 3.3 Explore and seek to understand and address any barriers to seeking or accepting help
- 3.4 Develop, with the individual, a plan and agreed first steps, to access and utilise informal supports and professional help
- 3.5 Refer to appropriate community services and/or health professionals as required

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Common indicators or signs of potential risk
- Principles of crisis intervention, including relevant laws, ethical guidelines and policy requirements that support good care
- Policy around critical incidents and duty of care
- Procedures for obtaining assistance and making informed referrals to other staff and/or agencies
- Procedures for facilitating emergency interventions
- Awareness of personal values, beliefs and attitudes which may facilitate or impede crisis care and suicide intervention
- Examination of common notions about suicide
- Commitment to attend to the pain of the person at risk and work towards safe, life sustaining outcomes
- Principles of self care and support-seeking relevant to involvement in work involving responding to indications of crisis and suicidality

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Recognise and respond appropriately to signs and symptoms that indicate an individual or individuals may be at risk
- Demonstrate the capacity to work competently and independently according to the principles of effective practice and within general context of supervisory relationship
- Demonstrate accountability for own professional conduct and practice including:
  - carrying out assigned tasks
  - working effectively under the pressure of crisis situations
  - maintaining the quality of services to clients

## REQUIRED SKILLS AND KNOWLEDGE

- strengthening links to life-sustaining options and supports to individuals in crisis
- demonstrating a commitment to attend to the pain of persons considering or affected by suicide and to work toward safe, life-affirming outcomes
- Facilitate links with higher levels of care and making referrals, including access to emergency medical help when needed
- Seek, integrate and apply learning from supervision and support

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - competent skills in communication, counselling and responding to individuals in crisis
  - self-monitoring and self care
- Maintain documentation as required, including effective use of relevant information technology in line with WHS guidelines

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work

## EVIDENCE GUIDE

- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

### *Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment include access to a workplace or similar environment over a number of occasions

### *Method of assessment:*

- For valid and reliable assessment of this unit, competency should be demonstrated in a range of situations which **must** include observation of performance in an actual workplace or in a setting that realistically simulates work conditions:
  - observation should include key aspects described in elements, performance criteria and relevant aspects of the range statement of the unit
  - where face-to-face observation is not possible, video recordings may be provided
- In addition assessment methods may include
  - written questioning
  - role play
  - supervised/guided discussion
- Candidate's critique of their 'performance' to demonstrate cognitive understanding of theory

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Identifying potential risk involves:*

- Avoiding assumptions about who may be at risk and being alert to potential risk on an individual basis in any situation
- Recognising potential warning signs that invite help and prompt enquiry about suicide, self-harm or other issues of client or community safety
- Asking directly about thoughts of suicide when there are any grounds for concern

*Informed suicide risk assessments involve:*

- Recognising that any suicide thoughts or acts of deliberate self-harm signal significant distress, pose potential risk of injury or death and should be taken seriously
- Assessing factors that indicate suicide risk which include, but are not limited to, the following:
  - concern is aroused by the presence of suicide thoughts and things often associated with these thoughts (such as a desire to escape pain that feels unbearable, a sense of hopelessness, current difficulty seeing alternatives to suicide and feeling alone)
  - immediate risk increases when someone has begun acting on their suicide thoughts or is preparing to do so (for example possible suicide in progress, presence of a suicide plan, available means) and / or has expressed suicidal intent
  - risk can be further exacerbated if the person is under the influence of excessive alcohol or other drug use
  - pertinent background factors, particularly prior suicidal behaviour and the presence of significant mental health problems, should be carefully

## RANGE STATEMENT

assessed

A wide variety of contextual or personal considerations also help inform assessments and may include such things as significant loss, trauma, the impact of another person's suicide or a pattern of extreme agitation, anger / violent behaviour

- Identifying internal sources of safety and support (such as coping skills and beliefs) and those around them (such as family, friends and community services)
- Connections to life and living are usually present alongside thoughts of suicide and can provide foundations to build upon in increasing the safety of a person at risk

*Immediate risks (other than suicide) may include:*

- Client threats to harm others
- Threat of harm initiated by another, directed at the client
- Disclosures of abuse
- Indicators of physical harm and/or domestic violence

*Actions to reduce immediate danger and mobilise access to emergency assistance include:*

Recognising that:

- Vigilance about safety with all risk related thoughts or behaviours is essential, even though the person may be influenced by a wide range of motives in considering or engaging in deliberate self-harm
- Risks to life and safety can often be greater than individuals recognise or intend, so safe outcomes are a primary focus, regardless of stated intentions

Actions appropriate to each specific situation, but typically including the following processes and tasks:

- Affirm and build on the desire for help and safety implicit in the counselling relationship
- Work with the person at risk to identify and act on clear cooperative steps that reduce the immediate risk
- Focus specifically on factors, plans and behaviours, including unsafe use of alcohol and other drugs that endanger the person at risk at this particular time and seek to engage them cooperatively in steps that safely manage and reduce immediate risk

**RANGE STATEMENT**

- Enable prompt, timely action that increases informal and professional support, mobilises access to emergency medical help when needed and enhances personal safety
- Seek to create calm environment to promote safety for person at risk, caregiver and others involved in situation
- Access support and follow advice from organisation's supervisor/ coordinator that reflect lawful, good crisis intervention practice and follow crisis management and emergency procedures
- Attend to self and others in relation to WHS in the workplace

| HLTPH314B Assist with basic dispensing of prescriptions | HLTPH316A Assist with dispensing of prescriptions and medication orders | Unit updated in V5<br>Competency outcome changed to include additional essential knowledge from unit HLTPH301C |

### Unit Descriptor

This unit of competency describes the skills and knowledge required to assist with the preparation of prescriptions and medication orders according to legal and good pharmacy practice requirements

### Application of the Unit

The application of knowledge and skills takes place around standards, guidelines / legislation, organisation policies and procedures and under the supervision of a qualified person

Individuals may take responsibility for their own outputs

Work performed requires a range of well developed skills where some discretion and judgement is required

### Licensing/Regulatory Information

Not applicable.

### Pre-Requisites

Not applicable.

### Employability Skills Information

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

### ELEMENT

Elements define the essential outcomes of a unit of competency.

### PERFORMANCE CRITERIA

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

Accept *prescription / medication order for dispensing*

- 1.1 Receive prescription / medication order and confirm *client details*
- 1.2 Identify the prescriber and source initiating the prescription / medication order for the purpose of costing and computer entry
- 1.3 Confirm the *legality, validity and completeness of the prescription / medication order*
- 1.4 *Report discrepancies to pharmacist*
- 1.5 *Provide information to client*

Ensure clinical evaluation of prescription / medication order by pharmacist

- 2.1 Refer prescription / medication order to pharmacist for clinical evaluation
- 2.2 Confirm pharmacist has completed a clinical evaluation before filling the prescription / medication order
- 2.3 Complete documentation required prior to dispensing

Prepare for labelling of medicines

- 3.1 Enter dispensing data into computer
- 3.2 Check accuracy of data entered against information from medication order
- 3.3 *Generate medicine labels* to meet legal and regulatory requirements
- 3.4 Follow procedures to deal with contraventions of law
- 3.5 Check information on labels for accuracy, according to the prescription / medication order

requirements

3.6 Check that information on labels is neat, clear, easily understood, and in line with legal requirements

3.7 *Prepare cautionary and advisory labels* in accordance with legal requirements

3.8 Alert pharmacists of any relevant drug interactions warnings from the dispensary program

#### Assemble items

4.1 Refer prescription / medication order to pharmacist if uncertain about prescription / medication order details or prescribed quantity

4.2 Calculate quantities of each item according to the prescription / medication order

4.3 Select prescribed products

4.4 Package correct quantity into a suitable container

4.5 Attach correct label/s to container

4.6 Use barcode technology for the dispensing process in line with Pharmacy Board of Australia Guidelines

4.7 Check packed item for accuracy and visibility of expiry date

4.8 Annotate order with the quantity supplied, signature and date

4.9 Assemble items for an easy and complete check by the pharmacist

#### Finalise dispensing of medicine

5.1 Verify that prescription / medication order is checked and signed by the pharmacist

5.2 Complete documentation

5.3 Record relevant information and statistics

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Awareness of indemnity issues in relation to Commonwealth/State regulatory and legislative requirements
- Dispensing procedures
  - accepted self-checking processes when dispensing medicines to ensure accuracy of own work
  - charging for pharmaceuticals e.g. organisation policy and the Pharmaceutical Benefits Scheme
  - legal requirements and principles of pharmaceutical product labelling e.g. product name, batch numbering and expiry date
  - prescribing conventions, and abbreviations and medical terminology used for instructions for the use of medicines
  - principles of calculations, weights and measures using Standards International (SI) system
  - procedures and rationale for validating orders
  - processes for reconstitution of products
  - properties of container types and principles of selection for use
  - requirements to be satisfied for a complete, unambiguous and valid prescription / medication order and actions to take if validity is questionable
  - specific requirements for dispensing controlled medicines
- Identification and handling of products, including
  - formulary medicines and non-formulary medicines e.g. clinical trial medicines and Special Access Scheme medicines
  - products with the required integrity as well as those whose integrity has been compromised e.g. damaged, contaminated or deteriorated stock
  - routine of handling products and products requiring special handling, e.g. cytotoxics and their spill management, refrigerated and frozen items, light sensitive materials and flammables
- Infection control principles and their relevance to dispensing medicines including:
  - maintaining a clean working environment and equipment
  - personal hygiene and the use of protective clothing
- Knowledge of and the rationale for applicable legislation, organisation policy and in-house standard operating procedures (SOPs), relating to prescription preparation
- Knowledge of the legal responsibilities of providers of health care in relation to

This describes the essential skills and knowledge and their level required for this unit.

- confidentiality, client rights, duty of care and implications of negligence
- Limitations of own work role including identification and referring of issues outside scope of practice to the authorised person
- Work Health and Safety (WHS) policies, guidelines and symbols and their relevance to dispensing medicines
- Pharmaceutical products
  - administration, and use and effect on human physiology
  - common proprietary and generic names
  - drug forms, dose, strength and quantity
  - principles and procedures for maintaining their security
  - principles and range of storage requirements
- Pharmacy Board of Australia Pharmacy Guidelines for dispensing medicines
- Pharmacy or health facility in-house computer system
- Principles and practices of ethical and professional codes of conduct
- Standard pharmaceutical references including Australian Pharmaceutical Formulary (APF), MIMs, AMH and Micromedex
- Types of prescriptions / medication orders and their use
- Understand the difference between generic drug and trade name(s) of medicines

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Assist pharmacist in the accurate preparation of prescription / medication order requirements
- Follow instructions and complete tasks accurately and efficiently
- Identify issues outside scope of practice and refer to the authorised person
- Work in accordance with relevant work health and safety, and infection control guidelines
- Work in accordance with relevant organisation policy, legislative requirements, industrial awards and agreements and in-house standard operating procedures (SOPs) for dispensing of medication orders

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply accepted self-checking processes through out dispensing procedure to ensure accuracy of own work
- Communicate and interact effectively with colleagues, health care practitioners and

This describes the essential skills and knowledge and their level required for this unit.

clients

- Demonstrate safe dispensing practices including
  - calculate quantities of each item using Standards International (SI) system
  - create labels which are legal, clearly readable, with instructions expressed in simple language, including all information specified by the prescriber
  - identify and select correct product with reference to form, dose, strength, brand and quantity
  - identify discrepancies/deviations and refer to the authorised person
  - use ancillary and cautionary labels and explanatory statements and directions as specified by most recent APF
  - use measuring devices appropriately and correctly
- Enter and access dispensing data on pharmacy computer system
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Use available resources and prioritise workload
- Use literacy, numeracy and oral communication skills required to fulfil the position in a safe manner as specified by the health care facility
- Use problem solving skills

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Context of and specific resources for assessment:*

- Assessment should replicate workplace conditions as closely as possible
- Simulations may be used to represent workplace conditions as closely as possible  
Acceptable simulation requires:
  - Scope to determine that work is conducted within legislative and regulatory requirements
  - Scope to determine that work is conducted within WHS and infection control requirements
- Resources essential for assessment include:
  - Access to relevant workplace or a simulated environment where assessment can take place
  - Relevant legislation, regulations and guidelines
  - Relevant policies (Good Practice requirements)
  - Weighing and measuring equipment and instructions

*Method of assessment may include:*

- Formal appraisal systems
- Interviewing and questioning
- Observation in the work place
- Supporting statement of supervisor(s)
- Written assignments/projects

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Prescription / medication order for dispensing may be for:*

- Clients in residential care facilities
- Community based clients
- Extemporaneous preparations that do not have a fixed formulae, for specific clients, need to be mixed and provided e.g. dermatological preparation, paediatric formulations
- Inpatients / hospitalised clients

*Client details may include:*

- Concession/pension number
- Date of birth
- Medicare number
- Pharmaceutical benefit entitlement number e.g. safety net number

*Legality, validity and completeness of the medication order may include but is not limited to:*

- Adequate written instructions on the dosage regimen
- Complete client details
- Life of prescription / medication order according to legislative requirements
- Written in ink, computer generated, transmitted by facsimile or electronically transmitted scanned order

*Report discrepancies to pharmacist may include but are*

- Incomplete or incorrect prescriber and/or client details

*not limited to:*

- Prescriptions for a narcotic written by the prescriber for self treatment
- Prescription / medication order marked "cancelled" or otherwise such as to indicate that it has been dispensed and completed
- Prescription / medication order out of date
- Questionable dosages and administration method for commonly used medicines
- Request for excessive quantities

*Provide information to client may include:*

- Any foreseen difficulty in filling the prescription/ medication order
- The approximate waiting time and collection arrangements
- The determined cost of the medicines

*Generate prescription labels may include:*

- Electronically
- Typed
- Written

*Prepare cautionary and advisory labels include those:*

- Attached separately
- Incorporated into label

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Procure stock

- 1.1 Obtain requisition requirements from appropriate personnel and/or departments
- 1.2 Identify generic drug name, trade name(s) and manufacturer/supplier details using a range of manual and/or electronic resources
- 1.3 Identify items for order, generate order and obtain sign off/authorisation of the order by delegated staff member where appropriate/required
- 1.4 Source appropriate supplier
- 1.5 Provide availability and cost information to pharmacist
- 1.6 Place *order* according to standard procurement policy following order approval

#### 2. Process new stock

- 2.1 Accept delivery of *products* and match delivery documentation with product delivered
- 2.2 Identify received products
- 2.3 Check quantities and condition of products and report breakages to the appropriate person
- 2.4 Reconcile products with control lists and/or check products against order

**ELEMENT****PERFORMANCE CRITERIA**

- 2.5 Report shortages and other deviations to the appropriate person
  - 2.6 Check expiry dates of incoming stock
  - 2.7 Clearly attach product notation
  - 2.8 Pack and store stock according to packing criteria and organisation policies and procedures
  - 2.9 Follow temperature control requirements where appropriate
  - 2.10 Quarantine stock where appropriate
  - 2.11 Inform pharmacist of scheduled products according to legal requirements
  - 2.12 Maintain batch traceability
  - 2.13 Accurately complete data capture requirements
  - 2.14 Maintain hygienic conditions at all times
- 
- 3. Maintain stock
    - 3.1 Store products according to a logical auditable system
    - 3.2 Check stock on a regular basis for dated and slow moving items and report these to the appropriate person
    - 3.3 Monitor overstocks and stock discrepancies and report these to the appropriate person
    - 3.4 Rotate stock according to organisation policies and procedures
    - 3.5 Check for stock deterioration
    - 3.6 Control quality of stock by visual inspection
    - 3.7 Monitor and maintain correct *storage conditions*
    - 3.8 Report out-of-stock, expired, deteriorated and damaged stock for return and deviations to correct storage conditions to the appropriate person
    - 3.9 Maintain batch traceability
    - 3.10 Maintain location maps
- 
- 4. Ensure stock security
    - 4.1 Check compliance with *security procedures*
    - 4.2 Report security irregularities to the appropriate

**ELEMENT****PERFORMANCE CRITERIA**

person

|                                      | 5.4 Investigate stock discrepancies and report to the appropriate person                     |
|                                      | 5.5 Determine minimum and maximum stock levels and report to the appropriate person          |
|                                      |                                                                                              |
| 6. Maintain relevant documentation   | 6.1 Complete and file <i>documentation</i> according to organisation policies and procedures |
|                                      | 6.2 Reconcile statements and invoices                                                        |
|                                      | 6.3 Complete and file stock distribution documentation                                       |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- An understanding of purchasing contracts, State Supply systems and tender process
- Appropriate methods of disposal of unwanted pharmaceutical products and outdated stock

## REQUIRED SKILLS AND KNOWLEDGE

- Basic hygiene and the importance of maintaining a clean working environment and equipment
- Financial implications of stock level control
- Hospital or health facility in-house computer system
- Identification and handling of products, including
  - formulary drugs and non-formulary drugs eg clinical trial drugs and special access scheme drugs
  - products with the required integrity as well as those whose integrity has been compromised eg damaged, contaminated or deteriorated stock
  - routine handling of products and products requiring special handling, eg cytotoxics and its spill management, refrigerated and frozen items, light sensitive materials and flammables
- Infection control policies, guidelines and symbols and their relevance to working in a hospital pharmacy
- Input and access of data relevant to stock control
- Knowledge of and the rationale for applicable legislation, organisation policy and in-house standard operating procedures (SOPs), relating to stock procurement, storage and maintenance
- OHS policies, guidelines and symbols and their relevance to working in a hospital pharmacy
- Principles and procedures of stock control and maintenance
- Principles and procedures of maintaining security of pharmaceutical products
- Procedures for dealing with drug alerts and company recalls
- Procedures for dealing with returned goods
- Purpose and process of purchasing contracts
- Purpose of batch numbering and expiry dates on pharmaceutical products
- Relevant reference materials
- Sources of stock, including non-formulary items
- Stock ordering processes
- Storage requirements and the rationale for different types of products

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Communicate effectively with internal and external clients
- Procure and store pharmaceutical stock according to organisation requirements
- Refer issues identified outside scope of practice to the appropriate person
- Work in accordance with relevant organisation policy, legislative requirements, industrial awards and agreements and in-house operating procedures (SOPs)
- Work in a safe manner

## REQUIRED SKILLS AND KNOWLEDGE

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Communicate and interact appropriately with colleagues, health care practitioners and clients
- Comply with organisation procurement policies and procedures
- Distinguish between 'look alike' and 'sound alike' pharmaceutical products in procuring, storing and disposing of stock
- Ensure optimal usage of stock prior to expiry date
- Enter and access data on pharmacy computer system
- Identify discrepancies/deviations and refer to the appropriate person
- Identify, maintain and report working stock levels, eg slow moving items, overstocks, discrepancies, out-of-stocks, expired stock and damaged stock
- Maintain location maps
- Maintain stock security
- Maintain stock control documentation
- Monitor the quality of stock and storage conditions, including temperature, light, humidity, pest control and stock organisation
- Source supplier and place an order
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Use literacy, numeracy and oral communication skills required to fulfil the position in a safe manner as specified by the health care facility
- Use problem solving skills
- Use available resources and prioritise workload

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

## EVIDENCE GUIDE

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

*Context of and specific resources for assessment:*

- Assessment should replicate workplace conditions as far as possible
- Simulations may be used to represent workplace conditions as closely as possible  
Acceptable simulation requires:
  - Scope to determine that work is conducted within legislative and regulatory requirements
  - Scope to determine that work is conducted within OHS and infection control requirements
- Resources essential for assessment include:
  - Access to relevant workplace or appropriately simulated environment where assessment can take place
  - Relevant legislation, regulations and guidelines
  - Stock reporting and data systems

*Method of assessment*

- Observation in the work place (if possible)
- Written assignments/projects
- Interviewing and questioning
- Formal appraisal systems
- Supporting statement of supervisor(s)

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment

## EVIDENCE GUIDE

- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Orders may include:*

- Verbal
- Electronic

*Products may include:*

- Formulary drugs and non-formulary drugs eg clinical trial drugs and special access scheme drugs
- Products with the required integrity as well as those whose integrity have been compromised eg damaged, contaminated or deteriorated
- Routine handling products and products requiring special handling eg cytotoxics and its spill management, refrigerated and frozen items, light sensitive material and flammables

*Storage conditions may include:*

- Correct temperature
- Humidity

**RANGE STATEMENT**

- Light
- Pest control
- Secured
- Cold chain
- Ventilated
- Ambient
- Isolated
- Correct storage of hazardous substances

*Security procedures may include:*

- In-store security
- Goods received
- Goods dispatched
- Handling controlled substances eg Schedule 8 drugs

*The recording of stock-take count may be performed:*

- Manually
- Using electronic device

*Documentation may be:*

- Written
- Verbal
- Electronic

**Unit Sector(s)**

## HLTPH305A Maintain pharmaceutical imprest stock

### Modification History

| HLT07 Version 4                                         | HLT07 Version 5                                 | Comments                                                                                                       |
|---------------------------------------------------------|-------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| HLTPH304C Maintain pharmaceutical ward or imprest stock | HLTPH305A Maintain pharmaceutical imprest stock | Unit updated in V5<br>Competency outcome changed to include additional essential knowledge from unit HLTPH301C |

### Unit Descriptor

This unit of competency describes the skills and knowledge required to maintain pharmaceutical imprest stock, excluding the dispensing of prescriptions, and according to standard operating procedures (SOPs) and within legal requirements

### Application of the Unit

The application of knowledge and skills takes place around standards, guidelines, organisation policies and procedures and under the supervision of a qualified person

Individuals may take responsibility for their own outputs

Work performed requires a range of well developed skills where some discretion and judgement is required

### Licensing/Regulatory Information

Not applicable.

### Pre-Requisites

Not applicable.

### Employability Skills Information

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

### ELEMENT

Elements define the essential outcomes of a unit of competency.

### PERFORMANCE CRITERIA

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

Generate/receive and check stock requisition/imprest list

- 1.1 Establish needs to replenish stock and determine quantity against specified minimum/maximum levels
- 1.2 Use appropriate technology to complete stock checks and print picking list(s) of requisition items
- 1.3 Check that requisition lists comply with standard operating procedures (SOPs) and department requirements
- 1.4 Report deviations to an authorised person

Select and dispatch stock

- 2.1 Obtain clearance for the order from an authorised person
- 2.2 Select requisitioned products and place into appropriate delivery containers
- 2.3 Complete transaction in pharmacy computer and generate packing slip
- 2.4 Store and pack completed requisitions within the pharmacy prior to delivery
- 2.5 Deliver stock to the *designated area*
- 2.6 Check and confirm accuracy of stock placement
- 2.7 Store stock according to manufacturers' recommended *storage conditions*
- 2.8 Ensure an authorised person verifies, checks and signs for medicines on receipt where required

Complete documentation process

- 3.1 Complete and file documentation
- 3.2 Collate medicines usage information and record statistics for authorised person

3.3 Update imprest lists, based on stock usage and medicines inventory changes in liaison with relevant staff

3.4 Report changes to stock usage that may impact on stock control to an authorised person

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Awareness of indemnity issues in relation to Commonwealth/State regulatory and legislative requirements
- Common proprietary and generic names of pharmaceutical products
- Identification and handling of pharmaceutical products, including
  - formulary medicines and non-formulary medicines e.g. clinical trial medicines and Special Access Scheme medicines
  - products with the required integrity as well as those whose integrity has been compromised e.g. damaged, contaminated or deteriorated stock
- routine handling of products and products requiring special handling, e.g. cytotoxics and their spill management, refrigerated and frozen items, light sensitive materials and flammables
- Infection control principles:
  - for maintaining a clean storage environment and equipment
  - personal hygiene and the use of protective clothing when handling pharmaceutical products
- Knowledge of, and the rationale for, applicable legislation, organisation policy and in-house standard operating procedures (SOPs), relating to maintaining an imprest pharmaceutical store
- Knowledge of the legal responsibilities of providers of health care in relation to confidentiality, client rights, duty of care and implications of negligence
- Limitations of own work role including identification and referring of issues outside scope of practice to the authorised person
- Work Health and Safety (WHS) policies, guidelines and symbols and their relevance to maintaining a pharmaceutical imprest stock
- Pharmacy or health facility computer system to maintain pharmaceutical stock levels

This describes the essential skills and knowledge and their level required for this unit.

- Principles and practices of ethical and professional codes of conduct
- Principles and procedures of:
  - maintaining security of pharmaceutical products
  - of stock control and maintenance of pharmaceutical products
  - storage requirements and the rationale for different types of products
- Purpose of batch numbering and expiry dates on pharmaceutical products
- Standard pharmaceutical references including Australian Pharmaceutical Formulary (APF), MIMs, AMH and Micromedex

*Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Carry out maintenance of a pharmaceutical imprest system to meet the needs of the organisation
- Refer issues identified outside scope of practice to the appropriate person
- Select products accurately
- Use technology to maintain imprest stock e.g. portable data entry (PDE) devices, pharmacy computer system
- Work in accordance with relevant work health and safety, and infection control guidelines
- Work in accordance with relevant organisation policy, legislative requirements, industrial awards and agreements and in-house standard operating procedures (SOPs)

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Communicate and interact effectively with pharmacy staff and health care practitioners
- Interpret stock usage and make suggestions for inventory changes
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Use available resources and prioritise workload
- Use literacy, numeracy and oral communication skills required to fulfil the position in a safe manner as specified by the health care facility
- Use problem solving skills to ensure that the imprest system meets the needs of the organisation

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

*Context of and specific resources for assessment:*

- Assessment should replicate workplace conditions as closely as possible
- Simulations may be used to represent workplace conditions as closely as possible. Acceptable simulation requires:
  - scope to determine that work is conducted within legislative and regulatory requirements
  - scope to determine that work is conducted within WHS and infection control requirements
- Resources essential for assessment include:
  - access to relevant workplace or a simulated environment where assessment can take place
  - relevant legislation, regulations and guidelines
  - pharmacy imprest system

*Method of assessment may include:*

- Formal appraisal systems
- Interviewing and questioning
- Observation in the work place
- Supporting statement of supervisor(s)
- Written assignments/projects

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Designated area may include:*

- Automated medication distribution system
- Cupboard
- Drug safes
- Medication drawers
- Special storage area e .g. refrigerator as required for correct storage condition
- Trolley

*Storage conditions may include:*

- Ambient
- Cold chain
- Correct storage of hazardous substances
- Correct temperature

- Humidity
- Isolated
- Light
- Pest control
- Secured
- Ventilated

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Work effectively within the hospital pharmacy environment

- 1.1 Respond positively to the requirements *of key stakeholders and representatives* of pharmacy services
- 1.2 Work within the organisation's *policies and procedures and underpinning values and philosophies*
- 1.3 Involve clients in pharmacy service activities wherever appropriate
- 1.4 Recognise personal values and attitudes regarding *clients with special needs* and take into account when performing work duties
- 1.5 Use *common pharmacy/medical terminology* when performing work duties
- 1.6 Follow reporting procedures according to organisation policies and procedures

2. Maintain pharmaceutical quality assurance requirements

- 2.1 Use key pharmaceutical quality assurance terms in context
- 2.2 Comply with the aims and objectives of the quality assurance program
- 2.3 Reflect an understanding of the cyclical nature of the quality assurance process

**ELEMENT****PERFORMANCE CRITERIA****3. Follow relevant legislation and regulations**

- 3.1 Apply relevant *State and National legislation and regulations* to hospital pharmacy practice
- 3.2 Reflect an understanding of the roles, responsibilities and processes of government and other agencies responsible for administering legislation and regulations
- 3.3 Follow ethical and legal guidelines in all decision making and work activities

**4. Perform the duties of a pharmacy assistant**

- 4.1 Comply with the roles, responsibilities and within the legitimate scope of practice of a pharmacy assistant
- 4.2 Participate in the hospital pharmacy with an understanding of the roles and relationship with pharmacists, technical staff, clerical staff and store personnel
- 4.3 Consistently conduct work activities in a manner consistent with the expected qualities and attributes of a health care professional
- 4.4 Refers issues outside scope of practice to the appropriate person

## **Required Skills and Knowledge**

### **REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Awareness of indemnity issues in relation to Commonwealth/State regulatory and

## REQUIRED SKILLS AND KNOWLEDGE

legislative requirements

- Hospital pharmacy contribution to a health care team
- Infection control policies, guidelines and symbols and their relevance to working in a hospital pharmacy
- Knowledge of the legal responsibilities of providers of health care in relation to confidentiality, client rights, duty of care and implications of negligence
- Local and organisation policies and procedures relevant to the hospital pharmacy
- Medical/pharmaceutical terminology appropriate to hospital pharmacy work
- OHS policies, guidelines and symbols and their relevance to working in a hospital pharmacy
- Organisation values and philosophy and how they apply to the work of a pharmacy assistant/technician
- Principles and practices of ethical and professional conduct
- Principles and practices of pharmaceutical quality assurance
- Relevant State and National pharmaceutical legislation and regulation
- Relevant codes of conduct
- Role and scope of responsibilities of all pharmacy departmental staff
- Role, scope and processes of State Pharmacy Council/Board

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply pharmacy policies, procedures, standards and guidelines
- Apply legislation and regulatory requirements
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Use literacy, numeracy and oral communication skills required to fulfil the position in a safe manner as specified by the health care facility
- Use problem solving skills
- Use available resources and prioritise workload
- Use technology to work safely and competently

## Evidence Guide

### EVIDENCE GUIDE

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of workplace performance is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

*Context of and specific resources for assessment:*

- Assessment should replicate workplace conditions as far as possible
- Simulations may be used to represent workplace conditions as closely as possible. Acceptable simulation requires:
  - Scope to determine that work is conducted within legislative and regulatory requirements
  - Scope to determine that work is conducted within OHS and infection control requirements
- Resources essential for assessment include:
  - Access to relevant workplace or appropriately simulated environment where assessment can take place
  - Relevant legislation, regulations and guidelines

*Method of assessment may include:*

- Observation in the work place (if possible)
- Written assignments/projects, eg for fundamentals of microbiology and principles of cleaning and disinfection
- Interviewing and questioning
- Formal appraisal systems

## EVIDENCE GUIDE

- Supporting statement of supervisor(s)
- Access and equity considerations:*
- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

- Stakeholders and representatives may include:*
- Pharmacists
  - Doctors
  - Nurses
  - Clients
  - Pharmacy technicians
  - Pharmacy assistants
  - Pharmacy stores persons
  - Administration staff

**RANGE STATEMENT**

- Wholesalers
- Policies, procedure, philosophies and values may include:*
  - Access and equity policies and procedures
  - Anti-discrimination policies and procedures
  - Sexual harassment policies and procedures
  - Mission statement
  - Code of conduct
  - Code of ethics
- Clients with special needs may include:*
  - Clients from different cultural and social contexts
  - Indigenous Australians
  - People from non-English speaking backgrounds
  - Specific religious groups
  - People with a disability
  - Older clients
- Pharmaceutical/medical terminology must include:*
  - Specific terms commonly used in day to day activities
- State and national legislation and regulation may include but are not limited to:*
  - The Pharmacy/Pharmacists Act and relevant regulations
  - Drugs, Poisons and Controlled Substances/Poisons Act and related regulations
  - Therapeutic Goods Act
  - Health Act and related regulations
  - Privacy legislation
  - Pharmacy Council/Board Guidelines and/or directives
  - Standard for Uniform Scheduling of Drugs and Poisons
  - Society of Hospital Pharmacies of Australia (SHPA) guidelines
  - Pharmaceutical Society of Australia's Professional Practice Standards
  - OHS legislation and regulations
  - Infection Control legislation and guidelines
  - NCCTG Guidelines for the Preparation of Pharmaceuticals in Hospitals

**RANGE STATEMENT**

- Australian Pharmaceutical Formulary
- State policies/circular/guidelines
- Pharmaceutical Benefit Scheme book (PBS Section 85 and Section 100)

Identify land care issues that can effect the health status of individuals and community members                        | 2.1 Seek information on <i>land care issues that relate, either directly or indirectly to the possibility of disease transmission and/ or health related complaints</i><br>2.2 Seek additional information or advice as required                                                                                                                                                                                |
| 3. <i>Monitor</i> land care issues in the community                                                                        | 3.1 Monitor land care issues in the community that could potentially impact on the health status of individuals and community members<br>3.2 Report findings in accordance with organisation policies and procedures<br>3.3 Record referrals or requests from others in accordance with established procedures<br>3.4 Make referrals to relevant others in accordance with organisation policies and procedures |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

## REQUIRED SKILLS AND KNOWLEDGE

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Basic knowledge of environmental health strategies and recent priorities (e.g. UPK strategies, particularly in regards to nutrition, the reduction of crowding and dust control)
- Points of contact for the purposes of referral and/ or to seek information and advice on specific issues
- Roles and responsibilities of the worker and relevant others in relation to land care
- The relationship between land care issues and health

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Demonstrate consideration of access issues, i.e. people's yards, camping areas, areas of cultural significance, etc.
- Demonstrate understanding of health issues as they relate to land care
- Effectively network and communicate with the employing organisation, householders, community members, key people and outside agencies
- Use phone/fax for referrals if necessary

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

## EVIDENCE GUIDE

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency in performance should consider the worker's ability to be able to monitor land care issues in the community as they directly relate to the possibility of disease transmission and/ or health related complaints
- Assessment needs to occur more than once and over a period of time

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- For the purposes of consistency this unit is best assessed on the job
- Access required to:
  - a phone/ fax (to assess competency in making referrals to relevant others outside of the community either verbally or by written correspondence)

*Related unit:*

This unit is a pre-requisite for:

- HLTPOP412C Develop a plan of action to address land care issues in the community

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*The Indigenous environmental health worker's role in addressing land care issues may include:*

- Monitoring and reporting excessive vegetation growth around sewerage ponds or other areas in the community
- Identifying where and why dust problems are occurring in and around the community
- Planting appropriate trees and shrubs to act as wind breaks
- Repairing fences
- Establishing mounds to stop vehicles and protecting plants
- Blocking off bush tracks
- Planting shade and fruit trees
- Planting appropriate trees around septic tanks
- Assisting Aboriginal Health Workers or others in the community to obtain and plant medicinal plants
- Installing drip systems where appropriate
- Education/health promotion

*The role of other key people and outside agencies in addressing land care issues may include some of the following:*

- Reducing the amount of vegetation in and around sewerage ponds
- Laying bitumen on roads in and around the community to control dust
- Land care projects i.e: bush medicine projects, tree planting projects, drip system or irrigation projects, conservation projects, etc.
- Establishing community nurseries, etc.

*Key people and outside agencies may refer to:*

- Environmental Health Officers
- Greening Australia
- Aboriginal Health Workers

**RANGE STATEMENT**

- Other land care agencies
  - Other community workers, e.g. horticultural trainees and/or graduates, community development workers, etc.
- Land care issues that either directly or indirectly relate to the possibility of disease transmission and/or health related complaints may include:*
- Excessive vegetation/weed around sewerage lagoons which can lead to mosquito breeding and transmission of diseases such as Ross River Fever, Australian Encephalitis, etc.
  - Lack of shade trees which can lead to sunburn and the possibility of skin cancer
  - Lack of fruit trees for nutritional purposes
  - Lack of medicinal plants, "bush medicine"
  - Lack of trees and shrubs to act as wind breaks against dust in the house yard, general community and outlying areas
  - Lack of trees around septic tanks to prevent cars from driving over them and collapsing drains or breaking lids
- Information may be sought by:*
- Talking to key people and outside agencies
  - Obtaining information from books, pamphlets, etc.
- Additional information or advice may include:*
- Seeking information or advice about specific health problems ie: respiratory complaints, skin infections and eye disease (abrasion and inflammation of the conjunctiva), as a result of dust; skin cancer due to a lack of shade trees in areas where people might gather, etc.
  - Seeking additional information or advice on resources, or people to contact and network with in relation to land care issues as they relate to health
- Monitor may be:*
- Observations in the field
  - Talking to householders and community members about any issues of concern
- Findings may be:*
- Areas in or around the community where dust may be originating from e.g. heavy traffic areas (front of the

## RANGE STATEMENT

store, clinic council office); bush tracks, airstrip, football oval, rubbish dump etc.

- House yards and/ or living areas in need of wind breaks, fence construction or repair, dust sheltering plants, mounding to protect fencing from cars, planting of appropriate trees around septic tanks, wire bed frames off the ground so that people can still sleep outside if they want to but out of the dust, shade structures and roofs, etc.
- Community areas where people gather or meet that may be in need of shade structures, trees and/ or wind breaks
- The need to support the land care activities of existing groups e.g. Bush medicine projects, beautification projects, etc.

*Report may be:*

- Verbal in either first language or English
- Written in either first language or English
- Photos of the problem/ issue of concern
- Video recording the problem/ issue of concern
- By showing supervisor the problem

*Referrals from others may include:*

- Requests from Aboriginal Health Workers for assistance in bush medicine projects, etc.
- Requests from householders or community members for assistance and/ or support in the development of the yard area i.e.: fencing repairs, planting trees around household septic tanks, planting fruit and shade trees in the yard/ community, wind breaks, etc.

*Recording may be by:*

- Taking notes of requests for support or assistance in either first language or English
- Showing the employing organisation/ supervisor any written requests for support i.e.: faxes, notes, letters etc. Requests for support might also come from local articles or brochures; for example the school might be advertising a future tree planting project in the community and be looking for outside support, etc.

*Referrals to relevant others may*

- Verbally in either first language or English depending

**RANGE STATEMENT**

*be:*

on the target group and whether or not the referrals take place internally within the community, or outside the community to other key people or outside agencies

- Written correspondence i.e.: faxes, letters, etc.
- Photo of the problem/issue
- Video recording the problem/issue

*Relevant others may include:*

- Community development workers
- Horticultural workers
- Community council
- Government agencies
- Other land care agencies
- Pawa

# HLTPOP310C Monitor and maintain dog health in the community

## Modification History

Not Applicable

## Unit Descriptor

### Descriptor

This unit aims to describe the competencies required to monitor dog health and dog population in the community and develop the necessary strategies and plans to address issues that may be of concern

## Application of the Unit

### Application

Working in compliance with relevant legislation and regulations within which the worker's organisation operates is essential

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

- |                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Monitor dog health and dog population in the community  | <p>1.1 Discuss benefits of conducting a <i>dog profile</i> with the community, and seek approval</p> <p>1.2 Gather information on the health, population and condition of dogs in accordance with job role</p> <p>1.3 Report nature and extent of problem(s) in accordance with organisation guidelines and procedures</p>                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 2. Develop a dog health and/or dog population control plan | <p>2.1 Discuss <i>strategies</i> in relation to dog health and population control with the organisation, community and relevant others to determine the best course of action, and preferred option(s)</p> <p>2.2 Analyse preferred option(s) within job role, and discuss with supervisor to determine feasibility in relation to any obstacles that may exist</p> <p>2.3 Establish a feasible plan of action in conjunction with the organisation, community and relevant others</p> <p>2.4 Recognise and demonstrate understanding of roles and responsibilities of organisation, worker, the community and other key people and/or outside agencies in relation to the plan</p> <p>2.5 Contribute to the coordination of the plan in accordance with job role</p> |
| 3. Implement plan                                          | <p>3.1 Assist community, organisation and relevant key people with delivery of a dog health and/or population control program in accordance with the plan</p> <p>3.2 Record results in relation to the implementation of the plan in accordance with organisation policies and</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

**ELEMENT****PERFORMANCE CRITERIA**

procedures

3.3 Implement follow up measures as required

## **Required Skills and Knowledge**

### **REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Advantages/disadvantages and obstacles in relation to various strategies
- Cultural issues which may impact on strategies, e.g. dog dreaming
- Points of contact
- The roles and responsibilities of the worker, community, dog owner, organisation and other key people or specialists in the implementation of the plan
- Traditional and non traditional responsibilities and benefits of owning a dog
- All work needs to reflect knowledge of the common dog diseases that can make a dog unhealthy, including:
  - flea infestation
  - tick infestation
  - worm infestation
  - infected sores or wounds
  - mange
  - eye and ear infections
  - ringworm infection
  - hydatid tapeworm infection
  - hookworm infection
- All work needs to reflect an understanding of the factors that can lead or contribute to dogs becoming unhealthy, including:

## REQUIRED SKILLS AND KNOWLEDGE

- hungry dogs
- too many dogs
- dogs whose nutritional requirements are not met
- dogs that are not properly groomed and checked regularly for conditions such as fleas, ticks, ringworms, sores, wounds etc.
- dogs that are not treated for conditions that may cause infection and affect their health
- dogs without access to clean/dry shelter
- dogs that are not wormed and immunised

*continued ...*

### *Essential knowledge (contd):*

- All work needs to reflect consideration and understanding of potential health issues in relation to dog population and health, e.g.:
  - secondary injury as a result of bites from aggressive dogs
  - potential disease risks and infections from dog bites, e.g. tetanus
  - people giving food to dogs and going without themselves
  - dogs as vectors or carriers of disease, e.g. dog plays in sewage waste and then plays or licks children
  - allergies due to dog mange causing or contributing to skin disease
  - gastrointestinal infections
  - roundworm and hookworm larval migration
  - worker needs to know points of contact in order to be able to obtain information on strategies in relation to dog health and population control

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply analytical and problem solving skills in order to determine the best course of action and preferred options
- Apply communication skills, both internally within the community and externally to relevant others as required
- Apply data collection skills as related to collecting information on the health, population and condition of dogs
- Apply organisation skills in relation to the coordination and implementation of the planned strategies
- Basic reading skills may be required in relation to obtaining information from books or

## REQUIRED SKILLS AND KNOWLEDGE

- other resources which are not in the worker's first language
- Collaborate effectively with dog owners and members of the community in order to gain their support and approval to monitor dog health and population in the community
- Consult with dog owners/community members as required
- Demonstrate safe work practices and procedures - if handling dogs and/or drugs as part of the plan
- Effectively network and communicate with the employing organisation, householders, community members, veterinarians, EHOs, key people and outside agencies
- Maintain and access effective networks which contribute to the achievement of objectives
- Negotiate options with dog owners/community members as is necessary
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues
- Use phone/fax

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Collaborative approach from the organisation, community, dog owners, indigenous environmental health workers, environmental health officers, and other key people/specialists in order to implement the plan effectively
- Competency must be assessed in relation to the strategies which the community has chosen to be implemented as part of the plan
- Consistency in performance should consider the nature and extent of problems in relation to dog health/population
- Consistency in performance should consider wide range of strategies in relation to the management of

## EVIDENCE GUIDE

dog health and/or population

- Cultural activities should also be taken into consideration, i.e. people leaving the community with their dogs to visit relatives in other communities, or to attend sporting events, football carnivals etc.
- As a result of these possible contingencies, this unit needs to be assessed on more than one occasion and is best assessed over a period of time in order to monitor the success of the strategy(s) implemented as part of the plan

- Access and equity considerations:*
- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

- Context of and specific resources for assessment:*
- This unit is best assessed on the job
  - The identification of strategies in relation to dog health can be assessed both on or off the job
  - Access required to:
    - a phone/fax (to assess competency in networking and liaising with veterinarians, environmental health officers, and other specialists/experts)
    - equipment and supplies in accordance with the strategy(s) to be implemented, and job role (to assess competency in delivery of a dog health and population control program)
    - books and resources if required

- Note:**
- The worker will receive training/written approval from a veterinarian, Environmental Health Officers,

## EVIDENCE GUIDE

or other people qualified to administer schedule 4 drugs, i.e. Ivomec during this unit

- This can then be given to the poisons registrar to enable them to obtain Ivomec, and deliver follow up procedures for the Ivomec program on their own

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Dog profile refers to:*

- Information gathered on the health, population and condition of dogs

*Benefits of conducting a dog profile may be:*

- To give an overall picture of a situation, and keep the community informed
- To assist with the development of strategies to address dog health issues in the community
- To maintain the health of the dogs
- To prevent the spread of infection

*Information gathered may include:*

- The number of dogs in each household/the community
- Unhealthy/diseased and under-nourished dogs
- Rogue or problem dogs
- Dumped dogs

*Reporting may include any*

- Verbal in either first language or English

## RANGE STATEMENT

*number of the following range of variables:*

- Written checklists/data collection in either first language or English, i.e. counting the number of dogs, sick dogs, undernourished dogs, etc. The numerical language chosen will be dependant upon the target group and whether or not the information gathered is to remain internally within the community or reported externally to other key people and outside agencies
- Written notes in either first language or English
- Photos of the condition/population of dogs in the community
- Video recording the condition/population of dogs in the community

*Information may be obtained from:*

- Veterinarians
- Aboriginal Health Workers
- Environmental Health Officers
- Other specialists/experts
- Books/resources if required

*Strategies may include:*

- Informing dog owners/community about various strategies in relation to caring for dogs, e.g. nutritional food sources, the provision of clean/dry shelter, checking dogs for fleas, ticks, wounds, sores, mange, eye and ear infections, immunising and worming dogs, washing dogs, seeking help and support for sick dogs, etc.
- Reducing the number of internal and external parasites, e.g. Dog Ivomec program
- Dog sterilisation/contraception, e.g. Covinan to control population
- Putting dogs down/euthanasia, e.g. Lethobarb, or by shooting

### ***Informing dog owners/community about various strategies in relation to caring for dogs***

*Advantages may include:*

- Community control
- Healthier and happier dogs in the community
- Reduces the possibility of aggression and dog bites

**RANGE STATEMENT**

- Limits the spread of infection

*Disadvantages may include:*

- Increased dog breeding rates as a result of improved health

*Obstacles may include:*

- Cultural issues in relation to dog ownership
- Inability to be able to afford to buy the necessary items to keep dogs healthy, e.g. nutritional food, medicated creams, eye and ear drops, worming tablets etc.
- Inability to gain access to veterinarians when required as a result of remoteness

***Dog program to reduce the number of internal and external parasites, i.e. Ivomec****Advantages may include:*

- Healthier and happier dogs in the community
- Limits the spread of infection

*Disadvantages may include:*

- Increased dog breeding rates due to improved health
- More competition and aggression between male dogs for female dogs in the community, leading to an increased number of dog wounds, and the possibility of wounds becoming infected

*Obstacles may include:*

- Gaining access to Ivomec and the equipment needed to run a dog Ivomec program
- Needs to be ongoing, approximately every 3 month

***Dog sterilisation (spays castration)/contraception, i.e.: Covinan to control population****Advantages may include:*

- Controls the dog population
- Avoids multiple litters
- Avoids disposal of unwanted/excessive numbers of pups

## RANGE STATEMENT

*Disadvantages may include:*

- Expensive
- The Covinan injection that is currently given as a means female contraception can sting the dog causing unwanted aggression towards the handlers

*Obstacles may include:*

- The community will need the assistance of a qualified veterinarian for sterilisation/contraceptive procedures, sometimes for up to one or two weeks. This can present obstacles, e.g. transport and labour costs, accommodation for the veterinarian whilst they are in the community etc.
- Covinan as a means of contraception for female dogs needs to be given every 5 months which can sometimes present difficulties with finding the same dog twice
- Difficulties with correct timing in relation to administering Covinan, i.e. it needs to be given to dogs before they go on heat (at approximately 7 months of age), and it is not to be given to dogs if they are pregnant

### ***Putting dogs down/euthanasia i.e. Lethobarb***

*Advantages may include:*

- Ends a dogs suffering, misery, and pain

*Disadvantages may include:*

- Cultural issues
- It can be very emotional and stressful for the dog owner

*Obstacles may include:*

- If chemical injections such as Lethobarb are to be used, the assistance of qualified veterinarians, or other people with permits to administer the drug will be required. Access to people who are qualified can present obstacles for some remote communities

**RANGE STATEMENT**

*Key people or agencies may include:*

- Environmental Health Officers
- Other environmental health worker
- Aboriginal Health Workers
- Veterinarians
- Specialists/experts
- Poisons branch

*Relevant others/community members may include:*

- Aboriginal Health Workers
- Other clinic staff
- Dog owners
- Householders
- Community members
- Elders and traditional owners

*Organisation may refer to:*

- Community council
- Community clinic
- Other employer bodies/agencies

*Contributions to the coordination of the plan may include:*

- Seeking community support for the plan
- Ordering in supplies and equipment, e.g. Ivomec, dispenser guns, marker spray paint etc.
- Networking and liaising with veterinarians, aboriginal health workers environmental health officers, other specialists/experts
- Informing the community about the times and dates for any proposed programs
- Organising the assistance of other helpers to aid with the handling of the dogs if required

*Assistance with the delivery of a dog health and/or population control program may include:*

- Talking to dog owners/community members about strategies to care for their dogs if required
- Talking to dog owners/community members about the causes of disease, and the possibilities of transmission between animals and humans
- Talking to dog owners about treatment for specific dogs in the household/community, e.g. how many to be given Ivomec, which dogs to be put down, sterilised (spays/castration) contraception etc
- Negotiating options with dog owners if required

## RANGE STATEMENT

- Handling dogs as required
- Marking dogs who have been treated
- Disposing of dogs who are put down
- Assisting the veterinarian with sterilisation/contraceptive procedures if required
- Assisting veterinarian, EHO with measuring out dosages of Ivomec (usually onto bread) and giving treatment to dogs in conjunction with dog owners

### *Results may refer to:*

- Number of dogs treated
- Number of people informed about the diseases affecting their animals
- Method and type of treatment
- Problems such as aggressive dogs that were unable to be treated etc.

### *Follow up measures may include:*

- Giving Ivomec treatment to dogs every 3 months
- Assisting with the administration of Covinan every 5 months
- Identifying and monitoring the location of female dogs being treated with Covinan in the community to ensure that they are easily found when required
- Talking to the community/dog owners about strategies for ongoing care of their dogs
- Monitoring dog diseases or deaths in the community, especially outbreaks
- Checking up on dogs after vet visits, e.g. dogs needing ongoing medication, or those just operated on. This information can then be feed back to the vet, as problems can quite often be dealt with over the phone and medication sent if the vet has already seen the animal

### *Success of the plan may refer to:*

- Reduction in the number of sick dogs in the community
- Reduction and/or the stabilising of population
- Increased community awareness in relation to strategies to care for their dogs
- Reduction of transmissible diseases

**RANGE STATEMENT**

*Reporting methods may be:*

- Verbally in either first language or English
- Written in either first language or English, e.g. notes, written reports etc.

*Feedback may be through:*

- Photos of the condition/population of dogs in the community
- Video recording the condition/population of dogs in the community
- Verbally in either first language or English depending on the target group and who the feedback is being provided to, i.e. the employing organisation, community or relevant others
- Written in either first language or English

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

- |                                                                |                                                                                                                                                                           |
|----------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Address information needs of the community and householders | 1.1 Monitor and observe <i>potential environmental health hazards</i> or risks in the community and household as part of work role                                        |
|                                                                | 1.2 Discuss any <i>issues of concern</i> with community members and householders to <i>determine information needs</i> , and level of support required                    |
|                                                                | 1.3 Discuss any difficulties or obstacles that may exist which has prevented the householder/ community member from being able to address issues of concern               |
| 2. Provide information and support                             | 2.1 Provide information and support to community members as required or requested in accordance with identified job role, and worker's roles and responsibilities         |
|                                                                | 2.2 Report any problems, <i>difficulties or obstacles</i> that are outside of area of responsibility or expertise in accordance with organisational policy and procedures |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

## REQUIRED SKILLS AND KNOWLEDGE

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Alternative ways of providing information e.g. seeking the assistance of Aboriginal Health Workers, or others in the community to help provide information or support if cultural relationships such as "poison cousins" prevents interaction
- Basic knowledge of germ theory and disease transmission
- Own roles and responsibilities
- What are environmental health hazards and risks and why

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Recognise the way in which diseases are transmitted and identify strategies for prevention

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Effectively communicate with community members, the employing organisation and in some instances outside agencies or relevant others
- Monitor and identify potential environmental health risks and hazards as part of job role
- Recognise the way in which diseases are transmitted, and strategies for prevention
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the

## EVIDENCE GUIDE

Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Assessment of this unit of competency needs to occur more than once and/ or over a period of time
- Assessment of performance must be in relation to issues relevant to the indigenous environmental workers job role and area of responsibility
- If this unit is being assessed in the context of personal and domestic hygiene gender issues and cultural sensitivities need to be considered

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- Assessment must take place on the job
- Access to:
  - resources, tools or equipment in order to be able to demonstrate or show householders or community members possible strategies to deal with any issues of concern if required

*Method of assessment:*

- Assessment may include:
  - observations
  - questioning
  - evidence gathered from the work place

## EVIDENCE GUIDE

- Assessment may also include the way in which competency is applied to other environmental health specific units over a period of time

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Monitoring potential environmental health hazards or risks will depend upon the Indigenous Environmental Health Workers job role, and context (area) of environmental health within the workers responsibility.*

*These environmental health hazards or risks may include, but are not limited to:*

- Non functional health hardware in the house e.g. toilets, taps, drains, pipes, washing machines, hot water service, etc.
- Problems associated with poor housing design and construction e.g. waste water pooling in other areas of the house as a result of inappropriately graded wet areas, living areas built too close to wet areas, lack of adequate food preparation surfaces and storage, shelving in houses, etc.
- Overcrowding
- Pooling water from leaking taps or rubbish lying around in the yard or community which could potentially become a breeding ground for mosquitoes
- Littering in the community and/ or not enough bins in the community
- Sick dogs sleeping with people
- Problem with dust blowing around in people's yards and the general community
- Domestic and personal hygiene issues

## RANGE STATEMENT

- Unsafe food storage and handling practices
- Issues of concern refers to:*
- Any environmental health issue or hazard identified by the worker as part of their work role which directly relates to the need to provide information and/ or support to householders and/ or community members
- Determine information needs may refer to:*
- Identifying how much householders and community members already know about the potential disease threats in relation to the issue of concern or hazard
  - Identifying what information still needs to be provided to householders and community members to assist them in making informed choices or decisions
- Some difficulties or obstacles may refer to:*
- Non durable health hardware already installed in houses that constantly breaks
  - Houses that have been poorly constructed or designed, and as a result are contributing to a range of health problems
  - Large numbers of family visiting the household at any one time
  - Lack of ongoing repairs and maintenance to health hardware
  - Issues in relation to "shame" e.g. house holder or community member not being able to afford to buy health hardware items eg. toilet paper, shampoo, soap, cleaning agents, or inability to read labels and direction of use on detergent bottles and cleaning agents
  - Cultural issues e.g. sleeping with dogs because they are a very important part of a person's culture and life
  - Not having access to fridges/ freezers to store food
  - Not having access to washing machines to wash clothes
- Provide information and support may include:*
- Informing and showing householders basic plumbing skills e.g. changing washers, reseating taps, unblocking drains, etc.
  - Informing and showing householders/ community

## RANGE STATEMENT

members possible strategies to utilise the yard area to reduce the impact of overcrowding e.g. cooking areas, sheltered areas, wind breaks, shelving out of reach of dogs, etc.

- Informing and showing householders/ community members potential mosquito breeding items that may be lying around in the yard or community e.g. broken upside down cars that are collecting water, tins, pet water containers that haven't been changed regularly, etc.
- Informing and showing householders and community members the importance of protecting themselves from mosquito bites
- Informing and showing community members strategies to prevent the transmission of disease in a food storage and handling context e.g. importance of washing hands after going to the toilet, not sneezing or coughing on food, covering food, not leaving food out over night near the campfire or on the stove, not re-freezing food that has already been thawed out, etc.
- Informing and showing community members strategies to prevent the transmission of diseases that may be highlighted/ accentuated by personal and domestic hygiene issues e.g. correct detergent or cleaning agent to use for the task required, way in which to clean the house and the various items within it, correct use of white goods such as washing machines, etc.

*Reporting may be:*

- Verbally in either first language or English
- Written in either first language or English
- By showing supervisor the problem if and when appropriate

*Organisation may refer to:*

- Community council
- Community clinic
- Other employer bodies/ agencies

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

## REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Equity issues in population health
- Evidence-based practice
- Knowledge of evaluation (types, levels of evaluation)
- National, state and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Alma Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Social change and advocacy processes
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Analyse, judge and incorporate feedback where required
- Apply effective communication and interpersonal skills including:
  - high level written or verbal communication
  - negotiation and liaison
  - consultation
  - conflict resolution and mediation
- Apply analytical thinking, problem solving and critical appraisal
- Engage and work collaboratively and/or in partnership
- Facilitate and contribute effectively to meetings, forums and other networks
- Identify and consult with key stakeholders throughout the monitoring and evaluation process
- Pay attention to equity
- Undertake work planning and management

## REQUIRED SKILLS AND KNOWLEDGE

- Work as part of a multi-disciplinary team and/or autonomously

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistent satisfactory performance of all elements of this unit must be demonstrated

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit may be assessed in the workplace or in a simulated workplace under normal conditions
- The unit may be assessed in the classroom
- Access to:
  - a range of government and non government policy documents and reports and statistics

## EVIDENCE GUIDE

- journals, books and external expertise
- network of stakeholders
- organisation policies and procedures

### *Method of assessment*

- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff client feedback
- Portfolio/CV
- Supporting statement of supervisors
- Evidence of relevant work experience/formal or informal learning
- Case studies and scenarios as a basis for the discussion of issues in population health project planning
- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report

### *Related units:*

This unit should be undertaken and assessed in conjunction with the following units:

- HLTPOP302C Contribute to working with the community to identify health needs
- HLTPOP303C Contribute to population health project planning

It is recommended that this be undertaken in conjunction with *PSPPM402B Manage simple projects* to obtain a more holistic view of program planning, management and evaluation process

## Range Statement

### RANGE STATEMENT

## RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Population health projects may vary considerably in scope and content:*

- Population health projects may be developed in any population health field including:
  - health promotion
  - environment health
  - communicable diseases
  - health risk management and assessment
- Population health projects may be developed at any level including:
  - local
  - regional
  - state
  - national
- Population health projects may be developed for any population including:
  - general Australian population
  - any subgroups within that population identified based on age, sex, ethnicity, sexual identity, geographical location, physical environment, lifestyle choices, socio economic status, disability, health status etc.
  - any community defined as collective group of people identified by common values and mutual concern for the development and well-being of their group or geographical area
  - any setting/organization whose practices influence health behaviour (e.g. clinical services, general practice, school, workplaces, etc.)
- Population health projects can target individuals, groups or organisations
- Population health projects may relate to different health determinants (e.g. biological, economic, behavioural, social, etc.)

## RANGE STATEMENT

|                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

## HLTPOP303C Contribute to population health project planning

### Modification History

Not Applicable

### Unit Descriptor

#### Descriptor

This unit is concerned with making a contribution to planning a population health project

The contribution focuses on working from an existing project plan to develop the detail such as a timetable for implementing strategies, evaluation and budget

### Application of the Unit

#### Application

This unit applies to work in a public health context and must be applied in compliance with relevant legislation and regulations

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

Present planning information            | 4.1 Select appropriate methods of presenting planning information on the basis of planner needs                                                                                                                                                                                                                                                                                                                                                                   |

**ELEMENT****PERFORMANCE CRITERIA**

4.2 Ensure presentation is logical and assertions are supported by references to relevant data and information

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Equity issues in population health
- Evidence-based practice
- National, State and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Alma Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Social change and advocacy processes
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Analyse, judge and incorporate feedback where required

## REQUIRED SKILLS AND KNOWLEDGE

- Apply effective communication and interpersonal skills including:
  - high level written or verbal communication
  - negotiation and liaison
  - consultation
  - conflict resolution and mediation
- Apply analytical thinking, problem solving and critical appraisal
- Develop and implement a process that ensures consultation with key stakeholders throughout the planning process
- Engage and work collaboratively and/or in partnership
- Facilitate and contribute effectively to meetings, forums and other networks
- Pay attention to equity
- Undertake work planning and management
- Work as part of a multi-disciplinary team and/or autonomously

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistent satisfactory performance of all elements of this unit must be demonstrated

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and

## EVIDENCE GUIDE

Torres Strait Islander people

- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit may be assessed in the workplace or in a simulated workplace under normal conditions
- The unit may be assessed in the classroom
- Access to:
  - a range of government and non government policy documents and reports and statistics
  - journals, books and external expertise
  - network of stakeholders
  - organisation policies and procedures

*Method of assessment*

- Observation of performance
- Written tasks
- Interviewing and questioning
- Formal appraisal systems
- Staff client feedback
- Portfolio/CV
- Supporting statement of supervisors
- Evidence of relevant work experience/formal or informal learning
- Case studies and scenarios as a basis for the discussion of issues in population health project planning
- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report

*Related units:*

This unit should be undertaken and assessed in conjunction with the following units:

- HLTPOP302C Contribute to working with the community to identify health needs
- HLTPOP304C Contribute to evaluating a population health project

## EVIDENCE GUIDE

It is recommended that this be undertaken in conjunction with *PSPPM402B Manage simple projects* to obtain a more holistic view of program planning, management and evaluation process

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Population health projects may vary considerably in scope and content:*

- Population health projects may be developed in any population health field including:
  - health promotion
  - environment health
  - communicable diseases
  - health risk management and assessment
- Population health projects may be developed at any level including:
  - local
  - regional
  - state
  - national
- Population health projects may be developed for any population including:
  - general Australian population
  - any subgroups within that population identified based on age, sex, ethnicity, sexual identity, geographical location, physical environment, lifestyle choices, socio economic status, disability, health status etc.

## RANGE STATEMENT

|                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|----------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                | <ul style="list-style-type: none"><li>• any community defined as collective group of people identified by common values and mutual concern for the development and well-being of their group or geographical area</li><li>• any setting/organisation whose practices influence health behaviour (e.g. clinical services, general practice, school, workplaces, etc.)</li><li>• Population health projects can target individuals, groups or organisations</li><li>• Population health projects may relate to different health determinants (e.g. biological, economic, behavioural, social, etc.)</li></ul>                                                  |

| <i>Goal(s) refer/s to:</i>                                     | <ul style="list-style-type: none"><li>• What the project aims to ultimately achieve</li></ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

**RANGE STATEMENT**

*Objectives refer to:*

- What the project needs to attain to achieve project goals

*Strategy refers to:*

- A plan of action to achieve a project goal

*Relevant personnel for consultation may include:*

- Individuals who have undertaken similar work or worked with a similar target population
- Individuals who control access to any of the factors that may influence delivery of the project strategies (e.g. stakeholders, target population, etc.)
- Individuals who may potentially provide resources

**Unit Sector(s)**

Not Applicable

## **HLTPOP302C Contribute to working with the community to identify health needs**

### **Modification History**

Not Applicable

### **Unit Descriptor**

#### **Descriptor**

This unit develops the skills necessary to contribute working with a particular population/sub-group of interest /community in the assessment of their health needs

It develops the ability to source and develop information and data to assist in reviewing aspects of the problem being targeted and to assist in defining the health needs of the population of interest

This in turn, guides the design, planning and evaluation of Population Health projects or interventions

### **Application of the Unit**

#### **Application**

This unit applies to work in a public health context and must be applied in compliance with relevant legislation and regulations

### **Licensing/Regulatory Information**

Not Applicable

### **Pre-Requisites**

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Assist in conducting a literature review

- 1.1 Identify organisation reports and key documents and assess for relevance to the aims of the literature review
- 1.2 Consult key stakeholders from the community and other relevant bodies for sources of information relevant to the literature review
- 1.3 Identify and source information and data at local, state or regional level that may assist in defining and assessing the *health needs* of a community
- 1.4 Provide feedback to the work team or team leader on sources of information and stakeholder views

2. Participate in a *consultation* process with the target community

- 2.1 Contribute to discussions with key stakeholders regarding the health problem, its causes and appropriate interventions/solutions
- 2.2 Provide briefing materials throughout the consultation process to identify and clarify issues of interest/concern to stakeholders and own organisation
- 2.3 Provide *feedback* to the team leader or work team on the results of the consultation process

## ELEMENT

## PERFORMANCE CRITERIA

3. Contribute to activities that assist the community to identify their health needs

3.1 Make positive contributions to activities that develop an understanding of the factors contributing to the *health problem of the community*

3.2 Provide feedback to team members/leader to facilitate discussion and clarify issues arising from the review of literature and consultation process with the community and relevant *stakeholders*

3.3 Collect further *information and data* when needed for input into the analysis and presentation of results arising from the review of literature and consultation process

3.4 Recommend activities that would build the capacity of the community to identify their health needs to relevant stakeholders

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Equity issues in population health
- Evidence-based practice
- National, State and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Alma Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Social change and advocacy processes
- Theory and practice of population health including health promotion, health protection

## REQUIRED SKILLS AND KNOWLEDGE

and prevention of communicable and non communicable diseases

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply effective communication and interpersonal skills including:
  - high level written or verbal communication
  - negotiation and liaison
  - consultation
  - conflict resolution and mediation
- Apply analytical thinking, problem solving and critical appraisal
- Engage and work collaboratively and/or in partnership
- Facilitate and contribute effectively to meetings, forums and other networks
- Identify and source relevant data and information
- Provide feedback in a comprehensive and logical manner
- Work as part of a multi-disciplinary team and/or autonomously
- Work planning and management

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills

## EVIDENCE GUIDE

- Access and equity considerations:*
- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

- Context of and specific resources for assessment:*
- This unit may be assessed in the workplace or in a simulated workplace under normal conditions
  - The unit may be assessed in the classroom and may contain a strong theoretical emphasis
  - Access to:
    - a range of government and non government policy documents and reports and statistics
    - journals, books and external expertise
    - documents and other materials (charters, declarations, discussion papers, etc.) from international conferences on population health
    - a range of government and non government policy documents and reports and statistics
    - organisation policies and procedures

- Method of assessment*
- Observation of performance
  - Written tasks
  - Interviewing and questioning
  - Formal appraisal systems
  - Staff client feedback
  - Portfolio/CV
  - Supporting statement of supervisors
  - Evidence of relevant work experience/formal or informal learning
  - Case studies and scenarios as a basis for the discussion of issues in population health project

## EVIDENCE GUIDE

planning

- Project, exercise or investigation with relaxed time restraints requiring a significant part of the work to be carried out without close supervision and requiring the completion of a project report

*Related units:*

This unit should be undertaken and assessed in conjunction with the following units:

- HLTPOP303C Contribute to population health project planning
- HLTPOP304C Contribute to evaluating a population health project

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Health need is defined as:*

- State, conditions or factors in the community which, if absent, prevent people from achieving the optimum of physical, mental and social well-being <sup>1</sup>

*Types of need:*

- Normative need (based on expert opinion)
- Expressed need (based on inferences made from observation of use of health services)
- Comparative need (derived from examining the services provided in a similar population)
- Felt need (based on what members of the community say they need)

## RANGE STATEMENT

*Health problem and community being targeted may be identified through one of the following ways:*

- Consultation with supervising Population Health professional
- Position/job description
- Policy documents/legislation detailing national, state or local health goals

*Means of finding relevant literature may include:*

- Web searches for publications and research reports from relevant organisations
- Catalogue searches

*Briefing materials may include:*

- Written summaries of issues or opinion
- Pamphlets, brochures, charted and tabled data
- Collections of reports, articles or research results

*Feedback may include:*

- Written reports
- Brief commentary or summary presentations

*Consultation may take the form of one of the following:*

- Interviews (personal, phone, formal or informal)
- Nominal group process
- Questionnaires
- Delphi Method
- Focus groups
- Forums

*Relevant sources of information include:*

- Books
- Journals
- Hospital records
- Notification systems
- Registers
- Sentinel recording systems
- Surveys
- Annual public health reports
- Existing epidemiological/socio-demographic data
- National Population Health and Health Promotion agencies and organisations
- General practitioners/primary care service
- Local health authorities

## RANGE STATEMENT

- Councils
- Voluntary agencies
- Relevant databases, such as HEAPS
- Publications of Australia Bureau of Statistics (ABS)
- Experts in the field (practice and academia)
- Target group representatives

*Key stakeholders may include:*

- Representatives of relevant health agencies operating in the local community
- Community advocates or change agents
- Representatives/leaders of the target population
- Population health professionals/Supervisors
- Federal, State or local health service and population health planners
- Federal, State or local health service providers
- Other health and/or non-government organisations

*Data may be:*

- Qualitative
- Quantitative

*Types of data required about the target group may include:*

- Demographic characteristics (e.g. age, sex, ethnic composition, residence, education level achieved)
- Patterns of behaviour
- Lifestyle

*Ethical considerations that guide data collection and consultation processes may include:*

- Privacy and confidentiality
- Responsibility to help a community respond to needs they identify which might not necessarily coincide with stated priority health needs

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Basic knowledge of recent public health strategies and relevant local codes of practice and legislation
- Basic principles of health promotion, e.g. as per Ottawa Charter
- Basic principles of population health
- Equity issues in population health
- Importance of principles and practices to enhance sustainability in the workplace, including environmental, economic, workforce and social sustainability
- National, State and local health initiatives and priorities
- Organisations involved in population health in Australia
- The components of population health including health promotion, environmental health, health protection and prevention of communicable and non communicable diseases

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply effective communication and interpersonal skills including written or verbal communication
- Apply problem solving skills
- Contribute effectively to meetings
- Discuss a population health approach in specific work role context
- Gather information from written sources and/or through verbal questioning
- Recognise and use opportunities to enhance sustainability in the workplace
- Translate 'big picture' information into value at the local level

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit is most appropriately assessed in the classroom environment
  - this unit may be undertaken by workers training for a range of jobs in the population health and related sectors
  - assessment where practicable should allow for knowledge of population health to be applied to a prospective or actual work role
- Access to:
  - a range of government and non government policy documents and reports and statistics

## EVIDENCE GUIDE

*Method of assessment may include:*

- Interviewing and questioning
- Assignment
- Scenarios as a basis for the application knowledge of the population health approach to a specific work role
- Scenarios as a basis for the application of knowledge about the foundations of the health of populations to a specific work role

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*The term population may refer to:*

- General Australian population
- Any subgroup within that population identified by age, sex, ethnicity, sexual identity, geographical location, physical environment, lifestyle choices, socio economic status, disability, health status, etc.
- Any community defined as collective group of people identified by common values and mutual concern for the development and well-being of their group or geographical area

*Context includes:*

- Statutory framework within which work takes place
- Historical context of work, e.g. changing attitudes to environmental health, changing approaches to public health
- Changing social context of work, e.g. changing government and societal views of environmental health, health promotion and disease prevention

**RANGE STATEMENT**

|                                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                       |
|--------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                    | <p>aspects of primary health care</p> <ul style="list-style-type: none"> <li>• Political context, e.g. government policies and initiatives affecting environmental health work</li> <li>• Economic context, e.g. the current economic situation as it relates to and affects environmental health and the subsequent impact on individual and community needs</li> </ul>                                              |
| <i>Concepts/models of health include:</i>                          | <ul style="list-style-type: none"> <li>• Medical model</li> <li>• Salutogenic model</li> <li>• Social view of health</li> <li>• Academic/professional models of health</li> </ul>                                                                                                                                                                                                                                     |
| <i>Different models of work in the sector may include:</i>         | <ul style="list-style-type: none"> <li>• Early intervention/ disease prevention</li> <li>• Community development and education</li> <li>• Health promotion</li> <li>• Working with individuals</li> <li>• Working with families and the community</li> <li>• Community funded indigenous environmental health workers</li> <li>• Government health services funded indigenous environmental health workers</li> </ul> |
| <i>Health determinants may include:</i>                            | <ul style="list-style-type: none"> <li>• Political</li> <li>• Biological and genetic factors</li> <li>• Physical environment</li> <li>• Socio-economic factors (e.g. Social gradient, stress, early life, social exclusion, work, unemployment, social support, addiction, food, transport, housing, etc.)</li> <li>• Behavioural</li> <li>• Cultural</li> <li>• Quality of health services</li> </ul>                |
| <i>Key principles to a population health approach may include:</i> | <ul style="list-style-type: none"> <li>• Population focus</li> <li>• Preventive focus with stress on building individual/community's capacity to control health determinants for a better quality of life</li> <li>• Sensitivity to access and equity issues</li> </ul>                                                                                                                                               |

## RANGE STATEMENT

- Sensitivity to cultural differences
- Health as a resource for everyday living and not as end in itself
- Health as a result of complex interaction among determinants
- Shared responsibility of health
- Educational-Ecological approach
- Evidence-based approach
- Principles of equity and non-discriminatory practice

*For some workers, especially those working with remote and / or Indigenous communities, additional principles might include:*

- A holistic and community development approach
- Commitment to empowering individuals and the community
- Commitment to meeting the needs and upholding the rights of individuals and the community

*Different settings for population health action may include:*

- Home
- School
- Hospital
- Health services
- Community
- Work
- Transport
- Sports and recreation facilities

*Examples of local, state and national organisations, and initiatives supporting Population Health work include:*

- Establishments that provide primary health care
- Community Clinics
- Local public health units
- State and national Health departments
- Professional and industry associations
- Non-government organisations
- International health organisations

*National charters/declarations include:*

- Health for All by the Year 2000
- Health Promotion: Bridging the Equity Gap

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

## REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- A philosophical and historical understanding of preventative health care
- Social research and data relating to health issues
- Primary health care principles
- Funding and policy environment

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Apply and conduct social research
- Use and interpret data base information
- Apply numerical skills to enable statistical interpretation

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply oral communication skills required to fulfil job roles as specified by the organisation/service including:
  - asking questions
  - active listening
  - asking for clarification
  - negotiating solutions
  - acknowledging and responding to a range of views
- Apply written communication skills required to fulfil job roles as specified by organisation/service
- Apply problem solving skills required include an ability to use available resources, analyse information and make decisions
- Demonstrate application of skills including:

## REQUIRED SKILLS AND KNOWLEDGE

- project planning
- work with diversity
- advocacy skills
- work in groups

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Evidence must include observation of performance in the work environment or in a simulated work setting

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources*

- This unit can be assessed independently, however

## EVIDENCE GUIDE

*for assessment:*

holistic assessment practice with other community services units of competency is encouraged

- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can be conducted or simulation of realistic workplace setting for assessment
  - equipment and resources normally used in the workplace

*Method of assessment:*

- Observations
- Questioning
- Evidence gathered from the workplace environment
- Demonstration over a period of time to ensure consistency of performance

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Key resources are available from:*

- WHO concept of Health
- Ottawa Charter 1986
- Jakarta Declaration 1997

*Key issues and prevention strategies affecting people's health:*

- Nutrition
- Substance use and misuse
- Environmental health
- Mental health

**RANGE STATEMENT**

- Sexual and reproductive health
- Other determinants

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Identify *health information* requirements

- 1.1 Obtain information from *key people* about community health needs
- 1.2 Hold discussions with key people
- 1.3 Assess and *document* levels of health information in the community according to organisation guidelines
- 1.4 Identify and list gaps in available information
- 1.5 Determine and prioritise community health information needs

2. Develop health information in an appropriate context

- 2.1 Negotiate with key people to determine location, time and place for sharing health information
- 2.2 Prepare and assemble *resources* in consultation with key people
- 2.3 Develop information using techniques appropriate to the target audience

3. Implement sharing of health information

- 3.1 Deliver health information in a clear and concise manner
- 3.2 Deliver health information in a place that is negotiated with the target audience
- 3.3 *Obtain feedback* from the audience to determine whether information is correctly received

**ELEMENT****PERFORMANCE CRITERIA**

4. Evaluate presentation of health information

4.1 Review progress and/or outcome against community needs, in consultation with key people

4.2 Provide key people with suggestions to improve the methodology of sharing health information

4.3 Implement changes to methodology in consultation with key people as required

## Required Skills and Knowledge

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Local community health plans
- Organisation policies and guidelines
- Community/sector networks
- Collection and interpretation of health data
- Processes related to health promotion
- Factors underlying community development processes
- Evaluation models

### *Essential skills:*

The candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Undertake community research
- Record health data
- Demonstrate application of skills including:
  - cross cultural communication skills
  - interpersonal communication skills

- interpreting data
- decision-making
- using community profiles
- effective use of relevant information technology in line with work health and safety (WHS) guidelines

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include access to:
  - an appropriate workplace where assessment can

take place or practice laboratory

- relevant organisation policy, protocols and procedures
- emergency response procedures and employee support arrangements

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Organisations may include:*

- Local/regional organisations:
  - community health centres
  - local hospital
  - other community service organisations
  - local council
- National organisations:
  - Australian bureau of statistics
  - health and welfare institute
  - other state/territory and federal government organisations

|                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

- Pictorial display of information:
  - poster
- Verbal:
  - discussion
  - personal interviews

## Unit Sector(s)

Not Applicable

## CHCDFV406C Provide domestic and family violence support in Aboriginal and Torres Strait Islander communities

### Modification History

Not Applicable

### Unit Descriptor

#### Descriptor

This unit describes the knowledge and skills, attitudes and values required to provide support to people from Aboriginal or Torres Strait Islander communities who have been affected by domestic and family violence

It requires sensitivity and an understanding of diverse cultural protocols and practices, including appropriate interpersonal and networking skills

### Application of the Unit

#### Application

This unit may apply in a range of community service contexts with clients who may experience domestic and family violence

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

### Employability Skills Information

#### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Establish and maintain relationship with community

- 1.1 Establish and maintain relationships with *key people within a community* to promote services and to develop respect, acceptance, confidence and credibility between the *community* and the service
- 1.2 Identify and respect *restrictions and protocols* regarding communicating and relating with the community and its members
- 1.3 *Support* developed *community* programs which meet the needs identified by *clients*
- 1.4 Collect *local information* to identify the requirements of the community in relation to domestic and family violence issues
- 1.5 Provide feedback to the community and individuals in relation to information collected
- 1.6 Respect and encourage the value of community, elders and kinship system as a social support mechanism and use when appropriate and with client consent

2. Work within cultural requirements

- 2.1 Ensure information provided is linguistically, visually and culturally acceptable to the community
- 2.2 Identify and recognise different views of the community and consider in planning any support activities
- 2.3 Adapt *work* processes as appropriate to meet requirements of the community and *specific needs* of individuals
- 2.4 Utilise values, issues and structures within the

## ELEMENT

## PERFORMANCE CRITERIA

community to maximise outcomes for clients

2.5 Where relevant, work with the whole family including perpetrators, siblings, extended family and community members

2.6 Ensure work within the community and with individual clients is consistent with *organisation standards and procedures* and current *legislative and statutory requirements*, and gives consideration to the practices of the community

### 3. Support client

3.1 In all work with clients, prioritise their physical and emotional safety and the safety of their family

3.2 Use appropriate interpersonal skills to allow accurate and relevant exchange of information and to make sure individual stories are heard, accepted, understood and validated

3.3 Provide the individual with feedback to ensure accuracy and appropriate interpretation of their stories

3.4 Identify, assess and respond to any indications of risk or harm according to the degree and nature of the risk and the client's wishes and circumstances

3.5 Explain and promote client and worker rights and responsibilities throughout client contact

3.6 Undertake all appropriate record-keeping and reporting in accordance with organisation standards and procedures

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

## REQUIRED SKILLS AND KNOWLEDGE

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Understanding of effective ways to gain community acceptance
- Knowledge of the cultural and language groups represented within the local/regional community, and a respect of their values, beliefs and traditions
- Understanding of the key people and groups within the community and relevant protocols and restrictions for consultation and decision-making
- Understanding of how to communicate with the community (adaptation of language, verbal and non-verbal, local language)
- Knowledge of the impacts of cultural, sub-cultural, social, religious, gender, age, language issues etc on attitudes towards domestic and family violence
- Understanding of the prevalence of myths, unhelpful beliefs, attitudes and practices in the broader society regarding domestic violence and their effects on individuals' rights to safety and autonomy
- Understanding of domestic and family violence indicators and procedures for undertaking assessment of client needs
- Knowledge of community development principles and strategies and their application
- Understanding of current organisation procedures, practices and standards for client assessment, allocation of services, case management, interviewing, liaison, code of conduct, confidentiality, use of resources, programmed intervention, duty of care requirements, and community involvement and development
- Knowledge of structural barriers and their impact e.g. institutional racism and their effects on Aboriginal and Torres Strait Islander People accessing services
- Knowledge and understanding of kinship system
- Awareness of own values and attitudes and their potential impact on clients
- Understanding of specific limitations of work role, responsibility and professional abilities

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Use interpersonal skills and knowledge to provide domestic and family violence support in Aboriginal and Torres Strait Islander communities, in particular, to:
  - develop and maintain working relationships with key people within the community to promote domestic and family violence services and develop the confidence and support of the community and key people
  - identify the information needs of the community relating to domestic and family violence using appropriate research and evaluation techniques

## REQUIRED SKILLS AND KNOWLEDGE

- provide services from an understanding of the Aboriginal and the Torres Strait Islander concepts of domestic and family violence
- adapt work processes as appropriate depending on specific cultural and linguistic needs that do not compromise the safety of clients and workers
- facilitate resolution of issues by using interpersonal methods appropriate to the community and the individuals' specific circumstances
- depending on the work program or services provided apply specific knowledge of particular groups or issues e.g. alcohol and other drugs, same-sex relationships, religious, survivors/victims, perpetrators, ATSI, mental health etc
- accurately interpret and comply with legal and procedural requirements

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - research involving analysis and evaluation for identifying domestic and family violence information and resource requirements of the community
  - facilitation relating to the provision of guidance to achieve outcomes and gain agreement on concepts which are required to enlist support from key people and groups within the community
  - problem solving for a broad range of unpredictable problems involving analysis, assessment, evaluation and the development of new ways of delivering domestic and family violence services which address the specific cultural needs of the community
  - basic counselling such as questioning and active listening (paraphrasing, clarifying, summarising, story telling) techniques, including non-judgemental and empathic approaches to provide a first point of contact
  - literacy and communication in relation to presentation of information in a manner appropriate to the culturally and linguistically diverse needs of the community
  - response ranging from responding sensitively to disclosures to maintaining confidentiality in relation to people affected by domestic and family violence
  - interpreting regarding social, historic, spiritual and environmental factors which have an impact on the lives of the community and which are reflected in community relationships and practices
  - community development and mediation

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Assessment of performance should be over a period of time covering all categories within the Range Statement statements that are applicable in the learning environment  
This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include

## EVIDENCE GUIDE

access to:

- an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment
- Where assessment is conducted within the workplace there are no resource implications above those normally available in the workplace
- Where assessment is conducted in a simulated or non-workplace environment then access to the necessary equipment and research resources should be provided
- Access to simulated exercises, case studies related to service delivery issues will also be required if non-workplace assessment paths are utilised

*Method of assessment:*

- Evidence will be determined by organisation from the Range Statement, justified in terms of work requirements, work roles and responsibilities and occupational specialisations
- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment in providing domestic and family violence support to Aboriginal and Torres Strait Islander communities
  - assessment must be in the workplace, however, where there is not an opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'what if?' scenarios
  - observation of processes and procedures, oral and/or written questions on Essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
  - review of any documentation produced by the candidate related to providing domestic and

## EVIDENCE GUIDE

### family violence support to Aboriginal and Torres Strait Islander communities

#### *Related units:*

This unit should be assessed after or in conjunction with related unit:

- CHCDFV402C Manage own professional development in responding to domestic and family violence

For the purpose of integrated assessment, this unit may be assessed in conjunction with the following units:

- CHCDFV403C Provide crisis intervention and support to those experiencing domestic and family violence
- CHCDFV404C Promote community awareness of domestic and family violence
- CHCAD401D Advocate for clients
- CHCCS412D Deliver and develop client service
- CHCCM402D Establish and monitor a case plan

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

#### *Key people within a community include:*

- Community elders
- Members and staff of community councils
- Local interpreters/spokesperson
- Support groups such as survivors/victims of violence groups, drug and alcohol groups, community houses,

## RANGE STATEMENT

## RANGE STATEMENT

*Clients may include:*

- Individuals including of children, youth, adults and the aged
- Referred or self-referred
- People with specific needs
- Family members and significant others
- Voluntary or involuntary
- Community groups

*Specific needs relating to clients may include, but are not limited to those:*

- Who have a disability
- Who are aged or young
- Who live in a remote or rural location
- Who are in same-sex relationships
- Who are of a particular gender
- With a dual diagnosis
- Who have addiction or dependency issues
- Who have mental health issues

*Local information may relate to:*

- Community structures and meetings
- Education levels of the community
- Types of work in the community
- Mobility/transience of community
- The role and impact of native title in the community
- Family interactions in the community
- Income levels
- Age groupings
- Types of dwellings
- Holistic health status of the community
- Environmental issues
- Meetings/storytelling
- Interviews with clients, family, significant others and carers
- Questionnaires
- Applications and other forms
- Case documentation
- Using specialist communicators
- Reports by other people
- Classification tools
- Information from professionals including medical reports

## RANGE STATEMENT

- Information from various service providers
- Support may be provided through internal or external services and could include, but is not limited to:*
- Safety and physical and emotional security
  - Assistance to gain economic support
  - Legal or medical information and/or assistance
  - Accommodation/transportation
  - Access to services/information
  - Ongoing assessment
  - Educational materials
  - Referrals to specialist services
  - Community awareness programs/education
  - Provision of assistance to address issues, gather information and locate other resources
  - Support from community, extended family members, friends and elders
  - Advocacy
- Work may relate to:*
- Specific groups, issues or communities e.g. health issues of young people from particular cultural backgrounds and/or geographical areas
  - Research activities
  - Policy development
  - Individual casework
  - Community development
  - Child protection work
  - Referrals
  - Project development and implementation
  - Organisation standards
  - Provision of information/materials
- Organisation standards and procedures may include those relating to:*
- Client and worker safety
  - Collection and storage of information
  - Client interview protocols and procedures
  - Code of conduct/code of ethics
  - Principles and implementation of duty of care
  - Departmental, inter-departmental regulations, protocols and procedures relevant to work role and responsibilities
  - Personnel procedures

## RANGE STATEMENT

- Use of interpreter and interpreter services
- Organisation mission and/or philosophy
- Inter-agency practice and protocols
- Assessment for eligibility to access particular services
- Completion of forms and applications
- Guidelines relating to parameters of confidentiality/client consent
- Principles of client and community self-determination

*Legislative and statutory requirements may include:*

- Relevant state/territory/commonwealth legislation e.g. domestic violence, guardianship, disability services, immigration, anti-discrimination, racial discrimination, child protection, legal practice legislation
- International conventions relating to the rights of children and young people
- Relevant international conventions on civil and human rights
- Freedom of information legislation
- Legislation and practices which include identification of boundaries and how to deal with them in specific communities

*Interpersonal skills may include:*

- Cultural awareness/sensitivity
- Methods of communicating with people of different age and gender, religious and sexual preference - ensuring community/individual protocols and restrictions are followed in communication
- Means for communicating with people with disabilities or where English is not the first or main language
- Methods for establishing an emotionally safe and empathic environment
- Non-judgemental communication techniques
- Using strategies that empower clients
- Demonstrating empathy
- Using appropriate body language
- Using conflict management skills if appropriate
- Reflecting and summarising

## RANGE STATEMENT

- Asking open-ended questions
- Ability to ask direct questions about violence in a sensitive and appropriate way
- Active listening
- If needed, use of a qualified interpreter whose involvement will not jeopardise the safety of the client and/or client's family
- Recognition of client/worker power differences
- Maintaining confidentiality

*Risk may refer to client, client's family and/or worker and be indicated by the following:*

- Self identification of risk
- Evidence of physical injuries
- Threat to safety
- Current or previous criminal charges for assault of client/others by partner/ex-partner
- Current or previous police involvement
- Objective assessment of client's current ability to protect self and children from further assault or harm
- Threat or attempts to self-harm
- Feelings of depression, anger, low self-esteem, suicidal thoughts, emotional distress or sleep disturbances
- Medical problems such as overuse of tranquillisers, or alcohol or illegal or legal drug/substance abuse i.e. petrol, glue
- Intimidation and harassment
- Existing or previous orders relating to domestic violence e.g. apprehended violence order, or breach of orders
- Avoidance of discussion regarding possible abuse
- Client being denied access to funds, resources or required medications
- Implausible explanation for injuries
- Repeated requests for financial assistance
- Other factors that may indicate a history of violence
- Children's behaviour and developmental levels
- Perceived or actual threats to harm the worker
- Frequent hospital visits/admissions
- Current or previous separation
- Homelessness
- Family court and/or relationship history

## RANGE STATEMENT

*Rights and responsibilities include those relating to:*

- Rights of safety
- Rights under common law
- Rights outlined under relevant standards/principles and charters e.g. UN declaration on rights of the child
- Rights under the Constitution
- Rights and responsibilities
- Under legislation e.g. freedom of information, child protection
- Guidelines relating to parameters of confidentiality/client consent
- Worker's code of ethics
- Rights of victim to crime compensation

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

- |                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Identify information, resource and service requirements | <p>1.1 Employ appropriate <i>evaluation methods</i> to evaluate domestic violence <i>information, resources and services</i> available in the <i>community</i></p> <p>1.2 Review relevance of existing <i>community activities</i> and materials based on changing community needs and organisation philosophy</p> <p>1.3 Accurately identify gaps and inadequacies in existing information, resources and services in accordance with <i>organisation standards and procedures</i></p> <p>1.4 Undertake research to ensure that information reflects the <i>underpinning values and philosophies</i> of domestic violence including a domestic violence prevention focus</p> |
| 2. Support community participation                         | <p>2.1 Support community participation in line with organisation standards and procedures</p> <p>2.2 Use appropriate <i>interpersonal and networking skills</i> to enlist support from <i>key people and groups</i> influencing community values</p> <p>2.3 Provide opportunities for key people and groups to participate in designing and evaluating programs, <i>policies and strategies</i> to address the changing needs of the community</p> <p>2.4 Undertake cooperative planning to develop appropriate policies and strategies which address the identified <i>community service education needs</i></p>                                                             |
| 3. Promote domestic violence awareness                     | <p>3.1 Identify and utilise relevant opportunities to formally and informally communicate and promote</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

**ELEMENT****PERFORMANCE CRITERIA**

awareness of domestic violence in line with community needs

3.2 Promote service delivery and activities in a way that facilitates understanding and gains support

3.3 Implement strategies to address identified gaps and inadequacies in information, resources and services in accordance with organisation standards and procedures

3.4 Identify opportunities for *community education programs* and/or resources/services, and clarify and evaluate with key people and groups

3.5 Evaluate and discuss community activities with key people and groups to determine future directions

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Understanding of the general principles and practices of community development, education and consciousness raising
- Knowledge of the cultural and language groups represented within the local/regional community, and a respect for their values and beliefs
- An understanding of the key people and groups within the community who are able to influence community values
- Understanding of current theory and research knowledge in the domestic violence area
- Knowledge of the processes used to formally and informally communicate the domestic violence prevention needs of the community
- Knowledge of the social, historical, political and economic context of domestic violence,

## REQUIRED SKILLS AND KNOWLEDGE

including types and nature of domestic violence, power and gender issues, child abuse, and associated criminal issues

- Understanding of the prevalence of myths, unhelpful beliefs, attitudes and practices in the broader society relating to domestic violence and their impact
- Knowledge of the organisation's current domestic violence activities, programs and services
- Understanding of current organisation procedures, protocols and practice for promotion of services
- Knowledge of the impacts of cultural, sub-cultural, social, sexual identity, religious, gender, age, disability, language issues etc on attitudes towards domestic violence
- Knowledge of community development principles and strategies and their application and particularly the Ottawa Charter, partnership and community consultation approaches to community development
- Understanding specific limitations of work role, responsibility and professional abilities

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Promote community awareness of domestic violence, in particular, to:
  - research and identify strategies to address inadequacies in existing community information and resources
  - develop working relationships with key people within the organisation and other services, including the community to encourage their cooperation and participation in the promotion of domestic violence issues
  - depending on the work program or services provided apply specific knowledge of particular groups or issues (e.g. alcohol and other drugs (AOD), same-sex relationships, religious, survivors/victims of domestic violence, users of violence, Aboriginal and Torres Strait Islander communities, mental health etc)
  - effectively communicate and promote awareness of domestic violence (including services and activities) using methods which are appropriate to the community

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - research involving analysis and evaluation for identifying domestic violence information and resource requirements of the community
  - networking in relation to establishing and maintaining relationships with key people and groups in the community
  - facilitation and presentation in relation to transferring and collecting information and

## REQUIRED SKILLS AND KNOWLEDGE

- gaining agreement on concepts, for example presenting to community groups
- facilitation relating to providing guidance to achieve outcomes and gain agreement on concepts and for enlisting support from key people and groups within the community
- report writing requiring analysis and evaluation of information in a defined range of areas, for example when bringing together results of research for recommending policies and strategies to address community needs
- problem solving for a broad range of problems involving analysis, assessment and evaluation for the development of new ways of addressing domestic violence issues which address changing community needs and attitudes and help to raise community awareness
- project planning in relation to scope, time, cost, quality, and communication requirements when planning new community education activities

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Assessment of performance should be over a period of time covering all categories within the Range Statement statements that are applicable in the learning environment  
This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence

## EVIDENCE GUIDE

- Access and equity considerations:*
- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
- Context of and specific resources for assessment:*
- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
  - Resources required for assessment of this unit include access to:
    - an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment
  - Where assessment is conducted within the workplace there are no resource implications above those normally available in the workplace
  - Where assessment is conducted in a simulated or non-workplace environment then access to the necessary equipment and research resources should be provided
  - Access to simulated exercises, case studies related to service delivery issues will also be required if non-workplace assessment paths are utilised
- Method of assessment:*
- Evidence will be determined by selection from the Range Statement, justified in terms of work requirements, work roles and responsibilities and occupational specialisations
  - Evidence for assessment of competence may be gathered by appropriate combination of the following:

## EVIDENCE GUIDE

- demonstration of competency within the working environment to promote community awareness of domestic violence and the promotion of prevention of domestic violence
- where there is not an opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- observation of processes and procedures, oral and/or written questions on Essential knowledge and skills and consideration of required attitudes
- where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
- review of any documentation produced by the candidate related to needs analysis and/or community development service delivery evaluation

### *Related units:*

This unit should be assessed after or in conjunction with related unit:

- CHCDFV402C Manage own professional development in responding to domestic and family violence

For the purpose of integrated assessment, this unit may be assessed in conjunction with the following unit/s:

- CHCCD514C Implement a community development strategy
- CHCCD402C Provide education programs

## Range Statement

### RANGE STATEMENT

## RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Methods to collect information may for instance include:*

- Interviews with clients, family, significant others and carers
- Questionnaires
- Applications and other forms
- Case documentation
- Using specialist communicators
- Classification tools
- Information from professionals including medical reports
- Information from service providers
- Previous file records
- Client consent (verbal and written)

*Evaluate methods to evaluate information, resources and services available may include:*

- Qualitative and quantitative
- Consultative and participatory
- Diagnostic or summative
- Any combination of the above
- Sampling techniques such as:
- Observation of work activities
- Workshops and meetings
- Questionnaires
- Surveys

*Information, resources and services may include:*

- Culturally appropriate literature and media that is relevant to specific needs groups e.g. Visually impaired
- Skills/administrative support
- Facilities, educational materials, equipment
- Funding
- Developmental training
- Staff development programs, community

## RANGE STATEMENT

development programs

*Services include but are not limited to:*

- Government agencies/departments
- Non-government organisations
- Charity/voluntary organisations
- Church groups
- Service organisations
- Political parties
- Committees

*Community may relate to a specific location, language/ cultural or social structure and include:*

- Individuals and groups defined by the organisation's programs and services
- Other agencies providing services to individuals and groups
- People with specific needs and interests
- People using the organisation's services/programs
- Groups, such as those representing cultural, sub-cultural, gender, religious, age and sexual identity

*Community activities are those which raise awareness of domestic violence issues and could include:*

- Seminars and workshops
- Victim support groups/networks
- Public forums
- Community safety plans
- Focus groups on relevant issues
- Health promotion activities
- Users of violence behaviour change groups
- Community awareness programs
- Community education programs
- Community support programs

*Organisation standards and procedures may include those relating to:*

- Collection and storage of information
- Code of conduct/code of ethics
- Departmental, inter-departmental regulations, protocols and procedures relevant to work role and responsibilities
- Organisation mission statement and/or philosophy
- Minimum practice standards

## RANGE STATEMENT

- Assessment for eligibility to access particular services
  - Legal frameworks
  - Use of interpreter or interpreter services
  - Financial plan
  - Community development models
- Underpinning values and philosophies relating to domestic violence include:*
- All individuals have the right to be free from violence
  - The community has a responsibility to work toward the prevention of domestic violence and to demonstrate the unacceptability of all forms of domestic violence
  - All forms of domestic violence are unacceptable in any group, culture or creed
  - Those who use violence should take responsibility for their behaviour and have access to programs to assist them change their behaviour to ensure the safety of their family
  - Domestic violence is widespread and complex
  - Domestic violence impacts on the physical, emotional, social, and financial well being and safety of individuals in families
  - Domestic violence and abuse has devastating effects on family members and results in significant social and economic costs to the community
- Interpersonal and networking skills may include:*
- Means for communicating with people with disabilities or where English is not the first language
  - Methods of communicating with different age, gender and sexual identity groups
  - Cultural and sub-cultural awareness/sensitivity
  - Using appropriate body language
  - Demonstrating empathy
  - Liaison with regional and specialist associations
  - Liaison with other service providers and key stakeholders
  - Liaison with key community contacts
- Key people and groups within the community may include but are*
- Various community groups representing cultural, sub-cultural, religious, social, ethnic, gender, sexual

## RANGE STATEMENT

*not limited to:*

identity, and age groups within the community

- Policy and decision-makers in the specific community
- Funding bodies
- Service providers
- Individuals, groups or communities most likely to be affected by strategies or action plans
- Organisation management, colleagues, supervisor, team members

*Policies and strategies that could be developed to meet the changing needs of the community may include:*

- Strategies to increase access to facilities, services or decision-making
- Providing direction, advice and information
- Development of community facilities
- Development of community education programs
- Development of advocacy groups
- Development of support networks/groups
- Development of users of violence behaviour change groups
- Improved community liaison and networking
- Education programs to improve workers' skills and knowledge
- Simple informal communication regarding the service's activities, through internal and external networks
- Lobbying relevant persons and agencies
- Public communication, such as public speaking opportunities, local media interviews/press releases etc
- Specific materials such as flyers, brochures, 'advertisement' type articles in local newspapers
- Use of existing own or other organisation/agency information channels such as notice boards/bulletin boards, newsletters, pamphlets, etc
- Use of community meetings and meetings with community leaders, both formal and informal
- Use of audio-visual materials and web-sites
- Any combination of the above and others

*Community education programs may be of varying scope and*

- Single events, such as information stalls in shopping centres

**RANGE STATEMENT**

*scale and could include:*

- Complex series of activities that involves coordinated elements, such as education campaigns involving mass media information
- Multi session education and skill development programs
- Peer education and mentoring programs
- Ongoing involvement with local community events (e.g. Sporting, cultural, religious events)
- Programs that promote ownership of domestic violence issues by the community/group and its leaders

*Community service education needs could include but are not limited to:*

- Skills development
- Preventive, pro-active strategies
- Community consciousness raising exercises
- Opportunities to reflect on attitudes and beliefs
- Knowledge building

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Work within a domestic violence framework

- 1.1 Plan *work* practices to ensure maximum consideration is given to *client* and worker safety
- 1.2 Ensure work undertaken demonstrates consideration and understanding of the *underpinning values and philosophies* of domestic violence work and the nature of domestic violence, including its effects, its *social, historical, political and economic context* and its place in the criminal justice system
- 1.3 Participate in *support processes* to obtain professional feedback and to monitor occupational health and stress
- 1.4 Demonstrate in all work, understanding of the *rights and responsibilities* of the individual, the family, the community and society to minimise or prevent domestic violence

2. Promote confidence with clients affected by domestic violence

- 2.1 Use appropriate *interpersonal skills* that develop rapport and promote confidence, allowing accurate and relevant exchange of information
- 2.2 In all work, demonstrate sensitivity to client's *specific needs* and any cultural, family and individual differences
- 2.3 Conduct *interviews and interactions* with clients in a safe environment and in a manner which allows the client to explore their issues/options
- 2.4 Explain *rights and responsibilities* of client and worker and promote throughout client contact as

## ELEMENT

## PERFORMANCE CRITERIA

appropriate

2.5 In all work apply *organisation standards and procedures* and comply with *legislative and statutory requirements*

### 3. Identify client needs

3.1 Appropriate interpersonal skills are employed to ensure that the client's safety needs and other needs are accurately identified

3.2 *Mechanisms* are employed to ensure that all relevant client information is collected

3.3 Information is assessed for complexity, urgency and eligibility so that priorities for service delivery and safety can be identified

3.4 Any indications of nature of *risk* or threats to safety are analysed and responded to

3.5 Worker's and workplace's limitations in addressing and assessing *client needs* are identified and assistance is sought from *appropriate persons* to best meet the needs of the client and their family

### 4. Respond to client needs

4.1 In responding to client needs, prioritise the physical and emotional safety of clients, their family and workers

4.2 Provide client with information about available *services* for meeting their needs

4.3 Seek support and make appropriate referrals to cater for clients needs according to organisation standards and procedures

4.4 In all work demonstrate sensitivity to client's specific needs and any cultural, family and individual differences

4.5 Provide advice on *client services* in accordance with organisation standards and procedures

4.6 Undertake record-keeping and reporting in accordance with organisation standards and procedures

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Knowledge of the social, historical, political and economic context of domestic violence, including types and nature of domestic violence, power and gender issues, child abuse and associated criminal issues
- Understanding of the prevalence of myths, unhelpful beliefs, attitudes and practices in the broader society regarding domestic violence and their effects on individuals' rights to safety and autonomy
- Understanding of current organisation procedures, practices and standards for client assessment, allocation of services, case management, interviewing, code of conduct, confidentiality, use of resources, programmed intervention and duty of care requirements
- Understanding of legal obligations, particularly in relation to child protection issues
- Knowledge of the various groups represented within the local community (e.g. cultural, religious, language, sexual identity, age and disability) and an understanding of the issues that arise when working with those groups
- Knowledge of the appropriate range of referral sources and associated protocols
- Knowledge of legislative requirements and provisions relevant to area of service delivery and delegated responsibility
- Awareness of own values and attitudes and their potential impact on clients
- Understanding of specific limitations of work role, responsibility and professional abilities

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Use appropriate interpersonal skills and general knowledge to identify and respond in an appropriate manner to domestic violence, in particular to:
  - maintain confidentiality and manage subtleties of confidentiality whilst following policy and procedures in all aspects of responding to domestic violence
  - establish confidence with clients through appropriate interpersonal styles and methods

## REQUIRED SKILLS AND KNOWLEDGE

- identify and assess client needs including consideration of the physical and emotional safety of clients and their family
- assist clients to select appropriate services from a range provided by the organisation and other agencies which match client needs
- depending on the work program or services provided apply specific knowledge of particular groups or issues (e.g. alcohol and other drugs (AOD), same-sex relationships, religious, survivors/victims, users of violence, Aboriginal and/or Torres Strait Islander issues, mental health, non-English speaking background)
- interpret accurately and comply with legal and procedural requirements
- understand limitations of their own work role and responsibilities in relation to service delivery
- refer clients to other relevant agencies in a professional manner giving enough relevant information to maximise the possibility of the client taking up the referral

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - response, for example, responding sensitively and appropriately to disclosure, responding sensitively to cultural issues, and maintaining confidentiality for people who have experienced domestic violence.
  - questioning and active listening to establish client confidence and facilitate disclosure
  - problem solving for a defined range of predictable problems, for example when client needs are identified as lying outside a worker's particular professional role the worker should offer the client accurate and current information about appropriate services and providers
  - collaboration between worker, client, client's family and co-workers and with other service providers
  - validation of client's experience of violence
  - literacy and communication in relation to analysis, evaluation and presentation of information including preparing documents and reports related to client needs and service delivery issues

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Assessment of performance should be over a period of time covering all categories within the Range Statement statements that are applicable in the learning environment  
This will include contexts applicable to the work environment, such as actual or simulated workplace situations involving a combination of direct, indirect and supplementary forms of evidence

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be delivered and assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment of this unit include

## EVIDENCE GUIDE

access to:

- an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment
- Where assessment is conducted within the workplace there are no resource implications above those normally available in the workplace
- Where assessment is conducted in a simulated or non-workplace environment then access to the necessary equipment and research resources should be provided
- Access to simulated exercises, case studies related to service delivery issues will also be required if non-workplace assessment paths are utilised

*Method of assessment:*

- Evidence will be determined by selection from the Range Statement, justified in terms of work requirements, work roles and responsibilities and occupational specialisations
- Evidence for assessment of competence may be gathered by appropriate combination of the following:
  - demonstration of competency within the working environment in identifying and responding to domestic violence
  - where there is not an opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
  - observation of processes and procedures, oral and/or written questions on Essential knowledge and skills and consideration of required attitudes
  - where performance is not directly observed and/or is required to be demonstrated over a period of time and/or in a number of locations, any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
  - review of any documentation produced by the candidate related to identifying and responding to domestic violence

## EVIDENCE GUIDE

### Range Statement

#### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Work may relate to:*

- Specific groups, issues or communities e.g. Health issues of young people from particular cultural, religious, sub-cultural backgrounds and/or geographical areas
- Monitoring, evaluation and research activities
- Policy development
- Assessment
- Individual casework
- Community development
- Referrals
- Child protection work
- Provision of information/materials
- Project development and implementation

*Client may include:*

- Individuals (inclusive of children, youth, adults and the aged)
- Those referred or self-referred
- Voluntary and involuntary
- People with specific needs seeking access to services
- Survivors/victims of domestic violence, their families and friends
- Users of violence and their families

## RANGE STATEMENT

*Underpinning values and philosophies in responding to domestic and family violence include:*

- The safety and well being of those subjected to domestic violence must be the first priority of any response
- All individuals have the right to be free from violence
- The community has a responsibility to work toward the prevention of domestic violence and to demonstrate the unacceptability of all forms of domestic violence
- All forms of domestic violence are unacceptable in any group, culture or creed
- Those who use violence should take responsibility for their behaviour and have access to programs to assist them change their behaviour to ensure the safety of their family
- A commitment to meeting the needs and upholding the rights of clients
- A commitment to empowering those affected by domestic violence
- Domestic violence is widespread and complex
- Domestic violence impacts on the physical, emotional, social, and financial well being and safety of individuals in families
- Domestic violence and abuse has devastating effects on family members and results in significant social and economic costs to the community

*Social, historical, political and economic context:*

- Statutory framework within which work takes place
- Historical context of work e.g. changing attitudes to domestic violence; changing approaches to working with people affected by domestic violence
- Changing social context of work e.g. previous, current and changing government and societal views of domestic violence and approaches to working with clients
- Political context e.g. government policies and initiatives affecting domestic violence work
- Economic context e.g. current economic situation as it relates to and affects domestic violence and the subsequent impact on client needs and the effects of economic deprivation and control on clients attempting to escape domestic violence

## RANGE STATEMENT

*Support processes will need to include at least one of the following:*

- Performance feedback
- Debriefing
- Training and development
- Supervision

*Rights and responsibilities may include:*

- Rights of safety
- Rights under common law
- Rights outlined under relevant standards/principles and charters (e.g. UN declaration on rights of the child)
- Rights under the Constitution
- Rights and responsibilities under legislation (e.g. freedom of information and child protection legislation)
- Guidelines relating to parameters of confidentiality/client consent
- Worker's code of ethics
- Rights of victim to crime compensation

*Interpersonal skills may include:*

- Means by which an emotionally safe and empathic environment is created
- Means for communicating with people with disabilities or where English is not the first language
- Methods of communicating with different age, religious, gender and sexual identity groups
- Non-judgemental communication techniques
- Using strategies that empower client to ensure safety of client and family
- Cultural, sub-cultural awareness/sensitivity
- Demonstrating empathy
- Using appropriate body language
- Reflecting, summarising and paraphrasing
- Asking open-ended questions
- The ability to ask direct questions about violence in a sensitive and appropriate way
- Using conflict management skills if appropriate
- Recognition of client/worker power differences
- Maintaining confidentiality
- If needed, use of a qualified interpreter whose involvement will not jeopardise the safety of the

## RANGE STATEMENT

## RANGE STATEMENT

- Questionnaires
- Applications and other forms
- Case documentation
- Using specialist communicators
- Classification tools
- Client consent (verbal or written)
- Information from professionals including medical reports
- Information from service providers
- Previous file records

*Risk may refer to client, client's family and/or worker and be indicated by the following:*

- Self identification of risk
- Evidence of physical injuries
- Threat to safety
- Current or previous criminal charges for assault of client by partner/ex-partner
- Current or previous police involvement
- Objective assessment of client's current ability to protect self and children from further assault or harm
- Threat or attempts to self-harm
- Feelings of depression, anger, low self-esteem, suicidal thoughts, emotional distress or sleep disturbances
- Medical problems such as overuse of tranquillisers, or alcohol, drug or substance abuse
- Intimidation and harassment
- Client being denied access to funds, resources or medications
- Existing or previous orders relating to domestic violence (e.g. Apprehended violence order), or breach of orders
- Avoidance of discussion regarding possible abuse
- Implausible explanation for injuries
- Repeated requests for financial assistance
- Other factors that may indicate a history of violence
- Children's behaviour and developmental level
- Current behaviours of user of violence
- Frequent hospital visits/admissions
- Current or previous separation
- Family court and/or relationship history
- Implied or actual threats to harm the worker by user

## RANGE STATEMENT

of violence

- Appropriate persons may include:*
- Organisation management, colleagues, supervisor, team members
  - Acknowledged domestic violence issue specialists
  - Various community groups representing cultural, sub-cultural, religious, social, ethnic, gender, sexual identity, and age groupings within the community
  - Government representatives and service providers
  - Police
  - Family members, friends, care-givers
  - Specialist support services for people with specific needs
  - Behaviour change groups, such as users of violence groups, drug and alcohol groups
  - Support groups such as survivors/victims of violence groups, community houses, women's networks and refuges, professional associations
  - Authorities responsible for provision of community and justice administration services, for example, local councils, legal services, such as legal aid, and state and commonwealth agencies

| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment.</p> |

## Application

This unit describes the skills and knowledge required to address duty of care requirements, working within an ethical framework and applying relevant legislation, codes of conduct, international agreements (such as the Convention on the Rights of the Child), policies and procedures in identifying, responding and supporting children's and young people's rights and safety.

This unit applies to workers involved in delivering services to children and young people in a wide range of community services and work contexts.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Implement work practices which support the protection of children and young people

1.1 Comply with lawful instructions, regulations, duty of care and boundaries of practice in all work activities

1.2 Routinely employ child-focused work practices to uphold the rights of children and young people to participate in decision-making where it is age appropriate

**ELEMENT****PERFORMANCE CRITERIA**

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

- |                                                                                                |                                                                                                                                              |
|------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| 1.3                                                                                            | Use communication and information-gathering techniques with children and young people in accordance with current recognised good practice    |
| 1.4                                                                                            | Ensure decisions, responses and actions taken are appropriate and within own work role, legislative requirements and organisation procedures |
| 1.5                                                                                            | Continually update own knowledge and skills as required to work effectively and participate in practice supervision processes                |
| 1.6                                                                                            | Maintain confidentiality as appropriate                                                                                                      |
| 2. Identify indicators of abuse and act appropriately                                          |                                                                                                                                              |
| 2.1                                                                                            | Identify children and young people at risk of harm by routinely implementing child protection procedures when appropriate                    |
| 2.2                                                                                            | Respond to disclosure in accordance with accepted standards, techniques and legislative obligations                                          |
| 2.3                                                                                            | Gather and record information about the child's or young person's behaviour and identify uncharacteristic behaviour                          |
| 2.4                                                                                            | Monitor the circumstances of children who are identified as highly vulnerable to abuse                                                       |
| 2.5                                                                                            | Promptly report risk of harm indicators in accordance with statutory and organisation procedures                                             |
| 2.6                                                                                            | Work collaboratively with relevant agencies to ensure maximum effectiveness of report                                                        |
| 3. Apply ethical practices and safeguard the rights and interests of children and young people |                                                                                                                                              |
| 3.1                                                                                            | Identify and seek supervisor support for issues of ethical concern in practice with children and young people                                |
| 3.2                                                                                            | Develop ethical practices for implementing professional boundaries consistent with child protection legislation in relevant jurisdiction     |
| 3.3                                                                                            | Recognise indicators for potential ethical concerns when working with children and young people                                              |
| 3.4                                                                                            | Report unethical behaviour according to organisational procedures and policies                                                               |

## Foundation Skills

*The foundation skills described those required skills (language, literacy and numeracy) that are essential to performance.*

- Learning - in order to review and plan updates of own skills

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment.</p> |

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be demonstrated evidence that the candidate has completed the following tasks at least once:

- implemented work practices which support the protection of children and young people, including:
  - complying with regulations, legislations and duty of care responsibilities
  - employing child-focused work practices to uphold the rights of children and young people
  - maintaining confidentiality
  - providing appropriate responses in the protection of children and young people
- used appropriate communication strategies to gather information from children and young people
- identified and responded to indicators of children or young people at risk of harm and abuse on at least three separate occasions, including:
  - gathering and recording information about the child or young person
  - identifying uncharacteristic behaviour of child or young person
  - monitoring the circumstances of children identified as highly vulnerable
- reported risk-of-harm indicators
- sought support from supervisor for issues of ethical concern.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the work role. These include knowledge of:

- child- and young person-focused practices
- child protection system, including policies and protocols
- common legal issues when working with children and young people
- risk-of-harm indicators
- organisation guidelines and policies and accepted standards for responding to risks of harm to children and young people
- overview of relevant aspects of the legal system
- organisation standards, policies and procedures
- communication techniques to engage and interact with young people.

## Assessment Conditions

Skills must be demonstrated in the workplace.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

# CHCPRT001 Identify and respond to children and young people at risk

## Modification History

| Release   | Comments                                                                                                                                                                                                                                                                         |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Release 1 | <p>This version was released in <i>CHC Community Services Training Package release 1.0</i> and meets the requirements of the New Standards for Training Packages.</p> <p>Significant changes to elements and performance criteria. New evidence requirements for assessment.</p> |

## Application

This unit describes the skills and knowledge required to support and protect children and young people who are at risk of harm. This work occurs within legislative and policy frameworks and carries a duty of care responsibility.

This unit applies to workers in a range of job roles providing services to children and young people including in community services and health contexts.

*No licensing, legislative or certification requirements apply to this unit at the time of publication.*

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

*Elements define the essential outcomes.*

*Performance criteria specify the level of performance needed to demonstrate achievement of the element.*

1. Implement work practices which support the protection of children and young people

1.1 Identify children and young people at risk of abuse or neglect by observing signs and symptoms, asking open and non-leading questions, being aware of protective issues and using child protection procedures where appropriate

1.2 Respond to disclosure, information or signs and symptoms in accordance with state legislative

responsibilities and the service policies and procedures

1.3 Routinely employ child-focused work practices to uphold the rights of the child and encourage them to participate in age-appropriate decision-making

1.4 Employ communication and information-gathering techniques with children and young people in accordance with current recognised good practice

1.5 Ensure decisions and actions taken are within own level of responsibility, work role, state legislation and service policies and procedures

## 2. Report indications of possible risk of harm

2.1 Accurately record relevant specific and general circumstances surrounding risk of harm in accordance with state legislation, service policies and procedures and ethics

2.2 Promptly record and report risk-of-harm indicators, including the circumstances surrounding the risk of harm according to service policies and procedures

2.3 Ensure writing in reports is non-judgemental

2.4 Work collaboratively with relevant agencies to ensure maximum effectiveness of report

## 3. Apply ethical and nurturing practices in work with children and young people

3.1 Protect the rights of children and young people in the provision of services

3.2 Identify and seek supervision support for issues of ethical concern in practice with children and young people

3.3 Employ ethical and nurturing practices and observe professional boundaries when working with children and young people

3.4 Recognise and report indicators for potential ethical concerns when working with children and young people

## Foundation Skills

*The foundation skills described those required skills (language, literacy and numeracy) that*

*are essential to performance.*

- Reading - in order to read and understand forms and to make accurate reports
- Writing - in order to record details of children and young people at risk and to make reports using handwritten skills and computer skills

Other foundation skills essential to performance are explicit in the performance criteria of this unit.

## Unit Mapping Information

No equivalent unit.

## Performance Evidence

The candidate must show evidence of the ability to complete tasks outlined in elements and performance criteria of this unit, manage tasks and manage contingencies in the context of the job role. There must be demonstrated evidence that the candidate has completed the following tasks at least once:

- implemented work practices which support the protection of children and young people, including:
  - complying with regulations, legislations and duty of care responsibilities
  - employing child-focused work practices to uphold the rights of children and young people
  - maintaining confidentiality
  - providing appropriate responses in the protection of children and young people
- read and interpreted the procedures for reporting children at risk in line with organisational expectations and legislative requirements.

## Knowledge Evidence

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the work role. These include knowledge of:

- indicators of the different types and dynamics of abuse as they may apply to age, gender, disability, culture and sexuality
- child protection legislation in the relevant state or territory
- United Nations Convention on the Rights of the Child

- impact of risk of harm
- duty of care responsibilities
- trauma-informed care
- ethical considerations including:
  - approaches that incorporate the conventions on the rights of the child, and human rights
  - obligations as defined by the job specification and employing organisation
  - obligations as stated in relevant codes of practice, licensing, accreditation registration to professional bodies, service agreements
  - principles of ethical decision-making
- overview of legal system and how it pertains to the job role, in particular:
  - child protection system, including reporting protocols, responses to reporting and interagency policies
  - state/territory requirements and processes for notifying suspected abuse and reporting process
  - statutory and policy requirements relating to job role
- organisation standards, policies and procedures.

## Assessment Conditions

Skills must be demonstrated in the workplace.

In addition, simulations and scenarios must be used where the full range of contexts and situations cannot be provided in the workplace or may occur only rarely. These are situations relating to emergency or unplanned procedures where assessment in these circumstances would be unsafe or is impractical.

Simulated assessment environments must simulate the real-life working environment where these skills and knowledge would be performed, with all the relevant equipment and resources of that working environment.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the essential skills and knowledge and their level, required for this unit.

The following skills must be assessed as part of this unit:

- interpersonal communication skills to:
  - communicate with the customer, including obtaining and providing information and confirming understanding, through clear and direct communication
  - ask questions to identify and confirm requirements
  - use language and concepts appropriate to cultural differences
  - use and interpret non-verbal communication
- apply literacy skills to read and interpret prescription information and record customer information
- read and interpret directions and maps to plan efficient delivery routes and locate addresses
- respect and maintain private and confidential customer information
- demonstrate procedures for delivering items to customers outside the pharmacy consistent

## REQUIRED SKILLS AND KNOWLEDGE

- with pharmacy protocols and procedures
- follow procedures to respond to situations where no authorised person is available to receive items
- access and use information systems as to record and reconcile delivery information.

The following knowledge must be assessed as part of this unit:

- pharmacy policies, protocols and procedures relating to delivering prescription items to customers outside the pharmacy
- communication skills to collect and provide information to customers, including use of structured and open-ended questions and interpretation of non-verbal cues
- procedures to follow in the event that the customer or an authorised agent is not available to accept delivery
- protocols for responding to customer questions and communication methods and systems to ensure that a pharmacist is able to provide required advice and information to the customer
- product and delivery charges and methods of payment
- health privacy principles as they relate to home delivery of medicines
- label information, such as:
  - dosage regimen, e.g. dose time in relation to food
  - frequency
  - duration of treatment
  - special storage requirements, e.g. cold chain
- payment options and procedures
- procedures to protect security of self, product and cash
- procedures to follow in the event of theft, loss or accident
- role boundaries and responsibilities and circumstances under which referral to a pharmacist or other pharmacy staff is required.

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, the range statement and the Assessment Guidelines for this Training Package.

## EVIDENCE GUIDE

### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- applies pharmacy protocols and procedures when assisting with dispensary operations, including:
  - confirming delivery requirements
  - planning and communicating delivery schedule
  - preparing, handling and packaging items for transportation
  - delivering items and ensuring customer has access to required pharmacist support
  - completing sale of items
  - maintain documentation
  - implementing reconciliation procedures
- respects and protects customer privacy when communicating with customers and maintaining customer records
- understands storage conditions and requirements of dispensed items
- recognises the situations requiring referral to a pharmacist or other pharmacy staff according to pharmacy policy
- awareness of procedures to follow where an authorised person is not available to receive items
- awareness of procedures to ensure safety of self and product
- plans delivery routes to achieve efficient delivery outcomes.

### **Context of and specific resources for assessment**

Assessment must ensure:

- demonstration of delivery of a range of prescription and non-prescription items
- delivery of items requiring special handling.
- access to a workplace and delivery environment that meets Pharmacy Board and relevant industry standards for dispensary operations
- access to relevant pharmacy protocols and procedures
- access to delivery documentation and record-keeping systems
- access to relevant documentation, such as:
  - prescriptions (real or simulated)
  - self-care information

## EVIDENCE GUIDE

- delivery checklists
- customer details
- access to a range of dispensed items for delivery
- access to a range of customers in different locations (real or simulated)
- access to a range of dispensed items for delivery
- access to maps or location information.

## Methods of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of the candidate in the workplace delivering items to customers outside the pharmacy, over sufficient time to demonstrate handling of a range of contingencies
- written or verbal questioning to assess knowledge and understanding
- evidence that completion of workplace documentation and records relevant to delivering medicines is timely and accurate
- role plays to demonstrate communication with customers from a range of backgrounds and with different capacities and needs
- role plays to demonstrate understanding of contingency management procedures.

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

## Assessing employability skills

Employability skills are integral to effective performance in the workplace and are broadly consistent across industry sectors. How these skills are applied varies between occupations and qualifications due to the different work functions and contexts.

Employability skills embedded in this unit should be assessed holistically in the context of the job role and with other relevant units that make up the skill set or qualification.

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised*** wording in the performance criteria is detailed below.

- |                                                                                                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| <p><b><i>Details</i></b> must include:</p>                                                                                   | <ul style="list-style-type: none"> <li>• full name and current address</li> <li>• date of birth where patient is elderly (over 70 years) or young (under 12 years)</li> <li>• entitlement number, if any, under the Pharmaceutical Benefits Scheme</li> <li>• Medicare number</li> <li>• private health cover and receipt requirements</li> <li>• allergies or adverse reactions to medications suffered in the past</li> <li>• current use of other medications, including complementary medicines</li> <li>• specific location advice.</li> </ul> |

## RANGE STATEMENT

***Delivery information*** may include:

- items on the prescriptions to be dispensed
- other products required
- estimated delivery time
- persons authorised to accept delivery.
- payment method.

***Ready for delivery*** includes:

- assembled items are complete, clearly and correctly labelled and match customer requirements
- a pharmacist has verified dispensed items
- required information and advice accompanies the items
- items are packaged appropriately to protect customer privacy and product integrity.

***Handling and storage*** requirements may include:

- temperature control and cold chain items
- light-sensitive items
- heat-sensitive items.

***Delivery documentation*** may include:

- prescription documentation (to be signed by customer or agent)
- self-care and health information
- other information supplied by a pharmacist
- delivery checksheets
- customer details

***Verifying customer or agent identity*** may include:

- confirming that a person other than the customer who receives medicines is listed as authorised to receive on delivery information
- confirming that the person receiving medicines is not a child
- requesting dated signature of customer or their agent as confirmation of receipt.

***Information provided on medicines*** may include:

- pharmacy labels
- cautionary and advisory labels
- additional information or advice prepared by a pharmacist
- information provided by the supplier

## RANGE STATEMENT

- self-care and health information
- Consumer Medicine Information (CMI).

***Confirming customer understanding*** may include:

- explaining information contained on cautionary and advisory labels in plain English suited to the customer communication requirements
- questioning to confirm that the correct customer understands the information provided
- inviting further questions from the customer
- arranging for the customer to make contact with a pharmacist where more detailed support or advice is required.

## Unit Sector(s)

**Sector** Community Pharmacy

## Competency field

**Competency field** Dispensary

## **CHCLLN403A Identify clients with language, literacy and numeracy needs and respond effectively**

### **Modification History**

Not Applicable

### **Unit Descriptor**

#### **Descriptor**

This unit describes the skills and knowledge required to identify when clients' language, literacy and numeracy (LLN) are impeding their access to the service being provided, to adjust service delivery where required to accommodate client LLN skills, and to refer appropriately in order to improve client outcomes

The unit does not provide workers with the skills and knowledge to identify LLN skill levels or to actively intervene in developing a client's LLN skills

### **Application of the Unit**

#### **Application**

This unit of competency applies to workers from a range of backgrounds who support clients with LLN needs

It may apply to workers carrying out individual client assessments and managing caseloads as part of their work role

Workers undertaking this unit do not require specialist LLN skills or knowledge

### **Licensing/Regulatory Information**

Not Applicable

## Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### PERFORMANCE CRITERIA

- |                                                                          |                                                                                                                                                                                                                                                                                                                                                 |
|--------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Establish if there are LLN needs affecting client's access to service | 1.1 Identify <i>indicators of LLN needs</i><br>1.2 Apply knowledge of the context to identify inherent LLN requirements<br>1.3 Establish rapport and identify where <i>client LLN needs</i> may impact on access to service<br>1.4 Determine the degree to which <i>other issues</i> may impact on the client                                   |
| 2. Determine appropriate strategies to address client's LLN needs        | 2.1 Determine <i>workable strategies</i> to ensure service delivery meets client LLN needs, including appropriate <i>tools</i> and communication strategies<br>2.2 Collaborate with client to identify possible areas of LLN need and how to meet client needs<br>2.3 Prioritise areas for immediate and, where appropriate, longer-term action |
| 3. Implement strategies to                                               | 3.1 Offer relevant <i>information</i> to client regarding                                                                                                                                                                                                                                                                                       |

## ELEMENT

address agreed LLN needs

## PERFORMANCE CRITERIA

most appropriate support, to enable client to make informed decisions

3.2 Record agreed LLN needs and the strategies used, and report in line with client and organisation requirements

3.3 Monitor client and provide ongoing support and encouragement where appropriate

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge and understanding of:

- Awareness of cultural diversity and protocols to inform service delivery around LLN
- Communication techniques
- Indicators of LLN needs, and methods for clarifying them with client
- Methods for identifying the impact of other service-related issues on client LLN needs
- Available LLN information and referral or support services for a range of LLN needs and clients
- Recording and reporting requirements

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Identify LLN demands of the service being accessed
- Identify clients' LLN needs impacting on their ability to effectively access services
- Provide information to clients on current, available and appropriate LLN support

## REQUIRED SKILLS AND KNOWLEDGE

services and information to enable clients to make informed decisions

- Collaborate with clients to determine most appropriate support for LLN needs
- Maintain accurate and sufficient records of strategies and outcomes.

*continued ...*

### *Essential skills (contd):*

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Client-management skills to:
  - deal with complex needs and sometimes difficult or challenging behaviour
  - discuss appropriate support for client LLN needs
  - operate within duty of care and organisational requirements to address client LLN needs
- Communication skills to:
  - collaborate productively with client
  - listen actively to client and identify indicators of LLN needs
- Initiative and enterprise skills to:
  - accommodate client's LLN needs impacting on effective access to service
  - access or refer client to appropriate support to improve client's access to service
  - ensure that current and correct information regarding LLN support services is readily available to client
  - raise awareness, share knowledge and help client to think about making changes to improve LLN where appropriate
- Interpersonal skills to:
  - establish rapport with client
  - interact with clients from a range of social, cultural, religious and linguistic backgrounds and with varying physical and mental abilities
  - apply cultural and religious protocols to ensure that work practices promote safety
- Literacy skills to maintain accurate and accessible records of service outcomes
- Problem-solving skills to collaborate with client to determine most appropriate support for LLN needs
- Technology skills to use a range of alternative communication tools where appropriate

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Assessment should ensure the candidate addresses the elements and performance criteria on at least three occasions, over a period of time

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- Competency must be demonstrated in a realistic simulated or real work environment
- Assessment must ensure access to opportunities to work with clients with a range of LLN needs

*Method of assessment:*

- Assessment methods suitable for valid and reliable assessment of this competency may include a combination of:
  - case studies
  - demonstration
  - observation

## EVIDENCE GUIDE

- oral and written questioning
- scenarios, simulation or role plays
- authenticated evidence
- Assessment methods should reflect work demands, such as literacy, and the needs of particular individuals, such as:
  - people in rural and remote locations
  - people with disabilities
  - people from culturally and linguistically diverse backgrounds
  - Aboriginal and Torres Strait Islander people
  - women
  - young people
  - older people

### *Guidance information*

- This unit may be assessed independently, however holistic assessment with other units relevant to the industry sector, workplace and job role is recommended

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *Indicators of LLN needs may include:*

- Cultural factors, such as:
  - ethnicity
  - language background
- Disabilities, such as acquired brain injury

## RANGE STATEMENT

- Employment history
- Health issues, including chronic conditions
- Personal factors, such as:
  - Aboriginal or Torres Strait Islander background
  - displacement issues for refugees
  - isolation, including geographic remoteness and personal isolation
  - low-level or interrupted formal education
  - trauma-related issues
- Behavioural, such as:
  - strategies used to avoid revealing an LLN issue
  - becoming agitated or angry

### *LLN needs:*

- Relate to:
  - a range of learning, reading, writing, oral communication and numeracy skills
  - impact of LLN issue on client
- Will depend on a complex mix of factors, including:
  - client's presenting needs
  - service provision context

### *Client may include:*

- Presenting person seeking to access a service and their:
  - parent, sibling or spouse
  - legal guardian
  - carer, such as disability carer
  - case worker

### *Other issues may include:*

- Those related to service, such as:
  - high LLN demand inherent in service
- Those related to client, such as:
  - alcohol and other drugs
  - cultural factors
  - disability, including reading or learning disability
  - health, including:
    - chronic conditions
    - mental health

## RANGE STATEMENT

- homelessness
- unemployment

*Workable strategies may include those that:*

- Are consistent with:
  - client's cultural and sociocultural protocols
  - client's needs and preferences
  - own skills and available support
- Build on strengths of client
- Maintain the integrity of the relationship with client
- Provide opportunities to discuss and review

*Tools may include:*

- Augmentative and alternative communication, including:
  - aided and unaided strategies, including access techniques
  - assistive technology, such as closed captioning, subtitling and teleprompting software
  - visual aids, such as photographs, maps, diagrams and symbols
- Dictionaries
- Support person
- Interpreter, including:
  - language other than English
  - Auslan and Makaton

*Information may include:*

- Alternative ways of accessing required information
- Relevant and current LLN information available in own organisation
- Referral to support services, such as:
  - assistive technology
  - in-house support services
  - interpreter or translator
  - specialist assistance
  - community learning centres and other not-for-profit organisations
  - tutor support programs, such as the home tutor scheme
- Service-specific information and strategies, such as

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Develop a case management plan

- 1.1 Assess client needs in accordance with organisation procedures
- 1.2 Collect *information* on a range of suitable interventions to address immediate, short and longer term needs of clients
- 1.3 Undertake appropriate consultation with stakeholders to ensure issues and options for their resolution are explored thoroughly
- 1.4 Negotiate and agree common goals, objectives and processes with clients and stakeholders to ensure needs are addressed with statutory and organisation frameworks
- 1.5 Explore a full range of options for addressing client and stakeholder needs and include in case management plan
- 1.6 Ensure processes for monitoring achievement of goals, timeframes and resourcing are agreed in the planning stage
- 1.7 Define roles, responsibilities and accountabilities for clients, stakeholders, workers and service providers
- 1.8 Negotiate and agree processes for appeal and for the termination and/or renegotiation of intervention and include in the plan
- 1.9 Identify relevant family, community, cultural and ideological *considerations* and address in the case plan

#### 2. Define plan implementation procedures

- 2.1 Implement practical arrangements to support clients and stakeholders
- 2.2 Define negotiable and non negotiable aspects of

**ELEMENT****PERFORMANCE CRITERIA**

the intervention and implement processes to ensure they are maintained

2.3 Negotiate and agree ongoing case management processes with clients and stakeholders

2.4 Where appropriate, develop and agree contracts with external service providers and accurately reflect timing and resourcing constraints

2.5 Implement procedures to ensure information sharing between key stakeholders is facilitated

2.6 Implement procedures to ensure progress of specialist client service delivery is monitored in accordance with agreed procedures, against defined performance indicators

2.7 Define, and implement where necessary, *procedures to deal with crisis situations*

3. Establish review and evaluation systems

3.1 Negotiate case plan with supervisor

3.2 Set up appropriate evaluation processes for ongoing implementation of the plan

3.3 Complete all relevant reporting procedures in accordance with organisation requirements

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Relevant policy, procedures and legislation and statutory requirements related to the area

## REQUIRED SKILLS AND KNOWLEDGE

of work

- Cultural protocols and systems
- Family structure, dynamics, communication and decision-making
- Family support and family casework strategies
- Range of community services and resources available
- Indicators of abuse and accepted intervention strategies
- Effects of abuse on human development
- Effects of different forms of intervention
- Effects of incarceration

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Interpret and apply legislation, policies and procedures
- Respond to and manage crisis
- Develop and assess actions appropriate for intervention
- Collect and assess information
- Document plans

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Develop and maintain appropriate networks
- Demonstrate application of skills in:
  - operational planning processes
  - report writing and documentation, including effective use of relevant information technology in line with work health and safety (WHS) guidelines
  - stress management techniques
  - verbal communication including interviewing skills, negotiation and cross cultural communication
  - interpersonal relationships, including establishing and maintaining relationships and networks
  - meeting procedures and facilitation

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit of competence will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Assessment must include the normal range of workplace situations

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to:
  - an appropriate workplace where assessment can take place or simulation of realistic workplace setting

## EVIDENCE GUIDE

### *Method of assessment:*

- Assessment may include observation, questioning and evidence gathered from the workplace environment
- Workplace evidence can be testimonials, portfolios or copies of completed workplace records/documentation

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *The contexts for establishing a case plan could include:*

- Decision to implement an intervention
- A result of a notification
- A result of a court order
- A result of a contract to provide a service
- Part of a case planning meeting or conference where clients, their families of origin, carer families and service providers establish actions for the safety, well being and development of the client

### *Establishment of a case plan will be carried out within requirements established by:*

- Commonwealth and state legislation
- Relevant international conventions
- Organisation policy and procedures
- Relevant program standards

### *Resources include:*

- Training programs
- Staff, peers and specialist personnel
- Information and materials

**RANGE STATEMENT**

- Skill development includes:*
- Life experience, vocational, social, recreational and personal skills
- Information may include:*
- All official documentation relating to client, full family history, developmental and medical history
  - All available records, anecdotal material and individual interviews
- Considerations may include:*
- Indigenous and ethnic considerations
  - Power relationship structures
  - Rituals, beliefs, hierarchies and practices
  - Politics
  - Gender
- Procedures to deal with crisis situations include:*
- Ensuring security and safety of all relevant parties including protection and custodial issues and the level of intervention required
  - Appropriate crisis services such as counselling, respite care, debriefing

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

## REQUIRED SKILLS AND KNOWLEDGE

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include:

- Awareness of overall direction of case plan
- Family structure and dynamics, communication and decision-making
- Range of services available
- Awareness of statutory requirements
- Indicators of abuse and intervention strategies

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Observe and collect feedback about behaviour, actions and progress
- Identify limits of role and taking actions to contact appropriate people
- Present information and feedback within informal and formal settings  
This may include oral communication skills and written communication skills, and will depend on the format required by the organisation for presenting feedback to supervisors

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Assess progress on goals and activities
- Demonstrate application of skills in:
  - objective observation of behaviour
  - stress management
  - behaviour management

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the

## EVIDENCE GUIDE

Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit of competence will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- Assessment should include a range of case management plans to reflect the normal range of workplace activities

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to:
  - an appropriate workplace where assessment can take place or simulation of realistic workplace setting for assessment

*Method of assessment:*

- Assessment may include observation, questioning and evidence gathered from the workplace or simulated environment, including written case studies

## EVIDENCE GUIDE

### Range Statement

#### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*The contexts for monitoring activities within case plan include:*

- Placement setting; e.g. home, alternative care placement, and detention facility
- Client/s involvement

*Needs are identified within requirements established by:*

- International, commonwealth and state legislation
- Organisation policy and procedures
- Relevant program standards

*Needs are identified for the purpose of:*

- Reporting
- Planning for the full range of support e.g. day to day care, mid term care, and family support
- Planning activities and/or programs

*Feedback mechanisms include:*

- Communicating daily with client or significant others about meeting of needs
- Participating within a case conference
- Recording observations about progress on activities

| <p>3. Evaluate work undertaken within specific communities</p>                                   | <p>3.1 Undertake appropriate evaluation of work in consultation with relevant community stakeholders</p> <p>3.2 Monitor work within communities to ensure reflection of relevant <i>values and structures</i></p> <p>3.3 Undertake evaluation in a manner that ensures responsiveness to community needs and issues</p>                                                                                                         |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Composition of specific community and group structures, practices and values
- Specific communication protocols and practices
- Social, political, cultural, historical issues that affect or are relevant to specific communities and groups
- Relevant networks, people, stakeholders
- Culture and diversity
- Models of society
- Critique of socialisation theory
- Family, power
- Understanding of deviance
- Identity theories
- Specific knowledge areas may include aging, youth women, health, housing, environment, multiculturalism, family violence etc

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate the capacity to work effectively with a specific group, validated by community acceptance and the impact of work undertaken

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - consultation
  - facilitation

## REQUIRED SKILLS AND KNOWLEDGE

- research, including data collection/analysis and recording, and effective use of relevant information technology in line with work health and safety (WHS) guidelines
- high level interpersonal relationship

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit may be assessed on the job using appropriate relevant materials and examples or through simulation
- The candidate must be able to demonstrate competence in working with at least one group or community over a number of assessment situations and through a number of assessment tools, including:
  - observation
  - reports from supervisors or other key people, and
  - confirmation from key community leaders

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular

## EVIDENCE GUIDE

relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to a workplace or to an environment that accurately simulates the workplace

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Issues of specific communities*

- Cultural and linguistic diversity
- Risk of self-harm

**RANGE STATEMENT**

*may relate to:*

- Mental health
- Gender
- Sexuality
- Age
- General health
- Alcohol and other drugs abuse
- Disability
- Location e.g. urban, rural and remote
- Income
- Family systems
- Religion

*Work may relate to:*

- Specific groups, issues or communities e.g. health issues of young people from particular cultural backgrounds and/or geographic areas
- Research activities
- Policy development
- Advocacy
- Referrals
- Project development and implementation
- Project design and implementation

*Context of work may include:*

- Social, political and economic issues impacting upon specific communities and groups
- Models of community development
- Legislative and statutory frameworks

*Values and structures may include:*

- Cultural preference and mores of specific groups e.g. religious/spiritual observances
- Language
- Family relationships
- Status/protocol
- Ceremonies/celebrations
- Prohibitions/taboos

### Unit Descriptor

**Descriptor**

This unit describes the knowledge and skills required to respond to behaviours of concern and support responsibility for behaviour management and change

### Application of the Unit

**Application**

This unit may apply in a range of community service contexts

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

### Employability Skills Information

**Employability Skills**

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Monitor behaviour of the *client*

- 1.1 Use formal and informal methods to observe and monitor client behaviour
- 1.2 Assess *behaviours of concern* for potential conflict and use a range of preventative and defusing strategies
- 1.3 Evaluate client behaviour and interactions in a fair, objective and consistent manner
- 1.4 Ensure decisions on action are consistent with all available evidence and organisation practice/ procedures
- 1.5 Seek specialist advice and make referrals where required

#### 2. Use *communication strategies* to de-escalate conflict

- 2.1 Conduct interactions with clients in a fair, just, humane, equitable and positive manner
- 2.2 Use communication strategies with individuals for effective interaction and problem solving
- 2.3 Consider cultural sensitivities in communication techniques and adapt style and language to accommodate different cultural values and practices
- 2.4 Identify potential causes of conflict and use a range of appropriate and effective defusing responses
- 2.5 Use negotiation techniques to divert and minimise aggressive behaviour
- 2.6 Use negotiation to examine cause and effect and encourage appropriate responsibility and accountability for behaviour and its outcomes

**ELEMENT****PERFORMANCE CRITERIA****3. Respond to behaviours of concern**

- 3.1 Challenge behaviours of concern and outline options and opportunities to change clearly and with positive encouragement
- 3.2 Confirm the implications of continuing behaviours of concern clearly, calmly and objectively
- 3.3 Use techniques according to organisation's procedures to ensure personal safety and safety of clients/colleagues.
- 3.4 If physical force must be used to ensure safety, apply the minimum level of force required and *report* in accordance with policies and procedures
- 3.5 Select strategies to address aggressive and unacceptable behaviour, that are accurate, clear and comply with procedures
- 3.6 Select strategies and responses for their potential to provide role models and examples of confident assertive behaviour
- 3.7 Carry out intervention strategies according to an analysis of the situation and organisation policies and procedures.
- 3.8 Report incidents in a manner that complies with policy, procedures and legislation

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

## REQUIRED SKILLS AND KNOWLEDGE

These include knowledge of:

- The organisation's policies, guidelines and procedures relating to responses to behaviours of concern, safety and security, delegations, duty of care, including dealing with conflict and critical incidents
- Principles of effective communication for conflict management
- Defusing and negotiation strategies
- Specific statutory requirements related to treatment of clients with special needs and requiring special support
- Reporting procedures and practice, internal and external
- Support and referral services and specialists
- Principles of responding to human behaviour relating to violence, aggression and suicide
- Principal cultural practices and customs of the client population and their impact on behaviour in the particular environment

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Apply organisation policies and procedures related to conflict and critical incidents
- Check the accuracy of information from different sources
- Identify the causes of aggression/violence
- Use a range of conflict management strategies
- Apply communication and negotiation skills under pressure

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Competency must be demonstrated in a real work environment
- Competence in this unit must be assessed over a period of time in order to ensure consistency of

## EVIDENCE GUIDE

performance across contexts applicable to the work environment

- Consistency in performance should consider the work environment, worker's role and responsibilities in the workplace

### *Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

### *Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Assessment of this competency will require human resources consistent with those outlined in the Assessment Guidelines

### *Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or

## EVIDENCE GUIDE

other appropriate persons

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

The application of this unit will depend on the work roles and responsibilities and the nature and requirements of the work environment

*Client may be:*

- Individuals or
- Groups

*Communication strategies will include examples from the following:*

- Use of positive assertive language
- Non-verbal gestures / body language
- Constructive questioning/listening
- Tone of voice
- Awareness of cultural values and sensitivity
- Defusing verbal aggression
- Negotiating agreements

*Behaviours of concern include a significant selection of examples of individual and group behaviour from the following:*

- Changing behaviour patterns
- Personal friction
- Expressions of anxiety and high level concern
- Serious and chronic complaints
- Provocative/threatening behaviour
- Intent to harm self
- Intent to harm others
- Forceful refusal to cooperate

**RANGE STATEMENT**

- Abusive language
- Apathy, loss of interest, withdrawal
- Rejection of family, friends, support networks
- Threatened suicide
- Irrational behaviour
- Hyperactivity/depression
- Racism
- Bullying behaviour
- Behaviour consistent with mental health conditions
- Behaviour consistent with developmental issues

*Referrals will include at least four examples from different support:*

- Social/welfare worker
- Psychologists
- Culturally identified support workers
- Medical
- Drug and alcohol services
- Behaviour management programs
- Mental Health Teams
- Registered Nurses
- Counsellors
- Supervisor
- Religious/spiritual advisers
- Program coordinator
- Case manager
- Aboriginal and/or Torres Strait Islander Liaison
- Welfare organisations
- Legal advisers
- Family
- Personal and community support networks
- Emergency/incident response

*Report will include work relevant selection from:*

- Incident reports
- Case notes
- Special reports
- Inquiries
- Reports required by or used by courts and judicial processes

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Provide clean needle programs

1.1 Provide clean needle programs in accordance with organisation and legislative requirements

1.2 Provide services to client in a manner consistent with organisation and legislative WHS and infection control guidelines

1.3 Document all clean needle programs in accordance with organisation and legislative requirements

1.4 Maintain confidentiality in accordance with organisation and legislative requirements

1.5 Maximise safety of self and others

1.6 Seek *emergency assistance* as required

2. Provide education on safer drug use

2.1 Provide information on safe needle and syringe handling and drug use to users of the service

2.2 Provide the client with *relevant and current information* on alcohol and other drugs and related issues and discuss the issues with them

2.3 Discuss *harm minimisation strategies* for alcohol and/or other drug use with client

2.4 Assist client to contact and use other services as appropriate

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

## REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Legislative and organisation requirements for clean needle programs
- Legislative and organisation requirements for infection control
- Legislative and organisation requirements for dealing with clients affected by alcohol and other drugs
- Other agencies and services provided
- Emergency contacts
- Recent and relevant information on alcohol and other drugs issues
- Strategies for self-protection including universal precautions

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate first aid certification or equivalent skills (as per unit *HLTF311A Apply first aid*) including:
  - cardio pulmonary resuscitation (CPR)
  - bandaging
  - managing toxic substances
  - managing bleeding
  - managing broken bones
  - managing consciousness
  - managing choking and knowledge of coma positions
- Correctly interpret legislative requirements in the provision of needle and syringe services
- Clearly communicate relevant information to clients

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

## REQUIRED SKILLS AND KNOWLEDGE

These include the ability to:

- Demonstrate the application of skills in:
  - conflict resolution
  - self-protection
  - accurate record-keeping

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace under the normal range of workplace conditions
- Competence in this unit must be assessed over a period of time in order to ensure consistency of performance across contexts applicable to the work environment
- Consistency in performance should consider the work environment, worker's role and responsibilities in the workplace

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account

## EVIDENCE GUIDE

relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

- Context of and specific resources for assessment:*
- Resources required for assessment include access to:
    - Resources required for first aid certification or equivalent skills
- Method of assessment:*
- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
  - Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
  - Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons
- Related units:*
- This unit of competency is recommended to be assessed in conjunction with a first aid unit
- Depending on jurisdiction and job role, this may be:
- HLTFA311A Apply first aid
  - or
  - HLTFA412A Apply advanced first aid

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating

## RANGE STATEMENT

conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

- Relevant and current information on alcohol and other drugs issues includes:*
- Drugs prevalent in the local community
  - Information on meeting physical, emotional, financial and social needs
  - Contacts for self-help groups
  - Resources on dependency
  - Resources on alcohol and other drugs issues for families or personal network
  - Contacts for and information on advocacy groups
  - Information regarding mental health and self-harm
  - Crisis and emergency contacts

- Harm minimisation strategies include:*
- Abstinence
  - Controlled drinking
  - Safer sex
  - Safer drug use

- Emergency assistance may be from:*
- Friends
  - Police
  - Other service providers

## Unit Sector(s)

- HLTF311A Apply first aid  
or
- HLTF412A Apply advanced first aid

**Elements and Performance Criteria Pre-Content**

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

**Elements and Performance Criteria****ELEMENT****PERFORMANCE CRITERIA**

1. Provide a service to intoxicated clients

1.1 Assess level of intoxication and nature and extent of drug use according to organisation policy and procedure

1.2 Report behaviour or physical status inconsistent with alcohol and/or drug use to the appropriate person and/or seek assistance

1.3 Where necessary, provide first aid and seek assistance from a health professional

1.4 Provide client with a safe and secure environment in which to sober up

1.5 Monitor client's physical state regularly in accordance with organisation policies and procedures to ensure health and safety

1.6 Document services provided to client in accordance with organisation reporting requirements

2. Assist client with longer term needs

2.1 *Assist client with activities of daily living*

2.2 *Provide information as appropriate on alcohol and*

**ELEMENT****PERFORMANCE CRITERIA**

other drugs issues including services available

2.3 Contact families and/or support networks upon request of the client and in accordance with organisation policies

2.4 Assess client in accordance with organisation policy and procedure to determine if they represent a risk to themselves or others by leaving the facility

3. Apply strategies to reduce harm or injury

3.1 Maintain calm and confident manner in contact with client

3.2 Conduct interactions with clients in a fair, just, humane and positive manner

3.3 Use strategies identified in *organisation response plan*

3.4 Maintain safety of self and others

3.5 Provide services to client in a manner consistent with organisation infection control guidelines

3.6 Seek emergency assistance as required

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

*Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Alcohol and other drug use and symptoms
- Drugs around in the local community
- Protective/risk management strategies

## REQUIRED SKILLS AND KNOWLEDGE

- Strategies for dealing with aggressive clients
- Statutory and organisation requirements for dealing with clients affected by alcohol and other drugs
- Strategies for dealing with aggressive and potentially violent clients
- Other agencies and services provided
- Recent and relevant information on alcohol and other drugs issues
- Use of breath analysis equipment
- Concurrent medical illnesses which may mimic/mask withdrawal

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate first aid certification or equivalent skills (as per unit *HLTFA311A Apply first aid*) including:
  - cardio pulmonary resuscitation (CPR)
  - bandaging
  - managing toxic substances
  - managing bleeding
  - managing broken bones
  - managing consciousness
  - managing choking and knowledge of coma positions
- Work with intoxicated clients in a manner that ensures personal safety and that of others
- Apply a non-judgemental approach to clients regardless of alcohol and/or other drug use

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate the application of skills in:
  - conflict resolution
  - negotiation
  - self-protection
- Communicate with intoxicated people
- Maintain documentation as required, including effective use of relevant information technology in line with work health and safety (WHS) guidelines

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Where work is undertaken with clients, assessment should include demonstration of competency on the job or in a workplace environment
- Competence in this unit must be assessed over a period of time in order to ensure consistency of performance across contexts applicable to the work environment
- Consistency in performance should consider the work environment, worker's role and responsibilities in the workplace

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- Resources required for assessment include access to:
  - resources required for first aid certification or equivalent skills
  - an appropriate workplace environment where assessment can take place

## EVIDENCE GUIDE

### *Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *Assess may include:*

- Immediate drug history
- Orientation to person, place, time
- Level of consciousness
- Breath analysis

### *Behaviour or physical state inconsistent with alcohol and other drugs use may include:*

- Evidence of physical illness or injury
- Evidence of mental illness
- Behaviour inconsistent with drug use history obtained from client
- Assessment of personal risk to client

## RANGE STATEMENT

*Assist client with activities of daily living may include:*

- Helping the client with personal hygiene
- Providing the client with food and drink
- Assisting the client to travel home
- Transporting clients to a place of safety
- Discharge advice

*Provide information may include:*

- Contact information for other services e.g. other sobering-up services, withdrawal services
- Harm minimisation information

**ELEMENT**

AOD sector

**PERFORMANCE CRITERIA**

work undertaken

4.2 Demonstrate a *commitment to access and equity* principles in all work in the sector

4.3 Identify personal values and attitudes regarding AOD use and take these values and attitudes into account when planning and implementing all work activities

5. Communicate effectively in a community services setting

5.1 Develop, review and revise personal skills in communication as an ongoing priority to address organisation standards

5.2 Exercise caution in communicating personal information by oral and written means to ensure confidentiality of client and staff matters

5.3 Routinely apply workplace protocols and procedures in all workplace communication to support accuracy and understanding of information provided and received

5.4 Recognise individual and cultural differences and make any adjustments needed to facilitate the achievement of identified outcomes

5.5 Conduct interpersonal communication with clients and colleagues in a manner that enhances a client-centred approach consistent with organisation standards

5.6 Take appropriate measures to resolve conflict and interpersonal differences in the workplace

6. Work ethically

6.1 Follow ethical guidelines in decision-making in all work undertaken with an awareness of potential ethical complexity in own work role

6.2 Reflect understanding and compliance with the principles of duty of care and legal responsibilities in all work undertaken

6.3 Refer any breach or non adherence to standard procedures or adverse event to appropriate personnel

6.4 Maintain confidentiality of any client matter in line with organisation policy and procedure

6.5 Show respect for rights and responsibilities of others through considered application of work practices

**ELEMENT****PERFORMANCE CRITERIA**

6.6 Reflect current working knowledge and understanding of employee and employer rights and responsibilities in all work undertaken

6.7 Recognise, avoid and/or address any conflict of interest

## **Required Skills and Knowledge**

### **REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Awareness of risk and co-morbidity issues, including theoretical frameworks about motivation to change alcohol and/or other drug use
- Basic pharmacology relevant to the work being undertaken, including:
  - types of drugs
  - dose levels
  - effects of specific drugs
  - misuse and abuse of benzodiazepines and other pharmaceutical drugs
  - tolerance
  - treatment approaches broadly
- Client needs and rights including duty of care
- Current issues facing clients and existing services to address their needs and rights
- Harm minimisation approach to work in the sector and a range of support activities
- Historical and social context as listed in the Range Statement
- Holistic and client-centred care
- In depth knowledge of alcohol and other drug issues and their impact on individuals and the community

## REQUIRED SKILLS AND KNOWLEDGE

- Mental health issues and co-existing drug issues
- Political and economic context as listed in the Range Statement including early intervention and health promotion
- Principles and practices of community support
- Principles and practices of ethics and values
- Principles of access and equity
- Principles of client and community empowerment/disempowerment
- Principles of health promotion (as per Ottawa Charter)
- Range of different settings
- Relevance of the work role and functions to maintaining sustainability of the workplace, including environmental, economic, workforce and social sustainability
- Statutory and legislative framework within which work takes place, including legal issues facing workers in the AOD sector
- Understanding of risks related to personal safety when working in AOD sector

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Apply an in depth knowledge of alcohol and other drug issues and their impact on individuals and the community
- Apply an understanding of the appropriateness of a range of different settings

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate interpersonal communication with clients and other stakeholders
- Prepare reports so that the information and the organisation of this information is appropriate to its purposes and audience
- Recognise and act upon opportunities to enhance sustainability in the workplace
- Work individually or as part of a team

## Evidence Guide

### EVIDENCE GUIDE

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit must be assessed with other relevant specialisation units chosen as part of a qualification
- This unit may be assessed on the job or through simulation
- Assessment must be over a range of situations with more than one target group  
It will entail observations and other workplace assessment tools
- Consistency in performance should consider the work environment, worker's role and responsibilities in the workplace

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- Resources required for assessment include access to appropriate workplace where assessment can take place

## EVIDENCE GUIDE

### *Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *Historical, social, political and economic context includes:*

- Changing social context of work e.g. changing government and societal views of AOD use and approaches to working with clients
- Economic context e.g. the current economic situation as it relates to and affects AOD use and the subsequent impact on client needs
- Historical context of work e.g. changing attitudes to AOD use; changing approaches to working with clients
- Political context e.g. government policies and initiatives affecting AOD work including early

## RANGE STATEMENT

|                                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                            |

## Unit Descriptor

### Descriptor

This unit describes the knowledge and skills required by workers to provide services to people with disabilities with complex or special care needs under supervision of a relevant professional

## Application of the Unit

### Application

This unit may apply to work with people with a disability in a range of community service contexts

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Evaluate and prioritise the needs of a person with complex care issues

- 1.1 Demonstrate understanding of the impact of dual/multiple diagnosis can have on identifying and prioritising needs
- 1.2 Utilise purpose designed tools to assess specific problems of the older person according to job role and responsibilities
- 1.3 Seek advice from health professionals and other *relevant personnel* when analysing and interpreting assessment data
- 1.4 Recognise the impact of complex care issues on the carer/s

2. Liaise and negotiate with appropriate personnel in the development of a service delivery plan

- 2.1 Utilise best practice guidelines when choosing strategies to address *complex and/or special needs*
- 2.2 Liaise with relevant experts and health professional/s when developing service delivery plans
- 2.3 Negotiate and establish goals with the person, their advocate/s and/or their significant other/s, aiming to achieve maximum quality of life
- 2.4 Access and/or negotiate *resources* in order to deliver identified services
- 2.5 Access community support agencies to facilitate the achievement of established goals

**ELEMENT****PERFORMANCE CRITERIA**

- |                                                                                  |                                                                                                                                                |

| 3. Coordinate the delivery of the service delivery plan                          | 3.1 Delegate services and care activities to <i>appropriately skilled workers</i>                                                              |
|                                                                                  | 3.2 Recognise when a service and/or care worker is no longer able to provide the level of service required                                     |
|                                                                                  | 3.3 Provide support and respite for the carer/s                                                                                                |
|                                                                                  | 3.4 Determine all service providers' understanding of the service delivery plan and their roles and responsibilities within that plan          |
| 4. Coordinate the monitoring, evaluation and review of the service delivery plan | 4.1 Determine all service providers' understanding of the mechanism/s for providing feedback on the effectiveness of the service delivery plan |
|                                                                                  | 4.2 Seek feedback from all service providers when evaluating effectiveness of the service delivery plan and re-prioritising care needs         |
|                                                                                  | 4.3 Seek feedback from the person and/or their advocate when evaluating effectiveness of the service delivery plan                             |
|                                                                                  | 4.4 Seek advice and assistance from relevant health professionals when the person's goals are not being reached                                |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

## REQUIRED SKILLS AND KNOWLEDGE

These include:

- Understanding of own work role and responsibilities
- Understanding of basic knowledge of physiology and psychology of a range of disability types and principles of assessment in determining, monitoring and evaluating the service needs of the person with complex or special needs as it relates to the work role
- Relevant policies, protocols and practices of the organisation in relation to Unit Descriptor and work role
- Understanding of the manifestations and presentation of common health problems associated with different disability types
- Understanding of the manifestations and presentation of behavioural problems associated with different disability types
- Impact of cultural and individual differences of service plan development and delivery
- Role and function of various health professionals
- Types of community services and the services each provides
- Role of carers
- Principles and practices of assessment of individuals with complex and/or special needs
- Strategies for conducting assessment of people with complex and/or special needs
- Assessment tools used in the assessment of complex and/or special needs
- Strategies for analysing and interpreting data
- Processes and practices in developing and managing service delivery plans
- Principles of delegation and supervision
- Strategies for conducting effective case conferences
- Principles and practices of case management

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Prioritise and manage the changing service needs of clients with complex and special care needs
- Liaise and report to appropriately persons/agencies
- Adhere to own work role and responsibilities
- Recognise own limitations and the need for assistance
- Work collaboratively with colleagues, health professionals and other services
- Apply problem solving skills that require negotiation and mediation skills to resolve problems of a difficult nature within organisation protocols
- Collaborate and network with a variety of stakeholders in order to achieve service objectives
- Safely use and coordinate the use of relevant technology effectively in line with work health and safety (WHS) guidelines

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of

## REQUIRED SKILLS AND KNOWLEDGE

the identified work role

These include the ability to:

- Follow organisation policies and protocols
- Apply basic knowledge of physiology and psychology of different types of disability and principles of assessment in determining, monitoring and evaluating the service needs of the older person with complex or special needs as it relates to the work role
- Apply reading and writing skills required to fulfil work role in a safe manner and as specified by the organisation/service:
  - this requires a level of skill that enables the worker to follow and give work-related instructions and directions and the ability to seek clarification and comments from clients, colleagues, health professionals and other service providers
  - industry work roles will require workers to possess a literacy level that will enable them to, read and write client's service delivery plans, record in health records, complete assessment tools and write reports and submissions
- Apply oral communication skills required to fulfil work role in a safe manner and as specified by the organisation:
  - this requires a level of skill that enables the worker to follow work-related instructions and directions and the ability to seek clarification and comments from supervisors, clients and colleagues
  - industry work roles will require workers to possess effective verbal and non-verbal communication skills that will enable them to ask questions, clarify understanding and meaning, recognise and interpret non-verbal cues, adapt communication styles to meet specific needs, provide information and express encouragement and support
- Apply numeracy skills required to fulfil work role in a safe manner and as specified by the organisation:
  - industry work roles will require workers to be able to perform mathematical functions, such as addition and subtraction up to three digit numbers and multiplication and division of single and double-digit numbers

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

## EVIDENCE GUIDE

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- It is recommended that assessment or information for assessment will be conducted or gathered over a period of time and cover the normal range of workplace situations and settings
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include access to:
  - an appropriate workplace where assessment can take place
  - relevant organisation policy, protocols and procedures
  - resources normally used in the workplace

*Method of assessment may*

- Observation of work activities

## EVIDENCE GUIDE

*include:*

- Observation of simulation and/or role play
- Written tasks
- relevant formal and informal education/training courses
- Case studies and scenarios
- Interviews/Questioning
- Role plays

*Related units:*

This unit of competency should be assessed after or in conjunction with related units:

- CHCDIS301A Work effectively with people with disabilities
- CHCICS402B Facilitate individualised plans

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Complex and/or special needs may include an older person with one or more of the following:*

- Mental health problem
- Behavioural problems
- Dual diagnosis e.g. intellectual disability/autism
- Chronic pain
- Medical issues associated with the disability
- Developmental or acquired disability
- Dysphagia
- Acquired brain injury
- Alcohol and other drug misuse/abuse problem
- Chronic health problem

## RANGE STATEMENT

*Data collection methods may include:*

- Use of industry specific assessment tools
- Use of best practice focus assessment tools
- Interviews
- Observation
- Review of previous health records
- Consultation with the older person, their advocate/s, informal carer/s and/or significant other/s

*Health records may include:*

- Assessments
- Plans of care
- Case histories
- Progress notes
- Test results
- Referral records
- Observation charts
- Medication charts

*Resources may include:*

- Financial
- Aids and equipment
- Qualified health specialists (wound consultants, continence advisors, palliative care consultants)

*Reporting may be, and include:*

- Verbal:
  - telephone
  - face-to-face
  - case conferences
- Non-verbal (written):
  - progress reports
  - case notes
  - incident reports

*Relevant personnel may include:*

- Aboriginal and Torres Strait Islander Health Worker
- Carer
- Dietician
- Diversional therapist
- Drug and alcohol worker
- Neuropsychologist and behaviour consultant for

**RANGE STATEMENT**

people with an acquired brain injury

- Occupational therapist
- Pain specialist
- Pharmacist
- Physiotherapist
- Psychiatrist
- Psychologist
- Respiratory technician
- Social worker
- Speech Pathologist
- Wound consultant

*Work collaboratively may include:*

- Liaison
- Asking and clarifying
- Seeking feedback
- Providing information and reports
- Identifying and exploring perceptions and expectations
- Negotiation

## Unit Descriptor

### Descriptor

This unit describes the knowledge and skills required to provide support for individuals who are experiencing loss, grief and bereavement

## Application of the Unit

### Application

This unit of competency may be applied in a range of community services contexts involving supporting individuals dealing with loss, grief and bereavement

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

- |                                                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

**ELEMENT****PERFORMANCE CRITERIA**

individuals who are grieving and identify potential for healing and growth

range of grief responses

3.2 Recognise common reactions to trauma and the range of responses

3.3 Identify individuals experiencing *difficulty in coping with grief and trauma* and link them with options for further help as needed

3.4 Demonstrate understanding of the role of complex grief reactions

3.5 Identify and assess an individual's suicide risk and where necessary refer to appropriate services

3.6 Use, within culturally appropriate boundaries communication techniques to respond to each individual's needs in relation to their grief and bereavement

3.7 Identify, suggest or use strategies for formal and informal *grief and bereavement support*

3.8 Maintain confidentiality in line with organisation practices

4. Identify, inform and refer to appropriate grief and bereavement care services and resources

4.1 Identify grief and bereavement care services available in the community

4.2 Identify *referral procedures* in accordance with organisation policies and procedures

4.3 Identify and make accessible *general grief and bereavement care information resources*

4.4 Fully inform individual about grief and bereavement care service options

4.5 Obtain feedback from individual to determine whether options are clearly understood

5. Identify and recognise *risks associated with grief and bereavement support*

5.1 Identify and recognise a range of risks associated with grief and bereavement support

5.2 Develop and implement appropriate *strategies to minimise risks associated with grief and bereavement support*

6. Access appropriate

6.1 Identify the *need to access appropriate*

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Potential impact of specific loss(es) and common features of grief and bereavement at the individual, family and community level
- Potential impact of specific loss(es) and common features of trauma at the individual, family and community level
- Potential impact of specific loss(es) and common features of complex grief at the individual, family and community level
- Reactions to loss and associated expressions of grief and bereavement
- Awareness of how loss, grief and bereavement can impact on social and emotional health and well being
- Integration of loss
- Distinctive social, cultural, ethnic and spiritual differences in loss, grief and bereavement
- Awareness of the context and circumstances prior to loss and their impact on grief and bereavement

## REQUIRED SKILLS AND KNOWLEDGE

- Awareness of the broad spectrum of loss
- Strategies for formal and informal grief and bereavement support
- Available grief and bereavement care services and information resources
- Understanding of a 'stress vulnerability model'

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Recognise expressions of loss, grief, trauma and bereavement
- Respond appropriately to a range of approaches and responses to loss, grief and trauma
- Engage with individuals experiencing loss, grief trauma and bereavement with empathy, sensitivity, professionalism and courtesy
- Refer individuals who show some signs of mental illness to appropriate services

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply verbal and non-verbal approaches to dealing with and responding to grieving individuals
- Use effective communication skills, including:
  - empathic listening skills
  - use appropriate communication techniques to respond to individual needs
  - provide information clearly and sensitively
  - obtain feedback to confirm understanding
- Maintain documentation as required, including effective use of relevant information technology in line with work health and safety (WHS) guidelines

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

## EVIDENCE GUIDE

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is best assessed in the workplace or in a simulated workplace under the normal range of conditions
- Assessment should be gathered on one or more occasions but must reflect the normal range of client situations encountered in the workplace

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged

*Method of assessment:*

- Consistent performance and development would be expected to be demonstrated involving a combination of oral and written media while also featuring simulated and actual practice
- Examples might include:
  - group exercises
  - written (e.g. journal) and verbal responses to questioning
  - simulated exercises

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Loss may include:*

- Primary losses
- Secondary losses:
  - losses of the internal world, such as loss of cognitive or sensory capacity
  - interaction losses
  - losses of the external world, such as material or personal losses
- Cumulative losses

*Features of grief may include:*

- Sadness
- Longing
- Somatic complaints
- Integration

*Expressions of grief may include:*

- Anger
- Anxiety
- Change in worldview
- Chronic sorrow
- Confusion
- Depression
- Despair
- Drop in self-esteem
- Fear of going mad
- Feeling unable to cope
- Guilt and remorse
- Helplessness
- Hopelessness
- Loneliness
- Questioning of values and beliefs

## RANGE STATEMENT

|                                                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

## RANGE STATEMENT

- Referral procedures may include:*
- Referral information
  - Referral databases
  - Referral protocols
- Grief and bereavement care information resources may include:*
- Internet resources
  - Fact sheets
  - Information packs
- Risks associated with grief and bereavement support may include:*
- Compassion fatigue
  - Vicarious traumatisation
  - Burnout
  - Lack of adequate supervision
  - Lack of access to external expertise
- Strategies to minimise risks associated with grief and bereavement support may include:*
- Self care
  - Supervision
  - Debriefing
  - Back up support
  - External networks and expertise
- The need to access to appropriate supervision and/or debriefing may include:*
- Duty of care to clients
  - Self care

## Unit Descriptor

### Descriptor

This unit describes the knowledge and skills required to provide support to clients with dementia in a variety of settings including family homes, community day settings and residential care

## Application of the Unit

### Application

This unit applies to workers in a range of aged and community services contexts working with people with dementia

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Provide support to those affected by dementia

- 1.1 Work with a basic *understanding of dementia*
- 1.2 Support individual needs of people with dementia using a person-centred approach to care and address individual needs for a stable familiar environment
- 1.3 Work with awareness of the impact of physical, social and emotional aspects of the environment on the person with dementia
- 1.4 Work with awareness of the *impacts that dementia may have on family, carers and significant others*
- 1.5 Recognise witnessed signs consistent with financial, physical or emotional abuse or neglect of the client and report to an appropriate person

2. Use communication strategies which take account of the progressive and variable nature of dementia

- 2.1 Use a range of communication strategies to maximise engagement of the person with dementia such as eye contact, gentle touch (where appropriate), short simple statements
- 2.2 Gain cooperation and provide reassurance as appropriate to individual clients by using reality orientation including:
  - reminders of the day, the time, relationships, occasions
  - reassuring words, phrases and body language
- 2.3 Use a range of validation strategies to relieve distress and agitation in clients such as:
  - Empathy

**ELEMENT****PERFORMANCE CRITERIA**

- Acceptance of the person's reality
- Acknowledgment
- Allowing expressions of distress
- Providing verbal and/or physical reassurance
- Use reminiscences frequently to connect with clients

3. Provide appropriate *activities* to maintain dignity, skills and health of client at optimum level

- 3.1 Provide *activities* which aim to maintain independence, using familiar routines and existing skills
- 3.2 Provide activities that are appropriate to the individual, reflecting their cultural likes and dislikes, in order to bring back pleasurable memories
- 3.3 Ensure all activities provided focus on *ensuring the safety and comfort* of the client balanced with autonomy and risk taking
- 3.4 Use purposeful and meaningful activity to enhance self-esteem and pleasure in life, to minimise boredom and to distract from or eliminate behavioural and psychological symptoms of dementia
- 3.5 Use family carers and *significant others* as a resource, where appropriate, to assist in developing appropriate activities by accessing information about client reminiscences and routines
- 3.6 Provide support and guidance to family carers and significant others where appropriate to assist them to understand the disease, its impact on the person and some approaches to providing care

4. Implement strategies which minimise the impact of behaviours of concern

- 4.1 Identify *behaviours of concern*
- 4.2 Identify potential triggers for behaviours of concern for specific individuals
- 4.3 Contribute to team discussion on care planning and care plan review to minimise behaviours
- 4.4 Implement strategies to minimise the likelihood of and reduce the impact of behaviours on the person and others
- 4.5 Regularly review strategies that are implemented to ensure maximum effectiveness and reflect changes in

**ELEMENT****PERFORMANCE CRITERIA**

the care plan

- |                                   |                                                                               |
|-----------------------------------|-------------------------------------------------------------------------------|
| 5. Implement self care strategies | 5.1 Monitor own stress level in relation to working with people with dementia |
|                                   | 5.2 Use appropriate self care strategies and seek support if required         |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include foundation knowledge of:

- Dementia as a progressive neurological condition
- Common indicators and symptoms of dementia
- Progression of dementia and potential impact on the person with dementia, their family and significant others
- Relationship between brain changes and behaviour in people with dementia
- Specific impacts of dementia related to cultural, personal and historical background
- Indications of neglect or abuse
- Current research on dementia
- Principles of person-centred approach to care
- Support services available
- Plan of care for the clients
- Organisation protocols and policies related to own area of work
- The importance of the physical, social and emotional environment for people with dementia

## REQUIRED SKILLS AND KNOWLEDGE

- Importance of relevant activities and communication when working with people with dementia
- Limitations and legal ramifications of physical, chemical and psychological restraint
- The range of appropriate strategies to be implemented when working with people with dementia
- The social model of disability
- The impact of social devaluation on an individual's quality of life
- Competency and image enhancement as a means of addressing devaluation

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Communicate effectively with clients with dementia
- Utilise creative, least restrictive approaches to behaviours of clients with dementia

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate a broad range of communication approaches e.g. reminiscences
- Establish and maintain a relationship that takes into account client and family individual differences (e.g. cognitive abilities, cultural background, language skills)
- Apply verbal communication skills (language skills) and non-verbal communication skills (e.g. touch, smiling, gestures) necessary to develop a trusting relationship with a person who has dementia and their family
- Use communication techniques to enhance communication and facilitate client's interaction within their environment
- Adapt activities to meet individual needs
- Provide opportunities for enjoyment
- Demonstrate cultural sensitivity
- Undertake observation and analysis of client needs
- Respond appropriately to indications of neglect or abuse
- Facilitate self-monitoring and self care
- Facilitate cooperative behaviour

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace under the normal range of workplace conditions but partial assessment could be undertaken under simulated conditions
- Assessment may include observations, questioning and evidence gathered from the workplace on more than one occasion
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resources required for assessment include:

## EVIDENCE GUIDE

- access to appropriate workplace where assessment can take place

### *Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *Understanding of dementia may include:*

- Knowledge of different manifestations of dementia, including:
  - Alzheimer's disease
  - Huntington's disease
  - Pick's disease
  - Vascular dementia

## RANGE STATEMENT

- Basic understanding of pathological features, including:
  - Amyloid plaques
  - Neurofibrillary tangles
  - Loss of connection between cells and cell death
  
- Impacts that dementia may have on family carers and significant others may include:*
  - Depression
  - Loss and grieving
  - Anger
  - Despair
  - Social embarrassment a family member might feel
  - Isolation
  - Financial burden on the family
  
- Impacts of dementia on the wider community may include:*
  - Inappropriate behaviour
  - Anxiety
  - Dependence on others
  - Disorientation
  
- Significant others may include:*
  - Spouse
  - Family
  - Friends
  
- Strategies to respond to behaviours of concern include:*
  - Distraction
  - Current events
  - Reminiscences
  - Music, dancing
  - Walking
  - Talking reassuringly about familiar and favourite topics
  - Behaviour modification (if appropriate)
  - Addressing physical triggers to behaviour including pain
  - Alternative therapies
  
- Activities include:*
  - Daily living activities such as:
    - maintaining personal safety

## RANGE STATEMENT

- communication (speech, writing, non-verbal communication)
- eating and drinking
- mobilising and transferring (moving from place to place and position to position)
- attending to personal hygiene (bathing, laundering personal linen)
- dressing and undressing
- attending own spiritual needs
- grooming
- expressing sexuality

### *Instrumental activities such as:*

- Accessing financial resources and allowances
- Paying bills and regular outgoings
- Shopping
- Preparing meals
- Climbing stairs
- Maintaining household (cleaning, laundry, décor, repairs)
- Travelling by private and public transport
- Interacting with others and socialising
- Accessing leisure, recreational and sporting activities
- Recreational and sporting activities
- Craft and creative activities
- Socialising
- Reminiscing activities
- Spiritual activities

### *Ensuring the safety and comfort of client while addressing the risks associated with:*

- Ability to find their own way
- Ability to negotiate traffic
- Wandering or other behaviours relating to agitation
- Behaviours relating to psychotic experiences or mood disorders
- Ability to safely prepare, cook and store food and drink
- Ability to control temperature of water
- Ability to use home appliances
- Ability to maintain personal and home security
- Ability to manage own finances

**RANGE STATEMENT**

- Ability to recognise dangers in their environment
- Ability to recognise the safety of others

*Environmental strategies may include:*

- Orientation to day, date, time of day, place, person, carer, family relationships, weather
- Adequate lighting to decrease risk of misinterpreting their environment
- Manipulate stimuli such as activity, noise, music, lighting, decor
- Provision of space (to pace, wander)
- Provision of individual's own belongings such as photos, books, clothes
- Security
- Safe storage of toxic chemicals

*Behaviours of concern:*

Refer to:

- Changed behaviour or BPSD (Behavioural and Psychological Symptoms of Dementia)

And may include but are not limited to:

- Physical aggression
- Social withdrawal
- Verbal disruption
- Repetitive actions or questions
- Resistance to personal care
- Sexually inappropriate behaviour
- Refusal to accept services
- Problems associated with eating
- Socially inappropriate behaviour
- Wandering or intrusiveness
- Sleep disturbances

|                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Unit descriptor</b> | This unit describes the performance outcomes, skills and knowledge required to conduct individual and group instruction and demonstrate work skills, using existing learning resources in a safe and comfortable learning environment. The unit covers the skills and knowledge required to determine the success of both the training provided and one's own personal training performance. It emphasises the training as being driven by the work process and context. |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### Application of the Unit

|                                |                                                                                                                                                                           |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application of the unit</b> | This unit supports a wide range of applications across any workplace setting and so can be used by any organisation. Its use is not restricted to training organisations. |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                   | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Organise instruction and demonstration | 1.1. Gather information about <b><i>learner characteristics</i></b> and learning needs<br>1.2. Confirm a <b><i>safe learning environment</i></b><br>1.3. Gather and check <b><i>instruction and demonstration objectives</i></b> and seek assistance if required<br>1.4. Access and review relevant <b><i>learning resources</i></b> and <b><i>learning materials</i></b> for suitability and relevance, and seek assistance to interpret the contextual application<br>1.5. Organise access to necessary equipment or physical resources required for instruction and demonstration<br>1.6. Notify learners of <b><i>details</i></b> regarding the implementation of the learning program and/or delivery plan |
| 2. Conduct instruction and demonstration  | 2.1. Use interpersonal skills with learners to establish a safe and comfortable learning environment<br>2.2. Follow the learning program and/or delivery plan to cover all learning objectives<br>2.3. Brief learners on any <b><i>OHS procedures</i></b> and requirements prior to and during training<br>2.4. Use <b><i>delivery techniques</i></b> to structure, pace and enhance learning<br>2.5. Apply <b><i>coaching</i></b> techniques to assist learning<br>2.6. Use communication skills to provide information,                                                                                                                                                                                       |

| ELEMENT                                                            | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                  |
|--------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                                    | <p>instruct learners and demonstrate relevant work skills</p> <p>2.7. Provide opportunities for practice during instruction and through work activities</p> <p>2.8. | 3. Check training performance                                      | <p>3.1. Use <b>measures</b> to ensure learners are acquiring and can use new technical and generic skills and knowledge</p> <p>3.2. Monitor learner progress and outcomes in consultation with learner</p> <p>3.3. Review relationship between the trainer/coach and the learner and adjust to suit learner needs</p> |
| 4. Review personal training performance and finalise documentation | <p>4.1. Reflect upon personal performance in providing instruction and demonstration, and document strategies for improvement</p> <p>4.2. Maintain, store and secure learner records according to organisational and legal requirements</p>                                                                           |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- verbal and non-verbal communication techniques, such as:
  - asking relevant and appropriate questions
  - providing explanations
  - demonstrating
  - using listening skills
  - providing information clearly
- safety skills to implement OHS requirements, by acting and responding safely in order to:
  - identify hazards
  - conduct prestart-up checks if required
  - observe and interpret learner behaviour that may put people at risk
- time-management, skills to:

**REQUIRED SKILLS AND KNOWLEDGE**

- ensure all learning objectives are covered
- pace learning
- reflection skills in order to:
  - identify areas for improvement
  - maintain personal skill development
- literacy skills to:
  - complete and maintain documentation
  - read and follow learning programs and plans
  - read and analyse learner information
- technology skills to operate audio-visual and technical equipment
- interpersonal skills to:
  - engage, motivate and connect with learners
  - provide constructive feedback
  - maintain appropriate relationships
  - establish trust
  - use appropriate body language
  - maintain humour
  - demonstrate tolerance
  - manage a group
  - recognise and be sensitive to individual difference and diversity
- observation skills to:
  - monitor learner acquisition of new skills, knowledge and competency requirements
  - assess learner communication and skills in interacting with others
  - identify learner concerns
  - recognise learner readiness to take on new skills and tasks

**Required knowledge**

- learner characteristics and needs
- content and requirements of the relevant learning program and/or delivery plan
- sources and availability of relevant learning resources and learning materials
- content of learning resources and learning materials
- training techniques that enhance learning and when to use them
- introductory knowledge of learning principles and learning styles
- key OHS issues in the learning environment, including:
  - roles and responsibilities of key personnel
  - responsibilities of learners
  - relevant policies and procedures, including hazard identification, risk assessment, reporting requirements, safe use of equipment and emergency

**REQUIRED SKILLS AND KNOWLEDGE**

- procedures
- risk controls for the specific learning environment

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment**

Assessment must address the scope of this unit and reflect all components of the unit. A range of appropriate assessment methods and evidence-gathering techniques must be used to determine competency. A judgement of competency should only be made when the assessor is confident that the required outcomes of the unit have been achieved and that consistent performance has been demonstrated.

**Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the ability to:

- carry out a minimum of three training sessions, involving demonstrating and instructing particular work skills for different groups; with each session addressing:
  - different learning objectives
  - a range of techniques and effective communication skills appropriate to the audience.

**Context of and specific resources for assessment**

Evidence must be gathered in the workplace wherever possible. Where no workplace is available, a simulated workplace must be provided.

**Method of assessment****Guidance information for assessment**

For further information about assessment of this and other TAE units, refer to relevant implementation guidance published on the IBSA website ([www.ibsa.org.au](http://www.ibsa.org.au)).

**Range Statement****RANGE STATEMENT**

**RANGE STATEMENT**

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

|                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|---------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><i>Learner characteristics</i></b> may include:                  | <ul style="list-style-type: none"> <li>• language, literacy and numeracy levels</li> <li>• learning styles</li> <li>• past learning and work experiences</li> <li>• specific needs</li> <li>• workplace culture.</li> </ul>                                                                                                                                                                                                                                                                                  |
| <b><i>Safe learning environment</i></b> may include:                | <ul style="list-style-type: none"> <li>• exit requirements</li> <li>• personal protective equipment</li> <li>• safe access</li> <li>• safe use of equipment.</li> </ul>                                                                                                                                                                                                                                                                                                                                      |
| <b><i>Instruction and demonstration objectives</i></b> may include: | <ul style="list-style-type: none"> <li>• competencies to be achieved</li> <li>• generic and technical skills, which may be:               <ul style="list-style-type: none"> <li>• provided by the organisation</li> <li>• developed by a colleague</li> <li>• individual or group objectives</li> <li>• learning outcomes.</li> </ul> </li> </ul>                                                                                                                                                           |

## PSPPM402B Manage simple projects

### Modification History

| Release | TP Version | Comments                                |
|---------|------------|-----------------------------------------|
| 3       | PSP12V1    | Unit descriptor edited.                 |
| 2       | PSP04V4.2. | Layout adjusted. No changes to content. |
| 1       | PSP04V4.1  | Primary release.                        |

### Unit Descriptor

This unit covers management of generally low risk projects that may be small scale and managed by one person or a person with a small team. It includes implementing project start-up activities, coordinating project implementation, monitoring the project and arranging follow-up activities. Contract management requirements are not included as this aspect is addressed by units of competency within the Competency field of *Procurement and Contract Management*.

In practice, managing simple projects overlaps with other generalist and specialist work activities such as applying government processes, using resources, gathering information, managing contracts etc.

This unit, and unit *PSPPM405A Administer simple projects*, are mutually exclusive. One or the other, but not both, may contribute to a qualification.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication

### Application of the Unit

Not applicable.

### Licensing/Regulatory Information

Not applicable.

## Pre-Requisites

Not applicable.

## Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

Elements are the essential outcomes of the unit of competency. Together, performance criteria specify the requirements for competent performance. Text in ***bold italics*** is explained in the Range Statement following.

## Elements and Performance Criteria

| ELEMENT                                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|---------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. <b>Implement start-up activities</b>     | <p>1.1 The <b><i>project plan</i></b> is updated with confirmed information for key dates and activities, resources and project governance details in accordance with the project implementation strategy.</p> <p>1.2 Project <b><i>stakeholders'</i></b> understanding of and agreement to fulfil the project requirements and their roles and responsibilities are confirmed.</p> <p>1.3 <b><i>Required systems</i></b> are established and maintained throughout the project in accordance with the project plan.</p> <p>1.4 A working knowledge of <b><i>project management tools</i></b> is used to facilitate integration of project activities and achievement of project outcomes.</p>                   |
| 2. <b>Coordinate project implementation</b> | <p>2.1 <b><i>Integration</i></b> and <b><i>management</i></b> of project activities are handled in accordance with the project plan.</p> <p>2.2 Stakeholder input and expectations are managed and their commitment is maintained throughout the life of the project in accordance with organisational policy and procedures and the project plan.</p> <p>2.3 Disagreements and disputes are resolved or referred to a higher authority in accordance with organisational policy and procedures.</p> <p>2.4 Project <b><i>change proposals</i></b> are received and changes are recommended/made in accordance with the project plan, and documented in accordance with <b><i>policy and procedures</i></b>.</p> |
| 3. <b>Monitor project</b>                   | <p>3.1 All aspects of the project are continually monitored and</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

**ELEMENT****PERFORMANCE CRITERIA**

corrective action is taken as necessary to maintain progress in accordance with the project plan.

3.2 Consultation and reporting mechanisms are applied in accordance with the communication plan when dealing with management, staff and/or contractors, steering committee members or other stakeholders.

3.3 Project governance plans and any related contracts are monitored, reviewed and amended as appropriate, and results are reported in accordance with the communication plan.

3.4 Project progress is monitored against agreed milestones in accordance with the project plan to provide a measure of performance throughout the life of the contract.

3.5 Programmed review of objectives and achievement is implemented in accordance with the project plan.

**4. Arrange project follow-up activities**

4.1 Project deliverables are analysed against *specifications*, performance standards and project objectives, under broad guidance, and the results are reported to stakeholders.

4.2 An initial support package or product manual is produced, if required, to provide guidance for stakeholders who will be required to apply the project results.

4.3 The support package includes options for stakeholders to take account of environmental and cultural factors in applying project results.

4.4 Operational and support authorities are consulted to research any testing/trialling/building requirements resulting from the project, and evaluation of any recommendations are included in the project report.

## Required Skills and Knowledge

This section describes the essential skills and knowledge and their level, required for this unit.

### Skill requirements

Look for evidence that confirms skills in:

- leading and mentoring people to achieve project deliverables
- maintaining agreement of stakeholders and team members to timelines, roles and responsibilities
- communicating with stakeholders and team members using a range of communication styles to suit different audiences and purposes

- responding to diversity, including gender and disability
- using project management tools applicable to small scale or low risk projects
- applying ethical decision making and problem solving related to project management of small scale or low risk projects
- writing recommendations and preparing implementation support packages requiring precision of expression
- applying workplace safety procedures in line with project requirements
- accessing/preparing information electronically or in hard copy

### Knowledge requirements

Look for evidence that confirms knowledge and understanding of:

- legislation, organisational policies and procedures that may impact on project management, for example:
  - public sector codes of ethics/conduct
  - occupational health and safety and environment requirements
  - project governance requirements
  - quality standards
- risk management
- procurement guidelines
- human resources
- equal employment opportunity, equity and diversity principles
- project management tools to suit a range of small scale or low risk projects
- project management principles
- organisational and political context

## Evidence Guide

The Evidence Guide specifies the evidence required to demonstrate achievement in the unit of competency as a whole. It must be read in conjunction with the Unit descriptor, Performance Criteria, the Range Statement and the Assessment Guidelines for the Public Sector Training Package.

### Units to be assessed together

- *Pre-requisite* units that must be achieved prior to this unit: *Nil*
- *Co-requisite* units that must be assessed with this unit: *Nil*
- *Co-assessed units* that may be assessed with this unit to increase the efficiency and realism of the assessment process include, but are not limited to:
  - PSPETHC401A Uphold and support the values and principles of public service
  - PSPGOV402B Deliver and monitor service to clients

- PSPGOV403B Use resources to achieve work unit goals
- PSPGOV411A Deal with conflict
- PSPGOV412A Use advanced workplace communication strategies
- PSPGOV422A Apply government processes
- PSPLEGN401A Encourage compliance with legislation in the public sector
- PSPPROC410A Administer contracts
- PSPPM401B Design simple projects
- PSPPM403B Close simple projects
- *Excluded units that may not contribute to the same qualification as this unit:*
  - PSPPM405A Administer simple projects

### Overview of evidence requirements

In addition to integrated demonstration of the elements and their related performance criteria, look for evidence that confirms:

- the knowledge requirements of this unit
- the skill requirements of this unit
- application of the Employability Skills as they relate to this unit (see Employability Summaries in Qualifications Framework)
- simple projects managed in a range of (3 or more) contexts (or occasions, over time)

### Resources required to carry out assessment

These resources include:

- legislation, guidelines, procedures and protocols relating to project management
- workplace project documentation
- scenarios and case studies
- examples of project management tools

### Where and how to assess evidence

Valid assessment of this unit requires:

- a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered when implementing projects, including coping with difficulties, irregularities and breakdowns in routine
- simple projects managed in a range of (3 or more) contexts (or occasions, over time)

Assessment methods should reflect workplace demands, such as literacy, and the needs of particular groups, such as:

- people with disabilities
- people from culturally and linguistically diverse

backgrounds

- Aboriginal and Torres Strait Islander people
- women
- young people
- older people
- people in rural and remote locations

Assessment methods suitable for valid and reliable assessment of this competency may include, but are not limited to, a combination of 2 or more of:

- case studies
- demonstration
- portfolios
- questioning
- scenarios
- authenticated evidence from the workplace and/or training courses

**For consistency of assessment**

Evidence must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments

## Range Statement

The Range Statement provides information about the context in which the unit of competency is carried out. The variables cater for differences between States and Territories and the Commonwealth, and between organisations and workplaces. They allow for different work requirements, work practices and knowledge. The Range Statement also provides a focus for assessment. It relates to the unit as a whole. Text in ***bold italics*** in the Performance Criteria is explained here.

***Project plan*** will include some or all of:

- acquisition strategies
- budget and financial management strategy
- contract management
- cost estimates
- evaluation criteria
- expected outcomes/measurable benefits of the project
- facilities
- inclusions and exclusions from project
- information/communication strategy
- intellectual property strategies
- milestones

- objectives
  - outputs/project deliverables and their acceptance criteria
  - people plan including human resource management and human resource development
  - performance criteria/indicators
  - project control mechanisms
  - project implementation strategy
  - project governance strategy
  - purpose
  - quality assurance
  - quality control
  - quality standards for project
  - rationale
  - required project resources
  - resource management
  - risk management
  - roles and responsibilities
  - schedule/timeline
  - task/work breakdown structure (WBS)
- Stakeholders*** may include:
- project sponsor/funding bodies
  - clients or customers (internal and external)
  - industry
  - other agencies
  - general public
  - relevant interest groups
  - unions
  - functional areas
  - the organisation's senior management
  - Ministers
  - project team
  - steering committee members
  - end user
  - supplier/service provider
- Required systems for project management*** may include:
- planning and monitoring system
  - financial management including:
    - budget allocation/funding
    - income generated
    - expenditure
  - recordkeeping for documented information such as:

- correspondence
  - quality data including survey, needs, test results
  - contracts
  - time allocated and spent on each aspect of the project
  - progress reports
  - performance reports against milestones
  - project outcomes
  - samples, prototypes, models
- Project management tools*** may include:
- risk analysis
  - organisational project governance framework
  - communications plan
  - reporting framework
  - project management software and other tools:
    - Gantt and bar charts
    - Program Evaluation and Review Technique (PERT) charts
    - Critical Path Method
    - cost schedule control system
    - logistics support analysis
    - life cycle cost analysis
    - spreadsheets
    - recording systems - electronic and manual
- Integration of project activities*** may include:
- scope
  - time
  - cost
  - quality
  - human resources
  - communications
  - risk
  - procurement
- Management*** may include:
- scope management
  - communication and reporting
  - schedule management
  - financial management
  - quality management
  - resources management
  - people management
  - logistics management
  - risk management

***Change proposals*** may include:

- contract management
- change management
- scope
- administration
- engineering, technical, technology changes
- time
- cost
- resources

***Policy and procedures*** may include:

- government legislation (Federal, State and Local) affecting organisation's administration such as:
  - public sector management acts
  - financial management and accounting legislation and regulations
  - privacy legislation
- government and organisational guidelines and procedures relating to:
  - project governance
  - resourcing
  - security
  - strategic plans
  - recruitment
  - risk management
  - procurement guidelines
  - designation approvals
  - industrial agreements

***Specifications*** may include:

- functional
- technical
- performance
- material

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

## REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Organisation policies impacting on the worker's own area of responsibility
- Aspects of government policies directly related to own area of responsibility
- The limits of worker's role and competence

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate participation in policy development:
  - in relation to own area of responsibility
  - employing either verbal or written means to provide information and feedback
  - as part of a team, or as required in the workplace

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate application of skills in:
  - questioning and clarification, on a familiar workplace issue/topic/research policy:
  - language used may be English or a community language
  - report writing, on a familiar workplace issue/topic/research policy:
  - reports may vary in complexity from filling in a set form to writing a short report
  - literacy support available in the workplace to complete reports may vary from support and assistance from a supervisor to no support available
  - language used may be English or community language
  - Group participation

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
- Resource requirements for assessment of this unit include access to:
  - an appropriate workplace where assessment can take place, or simulation of realistic workplace setting for assessment

## EVIDENCE GUIDE

*Method of assessment:*

- Assessment may include observations, questioning and evidence gathered from the workplace environment

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Information and feedback for policy development processes may be provided:*

- Verbally
- Or written
- At formal or informal meetings

*Relevant others may be:*

- Family members
- Other services

*Consultation with clients may be:*

- In language appropriate to the client group spoken, signed, gestures
- Using oral, written or visual methods
- Using third party translator/interpreter

*Research and information may be sought on:*

- Emergencies
- Occupational health and safety
- Referrals
- Reporting
- Philosophy
- Goals, objectives, targets

**RANGE STATEMENT**

- Recording
- Accountability
- Code of conduct and ethical behaviour
- Duty of care

*Research and consultation may include:*

- Asking set questions as specified by supervisor
- Helping client or relevant others to fill in a questionnaire

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|----------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Plan and complete own work schedule | <p>1.1. Prepare <b>Workgroup</b> plans which reflect consideration of resources, client needs and workgroup targets</p> <p>1.2. Analyse and incorporate <b>Work objectives</b> and priorities into personal schedules and responsibilities</p> <p>1.3. Identify <b>Factors affecting the achievement of work objectives</b> and establish contingencies and incorporate them into work plans</p> <p>1.4. Efficiently and effectively use <b>Business technology</b> to manage and monitor planning completion and scheduling of tasks</p> |
| 2. Monitor own work performance        | <p>2.1. Identify and analysed personal performance through self-assessment and feedback from others on the achievement of work objectives</p> <p>2.2. Seek and evaluate <b>Feedback on performance</b> from colleagues and clients in the context of individual and group requirements</p> <p>2.3. Routinely identify and report on variations in the quality of service and performance in accordance with organisational requirements</p>                                                                                               |
| 3. Coordinate                          | 3.1. Assess personal knowledge and skills against                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| ELEMENT                  | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- learning skills to recognise and develop new and necessary skills and knowledge
- literacy skills to understand the organisation's policies, procedures and communications, to write personal work plans and professional development plans, and to request and receive feedback about performance
- organising skills to prioritise, manage time and meet deadlines
- problem solving skills to develop contingency plans

#### Required knowledge

- knowledge of relevant business technology applications to schedule tasks and plan work
- knowledge of techniques to prepare personal plans and establish priorities
- methods to identify and prioritise personal learning needs
- understanding of a range of professional development options
- understanding of methods to elicit, analyse and interpret feedback
- understanding of methods to evaluate own performance

## Evidence Guide

| <b>EVIDENCE GUIDE</b>                                                                                                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b>                                                                                                                    | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>• preparing and communicating own work plan</li> <li>• scheduling work objectives and tasks to support the achievement of goals</li> <li>• seeking and acting on feedback from clients and colleagues</li> <li>• reviewing own work performance against achievements through self-assessment</li> <li>• accessing learning opportunities to extend own personal work competencies</li> <li>• using business technology to monitor self development.</li> </ul> |
| <b>Context of and specific resources for assessment</b>                                                                                                                                                                | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• the learner and trainer should have access to appropriate documentation and resources normally used in the workplace</li> </ul>                                                                                                                                                                                                                                                                                                                                              |
| <b>Method of assessment</b>                                                                                                                                                                                            | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• observation of performance in role plays</li> <li>• observation of presentations</li> <li>• review of work and professional development plans.</li> </ul>                                     |
| <b>Guidance information for assessment</b>                                                                                                                                                                             | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• Other units from the Certificate IV in Frontline Management.</li> </ul>                                                                                                                                                                                                                                                                                                    |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

|                                                                                 |                                                                                                                                                                                                                                                                                                                     |
|---------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Unit descriptor</b> | <p>This unit describes the performance outcomes, skills and knowledge required to promote teamwork. It involves developing team plans to meet expected outcomes, leading the work team, and proactively working with the management of the organisation.</p> <p>No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.</p> |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### Application of the Unit

|                                |                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Application of the unit</b> | <p>Frontline managers have an important leadership role in the development of efficient and effective work teams. They play a prominent part in team planning, supervising the performance of the team and developing team cohesion. They provide leadership for the team and bridge the gap between the management of the organisation and the team members. As such they must 'manage up' as well as manage their team/s.</p> |

## Elements and Performance Criteria

| ELEMENT                          | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|----------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Plan to achieve team outcomes | <p>1.1. Identify, establish and document <b><i>team purpose, roles, responsibilities, goals, plans and objectives</i></b> in <b><i>consultation</i></b> with team members</p> <p>1.2. Support team members in meeting expected outcomes</p>                                                                                                                                                                                                                                                                                                                                                            |
| 2. Develop team cohesion         | <p>2.1. Provide opportunities for input of team members into planning, decision making and operational aspects of work team</p> <p>2.2. Encourage and support team members to take <b><i>responsibility for own work</i></b> and to assist each other in undertaking required roles and responsibilities</p> <p>2.3. Provide <b><i>feedback</i></b> to team members to encourage, value and reward individual and team efforts and contributions</p> <p>2.4. Recognise and address issues, concerns and problems identified by team members or refer to <b><i>relevant persons</i></b> as required</p> |

| ELEMENT                                    | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 3. Participate in and facilitate work team | <p>3.1. Actively encourage team members to participate in and take responsibility for team activities and communication processes</p> <p>3.2. Give the team support to identify and resolve problems which impede its performance</p> <p>3.3. Ensure own contribution to work team serves as a role model for others and enhances the organisation's image within the work team, the organisation and with clients/customers</p>                                                                                                       |
| 4. Liaise with management                  | <p>4.1. Maintain open <b>communication</b> with <b>line manager/management</b> at all times</p> <p>4.2. Communicate information from line manager/management to the team</p> <p>4.3. Communicate unresolved issues, concerns and problems raised by the team/team members to line manager/management and ensure follow-up action is taken</p> <p>4.4. Communicate unresolved issues, concerns and problems related to the team/team members raised by line managers/management to the team and ensure follow-up to action is taken</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to:
  - boost team morale
  - deal with team conflict
  - deliver messages from management
  - facilitate discussion
  - mentor and coach
- leadership skills
- planning and organising skills.

#### Required knowledge

**REQUIRED SKILLS AND KNOWLEDGE**

- organisational goals, objectives and plans
- organisational policy and procedures framework
- organisational structure, including organisational chart
- principles and techniques associated with:
  - delegation and work allocation
  - goal setting
  - group dynamics and processes
  - individual behaviour and difference
  - leadership
  - motivation
  - negotiation
  - planning.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- teamwork plan with details of how it was generated and how it will be monitored so that team goals can be met
- techniques in communicating information, dealing with team conflict and resolving issues
- knowledge of organisational goals, objectives and plans.

**Context of and specific resources for assessment**

Assessment must ensure:

- access to appropriate documentation and resources normally used in the workplace.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- analysis of responses to case studies and scenarios

| EVIDENCE GUIDE                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|--------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• observation of demonstrated techniques in working with team dynamics</li> <li>• observation of performance in role plays</li> <li>• oral or written questioning to assess knowledge of principles and techniques associated with group dynamics and processes</li> <li>• evaluation of opportunities provided for input of team members into planning, decision making and operational aspects of work team</li> <li>• review of feedback provided to team members</li> <li>• review of teamwork plan.</li> </ul> |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• other units from the Certificate IV in Frontline Management.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

## Range Statement

| RANGE STATEMENT                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                                                                                                                                               |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |                                                                                                                                                                                                                                                                                                                                                                               |
| <b><i>Team purpose, roles, responsibilities, goals, plans and objectives</i></b> may include:                                                                                                                                                                                                                                                                                                                                                                                        | <ul style="list-style-type: none"> <li>• action plans, business plans and operational plans linked to strategic plans</li> <li>• expected outcomes and outputs</li> <li>• goals for individuals and the work team</li> <li>• individual and team performance plans and key performance indicators</li> <li>• occupational health and safety (OHS) responsibilities</li> </ul> |

## Elements and Performance Criteria

| ELEMENT                      | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                             |
|------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Select and use technology | 1.1. Select appropriate <b><i>technology</i></b> and <b><i>software applications</i></b> to achieve the requirements of the task<br>1.2. Adjust workspace, furniture and equipment to suit user ergonomic requirements<br>1.3. Use technology according to <b><i>organisational requirements</i></b> and in a way which promotes a safe work environment                                                                         |
| 2. Process and organise data | 2.1. Identify, open, generate or amend files and records according to task and organisational requirements<br>2.2. Operate <b><i>input devices</i></b> according to organisational requirements<br>2.3. <b><i>Store data</i></b> appropriately and exit applications without damage to or loss of, data<br>2.4. Use manuals, training booklets and/or online help or help-desks to overcome basic difficulties with applications |
| 3. Maintain technology       | 3.1. Identify and replace used <b><i>technology consumables</i></b> in accordance with manufacturer's instructions and organisational requirements<br>3.2. Carry out and/or arrange <b><i>routine maintenance</i></b> to ensure equipment is maintained in accordance with manufacturer's instructions and organisational requirements                                                                                           |

| ELEMENT | PERFORMANCE CRITERIA                                                                                                                                 |
|---------|------------------------------------------------------------------------------------------------------------------------------------------------------|
|         | 3.3. <b>Identify equipment faults</b> accurately and take action in accordance with manufacturer's instructions or report fault to designated person |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- literacy skills to identify work requirements; to understand and process basic, relevant workplace information; and to follow written instructions
- communication skills to request advice, to receive feedback and to work with a team
- problem-solving skills to solve routine technology problems.

#### Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
- ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety (OHS)
- organisational policies, plans and procedures, especially in regard to file-naming and storage conventions
- organisational IT procedures including back-up and virus protection procedures
- basic technical terminology in relation to reading help-files and manuals.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

| <b>EVIDENCE GUIDE</b>                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|-----------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Overview of assessment</b>                                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Critical aspects for assessment and evidence required to demonstrate competency in this unit</b> | <p>Evidence of the following is essential:</p> <ul style="list-style-type: none"> <li>• selection and application of appropriate equipment and software applications in relation to assigned task/s</li> <li>• access, retrieval and storage of required data</li> <li>• performance of basic maintenance on a range of office equipment</li> </ul>                                                                                                                                                                                                                                          |
| <b>Context of and specific resources for assessment</b>                                             | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to an actual workplace or simulated environment</li> <li>• access to office equipment and resources</li> <li>• examples of files and data for storage</li> <li>• manuals and training booklets for equipment.</li> </ul>                                                                                                                                                                                                                                                                                      |
| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• analysis of responses to case studies and scenarios</li> <li>• demonstration of techniques</li> <li>• oral or written questioning to assess knowledge of office equipment</li> <li>• evaluation of maintaining technology.</li> </ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• IT use units</li> <li>• other industry capability units.</li> </ul>                                                                                                                                                                                                                                                                                                                                                |

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. ***Bold italicised***

**RANGE STATEMENT**

wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

**Technology** may include:

- computer technology, such as laptops and personal computers
- digital cameras
- modems
- printers
- scanners
- zip drives
- photocopiers
- shredders
- binders
- laminators
- cutters

**Software applications** may include:

- email, internet
- word processing, spreadsheet, database, accounting or presentation packages

**Organisational requirements** may include:

- correctly identifying and opening files
- legal and organisation policies, guidelines and requirements
- locating data
- log-on procedures
- manufacturer's guidelines
- OHS policies, procedures and programs
- saving and closing files
- storing data

**Input devices** may include:

- keyboard
- mouse
- numerical key pad
- scanner

**Storage of data** may include:

- appropriate storage/filing of hard copies of computer generated documents
- storage in directories and sub-directories
- storage on CD-ROMs, hard and floppy disk drives or back-up systems

**Technology consumables** may include:

- back-up tapes
- CD-ROM
- floppy disks

| RANGE STATEMENT                                         |                                                                                                                                                                                                                                                                                                                                                             |
|---------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                         | <ul style="list-style-type: none"> <li>• print heads</li> <li>• printer ribbons and cartridges</li> <li>• toner cartridges</li> <li>• zip disks</li> </ul>                                                                                                                                                                                                  |
| <b><i>Routine maintenance</i></b> may include:          | <ul style="list-style-type: none"> <li>• in-house cleaning and servicing of equipment according to manufacturer's guidelines</li> <li>• periodic servicing by qualified or manufacturer approved, technician</li> <li>• regular checking of equipment</li> <li>• replacing consumables</li> </ul>                                                           |
| <b><i>Identifying equipment faults</i></b> may include: | <ul style="list-style-type: none"> <li>• checking repairs have been carried out</li> <li>• encouraging feedback from work colleagues</li> <li>• keeping a log book of detected faults</li> <li>• preparing a maintenance program</li> <li>• regular back-ups of data</li> <li>• regular OHS inspections</li> <li>• routine checking of equipment</li> </ul> |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                          | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| ELEMENT                                              | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                       |
|------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                                      | hazards to appropriate personnel                                                                                                                                                                                                                                                                                           |
| 2. Comply with environmental regulations             | 2.1. Follow workplace procedures to ensure <b>compliance</b><br>2.2. Report breaches or potential breaches to appropriate personnel                                                                                                                                                                                        |
| 3. Seek opportunities to improve resource efficiency | 3.1. Follow <b>organisational plans</b> to improve environmental practices and resource efficiency<br>3.2. Work as part of a team, where relevant, to identify possible areas for improvements to work practices in own work area<br>3.3. Make <b>suggestions</b> for improvements to workplace practices in own work area |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- analytical skills to comply with all relevant legislation associated with job specifications and procedures
- communication and problem-solving skills to question, seek clarification and make suggestions relating to work requirements and efficiency
- communication and teamwork skills to recognise procedures; to follow instructions; to respond to change, such as current workplace environmental/sustainability frameworks; and to support team work and participation in a sustainable organisation
- literacy, numeracy and technology skills to interpret workplace information in relation to work role, and to document and measure resource use
- technology skills to select and use technology appropriate for a task.

#### Required knowledge

- environmental and resource hazards/risks
- environmental or sustainability legislation, regulations and codes of practice applicable to own work role
- OHS issues and requirements
- organisational structure, and reporting channels and procedures
- relevant environmental and resource efficiency systems and procedures
- sustainability in the workplace
- terms and conditions of employment including policies and procedures, such as

**REQUIRED SKILLS AND KNOWLEDGE**

daily tasks, employee and employer rights, equal opportunity.

**Evidence Guide****EVIDENCE GUIDE**

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

**Overview of assessment****Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the following is essential:

- accessing, interpreting and complying with a range of environment/sustainability legislation and procedural requirements relevant to daily responsibilities
- accurately following organisational information to participate in and support an improved resource efficiency process and reporting as required
- developing and/or using tools such as inspection checklists, to collect and measure relevant information on organisation resource consumption, within work role
- identifying organisational improvements by applying efficient resource use to daily activities
- knowledge of environmental and resource hazards/risks.

**Context of and specific resources for assessment**

Assessment must ensure:

- access to an actual workplace or simulated environment
- evidence is relevant to the particular workplace role, including work area, equipment, systems, and documentation
- review of current work area directly relating to own work, to assess measurement of resources used, hazards and compliance
- individual or team discussion about potential for increased resource efficiency within current work area
- access to workplace documents, information and resources (such as compliance obligations, enterprise

| <b>EVIDENCE GUIDE</b>                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                            | plans, work responsibilities).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| <b>Method of assessment</b>                | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• observation of demonstrated techniques over time and in a range of situations</li> <li>• analysis of responses to case studies and scenarios</li> <li>• review of documentation measuring current resource usage</li> <li>• evaluation of techniques used to document and measure current usage of resources</li> <li>• review of identified and reported workplace environmental hazards</li> <li>• evidence of active participation in organisational plans to improve environmental practices and resource efficiency.</li> </ul> |
| <b>Guidance information for assessment</b> | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• BSBINN201A Contribute to workplace innovation</li> <li>• BSBSMB301A Investigate micro business opportunities</li> <li>• BSBWOR202A Organise and complete daily work activities.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

## Range Statement

| <b>RANGE STATEMENT</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                            |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |                                                                                                                            |
| <b><i>Environmental and resource</i></b>                                                                                                                                                                                                                                                                                                                                                                                                                                             | <ul style="list-style-type: none"> <li>• maximising opportunities to improve business environmental performance</li> </ul> |

| <b>RANGE STATEMENT</b>                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-----------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b><i>efficiency issues</i></b> may include:              | <ul style="list-style-type: none"> <li>• minimising environmental risks</li> <li>• promoting more efficient production and consumption of natural resources, for example minimising waste by participating in or using a waste management system</li> <li>• using resources efficiently such as material usage, energy usage (seeking alternative sources of energy or energy conservation) or efficient water usage</li> </ul>                                                                    |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                                     | PERFORMANCE CRITERIA                                                                                                                                                                                                                        |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Identify individual compliance requirements              | 1.1. Identify and document <b><i>statutory, legislative and regulatory requirements</i></b> relevant to job role, occupation or profession<br>1.2. Identify and document relevant <b><i>organisational and industry requirements</i></b>    |
| 2. Interpret individual compliance requirements             | 2.1. Map compliance requirements against individual position description and work practices<br>2.2. Discuss ethical considerations with relevant parties where appropriate                                                                  |
| 3. Ensure individual compliance                             | 3.1. Consult with <b><i>appropriate persons</i></b> to identify procedures to be applied, contingent on the situation<br>3.2. Reflect on personal actions in the context of compliance requirements<br>3.3. Record action taken if required |
| 4. Identify and adapt to changes in compliance requirements | 4.1. Access and analyse <b><i>documentation</i></b> relating to changes in compliance issues<br>4.2. Discuss documentation with appropriate persons to ensure ongoing compliance                                                            |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- written and oral communication to apply the relevant compliance framework
- research and documentation skills to research and summarise the compliance framework relevant to job role
- self-management skills to:
  - monitor and adapt to changes in compliance issues
  - handle contingencies

#### Required knowledge

- statutory, legislative and regulatory requirements relevant to job role, occupation or profession
- codes of practice relevant to job role, occupation or profession
- organisational policies and procedures relevant to workplace
- comprehensive knowledge of individual work requirements and practices as contained in position description and occupational standards
- interpretation of statutory requirements and codes of conduct in context of individual job role

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the ability to:

- apply knowledge of relevant statutory, legislative and regulatory requirements relating to work practices
- map requirements to work practices to demonstrate an application of compliance requirements
- apply work practices in accordance with a compliance framework
- handle contingencies.

| <b>EVIDENCE GUIDE</b>                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|---------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Context of and specific resources for assessment</b> | <p>Assessment must ensure access to:</p> <ul style="list-style-type: none"> <li>• legislation, regulations and codes of conduct relevant to job role, occupation or profession</li> <li>• information about relevant professional associations and codes of conduct</li> <li>• organisational policies and procedures relevant to job role, occupation or profession.</li> </ul>                                                                                                                                                                                                                                                                     |
| <b>Method of assessment</b>                             | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this units:</p> <ul style="list-style-type: none"> <li>• analysis of responses to case studies and scenarios</li> <li>• direct questioning combined with review of portfolios of evidence</li> <li>• oral or written questioning to assess knowledge of scope of own responsibilities and obligations to refer matters outside area of responsibility</li> <li>• evaluation of legal cases involving the application of the compliance framework relevant to the job role, occupation or profession.</li> </ul> |
| <b>Guidance information for assessment</b>              | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• BSBCMM402A Implement effective communication strategies.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                        |

## Range Statement

| <b>RANGE STATEMENT</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |                                                                                                                                                                                                                                                                                                    |
| <b><i>Statutory, legislative and regulatory requirements</i></b> may include:                                                                                                                                                                                                                                                                                                                                                                                                        | <ul style="list-style-type: none"> <li>• equal employment opportunity and anti-discrimination legislation</li> <li>• legislation specific to the industry or profession, e.g. Legal Professional Act 2007</li> <li>• occupational health and safety laws</li> <li>• privacy legislation</li> </ul> |

| RANGE STATEMENT                                              |                                                                                                                                                                                                                                                                                                                                                         |

| Release 2 | <p>New release of this unit released with <i>version 6 of BSB07 Business Services Training Package</i>.</p> <ul style="list-style-type: none"><li>Inclusion of 'environmental sustainability business practices and standards' in the Range Statement</li></ul> |

### Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to determine and analyse existing and required resources, their effective application and the accountability for their use.

### Application of the Unit

This unit applies to individuals with a broad knowledge of business resources who contribute well developed skills and knowledge to ensure adequate resources are available to perform the work of the organisation. They may have responsibility to provide guidance or to delegate aspects of these tasks to others.

### Licensing/Regulatory Information

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of endorsement.

### Pre-Requisites

Not applicable

### Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                 | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|-----------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Determine resource requirements      | <p>1.1. Determine <b>resource requirements</b> in accordance with business and operational plans, and <b>organisational requirements</b></p> <p>1.2. Provide opportunities to individuals and workgroups to contribute to the identification of resource requirements</p> <p>1.3. Ensure resource expenditure is realistic and makes efficient use of available budget resources</p> <p>1.4. Present recommendations on resource requirements in the required format, style and structure using relevant <b>business equipment and technology</b></p> |
| 2. Acquire and allocate resources       | <p>2.1. Acquire physical resources and services in accordance with organisational requirements</p> <p>2.2. Check resources to ensure quality and quantity, in line with service agreements</p> <p>2.3. Allocate resources promptly to enable achievement of workgroup objectives</p> <p>2.4. Ensure consultation with individuals and teams on allocation of resources is participative and is conducted using <b>appropriate interpersonal skills</b></p>                                                                                            |
| 3. Monitor and report on resource usage | <p>3.1. Measure effectiveness of resource planning, and assess against actual costs, identified shortfalls and surpluses</p> <p>3.2. Develop and implement methods of monitoring resource use to enable timely and accurate reporting against business and operational plans</p> <p>3.3. Identify improvements in resource planning through consultation and <b>feedback</b>, and implement in accordance with organisational requirements</p> <p>3.4. Maintain <b>records</b> concerning equipment and</p>                                           |

| ELEMENT | PERFORMANCE CRITERIA                                               |

|         | resource purchases, in accordance with organisational requirements |

## Required Skills and Knowledge

*This section describes the skills and knowledge required for this unit.*

### Required skills

- communication skills to request advice, to receive feedback and to work with a team
- literacy skills to draft complex reports and to display logical information on resource usage
- numeracy skills to interpret, compare and calculate resource usage costs
- planning skills to schedule and track resource use and availability.

### Required knowledge

- common equipment faults
- functions of a range of business equipment
- key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - environmental issues
  - occupational health and safety (OHS)
- organisational policies, plans and procedures
- record management processes and techniques related to maintenance schedules.

## Evidence Guide

*The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.*

|                                                                             |                                         |

| <b>Overview of assessment</b>                                               |                                         |
| <b>Critical aspects for assessment and evidence required to demonstrate</b> | Evidence of the following is essential: |

|                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|---------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>competency in this unit</b>                          | <ul style="list-style-type: none"> <li>• monitoring resource usage to determine resource needs</li> <li>• maintaining records of resource requirements</li> <li>• calculating costs and expenditures in relation to use and maintenance of business resources</li> <li>• knowledge of relevant legislation.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                        |
| <b>Context of and specific resources for assessment</b> | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to an actual workplace or simulated environment</li> <li>• access to office equipment and resources</li> <li>• examples of records relating to business resources.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| <b>Method of assessment</b>                             | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• review of recommendations on resource requirements</li> <li>• review of records concerning equipment and resource purchases</li> <li>• analysis of responses to case studies and scenarios</li> <li>• demonstration of techniques</li> <li>• oral or written questioning to assess knowledge of functions of a range of business equipment.</li> </ul> |
| <b>Guidance information for assessment</b>              | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• other general administration units.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

## Range Statement

*The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.*

|                                           |                                                                                                                           |
|-------------------------------------------|---------------------------------------------------------------------------------------------------------------------------|
| <b>Resource requirements</b> may include: | <ul style="list-style-type: none"> <li>• human resources</li> <li>• location/premises</li> <li>• OHS resources</li> </ul> |
|-------------------------------------------|---------------------------------------------------------------------------------------------------------------------------|

|                                                       |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| CHCCS400B Work within a relevant legal and ethical framework | CHCCS400C Work within a relevant legal and ethical framework | ISC upgrade changes to remove references to old OHS legislation and replace with references to new WHS legislation. Minor changes to range statement. No change to competency outcome. |

### Unit Descriptor

**Descriptor**

This unit describes the knowledge and skills required to work within a legal and ethical framework that supports duty of care requirements

### Application of the Unit

**Application**

This unit is to be assessed in relation to the specific legal and ethical context of the work role/s and requirements to which it applies

### Licensing/Regulatory Information

Not Applicable

### Pre-Requisites

Not Applicable

### Employability Skills Information

**Employability Skills**

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

|                                                                                          | 3.9 | Recognise, avoid and/or address any conflict of interest                                                                                                         |
| 4. Recognise and respond when client <i>rights</i> and interests are not being protected | 4.1 | Support the client and/or their advocate/s to identify and express their concerns                                                                                |
|                                                                                          | 4.2 | Refer client and/or their advocate/s to advocacy services if appropriate                                                                                         |
|                                                                                          | 4.3 | Follow identified policy and protocols when managing a complaint                                                                                                 |
|                                                                                          | 4.4 | Recognise witnessed signs consistent with financial, physical, emotional, sexual abuse and neglect of the client and report to an appropriate person as required |
|                                                                                          | 4.5 | Recognise and respond to cultural/linguistic religious diversity, for example providing interpreters where necessary                                             |

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

## REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

### *Essential knowledge:*

It is critical that the candidate demonstrate knowledge of:

- Distinction between ethical and legal problems
- Importance of ethics in practice
- Importance of principles and practices to enhance sustainability in the workplace, including environmental, economic, workforce and social sustainability
- Work health and safety (WHS) requirements
- Outline of common legal issues relevant to the workplace
- Overview of relevant legislation in the sector and jurisdictions
- Principles and practices for upholding the rights of the client
- Principles and practices of confidentiality
- Relevant standards and codes of practice in the sector
- Rights and responsibilities of clients
- Rights and responsibilities of workers
- Specific principles underpinning duty of care and associated legal requirements
- Strategies for addressing common ethical issues
- Strategies for contributing to the review and development of policies and protocols
- Strategies for managing complaints

The candidate must also be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role, such as knowledge of:

- Overview of the legal system
- Principles and practices for upholding the rights of the children and young people
- Principles of ethical decision-making
- Reporting mechanisms for suspected abuse of a client
- Strategies for managing abuse of a client
- Types of abuse experienced by client (including systems abuse)
- Types of law

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Demonstrate understanding of and adherence to own work role and responsibilities
- Follow organisation policies, protocols and procedures

## REQUIRED SKILLS AND KNOWLEDGE

- Work within legal and ethical frameworks

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Apply reading and writing skills required to fulfil work role in a safe manner and as specified by the organisation
- Apply oral communication skills required to fulfil work role in a safe manner and as specified by the organisation
- Apply problem solving skills that require negotiation to resolve problems of a difficult nature within organisation protocols
- Consult with a variety of stakeholders in order to achieve service objectives

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit will be most appropriately assessed in the workplace or in a simulated workplace and under the normal range of workplace conditions
- It is recommended that assessment or information for assessment will be conducted or gathered over a period of time and cover the normal range of workplace situations and settings

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment

## EVIDENCE GUIDE

- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities
- Context of and specific resources for assessment:*
- This unit can be assessed independently, however holistic assessment practice with other community services units of competency is encouraged
  - Resources required for assessment include access to:
    - An appropriate workplace and/or simulation of realistic workplace setting where assessment can take place
    - Relevant organisation policy, protocols and procedures
- Method of assessment may include:*
- Observation in the workplace
  - Written assignments/projects
  - Case study and scenario analysis
  - Questioning
  - Role play simulation

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

- Clients may include but is not*
- Children and families using children's services

**RANGE STATEMENT**

*limited to:*

- Children and young people
- Individuals living in government funded services and/or institutions to 'clients'
- Individuals living in residential aged care environments
- Individuals living in residential disability environments
- Individuals living in the community
- Job seekers
- People seeking advice and assistance
- Prospective individuals to the service or services

*Contexts of work role may include but is not limited to:*

- Work undertaken in:
  - client's own dwelling
  - independent living accommodation
  - residential aged care facilities
  - residential disability facilities
  - community centres
  - children's services centres
  - carer's home
- Work in the context of:
  - community, government or private agency or organisation
  - services delivered as a sole trader
  - providing telephone advice and assistance

*Identified policies, protocols and procedures refer to:*

- Guidelines and practices developed to address legal, ethical and regulatory requirements, including:
  - formal, documented guidelines of an organisation
  - informal practices used by a small organisation or individual owner/operator

*Key statutory and regulatory requirements may include those related to:*

- Aged care standards
- Building standards
- Care and education of young children
- Child protection and guardianship legislation
- Criminal acts
- Disability standards

## RANGE STATEMENT

- Discrimination and harassment
- Equal employment opportunities
- Freedom of information
- Health records legislation
- International and national standards
- Mental health legislation
- Pharmaceutical benefits
- Poisons and therapeutics
- Privacy legislation
- Public health
- Registration and practice of health professionals
- Residential and community services
- Restrictive practices
- WHS

*Report may be, and include:*

- Verbal:
  - telephone
  - face-to-face
- Non-verbal (written):
  - progress reports
  - case notes
  - incident reports

*Rights may include:*

- Access to services
- Confidentiality
- Dignity
- Freedom of association
- Informed choice
- Privacy
- Right to express ideas and opinions
- To an agreed standard of care
- To lodge a complaint

*Rights are detailed in:*

- Accreditation standards
- Industry and organisation codes of conduct, practice and ethics
- Industry and organisation service standards
- International and national charters

**RANGE STATEMENT**

- Legislation

*Principles of access and equity may include:*

- Creation of a client orientated culture
- Non-discriminatory approach to all individuals using or accessing the service
- Respect for individual differences

*Appropriate person may include:*

- Advocates/family members
- Colleagues
- External agencies (complaints and advocacy services, professional registering authorities, child protection authorities)
- Health professionals
- Law enforcement officers
- Legally appointed guardian
- Member of senior management

# SIRCDIS301 Accept prescriptions and return dispensed medicines to customers

## Modification History

The version details of this endorsed unit are in the table below. The latest information is at the top.

| Release       | Comments                                                                                                   |
|---------------|------------------------------------------------------------------------------------------------------------|
| First Release | This is an updated unit, based on and equivalent to SIRPDIS001A Accept prescriptions and deliver medicine. |

## Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to collect and verify customer's prescription-related information, lodge scripts for dispensing, and return dispensed prescription items to customers on behalf of the dispensing pharmacist.

## Application of the Unit

This unit applies to pharmacy assistants and dispensary assistants who work in community pharmacies.

A person undertaking this role is required to work under the direct supervision of a pharmacist.

## Licensing/Regulatory Information

All relevant federal, state or territory legislation, Pharmacy Board of Australia Guidelines, and established practice and quality assurance standards are to be met.

## Pre-Requisites

SIRCHCS201 Support the supply of Pharmacy Medicines and Pharmacist Only Medicines

## Employability Skills Information

This unit contains employability skills.

## Elements and Performance Criteria Pre-Content

### Elements and Performance Criteria

#### ELEMENT

#### PERFORMANCE CRITERIA

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide.

- |                                              |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## Required Skills and Knowledge

This section describes the skills and knowledge required for this unit.

### Required skills

- communication skills to:
  - ask questions to identify and confirm customer requirements
  - explain information contained on cautionary and advisory labels in a level of English suited to the customer's communication requirements
  - question to confirm that the customer understands the information provided
  - invite further questions from the customer
  - provide relevant information to the dispensing pharmacist and other staff members where required
  - seek direction from the dispensing pharmacist
  - use language and concepts appropriate to cultural differences
  - use and interpret non-verbal communication
- literacy skills to:
  - check prescription information
  - read cautionary and advisory medicine labels
  - record customer information
- planning and organising skills to:
  - plan and carry out work to meet dispensary workflow requirements
  - provide timely delivery of dispensed items to customers
- teamwork skills to operate as part of a dispensing team

### Required knowledge

- brand substitution information, including:
  - product costing policy reflecting brand price premiums and therapeutic premiums
  - the term 'bio-equivalent' products as defined by the Therapeutic Goods Administration (TGA)
- pharmacy procedures relating to:
  - accepting prescriptions
  - accessing and using pharmacy information systems required by the role
  - circumstances under which referral to a pharmacist or other pharmacy staff is required
  - collecting and supplying information to an agent acting on behalf of a customer
  - delivering dispensed prescriptions
  - maintaining the privacy and confidentiality of customer information
  - offering brand substitution
- Pharmaceutical Benefits Scheme (PBS) and Medicare Australia system, and supply rules

relating to:

- customer eligibility and access
- payments for general customers (without concessional cards) and concessional customers
- co-payments
- safety net entitlements
- supplying repeat prescriptions
- privacy principles as they relate to accepting prescriptions and delivering medicine

## Evidence Guide

The evidence guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

### Overview of assessment

#### **Critical aspects for assessment and evidence required to demonstrate competency in this unit**

Evidence of the ability to:

- accept and lodge prescriptions for dispensing
- identify different types of prescriptions and entitlements
- follow verification procedures when providing dispensed medicines to customers
- operate as part of a dispensing team and provide relevant information to a pharmacist and other pharmacy staff as required
- provide prescription information to customers in ways appropriate to customer needs and demonstrate appropriate techniques to confirm understanding
- recognise and act on situations requiring referral to a pharmacist or other pharmacy staff.

#### **Context of and specific resources for assessment**

Assessment must ensure that competency is:

- consistently demonstrated over a period of time and observed by the assessor or the technical expert working in partnership with the assessor as described in the assessment
- demonstrated in a real pharmacy workplace environment that meets Pharmacy Board of Australia and relevant industry standards for dispensary operations, which may include client interruptions and involvement in other related activities normally expected in the pharmacy.

Assessment must ensure access to:

- a range of customers with different prescription requirements and entitlements who are typical of the customer base

- dispensed medicines for return to customers
- relevant documentation, such as:
  - PBS information
  - pharmacy procedures
  - prescriptions.

**Method of assessment**

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- observation of the learner performing a range of tasks in an actual or simulated work environment, over sufficient time to demonstrate handling of a range of contingencies, which may include:
  - accepting prescriptions and delivering medicine to a range of customers
  - completing pharmacy documentation relevant to accepting prescriptions
  - returning dispensed medicines to customers
  - seeking direction from the dispensing pharmacist
- role plays to confirm communication skills that meet diverse customer requirements
- written or oral questions appropriate to the language and literacy level of the learner to test relevant underpinning knowledge
- review of portfolios of evidence and third-party workplace reports of on-the-job performance.

**Guidance information for assessment**

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.

## Range Statement

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Customer*** may include people:

- from a range of social, cultural and ethnic backgrounds and with varying mental and physical abilities
- visiting the pharmacy, contacting the pharmacy by phone, or in their own home
- with special needs, such as:

- the elderly
  - infants
  - who are:
    - drug or alcohol affected
    - emotionally unstable
    - mentally unstable
    - physically unwell.
- Customer's prescriptions*** may include:
- a limited approved range of scripts from providers, including:
    - dentists
    - doctors
    - nurse practitioners
    - optometrists
    - podiatrists
    - veterinary surgeons
  - National Health scripts
  - private scripts
  - repatriation scripts or Veteran Affairs scripts.
- Legality, validity and completeness*** may include:
- adequate written instructions on the dosage regimen
  - compliance with timing rules to fill repeat scripts
  - doctor's or prescribing practitioner's full name, current address, telephone number and date
  - name of medicine, quantity prescribed and clearly indicated dosage directions
  - currency of prescription
  - clear prescription with no indication of tampering or forgery
  - self-treatment instructions that meet legal and regulatory requirements.
- Customer details*** may include:
- full name and current address
  - date of birth where patient is elderly (over 70 years) or young (under 12 years)
  - entitlement number, if any, under the PBS
  - Medicare details
  - private health cover and receipt requirements
  - allergies or adverse reactions suffered in the past to medications
  - current use of other medications, including complementary medicines.
- Prescription discrepancies*** may include:
- incomplete or incorrect prescriber or customer details
  - out-of-date prescriptions
  - prescriptions marked 'cancelled' or in other ways that

|                                                |                                                                                                                                                                                                                                                                                                                                      |

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Prepare for visits to remote communities

- 1.1 Check weather forecast and prepare for possible adverse weather or environmental conditions
- 1.2 Check condition of relevant terrain and roads
- 1.3 Vehicle appropriateness and preparedness for the journey is ensured
- 1.4 Pack appropriate items to meet *personal needs* for the journey
- 1.5 Prepare equipment and resources required to complete tasks in remote areas
- 1.6 Obtain workplace and community approval for the visit
- 1.7 Negotiate accommodation with the community if required
- 1.8 Notify appropriate persons of travel details in line with organisation and community policy and procedures
- 1.9 Prepare communications equipment and identify correct policy and procedures for operation

#### 2. Travel safely to and from remote communities

- 2.1 Ensure travel is within guidelines provided in organisation policy and procedures
- 2.2 Follow appropriate safety procedures and policies for travel to and from remote communities

#### 3. Stay in a remote community for a short term visit

- 3.1 Follow cultural and community protocols when staying in remote communities
- 3.2 Employ appropriate strategies to avoid offence or

**ELEMENT****PERFORMANCE CRITERIA**

conflict in the community

3.3 Manage, complete and record priority tasks appropriately

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Cultural safety issues and local community protocols
- Features and use of appropriate communication devices
- Policies and procedures for remote location emergency situations
- Safety features in relation to terrain
- Safety features in relation to weather conditions
- Safety issues in relation to travelling in remote areas

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Prepare appropriately for visits to remote communities and to travel safely to remote communities
- Use problem solving skills, including the ability to use available resources in a remote setting and prioritise workload for remote travel
- Work with others and display understanding of issues relevant to particular communities

## REQUIRED SKILLS AND KNOWLEDGE

- Use language, literacy and numeracy skills to:
  - communicate in English and/or community language, depending on client group
  - communicate in English or a community language depending on the language used in pamphlets or workplace manuals
  - complete basic arithmetic calculations such as addition, subtraction, multiplication, division and recording numbers
  - read and interpret material appropriate for safe travel and/or vehicle use, with any literacy support available in the workplace
- Use oral communication skills, including:
  - asking questions
  - clarifying workplace instructions when necessary
  - listening to and understanding workplace instructions
  - providing clear information

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- This unit is most appropriately assessed in the workplace or in a simulated workplace to identify underpinning knowledge
- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of workplace situations

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing

## EVIDENCE GUIDE

Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people

- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Possible adverse weather or environmental conditions may include:*

- Flood
- Fire
- Heavy rain
- Extreme heat
- Snow

*Criteria for appropriate vehicle may include:*

- 4-wheel drive or 2-wheel drive
- Range
- Clearance
- Load capacity
- Age
- Service record
- Communication systems eg two-way radio

*Criteria for prepared vehicle may* • Fuel

**RANGE STATEMENT**

*include:*

- Oil
- Water
- Spares
- Tools
- Recovery equipment
- Periodic maintenance
- Maps
- GPS unit
- Winch

*Appropriate policies and procedures for travelling safely to remote communities may include:*

- Safe driving practice
  - adjusting driving to suit a range of conditions
  - avoiding fatigue
  - vehicle monitoring
  - dealing with punctures and other minor repairs as appropriate
  - following procedures for serious breakdowns

*Communication equipment may include:*

- 2 way radios
- Mobile phones

*Communication procedures and policy may include:*

- Maintaining regular contact with 'home-base' or other staff

*Personal needs may include:*

- Food
- Drink
- Clothing
- Tent
- Sleeping bag/ swag
- Cleaning
- First aid kit

## Unit Sector(s)

Not Applicable

## **HLTPOP404C Provide interventions to clients who are nicotine dependent**

### **Modification History**

Not Applicable

### **Unit Descriptor**

#### **Descriptor**

This unit provides knowledge and skills in the treatment and management of nicotine dependence, including (singly or in combination) behavioural and pharmacological interventions such as: brief advice and counselling; intensive support; and provision of advice on use of appropriate non-prescription and prescription pharmacotherapies

### **Application of the Unit**

#### **Application**

Skills and knowledge in this unit are provided to support implementation of common population based smoking cessation strategies such as participation in health promotion campaigns, including the preparation of campaign resources such as pamphlets and participation in health education and health screening activities

### **Licensing/Regulatory Information**

Not Applicable

### **Pre-Requisites**

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Assess needs of clients who are nicotine dependent

- 1.1 Elicit client's history particularly relevant to smoking, in accordance with organisation guidelines and ethical considerations
- 1.2 Assess nicotine dependence using a validated method
- 1.3 Determine smoking cessation treatment based on assessment of an individual's level of nicotine dependence, stage of change and client history
- 1.4 Professionally and accurately maintain client records
- 1.5 Maintain client confidentiality

2. Implement interventions

- 2.1 Match intervention to client's personal circumstances including relevant health issues, level of dependence and behavioural triggers
- 2.2 Conduct brief intervention with client according to client needs
- 2.3 Use motivational interviewing techniques to increase client's motivation to quit
- 2.4 Provide intensive counselling as per individual need
- 2.5 Refer clients to other health professional or

**ELEMENT****PERFORMANCE CRITERIA**

agency as appropriate

3. Assist clients in accessing *pharmacotherapies* for smoking cessation

3.1 Provide client with information about pharmacotherapies, their benefits and contraindications

3.2 Determine suitability of pharmacotherapies for client

3.3 Provide referral to a medical practitioner for pharmacotherapies as appropriate

3.4 Determine options for optimal combination of *smoking cessation therapies* with client if appropriate

4. Monitor client's progress

4.1 Arrange and conduct client follow up

4.2 Assess client's progress against goals set and interventions conducted and then provide feedback

4.3 Assess risk of relapse

4.4 Provide behavioural interventions and/or pharmacological advice

4.5 Refer clients to other health professional or agency as appropriate

5. Ensure high standards of professionalism and continuing professional development

5.1 Demonstrate professional standard of conduct at all times

5.2 Maintain knowledge of evidence base relating to smoking cessation therapies

5.3 Undertake qualitative and quantitative assessment of work

5.4 Appraise developments in smoking cessation practices and apply to improve own practice

5.5 Maintain ongoing personal professional development and training in smoking cessation

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Brief intervention techniques
- Contraindications associated with use of NRT, including recent cardiac events, unstable angina and pregnancy
- Evidence based key strategies for smoking cessation including the World Health Organisation: *Evidence-based Recommendations on the Treatment of Tobacco Dependence* and the Australian National Drug Strategy 'Smoking cessation interventions Review of evidence and implications for best practice in healthcare settings'.
- Evidence-based aspects of dosage and duration of use of nicotine replacement therapies (NRT)
- Intensive counselling techniques suitable for smoking cessation interventions
- Interaction of nicotine with various medications
- Interaction of NRT with medications and other drugs, e.g. caffeine, alcohol, insulin
- Internationally accepted definitions of nicotine dependence including the DSM-IV (*Diagnostic and Statistical Manual of Mental Disorders* 4th Ed) and the WHO International Classification of Disease (ICD-10)
- Motivational interviewing techniques
- Physiological links between mental illness and nicotine dependence
- Process of neuro-adaptation to nicotine
- Processes of titration of nicotine dose and smoker compensation practices
- Use of non prescription (such as NRT) and prescription-only (such as slow-release bupropion) pharmacotherapies

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Access and locate existing state/national/international print and electronic primary

## REQUIRED SKILLS AND KNOWLEDGE

sources of evidence relating to assessment and treatment of nicotine dependence

- Apply active listening including questioning
- Apply negotiation skills
- Apply problem solving skills
- Assess the needs of clients who are nicotine dependent
- Demonstrate effective communication and interpersonal skills
- Establish rapport
- Implement a range of smoking cessation interventions
- Provide information on smoking and smoking cessation to the client
- Provide referral to appropriate services
- Undertake networking and liaison with other services and service providers
- Work with a range of clients

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people

## EVIDENCE GUIDE

- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

### *Context of and specific resources for assessment:*

- This unit may be assessed on the job or through simulation
- Consistency in performance should consider the work environment, worker's role and responsibilities in the workplace
- Access is required to equipment and resources normally used in the workplace

### *Method of assessment:*

Assessment may include:

- Observation
- Interview and questioning
- Simulation
- Workplace documentation of practice
- Portfolio
- Testimonial

### *Related units:*

This unit should be assessed after or in conjunction with related unit:

- HLTPOP403C Provide information on smoking and smoking cessation

It is also recommended that this unit be undertaken in conjunction with:

- HLTPOP402C Assess readiness for and effect behaviour change

This unit may also be assessed in conjunction with:

- CHCCS403B Provide brief intervention
- CHCGROUP403D Plan and conduct group activities
- CHCTC302A Provide client-centred telephone counselling

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Historical, social, political and economic context includes:*

- The statutory framework within which work takes place in the health and community sector
- The historical context of work e.g. changing knowledge about best practice in treating nicotine dependence; changing approaches to working with clients; changing social context of work e.g. changing government and societal views of tobacco use and approaches to working with clients
- The political context e.g. government policies and initiatives affecting treatment for nicotine dependence
- The economic context e.g. the current economic situation as it relates to and affects tobacco use and the subsequent impact on client needs

*Client history relevant to smoking includes:*

- State of health
- Behavioural factors
- Level of nicotine dependence

*Smoking cessation interventions may include:*

- Brief interventions:
- The 'Five A's':
  - *Ask* (about smoking)
  - *Advise* (all smokers to quit)
  - *Assess* (level of dependence and readiness to quit)
  - *Assist* (provide advice and support)
  - *Arrange* (follow up)
- Motivational interviewing techniques
- Exploring 'readiness to quit' using the

## RANGE STATEMENT

trans-theoretical model of behaviour change:

- those not ready to quit
- those thinking about quitting
- those ready to quit
- those who have already quit
- those who have relapsed
- Intensive counselling
- May include phone or face to face interventions
- May be individual or group interventions

*Pharmacotherapy includes:*

- Nicotine replacement therapies (non-prescription)
- Bupropion slow-release, 'Zyban' (prescription only)

*A commitment to access and equity must be demonstrated by:*

- A non-discriminatory approach to all people using the service, their family and friends, the general public and co-workers ensuring the work undertaken takes account of and caters for differences including: cultural, physical, religious, economic, social, etc.

*Validated methods for assessing nicotine dependence include:*

- Fagerstrom test for nicotine dependence
- TTFC + CPD (time to first cigarette plus cigarettes per day)
- CO monitor

*Social, political and economic context of tobacco smoking may include reference to:*

- Aboriginal and Torres Strait Islander Complementary Action Plan 2003-2009

## Unit Sector(s)

Not Applicable

# **HLTPOP403C Provide information on smoking and smoking cessation**

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Work undertaken demonstrates an understanding of the context of tobacco use in society

- 1.1 In all work, reflect an understanding of the prevalence of; and gender, age and cultural distribution of smoking in the Australian population
- 1.2 Reflect in work practices, knowledge of cultural and gender factors associated with tobacco use in Australia, including variations in smoking methods and prevalence between culturally and linguistically diverse (CALD) communities and particular demographic groups
- 1.3 In all work, reflect an understanding of the *social, political and economic context* of tobacco use in Australian society
- 1.4 In all work, reflect an understanding of the range of diseases and the health and economic burden attributable to tobacco
- 1.5 Reflect work undertaken, an understanding of the particular problems associated with smoking among special groups including: pregnant and lactating women; adolescents; Aboriginal and Torres Strait Islander people; people with smoking related diseases; people with a mental illness

2. Provide information on smoking and its effects

- 2.1 Reflect in work undertaken, knowledge of the physiology of nicotine dependence including interactions

**ELEMENT****PERFORMANCE CRITERIA**

with various medications

2.2 Reflect in work undertaken, knowledge of behavioural and pharmacological determinants of smoking behaviour

2.3 Provide relevant information relating to smoking and its effects

2.4 Provide and promote health benefits of quitting smoking for the individual

3. Provide information on smoking cessation treatments and their outcomes

3.1 Identify and promote national and international best practice strategies for smoking cessation

3.2 Take into account needs of special populations, such as adolescents and people with mental illnesses in promoting smoking cessation programs

3.3 Provide clients with self-help materials, such as pamphlets and fact sheets

3.4 Provide referral to telephone counselling services as required

4. Screen clients for smoking

4.1 Assess *nicotine dependence* using a validated method

4.2 Record client results using a suitable system

4.3 Maintain client records professionally and accurately

4.4 Maintain client confidentiality

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge and their level required for this unit.

## REQUIRED SKILLS AND KNOWLEDGE

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Barriers to quitting smoking
- Basic human anatomy and physiology, particularly the brain, the lungs and the circulatory system
- Basic pharmacology relevant to work being undertaken
- Broad characteristics of the chemical constituents in tobacco smoke, (i.e. carcinogens, mutagens and toxins)
- Common behavioural triggers associated with smoking
- Common symptoms of nicotine withdrawal and their relationship to physical recovery
- Evidence based key strategies for smoking cessation including the World Health Organisation: *Evidence-based Recommendations on the Treatment of Tobacco Dependence* and the Australian National Drug Strategy: 'Smoking cessation interventions Review of evidence and implications for best practice in healthcare settings'
- Interaction of nicotine with various medications
- Internationally accepted definitions of nicotine dependence including the DSM-IV (*Diagnostic and Statistical Manual of Mental Disorders* 4th Ed) and the WHO International Classification of Disease (ICD-10)
- Knowledge of context of tobacco use in society
- Physiological links between mental illness and nicotine dependence
- Process of neuro-adaptation to nicotine
- Processes of titration of nicotine dose and smoker compensation practices
- Short and long-term known health effects of active and passive smoking

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply effective communication and interpersonal skills
- Apply in depth knowledge of smoking and its effects and its impact on individuals and the community
- Conduct screening for smoking
- Locate existing state/national/international print and electronic primary sources of evidence relating to assessment and treatment of nicotine dependence

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit may be assessed on the job or through simulation
- Consistency in performance should consider the work environment, worker's role and responsibilities in the workplace

*Method of assessment:*

Assessment may include:

- Written assignment
- Observation

## EVIDENCE GUIDE

- Interview and questioning
- Workplace documentation of practice

### *Related units:*

This unit is a pre-requisite for:

- HLTPOP404C Provide interventions to clients who are nicotine dependent

Taking this unit alone does not qualify one to provide smoking cessation interventions

It is also recommended that this unit be undertaken with:

- HLTPOP402C Assess readiness for and effect behaviour change

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *Historical, social, political and economic context includes:*

- The statutory framework within which work takes place in the health and community sector
- The historical context of work e.g. changing knowledge about best practice in treating nicotine dependence; changing approaches to working with clients; changing social context of work e.g. changing government and societal views of tobacco use and approaches to working with clients
- The political context e.g. government policies and initiatives affecting treatment for nicotine dependence
- The economic context e.g. the current economic

## RANGE STATEMENT

situation as it relates to and affects tobacco use and the subsequent impact on client needs

*Special groups include:*

- Pregnant and lactating women
- Adolescents
- Aboriginal and Torres Strait Islander people
- People with smoking related diseases
- People with a mental illness

*Population based smoking cessation strategies include:*

- Health promotion campaigns
- Health screening activities
- Health education for groups
- Development and dissemination of resources such as pamphlets
- Working with businesses to promote smoking cessation among staff
- Working with individuals
- Health system

*The underpinning values and philosophies of the sector may include:*

- A holistic and client-centred approach i.e. promotion of health and wellbeing
- Early identification of health problems
- Delivery of appropriate services based on evidence for best practice
- Commitment to meeting the needs and upholding the rights of clients
- Commitment to empowering the client

*A commitment to access and equity must be demonstrated by:*

- A non-discriminatory approach to all people using the service, their family and friends, the general public and co-workers ensuring the work undertaken takes account of and caters for differences including: cultural, physical, religious, economic, social etc

*Validated methods for assessing nicotine dependence include:*

- Fagerstrom test for nicotine dependence
- TTFC + CPD (time to first cigarette plus cigarettes per day)

**RANGE STATEMENT**

*Suitable systems for recording client results include using:*

- Chart stickers
- Smoking as vital sign
- Computer prompts

*Social, political and economic context of tobacco smoking may include reference to:*

- Aboriginal and Torres Strait Islander Complementary Action Plan 2003-2009

**Unit Sector(s)**

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Adult education principles
- Equity issues in population health
- Evidence-based practice
- National, State and local health policies, goals, targets and priorities
- Overview of the stages in population health project planning
- Quality assurance
- Relevant international charters/declarations and documents (e.g. Alma Ata, Ottawa Charter, Jakarta Declaration, The Solid Facts by WHO)
- Social change and advocacy processes
- Social determinants of health
- The relationship between attitudes, knowledge and lifestyle factors and behaviour

## REQUIRED SKILLS AND KNOWLEDGE

- The relationship between individual behaviour and health outcomes
- Theory and practice of population health including health promotion, health protection and prevention of communicable and non communicable diseases

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply effective communication and interpersonal skills including:
  - high level written or verbal
  - negotiation and liaison
  - consultation
  - conflict resolution and mediation
- Apply analytical thinking, problem solving and critical appraisal
- Determine the impact of knowledge, values and environmental / cultural and lifestyle factors on behaviour
- Facilitate and contribute effectively to meetings, forums and other networks
- Identify individual behaviours that impact on health outcome
- Undertake work planning and management
- Work as part of a multi-disciplinary team and/or autonomously

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consideration should be given to assessing consistency of performance over a period of time

## EVIDENCE GUIDE

- Access and equity considerations:*
- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
  - All workers should develop their ability to work in a culturally diverse environment
  - In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
  - Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities
- Context of and specific resources for assessment:*
- This unit is most appropriately assessed in the classroom environment
  - Assessment may contain a theoretical emphasis.
  - Access to:
    - a range of government and non government policy documents and reports and statistics
    - journals, books and external expertise
    - documents and other materials (charters, declarations, discussion papers, etc.) from international conferences on population health
    - organisation policies and procedures
- Method of assessment may include:*
- Observation of performance
  - Written tasks
  - Interviewing and questioning
  - Formal appraisal systems
  - Staff client feedback
  - Portfolio/CV
  - Supporting statement of supervisors
  - Evidence of relevant work experience/formal or informal learning
  - Case studies and scenarios as a basis for the discussion of issues in facilitating learning and individual behaviour change

## EVIDENCE GUIDE

### Range Statement

#### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Individual behaviours that influence health outcome may include:*

- Diet
- Physical activity
- Alcohol consumption
- Drug intake
- Stress mediating activities
- Smoking

*Selected behaviour change models may include but are not restricted to:*

- Health belief model
- Behaviour change models
- Motivational change models
- Social cognitive model
- Theory of planned behaviour

*Sources of information for the relationship between individual behaviour and health outcome may include:*

- Literature from population health and related disciplines such as published books, papers and reports
- Demographic data and information
- Socio-economic data and information
- Data and information from health research and health studies
- Expert informants
- National, state and local health policy documents and implementation guidelines

## RANGE STATEMENT

|                                                                              |                                                                                                                                                                                                                                                                                                                                                                     |

## Unit Sector(s)

Not Applicable

# HLTHIR403C Work effectively with culturally diverse clients and co-workers

## Modification History

Not Applicable

## Unit Descriptor

### Descriptor

This unit deals with the cultural awareness required for effective communication and cooperation with persons of diverse cultures

## Application of the Unit

### Application

Work will be within a prescribed range of functions involving known routines and procedures with some accountability for the quality of outcomes

The workplace context may be:

- Specific community
- Community or regional service
- Department of a large institution or organisation
- Specialised service or organisation

Application of this unit should be contextualised to reflect any requirements, issues and practices specific to each workplace

## Licensing/Regulatory Information

**ELEMENT****PERFORMANCE CRITERIA**

confidence

3.3 Where language barriers exist, make efforts to communicate in the most effective way possible

3.4 Seek assistance from interpreters or other persons as required

4. Resolve cross-cultural misunderstandings

4.1 Identify issues that may cause conflict

4.2 If difficulties or misunderstandings occur, consider the impact of cultural differences

4.3 Make an effort to sensitively resolve differences, taking account of cultural considerations

4.4 Address any difficulties with appropriate people and seek assistance when required

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Availability of resources and assistance within and external to the organisation in relation to cultural diversity issues
- Own cultural conceptions and pre-conceptions and perspective of diverse cultures
- Recognition of cultural diversity in Australian society with many individuals living in many cultures
- Recognition of cultural influences and changing cultural practices in Australia and its impact on diverse communities that make up Australian society
- Recognition of culture as a dynamic social phenomenon

## REQUIRED SKILLS AND KNOWLEDGE

- Recognition of culture as a range of social practices and beliefs evolving over time
- Recognition of impact of cultural practices and experiences on personal behaviour, interpersonal relationships, perception and social expectations of others
- Recognition of the unique way individuals may experience a culture and respond to past experiences
- Recognition that the word 'normal' is a value-laden, excluding concept that often precludes acknowledgment of the diversity of people, their life experiences and situations
- The principles of equal employment opportunity, sex, race, disability, anti-discrimination and similar legislation and the implications for work and social practices
- The role and use of language and cultural interpreters

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply culturally respectful practices in the workplace and to demonstrate respect and inclusiveness of culturally diverse people in all work practices
- Form effective workplace relationships with co-workers and colleagues of diverse backgrounds and cultures
- Participate in identifying and implementing culturally safe work practices
- Respond respectfully and sensitively to cultural beliefs and practices that may cause harm
- Sensitively and respectfully communicate with persons of diverse backgrounds and cultures
- Use basic conflict resolution and negotiation skills
- Use effective strategies to address and eliminate discrimination and bias in the workplace

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

## EVIDENCE GUIDE

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit is most appropriately assessed in the workplace or a simulated workplace environment under the normal range of work conditions
- Assessment should be conducted on more than one occasion to cover a variety of circumstances to establish consistency
- Holistic assessment of this competency unit is encouraged, to ensure application of these skills in conjunction with specific work functions but the unit may be delivered and assessed independently

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work

**RANGE STATEMENT**

situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

- Work practices may relate to:*
- Dealing with persons of diverse gender, sexuality and age
  - Compliance with duty of care policies of the organisation
  - Collection and provision of information
  - Communication
  - Provision of assistance
  - Contact with families and carers
  - Physical contact
  - Care of deceased persons
  - Handling personal belongings
  - Provision of food services

*Work practices that are culturally appropriate would be non-discriminatory and free of bias, stereotyping, racism and prejudice.*

- Cultural diversity may include:*
- Ethnicity
  - Race
  - Language
  - Cultural norms and values
  - Religion
  - Beliefs and customs
  - Kinship and family structure and relationships
  - Personal history and experience, which may have been traumatic
  - Gender and gender relationships
  - Age
  - Disability
  - Sexuality
  - Special needs

- Communication may be:*
- Verbal
  - Appropriate gestures and facial and physical expressions

**RANGE STATEMENT**

- Posture
- Written
- Signage
- Through an interpreter or other person

*Strategies to eliminate bias and discrimination may include:*

- Cross cultural work teams
- Cross cultural employee representation on committees
- Workplace free of culturally insensitive literature, posters, signage
- Inclusion in decision-making

### Pre-Requisites

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

#### 1. Prepare for transport

- 1.1 Confirm transport with relevant personnel
- 1.2 Explain procedure to client or relevant personnel and answer any questions as required
- 1.3 Prepare for the safe and timely transportation of the client
- 1.4 Select equipment and check to ensure that it is clean, complete and correctly functioning for transportation according to *transportation requirements*
- 1.5 Check any *other equipment* to ensure that it is attached correctly and safely to *transportation equipment*

#### 2. Transport client

- 2.1 Transport client to designated location in accordance with *transportation requirements* and organisation policy
- 2.2 Manoeuvre equipment to ensure client comfort and safety and minimise risk to self

#### 3. Deliver client

- 3.1 Deliver client to designated location and inform relevant personnel of client's arrival as required
- 3.2 Inform relevant personnel of *client's needs* as required

**ELEMENT****PERFORMANCE CRITERIA**

- 3.3 Return equipment as required
- 3.4 Carry out reporting requirements as appropriate

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Client confidentiality and privacy requirements
- Client handling procedures
- Infection control procedures
- Procedures for securing a client
- When client issues need to be referred to an appropriate health professional

#### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Follow instructions in accordance with organisation procedures
- Transport and deliver client to correct destination according to safe working practices
- Communicate effectively with clients

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply safe working practices, including manual handling techniques
- Interpret and follow the instructions and guidance of health professionals involve with

## REQUIRED SKILLS AND KNOWLEDGE

the care of clients

- Solve problems including the ability to use available resources and prioritise workload
- Use numeracy skills ranging from the ability to complete basic arithmetic calculations such as addition, subtraction, multiplication, division to recording numbers
- Use oral communication skills required to fulfil job roles in a safe manner and as specified by the organisation, including skills in:
  - asking questions
  - providing clear information
  - listening to and understanding workplace instructions
  - clarifying workplace instructions when necessary
  - competence in English or a community language, depending on client group and organisation requirements
- Use reading and writing skills required to fulfil job roles in a safe manner and as specified by the organisation
  - the level of skill may range from the ability to understand symbols used in WHS signs, to reading workplace safety pamphlets or procedure manuals, to reading labels and manufacturers' specifications for equipment use
  - literacy support available in the workplace may range from having access to support or assistance from expert/mentor/supervisor, to having no communication supports available
  - literacy may be required in English or a community language
- Work with others and display empathy with client and relatives

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to

## EVIDENCE GUIDE

equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

*Context of and specific resources for assessment:*

- Access to equipment used for transporting clients
- Relevant policies and procedures manuals
- Organisation charts
- Instructions for the use of equipment

*Method of assessment:*

- Observation of work activities in transporting clients
- Observation of simulation and/or role play involving transporting clients
- Discussion of physical and/or behavioural contingency scenarios involving duty of care
- Authenticated transcripts of relevant education/training courses
- Recognition of relevant life/work experience
- Written assignments/projects or questioning should be used to assess knowledge
- Authenticated reports of experience in transporting clients (Documentation associated with performance reviews, client feedback forms, supervisor/co-ordinator evaluations of work performance)
- Training records associated with OH Safety training, Orientation/Induction Training, Safe Manual Handling
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular

## EVIDENCE GUIDE

relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Related unit:*

This unit can be assessed independently, however it may be assessed wholly or partly with:

- HLTCSD305D Assist with client movement

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Transportation requirements may include:*

- Mode of transport
- Destination
- Information specific to the client
- Transportation of deceased persons
- Accompaniment by health professionals eg nurse or medical officer
- Client clothing requirements
- Documentation requirements

*Transportation equipment may include but is not limited to:*

- Wheelchair
- Stretcher
- Trolley
- Bed
- Motor vehicle

**RANGE STATEMENT**

*Other equipment may include but is not limited to:*

- IV stand
- Monitors
- Humidicrib
- Oxygen

*Client needs may include:*

- Appropriate escort eg registered nurse, medical officer, parent, carer, attendant
- Nutritional requirements
- Comfort requirements

Assess a client's need for intervention and the type of brief intervention required          | 2.1 Assess client's need for intervention<br>2.2 Elicit issue/s of concern and determine client's stage in his/her decision to change<br>2.3 Identify <i>resources required to support the brief intervention</i><br>2.4 Identify and plan appropriate brief intervention strategies to match client need                                                                                                |
| 3. Practise and use <i>brief intervention strategies</i> which match a client's stage of change | 3.1 Raise awareness of the health issue with a client who is not contemplating change<br>3.2 Conduct brief motivational interview with a client who is contemplating change<br>3.3 Support client who expresses motivation to change in exploring choices, setting goals and identifying relapse prevention strategies<br>3.4 Take opportunities to support and encourage a client who has made a change |

**ELEMENT****PERFORMANCE CRITERIA**

- 3.5 For a client who has lapsed or relapsed into prior behaviour, identify current needs and sources of assistance, and give support as appropriate
4. Monitor brief intervention activities
- 4.1 Keep notes are kept in the client's file in accordance with *organisation policies and procedures*
- 4.2 Ensure client's file notes include the client's stage of decision-making on each occasion
- 4.3 Maintain confidentiality and security of information
- 4.4 Regularly review client's progress or outcomes
- 4.5 Discuss outcomes with the client in an appropriate manner
- 4.6 Discuss the use of brief intervention as a public health strategy with others in the organisation within the context of service evaluation procedures

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Brief intervention scope and process
- The wider physical, social, community and cultural environment within which the client lives
- Knowledge of facts and approaches relating to nutrition, environmental health, use of alcohol, tobacco and other drugs as relevant to the client and worker context
- Options to support behaviour change

## REQUIRED SKILLS AND KNOWLEDGE

- Referral resources
- Importance of confidentiality and privacy
- Organisation policies and procedures for record-keeping and security
- Workplace code of conduct or code of practice
- Work health and safety (WHS) guidelines

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Consistently complete course tasks and materials, workshop notes, diagrams and/or lists
- Orally present accurate information about brief intervention
- Undertake practical demonstration and/or role play  
In the case of workplace delivery, elements of brief intervention could be practised sequentially  
For example, starting by assessing intention to change in several clients, then doing more harm reduction for pre-contemplators, and so on to build up confidence and competence
- Complete log book of cases, including self assessment
- Complete client file notes and records

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate interpersonal communication, including ability to listen, observe, speak and behave in a respectful and sensitive manner
  - it is necessary for the worker's manner to be non-judgemental and non-confrontational
  - this ability is crucial as the health information shared may be confronting to the client
  - language used may be English or a community language depending on the client and worker
- Undertake screening and assessment of client needs
- Clearly present health information in one-to-one situation
- Demonstrate facilitation and negotiation to the level required to assist client decision-making
- Apply literacy competence required to satisfy record-keeping and referral requirements
- Maintain documentation as required, including effective use of relevant information technology in line with WHS guidelines

# Evidence Guide

## EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment and evidence required to demonstrate this unit of competency:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- It is recommended this unit be assessed after, or in conjunction, with the attainment of competency in other communication unit(s) within qualifications
- Competency must be demonstrated in a real work environment
- Competence in this unit must be assessed over a period of time in order to ensure consistency of performance across contexts applicable to the work environment
- Consistency in performance should consider the work environment, worker's role and responsibilities in the workplace

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- This unit of competency is designed to stand alone
- It is designed to be offered to workers of broad ranging professional background, engaged in a variety of settings and may be, but is not required to

## EVIDENCE GUIDE

be assessed in conjunction with other units

- Assessment may take place during a training workshop or in the workplace, depending on the mode of delivery

### *Method of assessment:*

Assessment should include a combination of methods such as:

- Observation and listening
- Individual/group discussion
- Discussion of participants' self-assessment and evaluation
- Assessment of written exercises, displays and presentations

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

### *Workers may be engaged in a working environment in which they:*

- Seize opportunities to do brief interventions with clients as they arise
- Work with a client on a one-to-one basis and have limited opportunity for supervision of the brief intervention process
- Are communicating in a language other than their first language
- Are required to make clients' file notes and fulfil administrative requirements in a language other than their first language
- Must comply with cultural obligations which influence their use of brief intervention with particular clients

## RANGE STATEMENT

*Features of brief interventions include:*

- One-to-one approach, private
- Takes short period of time
- May be done by a health team member
- Client led process
- Opportunistic
- To raise awareness
- To share knowledge
- To help client to think about making changes to improve health

*Reasons for using brief interventions may include:*

- Harm reduction
- Facilitating behaviour change
- Any behaviour which affects health, such as
- Diet and exercise
- Personal hygiene
- Smoking
- Excessive drinking of alcohol
- Use of other drugs such as cannabis, kava or illicit drugs

*Resources required to support the brief intervention may include:*

- Displays
- Electronic media
- Brochures or pamphlets
- Books and other publications, see reference list
- Other health workers
- Community health stories

*Brief intervention strategies may include:*

- Applying a range of assessment tools to determine the brief intervention needed
- Raising awareness of link between behaviour and personal health/social well being
- Raising awareness of link between personal behaviour and the affect on family and community
- Sharing relevant information about health
- Exploring the client's expressed concerns
- Motivational interviewing techniques
- To help the client to weigh up the good/not so good

## RANGE STATEMENT

things about the health issue or behaviour

- To help the client express his or her reasons for concern and the arguments for change
- Highlighting the benefits of changing
- Setting personal goals and exploring personal change strategies
- Identifying a hierarchy of personal change strategies
- Identifying strategies for lapse/relapse prevention
- Assessing potential harmful outcomes, such as withdrawal
- Giving the client resources, such as written information, appropriate to the stage of change
- Giving positive feedback and encouragement
- Offering time and support

*Organisation policies and procedures include those relating to:*

- Record-keeping and filing
- Security
- Confidentiality
- Workplace code of conduct or code of practice
- Broader legislative requirements

*Monitoring and feedback may be:*

- Verbal
- Written
- Pictorial
- Audio visual
- Electronic, e.g. computer files

|-------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Develop knowledge of the alcohol and other drugs work                                  | 1.1 Demonstrate and apply knowledge of the current issues which impact on the work area/organisation and different <i>models of work</i>                                                                                                             |
|                                                                                           | 1.2 In collecting information about the work role and the organisation's role, seek the views of key <i>stakeholders and representatives</i> from relevant target groups and use these views in accordance with organisation policies and procedures |
| 2. Demonstrate commitment to the central philosophies of the alcohol and other drugs work | 2.1 Demonstrate consideration and understanding of the <i>essential values and philosophies of the sector</i> in all work undertaken                                                                                                                 |
|                                                                                           | 2.2 Demonstrate a <i>commitment to access and equity</i> principles in work undertaken                                                                                                                                                               |
|                                                                                           | 2.3 Identify personal values and attitudes regarding alcohol and other drugs use and take these values and attitudes into account when implementing work activities                                                                                  |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do

## REQUIRED SKILLS AND KNOWLEDGE

the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include knowledge of:

- Harm minimisation approach to work and a range of activities which support this
- Holistic and client-centred care
- Client needs and rights including duty of care
- Principles of access and equity
- Current issues facing clients
- Awareness of own biases and beliefs
- Limitations of work role and responsibilities

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Apply a non-judgemental approach to alcohol and other drug use
- Work within the defined work role and responsibilities

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

These include the ability to:

- Demonstrate interpersonal communication with clients and other stakeholders
- Work as part of a team or as a sole worker

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

*Critical aspects for assessment* • The individual being assessed must provide evidence

## EVIDENCE GUIDE

*and evidence required to demonstrate this unit of competency:*

- of specified essential knowledge as well as skills
- This unit must be assessed with all other specialisation units chosen as part of a package at a particular AQF level
- This unit may be assessed on the job or through simulation
- Assessment will primarily be by observation and questioning and evidence sought from the workplace environment
- Evidence may be gathered over one assessment period with a single target group

*Access and equity considerations:*

- All workers in community services should be aware of access, equity and human rights issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on Aboriginal and/or Torres Strait Islander clients and communities

*Context of and specific resources for assessment:*

- Resources required for assessment include access to appropriate workplace where assessment can take place

*Method of assessment:*

- In cases where the learner does not have the opportunity to cover all relevant aspects in the work environment, the remainder should be assessed through realistic simulations, projects, previous relevant experience or oral questioning on 'What if?' scenarios
- Assessment of this unit of competence will usually include observation of processes and procedures, oral and/or written questioning on Essential knowledge and skills and consideration of required attitudes
- Where performance is not directly observed and/or is

## EVIDENCE GUIDE

required to be demonstrated over a 'period of time' and/or in a 'number of locations', any evidence should be authenticated by colleagues, supervisors, clients or other appropriate persons

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

*Stakeholders and representatives may include:*

- Clients
- Friends, peers and target group
- Families and care givers
- Local community
- Community organisations
- Government representatives and service providers
- Specialists/experts
- Peak bodies and networks
- Services
- Management, colleagues, supervisor, team members

*Different models of work may include:*

- Community development and education
- Case management
- Working with families

*The essential values and philosophies of the sector may include:*

- A holistic and client-centred approach - i.e. promotion of health and well being; early identification of health problems; delivery of appropriate services; commitment to meeting the

**RANGE STATEMENT**

needs and upholding the rights of clients;  
commitment to empowering the client

- A focus on harm minimisation including harm prevention; harm reduction; and harm management

*A commitment to access and equity must be demonstrated by:*

- A non-discriminatory approach to all people using the service, their family and friends, the general public and co-workers

**Unit Sector(s)**

| ELEMENT                       | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                       |
|-------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 3. Follow security procedures | <p>3.1. Store and appropriately secure patient records and other confidential documentation</p> <p>3.2. Clearly label and store securely according to organisational policies and procedures, all documents required by legislation to be stored for certain periods</p> <p>3.3. Ensure drugs, equipment and other materials requiring secure storage and potentially posing an OHS threat to others, are stored securely at all times</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to clarify requirements and to resolve difficult issues with patients, their families and others
- planning and organising skills to access and secure records.

#### Required knowledge

- occupational health and safety (OHS) for example:
  - safe handling of specific dangerous goods (as relevant for enterprise)
  - manual handling
- relevant legislation from all levels of government that affects business operations, codes of practice and national standards, such as:
  - anti-discrimination legislation
  - ethical principles
  - privacy laws
  - Freedom of Information Act
- enterprise policies and procedures for confidentiality, privacy and security.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment

| <b>EVIDENCE GUIDE</b>                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| <b>Method of assessment</b>                                                                         | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>review of record keeping</li> <li>analysis of responses to case studies and scenarios</li> <li>demonstration of techniques</li> <li>observation of presentations</li> <li>oral or written questioning to assess knowledge of relevant legislation and impact on own work routine</li> <li>observation of performance in role plays</li> <li>assessment of labelling and storage of patient records and other confidential documentation.</li> </ul> |
| <b>Guidance information for assessment</b>                                                          | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

## EVIDENCE GUIDE

- BSBMED303B Maintain patient records

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

***Relevant personnel*** may include:

- health practitioners
- other specialised staff
- partners in the business
- supervisor/manager

***What is and what is not disclosable*** will be:

- determined by the Privacy Act, the Freedom of Information Act, organisational policies and procedures, and guidelines in the practice manual which may include:
  - details of patients' conditions
  - financial information
  - names and addresses of patients
  - passwords
  - security arrangements

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                                                       | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|---------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Start computer, system information and features            | 1.1. Adjust workspace, furniture and equipment to suit user <b><i>ergonomic requirements</i></b><br>1.2. Ensure <b><i>work organisation</i></b> meets organisational and <b><i>occupational health and safety (OHS) requirements</i></b> for computer operation<br>1.3. Start computer or log on according to user procedures<br>1.4. Identify basic functions and features using system information<br>1.5. Customise desktop configuration, if necessary, with assistance from appropriate persons<br>1.6. Use help functions as required |
| 2. Navigate and manipulate desktop environment                | 2.1. Open, close and access features by selecting correct <b><i>desktop icons</i></b><br>2.2. Open, resize and close desktop windows by using correct window functions and roles<br>2.3. Create shortcuts from the desktop, if necessary, with assistance from appropriate persons                                                                                                                                                                                                                                                          |
| 3. Organise files using basic directory and folder structures | 3.1. Create folders/subfolders with suitable names<br>3.2. Save files with suitable names in appropriate folders<br>3.3. Rename and move folders/subfolders and files as required<br>3.4. Identify folder/subfolder and <b><i>file attributes</i></b><br>3.5. Move folders/subfolders and files using cut and paste, and drag and drop techniques<br>3.6. Save folders/subfolders and files to <b><i>appropriate</i></b>                                                                                                                    |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- literacy skills to identify work requirements, to comprehend basic workplace documents, to interpret basic user manuals and to proofread simple documents
- communication skills to identify lines of communication, to request advice, to effectively question, to follow instructions and to receive feedback
- problem-solving skills to solve routine problems in the workplace, while under direct supervision
- technology skills to use equipment safely while under direction, basic keyboard and mouse skills and procedures relating to logging on and accessing a computer
- basic typing techniques and strategies.

#### Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - OHS
- basic ergonomics of computer use
- main types and parts of computers, and basic features of different operating systems
- suitable file naming conventions.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- navigation and manipulation of the desktop environment within the range of assigned workplace tasks
- knowledge of organisational requirements for simple documents and filing conventions
- application of simple keyboard functions to produce documents with a degree of speed and accuracy relevant to the level of responsibility required.

#### Context of and specific resources for assessment

Assessment must ensure:

- access to an actual workplace or simulated environment
- access to office equipment and resources
- examples of workplace documentation.

#### Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate
- demonstration of techniques
- oral or written questioning to assess knowledge of computer operations and functions
- review of shortcuts created
- review of folders/subfolders created.

#### Guidance information for assessment

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- BSBITU102A Develop keyboard skills
- other general administration units.

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

|                                                                        |                                                                                                                                                                                                                                                                                                                                                                               |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                          | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                                                                  |
|----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Collect information           | 1.1. Collect <b>information</b> in a timely manner and ensure that it is relevant to organisational needs<br>1.2. Use <b>business equipment/technology</b> available in the work area to effectively obtain information<br>1.3. Apply <b>organisational requirements</b> relating to security and confidentiality in handling information                                                                             |
| 2. Process workplace information | 2.1. Use business equipment/technology to process information in accordance with organisational requirements<br>2.2. Process information in accordance with defined timeframes, guidelines and procedures<br>2.3. Update, modify and file information in accordance with organisational requirements<br>2.4. Collate and despatch information in accordance with specified timeframes and organisational requirements |
| 3. Maintain information systems  | 3.1. Maintain information and filing systems in accordance with organisational requirements<br>3.2. Identify, <b>remove</b> and/or <b>relocate inactive or dead files</b> in accordance with organisational requirements<br>3.3. Establish and assemble new files in accordance with organisational requirements<br>3.4. Update reference and index systems in accordance with organisational requirements            |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- literacy skills to read and understand organisation's recordkeeping and information systems(including classification systems), to follow sequenced written instructions and to comprehend/interpret nature of record content
- numeracy skills to sequence and index files
- planning skills to organise work priorities and arrangements
- problem-solving skills to solve routine problems
- technology skills to select and use technology appropriate to maintaining workplace information.

#### Required knowledge

- key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety
- organisational policies and procedures relating to collecting and processing workplace information
- organisational recordkeeping/filing systems and security procedures
- organisation's business and structure
- range of filing systems including paper-based and software-based.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Overview of assessment

| <b>EVIDENCE GUIDE</b>                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

regional contexts) may also be included.

**Information** may include:

- computer databases (library catalogue, customer records)
- computer files (letters, memos and other documents)
- correspondence (faxes, memos, letters, email)
- forms (insurance forms, membership forms)
- invoices (from suppliers, to debtors)
- minutes of meetings
- personnel records (personal details, salary rates)
- sales records (monthly forecasts, targets achieved)

**Business equipment/technology** may include:

- answering machine
- binder
- computer
- fax machine
- filing systems (manual/computerised/electronic)
- photocopier
- printer
- telephone

**Organisational requirements** may include:

- despatching and collecting procedures
- legal and organisational policies, guidelines and requirements
- OHS policies, procedures and programs
- procedures for deciding which records should be captured and filed
- procedures for updating records
- security procedures

**Removing inactive or dead files** may include:

- compressing computer files prior to archiving
- periodically archiving or deleting files
- transferring files at regular intervals or routinely checking for dead or inactive files
- transferring records from the active filing system to secondary storage

**Relocating inactive or dead files** may include:

- electronic (email, internet access, diskette, tape, CD-ROM)
- microfilm
- photographic material

| individual differences | <p>verbal and non-verbal communication</p> <p>3.3. Use communication to develop and maintain positive relationships, mutual trust and confidence</p> <p>3.4. Make efforts to use basic strategies to overcome language barriers</p> <p>3.5. Ensure that behaviour is consistent with legislative requirements, enterprise guidelines and/or social protocols</p> |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- communication skills to request advice, to receive feedback and to work with a team
- culturally appropriate communication skills to relate to people from diverse backgrounds and people with diverse abilities
- literacy skills to identify work requirements, and to understand and process basic workplace documentation
- organisational skills to plan work priorities and arrangements
- technology skills to select and use technology appropriate to communication tasks.

#### Required knowledge

- key provisions of relevant legislation from all forms of government that may affect aspects of business operations, such as:
  - anti-discrimination legislation
  - ethical principles
  - codes of practice
  - privacy laws
  - occupational health and safety (OHS)
- organisational policies, plans and procedures, especially style guide
- spelling, grammar and punctuation.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- using communication methods appropriate to the audience
- producing clear, concise and correct written communication
- providing prompt responses to requests for information
- knowledge of relevant legislation.

#### Context of and specific resources for assessment

Assessment must ensure:

- access to an actual workplace or simulated environment
- access to office equipment and resources
- examples of workplace documents, including policies and procedures relating to communication.

#### Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate
- review of written information and ideas
- demonstration of techniques
- observation of presentations
- review of correspondence and completed workplace forms and documentation
- assessment of presentation of written information.

#### Guidance information for assessment

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:

- other general administration units.

## Range Statement

### RANGE STATEMENT

The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.

|                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

## Elements and Performance Criteria Pre-Content

|                                                                   |                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Elements describe the essential outcomes of a unit of competency. | Performance criteria describe the performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge section and the range statement. Assessment of performance is to be consistent with the evidence guide. |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Elements and Performance Criteria

| ELEMENT                            | PERFORMANCE CRITERIA                                                                                                                                                                                                                                                                                                                                                 |
|------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. Select equipment or resources   | 1.1. Identify and access <b><i>business equipment</i></b> or <b><i>resources</i></b> required to complete task under direct instructions<br>1.2. Estimate quantities and resources correctly to complete the task<br>1.3. Check equipment for serviceability in accordance with <b><i>equipment instructions</i></b>                                                 |
| 2. Operate equipment               | 2.1. Operate equipment in accordance with manufacturer's specifications and under direct instructions<br>2.2. Identify equipment faults accurately and take action to ensure equipment is repaired in accordance with manufacturer's specifications<br>2.3. Report repairs outside area of own responsibility to <b><i>appropriate persons</i></b>                   |
| 3. Maintain equipment or resources | 3.1. Maintain equipment or resources to support completion of tasks under direct instructions<br>3.2. Undertake <b><i>maintenance</i></b> to ensure equipment meets manufacturer's specifications<br>3.3. Maintain <b><i>records</i></b> concerning equipment or resources under direct instructions<br>3.4. Store equipment and resources under direct instructions |

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This section describes the skills and knowledge required for this unit.

#### Required skills

- literacy skills to identify work requirements and to process basic, relevant workplace documentation
- communication skills to identify lines of communication, to request advice, to effectively question, to follow instructions, to receive feedback and to report equipment faults
- problem-solving skills to solve routine problems related to business equipment and to determine appropriate fault repair actions while under direct supervision
- technology skills to use business equipment under direct supervision.

#### Required knowledge

- key provisions of relevant legislation from all levels of government that may affect aspects of business operations, such as:
  - occupational health and safety (OHS)
- functions of a range of business equipment
- correct shut-down procedures for a range of business equipment
- common equipment faults
- routine maintenance procedures.

## Evidence Guide

### EVIDENCE GUIDE

The Evidence Guide provides advice on assessment and must be read in conjunction with the performance criteria, required skills and knowledge, range statement and the Assessment Guidelines for the Training Package.

#### Overview of assessment

#### Critical aspects for assessment and evidence required to demonstrate competency in this unit

Evidence of the following is essential:

- demonstrated application of appropriate maintenance procedures.
- knowledge of the functions of a range of business equipment
- operation of a range of business equipment.

| <b>EVIDENCE GUIDE</b>                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|---------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Context of and specific resources for assessment</b> | <p>Assessment must ensure:</p> <ul style="list-style-type: none"> <li>• access to an actual workplace or simulated environment</li> <li>• access to office equipment and resources</li> <li>• examples of operational and maintenance manual and records.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| <b>Method of assessment</b>                             | <p>A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:</p> <ul style="list-style-type: none"> <li>• direct questioning combined with review of portfolios of evidence and third party workplace reports of on-the-job performance by the candidate</li> <li>• analysis of responses to case studies and scenarios</li> <li>• observation of demonstrated techniques in operating and maintaining business equipment</li> <li>• oral or written questioning to assess knowledge of the operation and maintenance of business equipment</li> <li>• review of records concerning equipment or resources.</li> </ul> |
| <b>Guidance information for assessment</b>              | <p>Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended, for example:</p> <ul style="list-style-type: none"> <li>• other general administration units.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## Range Statement

| <b>RANGE STATEMENT</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                                                                                                                                          |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p>The range statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Bold italicised wording, if used in the performance criteria, is detailed below. Essential operating conditions that may be present with training and assessment (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) may also be included.</p> |                                                                                                                                                          |
| <b><i>Business equipment</i></b> may include:                                                                                                                                                                                                                                                                                                                                                                                                                                        | <ul style="list-style-type: none"> <li>• answering machine</li> <li>• binder</li> <li>• fax machine</li> <li>• photocopier</li> <li>• printer</li> </ul> |

# HLTIN301C Comply with infection control policies and procedures

## Modification History

Not Applicable

## Unit Descriptor

### Descriptor

This unit of competency describes the skills and knowledge required for workers to comply with infection control policies and procedures. All procedures must be carried out in accordance with current infection control guidelines, Australian and New Zealand Standards for maintaining infection control and the policies and procedures of the organisation

This unit acknowledges the importance of complying with an effective infection control strategy that ensures the safety of the client (or end-user of health-related products/services), maintains personal protection and prevents the transmission of infections from person to person

All tasks must be carried out in accordance with State or Territory legislative requirements that affect work practices of the organisation and/or worker

## Application of the Unit

### Application

This unit is applicable to workers who are responsible for following workplace procedures to maintain infection control

Application of this unit should be contextualised to reflect any specific workplace infection risks, hazards and associated infection control practices

## Licensing/Regulatory Information

Not Applicable

## Pre-Requisites

Not Applicable

## Employability Skills Information

**Employability Skills** This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Follow infection control guidelines

- 1.1 Demonstrate the application of *standard precautions* to prevent the spread of infection in accordance with organisation requirements
- 1.2 Demonstrate the application of *additional precautions* when standard precautions alone may not be sufficient to prevent transmission of infection
- 1.3 *Minimise contamination* of materials, equipment and instruments by aerosols and splatter

2. Identify and respond to infection risks

- 2.1 Identify *infection risks* and implement an appropriate response within own role and responsibility
- 2.2 Document and report activities and tasks that put clients and/or other workers at risk
- 2.3 Respond appropriately to situations that pose an

**ELEMENT****PERFORMANCE CRITERIA**

infection risk in accordance with the policies and procedures of the organisation

2.4 Follow *procedures for risk control* and risk containment for specific risks

2.5 Follow *protocols for care following exposure to blood or other body fluids* as required

2.6 Place appropriate signs when and where appropriate

2.7 Remove spills in accordance with the policies and procedures of the organisation

3. Maintain personal hygiene

3.1 Maintain hand hygiene by washing hands before and after client contact and/or after any activity likely to cause contamination

3.2 Follow *handwashing procedures*

3.3 Implement *hand care* procedures

3.4 Cover cuts and abrasions with water-proof dressings and change as necessary

4. Use personal protective equipment

4.1 Wear personal *protective clothing and equipment* that complies with Australian/New Zealand Standards, and is appropriate for the intended use

4.2 Change protective clothing and gowns/aprons daily, more frequently if soiled and where appropriate, after each client contact

5. Limit contamination

5.1 Demarcate and maintain clean and contaminated zones in all aspects of health care work

5.2 Confine records, materials and medicaments to a well-designated *clean zone*

5.3 Confine contaminated instruments and equipment to a well-designated *contaminated zone*

6. Handle, package, label, store, transport and dispose of

6.1 Wear appropriate personal protective clothing and equipment in accordance with occupational health and

**ELEMENT****PERFORMANCE CRITERIA**

clinical and other waste

safety policies and procedures when handling waste

6.2 Separate waste at the point where it has been generated and dispose of into waste containers that are colour coded and identified

6.3 Store clinical or related waste in an area that is accessible only to authorised persons

6.4 Handle, package, label, store, transport and dispose of waste appropriately to minimise potential for contact with the waste and to reduce the risk to the environment from accidental release

6.5 Dispose of waste safely in accordance with policies and procedures of the organisation and legislative requirements

7. Clean environmental surfaces

7.1 Wear personal protective clothing and equipment during *cleaning procedures*

7.2 Remove all dust, dirt and physical debris from work surfaces

7.3 Clean all work surfaces with a neutral detergent and warm water solution before and after each session or when visibly soiled

7.4 Decontaminate equipment requiring special processing in accordance with quality management systems to ensure full compliance with cleaning, disinfection and sterilisation protocols

7.5 Dry all work surfaces before and after use

7.6 Replace surface covers where applicable

7.7 Maintain and store cleaning equipment

**Required Skills and Knowledge****REQUIRED SKILLS AND KNOWLEDGE**

## REQUIRED SKILLS AND KNOWLEDGE

To demonstrate competence for this unit the worker must acquire the essential knowledge and skills described:

### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- Additional precautions
- Aspects of infectious diseases including:
  - opportunistic organisms
  - pathogens
- Basic microbiology including:
  - bacteria and bacterial spores
  - fungi
  - viruses
- Clean and sterile techniques
- Disease transmission:
  - paths of transmission including direct contact, aerosols and penetrating injuries
  - risk of acquisition
  - sources of infecting microorganisms including persons who are carriers, in the incubation phase of the disease or those who are acutely ill
- Effective hand hygiene:
  - procedures for routine handwash
  - procedures for surgical handwash
  - when hands must be washed
- Good personal hygiene practice including hand care
- Identification and management of infectious risks in the workplace
- Organisation requirements relating to immunisation, where applicable
- Personal protective equipment:
  - guidelines for glove use
  - guidelines for wearing gowns and waterproof aprons
  - guidelines for wearing masks as required
  - guidelines for wearing protective glasses
- Standard precautions
- Susceptible hosts including persons who are immune suppressed, have chronic diseases such as diabetes and the very young or very old

## REQUIRED SKILLS AND KNOWLEDGE

- Surface cleaning:
  - cleaning procedures at the start and end of the day
  - managing a blood or body fluid spill
  - routine surface cleaning
- Sharps handling and disposal techniques
- The organisation's infection control policies and procedures

### *Essential skills:*

It is critical that the candidate demonstrate the ability to:

- Consistently apply handwashing, personal hygiene and personal protection protocols
- Consistently apply clean and sterile techniques
- Consistently apply protocols to limit contamination

In addition, the candidate must be able to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Apply standard precautions:
  - consistently ensure instruments used for invasive procedures are sterile at time of use (where appropriate)
  - consistently follow the procedure for washing and drying hands
  - consistently limit contamination
  - consistently maintain clean surfaces and manage blood and body fluid spills
  - consistently protect materials, equipment and instruments from contamination until required for use
  - consistently put into practice clean and sterile techniques
  - consistently use personal protective equipment
- Apply additional precautions when standard precautions are not sufficient
- Take into account opportunities to address waste minimisation, environmental responsibility and sustainable practice issues

## Evidence Guide

### EVIDENCE GUIDE

## EVIDENCE GUIDE

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- Observation of workplace performance is preferred for assessment of this unit
- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- The assessee must demonstrate compliance with the organisation's infection control policy as it relates to specific job role
- Consistency of performance should be demonstrated over the required range of workplace situations

*Context of and specific resources for assessment:*

- Assessment should replicate workplace conditions as far as possible
- Where, for reasons of safety, access to equipment and resources and space, assessment takes place away from the workplace, simulations should be used to represent workplace conditions as closely as possible

*Method of assessment*

- Evidence of essential knowledge and understanding may be provided by:
  - traditional or online (computer-based) assessment
  - written assignments/projects
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Questioning
- Staff and/or client feedback
- Supporting statement of supervisor
- Authenticated evidence of relevant work experience and/or formal/informal learning
- Role play/simulation

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and

## EVIDENCE GUIDE

Torres Strait Islander people

- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance.

*Standard precautions include:*

- Aseptic technique
- Personal hygiene practices especially washing and drying hands (eg. before and after client contact)
- Use of personal protective equipment
- Techniques to limit contamination
- Surface cleaning and management of blood and body fluid spills
- Safe handling of sharps
- Safe disposal of sharps and other clinical waste
- Appropriate reprocessing and storage of reusable instruments

*Additional precautions may include:*

- Special ventilation requirements
- Additional use of personal protective equipment
- Dedicated equipment (eg. to each client or as appropriate to work function)
- Use of a special facility

*Minimising contamination may include but is not limited to:*

- Protecting materials, equipment and instruments from contamination until required for use
- Ensuring instruments used for invasive procedures are sterile at time of use

**RANGE STATEMENT**

|                                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| <i>Hand hygiene procedures may include:</i>                                                                    | <ul style="list-style-type: none"><li>• Routine handwash</li><li>• Surgical handwash</li><li>• Use of antiseptic wipes and alcohol based preparations in specific situations where waterless hand hygiene is acceptable</li></ul>                                                                                                                                                                                                                                                  |

## RANGE STATEMENT

*Hand care may include but is not limited to:*

- Suitable water-based hand creams that are registered on the Australian Register of Therapeutic Goods
- Using warm water for handwashing
- Drying hands thoroughly after handwashing
- Wearing heavy-duty utility gloves when handling irritant chemicals

*Protective clothing and equipment may include but are not limited to :*

- Gowns and waterproof aprons that comply with Australian/New Zealand standards
- Examination gloves and surgical gloves that comply with current Australian/New Zealand standards
- Glasses, goggles or face-shields
- Surgical face masks that comply with current Australian/New Zealand standards
- Footwear to protect from dropped sharps and other contaminated items
- Guidelines for latex allergic clients and staff

*Clean zone includes but is not limited to:*

- Storage areas for materials, medicaments, equipment
- Sterile storage areas
- Administration areas

*Contaminated zone includes but is not limited to:*

- Area used for items that have become contaminated during use
- Receiving area for contaminated instruments in the instrument reprocessing centre

*Waste may include but is not limited to:*

- Clinical waste:
  - discarded sharps
  - human tissues
  - laboratory waste
  - any other waste as specified by the workplace
- Related waste:
  - radiographic waste
  - chemical and amalgam waste
  - cytotoxic waste

**RANGE STATEMENT**

- pharmaceutical waste
- radioactive waste
- General waste

*Disposal of waste requirements may include:*

- Disposal in accordance with:
  - Environment Protection (Waste Management) Policy
  - Environment Protection (Waste Management) Regulations
  - Australian and New Zealand standards
  - Organisation policies and procedures

*Cleaning procedures include but are not limited to*

- Damp dusting benches, equipment and shelving
- Maintaining the interior of drawers and cupboards in a clean and tidy state
- Cleaning floors daily using a mop and water and detergent
- Storing cleaning equipment clean and dry
- Managing the removal of a small blood or body fluid spill

**Unit Sector(s)**

Not Applicable

## **HLTHIR404D Work effectively with Aboriginal and/or Torres Strait Islander people**

### **Modification History**

Not Applicable

### **Unit Descriptor**

#### **Descriptor**

This unit describes the communication and work practice skills and knowledge required to work with Aboriginal and Torres Strait Islander people in the health industry context

It deals specifically with cross-cultural awareness and issues involving working with Aboriginal and Torres Strait Islander individuals, organisations and communities

### **Application of the Unit**

#### **Application**

The unit applies equally to those operating in health care policy or program planning, development and evaluation contexts or in direct service delivery contexts

Application of this unit should be contextualised to reflect any requirements, issues and practices specific to each workplace and/or local community

### **Licensing/Regulatory Information**

Not Applicable

### **Pre-Requisites**

Not Applicable

## Employability Skills Information

### Employability Skills

This unit contains Employability Skills

## Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency.

The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in *italics* are elaborated in the Range Statement.

## Elements and Performance Criteria

### ELEMENT

### PERFORMANCE CRITERIA

1. Reflect an awareness of Aboriginal and Torres Strait Islander history and cultures in work practices

- 1.1 Acknowledge and respect the impact of *events and issues in Aboriginal and/or Torres Strait Islander history* during service delivery
- 1.2 Demonstrate knowledge of and respect for the diversity of culture, skin and language groups, family structures, art and religion in Indigenous cultures as part of service delivery

2. Reflect an awareness of own and other cultural realities in work practices

- 2.1 Identify the potential impact of cultural factors on service delivery to Aboriginal and/or Torres Strait Islander clients
- 2.2 Address cultural realities in order to facilitate full participation in service delivery by Aboriginal and/or Torres Strait Islander clients and/or co-workers
- 2.3 Negotiate appropriate *strategies to effectively accommodate cultural differences* in the workplace
- 2.4 Identify and utilise resources to facilitate effective service delivery in a cross cultural context
- 2.5 Ensure work practices used in a cross cultural context are grounded in an awareness of one's own culture and the cultural realities of others

## ELEMENT

## PERFORMANCE CRITERIA

- |                                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

Reflect cultural safety in workplace and professional relationships                   | <p>4.1 Ensure workplace and professional relationships are based on mutual respect, tolerance of diversity and a shared understanding of cultural safety</p> <p>4.2 Identify critical issues influencing workplace and professional relationships with Aboriginal and/or Torres Strait Islander co-workers and clients</p> <p>4.3 Identify and utilise effective strategies to develop and maintain effective relationships with Aboriginal and/or Torres Strait Islander co-workers and clients as appropriate</p> <p>4.4 Take responsibility for revisiting strategies to assist in the resolution of any difficulties, differences or misunderstandings that may occur</p>                                                                                           |
| 5. Work in partnership with Aboriginal and Torres Strait Islander people and communities | <p>5.1 Develop and implement strategies to increase participation of Aboriginal and Torres Strait Islander people in health service delivery</p> <p>5.2 Ensure delivery of health care, services and programs reflect culturally safe and appropriate practice</p> <p>5.3 Ensure health care, services and programs encourage self-determination and community control to ensure improved health outcomes</p>                                                                                                                                                                                                                                                                                                                                                           |

## ELEMENT

## PERFORMANCE CRITERIA

5.4 Identify and utilise resources to promote effective partnerships with Aboriginal and/or Torres Strait Islander people, organisations and communities

5.5 Support the development of effective partnerships between staff, Aboriginal and Torres Strait Islander people and their communities to facilitate accessibility, affordability, accountability, acceptability of appropriate healthcare and workplace services

## Required Skills and Knowledge

### REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

#### *Essential knowledge:*

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- An understanding of Aboriginal and Torres Strait Islander culture and history, the impact of European settlement, loss of land and culture, the importance of law and kinship
- Appreciation of cultural shock and its impact on health and well being
- Basic understanding and awareness of the differences between cultures, particularly the cultures of Aboriginal and Torres Strait Islander people and others
- Factors which contribute to Aboriginal and Torres Strait Islander ill health and common diseases experienced by these groups of people
- Knowledge of availability of interpreter resources
- Relevant legislation and policies, which may include:
  - codes of practice
  - commonwealth, and/or territory/state legislation
  - community standards and regulations
  - organisation's policies and practices
- Understanding and awareness of the diversity of Aboriginal and Torres Strait Islander

## REQUIRED SKILLS AND KNOWLEDGE

cultures

- Understanding and awareness of the social, political and economic issues affecting Aboriginal and Torres Strait Islander people
- Understanding of own culture, western systems and structures and how this impacts on Aboriginal and Torres Strait Islander cultures
- Understanding of past and present power relations and its impact on the workplace and communities
- Understanding of racism and discrimination, and laws pertaining to these issues

### *Essential skills:*

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Advocate for anti racism
- Demonstrate respect for a person and their culture
- Form effective relationships with a person from another culture
- Form mutual mentoring arrangements with Aboriginal and/or Torres Strait Islander people
- Participate in developing and implementing strategies for sharing power and facilitating participation, self-determination and self-control by Aboriginal and Torres Strait Islander people and communities
- Participate in identifying and implementing culturally safe work practices
- Reflect on actions and events to make and maintain cross cultural relationships
- Reflect on self and make changes to work in a cross cultural context
- Sensitively and respectfully communicate in a cross cultural context
- Use cultural safety approaches

## Evidence Guide

### EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

## EVIDENCE GUIDE

*Critical aspects for assessment and evidence required to demonstrate this competency unit:*

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- This unit may be assessed both on and off job
- In order to work with local Aboriginal and/or Torres Strait Islander communities, workers must demonstrate an understanding of Aboriginal and/or Torres Strait Islander culture and history, the local community and other communities
- Assessment of this unit is recommended to involve a person who is Aboriginal or Torres Strait Islander or who has worked closely with Aboriginal and/or Torres Strait Islander people and communities
- Assessment should be conducted on more than one occasion to cover a variety of circumstances to establish consistency
- Holistic assessment of this competency unit is encouraged, to ensure application of these skills in conjunction with specific work functions in the health industry but the unit may be delivered and assessed independently

*Access and equity considerations:*

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

*Products that are required as evidence include:*

- Documentation on the development and implementation of strategies employed to address issues identified in relation to:
  - cultural differences

## EVIDENCE GUIDE

- workplace communication
- workplace and professional relationships
- Aboriginal and Torres Strait Islander participation, self-determination, and community control in relation to health care policies, programs and/or service delivery

*Processes that are required as evidence include:*

- How opportunities were provided for Aboriginal and Torres Strait Islander participation in the planning, delivery and evaluation of health care policies, programs or services
- Why particular communication strategies and/or work practices were chosen or modified
- How resources were identified and utilised to:
  - facilitate service delivery in a cross cultural context
  - facilitate effective communication within the workplace
  - promote effective partnerships

## Range Statement

### RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

- Cultural differences may include:*
- Interpersonal approach
  - Thinking/learning styles
  - Expectations
  - Responsibilities
  - Priority setting
  - Experience and working styles

## RANGE STATEMENT

|                                                                                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
