Description

This qualification covers the skills and knowledge required by optical dispensers, to dispense and supply optical appliances as prescribed by optometrists and/or ophthalmologists in accordance with Australian Standards.

The units of competency included in this qualification contribute to the gaining of an optical dispenser's licence where this is required. Optical dispensers practice in a range of environments including optical dispensaries, optometric practices and laboratories. They may be self-employed or employed by another optical dispenser, an optometrist, a major optical dispensing company or other retailers.

This qualification is suited to Australian Apprenticeship pathways.
