This unit contains Employability Skills

Elements and Performance Criteria Pre-Content

Elements define the essential outcomes of a unit of competency. The Performance Criteria specify the level of performance required to demonstrate achievement of the Element. Terms in italics are elaborated in the Range Statement.

Elements and Performance Criteria

**ELEMENT** | **PERFORMANCE CRITERIA**
---|---

1. Demonstrate commitment to the central philosophies of TCM remedial massage

1.1 Define TCM remedial massage and the TCM remedial massage system of medicine

1.2 Provide an overview of the historical development of TCM remedial massage

1.3 Identify and explain the *central philosophies of TCM remedial massage*

1.4 Apply TCM remedial massage philosophy to own health practices

1.5 Draw on TCM remedial massage philosophy to interpret health issues

2. Identify and describe the principles and practices of TCM remedial massage

2.1 Identify and describe *TCM remedial massage assessment techniques*

2.2 Identify and describe *major methods of treatment* used in TCM remedial massage

2.3 Identify and describe *other complementary therapies* used in TCM remedial massage
ELEMENT

3. Develop knowledge of complementary therapies

PERFORMANCE CRITERIA

3.1 Provide information on other complementary therapies
3.2 Identify the relationship between therapies

4. Represent TCM remedial massage framework to the community

PERFORMANCE CRITERIA

4.1 Explain practices and principles of TCM remedial massage in an easily understood way in a one-to-one and group setting
4.2 Clarify enquiries and provide appropriate information
4.3 Make requests for clients to bring relevant data to the consultation
4.4 Discuss alternative sources of information/advice with the client

5. Work within clinic and regulation guidelines

PERFORMANCE CRITERIA

5.1 Access and follow clinic guidelines
5.2 Access and follow legal and regulatory guidelines
5.3 Undertake relevant documentation

Required Skills and Knowledge

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge and their level required for this unit.

Essential knowledge:

The candidate must be able to demonstrate essential knowledge required to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes knowledge of:

- A range of alternative and complementary therapies
- Basic TCM remedial massage terminology and pronunciation
REQUIRED SKILLS AND KNOWLEDGE

- Ethical issues in natural medicine
- How TCM remedial massage works with the conventional medical model
- OHS requirements in the workplace
- Philosophical tradition of western and eastern massage
- Sociology of health and the health care system
- The current political context of health care
- The dynamic interchange between the physical, mental, social, environmental and spiritual landscape
- The effects of TCM remedial massage application to the body surface
- The fundamental theories of TCM remedial massage including qi xue, jin-ye, shen and jing, yin and yang, wu xing, jing luo, zang fu, curious fu, TCM remedial massage diagnosis and the concept of patterns of disharmony, function and dysfunction according to TCM remedial massage, major points and functions, origins and development of disease
- The history and development of TCM remedial massage
- The philosophies, principles and tools of TCM remedial massage practice
- The philosophy, principles and practices of other alternative and complementary therapies including Shiatsu, Naturopathy, massage
- The principles of TCM remedial massage therapy and its epistemology within the therapeutic systems of the east and west
- The qualitative, quantitative, cultural and traditional lines of evidence used in TCM remedial massage
- The rationalistic, analytical approach to an understanding of disease
- The TCM remedial massage integration of these approaches to health
- The vitalistic, empirical approach to health

Essential skills:

It is critical that the candidate demonstrate the ability to effectively do the task outlined in elements and performance criteria of this unit, manage the task and manage contingencies in the context of the identified work role

This includes the ability to:

- Appropriately record details of client enquiries according to clinic guidelines
- Correctly identify client information needs
- Demonstrate communication skills in a one-to-one and group setting
- Explain relevant products and services
- Provide client with required information
- Work or model work which demonstrates an understanding of underpinning values and philosophies in the TCM remedial massage framework
Evidence Guide

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, the Range Statement and the Assessment Guidelines for this Training Package.

Critical aspects for assessment and evidence required to demonstrate this competency unit:

- The individual being assessed must provide evidence of specified essential knowledge as well as skills
- Observation of performance in the workplace or a simulated workplace (defined as a supervised clinic) is essential for assessment of this unit
- Consistency of performance should be demonstrated over the required range of situations relevant to the workplace
- Where, for reasons of safety, space, or access to equipment and resources, assessment takes place away from the workplace, the assessment environment should represent workplace conditions as closely as possible

Context of and specific resources for assessment:

- An appropriately stocked and equipped clinic or simulated clinic environment
- Relevant texts or medical manuals
- Relevant paper-based/video assessment instruments
- Appropriate assessment environment
- Skilled assessors
EVIDENCE GUIDE

Method of assessment

- Observation in the work place (if possible)
- Written assignments/projects or questioning should be used to assess knowledge
- Case study and scenario as a basis for discussion of issues and strategies to contribute to best practice
- Short tests and essays
- Oral questioning and discussion
- Clinical skills involving direct client care are to be assessed initially in a simulated clinical setting (laboratory). If successful, a second assessment is to be conducted during workplace application under direct supervision

Access and equity considerations:

- All workers in the health industry should be aware of access and equity issues in relation to their own area of work
- All workers should develop their ability to work in a culturally diverse environment
- In recognition of particular health issues facing Aboriginal and Torres Strait Islander communities, workers should be aware of cultural, historical and current issues impacting on health of Aboriginal and Torres Strait Islander people
- Assessors and trainers must take into account relevant access and equity issues, in particular relating to factors impacting on health of Aboriginal and/or Torres Strait Islander clients and communities

Related units:

This unit should be assessed in conjunction with the following related units:

- HLTHIR501B Maintain an effective health work environment
Range Statement

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. Add any essential operating conditions that may be present with training and assessment depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts.

Central philosophies of Traditional Chinese Massage (TCM) remedial massage include:

- Qi xue
- Jin-ye
- Shen and jing
- Yin and yang
- Wu xing
- Jing luo
- Zang fu
- Curious fu
- Patterns of disharmony
- Causes of illnesses

Major methods of treatment include:

- Acupressure
- An mo
- Tui na
- Gua sha
- Moxibustion
- Cupping
- A range of TCM remedial massage sequences and techniques

Other complementary therapies may include:

- Therapies in which the practitioner is trained or informed
RANGE STATEMENT

**TCM remedial massage**
assessment techniques may include:

- Examination of physical features
- Palpation
- Observation
- Listening and smelling
- Taking of blood pressure, temperature, radial pulse rate and quality
- Percussion
- Listening to heart and chest sounds using a stethoscope
- TCM pattern differentiation
- Discussion/questioning
- Any other method in which the practitioner has been trained to a competent standard
- Procedure which is conducted according to legislative and regulatory requirements

**Information on other complementary therapies may include:**

- Historical development
- Current availability
- Tools and techniques
- Interactions between different therapies
- When therapies may be used
- Underpinning philosophy

**Relationship between therapies may include:**

- Contra-indications to treatment
- Effects of one treatment over or with another
- Treatment according to stage of condition

**Enquiries may require explanation of:**

- Duration of treatment
- Expected treatment outcomes
- Possible approaches to treatment
- Estimated cost of treatment
- Availability of health fund rebates
- Work cover eligibility
- Professional status of practitioner
- Availability of home visits
- After hours service
- Provision for hospital visits
RANGE STATEMENT

Appropriate information may include:
- Confirmation of appointment date and time
- Clinic location and directions
- Cost of initial consultation
- Payment options

Clinic’s guidelines may include:
- Procedures and guidelines
- Purpose or mission statement
- Code of ethics or practice
- Level of competency and degree of supervision
- Partnership/group decisions, agreed practice

Legal and regulatory guidelines may include:
- OHS guidelines
- Anti-discrimination legislation
- Privacy Act
- Infection control

Relevant documentation may include:
- Nature of enquiry
- Client contact details
- Recording of incidents
- Appointment details
