ICPCBF2820 Produce basic laminated product

Release: 1

ICPCBF2820 Produce basic laminated product

Modification History

Release	Comments
Release 1	This version first released with ICP Printing and Graphic Arts Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to produce basic laminated product, monitor and adjust machinery, maintain transportation of the substrate, identify and rectify faults, and clean and shut down equipment.

It applies to individuals who work under direct supervision, and who are responsible for operating and monitoring equipment and machinery.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Converting, Binding and Finishing

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Maintain reel transportation system	1.1 Monitor and adjust reel stand 1.2 Monitor and adjust web control system according to tension and positioning requirements 1.3 Add substrate to the process according to job specifications 1.4 Monitor and adjust reel rewind section according to tension requirements and confirm no marks, blemishes or damage to finished product has occurred 1.5 Remove substrate from process according to job specifications 1.6 Monitor and adjust sheeting section
2. Maintain basic	2.1 Monitor and adjust registration of laminating according to

ELEMENT	PERFORMANCE CRITERIA
laminating process	sample standard requirements 2.2 Monitor and adjust pressures 2.3 Monitor and adjust adhesion
3. Maintain production process	3.1 Monitor and adjust basic in-line process(es) according to sample standard requirements 3.2 Use machine controls as required 3.3 Monitor and verify performance using the process control system 3.4 Report process adjustments to eliminate problems according to enterprise procedures
4. Identify and rectify problems and faults	4.1 Identify and report problems in laminating machine according to enterprise procedures 4.2 Carry out adjustments and corrections as required and according to manufacturer specifications and within scope of own role 4.3 Identify machine faults requiring repair and report to designated person according to enterprise procedures 4.4 Verify repairs and adjustments as required prior to resumption of operations
5. Conduct shutdown of production process	5.1 Follow shutdown sequence according to manufacturer specifications and enterprise procedures 5.2 Remove substrate waste from operating area and recycle and dispose of, as required, according to regulatory requirements and enterprise procedures 5.3 Clean and disengage all required parts of laminating machinery used in printing process according to manufacturer specifications and enterprise procedures 5.4 Complete required production records and enterprise documentation

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
--------------	--------------------

Reading	<ul style="list-style-type: none"> Identifies and interprets text to establish job requirements
Writing	<ul style="list-style-type: none"> Enters routine data associated with production processes and enterprise procedures
Self-management	<ul style="list-style-type: none"> Complies with regulatory requirements and follows organisational procedures relevant to own role, particularly with regard to operation and maintenance of machinery and equipment
Teamwork	<ul style="list-style-type: none"> Cooperates with others as part of familiar routine activities, and contributes to specific activities requiring joint responsibility and accountability Follows accepted practices and protocols for reporting issues to supervisors
Planning and organising	<ul style="list-style-type: none"> Takes responsibility for planning and organising own workload, identifying ways of sequencing and combining elements for greater efficiency
Problem solving	<ul style="list-style-type: none"> Identifies and anticipates an increasing range of familiar problems, their symptoms and causes; actively looking for early warning signs and implementing contingency plans
Technology	<ul style="list-style-type: none"> Follows routine procedures for using digital technology by reading data from electronic monitoring and control systems

Unit Mapping Information

Supersedes and is equivalent to ICPCBF282 Produce basic laminated product.
