Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare proofing equipment	1.1 Set up and perform maintenance on proofing equipment according to manufacturer specifications and enterprise standards 1.2 Clean the working environment according to work health and safety (WHS) requirements 1.3 Prepare materials for proofing
2. Prepare and expose proof	2.1 Identify job specifications and required quality level of proof 2.2 Identify and select method of proofing to meet job specifications 2.3 Identify lighting requirements for proof exposure and prepare required equipment to manufacturer specifications 2.4 Check and calibrate equipment to meet exposure requirements 2.5 Position images on proof according to job specifications 2.6 Execute proof according to job specifications and work health

ELEMENT	PERFORMANCE CRITERIA
	and safety requirements
3. Process proof	3.1 Identify required output device 3.2 Process and display proof on output device 3.3 Identify and correct any deviations in proof layout and colour according to job specifications 3.4 Prepare proof for presentation

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential to performance but not explicit in the performance criteria.

Skill	Description
Reading	Identifies and evaluates text to establish job requirements
Self-management	- Identifies and follows explicit and implicit protocols and meets expectations associated with own role - Identifies and operates within time and cost constraints when performing tasks - Initiates standard procedures when responding to familiar problems within immediate context
Planning and Organising	Determines priorities and sequences steps involved in defined, familiar tasks and identifies and assembles required resources
Problem Solving	Applies analytical processes to resolve technical problems
Technology	Identifies purposes, specific functions and key features of common digital systems and tools and operates them to design and save files in required format

Unit Mapping Information
