Assessment Requirements for ICPSCP271 Manually produce basic screen prints

Release: 1

Assessment Requirements for ICPSCP271 Manually produce basic screen prints

Modification History

Release	Comments
Release 1	This version first released with ICP Printing and Graphic Arts Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- manually produce TWO different one or two colour print runs according to job specifications, enterprise procedures and work health and safety (WHS) requirements.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify health and safety issues that apply when producing a manual print
- outline the procedure for setting up the frame relative to the position of the print image and base board
- describe the checks to be made of the ink to determine its suitability for printing on a particular substrate
- describe the checks to be made on the printed sheet when the proof print has been run off
- describe the system used for drying or curing
- explain how to determine whether a print is dried or cured prior to stacking
- outline the maintenance requirements for equipment or machinery used to produce manual prints
- explain how to clean up and dispose of waste materials used in the production of manual prints
- identify required manuals, safety and other documentation and briefly outline the relevant information in each source.

PwC's Skills for Australia

Assessment Conditions

Gather evidence to demonstrate consistent performance in conditions that are safe and replicate the workplace. Noise levels, production flow, interruptions and time variances must be typical of those experienced in the screen printing field of work and include access to cleaning chemicals and manual screen printing machines.

Assessors must satisfy NVR/AQTF assessor requirements.
