ICPSUP2820 Undertake basic machine maintenance

Release: 1

ICPSUP2820 Undertake basic machine maintenance

Modification History

Release	Comments
Release 1	This version first released with ICP Printing and Graphic Arts Training Package Version 4.0.

Application

This unit describes the skills and knowledge required to safely perform basic, routine maintenance of machines and equipment with minimum down-time.

It applies to individuals who perform a range of mainly routine tasks in various sectors of the printing and graphic arts industry, using limited practical skills and fundamental knowledge in a defined context. They generally work under supervision.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Plan and prepare for maintenance	1.1 Determine maintenance schedule and task requirements 1.2 Identify, apply and monitor work health and safety (WHS) requirements, statutory requirements, relevant Australian standards, codes of practice, manufacturer specifications, Environmental Protection Authority (EPA) requirements and enterprise procedures required for machine maintenance 1.3 Identify and obtain resources required according to manufacturer specifications and enterprise procedures
2. Carry out maintenance	2.1 Isolate machine or equipment according to WHS requirements 2.2 Clean, check and lubricate units or machine sections according

ELEMENT	PERFORMANCE CRITERIA
	to manufacturer specifications 2.3 Clean, check and lubricate feeders 2.4 Check, lubricate and maintain safety devices, gears and bearings 2.5 Machine consumables are checked and replaced if worn or damaged
3. Complete maintenance	3.1 Document wear and tear to machinery and escalate to designated personnel 3.2 Document used consumables for reordering 3.3 Dispose of used consumables according to enterprise procedures and WHS requirements

Foundation Skills

This section describes language, literacy, numeracy and employment skills incorporated in the performance criteria that are required for competent performance.

Skill	Description
Writing	Records key information related to outcomes of the job
Numeracy	Uses simple mathematical calculations and arranges sequential, numerical information
Teamwork	Uses appropriate communication protocols and conventions to report issues
Planning and organising	- Determines priorities and sequences steps involved in clearly defined familiar tasks, and identifies and assembles required resources - Takes responsibility for routine low-impact decisions within familiar situations
Problem solving	Follows clear instructions or procedures to address routine problems directly relevant to own role
Technology	Identifies purpose and some specific functions of some common digital tools used in work contexts

Range of Conditions

This section specifies different work environments and conditions that may affect performance. Essential operating conditions that may be present (depending on the work situation, needs of the candidate, accessibility of the item, and local industry and regional contexts) are included.

Machine or equipment must include at least two of the following:	• reel handling system • sheet or object handling systems • printing units • ancillary units • cutting units • folding/collating units • fastening units.
--	---

Unit Mapping Information

Supersedes and is equivalent to ICPSUP282 Undertake basic machine maintenance.
