Assessment Requirements for ICPSUP561 Implement and monitor WHS

Release: 1

Assessment Requirements for ICPSUP561 Implement and monitor WHS

Modification History

Release	Comments
Release 1	This version first released with ICP Printing and Graphic Arts Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- provide written and oral information to a work group about work health and safety (WHS) legislation, codes of practice, and organisational policies, procedures and programs
- identify and report on existing and potential hazards in the work area
- monitor and report on existing risk control measures, including identified inadequacies
- investigate hazardous events according to organisational procedures
- identify WHS training needs and implement training for a work group
- complete and store WHS records according to legal and organisational requirements
- produce a portfolio of relevant documentation to demonstrate achievement of the unit requirements (including information distributed to workers, records kept, checklists and reports.)

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify all applicable WHS legislation and codes of practice
- describe the hierarchy of control, including the preferred order of risk control measures
- outline potential hazards associated with equipment and materials used in the workplace
- explain the relevance of other management systems for WHS
- explain why levels of literacy and communication levels in the workforce need to be considered when providing information about WHS
- explain the role of the supervisor regarding implementation of WHS policies and procedures
- explain why WHS training is important
- list and describe available information sources about WHS.

Assessment Conditions

Gather evidence to demonstrate consistent performance in conditions that are safe and replicate the workplace. Noise levels, production flow, interruptions and time variances must be typical of those experienced in the Support field of work and include access to special purpose tools, equipment and materials.

Assessors must satisfy NVR/AQTF assessor requirements.
