Assessment Requirements for ICTDBS605 Develop knowledge management strategies

Release: 1

Assessment Requirements for ICTDBS605 Develop knowledge management strategies

Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- develop a complex knowledge management strategy on at least one occasion.

In the course of the above, the candidate must:

- document processes and outcomes.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- industry standard knowledge management in contemporary organisations
- differentiated impacts of organisational culture and traditional business models
- database design concepts
- internal and external information sources
- legal, ethical and security issues relating to knowledge management
- records management principles
- required government legislation that may affect business operation, including:
  - workplace health and safety (WHS) policy
  - environmental issues
  - equal opportunity
  - industrial relations
  - anti-discrimination
- organisational structures and business goals.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- industry standard equipment and materials
- industry standard software packages
- sample organisations suitable for the implementation of knowledge management
- organisational deliverables and requirements.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
