ICTDMT407 Incorporate video assets into media presentations

Release: 1

ICTDMT407 Incorporate video assets into media presentations

Modification History

Release	Comments
Release 1	This version first released with the Information and Communications Technology Training Package Version 8.0. Supersedes and is equivalent to ICTDMT501 Incorporate and edit digital video.

Application

This unit describes the skills and knowledge required to interpret video-formatting and media presentation specifications to incorporate videos into interactive media presentations. It includes designing, editing and configuring video assets.

The unit applies to individuals who may work in roles such as digital media developers and content designers, who may provide support and supervision within a team.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

Digital media technologies
