

# Assessment Requirements for ICTICT408 Create technical documentation

Release: 1

# **Assessment Requirements for ICTICT408 Create technical documentation**

### **Modification History**

Release	Comments
	This version first released with ICT Information and Communications Technology Training Package Version 1.0.

#### **Performance Evidence**

Evidence of the ability to:

- establish customer needs
- design and develop technical documentation, such as system, procedures, training material and user guides, incorporating appropriate standards
- · update document with client feedback
- prepare documentation for publication.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

## **Knowledge Evidence**

To complete the unit requirements safely and effectively, the individual must:

- describe content features, such as clarity and readability
- outline the principles of document design, web design and usability
- explain the functions and features of templates and style guides
- explain instructional design principles
- list organisational policies, procedures and standards that cover document design.

#### **Assessment Conditions**

Gather evidence to demonstrate consistent performance in conditions that are safe and replicate the workplace. Noise levels, production flow, interruptions and time variances must be typical of those experienced in the general information and communications technology (ICT) industry, and include access to:

- technical specifications
- documentation standards
- organisational resources and documentation

Approved Page 2 of 3

- information about system, platform, network or application being documented
- relevant standards
- appropriate word processing software.

Assessors must satisfy NVR/AQTF assessor requirements.
