Assessment Requirements for ICTICT451 Comply with IP, ethics and privacy policies in ICT environments

Assessment Requirements for ICTICT451 Comply with IP, ethics and privacy policies in ICT environments

Modification History

Release	Comments
Release 2	This version first released with the Information and Communications Technology Training Package Version 8.0. Minor update of unit of competency. Amendments made to wording of PE to better reflect intent.
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 6.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- evaluate at least three different types of intellectual property (IP) within an organisation and implement processes to protect them
- assist, on at least two occasions, with the development and implementation of organisational IP, ethics and privacy policy and procedures.

In the course of the above, the candidate must:

- assist with maintenance of organisational IP, ethics and privacy policy procedures
- review potential risks and non-compliance incidents
- contribute to the development of non-compliance incident recommendations.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- key legislation required to evaluate and implement IP in the ICT industry
- key policies, procedures and documentation in the ICT industry, including those related to:
  - organisational IP policies and procedures
  - codes of ethics pertinent to the ICT industry
  - privacy

- key organisational communication processes and procedures related to identifying IP, ethics and privacy policies in ICT environments.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- required organisational policies, codes of practice, legislation and standards of documentation
- workplace documentation and resources
- IP case studies and, where possible, real situations
- hardware and software applicable to applying legislative and organisational policies.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
