ICTICT509 Gather data to identify business requirements

Release: 1

ICTICT509 Gather data to identify business requirements

Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 1.0.

Application

This unit describes the skills and knowledge required to identify, analyse and document business requirements.

It applies to individuals working as systems analyst developers and project team leaders, and managers responsible for gathering data to identify business requirements.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Unit Sector

General ICT

Elements and Performance Criteria

ELEMENT	PERFORMANCE CRITERIA
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Identify key information sources	1.1 Identify information repositories across the business 1.2 Review current organisational documentation 1.3 Develop critical questions to elicit information from key stakeholders using a mixture of open and closed questions
2. Gather data	2.1 Use a wide range of information gathering techniques 2.2 Review reports and other data sources for business information 2.3 Confirm with stakeholders business critical factors relating to current and future directions of the organisation
3. Prepare data analysis for review	3.1 Analyse group and individual responses to clearly define business priorities 3.2 Document data analysis for review according to organisational standards

Foundation Skills
