**Release: 1**

# Assessment Requirements for ICTICT601 Develop ICT strategic and action plans

## Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 1.0.

## Performance Evidence

Evidence of the ability to:

- develop mission and vision statements in consultation with team members and management
- conduct a strengths, weakness, opportunities and threats (SWOT) analysis
- develop strategic directions and action plans determined by the strategic alignment of information and communications technology (ICT) directions with organisational goals
- review strategic plan and incorporate changes and improvements
- implement action plans
- evaluate strategic plans following implementation.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

## Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- discuss analysis and planning approaches to technical problems and management requirements relating to network ICT security guidelines of the organisation
- explain how to conduct a SWOT analysis
- outline the organisation's approach to:
  - developing action plans
  - monitoring strategic directions
  - setting objectives and targets
  - selecting hardware platform
- outline technology and product directions
- discuss evaluation methods used when forecasting for planning:
  - current system functionality, particularly with regard to ICT trends and developments

- internal and external operating environments
- operating systems supported by the organisation.

## Assessment Conditions

Gather evidence to demonstrate consistent performance in conditions that are safe and replicate the workplace. Noise levels, production flow, interruptions and time variances must be typical of those experienced in the general ICT industry, and include access to:

- the organisation's strategic plan
- budget and time constraints
- business objectives
- business risks
- information on a range of ICT business solutions
- outcomes of the business analysis process.

Assessors must satisfy NVR/AQTF assessor requirements.
