Assessment Requirements for ICTICT606 Develop communities of practice

Release: 1

Assessment Requirements for ICTICT606 Develop communities of practice

Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 1.0.

Performance Evidence

Evidence of the ability to:

- identify and map appropriate areas for communities of practice (CoPs) for an organisation
- identify and manage the provision of enabling methodologies
- foster and encourage participation in CoP
- facilitate the development of CoP.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- define ‘communities of practice’ and describe their purpose in an organisation
- outline organisational structures, goals and knowledge, and how they apply to CoPs
- identify and compare communications enabling technologies
- discuss group dynamics and its impact on building CoPs
- describe techniques to promote, market and engage with CoPs and the enabling technologies.

Assessment Conditions

Gather evidence to demonstrate consistent performance in conditions that are safe and replicate the workplace. Noise levels, production flow, interruptions and time variances must be typical of those experienced in the general information and communications technology (ICT) industry, and include access to:

- an organisational structure, goals and knowledge
- a site where CoP may be developed.

Assessors must satisfy NVR/AQTF assessor requirements.
