# Assessment Requirements for ICTICT618 Manage IP, ethics and privacy in ICT environments

## Modification History

Release	Comments
Release 1	This version first released with ICT Information and Communications Technology Training Package Version 6.0.

## Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- analyse legislation and standards and contribute to the review of at least three different policies including IP, ethical conduct and privacy in an organisation.
- In the course of the above, the candidate must:
- communicate policy change to required personnel.

## Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- federal and state/territory legislation and policy relevant to an ICT environment relating to:
  - copyright and intellectual property
  - privacy
- processes and procedures by which an organisation communicates its policies and procedures
- organisational requirements for customer service relating to managing copyright, ethics and privacy in ICT environments
- industry standard ICT system security systems and procedures relating to managing IP, copyright, ethics and privacy in ICT environments.

## Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- required organisational policies

- legislation and standards documentation
- industry codes of practice.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
